LULL IN THE FIGHTING ON BRITISH FRONT

TYPHUS EPIDEMIC RAGING IN GERMANY — FRONTIERS CLOSED — PRESS STOPPED

FRESH TROOPS HURRYING UP TO FRONT LINE

Lull in Battle on British Front, Meantime—Apparently Deadlock Now Exists—Fresh Troops Sent Up.

(Special to The Daily News.)
London, May 2.—A deadlock is apparent along the whole British front today. General Haig's only report of the fighting was of another night raid which was carried out successfully by his forces to the north of Ypres, where a few German prisoners were taken. Elsewhere he reports "nothing special."

A Deadlock.
Both sides appear to be deadlocked from Arleux en Gobelle to the south of Monchy. The tremendous fighting on Saturday and Sunday has seemingly brought a period of temporary abatement, during which both sides are hurrying up fresh troops and materials for a renewal at a later time.

French Front.
Paris, May 2.—In a powerful attack in the Champagne region the French captured several fortified lines of trenches in the neighborhood of Mont Carnillet to a depth of five hundred to a thousand metres.

DESTRUCTION IN FRANCE

(Special to The Daily News.)
London, May 2.—A graphic description of the terrible conditions prevailing in the French territory recently wrested by the Allies from the devastating grip of the Hun invader has been written by Mr. T. P. O'Connor. He says that destruction and atrocity have been reduced to a science and was carried out with the sanction of the German Government. Abominations were practiced which cannot be told in print.

INCONSTANT CONSTANTINE

(Special to The Daily News.)
Athens, May 2.—The Greek throne appears to be tottering. The French are furious at the perfidious King, who now appears to be anxious to appease the Allies. Ex-Premier Venizelos speaks his mind regarding pro-Germans, when he says that it is useless to exile the evil officials, when the Royal Palace houses Germans.

King Constantine denies that he has ever acted on the advice from the Central Powers, and has never permitted his coasts to be used as bases for enemy submarines.

RUSSIAN FRONT

(Special to The Daily News.)
Petrograd, May 2.—On all the fronts, there is a noticeable increase in the activity of the enemy, particularly by their scouting parties.

A special meeting of the Fish Packers Union will be held in their quarters on Sixth Avenue tonight at 8 p. m. All members are requested to be present.—Fred Shaw, President.

GERMANY IS NOW IN A BAD WAY

(Special to The Daily News.)
London, May 2.—Dispatches received here state that half of all the munition workers in the Rhine provinces of Germany have joined in a general strike, which started yesterday.

Germany is closing her frontier tight, for the ostensible reason that an epidemic of typhus is now raging in many big industrial centres. All newspapers have been suppressed also. The epidemic is attributed to the malnutrition of the people, who are now so weak that they cannot withstand any disease. No doubt exists as to the epidemic of disease, but it does exist as to this being the reason for the closing of her frontiers. It is stated on good authority that her internal troubles are the real cause of this drastic step.

SCHOOL CONCERT AT ANYOX

A dramatic representation of Scott's "Lady of the Lake" was given in Recreation Hall, Anyox, on Friday, April 27th, to a packed house. The S. R. O. sign being up before the opening overture had been half played, and patrons lined both side walls of the theatre.

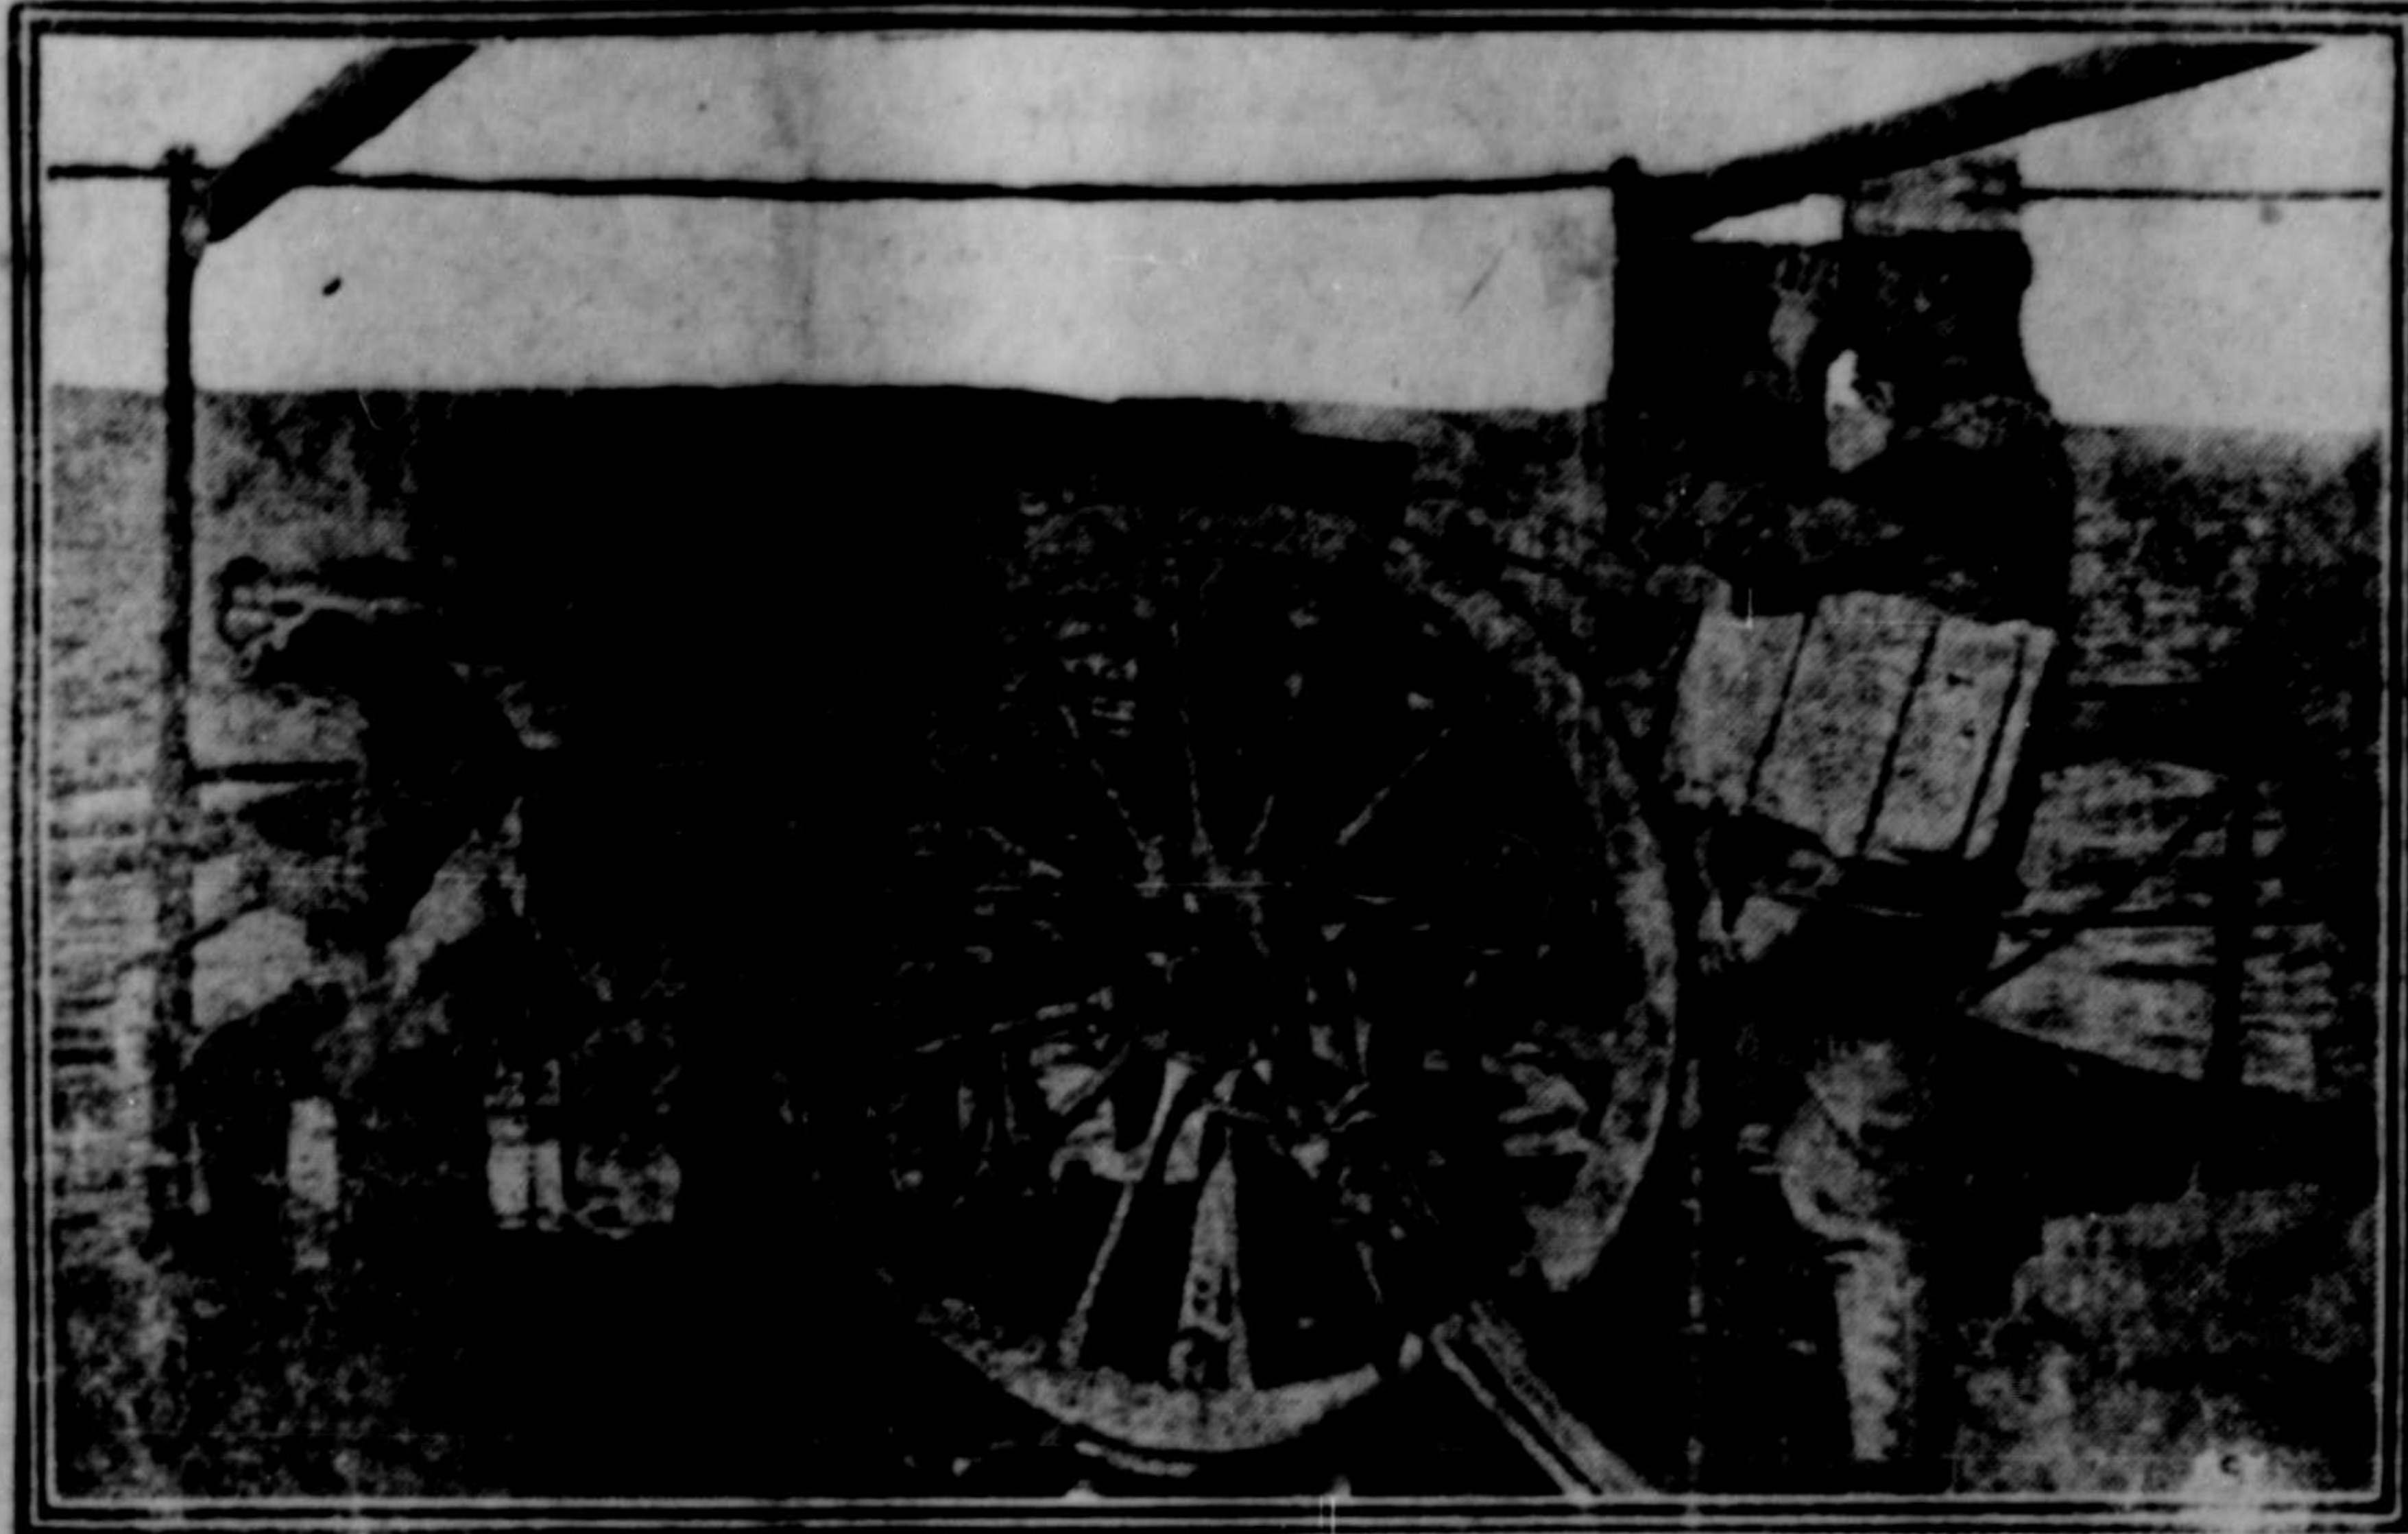

Untiring patience and perseverance only could have brought the forty children of the cast up to the mark of efficiency that was displayed in the representation. The rendition of this libretto is difficult even to the adult performer and to attempt it with children is almost an invitation to disaster. To Miss J. Leslie Fotheringham, principal of the Granby Bay school, belongs the credit for a meritorious performance, though nothing less than perfection was expected by all who attended the Christmas cantata, given by the school children, under her direction.

Forty school children, dressed in the Highland costumes of the period of King James V., sang and danced themselves into the hearts of the people of Anyox. Accompanied by the Scottish pipes, the retainers of Roderick Vich Alpine Rhu gave an exhibition of the sword dance that was par excellence, though the schottische and Highland fling dancing in the wedding scene was more spectacular and received the greater applause. Little Margaret Goldsworthy and Dan Moore made such a decided hit in their team dancing of the Highland fling that they were forced to repeat the dance before the audience would cease applauding.

Characterization and address were excellent throughout; not a performer lost their lines, not a bit of business but what was carried through with all the seriousness of a real action. Even the difficult sword combat between King James and Roderick Dhu was fought as earnestly as though the two boys intended actual death. Moore's Music added the necessary co-ordination which made the whole scheme a proper "dramatic representation." Metropolitan theatre goers would have found nothing of which to complain in the entire evening's performance.

During the entre acts there were costumed program boys selling neat little booklets containing the story of the play and the cast of characters. These were gotten up in a style that would make of them a suitable souvenir and were quickly disposed of.

The performance netted \$125, which will be sent to the fund as a contribution from the Granby Bay school children.

LIGHTHOUSE BURNED AT PORT SIMPSON

The lighthouse on Birnie Island in Port Simpson harbor was burned down yesterday. It is a small lighthouse, burning coal-oil, and it stays in for thirty days at a time. It seems that when Mr. George Rudge, who attends to the light, was out there yesterday, in the course of his duties, some waste caught fire, and in a few minutes the whole thing was ablaze. Mr. Rudge himself escaped without injury.

According to a notice published yesterday from Captain Saunders, of the Marine Station, it will be a week or so before the light will be burning again.

DUTCH VILLAGE IS BOMBED BY AEROPLANE

Amsterdam, May 2.—The Dutch village of Zierikzee, near to the Belgian frontier, was laid waste on Sunday night by bombs dropped from an aeroplane. The nationality of the aviators and the reasons for the dropping of the death-dealing missiles on a neutral and unprotected little town have not yet been established. More than a hundred houses have been smashed or damaged. There are five casualties.

WAGE SCALE ANNOUNCED ON ALASKA RAILROAD

A new scale of wages, issued by the Alaska engineering commission, is the biggest ever paid on railroad work. The following are several of the positions and the scale of wages which will prevail, effective the first of April:

All unskilled labor, 50 cents an hour; spikers, strappers, etc., 53 1/8 cents; derrick men, pile-driver, firemen, blacksmith, carpenter and machinists' helpers, etc., 60 cents; powder men and machine drillers, 65 cents; linemen, longshoremen, pipe-fitters, etc., 75 cents; plumbers, ship's carpenters, steam fitters, etc., 80 cents; brakemen, \$150 a month; conductors, \$190; locomotive engineers, \$200; steam shovel men, \$200; firemen, \$125 to \$150; section men, \$100.—Dawson Weekly News.

STARVATION IN SWEDEN

(Special to The Daily News.)
Rome, May 2.—Sweden is very close to starvation. The plight of the neutrals is worse than that of many of the belligerents, is stated by Baron de Bildt, the Dean of the Swedish Diplomatic Corps.

RICE AS FOOD

The housewife will recall the day when potatoes were a drug on the market at 50 cents a sack. The supply was large, the demand small, and with that perverseness which is peculiar to the human animal, no one cared especially for potatoes. It is readily conceivable that if orchids grew in the streets and sunflowers were a rare importation from the tropics, relative values of the two would be reversed, even if their beauty remained unchanged.

Now potatoes, being scarce, are a luxury, and there is a country-wide wail over the mounting price. It is related that when metropolitan women were clamoring for relief from the high cost of living a high official asked why they did not make more use of rice. For reward he received a flimsy inquiry as to whether women were considered Chinamen. And there was stated a prejudice that is inexplicable. Rice has a high rating from the dietists, and continues within ready grasp of the meagre pocketbook. As a matter of fact, rice has nearly five times the nutritive qualities of the potato, which, after all, is made up chiefly of starch and water.—Portland Oregonian.

GERMAN PEACE TERMS WILL BE MODERATE

Amsterdam, April 30.—The General Anzieger, of Dusseldorf, publishes a dispatch that at a reception to foreign journalists in Berlin the most "reassuring declarations" were given concerning the democratic character of the new orientation as evidenced by proposed legislation. In fact, it was said, "democracy is on the march." Regarding Germany's war aims, it was declared that the world will be astonished by the moderation of the German peace terms.

HOW A TRAWLER SKIPPER BLOCKADED THE BULGARS

In a little book recently published, written by Mr. Alfred Noyes, entitled "Mystery Ships", (Trapping the U-Boats) a little of what the navy and its allied ships are doing is told in very vivid language.

In describing the work of the trawlers in mine sweeping and patrolling the coasts, one instance is given which is significant of the spirit of these men of the blue water school. "There are British longshore fishermen patrolling the coast of Bulgaria," says Mr. Noyes. "One of these tarry old skippers found that something had gone wrong with his trawler's engines. In true Elizabethan style he got into his dinghy, with two men and three rifles, and sent his disabled trawler, wallowing and floundering behind a tug, back to the base. 'But where is your skipper?' asked the naval officer of the returned seaman. 'E's in the dinghy, Sir, blockading the Bulgars,' was the reply."

WESTHOLME THEATRE

At the Westholme Theatre tonight the seventh episode of the great photoplay, "The Shielding Shadow," will be shown. This thrilling serial has proved to have been of great interest to the people of Prince Rupert, and the episode to be shown tonight is not less thrilling nor interesting than any of the other chapters of this great play. It will be shown tonight only, and will not be repeated tomorrow night. In addition, there is a Pathe Gazette, a Scenic, and a comedy, which makes a programme of all-round excellence. The orchestra will, as usual, have a fine selection of music.

GERMANY HAD SECRET TREATY WITH CHILE

(Special to The Daily News.)
Buenos Ayres, May 2.—That Germany and Chile negotiated a secret treaty, which guaranteed Germany a foothold in South America, is declared by Jose Molins, one of the foremost authorities on South American relations in an article published in the Revista here.

This was done in 1913, when Prince Henry of Prussia visited Chile. Molins declares that Chile is thus powerless to sympathize with the United States or with Brazil, because of this fact.

THE SUBMARINE MENACE

(Special to The Daily News.)
London, May 2.—The newspapers here predict that there will be drastic alterations in the Admiralty submarine statements. Lord Charles Beresford declared in a great speech that the people had a right to know just how near to starvation they were.

Washington, May 2.—Lord Percy informed the American Government that the losses sustained by shipping through the submarine menace are appalling. The amount of tonnage visible is falling off, and the combined maximum ship output is required. The balancing factor may be the tonnage available in the United States.

BRITISH ARTILLERY SUPERIOR

London, May 1.—"The outstanding feature of the second phase of the Battle of Arras is the definite establishment of their superiority in artillery by the British forces, and it is due to this superiority that our forces have been able to maintain a successful offensive," said Major-General of Military Operations at General F. B. Maurice, Chief of the War Office, in his weekly talk with a representative of the Associated Press today.

General Maurice declared that the Germans had drawn on their strategic reserve and brought up great new forces in an attempt to stem the onslaught, but that the British machine was working without a hitch. The German losses had been terrific, and thousands of dead were lying in front of the British lines.

In the eighteen days of the Battle of Arras, General Maurice continued, the British casualties had been something less than half what they were in the corresponding period of the Somme offensive, while the number of prisoners and guns captured were much greater than in the corresponding period of the Somme offensive.

He also said that the British have definitely established their superiority in the air.

THE S. S. PRINCE RUPERT

The crew of the G. T. P. steamship Prince Rupert have been paid off since the drydocking of the vessel at Esquimalt, but the majority of them, paid by the day, are standing by the vessel. Owing to the extensive nature of her injuries it is estimated that fully two months will elapse before the Prince Rupert is ready to be recommissioned. The stripping of the damaged plates is now in progress.

THE SALMON FISHING

The importance of the new fishery regulations as they affect the fishermen who go trolling for salmon is not being overlooked in Prince Rupert. A joint protest has been made to the minister of marine and fisheries at Ottawa by the city council, the Board of Trade and the fishermen of Prince Rupert couched in the following terms, which set for the clearly and succinctly the disadvantages under which the new regulations would place the trollers.

The letter reads as follows:—
"The City Council, Board of Trade, and fishermen of Prince Rupert protest against the new restrictions about to be enforced on salmon trolling, that is, the weekly close season. Such a restriction would kill the industry, and would not serve any useful purpose as a protection for the fish. There is good reason for believing that the fish caught on the trolling grounds in this district are bound for spawning beds outside of British Columbia. Our trolling grounds are situated in close proximity to Alaskan waters where the Alaskan trollers have no restrictions. In addition to this the Alaskan trollers use the same markets as the British Columbian fishermen, thus it will be seen that the British Columbian salmon trollers would be operating under a distinct disadvantage. Our trolling grounds are situated off the north coast of Graham Island, and off the north of Dundas Island and Stephens Island. There is no comparison between trolling with a hook and line in open waters situated forty or fifty miles away from the mouths of our salmon rivers, and the canny system of fishing with a drag net at the mouths of our creeks, where every fish is taken, and which, if not used, are destroyed; or fishing with a gill net in our muddy waters for miles up the rivers. Under such conditions the salmon have but small chance of getting to the spawning grounds. Compare the conditions in the rivers with those existing at the trolling grounds, where the salmon are at home in the open waters, and where he has the choice of biting at a hook or leaving it alone as he sees fit, and where he does not encounter the murderous drag net, seine net, or gill net—as he does in the muddy waters, and his only desire is to surmount all ob-

stacles in order to reach the spawning beds before death.

It is in our rivers and streams that the salmon need protection. The attempt to protect them in the open waters seems to be more or less an experiment.

We wish to point out that it is in open waters where trolling is carried on, and can only be fished when the weather permits. We lose on an average one or two days per week, owing to rough weather.

There are only two kinds of salmon which will bite at a hook, i.e., spring salmon and cohoes. Sockeyes, pinks, and chums will not bite.
Your reason for not allowing gas boats to fish in No. 2 District was that the canneries were prepared to fish under the old system, and to change would cause them considerable expense. The trollers desire the same consideration, for if it had been known that such a policy would be pursued by the Department, many fishermen would not have entered the trolling industry, for such restrictions will prove prohibitive.

It is to be very much regretted that the trolling industry is being so injured, as next to the halibut industry, it affects directly more citizens of Prince Rupert and the surrounding district than any other branch of the fisheries.

We cannot refrain from thinking that it is an attempt by the interested combines to kill this industry. We have that you can see your way clear not to enforce these rules, for the reasons given.

We very much regret that the Department has seen fit to alter the trolling regulations, after we had been assured by our delegates that the trolling regulations were not to be altered, other than the introduction of the licence fee."

The interests in the south have already made a strong protest, and with the practically unanimous voice of those interested in the fishing on the Pacific Coast raised against the close time for trollers, it is to be hoped that the Minister will see to it that the offending regulations are removed."

RED CROSS NOTES

The ladies of Seal Cove have remitted the sum of \$40 to the society, this being the proceeds of their different entertainments during the month of April, which is acknowledged with thanks.

The society has to return thanks to the Lipsitt-Cunningham Co. for the fly which covers the tent on Third Avenue. The new tent is proving to be a splendid stand for the weekly sales.

Mrs. D. H. McDonald and Mrs. Vickers are thanked heartily for their efforts at the sale of home cooking-held last Friday.

British headquarters are sending out urgent appeals for help to cope with the ever-growing casualty lists, and if possible the public must redouble their efforts, so that there may be no extra suffering for the men who are sacrificing themselves every minute and every hour. They must be taken care of.

The superintendent of supplies reports that there are many socks on hand waiting to be tied off—that is, the legs and feet are ready all but finishing off the toe. These may be obtained any Thursday morning at the supply depot of Third Avenue.

The following is the list of donors and the winners of the articles drawn for at the Red Cross sale last Friday: The fishing boat Rose Spit gave \$10 in gold, which was won by Mrs. Dowling; Mrs. W. H. Wright gave a sofa pillow won by Mr. Dowling; Mrs. D. H. McDonald, a dresser scarf, won by Mr. Connor; Mrs. Vickers, a centrepiece, won by Mrs. P. W. Anderson; Mrs. Emmons, a boudoir cap, won by Mrs. C. Olsen; Miss Scott, baby slippers, by Mrs. Robb; Mr. Loop gave a silver card tray, won by Mr. E. G. Cobb; Mrs. C. Olsen, a tea cloth won by Mrs. P. Black; Mr. Mus-salun, a fruit dish, won by F. D. Criddle; Mr. Killas, a box of candy won by Mr. D. Sutherland; Grace Pettit, a box of cigars, won by Constable Adams; Lynch Bros., coffee and jam, won by A. J. McDonald; King Tai Co. gave a silk waist, won by Mrs. A. P. McDonald; Mrs. Frizzell, a fancy bag won by Miss Ruebenack; Mr. Sam Bloom gave a sack of flour won by Miss E. Wilson; Third Avenue Meat Market, Geo. Frizzell, and Lynch Bros. gave a ham each, won by Mr. McMeekin, Dr. Cade and Mr. S. D. Macdonald; Alberta Meat Market gave a box of groceries, won by Mr. E. G. Cobb; Mrs. Peter Black, a half ton of coal, won by Mr. C. E. Betts; Mr. Tite gave a picture, which was won by Mr. G. J. Johnstone. A few other articles were held over.

Serve Save Produce

EVERY ONE CAN do something for his country

Some can bear arms
Some can produce food
Some can make munitions
Some can give money

It is the privilege of all to help.

YOU CAN SERVE by Fighting—Working—Saving—Giving

This is NATIONAL SERVICE

Are YOU doing your part?

ALL EYES turn now to the Canadian Farmer, for he can render the Empire SPECIAL SERVICE in this sternest year of the war.

But—our farms are badly undermanned—25,000 men are needed on the land.

With insufficient help, the Man on the Land fights an uphill fight to meet the pressing need for Food.

CITY and TOWN can help.

Municipal Councils, Churches and Schools, and other organizations, both of men and women, can render National Service by directing all available labour to the Land.

Farmers themselves can exchange labour. School boys can assist.

Were you raised on a farm? Can you drive a team? Can you handle fork or hoe? If you can't fight, you can produce. Spend the Summer working on the Farm.

Let every man, woman and child in the Dominion who has access to Land, no matter how small the plot, make it produce Food in 1917.

LAND REGISTRY ACT

(Sections 36 and 134.)
 Re Application No. 9144-L, Filing 5819.

TAKE NOTICE that application has been made to register the Corporation of the City of Prince Rupert in the Province of British Columbia, as owner in fee under two Tax Sale Deeds from the collector of the City of Prince Rupert, bearing date the 7th day of December, 1916, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known and described as North-Westerly Seventy (70), feet of Lots Eleven (11), and Twelve (12) Block Eighteen (18), Section One (1), Map 923.

You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by personal service or as directed), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—
 "and in default of a caveat or certificate of its pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

UNITED STATES AND CANADIAN WAR METHODS

The Montreal Herald quotes the following from the Philadelphia Ledger: "Our country has indulged in its industrial 'champagne jag' and it is now time to sober up. Unheard-of profits have been made during the last two years—made out of the beligerents in Europe and out of private individual consumers here in America. Now, with the United States itself at war, there must come as one of the very first strokes of conflict a firm Government grip upon the price of all commodities. We have already fixed it upon the total salable product of our second largest industry, the railroads, so that others cannot complain of like treatment." The Herald says: "To this may be added that the American Government are giving every indication that a strict regulation of prices will be put into force, as one of the first war measures. But Canada, after being for two and a half years at war, is allowing her working classes to be bled white in order that there may be an industrial champagne jag for the interests. Not a finger has been lifted by the Government to protect the people from the price-booster. Indeed, by passing a farcical order-in-council prohibiting price-boasting, and then declining to put that order in force in the face of direct and repeated challenges, the Government are practically informing 'the interests' that they are free to go the limit."

No Eggs, Milk or Butter

The following recipe shows how an appetizing, wholesome cake can be made without expensive ingredients.

In many other recipes the number of eggs may be reduced one-half or more by using an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

EGGLESS, MILKLESS, BUTTERLESS CAKE

1 cup brown sugar
 1 1/4 cups water
 1 cup scalded raisins
 2 ounces citron
 1/4 cup shortening

1 teaspoon nutmeg
 1 teaspoon cinnamon
 1/2 teaspoon salt
 2 cups flour
 3 teaspoons Dr. Price's Baking Powder

The old method (fruit cake) called for 2 EGGS

DIRECTIONS—Put the first eight ingredients into saucepan and boil three minutes. When cool, add the flour and baking powder which have been sifted together; mix well. Bake in moderate oven in loaf pan (round tin with hole in center is best) for 35 or 40 minutes. Ice with white icing.

Booklet of recipes which economize in eggs and other expensive ingredients mailed free. Address 5 S. Lawrence Boulevard, Montreal.
