ENEMY MAKES VAIN ENDEAVORS TO DRIVE ALLIES FROM CAPTURED POSITIONS

HINDENBURG'S  
ATTACKS ARE  
CONTINUOUSSuccessive Attacks by the Enemy  
Fail to Dislodge the Allies' Grip on Hindenburg

(Special to The Daily News.)

London, May 15.—To the north east of Epehy and to the north of Ypres, the British troops repulsed raids last night. In the Roeux sector, the entire village has fallen into the hands of the British. This place has been a scene of fighting for the past three or four days. At Fresnoy and Bullecourt, the enemy counter attacks have been continuous and the fighting has been of the greatest intensity. Roeux is one of the key positions of the Oppy supplemental line of the enemy. By progressing at this point, and maintaining an unbreakable hold on Bullecourt the British have a grip on two parts of the vaunted Hindenburg line.

## NAVAL FIGHT EXPECTED

(Special to The Daily News.)

London, May 15.—It is expected here that a big naval battle may happen in the near future. The apparently aimless raids by the German destroyers recently are regarded as feelers. Germany may stake her whole navy in one last great chance.

## MORE DEPORTATIONS

(Special to The Daily News.)

Havre, May 15.—An official announcement has been received by the Belgian Government here to the effect that all males between the ages of fifteen and sixty-five have been deported from the Belgian province of Luxembourg to work in France and Germany.

America's man strength is estimated at ten millions.

Enemy aliens will not be permitted to leave the United States. Six hundred inviolated soldiers are expected to arrive at Quebec this afternoon.

General Joffre's visit is expected to have a good effect upon recruiting in the province of Quebec.

The war prohibition issue may be left to the President to decide.

## GERMAN LOSSES

(Special to The Daily News.)

London, May 15.—During the latter half of April, Germany has lost two hundred thousand men in killed, wounded and captured. Her additional losses in materials and munitions, have been proportionately greater.

ATTACK ON FRESNOY  
COST GERMANS DEAR

London, May 12.—Correspondents at British headquarters in France, referring to the situation at Fresnoy, say the village had been difficult to hold ever since the Canadians captured it last Thursday. As the British were not in possession of the village of Acherville and Oppy, respectively to the north and south, Fresnoy was greatly exposed. Standing out from the line like a bastion, the Germans made strong attacks daily on each side of the village to prevent the British from getting forward to strengthen their positions.

In their final assault the Germans employed vastly more men than the British had used in taking the village. Their losses are declared to have been "so severe that if we had used up every man we had on the field we should not have approached them in numbers, and if the operation cost us some ground we have a large credit in man power to balance it."

## Not Main Defenders.

The Canadians apparently were not the main defenders of the position, the brunt of the attack falling on South England troops, whose stubborn resistance is very highly praised. It is said that they were worn out and compelled to give way before overwhelming strength. Nevertheless it was the same men who, after an hour's breathing spell, reattacked and recovered a large part of the ground. The correspondents describe the setback as being on a small scale and such as is bound to occur from time to time, provided the enemy is willing to stand the losses such assaults entail.

## FISH ARRIVALS

There were quite a number of fishing boats in the harbor yesterday, having arrived over the weekend with their catches. The Alaska had 50,000 pounds of halibut; Magnolia, 47,000; Brothers, 17,000; Homer, 7,000; Thelma, 11,000; Active, 10,000; Bringgold, 10,000; Ikros, 5,000; Mayflower, 4,000; D. C. F., 7,000; Doreen, 8,000; Jap, 6,000; Sprightly, 1,000; Wolf, 1,000; while the Carruthers came in with 100,000 lbs. of all sorts of fish taken by trawl.

This morning the Corona is in port with 35,000 lbs. halibut; Teddy J., with 16,000; Alice, 7,000 and several other smaller quantities. The price realized yesterday was 9 1/2 cents.

## Salmon.

For the first time in the history of the fishing industry in Prince Rupert, a considerable quantity of salmon has arrived in American bottoms. Over five thousand lbs. arrived today. This salmon has been caught in the adjacent waters, still American fishing boats always previously took their salmon catches to Ketchikan. The American fishermen are experimenting Prince Rupert with regard to salmon, and if their experiences are satisfactory, it will mean quite a big thing.

There is not very much salmon in today's Canadian boats. The spring salmon is now moving further out to sea, and the boats have consequently to go much further out to get them. The open waters to the north of Graham Island, and Dundas Island are the favorite places for springs now, although sometimes the fishermen are hard put to it to know just where the big fish are.

RUSSIAN MINISTER  
OF WAR RESIGNS

(Special to The Daily News.)

Petrograd, May 15.—General Gutchkoff, minister of war in the new Provisional Government, has resigned. He prefaced his resignation with a dramatically significant statement to the delegates of the soldiers. He stated to them that Russia's military power is weakening and crumbling. The liberty and even the very existence of Russia is threatened, and he pointed out to them that the situation was very grave. The soldier council is apparently assuming control and may yet overthrow the Government. The tentacles of this body are far-reaching and they are organizing the whole nation.

THE CITY COUNCIL  
AND THE HOSPITAL

At the council meeting last evening, it was moved by Ald. McClymont and seconded by Ald. McMeekin, that the grant for the Prince Rupert General Hospital of \$5,000 be confirmed; the amount to be paid when the taxes are collected.

## FROM EAST TO WEST

(Special to The Daily News.)

Petrograd, May 15.—Germany has withdrawn forty divisions of approximately six hundred thousand men from the Russian east front and has conveyed them to France to oppose the Franco-British offensive.

FORT GEORGE ELECTION  
CAMPAIGN ENQUIRY

Victoria, May 14.—Allegations of crookedness in connection with the election of W. R. Ross, Conservative, in the Fort George district, are to be probed with Judge F. M. Young, of the Atlin district, sitting as a commission.

The Premier has brought down a bill to this effect. Very strong allegations and affidavits of misuse of public moneys in the interests of the Bowser candidate in the Fort George district during the last campaign, are in the hands of the government and the bill today is the outcome.

## Given Wide Powers.

The hearing will be in Prince George or elsewhere as the commissioner may see fit. In the event of the commissioner suddenly passing away, the precaution is taken that the inquiry should not cease but be continued by a commissioner to be appointed by the lieutenant-governor-in-council. The commissioner is to investigate everything having a bearing upon the charges either before or after the campaign.

Any person giving evidence is to be immune from punishment for his or her part in the irregularities, provided, of course, a person giving such evidence tells the truth and was not a candidate.

The commissioner is given power to compel evidence, the production of all documents whether of a secret or confidential nature.

THE NAVAL ATTACK  
ON ZEEBRUGGE

(Special to The Daily News.)

London, May 15.—From the many reports regarding the attack on Zeebrugge, on the coast of Belgium on Saturday, it is understood that it was even a bigger affair than the official reports indicated. Naval seaplanes and monitors took part in the bombardment. One unofficial report has it that the British fire was responsible for the blowing up of two submarine sheds, in which fifty-three persons were killed. Another report says that the great mole was destroyed.

A wireless sent out by Berlin reports that Zeebrugge was bombarded by shells from a great distance from British monitors, but there was no loss of life and little material damage done.

Windows and doors rattled fifty miles away during the bombardment.

RUPERT OLD TIMER  
IS NOW IN "BLIGHTY"

Word has been received in town from Corporal W. E. Denny, a pioneer of Prince Rupert who left here with the 102nd. He is now in hospital at Rochdale, in England, and getting on as well as can be expected. He was on the Somme until the middle of December and from then at Vimy Ridge, until he was wounded in March. He is now taking in all the pig teas and lots of motor rides, and is getting along fairly well.

THE CITY COUNCIL  
AND WATERFRONT

At the meeting of the city council last evening, it was moved by Ald. McRae and seconded by Ald. Montgomery, that the city clerk be and is hereby authorized and directed to forward the attached resolutions to the Hon. T. D. Pattullo, minister of lands, Victoria.

The council having had under consideration a letter from the Hon. T. D. Pattullo, dated the 24th day of April, 1917, relating to the claims of the city of Prince Rupert for the granting to the city of waterfront lots in the city of Prince Rupert, resolves as follows:—

That the council does not concur in the observations and suggestions of the minister of lands as regards the government wharf.

That the council considers its request for lots 1 and 2 and the vacant space between the government wharf and lot 1 is proper and moderate.

That the present claims for the city are not to be considered as a waiver in case the city should again present their claims for further consideration.

That the council will gladly avail itself of the opportunity to meet the G. T. P. and the minister of lands for the consideration of those lots known as Cow Bay property.

These resolutions replaced the lengthy letter which Ald. McRae introduced to the council at the previous meeting and which the mayor refused to sign. At that meeting it was agreed that the city clerk should embody its subject matter in resolution form.

Having this in mind, Ald. Casey asked the reason for the elimination of so much matter from the resolutions which was contained in the said letter.

It was thereupon explained by Ald. McRae that the elimination consisted of all matters of a contentious nature and hoped for the resolutions the support of the council.

The resolutions suited the mayor, one thing he approved of being their brevity, and on the question being put, the motion carried unanimously.

## CANADIAN RECRUITING

Canada is pledged to raise 500,000 men for overseas service and that pledge must be kept. The half-million, as promised, did not include munition workers or British, French, Italian and Russian reservists now fighting in the armies of their respective countries. Nor was it presumed to include the thousands of ineligible who never should have been passed by the doctor. It certainly could not have included home defence organizations. The undertaking, given by Sir Robert Borden, was interpreted as meaning that this Dominion would be represented on the battlefield and in those services immediately subsidiary to the trenches by 500,000 men.

At the present rate of recruiting the country's pledge will not be fulfilled. Our losses in April were at least three times the number of enlistments. We have, or are about to have, five divisions at the front, but if the conflict throughout the summer continues to be as fierce as it is now it will be gravely difficult to maintain an establishment sufficient to keep the fighting arm at its full strength unless the recruiting situation in Canada changes very much for the better. No matter what happens, our ranks at the front must be kept filled; there must be no reduction in the standard dimensions of our divisions. Indeed, with an assurance that the pledge of 500,000 would be made good we should be able to maintain two full army corps in France.

If the voluntary system has failed to meet the demand and enable the country to discharge its solemn obligation to the sacred cause for which so many of our gallant sons have suffered and died, the state must deal with the situation in the only other way open to it, namely, by compulsion. We would have been infinitely farther ahead if a selective draft system had been adopted in Canada in the first place. We would have had our half-million in Europe, trained and seasoned, long before this and there would not have been anything like the dislocation to essential industries which has been caused by the voluntary recruiting of 400,000 men. But,

like Great Britain, we have had to learn our lesson from experience.

It must be the consensus of opinion throughout the country that the Government has not arisen to the situation in the matter of recruiting. The policy has been one of drift and indecision, due to lack of initiative and resolution and to the wretched idea in ministerial quarters that the conduct of the war as far as Canada was concerned could be made a party affair. The National Service campaign resolved itself into nothing but talk and when the time for action came it fell to the ground. What the country needed was the strongest leadership it ever has had, no matter whether the leaders belonged to political parties or not. If this had been present at the start or soon afterwards the problems now facing Canada and growing daily in difficulty and danger, would have been well in hand by now. The fact that so much has been accomplished without that director shows that the country was more than willing to respond to any lead that might be given it.

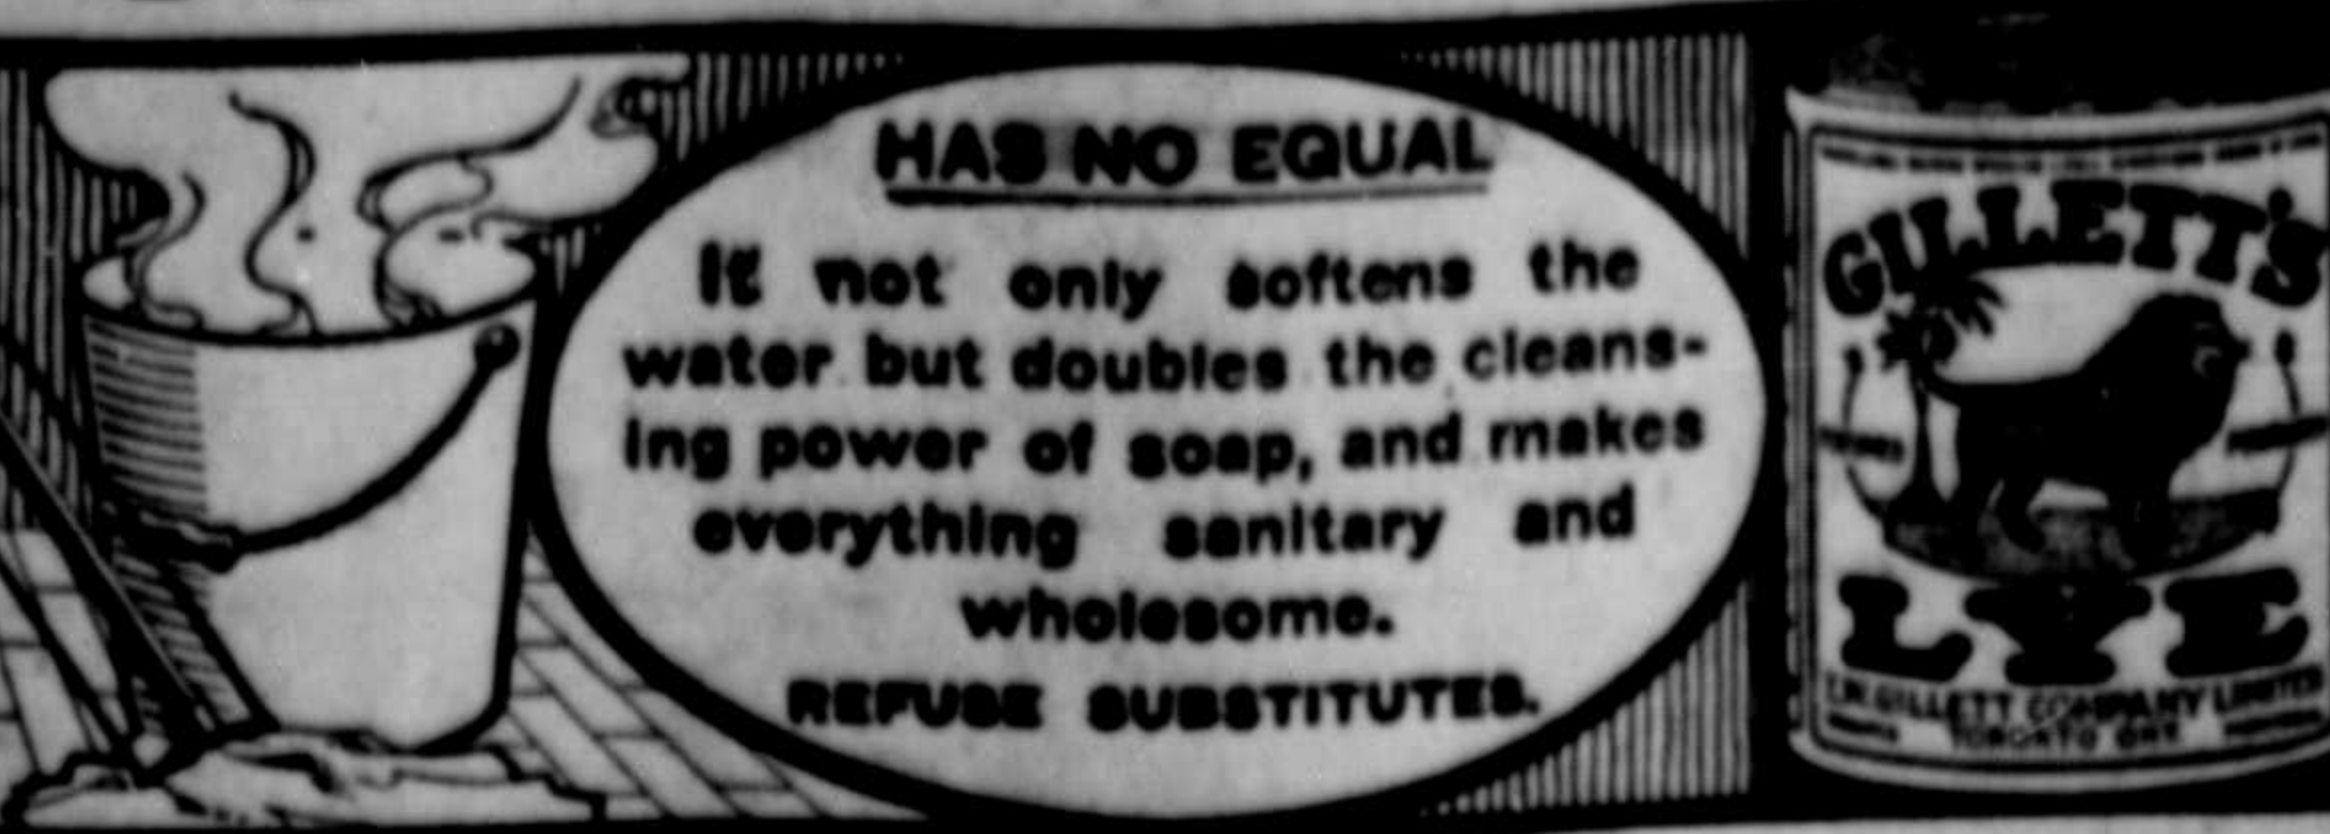

## NOTES AND COMMENTS

From Ottawa comes the announcement that 300 miles of the G. T. P. track where it parallels the Canadian Northern west of Edmonton is to be taken up and sent to France in compliance with the British Government's request for more trackage. Undoubtedly the request should be promptly complied with, but why not will some of the trackage of the Canadian Northern where it parallels the G. T. P.? Why further demoralize Canada's second transcontinental railway system when there are many miles of other lines which could be spared just as easily?

All the energies of the Central Powers must be concentrated upon achieving the "isolation of England," says a Hun newspaper. And the fact remains that never in her history had Great Britain so many friends and allies as she has at the present time, while Germany is, and must remain for generations, an "outcast and a vagabond upon the face of the earth."

Discussing German looting on

## GILLETT'S LYE

retirement from France, the New York Sun puts it this way: "Objects of value," says the German official dispatch explaining the devastation of French provinces, "were taken in charge by the German authorities." The "authorities" were German soldiers who saw the objects first and whose pockets were big enough. Bethmann-Hollweg has given Bavarians assurances of a speedy and successful termination of the war. The interesting point about this assurance is that it is what Germany is telling all friends and "illustrious allies," proving that all the Huns are being buoyed up by the administration of stimulants.

## THINKS CANADIAN ARMY IRRESISTIBLE

London, May 11.—A colonel back from France says that the spirit of the Canadian troops is beyond description.

"One feels that the men's spirit is a thing apart," he said. "It is apparent as soon as one strikes the Canadian army. I believe that our army is irresistible and can take any position the Germans hold, and every man in the Canadian forces believes this, too."

"I would like to see them take

## ADVERTISE IN THE DAILY NEWS

### IN THE LETTER BOX

Dear Mr. Editor:—An article appeared in the Evening Empire of the 8th of May on the degenerate French of Quebec, especially on the little peanut politician down in that province. I surmise that the first portion of the article is not of the writer's pen, but the gem at the finish was written to show how advanced he is in writing fiction. If I am not mistaken the writer has some intention of entering politics in the near future. As a Frenchman, I would take the liberty of advising him not to, for the profession is certainly loaded up too much at the present time with small calibre and degenerate French that it would be highly dangerous for him if he had the bad luck to be elected at the next election. Just think of the predicament he would be in, sitting as a shining light in the Hall of Fame among those degenerate Frenchmen. Why, we would have to furnish him with a guardian to return him to us without being opituted. Now, Mr. Editor, I have a son somewhere in France and another getting ready to do his duty. I am not writing this to proclaim the fact of their doing their duty, but as a Frenchman, I protest against those writers who insult the race without knowing what they are talking about. It is only a few years ago that in any paper you picked up you would read that France is degenerate. As a nation she will die. Well it is being refuted now and it may also be the case with the French of Quebec.

Thanking you, Mr. Editor, for standing so long on your toes, I remain,  
Yours truly,  
HABITANT.

## COMFORTS FOR MEN IN THE TRENCHES

On account of the slow transportation and present shortage of supplies, Col. Ward, who is in charge of the Field Comforts for the soldiers, has expressed a desire that all the winter gifts be in by the end of July and in addition to other things has asked that every woman in England donate one pair of socks per week.

Although the Queen Mary Chapter, I. O. O. E., of this city have been devoting their time and money to the care of returned soldiers and have decided that this is to be their chief work, they feel that they must respond also to this appeal from overseas, and will have wool on hand for all who are anxious to knit. From those who cannot knit they will gratefully accept donations of heavy grey socks, which should be turned and washed in boiling water; or donations of money to purchase wool.

They wish to thank all those who gave donations for their bare of socks which was sent off on May 1st. Mrs. J. H. McMullin, Government Buildings, has charge of the yarn.

Old kid gloves and furs are also called for.

## Sunday's Sermon spoiled by Coughing

A dose of Mathieu's Syrup of Tar and Cod Liver Oil taken before leaving for church will check that service spoiling cough.

This preparation acts as a tonic as well as a cough cure and its use soon enables the system to throw off all signs of cold.

## Soft as Summer Rain

Becomes the water into which you have stirred a few LUX flakes—pure essence of soap. An exquisite, soothing and refreshing quality is given the bath, or shampoo, and what's more, no further soap will be needed.

# LUX

It's the modern, quick way of using soap—and it's by far the best way for the bath. Use soap in the ordinary way and you rub or force some of it into the pores. Now, the little silken LUX wafers dissolve so completely that not a trace remains to clog the skin—yet it is thoroughly cleansed and toned.

There's a new bath luxury waiting for you in LUX. Try it.

All grocers sell it. Made only by Lever Brothers Limited TORONTO.

## Bathe Internally

Over 50,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisoned waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's, Druggist, Corner 3rd Ave. and 6th St., or ask there for "Why Man of Today is Only 30 per cent Efficient," a booklet of great interest, which is given free on request. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 163 College Street, Toronto.
