

RUSS OFFENSIVE IS RESUMED AGAINST HUN

GAINS ARE MADE IN BULLECOURT REGION AND TREMENDOUS LOSSES INFLICTED

PROGRESS IS MADE ON THE WEST FRONT

Heavy Fighting at Bullecourt—Important Captures Made in Both Macedonia and Mesopotamia.

(Special to The Daily News.)
London, May 18.—Heavy fighting is in progress around the village of Bullecourt. Further progress has been made by the British through the village, and they have now reached the western edge.

On the Scarpe.
Exceptionally heavy losses have been inflicted upon the Germans sent against the British between Gavrelle and the Scarpe river. Severe fighting has been going on in this sector and yesterday attacks and counter attacks were made continuously.

French Front.
Paris, May 18.—For the second night in succession the Germans threw violent attacking waves against the French positions to the north of Mourin de Laffaux. The German attack was repulsed, and attacks at other points were likewise repulsed with heavy losses. The French troops continue to hold their ground, and the fighting is proceeding continuously.

Russian Front.
Petrograd, May 18.—The Russians have resumed fighting. Offensive against the Teuton hordes is being resumed along practically the entire northern front. The fraternizing of the Russian troops with the Germans ceased very suddenly. One regiment which resisted the Hun blandishments was gassed and shelled.

In Macedonia.
The British have made important captures in the Lake Doiran region and captured five thousand yards of the enemy trenches. In the Struma River sector, three thousand yards of the enemy trenches were also captured. Good progress has also been made in Mesopotamia. Details are lacking.

Berlin Report.
Berlin, May 18.—In the face of a strong British counter attack, the German troops were forced to give up some ground captured in Rouex.

THE ALLIES WAR AIMS STATED IN COMMONS

(Special to The Daily News.)
London, May 18.—Good results are looked for today through Lord Cecil's clarifying speech in the House of Commons on the war aims of the Allies. Briefly, all previous views of the aims of the Allies stand. The Allies favor the Russian plan of annexations and no indemnities. One understanding means no annexations and no indemnities for political aggrandizement. Annexations and indemnities may be necessary to assure the freedom of the people held in bondage by the Central Powers, and to atone for such acts as the invasion of Belgium, France, Serbia, Poland and Roumania.

It is believed that Lord Cecil's speech will be an effective answer to the angling bait of the German Chancellor.

THE SOLDIERS' VOTE.

(Special to The Daily News.)
Victoria, May 18.—A commission will be named to investigate the soldiers' vote. The session will be adjourned until August, when the report will be considered. If irregularities be proved, prohibition will be brought into effect October first.

U. S. SOLDIERS POISONED

(Special to The Daily News.)
Pittsburg, May 18.—Fifty soldiers belonging to a Philadelphia company on guard in the Pittsburg district are ill today with poisoning, symptomatic with that which caused the death yesterday of an officer, Lieutenant Cochrane. All ate pudding served in a restaurant of Carl Miller, who is now arrested on suspicion of accomplishing the fiendish deed.

IN THE LETTER BOX

Prince Rupert, May 17th.
The Editor, Daily News.
Dear Sir:—So many accidents have happened lately, to young children from falling over the sidewalks of many of the principal streets of the town, that I feel constrained in the interests of those young children to call attention to the matter through the columns of your paper.
The rails that are placed along many of these side-walks (even in the most dangerous places) consist of two slender boards placed at such wide intervals, that, instead of being a protection to children, they constitute a real menace to their safety. The lower rail is of a height that allows small children to lean comfortably on, while both top and bottom rails are so far apart that they allow scope for children to put their heads and shoulders through; after that it is an easy matter for them to overbalance and fall to the ground beneath, which in many instances is a considerable distance below the level of the street. Moreover, many of these rails are shaky and in some cases broken, and a very slight pressure on them would be sufficient to cause them to give way, and thus precipitate a child to the dangerous ground below.
The present system of railing has done its duty, and, to me, it seems time to adopt a safer style of rail, in view of the fact that the great majority of our children have no other playground except the side-walks of our city.
Trusting that this matter will receive the consideration it deserves, I am Dear Sir, etc.,
J. C. BRADY,
Principal, High School.

A WELCOME TO U. S. WARSHIPS IN EUROPE

(Special to The Daily News.)
London, May 18.—The presence of the American squadron of destroyers with the British Navy is an epoch-marking event, said Sir Edward Carson. The old and the new worlds are now joined in one common cause. The fleets are working in complete harmony, and the alliance will hold firm until the power of the enemy forces are broken.

AUTHORITY

A conspicuous trait in General Nivelle's personality is the sense of authority. In a lecture to some young officers in the war college he once observed that authority in this world goes to those who assume. Having assumed authority, they must show that they know how to use it or it will be taken from them. The essential nature of authority, according to Nivelle, is moral. The martinet is but a drill sergeant. The humblest soldier in the ranks must be made to feel that in some indescribable fashion he is under the eye of his commanding officer. Nivelle's expedient, reserved for moments of extreme emergency, is to call by name the soldier to whom he gives an order. How he manages to identify individuals in this way remains a mystery, but he achieves this so completely that not once is he known to have erred. The capacity of a general, the thing that makes him a genius in the field, remains, according to Nivelle, a mystery, seeing that it is the infection of the mind and heart of the man in the ranks with a fury, an ardor, a readiness to perish for the sake of victory. This indefinable and subtle trait, the French experts seem agreed, is the essence of the soul of Robert Nivelle, the explanation of Verdun.—Current Opinion, New York.

RUSSIAN RESIGNATIONS

(Special to The Daily News.)
Petrograd, May 18.—Miliukoff, the Provisional foreign minister, has left the cabinet. Admiral Alexieff has also resigned his position.

REMARKABLE FEAT OF MARINE SALVAGE

Ten years ago the liner Sesotris, belonging to the Kosmos Company, was blown up on the beach at Ocos, in Guatemala, Central America, during a hurricane, and was banked in there by mountains of sand. After lying there helpless for ten years, she is now tied up to the wharf in Victoria.
The feat of getting the stranded vessel back again into the water was no small one and it stands to the credit of the B. C. Salvage Company that they have accomplished something that several of the most expert salvage companies in America have failed to encompass.
A barrier of sand 650 feet wide had to be cut through and the operations were hampered by the fact that there were only three tides each month suitable. But notwithstanding all the problems and disadvantages of the work, they were successfully overcome, and the ship will now once more be put into operation. She is 4,800 tons gross.

WESTHOLME THEATRE

At the Westholme Theatre tonight the photoplay entitled "The Galley Slave," will be shown with Theda Bara as the principle character. Theda Bara is well known as an actress of high standing and in this play she certainly lives up to her reputation. The play itself transcends and outdoes in dramatic value and emotional power anything yet seen on the stage, and in the picture-tization nothing of its power is lost.
In addition, a splendid comedy will also be shown and a musical programme has been arranged of a high order.

GERMAN CHANCELLOR'S WAR AIM SPEECH

(Special to The Daily News.)
Copenhagen, May 18.—It is regarded here that the peace campaign of Germany was a ruse to fool the Allies. The latest address of the Chancellor discards the mask, and shows that the Teutons are determined on war and victory. The stand of the Chancellor is unequivocal for the continuation of the war. The reports of internal dissensions were part of a well considered propaganda.

The position of the Chancellor is now regarded to be as strong as ever, much to the dissatisfaction of the radicals, who were overwhelmed in optimism over his supposed downfall.

THE LODGE VALHALLA HAVE PLEASANT NIGHT

An evening of a very pleasant nature was spent last night in the K. of P. Hall. The event took the form of a whist drive followed by a dance, which was kept up until the early hours. The hall was very tastefully decorated with patriotic colors, the Scandinavian flags being intertwined with the Union Jack. The twenty whist tables were filled quickly at which game Mrs. Adams and Mr. Wermig made the highest number of points and received the first prizes. Mrs. Phillips and Mr. Robinson received the consolation prizes.
Later refreshments were served and the whist tables were cleared away, and thereafter dancing was engaged in. The youth and beauty of Prince Rupert was well represented, and the gaily decorated hall presented an animated scene. Music was provided by the Westholme Orchestra, and "all went merry as a marriage bell."
During the evening the drawing for the motor engine presented by Messrs. Akerberg, Thomson Co. to the Red Cross Society was made and the lucky winner was Mr. Charles Balagno. A large spring salmon was also raffled for the Red Cross, presented by Alderman Dybhavn, which was won by Mr. W. Ross.

About one hundred couples were present and all spent a very enjoyable evening.

LAON IN 1870.

Laon, which is the subject of German pity because of the destruction of its historic buildings by Allied shells, was the scene of one of the most dramatic incidents of the Franco-German war. The town had surrendered to the Germans, and the enemy were entering the citadel. At that moment a French soldier, Henriot, set a light to the powder magazine. In the explosion 79 Germans and 229 Frenchmen were killed, among the latter being Henriot himself.—London Chronicle.

WAR GIFT OF CAMELS

A gift of a hundred camels from the Khan of Khalat, Baluchistan, to the Viceroy of India is to be highly prized. For it is a good strain of camels and dromedaries, for which that country has long been noted. The latter are said to be exceptionally swift and so temperate in their drinking as to be almost total abstainers. The native tribes, before the civilizing influence of the white sahib taught them to respect their neighbors' goods, found these animals of the greatest use in their chapaos or predatory excursions beyond their borders, when the plan was to attack swiftly and suddenly at night, plunder, kill and burn, and then, thanks to the dromedaries' speed, return to home and safety.—London Chronicle.

THE SOLUTION OF THE IRISH PROBLEM

(Special to The Daily News.)
London, May 18.—Premier Lloyd George has submitted the Government solution of the problem of Irish Home Rule. He offers Home Rule with the six counties in Ulster excluded, or as an alternative, a convention to arrange a scheme of self government. The suggestions of the Government were received with mixed feelings by the Irish factions. Premier Lloyd George hopes to announce some decision on Monday.

SWEDEN STRIKES LIQUOR TRAFFIC

Stockholm, May 17.—Sweden has taken a further step in the restriction of the sale of alcoholic beverages. Under a law adopted by the Riksdag, effective Jan. 1, 1919, the present system of selling distilled liquors is extended to cover wine and beer. This means that every consumer will have to be equipped with a pass book in which his purchases will be entered.
Private saloons will also be abolished, and all private trade in beer and wine and the importation of wine by individuals are forbidden.

SHIPBUILDING

"Today, every shipyard in the Dominion of Canada, which is able to build ships has not only the opportunity, but the actual contracts." These were the words of Sir George Foster, as reported spoken in the Dominion House recently, in fact, only last week.

This information will be quite pleasing to the people of this city, many of whom have come here expecting to obtain work through the operation of the big plant.

The facilities obtaining here will doubtless have been in the possession of Mr. Buchart and of Captain Troup, who have been appointed by the Munitions Board regarding the building of wooden vessels in British Columbia.

This is an unexpected opportunity for getting something started here that will benefit

the city right away, and the nation also. Ships are required, and immediately. The facilities are in Prince Rupert. The orders are in Victoria. Sir George Foster says that any company which would undertake to build wooden ships in Canada would get the contract.

The words of Sir George Foster are explicit, and do not admit of any doubt, and it now remains to be seen how his intentions will be applied, with regard to this city.

NOTES AND COMMENTS

The German Chancellor has at last made his long awaited speech to the Reichstag in which he was supposed to define the war aims of Germany.

The situation in Russia is still rather unsettled. The soldiers and workmen's council want apparently to dictate direct to the Duma what the foreign policy of the cabinet shall be.

The Stars and Stripes are now flying on warships alongside others flying the Union Jack in European waters.

Whole Wheat and Milk—the two most perfect foods given to man. Dietetic experts may quarrel about everything else, but they are agreed on this. The proper combination is Shredded Wheat Biscuit with milk—the greatest amount of protein (the element that builds muscular tissue) for the least money.

TRENCH STORIES OF THE BRITISH SOLDIER

(Continued from Page two)

He walked back. A few minutes later the party returned and as they entered the trench they saw a stretcher being carried away. It was the sergeant. His wound had been fatal.

It was just an ordinary case of devotion to duty.

Tommy Dodd was seventeen years of age and a soldier. Not being 19 he was not allowed to go to the front. But Tommy was determined, so he deserted from his unit and re-enlisted in another battalion, giving his age as 19 years and 5 months. He was smart, clean and clever. But his company officer in time became suspicious, so he obtained Tommy's birth certificate. And Tommy did not go to France. He behaved himself for months as a soldier should, but one day at reveille he was missing. The necessary days elapsed, and Thomas Dodd was declared a deserter again. After a time we heard rumors, but we said nothing, and we were not altogether surprised a little time ago to see in the casualty lists — rest: Killed in action, 23472 Dodd, Pte. Thomas.

That is one of thousands of cases of the British fighting spirit.

We had taken a large batch of German prisoners and as they filed along they were objects of much interest to those of us who happened to be about. They

MRS. LLOYD GEORGE OPENS WAR KITCHEN

looked hungry and absolutely worn out. A British officer walked across to a Boche Captain who was standing by and good-naturedly offered him a cigar. The Boche merely spat in his face.

Close by we saw a soldier hand his mess tin of hot tea to a German prisoner who drank it with avidity. "Giving him your tea!" said another, "didn't you see what that swine did?" and he pointed to the German officer. "Yes," said the first soldier, "but I ain't a Boche, you see."

That illustrates the chivalry of Britain—and of Germany.

You have probably heard of the British soldier's pleasure in cleanliness; how he shaves daily in the trenches and under fire, washes his clothes, cleans his boots and so forth, even in the most out-of-the-way places. We were walking along a front-line trench one day and saw a soldier diligently polishing his bayonet with a piece of (obviously stolen) emery paper. It was almost as bright as a mirror. His explanation was typical: "Going over the top tonight, Sir, so I hear, and I'm damned if I want to be found dead with a dirty bayonet."

He was ready to die, but even his death had to be well ordered.

They are ordinary stories of everyday occurrences; you can go to any part of the line on any and every day and see or hear them yourself. They are the British soldier at war, which is just the same thing as the British soldier at play. For in both he behaves like an honorable man. Some people would say that he is too gentlemanly for war; that war is war and must be brutal. But that is not the British soldier's way. He knows how to die. He has hundreds of years of tradition and history behind him. But by the same token he knows how to live—and fight and win like an honorable man.

Bathe Internally

Over 50,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisoned waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's, Druggist, Corner 3rd Ave. and 6th St., or ask there for "Why Man of Today is Only 50 per cent Efficient," a booklet of great interest, which is given free on request. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 163 College street, Toronto.
