SONS OF SNGLAND HAVE AN ENJOYABLE PICNIC

Yesterday the Sons of England and their friends spent a most pleasant time in their celebration of Empire Day. The picnic party which had been arranged to go to Tugwell Island, found this latter place impossible at the last moment, and Digby was chosen instead.

The Alice B. made six trips in the course of the day, and altogether about one hundred and fifty members made up the picnic party. They enjoyed themselves thoroughly and the geography of Digby and its topography, is better known this morning. This event was such a success and was such a splendidly happy one that ing the course of the summer.

THE FOOD SITUATION

The Hon. Thomas Crothers, Minister of Labor, is reported by one of his party papers as stating in Parliament that his Department "had taken effec- COMPULSION ADOPTED tive steps to regulate the cost of living" and that "investigation showed that on the whole exorbitant prices were not being charged." He is further quoted as saying that "the working people were better off than ever, since they were getting larger wages and were putting money in the banks."

The report of Mr. Crothers's remarks is probably correct, for it is in line with what he has said and done in connection with this matter ever since he became Minister of Labor. He began inserting his head in the sand five years ago and the higher the cost of living has gone the deeper he has dug. Is it possible to conceive of an attitude more stupid than that which is indicated by the remarks we have quoted?

But if it were only stupid the country could stand it. Unfortunately it is dangerous, for it reflects the absolute inability of the minister to appreciate the seriousness of the food situation. It shows that while other countries are passing legislation and organizing boards to stimulate food production and control prices Mr. Crothers is quite satisfied with the outlook. According to this brilliant political economist, who unfortunately is the minister directly charged with the responsibility of attending to the food situation, the higher the wages the workingmen receive the more bountiful must be the food supply!

But evidently one of Mr. Crothers's colleagues in the Cabinet does not think that "everything is lovely and the goose hangs high." This is what Sir George Foster had to say regarding the food question a few days ago:

"I am not an alarmist; I do not believe in trying to alarm people into doing their duty. But there are times when a man ought to be particularly truthful with himeslf and with his people, and truthful with the world so far as his influence goes: and I am here to state that it is not a trumped-up report made for a special purpose or by partisans of some special

THE SALUTATION OF THE FLAG

(Continued from Page two.)

neglectful in showing our appreciation of the flag by failing to display it on the occasions in which it was demanded. In Seattle in the entrance of the United States into the war, there was a big parade in which everyone. carried a flag. Certain British institutions were represented and they only carried small Union Jacks, just as if they were afraid to show the "Daddy" of all flags.

Mr. Crew, representative of the returned soldiers, cited a thrilling incident of how a young Vancouver soldier went into the front line trench on his 21st birthday in order that he might serve the flag, even although he had been forbidden on account of physical weakness. This young Canadian that if men were willing to lay down their lifes for the flag, then it behooved each and every boy and girl to pay their respect to the flag by standing to attention when the Naional Anhem is played, for his means saluting the flag just the same.

Mr. Brady then in a precise and papers; 1840 to \$50 monthly in spare eloquent speech, summed up all last night for the south. time; experience unnecessary; no can- the glories and privileges of living under the British flag, and he hoped that the children when they discount of 20% for cash at Tite's had grown up would be true British men and women and this he felt would only come to pass by cold Storage, not far from drydock. teaching them to live up to the \$100. Saves Eggs

Dr. Price's Cream Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, corn bread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by using an additional quantity of Dr. Price's Baking Powder, about a teaspoon, in place of each egg omitted. The following tested recipe is a practical illustration:

SPONGE CAKE

I cup sugar % cup water

3 eggs 2 teaspoons Dr. Price's Baking

I cup flour 1 teaspoon salt

16 cup cold water 1 tesspoon flavoring DIRECTIONS: Boil sugar and water until syrup spins a thread and add to the stiffly beaten whites of eggs, beating until beat yolks of eggs until thick; add a little at a time flour mixture and egg yolks

The old method called for six eggs and no baking powder
