ITALIANS ARE GOING STRONG IN THE ALPS

FURTHER VICTORIES MADE OVER AUSTRIANS -- COUNTER ATTACKS REPULSED

ITALIANS SCORE BRILLIANT SUCCESS IN JULIAN ALPS

MANY PRISONERS ARE TAKEN—AUSTRIANS ATTEMPT TO RE-CAPTURE THEIR LOST POSITIONS, BUT ITALIAN ARMIES HOLD FAST—LULL PREVAILS ON OTHER FRONTS

(Special to The Daily News.)
 Rome, May 26.—Further brilliant successes have been scored by the Italians in the Julian Alps. A signal victory has been scored over the Austrians. The total number of Austrian prisoners now taken by the Italian troops has reached 40,245. In the Carso region, where the Italian army broke through the strong defences of the enemy, repeated counter attacks have been made upon the captured positions, but they were each unsuccessful. At Cucco and along the Vodice the enemy also attempted to retake the captured positions, and lost very heavily.

French Front.
 Paris, May 26.—Part of the Chevreux Wood on the Aisne

front was captured last night from the enemy by the French. Nothing else is reported except artillery fighting in the regions of Moulin de Vauceleré and on the California Plateau.

British Front.
 London, May 26.—No news has been received from the British front.

Americans in France.
 London, May 26.—The first corps of American transport men are already at work somewhere in France.

Subs. Being Throttled.
 London, May 26.—The U-boat menace is being throttled to death. More effective blows have been dealt the German submarines during the last three weeks than in any corresponding period, says Premier Lloyd George.

EXPECT CONSCRIPTION BILL IN PARLIAMENT NEXT WEEK

MALE CITIZENS CANNOT NOW LEAVE CANADA WITHOUT A PERMIT—ANTI-CONSCRIPTION RIOTS IN QUEBEC —LA PRESSE NEWSPAPER WINDOWS ARE SMASHED

(Special to The Daily News.)
 London, May 26.—The Selective Army Bill is expected to be introduced into the House early next week. Male citizens cannot now leave Canada. A Dominion order-in-council has been issued, which prohibits the departure of eligible males without permission. A stiff penalty is provided in the proclamation. Anyone leaving without permission is rendered liable to a twenty-five hundred dollar fine or a term of five years in prison.

A Denial.
 Sir Wilfrid Laurier denies that he ever wrote to Tancred Marcell stating that he proposed to oppose the passage of the Conscription Bill, or that under the present circumstances he is opposed to conscription.

Riots in Quebec.
 Montreal, May 26.—A very serious situation is developing in Quebec. The anti-conscription feeling is becoming acute. Revolutionary speeches have been made by several French members. Soldiers and civilians had a clash in a street row. The mob smashed the windows of the La Presse newspaper office. Armand Lavergne is rampant. Four anti-conscriptionists in Montreal have appeared before the recorder for causing disturbances and were fined heavily.

THE IMPERIAL CONFERENCE
 London, May 26.—The Imperial Conference was a war cabinet with all ministerial powers. It is now controlling the war.

U. S. MAKES ANOTHER LOAN TO GREAT BRITAIN

(Special to The Daily News.)
 Washington, May 26.—Another loan of seventy-five millions has been made to Great Britain today. This brings the total loans granted to Britain to four hundred millions, and the total loans to the Allies to seven hundred and forty five millions.

Burden for States.
 The people must realize that the country is at war. General Pershing sounds a stern warning to all Americans to awaken and get into the fight. Americans must fill the place of the slain in the Allied countries, and the brunt of the future burden must be borne by the United States.

Balfour Leaves.
 The Hon. Arthur J. Balfour takes farewell of the United States. He says that the United States has accomplished wonders since entering the war, and feels sure that the President will be upheld by the people. The British party left last night for Canada.

VAST FOOD STOCKS HELD IN STORAGE

(Special to The Daily News.)
 Ottawa, May 25.—When the orders for the day were called in the House of Commons, Mr. A. McCoig read a telegram he had received urging upon the Government the necessity of taking over the cold storage systems of the Dominion. On the telegram it stated that the Davis Company, of which Mr. J. W. Flavell, chairman of the Munitions Board, is principal stockholder, are trying to cover insurance on food products for \$2,800,000, which they hold in cold storage in Toronto.

Mr. McCoig said he had drawn this matter to the attention of the Government before and asked if it was proposed to take any action in the interests of the consumer. Sir Robert Borden said he would take the matter up.

ALLY TRADE UNION AFTER THE WAR

Ottawa, May 25.—A resolution by Colonel J. A. Currie advising conscription between Great Britain, the Overseas Dominions and her allies, with a view of increasing the economic power of the Allies in the prosecution of the war was productive of an interesting debate on the last private member's day of the session. Col. Currie's resolution was adopted after a variety of opinions had been expressed.

The best men in England, declared Col. Currie, had cast aside the idea of free trade. "After the war," he said, "we must have some form of trade union between the nations in alliance. Hide-bound protectionist as I am, I do not see that it would be wrong to include the United States in the Trade Union with other colonies. The broadest view that statesmanship can take is to change its mind. The world is being turned upside down and the dogmas of past ages are being busted and forgotten.

Col Currie advocated the following Imperial tariff arrangement after the war:

First—A general tariff to be applied to neutrals.
 Second—A reduction of say 15 per cent. in the general tariff for all the Allies.
 Third—A preferential tariff of 33 per cent. for the nations within the Empire.
 Fourth—A surtax of 25 per cent. against Germany and the Central Empires.

APPEAL BY DAUGHTERS OF THE EMPIRE

The National Executive of the Daughters of the Empire has sent out the following appeal to all charters in Canada:

In the present crisis of our Empire, when we are assured by those most competent to know, that world hunger stares us in the face, and that it is absolutely necessary that we help those who are fighting for us by increasing production and greater economy at home, the National Executive, at a meeting held on May 10th, decided to make the following appeal to all members of the Order, and through them and their influence to all women of Canada.

It is in no spirit of arrogance, but in the spirit of humble service that we deem it incumbent on the Order to do its utmost to give the light and leading so vitally essential at this crucial period of Canada's welfare.

We ask that members pledge themselves to observe two meatless days, and two potatoless days a week, the meatless days to be Wednesday and Friday, and also to abstain from the use of veal and young lamb.

We also ask that every member should realize for herself, and impress on others the terrible gravity of the situation, and the imperative need of loyal and immediate co-operation, and acquaint herself with the various aspects—scientific, economical, social—of this many-sided problem.

THE FIRST SESSION OF THE BREWSTER GOVT.

The session which has just adjourned till August was one of the most strenuous in the history of the province, said Mr. A. M. Manson, M. P. P., member for Omineca riding, who arrived from Victoria late on Friday night. "In point of actual time spent in the labor of legislating, a record was made for the new assembly. The day of the House sitting for an hour each afternoon for the first month of the session has passed. The new legislation was constructive and important. The Premier's Civil Service Bill was an implementing of the Liberal party's promise at the first possible opportunity. The measure was the most thorough going in character that has been passed in the British dominions, and it ends permanently the patronage evil.

A mineral survey bill was brought down by the Hon. Mr. Sloan, Minister of Mines, and also a Smelter and Ore Purchasing Bill. The former, which comes into effect at once, provides for the division of the province into mineral survey districts, under resident mining engineers, who will conduct a mineral survey and render every possible assistance to the prospector and miner, in the way of assays and advice. The smelter bill will not come into operation at once but it is contemplated that the Government will gather data now to be used in framing their policy as to smelter construction and ore purchase.

The Hon. Mr. Oliver's Land Settlement and Development Act was the most advanced piece of Agricultural legislation ever brought down in the province. It provides for a continuation of agricultural credits and for a development board to undertake the supervision of agricultural settlement and development. Great possibilities lie within the scope of the act.

The Premier's Controller, General Act provides for a co-ordination of the various branches of the public service, heretofore lacking, an auditor of disbursements, an auditor of receipts, and a purchasing agent. It means business methods in the administration of the public affairs.

The Hon. T. D. Pattullo's amending legislation in regard to the irrigation problem means much to southern British Columbia and his most important

B. C. MUNITIONS BOARD SETTLES DOWN TO WORK

The Munitions Board have opened offices in Victoria at 310 Belmont Block, to facilitate the work of the shipbuilding commission. The first conference was held in the new offices on Monday, when Mr. Buchart and Capt. Troup had a number of proposals under consideration relative to ship construction.

It is no secret that the commission have been considering a number of proposals, but according to a statement issued, no contracts will be awarded until the whole proposition has been lined up in concrete form. Although the commission has only been at work a few days, a great deal of preliminary work has been accomplished, and many candidates in the shipbuilding field have been interviewed. Among these were Mr. W. P. Hinton, of the G. T. P., and Mr. Pillsbury, superintendent at the drydock here, but they advise, in the same terms of the official statement issued that no contracts have yet been awarded to anyone.

A GRAND BAZAAR

A grand bazaar and drawing will be held in the St. Andrew's hall on June 6 and 7, promoted by the Catholic ladies of Prince Rupert, in recognition of the enterprise of the Sisters of St. Joseph in constructing an up-to-date academy for educating and training the young ladies of this northern country. The proceeds of the bazaar will be tendered to the Sisters in the form of a bonus in appreciation of their efforts by the ladies having the matter in charge.

 Paris, May 26.—The French liner Sontay, 7,247 tons, bound for Marseilles from Salonika with 344 passengers was torpedoed on the 16th of April. Forty-five lives were lost.

MEAT CARDS IN FRANCE

(Special to The Daily News.)
 Paris, May 26.—It is expected here that all France will have meat cards soon. The French deputy estimates that the total shipping losses since the beginning of the war will reach forty millions.

PASSPORTS NEEDED NOW

(Special to The Daily News.)
 Winnipeg, May 25.—A special Ottawa dispatch to the Winnipeg Telegram says:

"Drastic methods will be adopted immediately to prevent Canadians of military age evading military service by crossing the international boundary. An order-in-council to be passed and into effect at once will not permit the emigration from this country of men of military age without permission from the authorities. To accomplish this it is understood that a passport system will be instituted."

RHEIMS CATHEDRAL IS ABOUT TO FALL

Paris, May 26.—Rheims Cathedral will very likely collapse within a week, says an expert who has just returned from the martyred city, whither he was sent by the government to make an investigation. He said today that the cathedral was tottering, the centre transept having suffered very severely during the past few days. The Germans are hurling thousands of shells into Rheims. More than half the members of the volunteer fire brigade have been either killed or wounded and practically the whole civilian population has evacuated.

IMMIGRATION PROBLEMS

(Special to The Daily News.)
 London, May 26.—The new regulations recommended at the Imperial conference bear directly on the problems of immigration, which each of the self governing dominions have to face. It was recommended that reciprocal treatment be granted and that Hindus be permitted to bring in their wives. Indians should be given equal privileges with the Asiatics.

amending legislation regarding timber means that supplies will be thrown open to the lumber industry in the North.

The Hon. Dr. King fathered the placing of public works under resident public engineers, a policy that will abolish the roads patronage and substantially increase efficiency in road construction.

Altogether the session will go down as one of the most constructive and important in the history of the province. No set of ministers could, collectively or individually, have worked harder to solve British Columbia's problems, than did the ministry of the Hon. Mr. Brewster during the last three months.

THE NATION IN ARMS

Conscription is a word of sinister import to Anglo-Saxon democracies. War and peace, as a great French writer says, still move outside the law of democracy. The evolution of democracy not yet being complete in the English-speaking countries, there is an inherent distrust of militarism as a force invariably hostile to democratic freedom. It was this active distrust of militarism that made conscription impossible in England in the early days of the war. It was this distrust that hampered the French nation in its task of army reform before war broke out, and in overwhelming numbers drove the smaller Allied armies across the Marne. It was this distrust that, in Canada, made it inexpedient heretofore to adopt it until the voluntary system had been given a fair trial. In this country, unfortunately, voluntary recruiting was never organized as Lord Derby organized it in Great Britain. Voluntary recruiting in Canada is as dead as Julius Caesar. It is too late to amend the past. The ravages of war have rendered obsolete principles of national service that passed muster a year ago. There is but one course now to pursue if the honor of Canada is to be preserved. Until the war is ended Canada must be a nation in arms. Those who will not volunteer must be made to serve. The fighting divisions of Canada must be reinforced by Canadians.

Militarism as a weapon which democracy can wield in its own defence is not to be confounded with the military systems that are employed to buttress the citadels of feudal tyranny and autocratic rule. Military service, when democratized and nationalized, entrenches democracy in the citadel of government. Its fundamental characteristic is that of an army of defence. It defends the liberties of the nation and aids in the maintenance of international peace. For the Allied nations this is a war of defence—the defence of national independence against the imperial ambitions of Germany, and the defence of international peace. It is a conflict between

democratic nations and a military autocracy. Militarism in the hands of democracy is the only weapon by which the liberties of the world may be maintained against the aggressions of the Teuton Empires. Militarism is a menace, as it proved to be in Russia, and it is to this day in Germany, when it is the weapon of a tyrannical caste for the subjugation of democracy at home and for the conquest of territory abroad. The only security for democracy in a world at war is to be a nation in arms. This war gives a death blow to the militarism of the past. Democracy is fighting to end war. The force of the civil tradition in national life is not weakened, but strengthened when the military defences rest on the broad foundations of a citizen army.

The unit of Imperial efficiency is the nation. What Canada may yet accomplish in the reinforcing of her army at the front and in organizing for war service at home must be done as a nation, and done quickly. The failure of the Government to put the Militia Act into force when recruiting fell away is the cause of the present demand for compulsory enlistment. The Premier cannot be unaware of the feeling of irritation and disquiet throughout the Dominion owing to the failure of his Government to grapple with the serious problems of this war. To the grievances of the returned soldiers is now added the dangerous menace of racial discord and civil strife, which has been stirred up by cowardly and indefensible assaults upon the liberties of foreign settlers who came to this country, at the invitation of the Canadian authorities, to people and till the soil, and to help in building up the wealth and prosperity of the community. The highest duty of the statesman in these perilous days of war is to unite the country, to organize all its resources for the carrying on of the campaign in Europe, and to stamp out with ruthless tread any attempt to fan the flames of racial animosity. Above all, the Premier owes it to the men who are facing death in France, to those who come back maimed and broken in health, and to

the gallant soldiers who sleep on foreign soil, to see that the khaki line of battle on the Canadian front is maintained at strength, and that the honor of the nation in his war is fully upheld.

the army so that girls in the next few years should not have to pick their husbands from the old and enfeebled. It would be better to draw upon married men, she thought, and support their dependents than be faced with the prospects of a far inferior generation. This would be taking care of posterity all right, but as has been remarked somewhere else, "what has posterity done for us?"

The warlike feeling in the Scandinavian countries is growing fast against the Germans. An agreement of neutrality was made between the three countries of Norway, Sweden and Denmark during the first year of the war, and if the three countries involved go to war, they will in all probability go to war together. Of the three, Denmark is in the most exposed position for the application of German frightfulness and, doubtless, Germany would like to have some excuse for overrunning this little state, whose supplies of foodstuffs would be very welcome.

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble
Since Taking "FRUIT-A-TIVES"

MATTIE WARREN
Port Robinson, Ont., July 8th, 1915.
"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Mattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

'THE DUKE OF CONNAUGHT INSPECTS CANADIANS.—Canada has added another page to the glorious records of the war. The part played by Canadians at the fighting at Vimy Ridge is not likely to be forgotten by the mother country. The men seen here are hard at work on physical drill. They are men of the same brawn and brain as the men who won at Vimy. The Duke told them of his deep interest in Canadians.

THE KAISER AND DEMOCRACY

The Kaiser is an imperial Fregeoli. He can quickly pass from role to role, and now Saul also is among the prophets. He professes that his admiration for the courage and patience of the German people is so great that it appears to him grotesque that they should be denied full democratic rights. The Prussian Diet is no longer to be elected on a class franchise, and the electors are to have the protection of the secret ballot. The All-Highest promises a little lest all shall be demanded. These advantages must, however, be postponed until after the war. For the moment the Prussian elector is "all dressed up with nowhere to go." The Prussian must be a simple person if he attaches any importance to this slim manifesto. If Germany wins the war, the Kaiser will be powerful enough to regard his pledge as another "scrip of paper." If Germany loses the war, it will not be left to the Kaiser to decide how Germany shall be governed. If the German people desire speedy peace and freedom without economic ruin, they must decide their destinies themselves, and at once.—London Daily Express

ADVISES GERMANS TO LIVE ON OATS

Copenhagen, May 24.—Berlin is now feeling the potato shortage. The residents of the capital have been warned that it may be impossible to supply five pounds to everybody this week, but that those who are unable to obtain the full ration will be given cakes. The supply of pork is short and it will be sold only on Thursdays. Another announcement says that a reduction of the present meat ration after August 15 is being considered. In view of the food shortage, Professor Holder, an agricultural expert of Passau, Bavaria, advises the people to follow the example of Nebuchadnezzar and eat grass. He informs them that both the red clover and lucerne (alfalfa) may be used for the making of tasty dishes for human consumption.

Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.
But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.
The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.
Mr. F. E. Smith writes:—
"Dear Doctor,—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."
The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail by Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert.
