GERMANS MAKE AIR RAIDS ON S. E. COUNTIES

Sixteen Enemy Air Raiders Drop Bombs Over the English Coast—Two Hundred Casualties.

(Special to The Daily News.)

London, May 28.—Sixteen German air raiders arrived over the southeastern counties of England and showered bombs promiscuously over the country side. Altogether seventy-six persons have been killed and one hundred and seventy-four injured. The victims have mostly been women and children. Three of the enemy aeroplanes were brought down by the anti-aircraft high angle guns. The invading squadrons of the enemy aeroplanes were evidently on the look-out for places of military importance, but dropped many bombs apparently on chance as many fell into vacant areas and fields in the country districts. Unfortunately, several fell in the populated areas. The damage to property was considerable, but full details are still lacking.

AMERICANS IN PARIS

(Special to The Daily News.)

Paris, May 28.—The first sanitary squadron of the American Expeditionary force has arrived here and received a great welcome. The squadron is composed of one hundred and fifty physicians and surgeons and seventy-five nurses.

Berlin, May 28.—According to wireless communications sent out from Germany, the usual fighting is in progress on both the eastern and the western fronts.

STRIKES IN FINLAND

(Special to The Daily News.)

Petrograd, May 28.—Strikes have taken place in all branches of trade in Finland. With the deposition of the Czar, Finns declare that the new Provisional Government have no authority in Finland, and cannot succeed to that of the Czar.

A GRAND BAZAAR

A grand bazaar and drawing will be held in the St. Andrew's hall on June 6 and 7, promoted by the Catholic ladies of Prince Rupert, in recognition of the enterprise of the Sisters of St. Joseph in constructing an up-to-date academy for educating and training the young ladies of this northern country. The proceeds of the bazaar will be tendered to the Sisters in the form of a bonus in appreciation of their efforts by the ladies having the matter in charge.

REORGANIZATION OF THE BORDEN CABINET

(Special to The Daily News.)

Ottawa, May 28.—There will likely be big surprises when the present Borden Cabinet is reorganized. Many changes are expected to take place in the ministry within a week's time. The whole matter is in the hands of Premier Borden and no indications have been given as to the intentions of the Premier.

Prominent business men, or representatives of a wing of the Liberal party may be asked to join the Administration. It is rumored that Sir Clifford Sifton is likely to take a portfolio.

"HINDENBURG PEACE" IS GERMANY'S LATEST

Amsterdam, May 26.—A "Hindenburg peace" movement, demanding that Germany retain the Briey and Longwy iron districts, Antwerp, the Belgian coast and the Belgian coal mines, is afoot in Germany. Copies of the Cologne Roman Catholic organ Volks Zeitung received here today featured the plan, urging signatures of the people to such a recommendation to the Government. The newspaper's form for signatures declares the Germans are opposed to "wars of conquest and policies of annexation," but it is not clear how this is reconciled with the demand for retention of the French and Belgian territory specified.

Plotting Away.

London, May 26.—Germany is actively plotting peace again after a lull consequent upon the failure of the first attempt to coax Russia into a separate compact.

The Teutonic efforts to bring about the end of the war on Germany's own terms were revealed in dispatches received today from half a dozen European cities. Coming at a time when Premier Ribot's firm and unyielding statement of France's aims in the war were prominently displayed here, as well as Russia's pledge to the United States, there seems scant likelihood of any headway in the German move.

Premier Ribot's speech in the Chamber of Deputies is approved here as epitomizing the aims of the Entente and clearing up, for Russia's benefit, some of the questions involved in the "no annexations and no indemnities" phase. M. Ribot made it clear that the restoration to France of Alsace and Lorraine was not "annexation," and that there was a sharp difference between "reparation" which Germany must make for her wanton destruction in France and Belgium and "indemnities."

BLOWING BOCHE TRENCHES TO BITS

Auberive and its powerful defences fell before the Allied attacks, preceded by an overwhelming artillery preparation, which smashed the enemy's line of defence to atoms, and inflicted severe casualties upon his forces. This wonderful photo was taken from an aeroplane and shows French shells bursting on the Boche trenches before the village, which is partially obscured by smoke.

WILL NOT RESPECT THE RED CROSS FLAG

(Special to The Daily News.)

London, May 28.—Germany has announced that hereafter she will not respect the Red Cross flag, and will regard all hospital ships as war vessels. These will be sunk on sight, if opportunity permits. Transportation of the sick from Kalamata and Salonika to Gibraltar may be allowed safe passage only if the name of the vessel, her speed and the time of departure is notified to Germany six weeks in advance.

GREAT CYCLONE HITS THE MIDDLE WEST

(Special to The Daily News.)

Chicago, May 28.—A great cyclone has swept up the Mississippi Valley and over the states of Illinois and Iowa. One hundred and seventy-five lives are known to be lost and thousands have been injured. Millions of dollars' worth of property has been destroyed.

FLYING CORPS IS ESTABLISHED IN B. C.

Five hundred skilled and unskilled mechanics are wanted at once for service in the Royal Flying Corps, aerodromes to be established in British Columbia. A recruiting office has been opened at Victoria and has been thronged with applicants since its first day of business.

Sites have been secured at Boundary Bay, near Ladner, and at Lulu Island, where the land is already being cleared and being sown under grass preparatory to the erection of aerodromes and other necessary buildings. It has also been stated that the whole of Minoru Park in Vancouver has also been taken over by the Imperial authorities for aviation purposes.

It is expected that fifty machines will soon arrive on the coast from Toronto for instructional purposes, so that the British Columbia stations will be fully equipped. Pilots are still in demand, and in view of the fine reputation won by British Columbia airmen in France, it is expected that a large number will be enrolled.

ALLEGES GERMAN SUBS GET SUPPLIES FROM SPAIN

(Special to The Daily News.)

Paris, May 28.—The Hun submarines get oil in Spanish waters. A French Deputy, criticising the Marine Department, says that the German divers are getting help from Spain, and that they have their regular bases in Spanish waters, which are kept supplied from Spanish territory.

ON THE STILL RISING COST OF LIVING

Ottawa.—The Borden Government's campaign for thrift has reached the stage where it is deemed safer to turn it over to the provinces. The provinces are getting busy. Boards of Trade are passing resolutions. Public meetings are being held. Business men from the cities declare their intention of making a passionate pilgrimage of three weeks to the country to help the farmer with his seeding and his harvest. Increased production is the word. Everything is to be speeded up. In view of these patriotic activities it was deemed advisable to interview, not the farmers, but the denizens of the farm, the hen, the cow, the hog, the horse, the apple, the potato, the wheat, who will be chiefly affected by the speeding up process. The interviews follow:

The Hen—Yes, I am willing to do my bit, but I want my efforts recognized. A career of persistent parturience, such as mine, is very trying on the nervous system and should have definite compensations. If I am asked to lay eggs by electric light, after my day's work is over, I want the people of Canada and the British Empire to get the benefit. I don't want to spend all my time laying eggs for half a dozen cold storage kings who hide them away in summer and dole them out in winter at anything from seventy cents to a dollar a dozen.

I can lay eggs, labor, food, and wear and tear included, quite profitably at twenty-five cents a dozen, and that is the price I would like to see fixed for the people at large. I know that is the price the cold storage kings buy my product at and I don't see why the people should get worse treatment. It's all very well to say that the people have as good a chance at my eggs as the cold storage kings, but they haven't. It is a notorious grievance that every little general store in the country acts as agent and collector for the cold storage fellows and that three-fifths of the summer-laid eggs do not see the market until months later. I often wonder why the government does not invoke the War Measures Act and make these cold storage pirates behave.

The Cow—What's the use? I drink all the water and make all the milk I can, and what they can't can they give to the pigs, but I don't get any credit. All I get is knocks. The smart alecks say that I am first cousin to the pump. It's not my fault. It's what the dairy companies do to the milk when it goes to the city. As it leaves my bosom it is pure as the driven snow, but I won't answer for it after the middlemen get hold of it.

Butter? What can I do about it? I try my best and turn out a good product, but I am not responsible for the price. The middleman fixes that. Forty cents a pound—pretty stiff. A little competition from oleomargarine would bring butter to reason, but you can hardly expect relief like that from the Borden Government which, I understand, is addicted to high tariff. Domestic cheese, I am told, brings the same price now as the imported varieties. That seems a good way to encourage the use of the imported varieties. I suppose the Borden Government aims to swell the customs revenue. Of course the consumer gets the worst of it. That's what he was made for. I'm afraid he'll go dry if he looks for the milk of human kindness in the Borden Government. They're

THE ITALIAN OFFENSIVE CONTINUES

Austrians Again Pushed Further Back, and Italians Nearer Trieste—Comparative Quiet in West.

(Special to The Daily News.)

London, May 28.—The Brilliant offensive commenced by General Cadorna two weeks ago continues victorious day by day. The Italian line is now projected farther down the Carso Plateau in the direction of Trieste and further progress was made yesterday. The total captures made by the Italians in this offensive beginning on the fourteenth of May now total 22,419 men. In the Plava section, the Austrians have been again pushed further back and are apparently demoralized.

French Front.

Paris, May 28.—Further progress is announced on the Champagne front. Two German counter attacks were repulsed. These attacks were made against the French salients to the east and west of Cerny and the German troops suffered great losses.

British Front.

London, May 28.—Increased activity is being displayed by the German artillery against the British sector of the Arras battle front from the Scarpe river south to Croiselles. Raids are frequent on both sides.

FIRE AT SEAL COVE BURNS SINCE SATURDAY

A little after 12 noon on Saturday, the fire department received a call from Seal Cove, and on arriving there found that the heap of waste from the old sawmill had caught fire and was burning furiously. This heap, or small hill of waste consisted of sawdust, slabs and the general refuse of a sawmill and has been lying there for years since over the old sawmill stopped operating. How the fire was caused remains unknown and is a matter of conjecture. It is supposed that it had been burning slowly for some time before it became noticeable.

Although the nearest hydrants were some distance away, the fire department soon had the blaze under control, and have been working at it ever since. It is expected that it will be some time yet before it finally burns itself out. The affair is well in hand and there is no danger of a further outbreak.

Yesterday, there were two other calls on the department. The roof of Mr. A. Frebourg's house on Eighth Avenue took fire supposedly through an over heated flue, and the roof was badly damaged. There was also a brush fire at the corner of Seventh and Lotbiniere, which was quickly got under. Altogether the department have had a fairly busy time. Minor accidents happened to two of the firemen. Harry Hooper got his hand rather badly cut, and Jim Neville received some nasty bruises; but otherwise the department maintained its superiority over the enemy.

ACT NOW!

In setting up a food control organization with Herbert Hoover at the head Washington has furnished the Canadian Government with another example which should be followed without further delay. Mr. Hoover proposes to divide the organization into four branches. One will consist of a number of separate executive bodies for the regulation and administration of certain critical commodities, whose duty will be to institute such measures as will stabilize prices and distribution. The second will ensure co-operation with the various states, which will be requested to organize subsidiary state food boards. The third will initiate a campaign for domestic economy, while the fourth will concern itself with co-operation with the Allies in regard to this vital question. "The powers being asked for," Mr. Hoover adds, "are considerable in order that we may force into the market every form of foodstuff over and above such stock as normally and legitimately belongs to any particular business for its proper conduct and to prevent any withholding, directly or indirectly, of food supplies from the market."

The Canadian Government should set up a similar organization at once. That it has made an attempt to do so is astonishing in view of the obvious need—obvious to everybody except the Minister of Labor, who says that food prices in Canada are not "exorbitant." This is what Kennedy Jones, director of food economy in the United Kingdom, said a few days ago:

"Without the mobilization of every available unit of Canada's food army, we here would have a very grim outlook. I say this not merely because of the submarine question, but on account of the world-wide shortage in cereals, Europe, that is the Mother Country and her Allies, will need every ton of grain the Dominion produces."

The ministry has watched with keen satisfaction the steps taken in various parts of Canada for increased production. In addition, Canada can help in avoiding waste and decreasing home consumption. If Canada can cut down her daily con-

sumption of bread by one quarter many thousands of tons would be added yearly to the wheat available for export.

"Those unable to join Canada's army, whose deathless exploits in themselves have added a glorious chapter to the history of the civilized world, can all do their bit by increasing production or decreasing consumption."

It is estimated that the Allies will need this year 500,000,000 bushels of wheat in addition to their domestic supply. They expect 250,000,000 bushels from the United States, but the New York Times points out that it will be impossible for the republic to send that quantity unless the people consent to a sharp decrease of the amount they consume. The total supply is estimated at 616,000,000 bushels. Washington "believes that the consumption can be cut down by a third, which would enable the United States to send more than 200,000,000 bushels across the seas. It is to bring this about that a food board has been organized. What is the Canadian Government doing along this line?"

NOTES AND COMMENTS

Armand Lavergne says he will submit to conscription if the country calls for it, but the whole thing is wrong. Canada is being "ruined" for the "little island that rules us." We should wait until the Germans try to take Canada. We observe that Lavergne is still a colonel. The present Government made him one when the war started. It ought to unmake him at once and put him in the ranks. After all, however, we ought to feel thankful that Lavergne is not actually a cabinet minister. He was offered a portfolio when the present Government was being formed. He did not accept the offer, but in October, 1914, made a record trip on a special train from Quebec to Ottawa to pass judgment on the cabinet slate before it was announced to the public by the Prime Minister. Having done this he strutted around the Capital with his chest out—a pocket-edition King-maker.

The German people now are being stimulated with stories about Hindenburg starting a big drive against Russia with Petrograd as

the goal. The Huns have been cheered with news of drives in the direction of many goals since the war began, but none of any vital consequence has been gained. In the winter there was to be a big combined drive against Italy, but it is Italy that is doing the driving. And Hindenburg has all the business on his hands he can attend to meeting the Allied drive on his western front. Furthermore, the fact is beginning to dawn on the Junker mind that the submarine goal is not likely to be attained.

And who gets it? I must confess that it makes me hot when I think that I, the mortgage lifter, can be valued at such a small sum as ten cents a pound, while my dead self is worth thirty cents a pound more.

The horse—I see my finish. They're talking of tractors for the farm. May I never live to see them! However, there's one thing that may save off the evil day—the tractor is no fertilizer.

I must admit that I saw a ray of hope when the war started. The horses young Mr. Foster bought for the Borden Government down in Nova Scotia encouraged me to believe that I might be called on to serve my country somewhere in France.

The potato—Don't blame me. Let the Borden Government do it. They have their War Measures Act. Let them use it.

The apple—No apples to eat in an apple country? The West Indian banana our national fruit? Well, what better could you expect from the Borden Government's blundering manipulations.

I am a signal example of how the blamed thing works out. I may grow in British Columbia, but it doesn't follow that I sell there.

No I pay the freight all the way across the continent and sell at five cents each in Ontario, which, in turn, sends its good apples overseas to England. In short,

the home market is protected for us apples so that we needn't sell at home. We needn't and we don't. I think it would be cheaper and altogether more satisfactory for the consumer to eat the apples grown, so to speak, at his own door.

The wheat—Don't talk to me. I did it once in 1915. Gave 'em a bumper crop and then had to hand it over to the elevator combine. Couldn't get the railways to move it.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that Magnus P. Olsen, whose address is Anyox, B. C., will apply for a licence to take and use about sixty cubic feet per second and to store about 300 acre-feet of water out of Bonanza Creek which flows southeasterly and drains into Granby Bay about at or near Lot 1675, Cassiar District.

The storage-dam will be located at about one and one-half miles from mouth of Bonanza Creek. The capacity of the reservoir to be created is about 300 acre-feet, and it will flood about twenty acres of land. The water will be diverted from the stream at a point at or near the dam, and will be used for power for mining purpose upon the mine described as the Midas, Platinian and Fox Groups, situate near the headwaters of Bonanza Creek.

This notice is posted on the ground on the 15th day of March, 1917. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local paper.

M. P. OLSEN, Applicant. The date of the first publication of this notice is March 26, 1917.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that George McRae whose address is Skidegate, B. C., will apply for a licence to take and use 150 cubic feet per minute of water out of Demster Creek, which flows northerly and drains into Aliflor Bay, about 15 chains from the N. E. corner of T. L. 825. The water will be diverted from the stream at a point about ten chains west from N.W. corner of Lot 4, B. C. Fisheries, and will be used for power purpose upon the land described as adjoining Timber Limit 831 in application to lease.

This notice is posted on the ground on the 15th day of January, 1917. A copy of this notice and an application pursuant thereto and to the Water Act 1914 will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is February 21st, 1917. GEORGE MCRAE, Applicant.

Navigable Waters Protection Act, R. S. C., CHAPTER 115

The Grand Trunk Pacific Railway Company hereby gives notice that it has, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry Office, District of Prince Rupert, at Prince Rupert, a description of the site and plan of lumber mill and other works proposed to be built in the Prince Rupert harbor at Prince Rupert, British Columbia, in front of Waterfront Block "F", according to registered plan of the townsite of the said city of Prince Rupert registered in the aforesaid land registry office as No. 923, Section 7.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the Grand Trunk Pacific Railway Company will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plan and for leave to construct the said works. Dated at Winnipeg, Manitoba, this 21st day of February, A. D. 1917. THE GRAND TRUNK PACIFIC RAILWAY COMPANY. H. H. HANSARD, Solicitor.

LAND REGISTRY ACT (Sections 36 and 134.)

Re Applications Nos. 9085-1 and 9087-1, Filing 5808.

HOLIDAY TIME CALLS FOR FLEET FOOT SUMMER SHOES

CAN'T trust yourself to slippery leather, in canoe, sail boat or yacht. And, of course, you have to have Fleet Foot Shoes for tennis, baseball, golf and lacrosse. Fleet Foot Pumps or low shoes are the proper accompaniment of Summer apparel. And Fleet Foot Summer Shoes cost so much less than leather, that it is real economy to wear them.

Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts. But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath. The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes:—"Dear Doctor,—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail by Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert. Ask for free booklet, "Why Man of Today is Only 50 Per Cent Efficient." If you prefer, write to Dr. Chas. A. Tyrrell, 163 College Street, Toronto, for same.

FOOD DICTATOR FOR THE DOMINION

Winnipeg, May 26.—The Telegram's Ottawa correspondent writes:

"A food controller for Canada probably will be appointed by the Government this week. The whole question will be discussed by the Cabinet within the next few days and it is understood the majority of the ministers favor the appointment of one man with full authority to deal with the question. He will act in conjunction with Herbert C. Hoover, former chairman of the Belgian Relief Commission, whom President Wilson has announced he has selected to become Food Controller in the United States.

Wide Powers.
 Ottawa, May 26.—According to the Ottawa Citizen, the controller of food supplies whom the Government intends to appoint will have very wide powers. He will be vested with authority to limit the amount of food products which may be kept in storage and also to compel, whenever he deems it necessary, the distribution and marketing of foodstuffs. The regulation or fixing of prices may be a subsequent development. It will not be applied until restricted marketing has been tried and its effects shown in preventing abnormal prices of food.

The water at the salt lakes yesterday was fine. Many of the Prince Rupert folks were in enjoying a splash. The fine weather tempted several hundreds of the citizens across the harbor yesterday picnicing.

Mr. J. Bryson, of Porcher Island, Mr. M. T. McCormack, of Anyox, and Mr. D. C. Anthony, of Alice Arm, are in the city today. They are interested in mining properties on Porcher Island, which they have been inspecting.

The Rev. Dr. Grant has received from Mr. "Jack" Kirkpatrick, now at the front, a New Testament, which was picked up on Vimy Ridge, after the advance by the Canadians there recently. It bears on the title page, "From Alice to Ernest." This is only a slight clue as to the giver, to whom the book will gladly be given.

WESTHOLME THEATRE

This strongly attractive love story of the East has a genuine Oriental flavor. It truly depicts life as it is in the East. The pictures shown were made from real life there. The Algerian dancers, musicians, camel drivers and all the strange paraphernalia of Algerian life are shown as they really exist. Many types and kinds of dancing are performed by the native dancing women in this wonderful photoplay, but more beautiful than any of the native beauties, Lenore Ulrich in the gauze and spangles of the celebrated and much sought after Hafsa, stages the premiere dance of the evening, which performance has a very potent influence on Hafsa's career. Altogether, this is a fascinating and highly romantic play, and of the kind to be remembered. There will also be a Topical Budget shown, giving views of all the latest events.

Word has been received in the city from Mr. Fred Hunt, who used to be accountant for Messrs. Lynch Bros. He is still in France and so far has not received a scratch after his two years' service. His many friends will be glad to know that he is well.
