BOMBARDMENT OF OSTEND CREATED VERY GREAT HAVOC

DOCKYARDS AND WORKSHOPS WERE SEVERELY DAMAGED IN BELGIAN PORTS—FLEET WITH HEAVY GUNS FIRED ON ZEEBRUGGE FOR A HUNDRED MINUTES BEFORE RETIRING

(Special to The Daily News.)
London, June 7.—It has been learned by photographic reconnaissances by our aircraft over the Belgian coast that the port of Ostend shows the majority of the dockyards and workshops were greatly damaged by the big guns of the British fleet during the recent bombardment. The bombardment of Zeebrugge has been the most formidable since the beginning of the war. It lasted for one hour and twenty minutes and was carried out by the fleet armed with heavy guns.

The Air Raid.
Four German aeroplanes returning from yesterday's raid over England have been brought down and destroyed by gunfire. Altogether sixteen German aeroplanes took part in the raid over Essex and Kent dropping bombs. The total casualties were twelve killed and thirty-six injured.

Berlin Version.
Berlin, June 7.—Aeroplanes dropped over fifty kilogrammes on places of military importance at Sheerness. Hits were observed.

British Front.
London, June 7.—The British made an attack on the Arras front last night to the north of the River Scarpe. Ground was gained and held in two sectors. We made a successful raid to the north of Armentieres. Many casualties were inflicted upon the enemy.

French Front.
Paris, June 7.—Two violent attacks were made by the Germans in strength on the French positions at Hurbise, and Chemin des Dames last night. Both attacks were repulsed.

Seven German aeroplanes and one captive balloon were brought down on the Belgian front yesterday.

Berlin Report.
Berlin, June 7.—One destroyer S-20, was sunk during the recent attack on Ostend. A number of the Belgian inhabitants were killed and wounded, and some material damage was done. In Germany, the food supply is adequate to enable the country to hold out until the year's crops are garnered, and until the conclusion of a victorious peace.

The British penetrated our positions at Roeux and fighting is still in progress.

Artillery Fighting.
Paris, June 7.—Intense artillery duels are in progress from the Channel to Rheims. Tremendous quantities of ammunition are being used on both sides. At several points, direct hits have been observed behind the German lines, and it is expected that ammunition depots at the German field bases have been exploded.

Italian Front.
Rome, June 7.—Intense fighting is now on, extending all along the front from Gorizia to the sea. Attacks in force have been made by the Austrians in overwhelming

strength at several points. Some front line trenches were lost, which have been retaken. Bitter fighting is still in progress.

GERMAN SUB SUNK BY U. S. STEAMER

(Special to The Daily News.)
Washington, June 7.—A German submarine is believed to have been sunk by an armed American steamer yesterday in a running fight, which lasted for an hour and a half. The U-boat opened fire and then suddenly disappeared.

LABOR CONFERENCE GETS AFTER FLAVELLE

Ottawa, June 5.—At the Labor Conference held here last week intimation was given that the organized workers are about "sick and tired" of petitioning the Government to make a move for bettering conditions.

The following is a statement of the proceedings given out to the press:

"Bitter criticism of the Imperial Munitions Board was made by international representatives. The representatives of the machinists, carpenters, plumbers and steamfitters, sheet metal workers and many other organizations, declared that the wages and conditions of labor in work under control of the board was a scandal and a disgrace. J. W. Flavelle and C. S. Gordon were declared to be unfair to the workers. Their public attitude was described by many as cant and hypocrisy.

"The general opinion was that the time had arrived for labor to take some direct action to force better conditions, many of the international representatives demanding the dismissal of Chairman Flavelle and a reorganization of the Munitions Board. There was a general feeling at the afternoon session that steps should be taken immediately to force action on the present government by making arrangements for a general tie-up of industry throughout the Dominion. Delegates declared that Mr. Flavelle's attitude was one of defiance to the workers in their efforts to obtain redress, trying to make it appear that he was fair and actuated by patriotic motives. His attitude, declared many speakers, was destroying national unity.

"The whole subject was referred to a special committee to bring in a report, defining what action should be taken."

Ask Reorganization.
The conference decided to take definite action in regard to certain allegations lodged against the Munitions Board by forwarding to 4,700 local unions the request that endorsement be given to a demand for the reorganization of the board on the basis of equal representation of labor with the employing interests.

Word has just been received that Privates Gilmour, Richmond, and Singleton, returned soldiers, have left the south and are expected to arrive in Prince Rupert tomorrow night.

Messrs. N. C. Ingram, J. A. Burke, Mark Smaby and M. Cosgrove, of Ocean Falls, were in the city yesterday.

THE CALL—Spirit of our glorious dead: "CARRY ON"—In justice to our glorious dead, in justice to the living, the gaps at the front must be filled, and kept filled until victory is achieved.—From Montreal Daily Star.

SPLENDID RESPONSE BY THE YOUTH OF U.S.

(Special to The Daily News.)
Washington, June 7.—The young men of the United States have made a spontaneous and thorough response to their country's call. Out of the ten million registered for the war with the Huns, it is expected to raise an army of one million. The selected quota will go into training early in the fall. Few disturbances have been reported. In Butte, sporadic rioting occurred, and four arrests were made.

PATTULLO FOUNTAIN FOR WOODSTOCK, ONT.

Last week in the town of Woodstock, Ont., the formal presentation of a gift of a fountain to that city was made, in the name of the late Andrew Pattullo. The fountain is situated in front of the city hall and was formally handed over to the city by G. R. Pattullo, brother of the donor.

Striking tributes were made to the memory of the giver, the late Andrew Pattullo, of whom the Hon. T. D. Pattullo, of Prince Rupert, is a nephew. Up to the time of his death, some twelve years ago, he represented North Oxford and for years was an ornament and a power in the political life of the province. He had one of the brightest minds and was a brilliant man, and always had the interests of the people as a whole at heart more than his own personal interests. He was but one of a brilliant family, and if there is anything in heredity, the Skeena District, in having a representative of this family as their member in the Provincial House, have a representative of no mean order.

RUSSIAN GOVERNMENT AND THE NAVY TROUBLE

(Special to The Daily News.)
Petrograd, June 7.—The Provisional Government, recognizing that the present condition of affairs at Kronstadt is both menacing and intolerable, have requested the Socialist ministers to visit the fortress city with the object of clearing up its attitude towards the Central Government. M. Kerensky, the War Minister, has left the capital on a visit to the northwest front.

Is It a Threat?

New York, June 7.—From an absolutely reliable source has been learned that Japan recently informed the Provisional Government at Petrograd that if Russia were to withdraw from the Allies and accept a separate peace with the Central Empires, Japan and Great Britain would immediately confer as to the proper steps to take.

NEW AGITATION FOR COMPULSION

Sydney, N. S. W., June 6.—In consequence of the casualties at the front and the diminishing recruiting returns, there is an agitation in every state of the Commonwealth for the early introduction of selective conscription.

Hon. George Foster Pearce, minister of defence, has issued a return showing that enlistments in Australia from the beginning of the war to April 30 last numbered 362,000, being 14 per cent. of the male population of the Commonwealth.

Mr. Pearce says in his statement that 5,000 Anzacs who made the original landing at Gallipoli are still fighting in France. He appeals for a corresponding number of recruits to allow them a furlough in Australia, and adds: "Many of you are against compulsory service, but you are fighting for compulsory service for those 5,000 men whom you send back to the fighting line time after time."

Mr. Pearce's statement will be made the text of a special recruiting effort.

RETIRAL OF HON. R. ROGERS FROM CABINET

Royal Commission will investigate into the Findings of Justice Galt Against The Minister.

(Special to The Daily News.)
Ottawa, June 7.—The Hon. Robert Rogers retires pending a probe. The Premier has appointed a Royal Commission to investigate the findings of Justice Galt against the Minister of Public Works. The Premier will administer the office temporarily. The Hon. Robert Rogers declares that the investigation will exonerate him of all blame.

CATHOLIC BAZAAR HAS A SUCCESSFUL START

The Grand Bazaar which has been got up by the ladies of the Catholic Church, was opened last night. Notwithstanding the inclement weather, there was a splendid attendance at the opening ceremony. The mayor, who was formally introduced by Rev. Father McGrath, officially declared the commencement of the Bazaar, and started things going by pressing an imaginary button. The most interesting features in the entertainment provided were the songs and music rendered by the children of the school. They were cleverly performed, and were certainly a great credit to those who had the training to do.

Among the stalls, Mrs. Morrissey and Mrs. McLaren had charge of the fancy work, to which contributions had been received from all over the North American continent. There were piles of beautiful embroidered articles. Mrs. Besner had charge of the wheel of fortune. The candy booth was under the care of Miss Simons and Mrs. Harris, assisted by the girls. The ice cream parlor was looked after by Mrs. Prudhomme, Mrs. Dymond and Mrs. Roeburge. The country store was doing a thriving trade. The proprietor, Mr. John Venables, required three assistants to undertake the business. They were Mrs. McNulty, Mrs. Dalton and Mrs. Venables, and they were kept busy all the time.

There was also a great collection of works of art lent from far and near for this occasion. Famous paintings, sculpture, and interesting articles of vertu were represented in a numerous collection, and this still was under the care of Messrs. G. Morrissey, Quin and G. Harris.

Later in the evening, the Westholme Orchestra was in attendance and discoursed sweet music, and altogether, the opening evening of the Bazaar was a distinct success.

GENERAL NEWS ITEMS

(Special to The Daily News.)
A strong feeling for compulsory service is spreading throughout Australia. The nation now sees its mistake.

The New York World's correspondent at Stockholm declares that the German press are endeavoring to fool the people into the belief that the United States are loath to take up arms against Germany.

British recruiting offices have opened in New York. Over five hundred applications have already been received.

President Poincare in Paris has signed a decree creating a Polish army.

STILL TALK COALITION AT OTTAWA

Premier is Expected to Make an Announcement in the House This Afternoon About Coalition.

(Special to The Daily News.)
Ottawa, June 7.—Sir Wilfrid Laurier had another conference with Sir Robert Borden today, which lasted for one hour and a half. Sir Wilfrid said that he had no statement to make. Sir Robert Borden had nothing to say on the matter, but will make an announcement in the House this afternoon regarding the result of the negotiations between himself and Sir Wilfrid during the past fortnight. It is thought that Sir Wilfrid has informed Sir Robert Borden finally as to the terms on which coalition would be accepted by the Liberals.

GERMANY PROTESTS AT SEIZURE OF SHIPS

(Special to The Daily News.)
Rio de Janeiro, June 7.—Germany has protested against the utilization of the German merchant ships by Brazil. Brazil has replied that she is merely getting her own back in seizing the Hun ships.

SERBIANS HANGED BY THE THOUSANDS

Udine, Italy, June 6.—Fragmentary news recently reached here through neutral countries of widespread insurrectionary movements in Serbia. This news now is supplemented by the statements of Austrian prisoners captured in the recent Italian advance, giving details of the merciless methods of repression used to crush the uprisings.

The insurgents were gradually surrounded by Austrian, German and Bulgarian regiments and all who fell into their hands, chiefly old men, women and children, are declared to have been massacred. In spite of this procedure fierce resistance was offered for three weeks and heavy losses inflicted on the invaders, especially the Bulgarians. The insurgents finally succumbed to superior numbers and the Serbians were hanged by thousands.

According to the prisoners the Bulgarians were guilty of such atrocities, especially against the women and children, that even their Austro-German allies termed them barbaric.

At the skating rink last night there were five entries for the ladies orange race. These were Miss Doris Mason, Mrs. F. Wright, Miss L. Shrubbsall, Miss G. Hill, and Miss G. Shrubbsall. Miss Doris Mason was the winner of the prize which was a box of oranges. The race proved to be a great attraction and there was a full house.

WANTED—A LEADER

The disrupted influences that are jeopardizing the internal peace and solidarity of Canada in time of war will be encouraged to pursue their fateful course, unless vigorous steps are taken to pull the country together, and to unite all parties behind a government that enjoys the confidence of the people. For four months Canada was left without leadership, while the Premier was in England. During this time, the country drifted aimlessly, with no definite war policy to enthuse the people and with indifference, neglect, and hopeless chaos in war administrative departments, which chilled the interest of the nation in the fortunes of the Allied cause.

The disgraceful manner in which returned soldiers have been deprived of the money due to them, and the needless suffering and privation endured by brave men, particularly in the East, who have fought the battles of their country, are little short of criminal. In the offices of the Soldiers Aid Commission in Toronto two weeks ago, two men appeared in uniform, who had received no pay for seven weeks. While these two men were waiting to enter their complaint and to ask relief, a third soldier appeared on the scene, who had received no pay since May, 1916. With a wife and family dependent upon him and compelled to go into hospital for an operation following a wound received at the front, this soldier was forced to seek assistance from the Provincial Aid Commission because of the failure of the Dominion Government to insure efficiency in the Militia Department, and in the Military Hospitals Commission.

The discontent among returned soldiers, and the ventilation of their intolerable grievances, have done much to discourage voluntary recruiting in Canada, and to create the latent hostility to necessary war measures which is disclosed by the controversy over the compulsory enlistment proposals of the Government. Why should the country be expected to entrust the future conduct of the war to a Ministry which has so conspicuously failed in the past? In other Allied countries forfeiture of public con-

fidence, or proved incapacity in the carrying on of the war departments, has been sufficient to justify a demand for the retirement of the responsible Prime Minister. Sir Robert Borden has forfeited the confidence of the Canadian people. It is a dangerous experiment to force an extension of the life of the Borden regime by any scheme of reconstruction that does not rest on the consent of the two historic parties in Parliament, and which is not followed by a fusion of all the national forces essential to war efficiency. Is Sir Robert Borden prepared to risk the future of this country and to jeopardize Canada's part in the European campaign by putting off before patriotism?

A condition precedent to the hearty co-operation of Canada in the remaining stages of the war is a frank understanding between the two dominant races and the creation of a truly Canadian sentiment which will unite them on a common national platform. It is as a nation that Canada is in this war. Had the Borden Government from the beginning of the war been seized of the vital importance of national unity it would not have committed the crime of playing off Ontario against Quebec, and of failing to appreciate the value of French-Canadian sentiment in the voluntary enlistment of men in Lower Canada. Dogged by the aftermath of the 1911 campaign, the Borden Ministry has been unable to reach the heart or understanding of Quebec. Having made use of Quebec Nationalism to drive Laurier from office, Sir Robert Borden has failed to take the place of Sir Wilfrid as the trusted leader for both races.

The Fathers of Confederation created the nation. On this broad foundation Sir Wilfrid Laurier brought English-speaking and French-speaking Canada together, and cemented the bonds of national unity. It has been Sir Robert Borden's ignoble task, in the pursuit of petty political ends, to put asunder those whom Sir Wilfrid Laurier had joined together. Canadians have not forgotten how Sir Robert Borden, in the general election of 1911, drove Sir Wilfrid from office by a secret understanding

with the Blondins and Bour-assas, who denounced Laurier's naval policy as an Imperialistic plot for conscripting French Canadians for overseas wars. Sir Robert Borden has weakened the Foundations of Confederation and prejudiced the cause of the Allies. Canada calls for a cabinet which will join the broken threads of the past and restore to the Dominion the sense of national unity which seven years of Borden partisanship have so effectually destroyed.

NOTES AND COMMENTS

There is now a general demand that the war profiteers shall be rounded up and their gains conscripted for the benefit of the nation. Although this is a thing that should have been attended to long ago, it is better late than never. The man who voluntarily

offers his life as a sacrifice in the cause of liberty surely puts more in hazard than he whose notice is "business as usual" at super-profits.

The Government at Ottawa must be brought to realize that the solution of the economic problem must go hand in hand with that of the problem of man power for the army. Upon this the Canadian people will insist. Sir Thomas White has stated in Parliament that some war contracting firms have made profits ranging from 30 to 100 per cent. This admission alone is a damning arraignment of the Government of which he is a member. A large part of the country's war expenses should be financed from excess profits. They should be used on behalf of the men fighting, their dependents, pensions, etc. This would not only be common justice, but would lower the taxation under which the country is staggering.

The welcome news that the losses inflicted upon the merchant marine is "much below the average" for the past week shows that the note of elation in the speech of Mr. Lloyd George a few days ago was fully justified. The new method of attack is apparently meeting with great success. The naval correspondent of the usually well informed Westminster Gazette also baldly stated that an "infallible" means of countering the submarine had been invented and a cryptic reference was made to the researches of Mareoni and an American inventor operating along "independent lines."

INDIAN BANDS WILL COMPETE AT THE FAIR

That several of the Indian bands on the coast intend coming to Prince Rupert this fall to compete in the band contest at the fair was the statement of Mr. Hoelscher yesterday. Mr. Hoelscher hopes to come with one of the bands as bandmaster. The bands from Massett, Bella Bella, Aiyansh, and a fourth band from the Naas expect to enter for the competition, and there is a possibility of Kitkatla and the Metlakatla and Port Simpson bands also entering.

Mr. Hoelscher has been a bandmaster for about fifteen years now and at one time was regimental bandmaster of the 3rd Illinois Infantry in the United States. He comes from a very musical family who have been long established in the state of Illinois. One brother of Mr. Hoelscher's is colonel of the 2nd Illinois National Guard, another is at West Point and a third is also under arms and all three hope to get across to the front with the first American contingent.

Coming to the coast three years ago from Manitoba, Mr. Hoelscher organized the Prince Rupert City Band, and since that time has been instructing the Indian bands on the coast with much success.

BRITAIN EXPERIMENTS IN WATER TRANSPORT

London, May 12.—The first stage of a striking experiment in inland water transport was completed with the arrival in London the other day of two barges laden with coal from collieries in the north of England. The barges were propelled for 160 miles by a detachable motor.

The new device consists of a four-cylinder, 17-h.p. marine engine capable of hauling two boats with a load of 100 tons. It is mounted on the top of the cabin and controlled from the helm. Petrol is employed for starting, and paraffin when running. The engine and attachments can be transhipped from one barge to another in a few minutes, and it is stated that its use means economy in time and money by comparison with towing by horses.

BRITISH TRAWLERS ARE TERROR OF SUBMARINES

London, June 4.—Stories not hitherto published of lively encounters between British trawlers and German submarines in the North Sea were told by Sir Robert Lowry and others at the recent meeting of the Mission to National Seamen. One trawler, Sir Robert said, became such a terror to U-boats that four of them lay in wait, and eventually destroyed it. On one occasion this trawler, armed with two light guns, was attacked by a submarine. One shot went through the deckhouse, another smashed the wheel, "but the skipper went on steering with broken spokes." Another shot carried away the cook's galley, but the trawler's gunner hit the submarine, which then had enough of it and went under.

Another armed trawler saw a submarine on the North Sea, and made a dash for it, with the result that the U-boat quickly submerged. "It went underneath," said Sir Robert, "because it could not imagine it possible that a trawler would have the courage to attack if it were not armed."

Sir Robert related how they learned of the sinking of two submarines by the bodies of the crew floating on the surface, although five or six days later a report was circulated from Germany that the boat had returned to her port.

You Can Make Excellent Cake With Fewer Eggs

Just use an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE

- | Old Way | New Way |
|---------------------------------------|---------------------------------------|
| 1 cup sugar | 1 cup sugar |
| 1/2 cup milk | 1 cup milk |
| 2 cups flour | 2 cups flour |
| 2 teaspoons Dr. Price's Baking Powder | 4 teaspoons Dr. Price's Baking Powder |
| 3 eggs | 1 egg |
| 1/2 cup shortening | 2 tablespoons shortening |
| 1 teaspoon flavoring | 1 teaspoon flavoring |

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Dr. Price's Baking Powder together, two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

WESTHOLME THEATRE

At the Westholme Theatre tonight, there will be shown the picturization of an immortal work, which had exceeding popularity during two thirds of the last century. "The Dream of Eugene Aram," to be shown tonight was a play in which the late Sir Henry Irving appeared in 1873, and it was based upon a poem by Thomas Hood. Bulwer Lytton also wrote a novel on the same character. As a psychological study, it was criticised, analysed and dissected at great length, although nowadays, its romance proves to be the chief interest. Tyrone Power in this play gives a splendid rendering and it will be thoroughly enjoyed by everyone. To balance the programme, a Scenic will also be shown, and there will be some splendid comedies also.

WHAT IS COMING ON THE BELGIAN COAST

London, June 6.—Reports from both Berlin and London today indicate the probability that an important military movement by the Allies is under way on the Belgian front—possibly an attempt in force to hit the German flank on the coast a crushing blow.

A pitch of notable intensity such as usually precedes an attack has been reached by the artillery fire near the coast and to the south in the Ypres district.

Meanwhile British air raids have been carried out on and near this coast. Many tons of bombs, says the London official report, have been dropped on Ostend, Bruges and Zeebrugge, the last named being one of the principal German submarine bases.

None master all women; few men none. Man's hardest task is to master one.

FRANCOIS LAKE

To the Editor:—One of the most picturesque lakes in the interior of Central British Columbia is Francois Lake, about 330 miles from here by train and stage. This lake follows latitude 54 for seventy miles and is from two to three miles wide. The water from this lake flows through a river with steep banks only seven miles long into Fraser Lake with a fall of 150 feet in this short distance. Some day this water power will be utilized and Francois Lake, like the Lake of the Woods in Ontario, will become a huge mill-pond. As I travelled last Monday more than half of the length of this lake I had the opportunity not only to admire the beautiful scenery but also to judge of the value of the land along the shores. In places the banks are hilly and either covered with spruce and poplar trees or else bald and barren, but there are many other places where the land slopes down to the lake and the soil is very fertile. The best spots have naturally been picked out by the pioneer settler and the grasping speculator. We do not begrudge the former his lot. He is worthy of it and his green fields are a delight to the eye, but the latter deserves nothing but contempt for holding back the development of the country, doing nothing with the land but waiting for the unearned increment produced by the sweat and toil of others. Back from the lake there is still much good land to be pre-empted. About midway from both ends of the lake there is a government ferry, a launch and scow with Wiggs O'Neil at the helm. It is on the north shore of the lake near the ferry that the new church stands which I opened assisted by Rev. Wm. Sweetman, last Sunday. The settlers came from both sides of the lake. From the point where the ferry lands on the south side, roads go to Ootsa Lake and Uncha Lake. I met two men who are locating about ten miles from Francois Lake midway between this and Ootsa Lake. They are taking forty head of cattle into this country and there are enough children in the party to start a school. Bostrom's cattle ranch is also in this neighborhood. While at the foot of the lake I saw a steamer sixty-five feet long built and owned by Joseph Remy who also hopes to operate up and down this wonderful waterway when business warrants it. Such a man should be encouraged. From the foot of the lake I walked over a prospective wagon road, now a sleigh road, seven miles to Endako, a divisional point on the G. T. P. This road is worthy of being built by the government as a short connecting link. Fallen trees made it hard to travel. There is undoubtedly a future before Francois Lake. It abounds in fish. The mining prospects at the head of this lake district are good and best of all there are some genuine farmers and ranchers round its shores.—F. H. DU VERNET.
