#### BRITISH HOLD POSITIONS WON IN YESTERDAY'S ATTACK

**BATTERIES OF GUNS CAPTURED WITH COMPLETE STOCKS OF SHELLS—BRITISH GUNS BROUGHT DOWN THREE GERMAN AEROPLANES—VERY SEVERE FIGHTING IN PROGRESS**

(Special to The Daily News.)

London, June 9.—The night passed quietly on the new British front in Belgium. All the gains made on the front of nine miles and to a depth of five hundred yards were held despite the efforts of the enemy to regain their lost ground. The losses suffered by the Germans in their counter attacks, which were made repeatedly, were terrible. Over six thousand prisoners have already been counted passing through the collecting stations on their way to the rear. No estimate of the number of guns captured has yet been made known, but several of the German batteries were taken practically intact, with great stocks of shells.

##### More Air Attacks

The British are continuing the aerial attacks over Belgium and have put three German aeroplanes out of commission near Dixmude. Prisoners taken say that scores of German guns were destroyed by the British bombardment.

##### Counter Attacks.

Three counter attacks were delivered by the Germans last night in great force, and were broken up with great losses. Vast numbers of German troops are being rushed forward by Hindenburg in an effort to stem the British advance, which has swept over the heights dominating the Lille plain, and threatens to sweep the Teutons from the industrial section of northern France.

##### Berlin Official.

Berlin, June 9.—Our forces have withdrawn from a salient projecting westward, to prepared positions between the canal bend north of Hallexent, and Daub stations. This is the salient the British reached yesterday. The British put three German aeroplanes out of action near Dixmude.

##### French Official.

Paris, June 9.—Heavy fighting is in progress to the south of St. Quentin. A strong attack was made by the Germans in strength between St. Quentin and La Fere.

##### Italian Front.

Rome, June 9.—A semi-official statement has been issued which states that the Italians now face two-thirds of the entire Austrian army as a result of the withdrawal from the Russian front.

#### A PLEASANT EVENING IN ST. ANDREW'S ROOMS

The regular monthly meeting of the St. Andrew's Society was held last evening, and was got through quickly. Two new members were elected and after the routine business had been got through the piano was opened and the members settled down to enjoy a social hour or two. Several guests were present, among whom were Dr. McNeill, Mr. Boulton, and Mr. Fred. Stork. The president, Mr. S. D. Macdonald, extended a hearty welcome to the visitors and in the course of the evening called for a few words from each. Dr. McNeill, freshly returned from France, and Mr. Boulton, from a civilian point of view, made some very interesting remarks on the war, while Mr. Stork, in a happy vein, gave some of his recollections of the ancient city of Pompeii.

A splendid programme had been arranged, in which Mr. J. H. McMillan, Mr. Thos. McMeekin, and Mr. W. Vaughan Davies gave orchestral selections, "Doc" Clapperton, Mr. Forrest, Mr. Morris, Mr. F. Moore, Mr. Gauld, and Mr. Dowther rendered vocal numbers with much success, while readings were given by Mr. H. Atkins, Dave Thomson and Mr. Robb. The evening's entertainment came to a close in the wee sma' hours, and, as is usual with the St. Andrew's boys, it was a very happy one.

#### THE LATEST ROYAL COMMISSION'S TASK

The findings of Mr. Justice Galt, commissioner investigating the circumstances attending the construction of the Manitoba Agricultural College, in his report finds that the Crown has established fraudulent overcharges amounting to \$302,789.28. The findings of Mr. Justice Galt were such that the Premier has appointed a Royal Commission to investigate the matter further.

In this second report on the subject, which is a lengthy document, Mr. Justice Galt says:—

"I find that shortly after the site for the new agricultural college was acquired a fraudulent conspiracy was entered into by the Hon. Robert Rogers and Thos. Kelly, senior member of the firm of Thomas Kelly & Sons, contractors.

"The objects of this conspiracy were, among other things:

"(a) to provide money for the Conservative campaign fund for use at both Dominion and provincial election from Thomas Kelly & Sons and others, who had been contractors for the various buildings comprising the new college.

"(b) To provide Thomas Kelly with funds, out of the provincial treasury over, and above what he might legitimately earn. Fraudulent overpayments to the extent of \$302,789.28 were shown to have been made by the former Provincial Government to Thomas Kelly & Sons, but it appeared that on or about August, 1915, all the books and documents of the firm were destroyed by Maurice Kelly, son of Thomas Kelly, although not a member of the firm, and so no evidence was available to ascertain what disposition had been made by Thomas Kelly or the Kelly firm of the said overpayments."

##### Lax in Department.

Commissioner Galt reports that "the means adopted by Messrs. Rogers and Kelly to carry out their said conspiracy," were:

"First, an atmosphere of laxity was to be created by the Hon. Robert Rogers in his department of public works and such instructions were to be given to Victor W. Horwood, the acting provincial architect as would insure acquiescence by him and by the various government inspectors and the officials of the department including the architect's office, in the progress estimates of the contractors, without checking up or verifying the propriety of such estimates.

"Second, contracts for 'extras' were to be lavishly granted to main contractors subject to no competition by others.

"Third, as soon as the various contractors realized the favorable treatment they were receiving, emissaries from the Conservative committee or other organizations were to wait upon them and collect correspondingly favorable contributions to the Conservative campaign fund."

##### Parties Conspiring.

"The commissioner proceeds: 'I find that during the period in 1911 when the Hon. Robert Rogers was minister of public works, the following persons became principals in the conspiracy aforesaid:

"The Hon. Robert Rogers, Thos. Kelly and his sons in the firm; Roy Worthington, estimator for Thomas Kelly & Sons, and Victor W. Horwood, and that the agents employed by them to assist in carrying out this conspiracy were the various government inspectors in charge of the works, the various deputies in the department of public works, including the architect's office and C. Sprague, collector for the fund."

#### THE CONSCRIPTION BILL IS NOW READY

(Special to The Daily News.)

Ottawa, June 9.—The provisions of the conscription bill have now been made public. There will be no registration. Every man between the ages of 20 and 45 is presumed to be eligible. There will be boards to consider exemptions. Those who do not report to such bodies will be presumed to be ready to serve and subject to be gathered in. The exemption boards will not be appointed by the Government, but by outside authorities. Wide powers will be given for the exemption of those whose services are deemed essential to the state at home.

#### FEARS THAT RUSSIAN EMPIRE HAS COLLAPSED

(Special to The Daily News.)

Washington, June 9.—It is feared here that the Russian Empire has collapsed for good. An appeal to the citizens of America is made to take the war game seriously. The United States Military plans are laid for three more years of war. The proper distribution of the burden of the war gets attention in the capital.

Fired. Goethals today dismissed two heads of departments, who originated the idea of wooden ships. They were dismissed on account of their charging Goethals with the holding up of the ship building programme.

#### REVOLT IN BOHEMIA

(Special to The Daily News.)

Prague, June 9.—The opening session of the Austrian Parliament has been accompanied by revolutionary disturbances in many towns in Moravia and Bohemia. The police are powerless and in some cases the troops sided with the people.

Copenhagen, June 9.—The revolt at the present moment in Bohemia is considered to be most fortunate for the Allies in relation to the Russian situation, as it will expose to the Russian pacifists the true state of affairs in the Central Empires.

The commissioner finds "that during the year 1911 the requisite atmosphere of laxity was created among the government inspectors and the officials of the department of public works and among the various contractors." He finds "that after the Hon. Robert Rogers was transferred to Ottawa in or about October, 1911, the objects of the conspiracy and the means for carrying them out were continued under the regime of his successors," and adds that "it is almost impossible to believe that they were not aware of the frauds which were being committed."

## COALITION

The correspondence which has passed between the party leaders, Sir Robert Borden and Sir Wilfrid Laurier, has been laid on the table of the House of Commons in Ottawa, and in due course, doubtless, the reasons which prompted Sir Wilfrid Laurier to decline to join in with the present Government will be made public. What some of the reasons are may be surmised. The chief one is mentioned as Sir Wilfrid's dissatisfaction with the conscription proposals of the Borden Government. These proposals Sir Robert will table in the house this week.

The coalition proposals of Sir Robert Borden are very significant of conditions of the Government. Sir Robert knows that he has forfeited the confidence of the people of Canada. Having obtained one year's extension of the life of Parliament, with his government in power, without the consent of the people, before that year is up, Sir Robert is finding his own troubles. Rather than place himself before the country, for its approbation, or otherwise, of his tenure of office, he would seek to bolster up his position by admitting to his Government members from the ranks of the Opposition. Fully realizing the troublesome times that are ahead, he would admit the Liberal members now and with them obtain another extension of the life of Parliament. When the time for an election did come round, his party would not be entirely discredited. The Liberals could always be blamed.

The conduct of the present Conservative Government at Ottawa since the commencement of the war alone is sufficient to drive them from office at any time. The dilatory tactics in recruiting, or the non-enforcement of the Militia Act at the beginning of the war, when the national life of Canada and of the Empire is at stake, the allowing of the Food Barons to raise prices of food stuffs to the detriment of the working people, allowing the war profiteers to get by with their inflated dividends, which the people have to pay are only some of the things that the voters are pondering in their hearts. The Colonel J. Wesley

Allison episode is by no means forgotten.

Here in Northern British Columbia, the fact of Sir Wilfrid declining to enter into a coalition government will be gladly received. The voters in this district are waiting an opportunity to vote for a member who will represent them, and at the same time to register their opinion of the Government as a whole.

## NOTES AND COMMENTS

The American Government are already sending wheat across to France for the American army, "which is coming later." The wheat has already arrived in France. This augurs well for the United States soldiers being soon in the battle ground. With their supplies already there, word may be looked for any day of the arrival of the first contingent from the United States.

The result of the elections in Alberta shows that the tide of Liberalism is still growing. High water mark has not yet been reached. The desire for the improvement of conditions is rife among the peoples of every country, and has found its expression in Canada in every province where there has been an election of late by the returning of a Liberal government. The will of the people has been shown at the provincial elections, and a further expression of a similar kind may be looked for when the present Ottawa Government goes to the people.

The latest attack on the German lines three miles to the south of Ypres, and its successful result shows that at no part of the front can the Huns resist the Allies successfully. The Somme, Arras, Bullecourt, Craonne, all show that no matter how strongly fortified the German positions may be, the man power of the Allies can take them when they will. These sudden attacks on different parts of the line are bound to break through somewhere, and when the present German line is unhinged at either end, it is expected that an extensive "strategic retreat" will be indulged in once again.

The situation in Russia has now become more reassuring. The soldiers and sailors in the fort-

ress of Kronstadt have recognized the authority of the Government, and the dispatch says, "trouble over." The Russians want to start some trouble with the Germans now, when the Huns are so busily engaged in the west. From accounts in the New York Times, they seem still to be very short of ammunition. Recently, the Russian soldiers had been fighting with their bare fists, and making their way through barbed wire entanglements with no better weapons.

The Filipinos offer a force of twenty-five thousand men to fight the Germans. The Chinese military government says that the new parliament will declare war on Germany. Spain is on the verge of a break, South America is all lined up against the Hun, the Scandinavian countries, and Holland would, if they dared, and what peoples are left friendly to

I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no Headaches, no Palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and I feel like a new being—and it was "Fruit-a-tives" that gave me back my health."

## An Army of Internal Bathers

Over half a million bright, keen, up-to-date Canadians and Americans have found that Internal Bathing is more essential to their well-being than External Baths.

Have found that, taken occasionally at night, they feel like different people the next morning. No more of that bilious, tired, nervous condition—but, having by Nature's own cleanser, antiseptic warm water, removed all the poisonous waste from the Lower Intestine, they awake thoroughly refreshed by normal sleep, with all their functions acting in healthy accord, bright, happy, clear-headed and confident, eager and capable for the duties of the day.
