RUSSIAN OFFENSIVE EXPECTED BY ENEMY

(Special to The Daily News.)

London, June 13.—From enemy sources comes the conviction that Russia's long awaited activity on the eastern front has now begun. Both the German and the Austrian newspapers are predicting that the Russian offensive is imminent. London is attaching considerable importance to these reports, especially in view of the fact that they have emanated from the enemy. The Allies are now likely to announce the start of the Russian offensive until it is well under way.

ANOTHER FISH PACKING COMPANY COMING HERE

That the importance of Prince Rupert as the logical centre of the fishing industry is being recognized by the business men on the Pacific coast is further shown by the presence of Mr. R. C. Lowry and Mr. W. E. Green in this city. These gentlemen are well known in New Westminster and Vancouver, and they have been here for several days looking over sites. It is their intention to start in immediately arrangements can be completed, with the construction of a plant for the packing of fish without ice. A waterfront site lying between the drydock and the Cold Storage Company's plant has been selected, and negotiations for a lease are at present under way.

By a patent sterilizing process, of which these gentlemen have the rights for this district, it is possible for fish to be shipped in a fresh state without being packed in ice. Packed in this fashion, it is claimed that fish will be as fresh after two weeks as the day they were packed. The process is not new, although it has not been applied extensively so far. Experiments were made some time ago, and shipments were made from Vancouver to Washington, D. C., and to Florida, and these arrived in perfect condition. By being immersed successively in brines of different temperatures, sterilizing is accomplished and the full fresh flavor of the fish is said to be retained.

The new company have alternative sites in reserve, should they not be able to make a start in Prince Rupert, and their plant is practically all ready to ship. Attention will not be confined to halibut only, but it is understood that all classes of fish will be handled by the new concern.

This should prove to be of great benefit to the country at large and to the fishermen in particular, as there is little or no demand for the many other classes of edible fish caught at the same time as halibut, which at present the fishermen cannot dispose of.

Mr. Green and Mr. Lowry are well known to many of the citizens of Prince Rupert, and their enterprise is to be commended.

HON. T. D. PATTULLO, MINISTER OF LANDS, RETURNS TO RUPERT

Interviewed by The Daily News on his arrival this morning, the Hon. T. D. Pattullo expressed great pleasure in being back once more in Rupert and regretted that his stay in the north must of necessity be short at this time.

The minister of lands expressed great satisfaction that the Government had been able to do so much constructive work during the past session, the real benefits of which would be seen in the process of working out. He emphasized the fact that the great aim of the administration is efficiency in every department, while the strictest economy had to be observed in view of the abnormal financial conditions.

"Certain undesirable interests are fighting the Government in every way they know," remarked the Hon. Mr. Pattullo, "because

THE HON. T. D. PATTULLO

they have found that they are unable to control matters for their own purpose. They are fighting just as strongly as forces of this character usually fight, but their efforts will be useless. The Government proposes to carry out its pledges to the people and the character of the men now sitting in the legislature ensures success."

Referring to the drydock situation the minister said that he had taken the matter up strongly with the Imperial Munitions Board and regretted that nothing had been done in the way of utilizing the Prince Rupert plant in the big shipbuilding program which has been planned for this coast. "There is something underneath this drydock situation that needs digging up and the citizens of Prince Rupert should not rest un-

ANOTHER BOLTER FROM CONSERVATIVE PARTY

(Special to The Daily News.)

Ottawa, June 13.—Following the retreat of Secretary of State Patenaude from the Cabinet, the defection in the ranks of the Conservative party is further emphasized by the action of Captain Burnham, member for West Peterboro. He has left the Conservative party as he cannot support the conscription bill as it now stands. The divisions among his party is causing the Premier anxiety.

Liberal Caucus.

A caucus of the Liberal party was held to discuss the terms of the conscription measures. The opportunity given to various members to air their sometimes divergent views went far to clear the atmosphere, and banish any threatened dissension. All were agreed that the winning of the war was the first consideration. Sir Robert Borden is making further efforts to secure the co-operation of certain prominent Liberals, but it will be with the full consent and backing of the Liberal party, and not through any supposed defection that the Premier will secure the men he wants.

Premier Tells Why.

The Premier told in the House why the conscription bill was enacted. The casualties exceed enlistments and as Canada was definitely pledged to place half a million men in the field, conscription is absolutely necessary if the Dominion is to be her part. The Premier asked that the debate be fair and in moderation.

ARRANGEMENTS FOR NEW COLD STORAGE

The information that arrangements are going ahead and are well in hand for the new cold storage plant to be built across from Cow Bay, will be welcomed in Prince Rupert. From information received, it is learned that Captain Logan, who was here some weeks ago looking for a site, is going right ahead with the construction of the new plant. The site chosen is an ideal one for the purpose, being quite close to where the "Hazelton" used to be tied up, on the other side of the mouth of Cow Bay. Captain Logan is presently in the south, and the preliminary arrangements are going ahead as fast as possible. It is expected that just soon as the plans are finally ratified, the work of the construction of the wharf and the buildings will proceed apace.

MEMBER OF AFTLIN VISITS ALICE ARM

(Special to The Daily News.)

Mr. F. H. Mobley, M. L. A., has recently returned from a trip through the Portland Canal and Alice Arm districts and is delighted with the activity shown in the various sections. There seems to be an unusual interest taken in the mining industry in the Alice Arm district; a great deal of development work has been done in this locality during the past year and in practically every instance the result has been gratifying and many properties that have heretofore been known as likely prospects have, under very reasonable prospecting, proven to be of commercial value and are now waiting reasonable means of transportation to enable them to become producers. This, like many other sections of the country, has been very much retarded in the way of development owing to lack of access by the way of adequate roads and trails.

The Dolly Varden railway is making good progress in the way of laying steel, about a quarter of a mile per day is being put down. Mr. McGinnis has a crew of about one hundred men now working on the extension and perfecting of the grade which was not entirely completed last year. Under favorable conditions it is thought that the road will be completed as far as the Dolly Varden Mine not later than October of this year. While this road is being constructed as a private enterprise yet they have become public carriers under the Act of incorporation and there is no doubt but what they will prove to be a very great asset to this neighborhood inasmuch as they will form a trunk line into an extensive mineral belt where numerous feeders can be constructed at a very much reduced cost.

While addressing a public meeting held in Alice Arm Mr. Mobley outlined some of the possibilities and advantages of the new acts relating to mining and with few exceptions it was conceded that the Legislation pertaining to mining passed at the last session would prove beneficial to the miner and prospector. Mr. Mobley, in company with our local engineer of the public works department, Mr. A. L. Caruthers, also paid a visit to Stewart and the Portland Canal District and attention was given to the condition of roads, trails and bridges in this section, and while it will be impossible to make the expenditures along this line this season that the country actually requires, yet it is hoped that very material improvements will be made.

Mr. Mobley will shortly be leaving for the Telegraph Creek District and later will visit the Atlin section as it is his desire to cover every portion of his riding during the summer and acquaint himself first hand with all the requirements of the constituency which he represents.

WESTHOLME THEATRE

At the Westholme Theatre tonight there will be shown another episode of the great serial which has been running for some time. "The Shielding Shadow" has proved to be of very great interest to everyone, and in this chapter, it is crammed full of action of a most thrilling nature. The desperate fight on the bridge in this episode is a great piece of work. This whole episode is full of powerful situations that grip the attention. A scenic, cartoon and a comedy will also be shown, making up an excellent all-round programme.

THE LOCAL COMPANY FOR SHIPBUILDING

The joint committee appointed from the Board of Trade, the city council and the Trades and Labor Council met last evening in connection with the purpose for which they were appointed. Messrs. Peck, Williams and de Gex, from the Board of Trade, Messrs. McClymont and McRae, from the city council and Messrs. Thomson, S. D. Macdonald and Rose from the Trades and Labor Council, composed the committee. It was decided to wire to Premier Borden asking that the shipbuilding plant here be leased to the new company being formed, composed of the citizens of Prince Rupert. A sub-committee was appointed, composed of Messrs. Williams, McClymont and McRae to arrange for the financing of the new company and to get subscribers.

FAIR PLAY

At the present moment in Canada, in common with most other parts of the Empire, the great cry is for production, production, and still more production. This relates particularly to food stuffs at the present time. Farmers, in Canada and particularly in the western provinces, are finding labor scarce, owing to the war, and with a view to cheapening production of their products, a revision of the present high tariffs was suggested in the House of Commons last week. The necessity for action of this kind was never more great nor urgent than it is at the present time, but the present government at Ottawa, being bound hand and foot by the manufacturing interests of the East, could not see their way clear to take any action in the matter. This, of course, is only to be expected. The infant industries in the East must be protected. The manufacturing interests of Canada are to continue to get a rake off the rest of the nation by just the amount of the present tariff of such articles as farm implements and machinery, farm tractors, mill machinery of all kinds, oils, cement and fertilizers. For the production of food stuffs, or farm produce, these articles are necessary in modern farming operations, and in almost every case, prices are being raised. With the call for more land to be brought under cultivation to provide food for the Empire at large, the demand for these articles becomes greater. With farm labor so scarce, more machinery must be used, particularly in the shape of tractor ploughs and other modern implements. By their use, a great deal more work can be done at the proper time. Indeed only by their use can sufficient land be brought under cultivation, land which otherwise could not be utilized at all, owing to the scarcity of labor, of which more is required for less modern machinery. But the present government is no friend of the farmer. The manufacturers, who by their flag wagging operations some years ago, were responsible for the defeat of reciprocity, they are still in control of the government. So the farmers have still to pay

them tribute in the shape of the high duty imposed on the implements necessary for the production of crops.

The alleged infant industries take a long time to attain maturity, and so long as they can make it stick, they will still wish to be considered as infant industries. Why should the Canadian manufacturers not take the same chance as the grain growers, or the cattle raisers? For after all, farming is one of the most speculative of industries. It has more uncontrollable conditions to contend with than most industries. Yet Canadian farmers can compete successfully with the whole world. With the present high tariffs, the only benefit accruing goes to the manufacturer. He simply adds the amount of the duty on to his price, and the consumer has to pay it finally—to the manufacturer. The revenue to the State is only incidental.

The manufacturing interests of course turn round and point to the high price of wheat. The farmer is getting \$3 for his wheat, they say. He is making money. Instead of which the farmer got from \$1.20 to \$1.70 a bushel and the speculator and the manipulator got the balance. Of course, on the strength of the \$3 price, the millers raise the price of flour, made from \$1.20 wheat, to \$15 per barrel. And all the time, a benign government looks on and allows the looting of the general public to continue. Had the Government been acting for the people of Canada, the price of wheat would never have been allowed to reach such an abnormal price as \$3. It is all very well to play the game, but it must be played fair. Fair play for the farmer who produces the people's food, and fair play to the people who have to buy it, is to be demanded from any government. What else is a government for anyway?

NOTES AND COMMENTS

Speaking in the House of Commons the other day on the question of the taxation of Munition profits, one member was of the opinion that the whole 100 per cent should be taken by the Government. In fact, continued this member, "I would not allow any-

one in this country an income of more than \$5,000 a year." Let it be hoped that the honorable member may not have to eat his words. Mr. John Burns, the English Labor leader, is alleged at one time in his younger days to have said that no man was worth more than £500 a year. Later on he became a cabinet minister with a salary of £5,000. Being charged with inconsistency in accepting so much more than he was worth, according to his own words, he got out of it by saying that he was only taking union wages.

Among the eastern newspapers commenting upon the commission appointed to investigate Mr. Justice Galt's findings re the Hon. "Bob" Rogers, the Ottawa Citizen declares that while casting no reflections upon the ability of the two judges chosen upon the commission, it believes the Government's action is open to imputation of partisanship, since the

An Army of Internal Bathers

Over half a million bright, keen, up-to-date Canadians and Americans have found that internal bathing is more essential to their well-being than external baths. Have found that, taken occasionally at night, they feel like different people the next morning. No more of that bilious, tired, nervous condition—but, having by Nature's own cleanser, antiseptic warm water, removed all the poisonous waste from the lower intestine, they awake thoroughly refreshed by normal sleep, with all their functions acting in healthy accord, bright, happy, clear-headed and confident, eager and capable for the duties of the day.

Copper Cliff, Ont., March 2, 1916. Dr. Chas. A. Tyrrell, Toronto, Ont., Dear Doctor,—I have been using your "J. B. L. STRICKEN IN THE STREET

Completely Restored To Health
By "Fruit-a-lives"

282 St. Valere St., MONTREAL.
"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years, and my weight dropped from 225 pounds to 160 pounds. Then several of my friends advised me to try "Fruit-a-lives". I began to improve almost with the first dose, and by using them, I recovered from the distressing Stomach Trouble—and all pain and Constipation were cured. Now I weigh 208 pounds. I cannot praise "Fruit-a-lives" enough". H. WHITMAN.
Box a box, 6 for \$3.00, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

BELGIAN TROOPS ALWAYS ON WATCH

Belgian Headquarters, June 5.—Here, where the Belgian army is making its own cannon, its own rifles, its own shells, its own transport wagons, its own saddles and harness, one can appreciate how other outstanding features of the war have unduly obscured the Belgian military effort since the battles of 1914.

The Belgian army had six divisions of infantry and two divisions of cavalry left to hold a line of approximately eighteen miles, or just about four men to the yard of front; a front where particular vigilance is required because of the German tactics of constant trial attacks. No part of the Allies' lines is more closely watched and explored by the enemy patrols.

A weak spot anywhere would provoke an immediate offensive.

Belgian Army's Work.

The Belgian army has had to work incessantly to keep up its breastworks and at the same time put up an unrelenting defence. The solidity of that defence, it may not be sufficiently remembered, is an important factor in giving to the British and French armies liberty of movement in operating on other parts of the line.

Belgium lost all her manufacturing establishments and all her resources in raw materials in defeat of the Allies at Charleroi and in the retreat from Antwerp, yet Monsieur De Broqueville, Minister of War, with Belgian integrity, skill and perseverance, has built up on the hospitable soil of France artillery and munitions establishments that not only enable the Belgian army to reply shot for shot to the Germans on the Yser front, but also contribute to the armament and supplies of the Allied armies.

A regiment of auto cannon recruited among the Belgian refugees and trained in Paris was sent to the Russian front, where it played an important part in Brusiloff's offensive in Galicia and Volhynia in the spring of 1916.

Navigable Waters Protection Act. R. S. C., CHAPTER 115.

The Grand Trunk Pacific Railway Company hereby gives notice that it has, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry Office, District of Prince Rupert, at Prince Rupert, a description of the site and plan of lumber mill and other works proposed to be built in the Prince Rupert harbor at Prince Rupert, British Columbia, in front of Waterfront Block "T", according to registered plan of the townsite of the said city of Prince Rupert registered in the aforesaid land registry office as No. 923, Section 7.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the Grand Trunk Pacific Railway Company will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plan and for leave to construct the said works.

Advertise In The Daily News

Jogging Laziness into Activity

The merchant whose business lags in the summer has himself to thank.

To slacken the selling pace in the hot season—to lessen Advertising activity—indicates a resignation which has no place in modern business.

If we think we cannot keep our business booming in summer time, we surely will not.

What a jolt it must have been to the fur trade, when the first mid-summer fur advertisement was run in a daily paper! Now many fur stores are following the example of that progressive fur man who dared to believe that fur sales need not go down as the mercury goes up.

Energy, linked with Advertising, has turned the month of January into the biggest selling season for white goods. Advertisements of a high stimulative power, combined with a disregard of "seasons," have opened up automobile selling two months earlier than was once thought possible. Advertising has started Christmas shopping early in October instead of the middle of December.

Advertising rises superior to seasons and thermometers. The right kind of Advertising strikes a responsive cord in human nature—and human nature is the same in August as in December.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 803 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

THE RESOLUTIONS OF CONGRATULATIONS

The congratulatory resolutions adopted by the city council at their meeting on Monday night to be sent to Lieut.-Col. McMordie and Lieut.-Col. Peck have been drawn up very gracefully by Fred Peters, the city clerk. The resolution regarding Lieut.-Col. McMordie is as follows:—

"That this council places itself on record as congratulating Lieutenant-Colonel S. P. McMordie, D. S. O., upon his brilliant career during the Great War. The fact that he has attained not only the desired distinction of the Distinguished Service Order, but also the high position of lieutenant-colonel, shows how greatly his services have been appreciated by those who have the honor of commanding our troops.

This council hopes that Lieut.-Col. McMordie may yet attain higher honors. It is by the deeds of such men that this great war is to be won."

The resolution congratulating Lieutenant-Colonel Peck was as follows:—

"That this council wishes to put itself on record as expressing its great admiration for the work done by Lieutenant-Colonel C. W. Peck, D. S. O., during the war.

"We know that Lieut.-Col. C. W. Peck was prompt in volunteering for active service. We also know that in a great number of hard-fought battles he has taken a leading part, and has always shown those qualities of leadership which endear him to the troops which serve under him.

"The council expresses the hope that Lieut.-Col. Peck may come through this war with still greater honors than he has already obtained. It is given to few men to rise to the position that he now occupies, and also to have granted to him the great honor of the Distinguished Service Order."

LAND REGISTRY ACT

(Sections 36 and 134.)

Re Application No. 9144-4, Filing 5819.

TAKE NOTICE that application has been made to register The Corporation of the City of Prince Rupert in the Province of British Columbia, as owner in fee under two Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 7th day of December, 1916, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known and described as North-Westerly Seventy (70), feet of Lots Eleven (11), and Twelve (12) Block Eighteen (18), Section One (1), Map 923.

You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by personal service or as directed), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—

"and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by virtue of the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the abovementioned lands, in the name of The Corporation of the City of Prince Rupert;

AND WHEREAS on investigating the title it appears that prior to the fourteenth day of September, 1915, (the date on which the said lands were sold for overdue taxes), you were a mortgagee thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of the above corporation unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Prince Rupert, B. C., this 20th day of December, A. D. 1916.
