WAR PROFITS

war tax amendment bill recently, the opinion which is general among the great majarity of the people of Canada was voiced by the Hon. Mr. Cloran in the Senate Like the Military Service Bill, the business profits tax bill is only of half measures. The Hon. Mr. Cloran spoke as follows: "This bill strikes me as one that will create alarm in the country. It has, in fact, already done so. This bill, sanctioned by the Finance Minister, tells the people of Canada that a certain class of persons called manufacturers are making anywhere from seven to one hundred per cent profit. If that does not alarm the working classes, I would like to know what would." And the Government allows companies or individuals to make profits of from! seven to one hundred per cent or more. Is that not alarming? Is it not a cause for the people to cry out for the conscription of wealth as well as the conseription of blood?

Is the fact that profits are avade of from seven to one hundred pay cent and over not a cause of the high cost of Birthag? The leader of the Governnient has said that the high profits are not made by munition manufacturers alone, but also by others; by boot and shoe manufacturers, by beef trusts, by cold storage conserns, and is the Government going to allow this to continue? I contend, with the vast majority of the people of Canada, that during this war time, any profit over seven per sent should go into the public treasury, to pai down the high cost of living and give the government a chance to pay the interest on the national debt. which is increasing by millions and billions.

"I understand that the present Finance Minister, a friend of the trusts and the manufacturers, does not want conscription of wealth; and so far as the public knows, he, as a member of the cabinet, is opposed to any such scheme, and prepared to resign if any such scheme is carried through. We have it from the lips of the Government itself that a small i

SERVICE

S it nothing to you that men from all round you have sacrificed home and salary, safety and life, to defend your home as well as their own?

Is it nothing to you that their wives and families tremblingly scan each casualty list, and pale at the step of the postman or telegraph messenger?

Can you see others giving their dearest, without feeling that you must do something yourself? Do you wonder what to do?

You can at least save—and lend your savings to the nation. Canada needs every dollar her loyal sons and daughters can spare, to meet the growing expenses of the struggle.

Every dollar you invest in Canadian War Savings Certificates helps the nation to deal generously with those who are defending you.

Certificates in denominations of \$25, \$50 and \$100, repayable in three years, may be purchased at any Bank or Money Order Post Office at \$21.50, \$43 and \$86 respectively. This means over 5% interest-making them a profitable as well as a patriotic investment.
