LANDLORDISM HAS COME

If some man after picturing the horrors and tyranny of landlordism in England or Ireland were to warn the people of British Columbia lest a like fate might overtake them, he would probably be laughed at. Yet the laugh might be on the laughers before the laughing is done with. Large as is this province, its area of arable land in accessible districts is limited. At the rate at which it has McCaffery & Gibbons of purchase the following described been gobbled up by speculators during the past four years, its end might | Prince Rupert be even safely forecasted into a rather surprising short length of time.

We have already reached a point where it is impossible for the bona fide settler to stake a pre-emption within reach of civilization. Already the settler has begun to pay tribute to the land-owning class. Already the land-owning class has commenced to place a tax on industry, and exact from the land an unearned increment. The evils mouth, Nova Scotia, occupation married woman, intend to apply for permission to purchase the of landlordism in England and in Ireland are already here in an uncomfortable degree.

The story of British farmers being driven from the lands of the chains, thence south 80 chains to place mencement containing 320 acres more British landlords, because the agricultural operations interfered with My post is on south east corner of land applied my lord's partridges and pheasants is received by us with amazement

and indignation. What difference is there between the case of the British farmer thus excluded from the land, and the settlers-would-be settlersover on Graham Island for instance, who are driven from the lands Rupert, B. C., occupation teamster, intend to apply for permission to purchase the following to make way for the coal speculator?

Why raise our hands and voices in horror at the British duke who puts his ten square miles into a game preserve, and keeps silent while | thence south 80 chains individual speculators stake hundreds of square miles as coal preserves?

If there actually were coal deposits or even discoveries on the huge tracts thus kept out of cultivation, the situation might be tolerated even at the cost of keeping the entire surface of the landsfrom to apply for permission to purchase the following settlement. In the present case, however, no discoveries are recorded; the entire surface of rich farming lands for hundreds of square miles of Lot 1116, Harvey's Survey, Coast District, is kept out of cultivation, to accommodate the plans of speculators chains, thence west 40 chains, thence south 20 who stake areas in the hope that someone will pay a good price for them in the belief or expectation that coal may be found.

Even in the case of farming lands, the policy of selling to speculators is an unsound one. It means that the speculators' profit is to be imposed as a tax on the bona fide settler, and on development. It retards development, and by making land difficult of purchase by the farmer tends to create a landlord class who will retain the title, and rack-rent the man who tills the land.

For the handing away of these lands from the public domain to swell the wealth of speculators, an enlightened public opinion will] some day sweep away the men responsible for the policy. But even enlightened public opinion cannot recover the lands.

There has been no occasion to alienate the public domain from south and one mile west of the forks of the White the ownership of the people of the province. On a Prince Rupert and Flat rivers, thence south 80 chains, thence west platform, the Premier of this Province has boasted that his government Dated April 20, 1911. has on deposit a sum of \$8,000,000 in the banks. Announcement is made from Boston that Pitcher Sam Frock been sold to the Atlanta Southern League club for \$2,000.

Seventeen home runs have been made on the Philadelphia National League grounds this season. The Phillies have made eleven of them.

Think this over and you will get a clew to the value of one man to a ball team: Ty Cobb, in one game, scored from first base on a single, scored from second on a wild pitch and stole home with a winning run.

Nick Williams is still a bit peeved over the way the umpires treated him in the North, and for that matter so are a number of the other managers. With one or two exceptions, President Lindsey seems to have asesmbled a staff of incompetents.

John T. Bush, owner of the Giants, has heeded the protest filed by the manager of the New Orleans club, of the Southern League, and Frank Manush, who was released to Newark, will go back to his old club. Manush was drafted from New Orleans, and under the rules that club has the first call on his services if released.

The exit of Pitcher Jack Pfeister from the National League recalls the days when he was pitching some swell games for Spokane. He was with the San Francisco club in the Pacific National and with the smash-up went to the Middle West, finally landing with the Chicago Cubs, where he has been prominent until last season.

pall over the fight fans of Vancouver as a result of the Vancouver Athletic Association, incorporated, having called off all future athletic exhibitions which were billed to be held here during the next two months. The managers UNION S.S. COMPANY OF B.C., Ltd of the athletic association are much disappointed themselves, but as there has been so much opposition to the contests from certain element in the city, it was 66 decided to be a losing game to attempt to continue.

The greatest of all natural fighters, of course, is Jack Johnson, and Prince Rupert every Sunday the best things in his repertoire at 9 a.m. for Vancouver, are the uppercuts with which he times his men so fearlessly and faultlessly. It was thought after For Stewart City on arrival seeing the way he butchered felows like Jim Flynn and Tommy Burns with his lifting punches, that he was only poison to short men, but, after that unfortunate affair at Reno, we know differently.

ke, the American middleweight, and Jim Sullivan, the English champion, have signed articles in London for their twenty-round match for the world's championship on June 6. The papers provided that the fight is to be for \$10,000 and a side bet. Eugene Corry will be referee.

There is also talk that Owen Moran will be brought to the coast. Moran is perhaps the only boxer in the world who smokes cigarettes while training for a fight. The little Briton likes to drag at the harmless-looking little pills, and he smokes when and where he pleases, as a general

Willie Keeler has "come back." The little fellow is playing great ball at Toronto these days. He is hitting with his usual skill and has plenty of speed in running the bases. In his first four games you. he made ten hits. Keeler appeared to be all in when the Highlanders let him out a year ago, and even as a Giant he lacked sufficient form to warrant his appearing as a regular. But with his old chum, Joe Kelley, he has become rejuvenated and is hitting up a fast pace. Kelley has instilled the vincial Police for the grant of a license veterans, Tim Jordan and Bill upon the premises known as Kitsumka-Bradley, with renewed vigor.

BIGGAR is one of the divisional points on the Grand Trunk Pacific, and in

the company's yards there already seven miles of trackage has been laid

and is in use. The site is between

Watrous and Wainwright, and the

town is named after W. H. Biggar,

general solicitor of the Grand Trunk

Pacific. It is not only on the main

line of the great transcontinental rail-

way, but it also is the junction of the

branch lines of that railway to Battle-

ford and to Calgary and the Winnipeg-

Edmonton branch of the Canadian

Pacific runs through the townsite.

ELLISON needs little to be said of it to Prince Rupert people for the reason that since navigation on the Skeena opened a number of people have gone there by boat from Prince Rupert to

first look into the whole situation before investing. What they say of this river port and probabilities of its becoming a great railway city is the best kind of advertising for local readers. Those who desire to invest can do so through the Land Commissioner of the Railway direct, through A. W. Bridgman, the company's agent for Ellison in Victoria, or through J. H. Kugler of this city.

Make all checks and remittances payable to G. U. Ryley, Land Commissioner of Grand Trunk Pacific Railway

Wainwright

Wainwright is one of the Divisional Points on the Grand Trunk Pacific Railway, and had its first boom last year when the steel of the main line of the Transcontinental reached there. It is grown and is still growing not only because it is a town in which the railway is directly interested, but also for the reason that, like Ellison on the Skeena, it is a point where navigation meets steel rails. There are still chances of getting in on Wainwright or on one of its additions, at a very low figures, and easy terms of payment.

MAKE APPLICATION for LOTS IN ANY OF THE ABOVE TOWNS TO EITHER

WATROUS, which is the Terminus of the branch line of the Grand Trunk Pacific and the next place of importance to Saskatoon, in the centre of a rich prairie country and is also growing in fame as a health resort. Little Manitou Lake is at Watrous, and the healing power of this water is the wonder of modern medical science. As it is the only great medicinal mineral lake in the Dominion, the railway is bound to make it famous. There is still a chance of planting a few dollars in this townsite, and their rapid growth and crop is bound to be interesting.

MELVILLE resembles Chicago in "sitting at the gates of trade." The junction point of railways so important as the Grand Trunk Pacific and Hudson Bay railways must, in the natural course of events, become an important city. Now is the time to buy. The prices for choice lots are extremely low and the possibilities for profit practically unlimited. The purpose of the Grand Trunk Pacific in offering these lots so low is to encourage the upbuilding of Melville, and thus create a market for its superb transportation facilities.

Rivers

RIVERS is a divisional point between Melville and Winnipeg, and it also has hopes of having branch connections, one to join the Great Northern at Brandon, and the other to Regina. The Grand Trunk Pacific purchased a large townsite here with the prophetic belief that from its geographical position as the centre of a great wheat growing district, a large city would naturally grow up at this point. And to encourage this growth the railway comcall and see us about Rivers.

Within the last few days we have pany is offering lots at low prices and made several remittances on account very liberal terms of payment. Better of lots purchased in Biggar.

ELLISON -- ROGERS' ADDITION --SEALEY

Every Railway Town is a Money Maker. Think of the unearned increment attaching to present dots on the route of the Great Transcontinental Railway that you know are bound to become, in the next few years and under ordinary rules of Commercial Development, populous, bustling cities. The railway does it. TRANSPORTATION FACILITIES RAPIDLY INCREASE POPULATION. POPULATION RAPIDLY INCREASES VALUES OF REALTY. Before the railway trunk highways and navigable waterways decided the sites and were the builders of the great centres of commerce and industry. The latter is still a mighty factor, and wherever navigable waters meet the steel highway THERE IS BOUND TO BE AN IMPORTANT CITY. This established fact is what makes ELLISON AND SEALEY TOWNSITES so important from the investment standpoint. It must be remembered that Ellison is the railway townsite in British Columbia in which the Grand Trunk Pacific Railway Company is directly interested and is a joint owner. Sealey is situated on the Skeena River and is a townsite within a townsite. On its three sides the lots of Ellison

"Ask Uncle

are divided from those of Sealey simply by the width of the streets; its fourth side is the waterfront. Sealey has already the nucleus of a business centre. The shops and supply warehouses of the great railway contractors, Messrs. Foley, Welch& Stewart are situated at this point, and it is the river port of the company's steamers. A lusty payroll is a mighty factor in the building of a city. In a direct line from Sealey through the heart of Ellison, and only seven blocks from the site of the railway station and the great freight yards, is ROGERS' ADDITION TO ELLISON. Its slight and gently sloping elevation makes it ideal for the residential section of the City and Port of Ellison. Investors have, therefore, a choice. Lots in Ellison are \$250 for inside, and \$350 for corners. Sealey lots run from \$200 to \$375 according to location. Rogers' Addition lots are \$150 for inside, and \$250 for corners, with liberal terms of payment. A lot in any Grand Trunk City cannot fail to be a safe speculation or a profitable permanent investment.

For Lots in Rogers' Addition to Ellison or Lots in Sealey, address: JEREMIAH H. KUGLER, "Uncle Jerry," Prince Rupert, B.C.
