### CONFLICTING RUMORS AS TO PREMIERSHIP

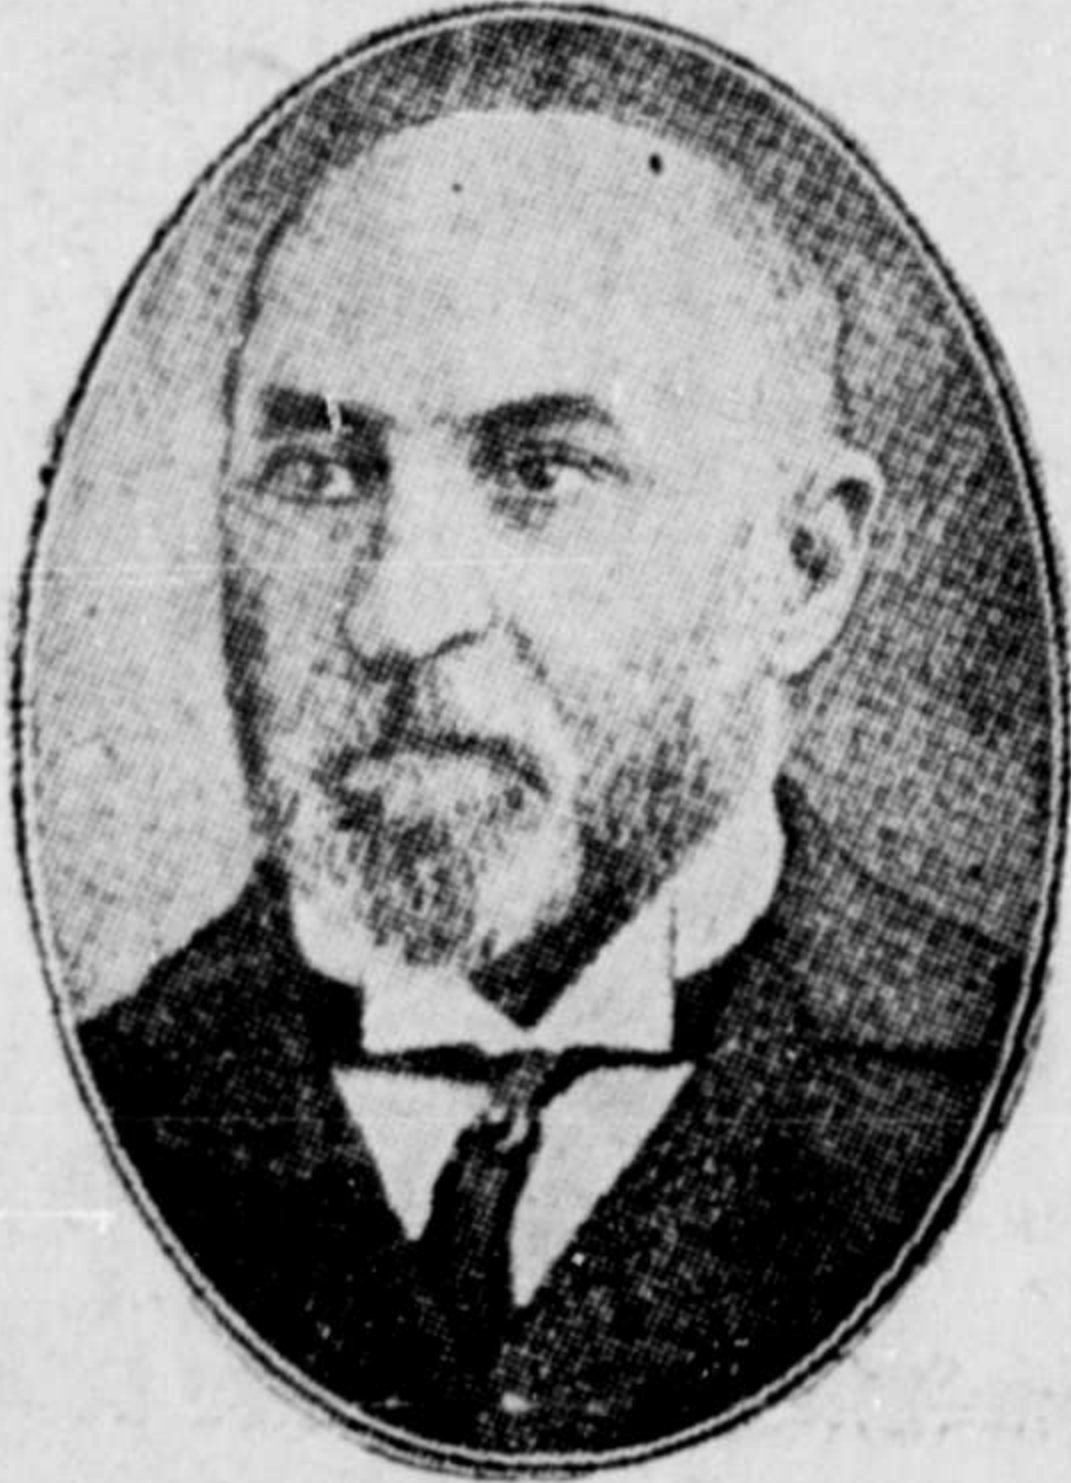

Interview With Joe Martin, Leader of Radical Wing, Who Says Majority of Liberal Members of Parliament Would Prefer to See Lloyd-George, Instead of Sir Sir Edward Grey as the Successor of Asquith

(Special to Daily News.)  
London, Feb. 14.—The lobbies of the House of Commons were crowded this morning with distinguished visitors and there was the usual hurry and bustle consequent upon a reopening of a session of parliament. The galleries were filled before noon, visitors preferring to patiently wait rather than risk a chance of not obtaining a seat later.

### STEAMER WILLIAM JOLIFFE GOES AFTER THE LOST BOATS

STEAMER NEWINGTON WAS ON HER WAY UP, BUT MEETING THE JOLIFFE BOUND FOR MASSET AT BELLA COOLA SHE PUT BACK.

A steamer for the relief of the men believed to have been shipwrecked off Graham Island left here this morning with abundant stock of supplies. The steamer is the William Jolliffe instead of the Newington. Captain Newcomb of the Jolliffe says he was spoken by the Newington at Bella Coola yesterday morning, her captain stating that he was under orders to search for missing boats off Graham Island. Captain Newcomb replied that his boat was one of the government fisheries protection fleet and he was on his way to Masset anyhow. The Newington then returned to Victoria.

Captain Newcomb brought his vessel to the Prince Rupert dock at 11 o'clock this morning. He took on board Mr. Covert, the oil expert, and J. E. Tharp, and after shipping sufficient supplies to meet all possible needs of a large party of shipwrecked mariners he pulled out again for Masset.

### CASE DISMISSED

Blind Pig Charge Against Proprietor of Yakima Decided.

Upon the resumption of the case of John Dulovich this morning the police court was crowded. The charge was having liquor for sale or barter upon his unlicensed premises, and Mr. Williams appeared for the defense. The contention was that the toilet in which liquor was found by the police when they made the raid Sunday was no part of the defendant's premises, and this being sustained by evidence the charge fell to the ground.

### FARMERS FIGHT HARD FOR RAILWAY CARS

Whips, Stones and Clubs Used Freely at Raine Depot, Sask., When a Few Cars Arrive---One Man With Skull Fractured

(Canadian Press Despatch.)  
Regina, Feb. 14.—The outcry amongst farmers for more cars to transport their grain has grown acuter than ever during the past day or two, and continual clamor is made by every possible means of communication with the railway companies for cars. The shortage is declared by many to be worse than it ever was owing to the increased area under wheat last season.

of the province of Saskatchewan last night, there was such a rush on the part of the farmers to secure them that a fight among them for possession ensued. Whips, stones and clubs were used by the combatants, who were mostly foreigners, with the result that one man had his skull fractured and may die. Two hundred cars are needed to carry away the grain from this district and the railway sent only about thirty.

The trouble is with the farmers. They are unable to fresh. We can move their grain just as fast as they bring it in." Mr. White then produced a number of reports showing the cars on hand at the number of towns on the G. T. P., all of which contained reports on cars on hand equal to the number of cars asked for.

### CRESCENTS VS. TEDDY BEARS

Keenly Contested Indoor Baseball Match in the Auditorium Last Night—Crescents Won Out, 32-28, Ten Innings.

The Crescents tussled to a finish with the Teddy Bears at the Auditorium last night in a close game of indoor baseball. After nine innings the score stood at 28-28, and a tenth round was played, in which the Teddies failed to score. The final figures were 32-28 in favor of the Crescents.

Throughout the match play was of varied character, the Teddies doing their utmost to assail vulnerable points in the Crescents' line up. But the Crescents held their own, in fact, maintained a fair lead until the last few innings, when the Teddies pressed them hard and to good purpose.

Judging from the noise made, the crowd seemed of huge proportions, but as a matter of fact there was only an average attendance though with excellent lung power. The closeness of this game means greatly enhanced interest in the work of both teams in future, and the next meeting between them will attract a big crowd. Rev. F. W. McLeod, whose position as athlete-pastor of Prince Rupert is assured, was prominent amongst the fans and encouraged his own side, the Crescents, vigorously.

## DISCRIMINATING RATES ON PANAMA CANAL.

Nothing has been heard from Washington as yet in regard to passing legislation providing for discriminating tonnage rates on vessel passing through the Panama Canal, which was recommended to Congress by President Taft in a special message. It is hoped there will be nothing, nothing more heard of the subject. For it was a mistake and an injustice from every point of view. The canal is being built by the United States, but before starting on the work she sought and obtained the approval of other maritime nations on certain conditions. In defiance of this she starts in to fortify it against every other nation, and now seeks to make this great international highway of commerce a mere short cut for her own commerce, shutting out all other nations by charging them tonnage rates, while no rate is to be charged the United States shipping.

We in Prince Rupert are interested in this question, because before the canal is completed the transcontinental railway will be bringing enormous freight to this port, large quantities of which it would pay to ship by way of the canal to Great Britain and other European ports if only fair tonnage rates were charged all nations alike, the United States included.

The Dominion is interested in the matter because her territory, like that of the United States, extends from ocean to ocean, and when the Canadian government proposed some years ago to discriminate in favor of Canadian shipping in the St. Lawrence Canals, the idea was promptly dropped at the suggestion of the United States government.

Great Britain is also directly interested. Until 1901 the control of the Isthmus of Panama for transportation purposes was by the Clayton-Bulwer Treaty of 1850 vested in the United States and Great Britain jointly, the object being neutrality of the canal, and to prevent the encroachment by either of the two powers on the territory of any Central American state. In that year the treaty was abrogated and was replaced by the Hay-Pauncefote Treaty, which authorized the construction of the canal by the United States but continued the general principle of neutrality as in the former treaty.

No discrimination was ever attempted by Great Britain when she took over the Suez Canal and completed it nor since, so to institute discrimination in regard to the Panama Canal will form an odious comparison not to the credit of the United States in the view of other nations. That is, if Congress should carry out President Taft's recommendation.

If the government does not want to lose a by-election so early in its career the easy way is to let South Renfrew elect Hon. G. P. Graham by acclamation.

Prince Rupert's growth will be rapid, of course. It may soon grow to be as big as Toronto. But let us hope that we may not grow to be as wicked. And let Providence protect us from growing as goody-goody. Why, last week three thousand citizens assembled there to protest against a bylaw preventing children from sliding in the city parks on Sunday. What a fine bunch of Aldermen Toronto must have.

The Renfrew Journal (Conservative) says: If Dr. Maloney thinks that the Minister of Customs can win for him the election in South Renfrew he will probably discover shortly that he has been "leaning on a broken Reid."

The reference to the "growing navies of the oversea dominions" is applicable to Australia and New Zealand, but in Canada the flag-flapper party who "saved the Empire" have surrendered to Mr. Bourassa, whose policy is "not a dollar, not a ship, not a man."

## BILLY ALLEN MAY VISIT US

Some Talk of His Coming to Prince Rupert to Give an Exhibition of Boxing at an Early Date.

Canada has produced few fighters of note since the day of Harry Gilmore, but in Billy Allen, a product of Ontario, we may boast of as promising a lightweight as has appeared in years.  
Allen is making his home in Syracuse, N. Y. He has participated in more than sixty fights, losing but two, and has a long string of knockouts to his credit.

BILLY ALLEN.

During his career to date Allen has twice met Knockout Brown, the New York lightweight. He won the second encounter and fought a draw with Abe Attell, besides fighting such tough boys as Tommy O'Toole, Patsy Kline, Jimmy Walsh, Tommy Kilbane, Billy Ryan and Pal Brown, the Minnesota lightweight, who was one of the two to defeat him.  
Allen fought some hard battles in 1911, his last being with Grover Hayes, a ten round whirlwind.  
Allen was a star as a featherweight, and as a lightweight promises to be as much of a sensation.

**Australian Government Curing Drink Habit Adopts Famous NEAL CURE**

Sending Sunshine and Happiness Into Hundreds of Darkened Homes Instead of Inflicting Fines or Prison Cells Upon Her Unfortunate Citizens

The government of South Australia has set an example worthy of imitation by the other nations of the world. Owing to the extent, enormity and the awful consequences of the drink habit, they have for years past been investigating its cause, effect, treatment and possible cure.  
In the year 1910 Rev. A. C. Rankine, commissioned by that government, visited the United States, and after a thorough investigation of drink habit treatments, returned to his government last September and gave a detailed and lengthy report recommending the adoption of the NEAL THREE-DAY DRINK HABIT CURE. The government of South Australia adopted his report, and established the cure in a large government sanitarium, where those addicted to the drink habit are treated at government expense, instead of being fined or sent to prison cells.  
During the first ninety days 182 persons so affected were perfectly cured by the Neal treatment at government expense and restored to citizenship. In addition to this, reports show that more than double that number availed themselves of the Neal treatment in private sanitariums in Australia.  
Scientific research and investigation of the centuries has recently culminated in the establishment of the fact that the drink habit, so called, is caused by the poison of alcohol stored up in the system by the long continued or excessive use of alcoholic liquors, and that the man or woman thus afflicted is as much in need of and must have medical help as if suffering from typhoid fever or other serious ailment. But he has found the drug which antidotes this poison, and, combining same with other well known neutralizing and eliminating drugs, he has originated the Neal treatment, which, in thousands of cases, has perfected absolute and satisfactory cures in the short space of time of only three days.  
The Vancouver Neal Institute is one of the many that is carrying on good work, and grateful patients every day attest to the efficiency of the Neal Treatment.  
If in need of help yourself or if you have a friend who is losing his grip write for booklet giving full information.

### THE REFORMERS.

By Rudyard Kipling.  
Not in the camp his victory lies  
Or triumph in the market place,  
Who is his Nation's sacrifice  
To turn the judgment from his  
race.

Happy is he who, bred and taught  
By sleek, sufficing Circum-  
stance—  
Whose Gospel was the appalled  
thought  
Whose Gods were Luxury and  
Chance—

Sees, on the threshold of his days,  
The old life shrivel like a scroll,  
And to unheralded dismay  
Submits his body and his soul;

The fatted shows wherein he  
stood  
Foregoing, and the idiot pride,  
That he may prove with his own  
blood  
All that his easy sires denied—

Ultimate issues, primal springs,  
Demands, abasements, penalti-  
ties—  
The imperishable plinth of things  
Seen and unseen, that touch  
our peace.

For, though ensnaring ritual dim  
His vision through the after  
years,  
Yet virtue shall go out of him;  
Example profiting his peers.

With great things charged he  
shall not hold  
Aloof till great occasion rise,  
Fut serve, full-harnessed, as of  
old,  
The days that are the destinies.

He shall forswear and put away  
The idols of his sheltered  
house;  
And to Necessity shall pay  
Unflinching tribute of his vows.

He shall not plead another's act,  
Nor bind him in another's oath  
To weigh the Word above the  
Fact,  
Or make or take excuse for  
sloth.

The yoke he bore shall press him  
still,  
And long-ingrained effort goad  
To find, to fashion, and fulfill  
The cleaner life, the sterner  
code.

feated Kolehmainen, the Finnish

Canada, in a three cornered race

most exciting race on record.  
The race was billed as the

## CANADIAN MINING INSTITUTE NEXT MEETS AT TORONTO

Large preparations are being  
made for the annual meeting of  
the Canadian Mining Institute at  
Toronto on March 6th, 7th and  
8th. Respectably large represen-  
tations are expected from Eng-  
land and from the United States,  
and the Ontario and Quebec co-  
horts will be more numerous than  
ever. British Columbia, Alberta  
and Nova Scotia are sending of-  
ficial representatives and private  
members, and not a few unclassi-  
fied foreign delegates are ex-  
pected.

In several respects the ap-  
proaching meeting is to be high-  
ly interesting and edifying. For  
instance, it is announced that  
Mr. T. A. Rickard is to read a  
paper on gold mining in Nova  
Scotia. This will be a fruitful  
source of comment, and should  
induce a large representation  
from that province. Possibly  
His Royal Highness, the Duke of  
Connaught, will honor the occa-  
sion with his presence. And the  
Duke, we are sure, will find our  
dinner a mild and agreeable di-

version, contrasting strongly  
with the formal affairs that bring  
fatigue and boredom in their  
train.

Toronto in many ways is an  
ideal city in which to gather. A  
smoker and a dinner conducted  
large attendance, a well managed  
in accordance with established  
tradition will impress the legisla-  
tive heart, and counteract the de-  
pressing effect of long papers.  
We hope that every member of  
the institute will arrange to at-  
tend. An instructive session is  
assured; a good time goes with-  
out saying.

It may be that no scandal will  
be probed, no geologist convict-  
ed by his peers of tampering with  
Scandinavian hearts; it may be  
that the secretary will not burst  
inconsistently into song, nor may  
any instructor of youth break the  
speed laws on the hotel "lift,"  
nor yet may the wanton miner  
from the north flaunt the colors  
of his clan on his expansive even-  
ing chest—yet the roots of sin  
are with us yet.—Canadian Min-  
ing Journal.

## REMARKABLE SITUATION

Smuggler's Body, Lying in Two  
Countries, Not to Be Touched  
by Authorities of Either—Head  
in Russia, Legs in Austria.

(Special to Daily News.)  
Vienna, Feb. 14.—The body of  
a Russian smuggler lies across  
the Austro-Russian frontier, sur-  
rounded by armed guards of both  
nations who will remain there  
until the diplomats arrange what  
is to be done about it.

The body has lain there five  
days since the smuggler and a  
comrade crossing the frontier  
were shot by Russian Cossacks.  
Matters were complicated by a  
statement by the dead man's  
companions, which is supported  
by tracks on Austrian soil, that  
the man was shot in Austria and  
carried by the Cossacks to the  
boundary, where he now lies, his  
head in Russia and his legs in  
Austria.

Meanwhile the Cossacks on one  
side and Austrian gendarmes on  
the other must guard the body  
night and day until something is  
decided.

### Ah Yes, When?

Such constant complaints from  
human saints,  
This trite reflection brings on:  
We will not care how cold the air  
When once we get our wings on.

## EARLY BRITISH ELECTION LIKELY

Socialist Tendency of Present  
Government and High Taxation  
Having Effect Notwithstanding  
Ministerial Statements.

A London cable to the New  
York Journal of Commerce says:  
Discussion as to the probability  
of a general election this year  
continue active in financial  
circles. Merchants are already  
applying for insurance at Lloyds  
against loss should an election  
take place. They are charged 35  
guineas per cent., which is al-  
most prohibitive and indicates  
that the underwriters dislike ac-  
cepting the risks notwithstanding  
the ministerial statements  
that an election is unlikely.  
Whether any definite appeal to  
the people will be taken or not  
there can be no question that  
parliamentary sentiment is un-  
dergoing an active readjustment  
and that the natural reaction that  
has been so confidently predicted  
against the Socialist tendency of  
the present government is al-  
ready under way. The high taxes  
are having their effect.
