#### ASSIZES WILL OPEN ON DECEMBER 2ND

The assizes and civil sittings of the Supreme Court will open here on Thursday, December 2nd, instead of November 18th, as intimated yesterday. At the request of the local members of the bar, W. E. Burritt wired to the attorney-general asking for the change of date and last night received a wire granting the request.

The American halibut schooner Progress came in this forenoon with a catch of 150,000 pounds, secured in the Yakutat waters in the north. This is the largest catch ever brought in by a schooner to this port. The catch has not yet been disposed of.

#### SEATTLE WHARF IS DESTROYED BY FIRE

(Special to The Daily News.)

Seattle, Oct. 28.—A fire supposed to be of incendiary origin, destroyed Pier 14 yesterday. The pier was occupied by the Dexwell Company, Limited, Seattle agents for the Blue Funnel Line, which operates from Glasgow, Liverpool and London to Vancouver and Puget Sound ports via the Orient.

The warehouses destroyed contained much valuable merchandise, and the loss is estimated at over \$500,000. The bulk of the goods were war supplies for the Russian army, to be taken across the Pacific on the Blue Funnel liner Ixion on her next trip.

The loss is covered by insurance.

It is believed that the fire was started by German sympathisers, or agents of the German government.

A few days ago, an attempt was made to set fire to the Ixion by firing the wharf at which she lay, but the night watchman detected the men, who fled. Only timely action by the fire department saved the wharf and the ship on that occasion.

The Ixion was due to leave for Vladivostok next Tuesday.

#### CHISANA DISCOVERER BUYS MINING OUTFIT

Seattle, Oct. 28.—Bill James, one of the discoverers of the Chisana gold field, is in Seattle to buy a complete hydraulic outfit for his property. He will take the outfit in this winter, hauling it over the rough trail through McCarthy and over the Russell glacier. With Mrs. James he will visit the Panama-Pacific exposition before returning to the north this winter. James says that the camp has been fairly quiet during the past season because of lack of rains, making the side creeks dry. There has been a good head of water in the main creek, however, and the larger workings have been operated right through. He recently sent out his season's cleanup amounting to nearly \$100,000.

ALLIES RUSH TO AID SERBIA

Large forces of allied troops are now being rushed northward through Greece to Serbia. The most important place on the battle line shown is Varna, where the Bulgarians cut the Nish railroad recently. Shocking barbarities took place here.

#### KING GEORGE IS INJURED WHILE INSPECTING TROOPS

KING SUSTAINS SEVERE BRUISES WHEN HORSE FALLS—HUGE CROWDS AT MEMORIAL SERVICE TO NURSE EDITH CAVELL—THROW BEGINS TO GATHER AT 8 IN THE MORNING

(Special to The Daily News.)

London, Oct. 29.—King George has been injured while inspecting British troops in France. His horse became excited on account of the cheering and reared and fell.

The King was severely bruised and is confined to bed.

#### Impressive Service.

A great service was held in St. Paul's Cathedral this morning in memory of Nurse Edith Cavell.

It was attended by a throng

similar to that which gathered in the historic cathedral on the occasion of Lord Robert's funeral. Before eight o'clock in the morning, the huge crowd began to congregate.

There was no sermon, the service being entirely musical. Hymns were sung and sacred pieces were rendered by the band of the 1st Life Guards, while the organ pealed forth the Dead March in Saul.

#### ARISTID BRIAND TO FORM FRENCH CABINET

(Special to The Daily News.)

Paris, Oct. 29.—The French cabinet, of which Monsieur Viviani was the head, has resigned. Since the resignation of Monsieur Delcasse as foreign minister, there have been growing signs of trouble.

During the conference recently held by Premier Viviani with representatives of the various political parties, a number of proposals have been advanced, which gave rise to reports that the premier contemplated important cabinet changes.

Aristid Briand, who has been called upon to form a new ministry, has not yet succeeded in completing his task.

#### THE CRADLE

Born to Mr. and Mrs. Emilio Pettenuzzo, 628 Fulton Street, a daughter, at the general hospital this morning.

#### JAMES CARRUTHERS LANDS BIG CATCH

Yesterday, there was a bigger supply of halibut landed at this port than has been the case for some time. The James Carruthers, of the Cold Storage Company, Captain Knighthall, was chiefly responsible for the increase, bringing in a catch of 130,000 pounds. The smaller catches included the Sitka, Capt. Johannsen, with 5,000; the Truladi, Captain Mulhern, with 2,000; the Gilford, Captain Hobbs, with 4,000 and Glariec, Captain Stammers, with 7,000. A total of 150,000 pounds was taken up by the Cold Storage Company.

FRENCH SOLDIERS WITH ONE HUNDRED BIG GUNS TO AID THE SERBIANS—450,000 ROUMANIANS READY FOR FRAY—FRENCH OCCUPY THE HEIGHTS DOMINATING STRUMITZA

(Special to The Daily News.)

London, Oct. 29.—The French have landed 150,000 men at Saloniki with one hundred big guns. These reinforcements will be rushed north to the aid of the Serbians, now that the Nish-Saloniki railroad has been put in repair again.

#### Roumania Mobilized.

Roumania has mobilized an army of 450,000 men on the Bulgarian and Hungarian frontiers.

#### Heights Occupied.

The French in the Strumitza region have occupied the heights dominating the town of Strumitza, which is expected to fall shortly before the French attacks.

#### Western Front.

Paris, Oct. 29.—There is severe bomb and hand grenade fighting north of the River Aisne, and a heavy bombardment is being carried on by both sides in the Champagne district.

#### LIBERALS MAY AGREE TO PARLIAMENT EXTENSION

Ottawa, Oct. 27.—Sir Wilfrid Laurier's office in the parliament building was the scene this morning, of a gathering of prominent Liberals from all parts of the Dominion. They had gathered to congratulate the Liberal leader on his complete recovery from his recent illness, and to informally discuss the political situation in view of the approaching session. There was no official statement forthcoming after the conference, but it was asserted that the discussion had been of a purely informal character.

It was intimated that the matter of the extension of the life of parliament had been considered and that in the opinion of those present, the opposition would be willing to agree to any reasonable proposal. It was stated, however, that no definite agreement as to the duration of the extension of the present parliamentary term could be reached until parliament meets, when the party as a whole would be consulted. The view appeared to prevail that the two parties would succeed in arriving at an agreement.

Other matters affecting the welfare of the party were discussed, but in regard to these, no information was forthcoming from those who attended the conference. Those present, in addition to Sir Wilfrid Laurier, included Hon. Geo. P. Graham, Hon. W. S. Fielding, Hon. Sydney Fisher, Hon. Rodolphe Lemieux, Hon. Chas. Murphy, Hon. William Pugsley, Fred Pardee, chief whip; Duncan Ross, J. G. Turrieff, J. H. Sinclair and E. M. Macdonald.

#### WOMAN'S HOME BAKERY

The Woman's Home Bakery opened today by Miss James in the premises formerly occupied by G. C. Emmerson, on Third Ave., opposite Second St., is something entirely new in Prince Rupert. Miss James is an artist in providing the last word in delicious bread and the daintiest of pies, pastry and cakes. In other cities, the Woman's Home Bakery has become an institution, and, in the capable hands of Miss James, it is bound to be a big success in Prince Rupert.

**THE NOBLER PART**

In refusing to sanction the killing of sleeping German women and children in revenge for the murder of British women and children by German Zeppelin raiders, the British government plays the nobler part. That the decision against reprisals in kind will be understood in Germany is doubtful, but it cannot fail to increase the respect in which Britain is held throughout the world. The giant aeroplanes of the Canada type, which the Allies will soon have in service, could carry death and destruction over large districts in western Germany, and would probably prove more effective for the bombing of the residential portions of cities than Zeppelins.

Mr. Tennant's answer to the question in the Commons regarding reprisals indicates that the government might have trouble in securing airmen callous enough for the business of baby-killing, even were the administration desirous of doing so. "The Royal Flying Corps," he said, "is a military organization in England for military operations. The dastardly raids by the enemy on undefended towns and defenceless people should not be allowed to divert the energies of this fighting force from its primary military purpose."

Lord Alverstone, writing to The Times, presents the moral aspect of the case. Were the government to adopt a policy of reprisals they would make the British Empire a party to a line of conduct condemned by every right-thinking man and every civilized nation. Reprisals would not end or even shorten the war, Lord Alverstone says, and continues: "The British Empire and her allies are right and have the

cause of justice on their side. They will gain a victory over their enemies, which victory will ensue for the benefit of the civilized world. God grant that the victory may not be sullied by the recollection of any conduct of which the British nation and her forces would forever feel ashamed."

Nothing but contempt need be expected from German militarism when these sentiments are read in the mess room or the camp, but they ring true and wake a response in the breast of every humanitarian. The British Empire will continue long after the horrors of today have become history. It will have a greater place and a more enduring fame if it refuses to follow Germany in the slaughter of the innocents.—Toronto Globe.

**A PROVINCIAL ELECTION?**

While in the east the Attorney-General intimated in an interview that there would not be a provincial election until next year. The signs and portents, however, point the other way. One indication that the government intends to take the plunge before long is the announcement of the early resumption of work on the Canadian Northern Pacific section on this island, although the new assurance limps a little in the absence of any freight ferry service between Patricia Bay and the mainland.

Another factor in the situation lies in the disclosures in the coal mine case now before the Superior Court, involving the Provincial Secretary in such a way as to require the most searching ventilation of the whole matter by an impartial tribunal. We are much mistaken if there will not be a stern public demand for such

an investigation, and it may safely be predicted that the administration will prefer to try its fortunes in an election first with an inquiry as a hazy possibility afterwards.

When the government does face the electors it will have to depend solely upon its machine, just as the Roblin ministry had no other recourse but its organization and a plugged voters' list in the election which preceded the contest that placed the Norris government in power. Its record is known to the people and no specious promises will be accepted. The electors have seen a great light since the spring of 1912, when they were so prosperous that they did not bother to study the issues and took the government at its own valuation.—Victoria Times.

**"THE AMATEUR MINER" BY CHAS. P. RICHARDSON**

In the Mining and Scientific Press of San Francisco, one of the most influential mining journals of the continent, Charles P. Richardson, of Kitseles, has an interesting article covering nearly three pages on "The Amateur Miner." It is ably written and intensely interesting, and this is the kernel of the nut:

"In the trend of conditions toward big things, as specially exemplified in a mining way by such properties as Utah Copper, Chuquiamata, Interstate-Callahan, Alaska Gold, with their ability to install refinements of technical operations with resultant economies, are we not altogether losing sight of the opportunities for the sensible placing of money and endeavor in smaller properties, where they will make an adequate return and help to make prosperous little communities, as against big ones? Are we not minimizing the desirability of small undertakings? Are we not, perhaps, keeping 'Amateur Miner' and a lot of men of courage and enterprise, coupled with only small or moderate means, from mining? They get technicalized and engineered and processed into the Willies, with the idea that mining floats on some kind of a nimbus beyond the reach of common mortals.

Show me from forty to a hundred sore-backed pack horses a day, and a few ore wagons, passing my cabin, and I'll show you more human happiness than comes from 'breaking her 400 feet wide,' or 'running a dozen steam shovels on her.' Let the packs keep on travelling and ultimately will come the time that we need the cool judgment, the technical knowledge and the accuracy of the engineer to find out whether we have mines or merely prospects."

## AMERICA PREPARING FOR TRADE STRUGGLE

Washington, Oct. 28.—Elaborate plans for a world-wide campaign for trade by the United States are revealed in the estimates of the department of commerce expenditures for the next fiscal year, to be presented to congress this winter.

Through the bureau of foreign

and domestic commerce, the department proposes to aid American merchants and manufacturers in taking advantage of opportunities now before them and in preparing for the struggle for trade supremacy which commercial officials are certain will follow the European war.

Reorganization of the staff in Washington and an increase to about twice its present extent of the foreign commercial service are contemplated, according to a statement today by Dr. E. E. Pratt, chief of the bureau. Appropriations will be sought to provide for

extensive investigations of commercial conditions abroad and for tariff inquiry by the cost of production division.

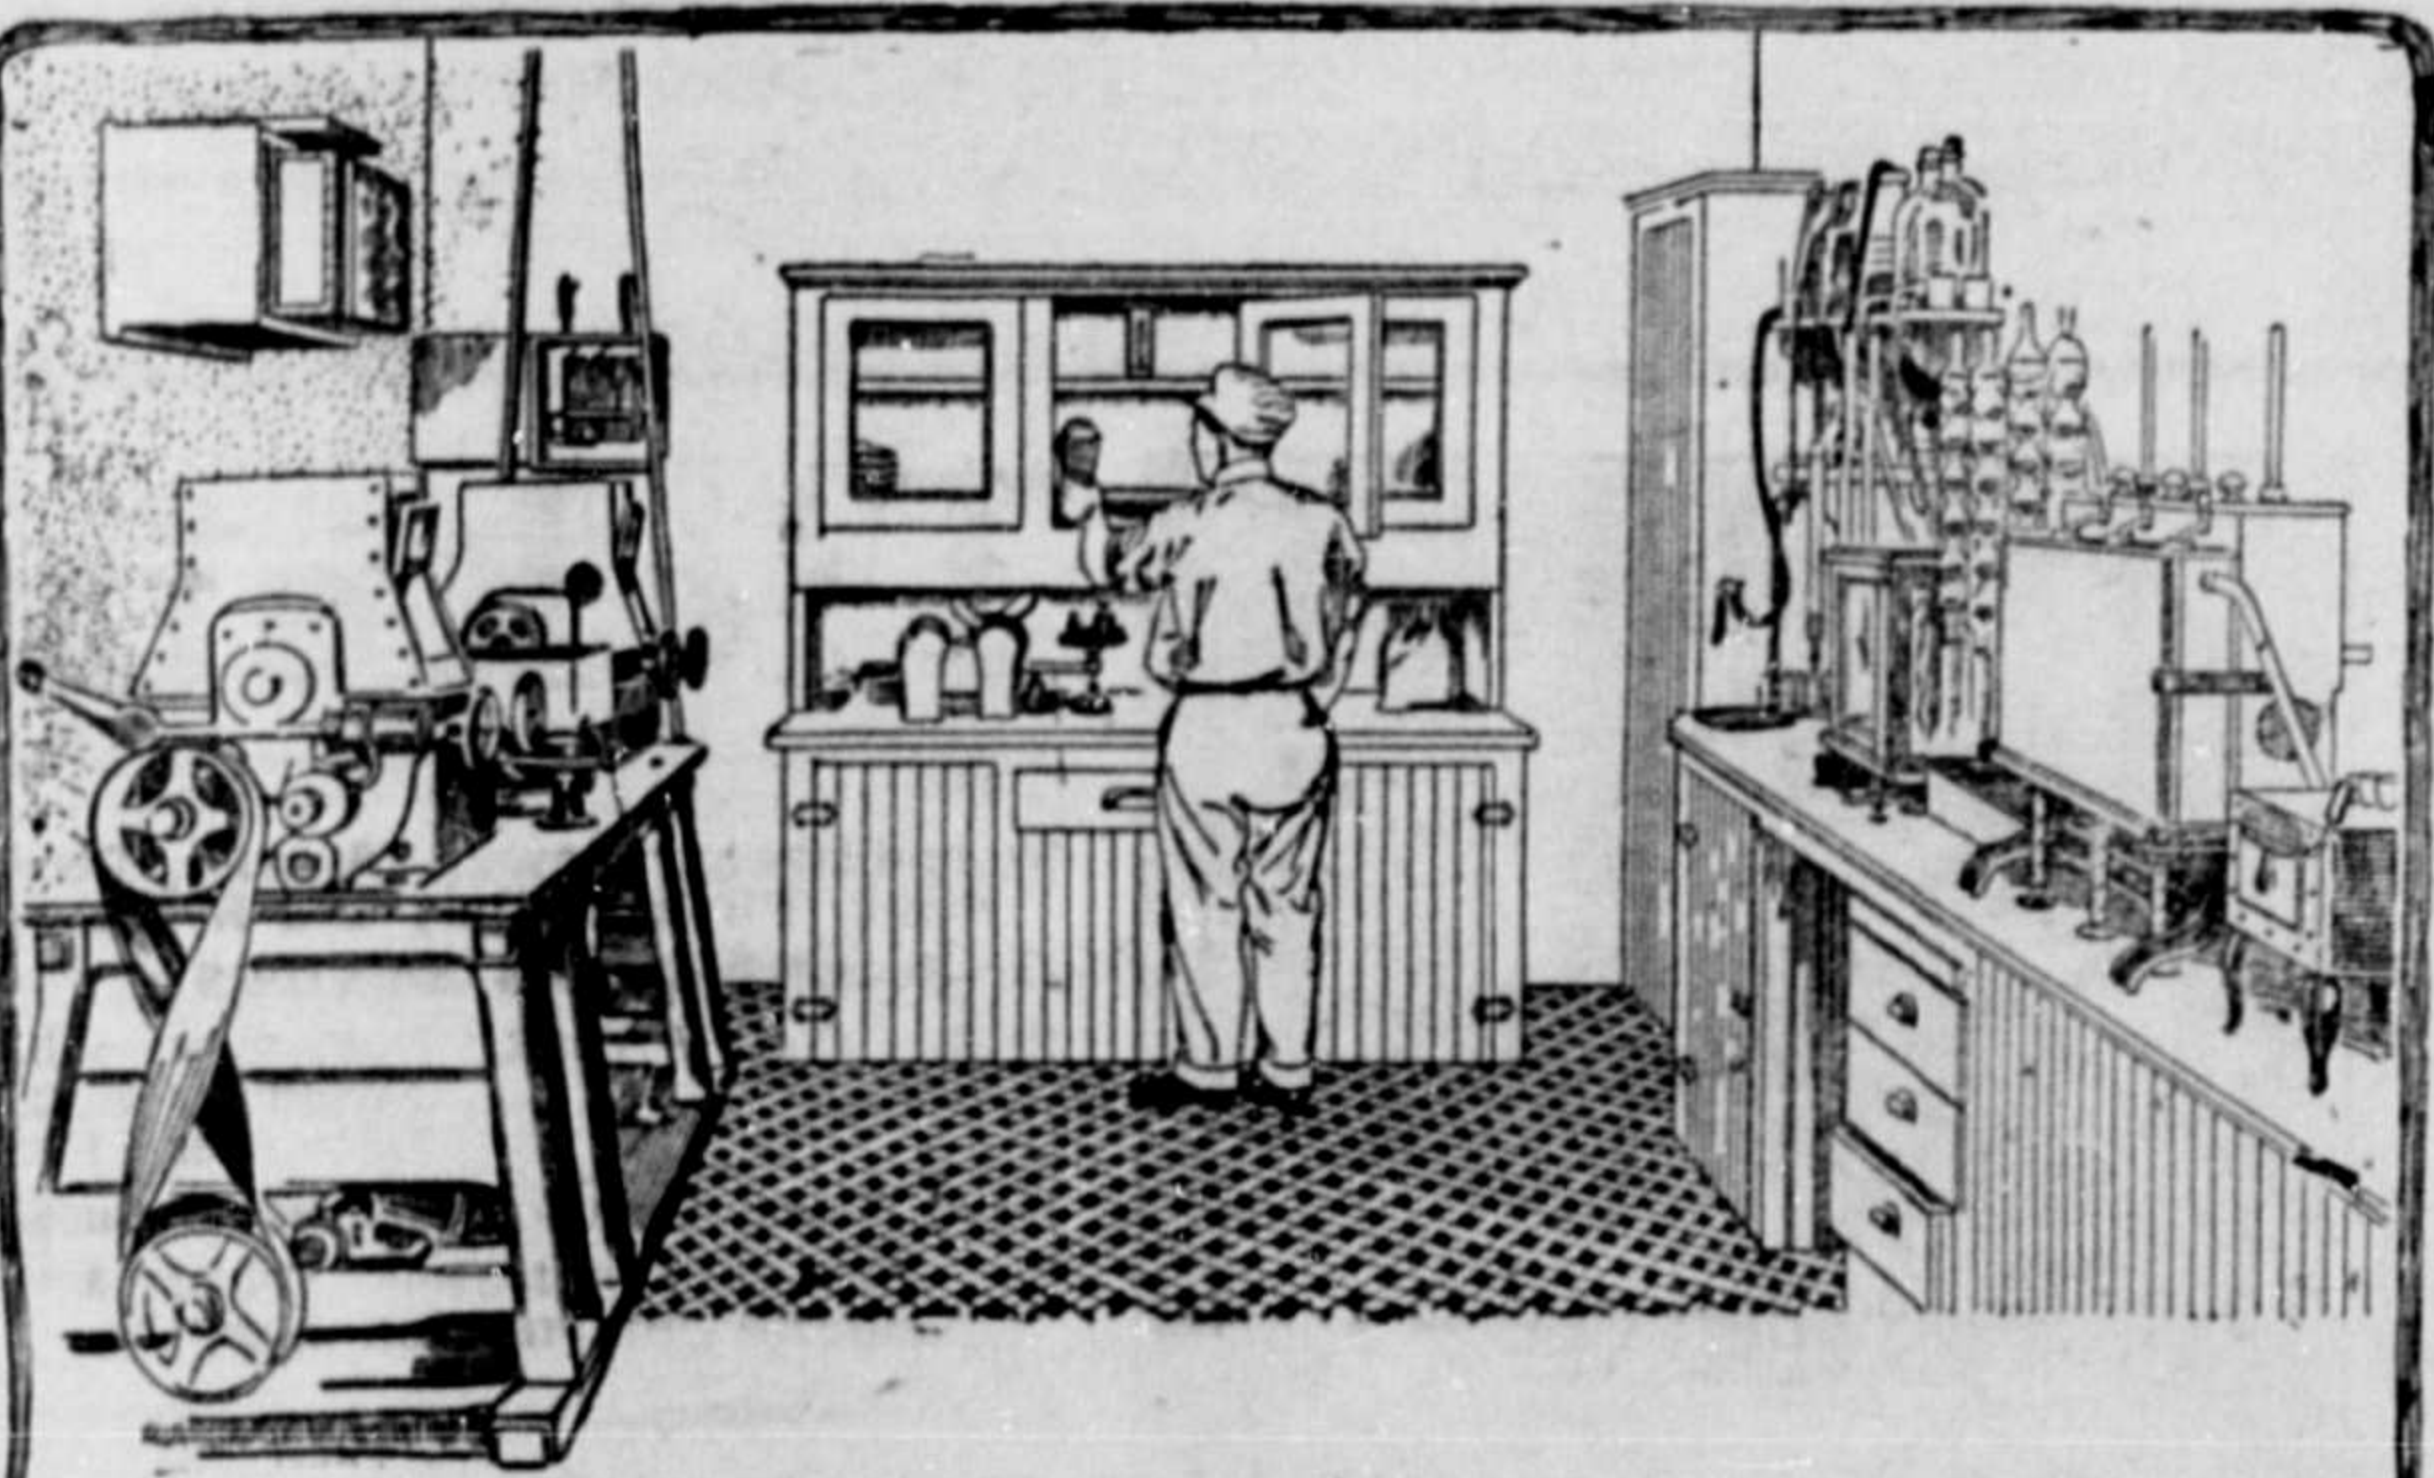

"The commercial attache service has been in existence just about a year," said Dr. Pratt. "It has proved so useful that an addition of ten commercial attaches will be recommended as part of the general program of 'preparedness.' These attaches, it is intended, will be stationed in Japan, India, South Africa, Spain, Scandinavia, Italy, The Netherlands, the Balkan States, Central America and Venezuela and Colombia.

"A similar increase in the bureau's work in promoting trade with Latin America will be requested. This will enable the bureau to conduct a number of special investigations there."

## The Housekeeper is Right

Sometimes a housekeeper requires a quick leavening agent, and finds she has no baking powder.

What does she do?

She raises her biscuit by a mixture of cream of tartar and soda, or soda and sour milk. She may not get the proportions quite right, but she knows her food is safe. But does she ever use a mixture of alum and soda? Was there ever a housekeeper who bought alum and soda to make a home made baking powder? Intuitively she feels it would be unsafe.

Then why use baking powder made from alum or the same mixture that the housekeeper would not dare to mix and use in her food?

Alum is alum, whether bought in the drug store or in baking powder.

**"THE LOVE OF WOMEN" AT THE WESTHOLME THEATRE**

The Westholme tonight presents a very fine three-reel society drama entitled "The Love of Women." It is the story of a painter who becomes enamoured of an actress and neglects his fiancée. How true love finally conquers is strikingly portrayed. It is an excellent picture. "The Unsparing Sword," the tenth episode of "The Road O' Strife," is full of dramatic situations.

There is also a "Bud and Ham" comedy, which is sure to provide lots of fun as Ham features invariably do. "Two Bold Bad Men," a comedy, concludes a real good program.

On Monday, the seventh installment of "The Diamond from the Sky" will be shown, as well as an English Gazette.

**"HER PROPER PLACE" AT THE MAJESTIC THEATRE**

The Majestic Theatre tonight and tomorrow screens another attractive bill, the chief item of which is a three-act Edison drama entitled "Her Proper Place." It is a society drama, in which an attractive girl, who has been disappointed in love in her home town, goes to Washington as stenographer to a broker. Working late one night, she hears a row in a senator's office opposite occasioned by a gambling gang who have failed to persuade the senator to oppose an anti-betting bill. The gang leader shoots the senator, and the girl goes to his rescue. On recovering, he offers his rescuer money which she refuses. Returning to her home town, she tells her friends that she is engaged to the senator, and the report comes to his ears. Out of curiosity, the senator visits this town and finds that his reputed fiancée is his former rescuer with whom he has, unknown to the girl, fallen in love, and all ends happily.

Included in this splendid program is a series of "Dreamy Dud" cartoons, which will delight everybody, a thrilling railroad drama and a most laughable comedy entitled "Superfluous Baby."

**PANAMA CANAL MAY BE CLOSED FOR TWO MONTHS**

A careful survey of the slide area in the Galliard cut in the Panama Canal reveals the fact that there probably are 10,000,000 cubic yards of earth in motion which must be taken out by dredging operations before a permanent channel through the cut is possible. This is the conclusion reached by the canal engineers, who concede that there is now little hope of opening the waterway, even for the temporary use of shipping, much before the first of the year.—World Wide.

**INSPECTION**

**INSPECTION of the Gillette Safety Razor**  
by mechanical experts and men of judgment shows clearly WHY seven million shavers prefer it.

The thin, flat blade is tempered to a uniform hardness impossible in an ordinary thick-backed razor. As a natural result, it takes an edge unequalled for even keenness.

By a simple turn of the wrist you can regulate a Gillette shave to a nicety—light, medium or as close as you like.

The toothed guard ensures safety, and permits such free and rapid strokes that a smooth, clean Gillette shave need take no more than three minutes.

The curved holder supports the blade close to the shaving edges, preventing all that vibration which makes hollow-ground open blades and other safeties pull and irritate when they strike a stiff beard.

Inspect the Gillette and you'll buy it—and shave in comfort thereafter. Go to it! Your Druggist, Jeweler or Hardware Dealer will gladly parade the Gillette Line before you.

Then there's the adjustable feature, exclusive to the Gillette.

"Bulldog", "Aristocrat" and Standard Sets, \$5.00—Pocket Editions, \$5.00 to \$6.00—Combination Sets, \$6.50 up.
