GERMANY DECLARED WAR ON ROUMANIA

BULGARIANS REPULSED BY THE SERBIANS -- A MILLION ROUMANIANS MOBILIZED

GERMANY HAS DECLARED WAR ON ROUMANIA

Roumania Satisfied that She will Realize Her Ideals—Our new Allies are Moving on the Galician Border.

(Special to The Daily News.)

Berlin, Aug. 29.—Germany has declared war on Roumania.

Roumania's Reasons.

Paris, Aug. 29.—Roumania's reasons for joining the Entente Allies in the war is that there is a large Roumanian population in Austrian territory exposed to the hazards of war in the invasion of Austria.

Roumania also believes that her intervention will bring to an earlier termination the fighting which has lasted over two years, and that by uniting with the Entente Powers she believes that she will be able most efficaciously to realize her national ideals. Roumania will be able to furnish an army of a million men for the field.

Roumanians Moving.

London, Aug. 29.—The Roumanians are seeking to gain an entry to the Transylvania plains through the passes of the Eastern Carpathians, towards Kronstadt and also in the direction of Hermannstadt, and are endeavoring to advance along the Bukovinian and Galician borders with a view to attacking the rear of the Austro-German armies. The enemy is trying to prevent the Russians from occupying the plains of Hungary.

New Airships.

New British dirigibles, which have just been launched, completely outdistance Zeppelins. Germany is greatly alarmed.

MANITOBA TRIAL

Winnipeg, Aug. 29.—The judge has limited the evidence in the trial of Sir Rodmond Roblin and his ex-ministers and the Crown expects to conclude the case for the prosecution tomorrow.

DOUBLE PERSONALITY OF HON. FRANK COCHRANE

Ottawa, August 25.—Students of history have been thinking that the vexed question of dual representation was settled long ago. They are all wrong. The Hon. Frank Cochrane is the living proof that the question is a red hot one right now.

The Hon. Frank Cochrane is about the neatest and completest thing in the way of dual representation that has happened since the issue was supposed to be put out of politics. He is a dual representative with a difference. In the old days a dual representative sat for two constituencies, one in the Legislature and the other in the Parliament at Ottawa—he was what you might call a two seat hog. But the law changed all that so the dual representative had to change his methods. Instead of sitting for two constituencies in two different Parliaments, he sat for one constituency in both.

That is how the Hon. Frank Cochrane operates today. His constituency is the International Nickel Company and he sits for it at Ottawa—and incidentally stands for all it does—as minister of railways, and in Queen's Park as Premier Hearst, with the Hon. Howard Ferguson as Johnny-on-the-spot, when Premier Hearst fades away to Europe. Of course, being only one man, and having a wooden leg at that, Mr. Cochrane can't cover all the ground at once, so while he attends to the job personally at Ottawa, he acts through Premier Hearst at Toronto. Premier Hearst is his Astral Body, so to speak, also his Absent Treatment for the nickel question.

The Hon. Frank's is the strangest case of dual representation that has ever been recorded since Robert Louis Stevenson conceived his famous character of Dr. Jekyll and Mr. Hyde. What's more Mr. Hyde has the long end of the combination. In fact Mr. Hyde has been so strong lately, that poor, tortured Premier Hearst is in hiding, so to speak, in Europe at this very moment. He does not want to gaze on his work in South West Toronto. Mr. (Continued on Page Two)

MEMBER FOR SOUTH ESSEX VISITING CITY

Mr. A. H. Clarke, M. P. for South Essex, who has been holidaying on Vancouver Island, arrived on the Princess Sophia yesterday. Mr. Clarke was in Prince Rupert three years ago and is proceeding home by the northern route on this occasion in order that he may make the trip over the Grand Trunk Pacific. He feels satisfied that Prince Rupert has a big future in which the drydock will play an important part. Arriving in yesterday's bright sunshine, the member for South Essex was greatly impressed by the beautiful location of the city, with its magnificent scenery of mountain and water.

DOLLY VARDEN WORK PROGRESSING WELL

R. B. McGinnis, of the Dolly Varden Mines at Alice Arm, left for the north on the Chelohsin yesterday. He expects to go south shortly to purchase equipment preparatory to more extensive development of the property. The trail is nearing completion and a start will soon be made in taking in drills and other plant.

Three crude oil engines of fifty horse power will be taken in in sections. There are about sixty men at work at the mines and a lot of ore is being blocked out ready for the mill.

Professor Hering, who will deliver a lecture on Christian Science in the Westholme Theatre tonight, arrived from Alaska yesterday, accompanied by Mrs. Hering.

LIEUT. JAS. RUSSELL DIED OF WOUNDS

All doubts as to the fate of Lieut. James Russell were set at rest yesterday when George Tite received a letter from "Jimmy's" sister in Manitoba stating that he had died of wounds on August 18th. Mr. Russell had been nearly two years at the front and was a most enthusiastic soldier, having risen from the ranks to a lieutenancy. It will be with feelings of deepest regret that citizens will learn of the death of this splendid soldier, who was loved by all who knew him.

TEDDY'S CONGRATULATIONS

(Special to The Daily News.)

Montreal, August 29.—Colonel Roosevelt has written to Major Stuart Duchesne, commanding officer of the Duke of Connaught's Own Irish Rangers, expressing admiration and congratulations on the formation of an Irish regiment irrespective of creed.

DAY LETTERGRAMS

The Grand Trunk Pacific Telegraph Company will (effective today) accept and forward between all points on its system, daylettergrams of fifty words or less, which will be treated as deferred service subordinate to priority transmission and delivery of full rate telegrams, at rate of one and one half times the regular day rate for ten words, and one-fifth of such rate for each additional ten words or less. Day telegrams must be written in plain English or French; code is not permitted.

SOME HEAT

On Thursday the thermometer registered 82 in the shade; on Friday 87, and on Saturday 78.

SERBIANS HAVE REPULSED THE BULGAR ATTACK

Bulgarians Occupy Greek Territory—Serbians make Progress—The Greek People are With the Allies.

Paris, Aug. 29.—The Serbians have repulsed the Bulgarian attacks and have made considerable progress near Vetrenik.

The Bulgarians now occupy various localities abandoned by the Greeks to the west of Kavala. The Bulgarian invasion of Greek territory is powerfully and rapidly changing public opinion in Greece in favor of the Entente Allies. The Greek people are bitterly opposed to the Bulgarians being allowed to occupy Kavala and it seems certain that Constantine and his ministers will be forced to respect public opinion. British monitors have bombarded the enemy forces at the mouth of the River Struma which lies between Kavala and Saloniki.

Von Jagow Blamed.

Berlin papers commenting upon the Italian declaration of war and on Roumania's decision against Austria, charge Count Von Jagow and Dr. Zimmerman with being responsible for Germany's diplomatic defeat.

Bulgaria Wants Peace.

Petrograd, August 29.—It is reported that Bulgaria is suing for a separate peace.

Important Move.

London, August 29.—A Reuter despatch from Stockholm states that an agreement between Russia and Sweden for the construction of a bridge across the Tornea River, connecting Russia and Sweden, has been ratified.

RECRUITS WANTED

Men are urgently needed for the Canadian Engineers. Major Ward, who is in the city from Vancouver, says that he can use 500 men if they are available, as sixty men per month are needed for reinforcements. Men of all occupations are acceptable, but particularly those who have had experience of construction work. Training is given to those who have not had this experience and there is no delay in getting to the front.

QUITE FRANTIC

The local Bowser organ is becoming quite frantic in its efforts to hide the fact that the government is going down to certain defeat. It proclaimed loudly before the fatal by-elections that the Bowser candidates would be returned with huge majorities. What was the result? A landslide in Vancouver was followed by a perfect avalanche in Victoria. What Vancouver and Victoria did to C. E. Tisdall and A. C. Flumerfelt early in the year will be repeated with emphasis on September 14th, and none knows this better than Hon. William Manson.

The recent trip by the Bowser candidate to the Islands proved to be another refrigerator experience, his reception being of the same chilly type which is being extended to Bowser candidates throughout the length and breadth of the province. Of course there was an alleged road foreman or two to bid him welcome, but the settlers on the Queen Charlotte Islands have had enough of William Manson and his road foremen.

This district will return T. D. Pattullo with an overwhelming majority, not because Mr. Pattullo is the candidate; not because the electors of this district have had much more than enough of the Bowser government and its methods. The bait which was thrown to the Islanders was a vague promise of something in the way of regular steamer communication in the more or less distant future. Goodness knows the Islands need some such communication, and have needed it for years, even more so than today, when hundreds of settlers have left the Islands. Has William Manson only just discovered that steamer communication is needed? We wonder if he has also discovered what kind of roads his road bosses have

been trying to build over there?

TELEPHONE FRANCHISE

William Manson told the twenty odd of the faithful who attended his smoker on Friday evening that T. D. Pattullo had tried to grab the telephone franchise of this city for a telephone company. Since T. D. Pattullo has challenged the Bowser candidate to meet him in public debate on this and other questions, all that need be said is that, had all the citizens had as little caring for the welfare of the city in regard to the telephone franchise as William Manson had, the franchise today would have been in private hands. T. D. Pattullo and a few public-spirited citizens foresaw the danger and advanced their own money without interest to procure the franchise and to save it for the city. If Mr. Manson is afraid to meet Mr. Pattullo in open debate, we will be forced to pursue this interesting subject on a future occasion. If Mr. Manson is reported aright, he deviated from the truth in his statement, and, when he is forced to do that in order to throw mud at his opponent, he must be hard put to it indeed. Poor William.

NOTES AND COMMENTS

"Bob" Green seems to be the most cheerful of the Bowser prophets in regard to the result of the election. Bob's prophecies will be just as far wrong as were his actions in regard to the Kaian Island deal which caused his retreat from the McBride government.

The Journal says that Joe Merryfield is amused at the contention of Mr. Pattullo that Wm. Manson will lose his deposit if the whole district votes as the Islands will—3 to 1 against Bowser. Joe has a peculiar habit of hiding his amusement for he certainly does not look "tickled to

death" these days, and he will look even more dejected after the 14th.

Every report of a Bowser meeting or a Manson tour these days has something to say about the production of copper. Of course the idea to be conveyed is that by some mysterious means Willie or the government is responsible for the boom in copper. The gentleman who is responsible for that boom spells his name "Wilhelm" and not even he is responsible for the fact that a good deal of the metal was deposited in British Columbia when the earth got its final shake-up.

William Manson says that the war has caused a good deal of depression on the Islands. Many of the Islanders have to thank the war for the fact that they are able, by shouldering a gun, to get three meals a day. The most noticeable depression on the Islands is in the roads over which the settlers are supposed to try and pilot their teams.

DOUBLE PERSONALITY OF
HON. FRANK COCHRANE

(Continued From Page One.)

Cochrane himself is in no better plight. His health has suffered from these tremendous struggles in which Mr. Hyde always gets the best of it.

It is a long time since either Mr. Cochrane or Premier Hearst was fortunate enough to appear in the role of the benevolent Dr. Jekyll. The devilish Mr. Hyde, meaning the International Nickel Company, has so often put his amiable silent partner to the bad that he has become quite discouraged and never shows up now in the public performance of either statesman. It may happen that Mr. Cochrane is Dr. Jekylling at Ottawa—a rare occurrence—but what boots that when Premier Hearst, his other self, is Mr. Hyding in Queen's Park? Also it may happen that Premier Hearst is Dr. Jekylling in Queen's Park but just at that moment Mr. Cochrane is playing the other end of his double personality at Ottawa. They never seem to be lucky enough to do the Dr. Jekyll act at the same time. They can't get together long enough. This explains why Mr. Hyde is in a fair way to shatter both statesmen.

This dual representation of Mr. Cochrane's, this contending and conflicting double personality of his, works out in interesting ways so that in anything very raw done in Queen's Park one may frequently see the hand of Mr. Cochrane, the mouth of Premier Hearst, and the voice of Mr. Hyde, said Mr. Hyde being generally the International Nickel Company.

This International Nickel Company certainly has a strong hold on the Hon. Frank Cochrane and his faithful henchman, Premier Hearst. It is not only entrenched in his affections, but in his pocket. The Canadian Copper Company, which was the original vendor of the Sudbury mines to the International trust of Yankees and Germans, has names which, somehow or other, overlap into the shareholders' list of the Cochrane Hardware Company, of which the minister of railways is president.

Yes, the International Nickel Company is the Mr. Hyde of the ghastly political tragedy which is now being played out at Ottawa

and Toronto with Mr. Cochrane and Premier Hearst as the star performers. Mr. Hyde is a good name for it because it hides its books and its profits in the United States, hides its dealings with Germany and other enemies of the British Empire, hides what it makes on the side from the other metals contained in the nickel matter, and then hides from the consequences under the coattails of the Hon. Frank Cochrane, Premier Hearst, Hon. Howard Ferguson and other foxy explainers.

But luckily for the Canadian people, even Conservative papers, like the Toronto World, began to get sick of the depredations of the bad Mr. Hyde. Moreover a live Liberal candidate stepped in to the field in South West Toronto and proceeded to drag Mr. Hyde into the light of day. In a week's campaigning these facts emerged conspicuously. The International Nickel Company pay \$40,000 a year in taxes on an annual output of \$37,000,000. For years a great part of this nickel has been going to Germany, where it is worked up into guns, bullets, armor plate and other munitions of war. The Deutschland sailed with a cargo of it the other day—the "gentleman's agreement" with the Ottawa and Toronto governments not to sell to the enemies of the Empire being practically inoperative. It isn't the money that a heartless monopoly is making out of Ontario's natural resources—although that is no small grievance—but it's the appalling fact that most of the nickel sold to Germany and her allies comes back to us in the bodies of our soldiers on land and sea, wounded or slain by missiles forged from our

nickel. Thus does Mr. Hyde do his bit in the great war.

Comes now Hon. Howard Ferguson with promises of increased taxation, and a nickel refinery in Ontario, but this is a belated repentance and as much to be suspected as the Hon. Mr. Lucas' announced intentions toward the Hydro-Radial enterprise. Nothing less than repeal of the McGarry Act will untie Sir Adam Beck's hands and place the great public ownership profit where it was before the Cochrane-Hearst crowd took a crack at it. Here again we have Mr. Hyde entering into the bosom of the government. First he entered into Dr. Reid, who acted as Mr. Cochrane's un-

derstudy during his absence, causing him to treat Sir Adam with great contumely when he appeared before the Railway Committee of the House of Commons. Dr. Reid told his supporters to go to it, and they did. Mr. Hyde enjoyed himself prodigiously at Sir Adam's expense. What he didn't do to the champion of the people's cause wasn't worth doing.

After that Mr. Hyde entered into Tom McGarry and rendered him violently on behalf of Mr. Cochrane and his hydro-radial antipathies. The result was the McGarry Act, which left hydro-radial all tied up like a sore thumb.—H. F. Gadsby.

Depend on us
for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Production and Thrift

"TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—SIR THOMAS WHITE, Minister of Finance.

PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

SPLENDID SHOW AT MAJESTIC THEATRE

Charles Cherry, a star of the stage, makes his debut as a movie actor at the Majestic Theatre tonight in "The Mummy and the Humming Bird." It is a society drama which is full of intense situations and gives this great actor a great opportunity to display his powers. As Lord Lumley, an aristocrat who is more interested in science than in his wife, he makes a big hit. It is the old story of a neglected wife and the fascinating "humming bird," told in a very interesting manner. How the innocent wife is saved from the wiles of the latter is splendidly told. A most amusing series of Bray's Animated Cartoons completes a show which enhances the reputation of the Majestic.

HALIBUT TROUBLE RECOUNTED IN SENATE

Washington, Aug. 27.—Senator Jones, in the debate on the revenue bill yesterday, told the Senate all about the troubles of the halibut trade in the North Pacific. He presented the records of orders-in-council and other discriminatory legislation enacted by Canada to build up Canadian commerce in halibut, at the expense of the American industry, and contrasted this with the acts and attitude of this administration.

He emphasized the fact that a protest by Britain had held up for weeks American legislation calculated merely to equalize conditions. He showed that Canadian orders-in-council which prohibit shipments other than by rail out of Prince Rupert, permitted Canadian fishermen to sell their catch at Prince Rupert at from 25 to 30 per cent. better prices than American fishermen.

Don't Send Money in a Letter

WHEN you send subscriptions to magazines, or order goods out of town, or pay small accounts at a distance, do not place the actual cash in the envelope. Thousands of dollars are lost every year through fire, robbery or mis-direction. Use the Bank Money Orders, issued by this bank. They are payable in Canada and the United States in any sum up to fifty dollars.
