HANNA WILL NOT NAME CONCILIATION MEMBER

Still Taking Arbitrary Stand on Dispute Over Famous "Hanna Order."

OTTAWA, Dec. 28.—The management of the Canadian National railways has notified the minister of labor that it will not name a person to represent it on the board of conciliation which was established to deal with the dispute between the employees and management over the "Hanna" order. In accordance with the provisions of the statute, the minister, having received this notification, will go ahead and appoint the company's representative himself. It is expected that the appointment will be made with the least possible delay, and that the two representatives will confer on the choice of a person to act as chairman. David Campbell of Regina has been appointed to represent the employees.

The dispute, which involves practically all the employees of the Canadian National system, members of fourteen different trades unions, results from the order issued by President D. B. Hanna, of the Canadian National system, which has the effect of dismissing any employee who accepts nomination, either federal or provincial. The employees are demanding reinstatement of employees dismissed as a result of the order.

He condemns the adoption proceedings as at present carried out in the courts, stating that they are handled informally, and decrees entered as a matter of course, the courts having no means whereby to make investigations.

POLITICAL ENEMIES BUT GOOD PERSONAL FRIENDS

Hon. J. D. Reid and Hon. W. L. Mackenzie King are Guests at Banquet

MONTREAL, Dec. 28.—At the banquet of the Dominion Travellers' Association, given here, the toast of "The Parliament of Canada," was responded to by Hon. J. D. Reid, minister of railways and canals, who jocularly welcomed his old friend, Hon. W. L. Mackenzie King, as leader of the opposition, and said he was glad to have seen him chosen for the post. Speaking of the luxury tax, Mr. Reid said that Hon. Mr. King "was with us when we put this tax on and I believe he was with us when we took it off."

As to the railways of Canada, Mr. Reid expressed a fear that the national railways would not show the same surpluses as the Canadian Pacific, and the position, he said, might be difficult until the national position got back to normal.

Hon. Mackenzie King then spoke and said that while he and Mr. Reid were strong personal friends, they were equally strong political enemies. Hon. Mr. Reid had spoken of thirty years' prosperity of Canada, but he had to say that, of that period, fifteen years were the golden period of the Laurier government.

RUPERT TO GO BACK IN WATER

After Repair Men Make Examination Will Leave Pontoon to Save Expense.

Representatives of the ship repair firms from southern cities will reach here on the Prince George tomorrow to commence their examinations with a view to tendering on the repairs to the wrecked steamer Prince Rupert which is now on the pontoons at the dry dock at Hays Cove.

It is likely that as soon as these examinations have been made the vessel will again be placed in the water by the underwriters to save the expense of keeping her in the dock. The boat will, however, remain in the harbor until the contract has been let. It is possible that the tenders may be hurried up so as to be in before January 5, the date that is now set for their closing.

Telegrams were last evening sent by the Board of Trade to the Department of Marine at Ottawa, and General Manager A. E. Warren at Winnipeg, inquiring if arrangements could not be made whereby H. A. Butt, the government's representative, or some other official, could submit a tender for the job of repairing the Prince Rupert at the local shipyard.

SUSPECTED TO BE WANTED IN IDAHO

Man Answering to Description Sent Here Was Picked up by Police Yesterday.

On the strength of a wire lately received from the sheriff's office of the state of Idaho giving a description of a man wanted there for felony, Warden Bailey yesterday arrested a man who appeared to answer to the enquiry. The man, who has been a resident here for some little time, and as a matter of fact had only that morning filed an application for a near beer license with the city hall for the new Beveridge building on Third Avenue, depositing the necessary \$100, is being held pending the arrival of the sheriff's officer from Idaho. It is understood that the accused man intends to fight extradition.

CHRISTMAS PARTY BECAME BOISTEROUS

Mrs. Louise Rice Fined \$50.50 this Morning for Allowing Drunkenness.

Mrs. Louise Rice was fined \$50.50 in the police court this morning by Magistrate McDermott for allowing drunkenness to take place on premises occupied by her on Fulton Street.

It appeared that the defendant endeavored to obtain the aid of the police when her Christmas party became a little too boisterous and out of hand, and telephoned the station four times. On account of its being the holiday season, the force were all out on active service, and no officer was available at the moment to go to her assistance.

Alex. Manson who appeared for Mrs. Rice, pleaded guilty to the charge and asked for leniency on account of its being the festive or holiday season of the year. The magistrate as well as the city solicitor, concurred with Mr. Manson, that this might possibly be taken into account.

Canada and War Debt.

In answer to questions from United States corporations as to the state of Canada's finances, the Royal Bank of Canada states the opinion that "the Dominion of Canada is fully capable of freeing itself from its load of war debt without fresh taxation, which would cause concern to manufacturers contemplating a move to Canada." This is based on statements "showing receipts and expenditures from 1912, five years before the war, to date. These statements show surpluses on ordinary account and capital expenditure, which includes war expenditure."

Way Out is At Hand.

In almost every country the heart of the great problems of today is war expenditure. Canada's demobilization year of 1919 proved extremely expensive. She had half a million soldiers in the field and every one of these received a bonus on discharge which averaged about \$100, a total of \$200,000,000. This drain will soon be a thing of the past. Appropriation on capital account for war expenditure in 1920-21 is \$38,000,000 as against \$375,000,000 in 1920. Eighty-four million dollars for land settlement and re-establishment of soldiers charged on current revenue for next year, should be sharply reduced each year. With pensions the only permanent war charge, the way out of these burdens can be plainly seen.

United States Money Here.

One of the notable features of the year 1920 has been the increasing establishment of United States-branch factories in Canada. The Union bank of Canada is authority for the statement that "the industrial commissioner of one city near the boundary was in correspondence during one month with no less than 100 United States firms who had the establishment of branches in the city under consideration. Many of the companies succeeded in establishing branches, too. Indeed the movement of American capital and American industries to Canada has assumed proportions which are extremely large; three hundred million dollars is the figure generally accepted for the amount of the investment in industries and this does not include money invested in bonds and securities. It can be said that the total is rapidly growing up for every day brings confirmation of the establishment of some new plant."

Has Qualities For Governor.

The appointment of W. C. Nichol as Lieutenant-governor for this province will be a popular one and is also a wise one. Mr. Nichol is a keen businessman and is intimately conversant with business and political life in British Columbia. Coming here in 1897 he had already held important positions on eastern papers and as head of the Vancouver Province, conceded to be the province's best newspaper, which he himself has made it, he has since been in touch with the biggest movements in all lines of business and politics. Despite this intimate acquaintanceship in inner circles he has conducted his paper with a great deal of tact and made it immensely popular. Business acumen, political knowledge, tact and position should indeed make him a good governor.

LIBELLÉD RODENT IS NOT TO BLAME

Fire Experts Say Rats would Starve to Death rather than Make a Meal on Match Heads

In the lengthy category of reasons and excuses for fires, that of friction due to the gnawing of match heads by rats and mice has had to bear its full share. When all else could prove an alibi the rats were blamed. The increasing number of fires attributed to this cause emphasized the necessity of establishing the possibility of its being bona fide.

The Underwriters' Laboratories, Inc., of Chicago, after careful and prolonged experiments by its fire prevention engineers, has reached the definite conclusion that rats would rather starve to death than eat the modern match heads.

Tests Made

This conclusion was arrived at through a series of elaborate tests, covering a period of eight months and more, in which numbers of rats were placed in enclosures with boxes of matches arranged so that they could reach them. The first test was made without feeding or watering the rats; in the second they were given water, but no food; and in the third they were given food and water for two weeks and then starved, but supplied with water until they died. Occasionally the strawboard boxes were gnawed and the boxes broken open and matches scattered all around, but although frequently the rats ate one another, in no case were the match heads gnawed nor was there any apparent danger of ignition.

With this positive evidence in their possession, investigators of fires will view with greater suspicion a fire which can be attributed to no other cause than that of rats gnawing matches.

BRINGING UP FATHER

CITY COUNCIL WAS CHEERFUL

As Acting Mayor Rochester Takes
Chair Prophetic Remarks
Are Passed.

There was a distinct air of good fellowship and camaraderie typical of the festive season, pervading the city council chamber at the weekly assembly of the city fathers last evening. All of the aldermen present were wreathed in smiles to say nothing of the city solicitor and city clerk. Even the members of the press gallery wore a less worried look than usual. Hand-shakes and the compliments of the season were passed around before the business of the evening commenced.

On motion of Ald. McLennan, seconded by Ald. Murray, Alderman Rochester was appointed acting mayor, and proceeded to take his seat upon the raised dias, amidst a few jocular remarks in an undertone, about "one rung on the ladder," "stepping stones," and "coming events cast their shadows before them."

Following the meeting the acting mayor was host at a little party in the St. Regis Cafe which was thoroughly enjoyed.

Your sheets are rarely used longer than a week, and you make this change of your bed linen so as to be clean and thereby healthy. Did it ever occur to you that your "feather pillows," while they are invariably encased in a pillow case, also become soiled, unclean, unsanitary, and possibly unhealthy from use?

We wash and sterilize your feather pillows in a neutral soap, drying them in our new rotary tumbler at a temperature of 245 degrees Fahrenheit, leaving each and every feather light and fluffy, just the way you would have them. The cost is 75 cents each, with our guarantee, i.e., it's to your satisfaction or no charge is made.

Give us one this week and compare it with its mate when returned.

Things are naturally very quiet along the water front at this time of the year and the only noticeable changes lately are the completion of the extension to the government wharf and the start being made on the fish sheds. These are to accommodate certain of the fish buying companies that have applied for space there upon their being obliged to quit their present locations on the G. T. P. wharf.

The recent high winds and stormy weather have caused the owners of the numerous small craft moored in the vicinity of Cow Bay a great deal of anxiety, extra precautions being necessary to avoid accidents through boats breaking loose.

The well known building that has stood for so many years next to Fred Stock's hardware store, known in latter years chiefly as the home of the St. Andrew's Society and recently purchased by Peter Black, looks quite imposing in its new location at the corner of Second Avenue and Seventh Street. Having passed through a wonderful process of renovation at the hands of contractor M. J. McNeill, one would hardly recognize it. The carpentry work on the outside is almost completed and such time as it gets out of the painters' hands it will be one of the most imposing looking buildings in the city. The lower floor will be refitted up as stores and offices, the St. Andrew's Society carrying on their club rooms in the upper storeys.

A very pleasing entertainment was presented at the Baptist Sunday School concert and Christmas tree last night to an assemblage that numbered about 200 persons. The program was a very complete one and reflected a great deal of credit on the officers of the Sunday School who have worked energetically on the training for several weeks and attained such success last night.

When the program had been completed about 9 o'clock Santa Claus arrived with a kitful of toys and candy and the Christmas tree was unloaded to the delight of all.

R. P. Linzey presided over the happy event and Miss Way was the accompanist. Special mention is made of the efficient training performed by Miss Katie Shaw, superintendent of the primary class, and Mrs. R. P. Linzey, of the grown up girls.

ALICE ARM

Provincial Constable D. S. Cameron has notified all near beer dispensaries on the Indian Reserve that they must either shut down or move after January 1.

There was born at Christmas to Mr. and Mrs. George Matheison a son.

The weather here for the past week has been most unpleasant. There is heavy snow on the ground and lately it has been leeting and raining in turn.
