BRITAIN HAS SUPPLIES FOR ANOTHER YEAR

CHANCELLOR'S SPEECH A SHAM SAYS PREMIER

Problem Now is Only Price and Distribution—No Need of a Compulsory Rationing Scheme Now.

(special to The Daily News.)
London, July 23.—Supplies for the year are now assured. Great Britain will start the cereal year with nearly seven months' stock in hand. The huge potato crop is now coming to market. The problem now resolves itself into one of price and distribution. The economy taught the people by the crisis will be permanent till the end of the war. The Government finds there is no need now of the putting into force of the compulsory rationing scheme which the Food Controller had ready. The whole country is now self-sufficient to a degree unknown in the past hundred years. Every inch of ground that it has been possible to cultivate is now bearing crops of something or other and the fear of famine has been removed.

ACCIDENT TO ONE OF THE TILLAMOOK'S CREW

One of the crew of the G. T. P. "Tillamook," which plies between here and Ketchikan district, met with an unfortunate accident this morning. His name is Richard Lukan, and while he was engaged in swabbing down the decks, he fell over on his ankle, fracturing his leg between the ankle and the knee. The chief engineer of the boat, Mr. H. J. Furney, was on deck at the time and picked up the injured man. Dr. McNeill was at once called and after attention was taken to the general hospital, where he is progressing as well as can be expected.

MANSLAUGHTER

On Friday at Anox, two men, Jim Loloff and Marenco Carlo, were committed for trial by Dr. E. H. Hyde, stigmatized magistrate, on a charge of manslaughter. It seems that after a blast at ten minutes to twelve, some boulders had rolled down onto the track. These men were supposed to clear the track, and make it safe, instead of which they went for dinner. Before they got back the train came along and hit the boulders, whereby one man was killed. The accused were taken to New Westminster by Constable Gordon, of Alice Arm, to await trial. Chief Gammon was at Anox on prosecution duties.

Michaelis Will Soon Sing Another Tune—His Deliverance Shows Militarists in Ascendancy.

(Special to The Daily News.)

London, July 23.—The maiden speech of Dr. Michaelis, the new German Chancellor, shows that without doubt, the militarists in Germany are still in the ascendancy. Premier Lloyd George says that the Chancellor's deliverance of his dexterous facing all ways speech is but a sham. Europe has not sacrificed millions of her gallant sons to set up a sanctuary for sham. Belgium shall not be a scabbard for the German sword. Michaelis will soon sing another tune.

WILL INVESTIGATE INTO COLD STORAGE

(Special to The Daily News.)

Ottawa, July 23.—After consulting with Hanna, the Food Controller, the Government has decided to make further enquiries into the cold storage question, as a result of the report of the cost of living commissioner O'Connor.

RIOTS IN SPAIN

(Special to The Daily News.)

Madrid, July 23.—Soldiers, policemen and civilians were wounded, when shots were exchanged by strikers and police in Valencia.

JAPAN'S SHIPS

(Special to The Daily News.)

Tokio, July 23.—In Japan, eleven shipbuilding yards have under construction at the present time one hundred and ninety-eight steamers exceeding a thousand tons.

THE KAISER

(Special to The Daily News.)

London, July 23.—The Kaiser had a conference with the members of the Reichstag on Saturday and thereafter left for the eastern front.

Mr. H. O. Bell Irving, president of the A. B. C. Packing Co., arrived from Vancouver on the Venture and will be here a short time before leaving for the Naas river and Ketchikan. Mr. Irving has six sons in khaki, which is a record for British Columbia.

Mr. P. Campbell and Mr. T. S. Baird arrived in the city from Claxton cannery on last night's train. Mr. Campbell returned early this morning, but Mr. Baird will be here for some time, as he is looking for men for the cannery.

Mr. J. C. Brady, of the high school, left this morning for Swanson Bay on a holiday. Mr. Brady will spend the rest of the summer vacation there enjoying life with Raymond Fisher, who is also down there to spend the holidays.

SOCIALIST CAUSES TUMULT IN REICHSTAG

(Special to The Daily News.)

Amsterdam, July 23.—Herr Haase, a radical Socialist member of the Reichstag, attacked the Government's home and foreign policy. He demanded immediate peace negotiations, atonement for the wrongs committed and the establishment of a Socialist republic. Haase also demanded the release of Dr. Leibknecht and cried from the floor of the house that the prison authorities were starving Liebknecht. His speech caused a tumult in the house.

VILLA AT HIS USUAL TRICKS IN MEXICO

(Special to The Daily News.)

Juarez, Mexico, July 21.—Leading his men in person, Francisco Villa yesterday took possession of Jiminez, an important junction point on the Mexican Central Railroad, 131 miles south of Chihuahua City. Passengers who reached here today from the south report the massacre of the small government garrison and the looting of the town by Villa. The capture of Jiminez cuts off both Torreon and Parral from communication with Chihuahua City.

DROWNED AT PORT SIMPSON

An investigation is being conducted into the drowning of Alex. Swain, a fisherman of Port Simpson. The accident happened on Friday night. The drowned man was getting rock ballast for his boat, and on going ashore, he fell overboard. The body was not recovered until the next morning at low tide by dragging operations.

The investigation is being conducted by Coroner Dr. Large.

WHOOPING COUGH

NOTICE IS HEREBY GIVEN that it is the duty of parents to report to the Medical Health Officer, or at the City Hall, every case of whooping cough within 24 hours after its occurrence. Failing to do this renders the offender liable to severe penalties, for which prosecution will be brought in every case.

By order,
MEDICAL HEALTH OFFICER.

THE PRINCE RUPERT SHIPBUILDING PLANT

(Special to The Daily News.)

The greatest immediate demand of the British Empire and its allies is ships. The largest and best equipped shipbuilding plant on the British Pacific coast was ready for use when the war broke out. Both steel and wooden ships can be built at this plant more cheaply than anywhere else in British Columbia. The large floating drydock in connection with this plant—the best on the Pacific coast—with a lifting capacity of 20,000 tons—has been ready for operation for the past two years, but no ships have been built and very little has been done in the drydock and that little was when the Admiralty requisitioned it. This plant has cost \$2,199,000. It was designed by William T. Donnelly and constructed by the Grand Trunk Pacific Railway Co. After the completion of the plant and acceptance, interest on the bonds at 3 1/4% is guaranteed by the Dominion government. At the present time, there is a question of tools and equipment valued at \$3,438 before the government will accept the plant as complete—the merest trifle in a plant of this magnitude. Pending the acceptance of the plant as complete, the G. T. P. either will not, or cannot, operate it, and have refused to grant leases to substantial people, who are anxious to use this plant for shipbuilding purposes.

In as much as the liability of the Government of Canada to the bond holders does not become operative until the plant is accepted by the inspector as complete, it is apparent that the government may be desirous of deferring this acceptance, thereby deferring its liability to the bondholders. On \$2,199,000 this would be \$76,965 per annum.

It is also well known that the G. T. P. is in financial difficulties and has to appeal to the Dominion Government for financial assistance. Consequently the railway company while begging for millions, is not in a strong position to complete the drydock against the will of the government, thereby fixing a liability on the government. Hence the situation arouses the suspicion that the railway company is desisted from

GERMANY IS LACKING SUPPLIES TILL HARVEST

(Special to The Daily News.)

Washington, July 23.—Reports reaching the State Department from persons coming out of Germany regarding the food conditions and the outlook in the Central Empires say that Germany lacks six hundred thousand tons of wheat to carry the population through to the middle of August, when the new harvest will be gathered. The harvest is poor in East Prussia, which is the great agricultural area. The tension between Austria and Germany is declared to have grown so great that suspected Austrians are now being interned in Germany.

completing the plant at the suggestion of the government and for fear of alienating the sympathy of the government from whom it is begging. Until the plant is completed the G. T. P. cannot well operate it and the government will accept no responsibility. In any case the plant is kept idle to the detriment of the Empire. Such conduct to the ordinary man looks like a conspiracy to defraud the bondholders, and a gross indifference to the Empire's call for ships.

There is also a widely recognized contention that the present government owes its existence to the efforts of the C. P. R., the Canadian Manufacturers' Association and the Nationalists. That

KERENSKY IN COMMAND AT PETROGRAD

Calls Upon the Regiments and the Battleships in Disgrace to Arrest Leaders of Revolt for Trial.

(Special to The Daily News.)

Petrograd, July 23.—Kerensky, the new Premier, is grappling with the latest revolt. He calls upon the disgraced regiments and battleships to arrest the ring leaders of the revolt, and send them to Petrograd for trial. He declares that vigorous measures will follow a refusal of his request. He appeals to all true sons of democracy to rally round the Government in its time of need.

General Korniloff has been appointed commander-in-chief of the forces in Galicia. A further retreat was necessarily made by the Russians in Eastern Galicia, because the troops did not show the necessary stability, and at points did not fulfil commands.

Roumanian Front.

Fighting began yesterday on the Roumanian front. The Austro-German troops were repulsed by the Roumanians.

British Front.

London, July 23.—The enemy artillery has shown great activity during the day at Lombardzde. Four enemy aerodromes were successfully bombed yesterday by our air planes. Bombs were also dropped upon important railway junction, causing a great explosion.

The British government intends to adopt a policy of reprisals for the German air raids.

HE KIDNAPPED HIS VERY OWN CHILDREN

Prince George, July 21.—Judge Robertson, in the county court here, granted extradition papers to the State of California in the case of Henry Uyttenhove, a Belgian, who is charged with child stealing. Uyttenhove was divorced in Arizona and is alleged to have stolen his two little daughters from the custody of his former wife. He came to Vanderhoof, B. C., a town on the G. T. P. 70 miles west of here, arriving about June 10th. The alleged theft took place June 3rd. Ex-judge P. E. Wilson is acting for Uyttenhove and has been given leave to bring habeas corpus proceedings. W. P. Ogilvie is appearing for the State of California.

Escaped From California.

Considerable amusement is furnished by a report of Uyttenhove's escape from California, which appeared in the Los Angeles Times, which states that he got off the train at Prince George, then went by a logging road into the wilderness a hundred miles north, when he was caught by the Canadian police. As a matter of fact, he got off at Vanderhoof on the main line of the G. T. P. and was apprehended there.

UNITY

Lord Robert Cecil has announced in the British Parliament that the Ministry has informed the Russian Government of its willingness to enter into a discussion looking to a possible revision of the war aims of the Entente Allies. Readiness to consider every change in the situation cannot fail to strengthen the feeling of unity, says the Toronto Globe, among nations fighting in a common cause. So long as it is made clear and emphatic that no proposal will be considered that would leave Germany in a position to again assail the peace of the world, full and free discussion should receive every encouragement. Not only the situation of any of the Allied Governments may change at any time, but the outlook and the vision of a people may promote new aims. New objective points may supersede those once thought ultimate and final. Russia has herself undergone a sociological transformation that has given her people a broader horizon. National achievements are seen in altered perspective. The essentials of a few years ago may seem of little account and new avenues of advancement may be opened.

Changes of a similar nature though less striking have been taking place in the popular outlook of other allied nations. It is essential to a proper understanding that frequent discussions be held. The determination to win the war must never change nor waver, and it will be best sustained by a continuous interchange of views and opinions. The suggested policy of frequent conferences cannot be allowed to interfere with military activity. In suppressing the menace of civilization, there is no room for discussion. The duty is clear, and the way has been determined by outside aggression. But the nations united by a common menace and co-operating in a common cause can best promote that cause by a perfect and continuous understanding. There has been in some quarters a fear of free discussion regarding the outlook and the aims of the nations fighting in the cause of liberty. Some thought

a spirit of compromise might grow out of such conferences. This is without foundation. Republics and monarchies can unite in a cause that greatly transcends all questions of governmental forms or political organizations—the cause of justice.

NOTES AND COMMENTS

One of the allies on the Entente side, of whom little has been heard of lately, is Hussain the First, "King of the Hejas," former Grand Sheriff of Mecca and the most powerful Prince of Western and Central Arabia. About a year ago, the Turkish forces in Arabia were defeated by this Arab chief, and the suzerainty of the Turk decisively thrown off. Germany's hopes of a "Holy War" being started by the Moslems against the Entente have come to nothing. Even the Emperor William turning Mohammedan failed to appeal to the true followers of the Prophet.

The peculiar situation of soldiers in the trenches holding a meeting in the face of the enemy to discuss whether or not they will obey orders, would be laughable, were it not tragic. As a result of their deliberations, the enemy took the advantage to break through, taking a few thousand prisoners. It is to be hoped that the Extremists who were confabulating were among the prisoners. They will doubtless by this time have learnt the advisability of obeying orders.

"The peace Germany desires to conclude is that of a victor and it is the Allies who must hereafter make overtures to end the war." To this statement of the new German Chancellor, there can be but one answer. And the overtures which the Allies can only make are only to be found in a continuance of their offensive. Germany's desires and those of the Allies are still at variance, and apparently cannot be reconciled until the Central Empires are decisively and forever defeated.

sociation out of the calamity of war are considered natural because Mother gets them, and in Quebec it is no disgrace to speak treason because the Government is sympathetic of obedient.

From such a combination the ordinary citizens of Canada have little to expect, and from the C.P.R. the G.T.P. will get nothing in the line of government work or war business. All money expended by the Government of Canada will so far as possible be diverted to the C.P.R. or members of the Canadian Manufacturers' Association.

Arising out of the exigencies of war and the requirements of the Imperial Government an Imperial Munitions Board for Canada had to be appointed, of which Sir Joseph Flavelle, of bacon fame, and doubtless a member of the Canadian Manufacturers' Association, is chairman, and of course the C.P.R. had to be considered. The British Columbia representatives of the ship building end of that board are Mr. Buchart and Captain Troup. Both of these men are very closely associated with the C.P.R. Mr. Buchart in a business way and Captain Troup has been in its employ for many years. Consequently, all shipbuilding contracts for the Im-

WATER ACT, 1914.

BEFORE THE BOARD OF INVESTIGATION

In the Matter of all Streams in the Hazelton and Fort Fraser Water Districts.

A MEETING of the Board of Investigation will be held at the Court-house at Hazelton on Monday, the 23rd day of July, 1917, at 10 o'clock in the forenoon.

In the Matter of all Streams in the Prince Rupert Water District.

A meeting of the Board of Investigation will be held at the Court-house at Prince Rupert on Wednesday, the 25th day of July, 1917, at 10 o'clock in the forenoon.

At these meetings all statements of claim to water privileges under Acts passed before the 12th day of March, 1909, on any of these streams, all objections thereto, and the plans prepared for the use of the said Board, will then be open for inspection.

All persons interested are entitled to examine these, and to file objections thereto in writing if they deem fit.

Objections will be heard forthwith if the party objected to has received sufficient notice of the objection.

The Board at the said meetings will hear the claimants, will determine the quantity of water which may be used under each record and the further works which are necessary for such use, and will set dates for the filing of plans of such works and for the commencement and completion of such works.

And whereas there may be persons who before the 12th day of March, 1909, were holders of water records on the said streams and yet have not filed statements of their claims with the Board of Investigation, such persons are required to do, on or before the 15th day of July, 1917, a statement, as required by section 254 of the "Water Act, 1914." The forms (No. 50 for irrigation and No. 51 for other purposes) may be obtained from any Government Agent in the Province.

The claims of riparian proprietors who have filed, as required by section 6 of the "Water Act, 1914," statements of claim to waters of any of the said streams will be heard at the same times and places.

DATED AT VICTORIA, B.C., THIS 7TH DAY OF JUNE, 1917.

For the Board of Investigation,
J. F. ARMSTRONG,
Chairman.

EALTHIEST ONE IN THE FAMILY

Sign Of Drosy And Kidney Trouble
Since Taking "FRUIT-A-TIVES"

HATTIE WARREN

Port Robinson, Ont., July 8th, 1915.
"We have used "Fruit-a-tives" in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Drosy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try "Fruit-a-tives". She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her health began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for "Fruit-a-tives" and would never be without them."

HUGH MCLEAN,
per Philip Chesley, Agent.THE PRINCE RUPERT
SHIPBUILDING PLANT

(Continued from Page two.)

perial Munitions Board have been, and probably will be, let in Vancouver, Victoria and New Westminster, the Pacific headquarters of the C. P. R., and all freight business connected with this industry logically should go to the C. P. R., as its rightful perquisite. Although the Prince Rupert shipbuilding plant could turn out half a dozen ships a year, yet that is a mere trifle and will not win or lose the war any way, but if all the business is confined to the south it will help very materially to build up Vancouver and the C. P. R. at the expense of Prince Rupert and the G. T. P.

These public spirited, all powerful organizations if called upon could promptly hold up their left hands (I believe Sir Joseph is now doing so) and avow that their dealings are clean, for they are careful not to let their left hand know what their right hand doeth. The visible is very nicely polished over with patriotic whitewash and ostensible public service to be seen of men and the bad spots are plastered up with excuse putty. They tell us that it costs too much to send steel to Prince Rupert, being so far from the source of supply. But Rupert has the same terminal rate as Vancouver. The only difference being that the G. T. P. would get the freight instead of the C. P. R., which is horrible to contemplate. They also tell us, that is the Imperial Munitions Board, that we have no fir here and that the expense might be a little greater. We reply that we have much better than fir in yellow cedar, and that the cost of producing the same ship in Prince Rupert, even though we have to bring in the fir, is about 10 per cent. less than in any Vancouver plant. Then they are driven to argue that the cost of inspection would be greater. The creators of such vital arguments surely deserve knighthood, or a night-cap. To the people of Prince Rupert it looks ridiculous and perverse, but we wonder if the people of Canada will wake up to the fact that it is serious. The Prince Rupert district has recruited upwards of 2,000 men and her population now is small. We have been loyal. We have borne shameful discrimination and designed isolation with patience, but we are now satisfied that patience is no longer a virtue and that true patriotism may draw a two-edged sword, one against Prussianism and the other against dictator rule and graft at home. They are equally ugly, frightful and merciless and should be met with the same weapons.

There can be no answer to the facts. The British Empire needs ships, wood or steel. The Prince Rupert plant could have turned out twenty since the war started. It has been idle. This fact has been known to the Government of Canada and in the last analysis that government must be held responsible. Let the Government explain why the Empire's work has not been done. Why this superb plant stands a great empty monument to its weakness and incompetence, or to its treasonable indifference, in times when every ship means so much. Truly, governments have become the despair of the people. We do not believe in Germany's government, and we are not satisfied with our own. Surely the honest, serious-thinking people of Canada will see that this condition of affairs is not merely a local calamity, but a matter of the utmost importance to us all. How can we be optimistic, enthusiastic or proud of our country under such treatment and conditions, while this great empty ship-shed stands a monument to dead patriotism and the waves hisp and the breezes whisper "shame."—W. E. WILLIAMS.

JOAN OF ARC

At the Westholme Theatre tomorrow night there will be shown the great masterpiece of photoplays, entitled "Joan the Woman."

This play is based upon the story of Joan of Arc, commonly known among her people as La Pucelle. Of all the stories in history, there is hardly one which is more pathetic. France, the beautiful, was overrun at that time by the English troops. The disunion among the French themselves had led to their defeat time and again until they got the habit of being defeated on the field. They expected nothing else. Joan, the Maid of Orleans, raised the drooping spirits of her compatriots, and from defeat in battle with their oppressors led them to victory.

Her capture by her enemies, and her mockery of a trial, which lasted many days are vividly portrayed in these films. The bench of bishops which tried her could not in reason find her guilty of any of the charges they brought against her, but as she was dangerous to the hold of England on France, she had to be got out of the way. They burnt her at the stake. By her death, her fame spread abroad and was the means of uniting all France again and imbuing them with the spirit of victory.

This great play is in eleven acts and is one of the finest that has ever been staged.

Tonight, the play to be shown is "Lost and Won," which is a fine one of its kind. Marie Doro is the star, and she has won for herself fame among the patrons of the movies. There will also be a Topical Budget.
