BOMBARDMENT IN FLANDERS CONTINUES

TRENCH RAIDS ON BRITISH FRONT --- GERMAN ATTACKS REPULSED BY FRENCH

OFFICIAL SILENCE REGARDING OPERATIONS IN FLANDERS

GERMANS NOW ASTRIDE LENS-BETHUNE ROAD AND WITHIN REACH OF LAST GERMAN DEFENCES OF LENS—SOUND OF ARTILLERY HEARD IN ENGLAND TRENCH RAIDS CONTINUE

(Special to The Daily News.)
London, August 9.—An air of expectancy for big things prevailed in London today. Slowly but surely the grip on Lens, the great coal centre of France, is tightening. The Canadian troops are now astride the Lens-Bethune road and are within striking distance of the positions on which the enemy will have to make his last stand to hold his present line. The official silence regarding operations in Flanders during the last twenty-four hours is regarded as probably holding the greatest significance. The roar of the big guns firing against the German lines is distinctly heard within a few miles of London.

The German Fleet.
Speculation has been revived in London as to whether the German fleet may not be planning another dash into the North Sea. The frequent appearance of small German vessels far from their base has been reported.

Trench Raids.
The British successfully raided the German lines near Lombaert, and also gained ground west of Bixchoote. In the vicinity of Roex and Oppy, east of Arras, the enemy raiding parties were repulsed. British shells bombed the railroad tracks several miles behind the German lines and derailed two trains.

French Front.
Paris, August 9.—The troops of the German Crown Prince last night launched attacks on the French positions east of Vauxaillon, and west of the Californie Plateau in the Aisne region. Both attacks were easily repulsed. German raids north of St. Mihiel in the Verdun sector and in Upper Alsace were checked by artillery fire. On the greater part of the Aisne front, mutual artillery fire is in progress.

Berlin Report.
Berlin, August 9.—The British after a bombardment by artillery of dreadful intensity, moved forward from Nieuport on the coastal sector of the Belgian front, but were driven back after a hand fighting. Artillery activity increased in Flanders during the night.

To Free Austria.
Stockholm, August 9.—The Emperor Charles is eager to free Austria from military and economic dependence upon Germany. The emperor has set his heart upon a reconciliation with the United States. There is a strong German feeling in the Dual Monarchy.

Russian Front.
Petrograd, August 9.—General Hoff holds that Russia will now surrender, and believes that if the country ever concludes a dishonorable peace, it will become a German colony. The southeastern frontier in

Galicja, the Russians drove the Austro-Germans from two villages, capturing heights and over 300 prisoners. To the south, between Kimpolung and Mount Limpolu, the Russians and Roumanians ran short of ammunition. They bayoneted and stoned the invaders, who captured two heights.

Serbia's Rights.
London, August 9.—Addressing a notable gathering at a lunch in honor of Premier Pashitch, of Serbia, Lloyd George made it clear that the independence of Serbia would be one of Britain's demands which must be met before peace is possible.

REASSEMBLY OF IRISH HOME RULE CONVENTION

(Special to The Daily News.)
Dublin, August 9.—The Irish Home Rule Convention reassembled here today in Trinity College. Great importance is attached to an interview of Sir Horace Plunkett, chairman of the convention, with the King, thus indicating the Royal interest in the proceedings. Mr. Sinclair, of Lisburn, one of the leading Ulster Unionists, strongly favors the home rule settlement including all Ireland.

PUBLIC INSPECTION OF WAR VETERANS' ROOMS

The club rooms of the Great War Veterans' Association were open to the public on Tuesday afternoon and a goodly number of visitors took advantage of the occasion to be present. Tea was served in the rooms downstairs, and the tables were thronged all afternoon. There were many raffles, which were well patronized and after all expenses are met the sum of \$89.00 remains for the funds of the association.

The committee of the I. O. D. E. in whose hands were all the arrangements for the opening of the rooms, wish to thank all those who so ably assisted at the function, and also to particularly thank those who, unsolicited, contributed cakes, etc., for the tables.

EXCHANGE OF CANADIAN PRISONERS OF WAR

London, Aug. 7.—The Canadian Press understands the new arrangements between the British and German Governments concerning the return of prisoners is unlikely to affect Canadian prisoners for some time at least. There will be many prisoners from English sources, such as those taken at Mons, who will receive consideration first. Therefore, although many Canadians have been in captivity almost a couple of years, they cannot be dealt with for some time.

W. P. HINTON IS G. T. P. GENERAL MANAGER

(Special to The Daily News.)
Montreal, August 9.—Mr. Morley Donaldson, vice-president and general manager of the Grand Trunk Pacific Railway, who has been absent from Winnipeg by reason of illness during the last year, has resigned. Mr. W. P. Hinton, traffic manager of the G. T. P. and the National Transcontinental, with headquarters in Winnipeg, has been appointed to succeed him.

Welcome News.
The above will be very welcome news to the citizens of Prince Rupert and of the West generally. Mr. Hinton is one of the younger men of the G. T. P. and he has an abiding faith in the territory tributary to the Grand Trunk Pacific road. He is aggressive in his policy, and with the confidence he has in the territory his road will serve, big things may be looked for.

SENATOR ROOT ON THE RUSSIAN AIMS

(Special to The Daily News.)
Washington, August 9.—Senator Root, who headed the United States Mission to Russia, which has just returned from Europe, praises the democratic aims of Russia. The Mission is greatly encouraged over the outlook. Assurances from the United States would go a long way to help the Russians in their struggle for the principles of democracy. The Commission will report their findings to the President.

WINNIPEG CONVENTION SOLID FOR LAURIER

(Special to The Daily News.)
Winnipeg, August 9.—Nearly all the minor questions have been disposed of at the Liberal convention now being held here. The "win the war" policy on which all the Western Liberals will unite is the matter on which the convention is now working towards a solution. The committee is fully alive to the seriousness of the situation in Canada brought about by the policy of "drift" which has been adopted by the present government.
A proposal to create Farm Banks under Government supervision has been discussed. Alberta and Saskatchewan in common with Manitoba and British Columbia are solid for Sir Wilfrid Laurier. "Win the war with Laurier" is the slogan. Sir Clifford Sifton's tour is claimed to have done him more harm than good.

BLAME'S AMERICANS FOR AUSTRIAN PLOT

Amsterdam, August 8.—Count von Reventlow, in an article in the Tages Zeitung referring to Arthur J. Balfour's speech in the House of Commons in which he spoke of the nationalities of Austria-Hungary determining their own course of future development tells his readers of widespread machinations of American agents in Austria-Hungary, started by former Ambassador Penfield long prior to the Austro-American breach.

The article says that Americans who left Austria soon after the breach talked confidently to neutrals of "impending complete political isolation of Germans in Austria, while in Hungary also a secret organization of Entente peoples and Americans soon would bear fruit."

Both predictions have been fulfilled, says Count von Reventlow, who darkly adds: "How long the former ambassador to Constantinople, Elkus, remained in Vienna, or whether he is still there, we do not know."

"Balfour's idea," says Count Reventlow, "is the dissolution of the Austro-Hungarian monarchy, which squares exactly with the aims of the Czech Poles. Such politics, however, will suffer shipwreck on the rocks of the free German Empire, which did not provoke the war, in contrast to the Entente nations fighting for conquest and enslavement."

WESTHOLME THEATRE

Arrested for a murder which he did not commit, an obscure and wholly innocuous character, "Buttysy Gallagher," one of the denizens of New York's great east side, finds himself notorious and a person of some distinction in the eyes of his acquaintances. Now being popular and famous among his contemporaries, instead of heretofore as of no account, the difference of the mental attitude which he adopts gives rise to some curious developments. His belief in himself, newly gained, enables him to carry out some wonderful adventures. The story is one of distinct originality, and is brimful of thrills and delightful satire. A Ford Monthly will also be displayed.

A local lady will demonstrate the wonderful cooking possibilities of the New Perfection Oil Cook Stove at our store, Third Avenue on the 10th of August. Smith & Mallett, Third Avenue.

Just arrived, 250 tons of lump coal. Phone 116—Albert & McCaffery.

HON MR. LEMIEUX IS INSISTENT FOR EARLY ELECTION

Severely Criticises Appointment of Sir George Perley as Canadian High Commissioner.

(Special to The Daily News.)
Ottawa, August 9.—The Hon. Mr. Lemieux, the late Postmaster-General, demands an election. In the course of a critical speech on the general policy of the Government, he said that when the country is expending nine hundred thousand dollars daily they should not be ashamed to say there was no such word as economy in the dictionary. He severely criticized the appointment of Sir George Perley as acting High Commissioner to London.

Sir Sam Objects.
Sir Sam Hughes also took a decided objection to the programme of the Government. He asserted that the Canadian offices in London were much too large and greatly overmanned.

War Costs.
The war has cost the Dominion more than six hundred million dollars up to July 20 of this year. The war expenses of Canada are now \$850,000 per day.

C. N. R.
During the discussion of the railway policy of the Government, the Hon. Mr. Graham declared that the C. N. R. stocks were valueless. It was proposed that the Government become liable for all the company's outstanding liabilities.

WANT PAY OF BRITISH SOLDIERS INCREASED

London, August 8.—The trade unions have taken up the question of soldiers' pay, which is now miserably compared with that of the Australians and Canadians. At a meeting of sixty members of Parliament it was urged that it be placed at three shillings daily. Lord Beresford declared that the pay of the navy had not been raised for sixty years. The sailors are included in the movement. A powerful committee has been appointed.

BIG BUSINESS

It has been alleged on many occasions that Canada is a democratic country. The continued reiteration of this statement, or of any statement for that matter, tends towards its acceptance as a fact by unthinking or superficial thinking people. The absence of a numerous titled aristocracy in the Dominion helps towards the belief in the existence of a democratic spirit in Canada. All the forms of a democratic government are apparent, but between the spirit and the form of democracy there is a wide difference.

Instead of a landed aristocracy with hereditary powers controlling virtually the government, as was the case in Great Britain with its House of Lords until recent date, who controlled legislation in their own interests, in Canada we seem to have an aristocracy of business interests exercising equally the same functions. The control of "Big Business" over a nation was never more exemplified than the control apparently exercised by these same interests over the present government at Ottawa. "Solicitude for the big concerns, for the trusts and combines, and for the malefactors of great wealth" has been apparent by all the dealings of the Borden Government.

Even in the "win the war" atmosphere which has been created by the Government during the past few weeks, has not been thick enough to conceal the attitude of the present administration.

It is but emphasized in the Income Tax Bill which is now in Parliament. Liberals have demanded that if there was to be conscription of flesh and blood, there should be also conscription of accumulated wealth. Such a demand of course was rank heresy and the Government endeavored to brush this demand aside. At last, however giving way to the accumulated pressure of public opinion for their own safety, this income tax bill was introduced. Naturally, con-

sidering its origin, it did not attempt to equalize, even in a small degree, the sacrifice as between the man who goes to the front and that of the rich man who stays at home. Instead, this new bill imposes a four per cent. tax, no matter what the profits are, and at the same time supersedes the excess war profits tax. This bill shows the control of "Big Business" over the Government only too plainly.

A letter by Mr. A. K. McLean, an Ottawa member, gives a warning, in view of the coming election. He says:

"Big business captured Canada in 1911; big business is out to consolidate its gains in 1917; big business won in 1911 through the treachery of professional Liberals; big business has opened its campaign of 1917 with the help of like treachery. In 1911 in Ontario the slogan was, 'no truck or trade with the Yankees,' and in Quebec, 'no help in Britain's wars.' In 1917 the slogan is 'win the war and slam Quebec.' The slogans in 1911 were a pulse to a passion and prejudice and against reason. But their objective was outside Canada. The slogan of 1917 is equally an appeal to passion and prejudice, and against reason, but its purpose is to set race against race and province against province, within Canada. Big business did not fight for the control of Canada in 1911 to prevent Canada from trading with the United States.

"The fight was solely for the profit and prestige of big business. The fight of 1917 is neither to win the war or to slam Quebec, but to tighten the strangle-hold that big business has had on Canada by control of its money and its food ever since 1911. Big business has strangled enterprise, has oppressed industry and has ground the faces of the poor in food prices.

"If Canada is to remain a democratic country, it will demand a government free from the control of the interests who at present have the power to have things manipulated for their exclusive benefit. The burden of the war must be borne by those best able to bear it."

ORE FOR LADYSMITH FROM TASOO, Q. C. I.

Victoria, August 8.—Four hundred tons of magnetite ore, consigned to the Ladysmith Smelting Corporation, Ltd., has been brought down from Tasoo, on the west coast of the Queen Charlotte Islands, by the steamer Gray, of the Victoria Whaling Company's fleet. This is only one of a number of ore shipments, brought from the Queen Charlotte Islands, about 1,500 tons having already been delivered at the Ladysmith plant. This ore has been assembled in readiness for the opening of the Ladysmith smelter, which is due to resume operations within the next few days under the control of the Ladysmith Smelting Corporation.

The magnetite ore from the Tasoo mine contains about two per cent. copper, and a large percentage of iron, and is considered excellent material for smelting purposes.

HON. JOHN OLIVER ON THE BORDEN GOV'T.

Victoria, August 7.—"The Borden Government has failed, and failed miserably, because they have as yet taken no steps to ascertain the real stock of the resources of the country and in consequence have neither utilized nor apportioned them in the direction from which the best results might be secured." The foregoing was one of the forcible observations of the Hon. John Oliver, Minister of Agriculture, when addressing the joint meeting of the Victoria Men's and Women's Liberal Associations in the Knights of Pythias Hall here.

Despicable Trick.

He deplored the tactics of Sir Robert Borden, who had literally told Sir Wilfrid Laurier that it was his duty to assist in the prosecution of an already formulated plan, which would have amounted to a consent on the part of the Liberal Leader to coerce his compatriots and rescue Sir Robert from the fruits of the Conservative campaign waged in Quebec at the last election.

The issue had been made one between "traitor" Laurier and the patriot Borden. It was a despic-

able attempt to cover up the misdeeds of the present administration. "I look upon Sir Wilfrid Laurier as one of the wisest men in the Dominion today," continued Hon. Mr. Oliver. "He weighs up very carefully what he says and does. He is in a better position than any man in public life to judge of the needs of the country from every point of view and I am quite prepared to stand by his judgment."

Sound Argument.

The minister asked his audience if they considered Laurier to be a traitor to the Empire when he reduced the tariff on raw materials in 1906 to the benefit of the British manufacturer, an action which had had the effect of binding the Dominion and the Motherland in closer ties than ever. Was he a traitor, when he conceived, with his wonderful breadth of vision, a Canadian navy? Was he not looking forward to the day when Canada could take her part with effect as occasion might demand?

This was the statesman who was to be branded to the ends of the earth as a traitor to his country if he did not permit himself to be coerced by Sir Robert Borden. And all this with a retentive memory of the days when the seeds were being planted in Quebec in 1911 against naval and military service for the Empire. The charge against Sir Wilfrid was the most far-fetched one that any public man could utter. "Sir Wilfrid Laurier's honesty, integrity and loyalty are beyond the slightest suspicion and I challenge any man to gainsay that," stoutly protested Hon. Mr. Oliver.

Where You Cannot Prophecy — PREPARE !

NOT even the best-informed man in government or business circles dares to attempt a prophecy of conditions after the war. We hope for the best—meantime wise men are preparing now for anything.

How ?

By regulating their expenditures according to their actual needs rather than by their prosperity—by husbanding the surplus—and by investing to the limit in Canadian War Loans that help so much to maintain present prosperity.

Money saved and loaned to Canada by Canadians is a two-fold safeguard for the future. The lenders will benefit directly from the excellent interest return and absolute security—and indirectly because the interest thus kept in Canada will help to keep business good after the war.

Canadian War Savings Certificates are issued in denominations of \$25, \$50 and \$100, repayable in three years. At the purchase prices of \$21.50, \$43 and \$86 respectively, they yield over 5% interest. Buy them at any Bank or Money Order Post Office.
