GOVERNMENT CRISIS IN GREAT BRITAIN

(Special to The Daily News).

London, August 14 .- The crisis which has been impending for the present government during the last few weeks is rapidly nearing. A general election is suggested as the only solution of the trouble which has arisen over the Stockholm peace conference. The Hon. Arthur Henderson will reply to the Premier's letter. He will probably demand that all letters between Great Britain and Russia during Saturday and Sun- be tabled with the view of showain prevented the use of ing that the Premier put a wrong large infantry forces in Flanders, interpretation on the Russian but the artillery activity over the telegram quoted in the letter

FUTURE WELFARE

Recognizing that "in more production between the Great Lakes and the Pacific lies the key to Canada's future welfare' the question of farm implements was one of the many which came up before the big Liberal conference at Winnipeg last week. Whether the Canadian farmers would have cheap implements, or costly ones was one of the issues of the last election which was to a great extent lost sight of in the folds of the Union Jack during that flag wagging campaign on the part of the present party in power at Ottawa. Even a person with the most superficial knowledge of the conditions as they exist in the western provvinces will realize the importance to the Dominion as a whole of having farm implements, tractors and engines placed on the free list. Canada wants increased production. The Government calls upon the farmer to produce, produce and yet produce. And at the same time soaks him on his machinery with "an intolerable customs tax." This of course, is a good policy, from the point of view of the Canadian Manufacturers' Association.

Canada's "infant industries" are of course, mostly situated east of the Great Lakes, and, judging from the attitude of the Manufacturers' Association are not yet showing any signs of precocity, let alone adolescence. They still require to be spoon fed and suckled. And Canada as a whole has to provide the milk. It is beginning to be realized throughout the Dominion that weaning time is about due; so that Mother Canada may regain her full economic strength.

Still greater and increased production in all branches of activity in the development of the natural resources of this great Dominion cannot fail to be the outcome of the immediate succeeding years, and to that end, it is only logical that the implements and agencies of production should reach the producer as cheapty as pos-

Another of the important matters which engaged the ata tention of the members of the Winnipeg meeting was the

matter of British preference. It was advocated that a preferential advantage be given to British imports of fifty per cent. of the general tariff. Only a year or so ago, the alleged Imperialists at Ottawa imposed an increased duty on certain goods of British origin, presumably at the request and in response to the desires of the ests." This imposition of nev obstacles on the export trade of Great Britain at a time when British trade meant so much alliance was, of course, dicopponents of this policy, Sir Wilfrid Laurier and his followers are traitors.

The convention dealt with many other matters of prime national importance and has contributed a real national policy of constructive merit. er action of more far-reaching importance than any plan yet government. RETURNED SOLDIERS AND WASTE OF FOOD

Victoria, August 10 .- The provincial convention of the Great War Veterans' Association concluded its deliberations here this week. Among the resolutions June 19th, 1917. passed the following is noted:-

"Whereas we are assured by the Dominion of Canada that it is of the greatest importance for the safety of the country during the war that the greatest economy sumption and care of our food produce, and

"Whereas it has been proved by he testimony before the Fisheries moval of timber. and destruction of fish is taking place, in so far that all fish other than salmon and halibut are thrown away and destroyed when arrier, 50 cents per month. caught, and that the bulk of the fish so destroyed is greater in number and weight than the fish

"Therefore be it resolved that the Dominion Government be rejuested to take such action immediately as may be necessary to prevent such waste so that the discarded fish may be saved to provide an economical food for the people and that said industry e nationalized so as to furnish employment to returned soldiers.

"It is further resolved that in the interests of the industry that the Government take over by purhase or otherwise of a cold stor-

President Duggan declared that the Canadian cold storage system was the greatest curse of the country and should be taken over immediately by the Government. thed He suggested in this regard that returned soldiers could very well take their part in the fishing industry by filling billets from the actual fishing operations itself to the cannery and storage plants. The returned soldiers could do a great deal to help in the fifty

Save the Food and Serve the Empire!

The Average Canadian Family Wastes Enough to Feed a Soldier

"The Kitchen must help as well as the Workshop and the Trenches" Lloyd George.

INTELLIGENT economy in the kitchen can do much to prevent the threatened

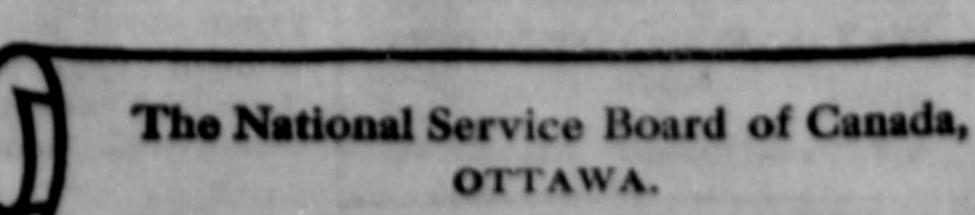

world famine—can counteract the effect of high prices and can replace growing debt with systematic saving.

Careful investigations show that before the war the average British family wasted 25% of their food—and we Canadians were even more extravagant.

This waste is not in a few big things, but in many little ones, each, we used to think, too small to bother about—such as careless peeling of vegetables and fruit—failure to make good use of dripping and "leftovers"-and such others as will occur to every thrifty housekeeper.

For the Empire's sake as well as your own, hunt up and cut out these leaks! You'll be helping to relieve the food shortage—saving your own money—and putting yourself in a position to buy Canadian War Savings Certificates and help win the war.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post-Offices and Banks, thus yielding over 5% Interest. Should you need it, you can get your money back at any time.
