ALLIES SMASHING THEIR WAY FORWARD -- PROHIBITION BILL IN PARLIAMENT

ALLIED DRIVE RESUMED IN FLANDERS

Progress is Made Along a
Front—French Charge
across Steenbeke River—
Lens is Dominated.

(Special to The Daily News.)

London, August 17.—The forces of the Entente at daybreak yesterday began another drive against the troops of the Crown prince Rupprecht of Bavaria along a wide front, from a point opposite the Polygon Wood east to the left of the French position on Northward. At the first onslaught, the French troops on their right flank charged across the Steenbeke river, while at the same time the left wing pushed forward correspondingly. The Germans still hold the positions dominating Lens. These are the facts representing the progress from the war zone of a new offensive, as given out in official reports.

French Front.

Paris, August 17.—The French in Belgium, attacking in conjunction with the British on both sides of the road between Steenstraete and Dixmude, captured all their objectives. The French troops carried a daring attack on the Aisne, capturing German trenches on a front of one kilometre. Four counter attacks were repulsed.

Raids on Venice.

Venice, August 17.—Four persons were killed and twenty-seven injured when Austrian aeroplanes raided Venice Tuesday. A hospital was struck with bombs, patients being killed and 21 injured.

Austrian Report.

Vienna, August 17.—Four tons of bombs were dropped by aeroplanes on Tuesday on the Marienarsenal at Venice, causing a number of conflagrations.

GOOD PROGRESS AT SEAL COVE SAWMILL

Just around the corner, on Shawatlans Passage, one hundred and sixty feet away from the Canadian Fish & Cold Storage Company's plant at Seal Cove, lies the site of the Prince Rupert Lumber Company's new sawmill. For the purpose intended, the site chosen is one which will be hard to beat. It covers about eighteen acres of land and water. The levelling operations on land are nearly completed, and the heavy frame timbers of the mill are in course of erection.

When this sawmill is completed Prince Rupert will possess one of the most modern and up-to-date sawmills on the Pacific coast. Running across the entire plant, will be a thirty-ton travelling crane, at right angles to which are the different monorails. This travelling crane will act as a transfer from one monorail to the other.

This monorail system will be a great labor saver. It will handle the lumber from the time it leaves the mill until it is loaded on the cars for shipment, and at a minimum cost, besides which, it makes possible the storage of a large quantity of lumber on a small ground space.

In addition to the sawmill, there will be a shingle mill and a lath mill. Four dry kilns will be erected at the start, it being the company's intention to thoroughly dry all lumber turned out. The sawmill itself will be 50 by 250 feet in two storeys. It will be equipped with the most modern machinery, including a ten-foot band saw. The forty-foot air lift trimmer carries twenty-one saws. The shingle mill will be 32 by 150 feet, in two storeys, and will carry six machines, with an output of 150,000 shingles per day. Both the sawmill and the shingle mill are so arranged that while they are apparently built together, as one unit, yet each may be operated entirely independent of the other.

It is the intention of the company when foreign trade develops to build a wharf from which ocean going vessels may load. There is deep water facing Shawatlans sufficient to float large steamers. Logging operations are now in progress to ensure a supply of logs when the mill is completed, which, judging from the rate of progress now evidenced, will not be behind time.

BIG ACCUMULATION OF FOODSTUFFS

(Special to The Daily News.)

Ottawa, Aug. 17.—The monthly report of the high cost of living commissioner shows that there is a great accumulation of butter, eggs, cheese and beef in eastern Canada. About three million pounds of bacon are being held in Quebec, and about the same amount in Ontario. More than half the ham in Canada, this report shows as being held in Ontario. Of beef, Ontario holds two million pounds, while one million pounds are in Quebec.

STOCKHOLM CONFERENCE

(Special to The Daily News.)

London, August 17.—Kerensky, Premier of new Russia, thinks that good might come out of the Stockholm Socialist conference, but he would have liked to have seen it earlier.

What Berlin Thinks.

Berlin, August 17.—The refusal of the Entente powers to grant passports to their delegates to the Stockholm Conference shows that Great Britain and the United States are determined upon Germany's destruction.

PREPARING IN GREAT BRITAIN FOR NATIONAL BABY WEEK.—Scene at the local maternity centre at Westcliffe on Sea, England, where over 900 babies have been brought up since it was opened, the mortality being the lowest on record. National baby week was decided upon in Great Britain to emphasize and encourage the great national campaign in the Old Country to help the people and the nation by scientifically promoting the welfare of British babies.

FOOD SITUATION IN BRITAIN IS BETTER

(Special to The Daily News.)

London, August 17.—The Premier told the House of Commons yesterday that the stock of wheat now in hand in Great Britain is sixteen million bushels above that of last year. "The food position in Great Britain is better than for many years," said Mr. Lloyd George. The views of the Allies are unaltered, and they regard the Pope's conditions as impossible. The Pontiff's message to the belligerents cannot be regarded with the expectation of settlement while German militarism remains dominant.

VAGRANCY

Yesterday Indian Constable Louth of Metlakatla brought over William J. Robinson, an Indian, charged with vagrancy. The cause of the charge was that he had been giving a demonstration on the public thoroughfare of how to beat his wife. Robinson was assessed the costs of prosecution and bound over to keep the peace. The case was disposed of by Indian Agent Mr. C. C. Perry.

CONSTRUCTION OF NEW FISH PACKING PLANT

On the other side of the cold storage plant at Seal Cove, preliminary operations are being engaged in for the construction of the new fish packing plant. Holes have been dug on the foreshore for the erection of the concrete piers for the wharf on which will be built the buildings of this company. Supplies have been purchased, such as piling, lumber and cement, etc., for the construction of this plant, and its construction will be vigorously prosecuted.

Seal Cove is one of the busiest parts of the city at the present moment, and these two additional industrial plants, when in operation, will provide steady employment for many men. This will mean that a greater demand for houses will be felt at this end of the town in the very near future.

Fish arrivals were fairly heavy yesterday, the Onah bringing in 7,000 lbs. halibut; Unity, 3,000; Ringleader, 6,000; Ha, 8,000; Murineag, 3,000; S. and S., 3,000; Connie W., 1,000; N. and S., 8,000; Carl F., 4,000, while the Stirratt brought in 13,000 lbs. for the Cold Storage Co. The price realized was around 14 1/2 cents.

Just arrived, 250 tons of lump coal. Phone 116—Albert & McCaffery.

RESOLUTION ON PROHIBITION OCTOBER FIRST

The Special Session of Parliament
Will Deal With Prohibition
Only—Soldiers' Votes
Half Bogus.

(Special to The Daily News.)

Victoria, August 17.—Since the adjourned session of the provincial Legislature resumed its sittings on Tuesday afternoon, its whole time has practically been taken up with the matter of the Prohibition Bill. The auditor's summary of all the soldier votes polled shows the total number as 8,505, of which the Commission recommends for rejection more than half, namely 4,697. The report of the Royal Commission which included this statement of the auditor was a long one.

Premier Brewster introduced a resolution yesterday, the purport of which would make the act effective on the 1st of October. There are many possibilities in the coming debate, however. The leader of the opposition is asking very many questions as there are apparently many things he is wanting to know. It is expected that this session will deal with the Prohibition Bill only.

A WONDERFUL JOURNEY

Mr. George M. Beirnes, of Hazelton, who left for his home on yesterday's train, is on the last lap of a very interesting and arduous journey. Mr. Beirnes left Hazelton about a month ago with a string of twenty-five pack horses which he took across country, a distance of 405 miles, to Telegraph Creek on the Stikine river. This stock was contracted for by Mrs. Hyland who does an extensive business in transporting big game hunters in that region. When Mr. Beirnes finished his business at "the Creek" he came down the Stikine a distance of 160 miles to Wrangell, Alaska, at which point he took ship for Prince Rupert.

Mr. Beirnes is firmly of the opinion that the big game hunter would be well advised in making his base at Hazelton or some other convenient point on the G. T. P., for he found in his progress over the old Ashcroft trail that the country was fairly alive with game—cariboo and moose, and even the dreaded grizzly bear came down from the hillsides and fraternized with his stock. George carried neither gun nor bluejean, but he brought every hoof through in safety.

THE OUTCOME

Whether the two political parties will be able to find common ground in the renewed negotiations now in progress at Ottawa will be determined in a few days. But of one thing we can be sure, and that is that a National Government will arise from a general election, if an election be held. Those extremists on both sides who are predicting a straight party Government as a result of the polling are singularly blind to the essential facts of the situation. There will be conscriptions and anti-conscriptionists, advocates and opponents of the nationalization of war industry, high protectionists and low tariff supporters and other diverse elements in each camp. The electors are going to vote more for the men and the policies they enunciate in their own constituencies than for organized partyism.

The present electorate is vastly different from the electorates to which political parties have appealed in the past. It has an entirely new point of view. And in no election that ever has been held in the Dominion have moral issues and ethical factors played the part they would play in a general appeal at this time. The new state of mind will be reflected in the type of men who will be sent to Parliament; it will supplant the practical politician with men of resolution and sound convictions who cannot be organized.

There are other possibilities which may affect the situation. If Laurier lost his hold on Quebec—which he certainly would if he supported conscription—the Bourassa school or, what is even worse, the Marsil school, might create in Parliament a solid bloc of sixty or more so-called Nationalists who would hold the balance of power unless there was a fusion of the various elements returned from the other provinces. This would mean a serious state of affairs. In the final analysis it would menace Confederation. These things should be noted by the political prophets who are glibly discussing the prospects of an election without regard to the conditions which have

arisen from the war situation.

Hon. A. B. Hudson, Attorney-General of Manitoba, who was chairman of the resolutions committee of the Winnipeg convention, regards the war resolution adopted by the gathering as the most comprehensive war policy promulgated so far. "It includes," he says, "conscription not merely for military purposes, but for all other purposes of the state in any way relating to the war—conscription of men, money and resources."

This is a fair interpretation of the resolution and it is not affected by the motion concerning Sir Wilfrid Laurier. That motion records the convention's admiration of the life and work of the Liberal chieftain and its appreciation of his desire to discharge his duty "as he sees it in the interests of all Canada." It also expresses the hope that his great ability may be utilized in reuniting the people of Canada in this crisis and "the carrying out of the platform laid down by the convention."

If Sir Wilfrid Laurier accepts the terms of this resolution he must stand for the conscription of which Attorney-General Hudson spoke. If not, his attitude cannot affect the course of the Western Liberals who are behind the war resolution. Their candidates will stand upon the platform adopted by the convention—the first complete, definite policy of National Service that has yet developed in Canada in relation to the war and comprehensive forward programme to solve the vital problems which will arise after the war.

The Convention's policy will be attacked in the general election, if one be held, from several sources. It will be assailed by every interest whose special privilege it challenges. It will be denounced by the Pork Barons and other war-penic parties because it demands the prohibition of profiteering even to the nationalization of their establishments. The stage is being set for their campaign now. Note the editorial columns of the newspapers which support the present government and observe the significant omission of any de-

mands for that "thorough national organization" Sir Robert Borden used to make speeches about, drastic measures against profiteering, increased pensions and the adequate taxation of superprofits. Clearly they will be against the candidate who favors compulsory military service as part of national organization such as exists in every other belligerent power and without which, it must be apparent, it would be hard to enforce conscription of any single kind. Every Canadian who desires his country to exert all its powers in the present crisis and who wants sound preparation for reconstruction after the war, should stand behind the platform of the Winnipeg Convention—Victoria Times.

You Can Make Excellent Cake With Fewer Eggs
Just use an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.
This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

LAND SETTLEMENT BY RETURNED SOLDIERS

Montreal, August 14.—According to the Gazette's correspondent in London, the report of the Empire Settlement Committee is not considered by emigration experts as a really definite solution of future problems, but is rather regarded as a useful collection of opinions on the subject.

One definite advance, the correspondent says, is the suggestion that the Imperial Government should not hesitate to pay the passage of ex-service men if the overseas lands want them.

Canadian and Australian officials in London are said to rather object to the proposed establishment of a central authority. Such officials regard the existing machinery as sufficient if adequate financial assistance is forth coming. The correspondent adds:

"From the report, it is evident that Canada and Australia will likely be the only serious competitors for emigration, and representatives here of both countries object to any system which will interfere with the liberty of the individual. They don't object to any farm settlement scheme here, as they believe that men who have agricultural training, and those who are inclined to go on the land will soon look overseas."

Save the Food and Serve the Empire!

The Average Canadian Family Wastes Enough to Feed a Soldier

"The Kitchen must help as well as the Workshop and the Trenches" Lloyd George.

INTELLIGENT economy in the kitchen can do much to prevent the threatened world famine—can counteract the effect of high prices—and can replace growing debt with systematic saving.

Careful investigations show that before the war the average British family wasted 25% of their food—and we Canadians were even more extravagant.

This waste is not in a few big things, but in many little ones, each, we used to think, too small to bother about—such as careless peeling of vegetables and fruit—failure to make good use of dripping and "left-overs"—and such others as will occur to every thrifty housekeeper.

For the Empire's sake as well as your own, hunt up and cut out these leaks! You'll be helping to relieve the food shortage—saving your own money—and putting yourself in a position to buy Canadian War Savings Certificates and help win the war.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post-Offices and Banks, thus yielding over 5% interest. Should you need it, you can get your money back at any time.

WEST HOLME THEATRE

Tonight there will be displayed at the Westholme Theatre a splendid dramatic photoplay, entitled "Dare-devil Kate." This is a story of a woman who begins by being bad, then she becomes good, after which she relapses into wickedness with redoubled energy, and when again she becomes good, she does so to stay. Virginia Pearson is the star actress in the title role. She says that to her mind, "Daredevil Kate" is a mixture of Cleopatra, Carmen and Cigarette, but with the human side more developed. From being a saloonkeeper in a small mining town, with its attendant roughness, Daredevil Kate arises to something greater. The manner of her progress is well worth seeing. In addition to this great drama, there will also be displayed a Gazette showing the latest world events, and a comedy.
