## PROHIBITION EFFECTIVE ON OCTOBER FIRST

### BILL PASSES SECOND READING IN PARLIAMENT --- BRITISH AEROPLANE ATTACKS

#### PROHIBITION BILL READ FOR SECOND TIME

Premier Says Parliament Has a Clear Mandate for This Legislation—Becomes Law 1st October.

(Special to The Daily News.)  
Victoria, August 18.—Prohibition becomes effective on the first of October. The measure has been given its second reading in the House and has passed through the committee stage without any change being made in its provisions. The only opposition has been voiced by Mr. Pooley, member for Esquimalt, who wants the agreement of the bill deferred to the New Year. The House has a clear mandate from the people for this legislation, says the Premier. The House may proceed today. It is expected that "wet" interests will work for exemption of beer and light wines from the provisions of the Prohibition Bill at the January session.

#### RUSSIA'S MILLIONS REQUIRE TRAINING

London, August 15.—The correspondent of The London Times at the headquarters of the Russian Seventh Army talked with General Korniloff on the eve of his departure to take over the supreme command. General Korniloff said:

"The first stage of the war is over. The second phase begins today."

The correspondent says the Russian Commander-in-Chief repudiates the possibility of the Russian surrendering. He holds that if Russia were to conclude a dishonorable peace to which the traitors have been driving her, she would become a German colony forever. The Germans would seize her foodstuffs, enroll her men and treat her as a conquered country. There could be no choice between the evil of war and the evil of surrender.

The new government must realize the necessity of inviting the Allies to help in reorganizing the railway service of Russia for warfare. If Germany should decide, as all signs indicated, to transfer her main pressure to the Russian front, it would be hopeless to rely on methods that availed against the inferior Austrian troops.

Russia is full of splendid fighting men. Ten millions have already been enrolled, but they are scarcely trained. They are too busy attending meetings instead of drill. These millions must be helped by British and French officers, as the Serbians, Greeks, Roumanians and Americans have been.

#### BRITISH NAVAL PLANES ATTACK ENEMY 'DROMES

German Counters Attacks Made Unsuccessfully—Russians Resist Hun Attacks—Lens in a Close Vice.

(Special to The Daily News.)  
London, August 18.—The Germans last night made two counter attacks against the new British positions near Loos. Their initial attack gained them a temporary success, but subsequently the British line was successfully re-established. The Canadians now hold Lens in a very close vice, and their possession of the coal city may be looked for any time.

#### Aeroplane Activity.

Many tons of explosives were dropped last night on the enemy aerodromes and railway stations by British naval planes. Several fires were observed at the railway station at Ostend, and on the Thourout railway. The Chistelles aerodromes were also extensively damaged, great bursts of flames being noticed.

#### French Front.

Paris, Aug. 18.—The Germans last night attacked the new positions gained by the French on the Steenbeke river in Belgium. All their counter attacks were successfully repulsed and the positions have been consolidated. Vigorous German attacks were made on the Aisne front, where the enemy assaults were beaten back with great losses.

#### Russian Front.

Petrograd, August 18.—General Korniloff, Commander-in-chief of the Russian armies, arrived here today for a conference with Premier Kerensky. During an interview, General Korniloff said that in consequence of the energetic measures he had taken, the morale and the fighting capacity of the Russian troops had been considerably strengthened. He hoped for the complete regeneration of the Russian forces.

On the Bukovina front, between the Dniester and Moldavia, the Austro-German attacks were everywhere repulsed, except at a single point south of the Vernia, where a portion of the mountain trenches were lost.

#### Berlin Report.

Berlin, August 18.—The town of Langemarck which was taken by the British yesterday has been recaptured by the German troops.

#### War Prisoner Released.

London, August 18.—Private A. Nelson, of Winnipeg, who has spent the last two years in captivity in Germany, has now arrived in England.

#### Prisoners Taken.

The total number of prisoners captured by the Canadians in the recent action around Lens amounts to over nineteen hundred.

#### Concessions to Poland.

It is learned on good authority that concessions will be made in Poland by Germany in the immediate future, but they will be conditional upon the approval of Austria.

#### NEW JOBS

(Special to The Daily News.)  
Berlin, August 18.—The appointment of von Bernstorff as German ambassador to Constantinople is forecasted. Count Tarnowsky, who was never officially received by the American Government as ambassador from Austria-Hungary, will soon become Minister to Sweden from Austria-Hungary.

Upper picture, Mr. F. B. McCurdy, lower picture, Col. Hugh Clark, undersecretaries for Military and External Affairs, who will each receive a salary of \$5,000, after long delay by the Government.

#### PUBLIC DANCE ON MONDAY EVENING

The public dance which had been arranged for tonight in the St. Andrew's Hall, Second Avenue, has been postponed until Monday night. Dancing at 10 o'clock sharp. Westholme Orchestra. Refreshments. Tickets, gentlemen, \$1.00; ladies free. Everyone welcome.

The favorite household Coal is Ladysmith Wellington. Phone 15, Prince Rupert Coal Co.

### Western Liberals' Platform

The following is the resolution which was moved by Dr. D. B. Neely, Humbolt, Sask., seconded by Capt. C. S. Reilly, Calgary, and carried at the Winnipeg Liberal Convention:—  
"In this war for the defence of democratic civilization against military despotism, the conditions call for the putting forth by each allied belligerent of its full power as the only assurance of victory; in times of peril the entire resources of the country, moral and material, man power and wealth are justly disposable by the state for the preservation of its national liberties.  
"The imperative duty of the people of Canada today in regard to the war is its continued and vigorous prosecution;  
"1. By conferring with the British government for the purpose of definitely ascertaining the scope and character of all the service that can best be rendered by Canada in the conduct of the war;  
"2. By the maintenance in unimpaired strength at the front of our fighting forces and the taking of all steps necessary to secure required reinforcements for the Canadian contingent.  
"3. By organizing the production of our other contributions to the war such as food, munitions, and other war necessities, upon lines of the greatest efficiency;  
"4. By the complete extinction of profiteering in all business having to do with munitions and the necessities of life, if necessary by the nationalization of these industries or by the adaptation of the British system of controlled establishments;  
"5. By the recovery for the public treasury of undue profits obtained since the beginning of the war by the exploitation of the interests of the people for the present requirements of the state.  
"6. By the application of a combined system of sharply graduated taxation upon incomes and excess profits which shall insure that every citizen shall bear his or her share of the war burden according to his or her means.  
"7. By thoroughly organizing the nation and carrying out this programme by whatever means may be necessary for its accomplishment."

#### DENOUNCES ALLIANCE WITH NATIONALISTS

(Special to The Daily News.)

Ottawa, August 18.—Sir Robert Borden denies emphatically any collusion whatever of his Government with the Nationalists. He says that their attitude is unpatriotic, and that the first duty of his supporters is to assist in defeating them.

The names of the bondholders of the Canadian Northern are demanded in the House. The amendment of the Hon. G. P. Graham to foreclose is defeated. The Hon. Arthur Meighan received a new appellation yesterday when Mr. Lemieux, ex-postmaster-general, called him the megaphone of Mackenzie and Mann.

It is reported that Lord Shaughnessy will support Sir Wilfrid Laurier, as he is in bitter antagonism to the purchase of the C. N. R. by the Government.

#### STEWART NOTES

Mr. George A. Clothier, district mining engineer, arrived to inspect mining properties in this section. Mr. Clothier formerly practiced as a mining engineer here and has an extensive knowledge of the Portland Canal district.

Mr. W. J. Palmer, of New York, accompanied by his son, a mining engineer, examined the Tonkin property on Fish Creek.

Mr. Frank Martin, road foreman for the southern end of the Atlin District, accompanied by Mrs. Martin, who is visiting with friends, is making a round of inspection of the roads and trails in this vicinity.

#### NOTICE

A special meeting of Union men will be held in the Carpenters' Hall on Monday evening first at 8 o'clock sharp. Business: to choose delegates to attend the Labor convention in Vancouver on Labor Day.

#### CATHEDRAL OF ST. QUENTIN IS NOW IN RUINS

German Wantonness Again Displayed in Blazing Villages and Towns Behind Their Lines in France.

(Special to The Daily News.)

London, August 18.—The beautiful old Cathedral in St. Quentin is today but a smoking mass of ruins, a duplicate of its sister martyred cathedral of Rheims. The old historic town of St. Quentin has been systematically destroyed, and beyond the cathedral is to be seen the smoke of the numerous villages curling upwards into the sky.

The fury of the German destructiveness is again asserting itself, and it is considered in some usually well informed quarters that this new outburst of destruction is the prelude to another strategic retirement of the German forces.

#### NATIVE SONS OF CANADA HAVE AN OPEN MEETING

Last evening in the St. Andrew's Hall, the regular monthly meeting of the society of the Native sons of Canada took place. The meeting was an open one and was well attended. Addresses were given by Mr. Fred Stork, Liberal candidate for this riding, and Mr. Geo. M. Hanson, United States Consul.

Mr. Fred Stork took "Canada" for his subject and gave a very interesting address on the development of the Dominion. He showed why from 1776 to 1867 the northern half of this North American continent from the 49th parallel development has not proceeded as fast as in the south, notwithstanding its greater richness in natural resources. "The people back in the East," said Mr. Stork, "know nothing whatever of Western Canada." These Western provinces are a revelation to them when they come on a visit West. As a Canadian, Mr. Stork was proud to be addressing his countrymen at such a gathering. He complimented the society in having Lieut.-Col. Cy Peck, D. S. O., and Lieut.-Col. S. P. Mordie, D. S. O., as its officers.

Mr. G. M. Hanson, who also addressed the meeting, said that no matter what his subject was, there was one thing that could not be got away from and that was the war. He touched delightfully upon the attitude of the different nations towards each other and how each one thought his own country the best. He dwelt upon the great similarity existing between Canadians and "Americans"—he did not altogether like the application "Americans" being applied to residents south of the line only, as Canada was also in America. Between peoples largely of the same race, and with the same ideals, he was for a closer union between the two peoples. While keeping clear of matters political, as he was bound to do, he could see the time coming when conditions between the two great nations of North America would be as free as those at present existing between the different provinces and between the various states of the Union. The addresses of both speakers were greatly appreciated by the meeting.

Just arrived, 250 tons of lump coal. Phone 116—Albert & McCaffery.

#### ROAR OF CANNON IS BEST ANSWER TO PEACE TALK

The Pope is Depressed Regarding Unfavorable Reception of His Appeal for Peace by Belligerents.

(Special to The Daily News.)

Rome, August 18.—The leading Italian newspapers are unanimous that the roar of cannon is the best answer to talk of peace. They urge renewed allied activity from Flanders to the Gulf of Trieste. The organ of the Vatican explains the note from the Pope. This newspaper declares that His Holiness does not urge the return to the status quo ante, as the return of Alsace and Lorraine to France and Trieste to Italy by the Central Empires is included in the papal programme.

It is reported that the Pope is greatly depressed over the general unfavorable reception accorded to his appeal for peace.

#### Too Favorable.

Amsterdam, August 18.—The Berlin Lokal Anzeiger thinks that the Pope's plan for peace would be much too favorable for the Allies.

#### TERRACE NEWS ITEMS

The Rev. Father McGrath arrived in the town on Wednesday's train from Prince Rupert. He is availing himself of the piscatorial delights of the district.

Miss Katherine Pillsbury, of Prince Rupert, was a visitor to town, arriving on Wednesday's train. She will spend a holiday at Lake Lakelse as the guest of Mrs. P. R. Backus.

Mr. G. A. McNichol spent a few days in town this week. Mrs. McNichol and family are spending the summer holidays in this place.

Mr. Arthur Spurr, of Prince Rupert, met a number of friends at the station on Wednesday. He was going on a business trip up the line.

A report was received in town of a gold and copper strike of some importance having been made at a point near Copper City about six miles from Terrace. Rumor has it that the ore carries high values. At time of writing further particulars were unavailable.

The Little sawmill is working to capacity, being unable to fulfill all the orders that are being received from the surrounding district. Logging operations are being carried on from the Little pre-emption to the southeast of the townsite.

Black bear are reported to be very numerous this season in the vicinity of Terrace. They appear to be harmless when left unmolested and are being seen in the berry patches along the banks of the river.

A much needed rain fell in Terrace and district on Saturday. This will mean thousands of dollars to the settlers in this vicinity.

**THE NEEDS OF THE WEST**

In the campaign for increased production which the present Government has been engaged in, since the world shortage of foodstuffs impressed this necessity upon the people of Canada, as upon peoples of other countries, there are many aids to this increase in production, which lie to the hand of the Government. So far but little aid has been accorded to the producer by this Government which is calling for more production. One of the greatest aids to production, and cheap production, and increased production, is that the implements and agencies of production should reach the producer as cheaply as possible. At the present moment there is a scarcity of labor in Canada and, therefore, every labor-saving device that can be utilized is of the utmost importance. In the farming communities a tractor and a gang plough of the latest pattern will do the same work as two or more of the older fashioned ploughs. Therefore, in times like these, with the whole world calling for the utmost the farmers can produce, the most modern labor-saving tractors and gang ploughs are necessary for the farmers.

Likewise on this coast, where the fishing industry is one of the chiefest in importance, it is necessary that the fisherman can equip himself with suitable gear in the pursuit of his calling as cheaply as possible. When the Royal Commission was here the other week, very strong evidence was placed before it as to the necessity of power boats for the fishermen. Gas boats are a necessity to the fisherman of this generation. And in order that the industry may be encouraged, there should be no impediment placed in the way of the proper equipment of the men who are responsible for the gathering of the harvests of the sea.

It is the same with the mining industry. Modern mining demands the extensive use of machinery of various kinds. The logging industry is in the same position. Where modern machinery will replace manpower, which is at a premium, it is in the interests of the na-

tion and of the world that such machinery be utilized.

Farming, fishing, logging and mining are four industries which are inseparable from the development of the West. These are the staple industries of Western Canada. It is to the advantage of Canada as a whole and of the Western provinces particularly, that these industries be prosecuted to their fullest extent. The demand for the product of these four industries was never greater than it is at the present time. The whole world is calling for food, in the shape of farm produce and fish. Lumber of all kinds was never in greater demand, and the production of mineral never in the world's history has been of greater importance.

In view of these considerations, therefore, it would be expected that every encouragement would be given to these industries, which are so vital to the welfare of the Dominion. The more particularly where such could be most easily given by the Government of the country. But in each case, these basic industries are handicapped by a customs tax, which constitutes an intolerable burden upon those most interested in the development of the natural resources of the country. There is a heavy duty levied upon the importation of farm implements, such as tractors and ploughs. The same exists as regards gasoline engines, fishing lines, cordage, swivels, and many other goods used in the fishing industry, while the machinery required for mining and logging have to bear an equal handicap. Were this duty levied for the purposes of revenue merely, the collection of this impost would be a minor consideration. But it is frankly a protective duty. That is, it protects the manufacturer at the expense of the consumer. It means that the producing provinces of the West are imposed upon to the extent of this customs duty for the benefit of the manufacturing provinces of the East.

These protective duties were not intended to act in this fashion. They were originally intended to protect the infant manufacturing industries from

**"The Poor Man's Potato"** has become the rich man's luxury. Whether at three dollars a bushel, or twenty-five cents a bushel, potatoes are not a complete food. Two or three **Shredded Wheat Biscuits** with milk furnish more real, body-building nutriment than a meal of potatoes or meat, are more easily digested and cost much less. **Shredded Wheat** is 100 per cent. whole wheat, nothing added and nothing taken away—gives mental vim and physical vigor for the hot days. Delicious for breakfast, or any meal, with sliced bananas, berries or other fruits, and milk. **Made in Canada.**

the fuller developed manufacturing industries competing from other countries. But now that the Canadian manufacturers are definitely established, and can compete on equal terms, particularly with the manufacturers of the United States, their goods are not sold in Canada much, if any, cheaper than their foreign competitors'. In addition to their ordinary manufacturing profit, they soak the Canadian consumer the amount of the duty as well. When it is remembered that in some cases, this duty is as much as 33 1-3 per cent., it will be understood why the manufacturers of Canada are so averse to any lowering of the present tariff.

A reduction in the present tariffs is one of the things which the Liberal convention pledged itself at Winnipeg last week. It was recognized as one

**CANCELLATION OF RESERVE**

NOTICE IS HEREBY GIVEN that the reserve existing over a small island in the harbor of Prince Rupert, known as Lot 5466, Range 5, Coast District, by reason of a notice appearing in the British Columbia Gazette of the 21st April, 1916, and dated 19th April, 1916, is cancelled for the purpose of making a sale of the said Lot to the Grand Trunk Pacific Development Company, Limited.

GEO. B. NADEN, Deputy Minister of Lands, Department of Lands, Victoria, B. C., 18th June, 1917. M. AUG. 20.

**LAND LEASE NOTICE**

SKENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE ISLANDS.

TAKE NOTICE that I, George McRae, of Skidegate, B. C., occupation engineer, intend to apply for permission to lease the following described lands:—

Commencing at a post planted at the northeast corner of T. L. Lot 835, Aliford Bay, Skidegate Inlet, thence west 25 chains, thence north 3 chains, thence 25 chains in an easterly and southerly direction following shore line, thence west 2 chains to point of commencement, containing 19 acres more or less. A 20. June 19th, 1917. GEORGE MCRAE.

of the fundamental factors contributing to cheap production. The whole world calls for the very utmost that can be produced in every line. The present Conservative Government have done nothing in the direction of helping the producer. Representing the manufacturers and the big interests this is the very last thing they would think about. Nevertheless, this is a legitimate demand, which concerns the well being of the Western provinces. If the Government refuses to take any action in the interests of the West, which they are supposed to represent, as well as the interests of the remainder of Canada, there is only one thing to do. That is to change the Government.

Every Canadian who has his own welfare and the welfare of the Dominion of Canada as a whole at heart will see to it that a Government is returned to Ottawa at the impending election which will have the interests of the Dominion as its first care, and not merely those of that section who are at present able to call the tune, for which the people of the West have got to pay the piper.

**LAND ACT**

SKENA LAND DISTRICT—DISTRICT OF COAST, RANGE 5.

TAKE NOTICE that the Grand Trunk Pacific Railway Company of Winnipeg, Manitoba, intends to apply for permission to lease the following described lands:—Commencing at a post planted at the most northerly point of Lot 507 at or about high water mark, thence northerly, easterly, southerly and westerly, following the sinuosities of the shore-line to a point of commencement, including all that foreshore between high-water and low-water. Dated July 20th, 1917. S.815 THE GRAND TRUNK PACIFIC RAILWAY CO., H. H. HANSARD, Solicitor.

**TIMBER SALE X 1018.**

Sealed tenders will be received by the Minister of Lands not later than noon on the 22nd day of September, 1917, for the purchase of Licence X 1018, to cut 6,833,000 feet of Spruce, Balsam and Hemlock on an area situated on Link Lake, Range 3, Coast District.

Three (3) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Prince Rupert, B. C. S22

**TIMBER SALE X 1019.**

Sealed tenders will be received by the Minister of Lands not later than noon on the 27th day of August, 1917, for the purchase of Licence X 1019, to cut 1,115,000 feet of Spruce, Balsam and Hemlock on an area adjoining Lot 505, Range 2, Coast District, situated on Kildala River.

Two (2) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Prince Rupert, B. C. A25

**MINERAL ACT**

(B. S. B. C. 1911).

Holly Fraction, Birch, Crocus Fraction, and Plum mineral claims situate in the Queen Charlotte District, located at or near Ikeda Bay, Queen Charlotte Islands, Province of British Columbia, lawfully held by Ikeda Mines Limited (Non Personal Liability).

TAKE NOTICE that I, John A. MacInnes, Solicitor for Ikeda Mines Limited (Non Personal Liability) Free Miner's Certificate No. 15485C intend, after the expiration of sixty days from the date hereof to apply on behalf of the said Company to the Mining Recorder of the said District for a Certificate of Improvements for each of the above claims for the purpose of obtaining crown grant thereof.

AND FURTHER TAKE NOTICE that action under Section 85 of the Mineral Act must be commenced before the issuance of such Certificate of Improvements.

Dated this 12th day of June, A.D. 1917. J. A. MACINNES, Solicitor for Ikeda Mines Limited (Non Personal Liability). S10.

**IN THE ESTATE OF CHRISTIE GIBSON (DECEASED)**

NOTICE IS HEREBY GIVEN that all persons having claim upon the Estate of the late Christie Gibson who died on or about the 8th day of November, A. D. 1916, while on active service overseas, are required to send to J. H. McMullin, Official Administrator for the county of Athol, on or before the 30th day of September, 1917, a full statement of their claims, or any security held by them, duly verified, and after that date the undersigned will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed with him.

DATED at Prince Rupert, B. C., this 12th day of July, A. D. 1917. J. H. McMULLIN, Official Administrator. S14

**You Can Make Excellent Cake With Fewer Eggs**

Just use an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

**CREAM LAYER CAKE**

Old Way New Way

- |                                       |                                       |
|---------------------------------------|---------------------------------------|
| 1 cup sugar                           | 1 cup sugar                           |
| 3/4 cup milk                          | 1 cup milk                            |
| 2 cups flour                          | 2 cups flour                          |
| 2 teaspoons Dr. Price's Baking Powder | 4 teaspoons Dr. Price's Baking Powder |
| 3 EGGS                                | 1 EGG                                 |
| 1/2 cup shortening                    | 2 tablespoons shortening              |
| 1 teaspoon flavoring                  | 1 teaspoon flavoring                  |

**Makes 1 Large 2-Layer Cake**

**DIRECTIONS**—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Dr. Price's Baking Powder together, two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

## GERMANS CAN TAP THE BRITISH WIRES

New York, Aug. 14.—A London despatch to The Sun says:—

The Germans in France have invented a new device which is automatically projected into the allied lines and grapples telegraph or telephone wires, establishing an electrical connection and enabling the Germans to tap passing messages regarding operations. Prisoners recently taken confirm stories previously told of how the German command obtained exact information of the hour set for attacks.

This new device probably is the most successful means of espionage invented by the Germans. Our soldiers in France have always been mystified by the ease with which the Germans identified new British regiments coming into the front line. When the newcomers arrived they were invariably greeted by placards erected over the trenches or by a hail from the enemy line calling them by name. This ability of the Germans to pick up the latest information undoubtedly came from the use of this hook-like arrangement which is thrown over our telegraph and telephone wires.

## COAL NOTICES

**DISTRICT OF COAST, Range 5.**

Take notice that I, Hugh McLean, intend to apply for a licence to prospect for coal and petroleum on the following described lands:—Commencing at a post planted one mile south of the southwest corner of N. McLean's No. 2 claim, being about one and a half miles north of the Beaver river, and three miles west of the Cedar river; thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains to the point of commencement, containing 640 acres, to be known as H. McLean's No. 6 claim. Located May 22nd, 1917.

Evening Petticoat and Camisole combined in pink crepe de chine with frills of net punctuated with posies.

## SUGAR LIKELY TO BE SCARCE IN CANADA

The abnormal conditions obtaining in Great Britain with regard to its supply of sugar are threatening to extend to the Western Hemisphere as well. In addition to the scarcity of shipping to bring the raw sugar to the refineries, "there is unquestionably a shortage that is proving a very great anxiety to the refiners, who have no assurance that they will be able to carry them over the remaining two months of active trading," according to the Canadian Grocer in its last issue. It says the sugar situation has reached a more acute stage than at any time since the war opened. With the canning season in full swing, and the encouragement being offered the public to go into canning on an unprecedented scale, this presents a very serious situation.

The combined stocks in the United States and Cuba, the Canadian Grocer continues, are 100,000 tons short of the 1916 crop and the British Government has still contracts calling for 200,000 tons, while in addition Argentine requires 50,000 tons to eke out a short crop.

The Cuban sugar handler is making the most of the market, feeding it only such quantity as will ensure the maintenance of a keen demand. Each increase in price has been met with a moderate offering only and experience has proved that there is nothing to be gained by waiting.

As sugar is urgently needed, the article concludes, there is every likelihood that still further advances are to be expected, while the possibility of an actual scarcity is one of the not so remote possibilities.

The Daily News delivered by carrier, 50 cents per month.

TENDERS will be received at the office of the District Engineer, Public Works Department, Prince Rupert, B. C., up to and including August 10th, 1917, for the purchase of the Government owned horse "FARMER."

This horse is slightly lame on its right fore foot, otherwise it is sound, gentle and in good condition, and will make a serviceable farm horse.

The animal can be seen on H. Du Verney's ranch, Kitwanga, B. C.

Dated at Prince Rupert, B. C., July 23rd, 1917. S. A. 4

## Navigable Waters Protection Act.

R. S. C. Chapter 115.

The Granby Consolidated Mining, Smelting and Power Company Limited hereby gives notice that it has, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of Prince Rupert, at Prince Rupert, a description of the site and plan of wharf and lumber mill, and other works proposed to be built in Spruce Bay, on the west coast of Lacom Island, Cassiar District.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the Granby Consolidated Mining, Smelting and Power Company Limited will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plan and for leave to construct the said works.

DATED at Prince Rupert, British Columbia, this 4th day of July, A. D. 1917.

THE GRANBY CONSOLIDATED MINING, SMELTING AND POWER COMPANY LIMITED.

Patmore & Fulton, Solicitors.

A Lifebuoy bath means a healthy skin—

First, because it's a good soap—it cleanses thoroughly, though gently. Next, because it is a safeguard against all sorts of germs, infections, etc. that your hands or your clothing may have come in contact with. That's the Lifebuoy story—cleanliness with safety. The slight carbolic odor vanishes immediately.

## LIFEBUOY HEALTHY SOAP

## Don't merely smother your cough

**CURE IT**—Mather's Syrup of Tar and Cod Liver Oil not only promptly arrests coughing, but thanks to its tonic and strengthening properties it helps the system to throw off the cold and thus effects a permanent cure. It is this quality which has won for it the largest sale of any cough and cold remedy in Canada.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester Victoria, B. C., or District Forester, Prince Rupert, B. C.

## Where You Cannot Prophecy — PREPARE !

NOT even the best-informed man in government or business circles dares to attempt a prophecy of conditions after the war. We hope for the best—meantime wise men are preparing now for anything.

How? By regulating their expenditures according to their actual needs rather than by their prosperity—by husbanding the surplus—and by investing to the limit in Canadian War Loans that help so much to maintain present prosperity.

Money saved and loaned to Canada by Canadians is a two-fold safeguard for the future. The lenders will benefit directly from the excellent interest return and absolute security—and indirectly because the interest thus kept in Canada will help to keep business good after the war.

Canadian War Savings Certificates are issued in denominations of \$25, \$50 and \$100, repayable in three years. At the purchase prices of \$21.50, \$43 and \$86 respectively, they yield over 5% interest. Buy them at any Bank or Money Order Post Office.
