HIGH COST OF COAL COMMITTEE'S REPORT

At the council meeting on Monday evening, Ald. McClymont informed the council that the committee had had a meeting with the coal dealers, when it was suggested that they reduce the price of coal somewhat, but this suggestion had been declined with thanks by the dealers.

Had Ald. McClymont been venturing his own money he would have had no hesitation as to which course to pursue in the matter, but, as the people's money was in question, the national characteristic of the three members of the committee, Messrs. McClymont, McRae and McMeekin, being caution, they had to be sure of their ground before venturing. All the same, Ald. McClymont was of the opinion that the only way in which the project could be proved, was to have a test made. In view of the fact that the city and the schools used quite a lot of coal, he thought that they could try out one large shipment of coal. It would be a good thing anyway, in view of the possible shortage of fuel during the coming winter. Ald. McClymont was prepared, therefore, to move that the city confer with the school board regarding storage facilities and that a cargo of coal be brought in. This was seconded by Ald. McRae.

Ald. Montgomery moved that the committee be given a week to have this done and to have something of a concrete nature before the council next Monday.

Politicians.

Ald. Casey did not like this way of doing things at all. "It would be becoming on my part," he said, "to compliment the committee as politicians. They have become past masters in the art of side-stepping. They started out to undertake on the part of the Municipality to procure coal or fuel and to sell it to the citizens, hoping to be able to effect a saving in the price. We have dallied away all summer, and now when we get down to dealing with the matter, we have lost sight of the main feature of the thing, which is serving the public. We have come back to the question of whether the city shall buy its coal direct from the mine or from the coal dealers. That is not the question at all. If it is not legal for the city to retail coal to the citizens, I would like to ask the committee by what method does the city of Vancouver sell coal to its citizens. I do not believe that the local dealers are here for the purpose of losing money. They assume the risks and are apparently making a little profit. No one charges them with taking an extortionate profit. Their profits are said to be quite reasonable. Nevertheless," Ald. Casey continued, "the public believes that they are being held up and the public wishes this council to deal with the proposal of procuring coal and selling it to the people. It is the business of the council to devise ways and means to this end. The city can equip itself with proper facilities and eliminate every excessive expense of this commodity. Proper bunkers would be required.

Our Business.

"The question is are we going to serve the public. It is ridiculous that we should pay such prices for fuel, living in the heart of a forest. What about wood? If we burnt more wood, it would reduce the cost. Cannot the council take steps to have a cheaper supply of wood for the citizens?"

Ald. Casey continued that public ownership would be applied in the very near future to many other commodities than coal, al-

ORGANIZED LABOR DISCUSSES STRIKE

(Special to The Daily News.)

Ottawa, Sept. 19.—A nationwide strike resolution has been offered at the Trades and Labor Congress of Canada now meeting here. The attitude of organized labor regarding the conscription of man power is now being defined. The motion proposes that the "down tools" order shall go out throughout the country unless the Government provides immediately for the conscription of wealth, as well as man power. In this matter organized labor is at one with the platform adopted by the Liberals in convention at Winnipeg last month.

CANADIAN CASUALTIES COMPARATIVELY SMALL

Ottawa, Sept. 19.—In view of the severe fighting on the western front, the Canadian casualties are small.

For the last two weeks in August, the total casualties in all classes total 7,586.

TYPHUS IN PRISON CAMPS

(Special to The Daily News.)

Paris, Sept. 19.—Albert Champion, a French soldier, on his third attempt, has escaped from Germany. He brings the information that thirty-seven hundred French and British soldiers and fifteen hundred Russians have died from typhus in the German camps at Kasel.

THE POPE'S PEACE PROPOSALS

(Special to The Daily News.)

London, Sept. 19.—It is understood that the German note to the Vatican indicates the relinquishment to the Pope of the claims to supremacy in Belgium heretofore held by Germany. Even if this is true, the British Government will not regard this action by the Kaiser as paving the way to peace.

A dispatch from Rome says that the Vatican will not make the reply of the Central Powers to the Pope's peace suggestions public until the latter part of September.

ELECTION DATE IS STILL INDEFINITE

(Special to The Daily News.)

Ottawa, Sept. 19.—With the parliamentary session practically over, there is more interest now being taken in the election campaign and in the cabinet reorganization. It is expected that four Liberals are likely to run on the straight war ticket. The election date is still indefinite, although there is a growing impression that it will take place during the first week in December. Sir Robert Borden is leaving today for a week's holiday.

THE QUEBEC BRIDGE GOING UP SMOOTHLY

(Special to The Daily News.)

Quebec, Sept. 19.—The mammoth span of the Quebec bridge is going up smoothly. At one thirty yesterday afternoon the last link had been hoisted fifty-two feet. It is hoped that much better time will be made today than yesterday. It is expected to elevate the structure sixty-eight feet by today's operations. This bridge will save half a day on the trip from Halifax to Winnipeg.

MAYOR M'CAFFERY OPENS EXHIBITION

At one o'clock this afternoon, Prince Rupert's Fifth Annual Fair was declared open by Mayor McCaffery. The large Exhibition Hall was decorated gaily and a large number were present for the opening ceremony. On behalf of the city and on behalf of the Association, the Mayor extended a hearty welcome to all the visitors from the surrounding districts to Prince Rupert. "Those of you who are producing the necessities of life," said his worship, "are more than welcome. In these times, when the word goes out all over the world to produce, you producers are entitled to every consideration we can give you, hence you are thrice welcome here."

Since the first fair, we have always tried to increase the popularity of the time, and this year there are many things that we have not had in other years. There are men who have come from Telkwa to pull in a tug-of-war against Prince Rupert. There are two visiting ball teams this year, Indian bands and speed boat races in the harbor, so that at the Prince Rupert Fair this year, with so many attractions, I sincerely hope that you will enjoy yourselves, and I hereby declare the Fair open."

The exhibits appeared to be better than ever and some of them are distinctly striking, and give incontestable proof of the fertility of Central British Columbia.

ACCIDENT AT SURF INLET

Rushed here in the early hours of this morning, on board the "Full Moon," Lewis Sandgren was admitted to the General Hospital. He is only 21 years of age, and was employed at Surf Inlet. He was engaged in switching cars on the dump from which a trestle runs. Apparently he lost his footing, and fell through the trestle for a distance of sixty-five feet. He was fortunate in escaping any more serious injury than to his ankles. Dr. Sanger, the mine doctor, accompanied the injured man to Prince Rupert where he will be subjected to the X-rays, and the full extent of his injuries ascertained.

THE POLICE COURT

At the police court this morning, there were five cases of D. and D. who were each liberated upon the payment of the usual \$5.00.

Two little boys, Willie Crossley and Bertie Duncan, were also charged with housebreaking. They had rifled the home of D. McKenzie on Ninth Avenue and had taken away several articles. A rifle they had cached below the sidewalk, along with other things, and they had broken a fine gold mounted pipe. They were let out on suspended sentence, one boy going to a ranch up river, and the other to Metlakatla school.

GERMANS WORK FEVERISHLY AT ZEEBRUGGE

Defences on Coast of Belgium are Being Strengthened in Readiness for Impending British Attack.

(Special to The Daily News.)

Amsterdam, Sept. 19.—The Germans apparently have no intention of surrendering the Belgian coast to the Entente Allies without a fierce struggle, as they are working feverishly on the defences in the region of Zeebrugge. Every available civilian is being sent forward in the working parties. The bombing attacks throughout Northern Flanders is harassing the Huns. British airmen attacked two thousand German troops on the march and scattered them.

British Front.

London, Sept. 19.—The British troops raided the German positions in the Inverness Cope and captured many prisoners. Important positions were captured near St. Julien, and German raiding parties were repulsed near Mericourt. Three German aeroplanes were driven down. On the Ypres sector, patrol encounters were numerous, but no major actions have been reported.

French Front.

Paris, Sept. 19.—The Germans attempted to carry out a surprise attack against our line in the neighborhood of Ailles, but were repulsed with great losses. Five German aeroplanes were brought down by gunfire.

Italian Front.

Rome, Sept. 19.—On the Bainsizza Plateau, strong onslaughts have been made by the Austro-German forces, which were repulsed by the Italian troops. Artillery action in this region is particularly severe, the enemy having a great concentration of guns to withstand the Italian advance.

Another Ally!

San Jose, Costa Rica, Sept. 19.—Diplomatic relations between Costa Rica and Germany have been severed. The little republic has interned many Germans who have been annoying the Government.

COMING EVENTS

Attacks of an extreme nature on Sir Wilfrid Laurier are becoming a regular feature by Henri Bourassa in his paper, "Le Devoir," which is said to be beginning to show signs of pre-election prosperity. This is taken to be rather significant at the present juncture. Henri has no love for Sir Wilfrid, "whom he hates worse than he hates conscription." According to Bourassa, Sir Wilfrid out-tries the Tories in his Imperial sentiments.

In a recent issue, Bourassa writes: "We have read the letter of Sir Wilfrid Laurier to Mr. Wise, secretary of the Win-the-War League of Toronto. Mr. Wise's question may be summarized as follows: 'If you are in favor of carrying on the war to the end, will you be for conscription when the voluntary system gives no more soldiers?' To which Sir Wilfrid replied: 'I am in favor of carrying on the war to the very end; I shall establish a system of vigorous and co-ordinated voluntary enrollment.' But, on conscription he said neither yes nor no."

"No doubt he will do as circumstances direct. Laurier finds himself in an extremely complex and difficult situation. During three long years he lent his hand to the policy of national suicide from the effects of which he wishes to save the country today. . . . In 1912 he voted with the Tories for the abolition of the Catholic schools of Keewatin. . . . He accepted the principle of direct contribution to the Imperial navy and went further than the Tories by offering to place two entire squadrons to the Imperial defence. In 1914 he accepted the principle of participation without reserve and concluded a truce with the Tories. In 1915 he assisted the Tories to pass the war budget and to increase the number of troops in the field. In 1916 he ratified the foolish promise to send 500,000 men and blindly voted the hundreds of millions of dollars to be sunk in the pit-of-war; he aided the Tories to disorganize the economic life of the country, and above all he benevolently accorded the Govern-

ment and arbitrary prolongation of their parliamentary life that they had already so badly used."

Four years ago Henri penned a series of articles and delivered a number of speeches in which he took the credit for the Nationalists of putting the present Government in office, explaining that his party was financed out of the campaign fund in Montreal which, we understand, was then controlled by Mr. (now Sir Herbert Ames). He himself made campaign speeches in Ontario at the request of Hon. Frank Cochrane, present Minister of Railways and Canals. Armand Lavergne, his chief lieutenant, declares that he was offered a seat in the Federal Cabinet in October, 1911, and declined. Bourassa would dearly love to extinguish Laurier's influence in Quebec. In that case he thinks the mantle would fall upon him and that with a solid French-Canadian representation behind him in Parliament he could control the destinies of this country. In this view he would not be far out. If Quebec fell under the control of such an extremist, Confederation would be gravely menaced.

HIGH COST OF COAL
COMMITTEE'S REPORT

(Continued From Page One.)

enabled it to do things, and also of the opinion of Mr. Nicol Thomson, the fuel controller's representative in the west, that Vancouver could not continue to sell coal at the price mentioned. However, Ald. Nelson moved that if the council has not the power to purchase coal, that steps be taken to ascertain from Victoria to see if such power could be given the city; that from 100 to 200 tons of coal be purchased; that the committee fix the price for the consumers in not more than one ton lots, and that a very exact record be kept so that the city ascertain exactly where they were at.

Much to the relief of the city clerk, Ald. Nelson agreed to put his motion in writing. Ald. McRae was quick to point out that Ald. Nelson knew very well that the city had not the power to enter

the coal business and that his motion would not get the city anywhere in the meantime. Ald. Montgomery's legal opinion was that although the Municipal Act did not specify that the city should supply coal to the citizens, the act did not say that the city should not do so.

Before putting the question, Mayor McCaffery explained just where he stood in the matter. Although he was in the coal business himself, he would not stand in the way of any action such as the city council might take, and he signified his willingness to resign at any time should anyone think him inimical towards the project.

The vote was taken and Ald. Nelson's motion carried. Aldermen McRae, Dybham and McMeekin voting against it. As the matter now stands, the city has to wait until it gets permission from the government to go ahead with the proposed municipal coal yard, which may not be considered until the next session of the Legislature. Aldermen Casey and Montgomery, who were all for immediate action in the matter, by voting for this motion, have apparently caused it to be shelved in the meantime.

GERMAN RAIDER IN THE ATLANTIC

Baltimore, Sept. 15.—Word of the sinking of the British steamer Grampian Range by a German raider a few weeks ago in the Atlantic was brought to port today by the captain of a vessel who talked with a member of the crew of the freighter after he had reached England.

The Grampian Range was trailed by the raider for thirty-six hours before the German commander thought the time opportune to sink her. During the time the raider followed the freighter those on board were congratulating themselves on having come through "the barred zone," not suspecting that the vessel wearing a similar coat of war grey was other than an Allied merchantman. At the end of the thirty-six hours those on the British freighter were dumbfounded when the vessel ran up a signal, which read, "Stop or I will open fire."

At the same moment several false ports and deck superstructures were swung back, showing a formidable array of heavy guns. The lifeboats of the Grampian Range were soon in the water, and while the crew were being taken prisoners some of the Germans placed bombs aboard the freighter.

After they had been on the raider several days the men from the Grampian Range learned the reason the raider did not sink her upon sight was because they were also after another vessel in the vicinity and did not want to arouse the suspicion of her captain by gunfire.

The Grampian Range was one of the newer vessels of the Furness, Withy Line.

BE CLEAN INTERNALLY

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that 95 per cent of human ills was caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be; and that the poisons from this waste circulated through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news, which has been covering the country that great surgeons and specialists have been operating on the Lower Intestine in such serious diseases as Tuberculosis, and attribute such conditions of chronic ill-health as Nervous Debility and Rheumatism to this cause, also saying that these poisons are favorable to the development of Cancer and Tuberculosis (as stated in a recent article in The New York Times), has caused people to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

This enthusiastic and grateful letter is by no means an exceptional one amongst the hundreds on our file:—

703 7th Ave. South, Lethbridge, Alberta.
Dr. Tyrrell, Toronto:

"Dear Doctor Tyrrell:—After using your 'J. B. L. Cascade' for four months, I feel it my duty as a thankful patient to express my enthusiasm for the great blessing it has been to me. You cannot feel my emotions as I write this letter in praise of you in your great work. Words simply fail to express my thankfulness for first learning of your Cascade. Previous to using it I could not go a day without a drug of some sort, and since using it I have not, on my word of honor, swallowed five cents' worth of drugs. I spent over \$300.00 in the two years previous to hearing of the 'J. B. L.' Would that all the young men and women I see in this town with their faces covered with horrid, unsightly pimples would use it. They would soon get rid of them, as I did. I must stop, or I will be keeping you from your work, but I could fill ten more pages of my past condition of health, also in praise of the 'J. B. L.' May you enjoy this life to the full.

Sincerely yours,

William Devoy.
If you try the 'J. B. L. Cascade' you will find yourself always bright, confident and capable—the poisonous waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the 'J. B. L. Cascade' gently assists her.

Call and see it at Cyril H. Orme's Drug Store, Cor. 3rd Avenue and 6th St., Prince Rupert.

Ask for "Why Man of Today is Only 50 Per Cent Efficient," a booklet of great interest, which is given on request. If you prefer, write at once to Chas. A. Tyrrell, M.D., 163 College Street, Toronto, for this book.

WESTHOLME THEATRE

Until one witnesses the presentation of "Little Miss Nobody" at the Westholme Theatre tonight, no idea can be formed of how much excitement may attend life in the backwoods of Northern New York. Violet Mercereau will present the role of a little girl raised among the lumbermen, knowing little of life beside hard work and lots of it, until one day there comes a "city chap" to brighten her life and open new hopes for her state of future happiness. The results attendant upon her progress from poverty to affluence are fraught with sensations, stirring events and excitement providing just that sort of diversified entertainment that best pleases a majority of "fans." Its a Bluebird and that means all that's best in photoplays.
