BRITISH ADVANCE AT YPRES ON 6-MILE FRONT -- HUNS ATTACK FRENCH LINES

OFFENSIVE IS CONTINUED IN OCEAN OF MUD

British Pressing Enemy on Front of Six Miles in Flanders—Progress Being Made Satisfactorily.

(Special to The Daily News.)
London, Oct. 13.—The British troops in Flanders have attacked the Germans on a front of six miles northeast of Ypres. The offensive is reported to be making satisfactory progress. Very heavy rain fell during the night, converting the already sodden ground into an ocean of mud.

French Front.
Paris, October 12.—Last night was marked by great artillery activity and by a series of German efforts at various points on our front. Three distinct German attacks were made with the object of capturing the ground in Auberville and Souain regions failed. On the right bank of the Meuse on the Verdun front artillery fighting continues in the region of Bezonvaux.

Cuts Holland Off.
Amsterdam, October 13.—Great Britain has stopped all commercial cable communication with Holland until such time as the Netherlands Government places an absolute restriction upon the transit of sand, gravel and meats through Holland from Germany to Belgium.

Terror in Alsace-Lorraine.
Paris, Oct. 13.—Fresh evidence is coming to hand every day of the German campaign of terrorization which they have been carrying out in Alsace and Lorraine. Since the beginning of hostilities, the German courts-martial sitting in the annexed provinces have inflicted sentences totalling five thousand years' imprisonment upon the citizens of these two provinces, whose sole offence has been the expression of opinions favorable to France.

Russian Front.
Petrograd, Oct. 13.—In Kurdistan, many of the villages of the Kurds have been taken, and the enemy have been driven to the banks of the Great Zoz River, many Syrian captives have been released and are being taken care of by our troops. Germans in the enemy ranks wanted to fraternize with the Russian troops.

Demobilizing.
The demobilization of the superfluous troops attached to the Russian army has begun. The classes of 1894-95 are being sent home. The Workmen's and Soldiers' Council have requested M. Nitkii, Minister of the Interior, to leave the Government, as he fails to reflect the ideals of the Workmen's and Soldiers' organization.

RAIDER SEA ADLER IS WRECKED IN SOUTH SEAS

Washington, October 10.—Two German commerce raiders, manned by the crew of the famous Sea Adler, which it now develops stranded on Mopeha Island in the South Pacific, after roaming the seas for seven months preying on American and allied shipping, are operating somewhere in the South Seas, according to a report received tonight at the Navy Department from the commander of the naval station at Tutuila, Samoan Islands.

The despatch, transmitting the story of Captain Hador Smith of the American schooner C. Slade, one of the Sea Adler's victims, was sent on September 29, several weeks after the two new raiders left Mopeha Island, where they had been captured by the Germans. The first put to sea on August 24, and the other on September 5, and it probably was their operations which led to recent reports of raiders in the Pacific.

Before coming to grief on August 2 the Sea Adler had added the American schooners A. B. Johnson, Manila, and Slade to the list of at least twelve allied vessels which she sank early this year in the South Atlantic Ocean. In the long period from last March, when she was last heard from, the raider probably sent down other craft encountered in passing through the Atlantic, around Cape Horn, and crossed the Pacific to the Society group of French islands, of which Mopeha is one.

Sea Adler Total Loss.
The Sea Adler, according to Captain Smith's report, arrived at Mopeha on July 31. Two days later she stranded on the island and was abandoned as a total loss, the master and crew, with twenty-seven white men and seventeen native prisoners, making shore in safety. The company remained there until August 21, when the Sea Adler's master, accompanied by three officers and two men, put to sea in a motor sloop with machine guns, rifles, bombs and about two months' supplies.

The remainder of the crew stayed on the island until Sept. 5, when the French schooner Lutece, bound out of Tahiti, Society Islands, arrived at Mopeha and was seized. The schooner was equipped with machine guns, rifles and bombs, and the Germans immediately put to sea in her. The Sea Adler's prisoners, of whom Captain Smith was one, were left on the almost desolate island, but on September 13th, Smith and three others of the prisoners departed in an open boat and reached Tutuila ten days later. Smith reported the prisoners badly in need of food and water.

"SMITHIE" COMES BACK

When the Prince George pulled into the wharf this morning about ten o'clock, a familiar face with unfamiliar clothes was seen at the rail. It was "Smithie" in the uniform of a United States soldier. Mr. W. C. Smith used to be private secretary to Mr. W. C. C. Mehan, general superintendent of the G. T. P. here, but the minute the United States declared war, he was off to join the forces of his country. "Smithie" is a blythe spirit, and Prince Rupert has been duller since his departure. His genial smile absolutely lit up the wharf this morning. "I've come home, boys," were his first words. And Prince Rupert looked good to him.

He will only be here for a day or two, when he will leave for the East.

CAPTURED BUT CONTENTED—A HUN OFFICER PRISONER
This young officer was among the Germans captured by the Canadians during the fighting at Hill 70. Judging from his expression, the officer in question appears to be more contented with his lot, and to have no regrets at leaving the struggle behind.

GERMAN AIRMAN THREW WREATH FOR BROTHER

Behind the British Lines in France, Oct. 11.—A German aeroplane was brought down in the British lines a few days ago after a battle lasting nearly an hour. The next morning a German machine came hovering over the same spot and manoeuvred for a position. It was promptly attacked, but returned to the German lines after dropping overboard something which was seen to fall near an evacuated village.

Two British soldiers who were sent to find out what had been dropped returned with a beautiful wreath nearly three feet in diameter. To the wreath was attached a note asking the British airmen to place it on the grave of the dead pilot.

"The officer you have buried was my brother," said the note. "I spent six happy years working in a London bank. I know you honor the dead. Please do this little service for me."

The wreath was deposited as requested on the grave of the dead German airman.

TOOK LOTS OF TIME

San Francisco, Oct. 12.—Two letters, mailed ten and fifty years ago, respectively, were returned to Postmaster Chas. W. Fay here today by the postal authorities at Liverpool, England, with the comment that the addressees could not be located.

The annual general meeting of the Prince Rupert branch of the Canadian Red Cross Society was held last evening in the Court House. His Honor Judge Young was elected president for the ensuing year; Mrs. R. L. MacIntosh, vice-president; Mr. John Conway, secretary; Mrs. Woodland, treasurer; Mrs. Clancy, superintendent of supplies, with Mrs. Dawson as assistant. The total sum collected for the Red Cross for the past year amounted to \$7,000, making about \$16,000 altogether since the war began.

AUSTRIAN SOLDIERS WHIPPED TO ACTION

Italian Headquarters, Oct. 11.—The last Italian advance is memorable for the rapidity with which it was accomplished, the quantity of booty seized, and the importance of the positions won. The mountain conquered is surmounted by five peaks each 2,500 feet high and forming a single rock.

The enemy placed observatories on each of these five tops, from which they were able to observe all the Italians' movements in the valley and the ravine roads leading to the Bainsizza Plateau.

The Italians found the Austrian trenches filled with dead bodies; crossing these, they then pressed two hundred yards forward over the hill-top and reached the caverns where the Austrians had taken refuge. Here they found a quantity of food, wines, liquors, playing cards, bottles of perfume and cigarettes. The Austrian officers were sad, but the younger soldiers were joyful at escaping their danger.

As usual after the occupation of new positions, terrible, furious counter attacks commenced, the Austrian officers horsewhipping their soldiers to induce them to advance. The Italian infantry, however, in their strongly-fortified positions, constitute an almost unbreakable iron barrier.

FISH ARRIVALS

Yesterday, the Director was in port with 11,000 lbs. of halibut; the Cora with 3,000 lbs., and the Ringleader with 6,000 lbs. Their catches were sold for 17½ cents per lb. The stormy weather outside is holding up fishing operations.

The Ladies Auxiliary of the Prince Rupert General Hospital will hold their annual ball in the St. Andrew's Hall on October 19. Dancing will commence at 9:30 p. m. The Westholme Orchestra will be in attendance. Admission \$1.00. 237-8-9-3-4 Stephens Block, phone Red 548.

SIR WILFRID AND MILITARY SERVICE

Ottawa, Oct. 6.—One important effect which has already resulted from the announced intention of the Liberal leader to consider placing his resignation in the hands of the party in the interests of national and party unity has been to strengthen his appeal to the extremists of both sides of the conscription and Quebec issues for moderation of views and wise counsels to secure the utmost possible unity of war effort in Canada. The Quebec extremists, who would have Sir Wilfrid come out in favor of the repeal of the military service act, now realize that persistence in that attitude would strengthen Sir Wilfrid's desire to resign the leadership. On the other hand, the difficulties of Sir Wilfrid's position are being made more clear to the strong Liberal conscriptionists, and the danger of the Conservative plan of campaign along racial lines is being emphasized.

Refuses to Promise Repeal.

The Quebec end of the situation is well expressed in an editorial in The Ottawa Citizen today, in part as follows:—"The facts are that a Quebec wing of the Liberal party insist upon the leader agreeing to rescind the conscription measure, and to make this promise to the Quebec element before the election. With anti-conscription as a war cry, the Province, this element asserts, could be swept for the Liberals, but Sir Wilfrid has, according to the best information, absolutely refused to agree to this proposition. He takes the stand that conscription is now the law of the land, that it must be obeyed, and that, come what may, it must stand on the statute books so far as the calling to the colors of the required hundred thousand men is concerned.

Ultimatum to Quebec Wing.

"The Liberal leader has placed his alternative before the Quebec section. If this element will not accept his views he will at once step down. Only on condition that the law as it stands will be respected and obeyed in Quebec will Sir Wilfrid retain the leadership. This ultimatum of the Liberal leader has brought about the present crisis in the fortunes of that party. It is not related in any way to the appointment of certain nominal Liberals to office in the present Administration, and has no reference whatever to Union Government. If the Quebec Liberals fall into line Sir Wilfrid will continue as leader; if not he will abdicate.

Increases Respect for Him.

"The public will be interested in knowing the facts. Sir Wilfrid must be given credit for loyalty to his convictions and respect for the law of the land. His position in this matter must immeasurably increase his influence in all parts of the Dominion outside the Province of Quebec, and even in that part of the country his stand must entitle him to the respect, if not the support of the anti-conscription element. The Citizen has differed with Sir Wilfrid's views of the conscription measure, but recognizes that in the present instance he is showing himself above party influences and that he is prepared to leave political life rather than precipitate confusion, if not worse, in this country by an abuse of power."

ANNOUNCEMENT—for the famous La Camille Corset, phone for appointment. Mrs. Demers, 237-8-9-3-4 Stephens Block, phone Red 548.

FORMATION OF UNION GOVT. IS ACCOMPLISHED

The New Members Include Messrs. Rowell, Sifton, Crerar and Calder—Perley is Now Commissioner.

(Special to The Daily News.)

Ottawa, October 13.—A Union Government has been formed and the following ministers have been sworn in: Premier and Secretary of State for External Affairs, Sir Robert Borden; Minister of Militia, Major General Mewburn; Minister of Overseas Service, Sir Edward Kemp; Minister of Immigration and Colonization, Hon. H. A. Calder, of Saskatchewan; Minister of the Interior, Hon. Arthur Meighen; Minister of Agriculture, Hon. T. A. Crerar, of Manitoba; Minister of Customs, Hon. A. L. Sifton, Premier of Alberta; President of the Privy Council, Hon. Mr. Rowell, of Ontario; Minister of Railways and Canals, the Hon. Mr. Reid, late minister of Customs; Secretary of State and Minister of Mines, Hon. Martin Burrell, late Minister of Agriculture; Minister of Public Works, Hon. C. C. Ballantyne, of Montreal, ex-President of the Canadian Manufacturers' Association; Solicitor General, Hon. Hugh Guthrie.

The Hon. Frank Cochrane goes to the Canadian Northern as Chairman of the Board of Directors, while Sir George Perley becomes Canadian High Commissioner in London.

A Rebuke.

Edmonton, Oct. 13.—The Hon. Frank Oliver's newspaper, the Edmonton Bulletin, rebukes the Liberals who have joined the Borden Cabinet, as Borden's policy has always been to make the rich richer and the poor poorer, which is altogether at variance with the tenets of Liberalism.

The Hon. A. L. Sifton has not yet resigned the premiership of Alberta. The Hon. Mr. Stewart, present Minister of Public Works, is looked upon as likely to form the new Alberta Government.

WESTHOLME THEATRE

Tonight there will be played at the Westholme Theatre a photoplay entitled "The Years of the Locust." Fannie Ward is the star artiste, and she has always been a great favorite in Prince Rupert. "The Years of the Locust" is a play of a very high order and one that will please everyone who sees it. There will be a Travelogue shown also, giving some very fine views, and a good comedy.

PROGRESS

State control or government ownership of the means of production of the necessities of life not so many years back was looked upon as a dream of a visionary. Faced by the stern realities of war and the conditions arising therefrom in this modern age, the matter does not appear to be so dream like. Instead of being a dream, it has come into the realm of very practical politics. In practically all the warring countries, this principle has been put into operation, except in Canada. Faced by necessity, the action of the State has been found to be beneficial to the people.

Discussing this matter, the Globe says:

The existence of the evils arising out of the inequitable distribution of the world's great wealth is apparent on all sides. These evils were not unknown before the war. That there is a greater outcry today against the individual accumulation of wealth is merely due to the fact that the sufferings of the people at the bottom of the social scale have passed the point of human endurance. Men will voluntarily surrender their lives for a great cause; they will endure the pangs of famine rather than yield up a besieged city to the enemy, but why should the consumers of Canada patiently endure want and privation in a land of plenty? True, the system legalizes the profiteer, but the farmers and workmen who are producers must not be confounded with middlemen, who, although belonging to a class that is inseparable from production, have given rise to conditions that enable some of them to reap where they have not sown. When middlemen reach a stage of development where they secure a monopoly they automatically obtain the power to fix prices. It is with this class of profiteer that the consumer is at war. What is the remedy?

Keeping within the law is not the highest standard of conduct. There is a moral code which the law of the land cannot enforce. There is no statute requiring a middleman to love his neighbor as himself. It is imperative, therefore, to devise some means of curtailing the

powers, now sanctioned by law, which enable Big Interests to levy taxes on the public in the shape of exorbitant prices for commodities which they have accumulated, and which they have the power to hold out of use. There are various remedies: a graduated income tax that will return excessive profits to the public; a death duty that will return accumulated wealth to the public; the fixing of prices by the State. None of these plans is novel. In other countries these remedies have been applied in time of war; some were in force in a modified form before the war. Not one of these remedies has been applied in Canada to the extent demanded by the abnormal conditions that now obtain.

The sound common sense of the public discriminates between the legitimate increase in the earnings of the farmer and the worker, and the profits of the Big Interests that control prices at both ends. The public is not versed in economic principles, but it knows that much of the economic teaching in the universities of Canada will have to be revised after the war. The State regulation of production and distribution has reached a stage in Europe from which Britain and other countries will not recede when peace comes. Already, through the co-ordinated activities of the Allied Food Controllers, the regulation of production and distribution is not only nationalized, but internationalized. The Utopia that men dreamed of in past ages is fast becoming an established fact. Canada is the only country that is holding back. Through the failure of the Government to apply in adequate measure the principle of State control of production and distribution during the war, there is danger that this country may lag behind European nations in the readjustment of the social system and the preaching of the new gospel of wealth. Under this new gospel no system will be allowed to continue that does not conduce to human progress. Who will say that society as at present constituted fulfills this end?

The logical tendency nowadays is for big business to be-

come bigger and small business to become smaller. Big production means cheap production. But the cheapness of production must be for the benefit of the people at large. Just so soon as any business becomes so large that there no longer is any competition, then is the time for the Government, or the people, to step in, for their own protection.

Everything points in that direction. - And the action of the profiteers in Canada since the war began has brought the matter before the people at large in a manner which makes them take notice.

WITHOUT ANNEXATIONS OR INDEMNITIES, PEACE WOULD RUIN GERMANY

Amsterdam—The "Deutsche Tageszeitung" has a noteworthy article on the Reichstag resolution of peace without annexation or indemnity. Such a peace, it says, would spell ruin to Germany. Before the war the wealth of the German people amounted to between 330 and 390 billions of marks, of which nearly half have been spent on the war. Without an indemnity there is no hope of carrying on during the first ten years after the conclusion of peace. Germany would have to bear extra taxation amounting to 12 billions of marks, as compared with the pre-war taxation of 3 1/2. How can the country in the state of ruin in which it will find itself, and in view of the enormously increased cost of living, shoulder an added burden of that magnitude, when the sum of six millions would be a maximum effort, and even that could only be endured with the greatest effort.

Have the Socialists, asked the writer, who prate of peace, of Germany being able to meet her liabilities, considered how she is to care for her military sick and wounded, and pick up the threads of her export and import trades, unless she seizes the opportunity of a peace to impose such terms as will secure for her a sufficiently large indemnity to meet her liabilities, and further enable her to procure the raw materials she must have to rebuild her trade connection. Germany is not blind enough, after all her sacrifices, to accept in lieu of the material compensation she must have, fine phrases about peace and goodwill amongst men.

Bathe Internally

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestines for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's Drug Store, cor. 3rd Avenue and 6th Street, Prince Rupert, or ask there for "Why Man of Today is Only 50 Per Cent. Efficient," a booklet of great interest, which is given free on request. If you prefer, write for booklet to Dr. Chas. A. Tyrrell, 163 College Street, Toronto.

DARING EXPLOIT AT LENS BY CANADIAN SOLDIERS

Paris—(By mail). Last night, following upon a heavy thunderstorm, the Canadians carried out a daring little enterprise in the city of Lens on Monday morning last. During the dark hours they had established a series of posts in the ruins of houses on the southwest side of a street. Apparently the Huns were not quite sure as to whether they were there or not, because they lay quite doggo, and made no response to the bombs which the enemy lobbed across. They had anticipated some such form of activity and taken good cover against it. Last night the German troops were relieved, and the new-comers evidently counted themselves safe against attack in such weather. But whilst the thunder was still growling, the sleeping and lounging Huns were suddenly assailed by a terrific shower of Mill's grenades. A regular stampede ensued, but the bombs continued to rain upon the fleeing enemy with such intensity that very few of them got away.

The gallant exploit carried the Canadians across the street which had heretofore separated them from the Germans, and cost the latter heavily in casualties. Lens is indeed becoming a name of ill-omen with those who are bidden still to cling to it against such a remorseless and resourceful foe.

Pay Will Be The Same

Men selected under the Military Service Act will receive the same pay as those now on active service receive. Pay will start from the time a man reports for duty. Money from the Patriotic Fund and Separation Allowance will also be available for selected men.

Canadian soldiers are well paid. The fact that wages in Canada are generally higher than those paid in Europe is recognized in the system of remuneration for men on active service. Clothing and all equipment in addition to food is also supplied to the Canadian soldier, leaving him with no expense except personal incidentals.

The rate of pay for men in the Canadian Expeditionary Force, other than commissioned officers, is as follows:

	Pay \$2.00	Field Allowance 30 cts.
Warrant Officers		
Regimental Sergt-Major, if not a Warrant Officer	1.85	20 "
Quartermaster-Sergeants	1.80	20 "
Orderly Room Clerks	1.50	20 "
Orderly Room Sergeants	1.50	20 "
Pay Sergeants	1.50	20 "
Squad, Batt., or Co. Sergt-Major	1.60	20 "
Colour-Sergeant or Staff-Sergeant	1.60	25 "
Squad, Batt., or Co. Q.M.S.	1.50	20 "
Sergeants	1.35	15 "
Lance-Sergeants	1.15	15 "
Corporals	1.10	10 "
Lance-Corporals	1.05	10 "
Bombardiers, or Second Corporals	1.05	10 "
Trumpeters, Buglers, and Drummers	1.00	10 "
Privates, Gunners, Drivers	1.00	10 "
Sappers, Batmen, etc.	1.00	10 "

As in the case of those already gone overseas, Separation Allowances will be available for those dependent for livelihood upon selected men. The Separation Allowance is \$20.00 per month for the rank and file, \$25.00 for sergeants and staff-sergeants and \$30.00 for warrant officers. The experience is that many men can afford to assign half their pay to dependents, in addition.

A considerable number of men who have enlisted in the Canadian forces have found themselves better off under the army rate of pay, which is granted in addition to board, lodging, clothing, equipment, transportation, etc., than they were while in civilian positions. Their wants are provided for, and they receive a steady addition to the bank account each month.

Issued by
The Military Service Council.

Keep up the Food Supply and Help Make Victory Sure

"I AM assured that my people will respond to every call necessary to the success of our cause—with the same indomitable ardour and devotion that have filled me with pride and gratitude since the war began."

HIS MAJESTY KING GEORGE

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unflinching flow of food to England and France must be maintained.

This is National Service—
Not to the Farmer only—
But to YOU—to everybody—
This appeal is directed

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food.

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.

Be patriotic in act as well as in thought.
Use every means available—
Overlook nothing.

WAR BURDEN IN CANADA

Ottawa—Besides the military organization she maintains overseas, Canada keeps up a considerable establishment at home. Coast outcrops have to be looked after at Halifax, Sydney, Quebec, St. John and Esquimalt. Again, Canada has the duty of guarding at home internment camps, railway bridges, etc., requiring a large number of men, besides hospitals and camps.

In addition to this, there is in home waters the Canadian Naval Service, which since war began has absorbed 5,300 Canadians as officers and men, with its associated services all under direct Canadian control.

Although far removed from the central seat of war, Canada is under the necessity of keeping up a healthy military organization at home because this is a world war and, in its many ramifications, may raise its horrid head from any point of the compass. The first guarantee of efficient activity at the front is efficient organization and perfect order at home.

ALTERATIONS IN EXPRESS FISH RATES

Mr. O. H. Nelson, one of the Fisheries Advisory Board members, has received the following telegram from Ottawa respecting rates for fish by express:

"An order in council has been passed taking effect on October 15. Until further notice, system of payment of one third express charges on less than car load shipments of fresh, frozen or mild cured fish, so far as shipments from the Pacific coast is concerned, is discontinued, and authority given for the payment of two-thirds of the transportation charges on shipments of fresh, frozen or smoked cod and all the different varieties; flounders, except halibut and gray fish, no matter by what means or in what quantities they are forwarded from ports in British Columbia to points in Alberta, Saskatchewan or Manitoba.

(Signed) G. T. BEER, Dominion Fish Committee, Food Controller's Office."

This is doubtless to be considered a step in the direction of popularizing the cheaper varieties of fish, for which at present the fishermen find no considerable demand.
