BRITISH START AIR REPRISALS AGAINST HUNS

Factory Forty Miles Within German Territory is Bombed, Causing Immediate Conflagration.

London, Oct. 18.—Carrying out the recently adopted policy of the government to exact reprisals against the enemy for his bombardment of open British towns by air raids, the British aviators made a raid far into Germany. A factory making munitions of war forty miles inside the boundary of Germany was selected for the first visit. Bombs were dropped successfully on the buildings, which immediately burst into flames. The first raid so far inside the German frontier is only considered as an earnest of what is to come, and it is hoped to show the German people just exactly what aerial raids are.

Russian Front.
Petrograd, October 18.—The Russian artillery frustrated all attempts of the German engineers to construct a bridge across the Dvina river. The Russian fleet is out in the Baltic and holding the enemy. The fleet is protecting communications in the region of Gessel Island. From the latest advices received, the arrival of German troops there is regarded as insignificant.

SUSPECTED RAIDER SEIZED IN FRISCO

San Francisco, Oct. 16.—The Pacific has been freed of another German sea raider, federal officials believed today, following orders to Collector of the Port J. O. Davis to seize the auxiliary schooner *Buzfi Hogan* in port here. Investigations by federal agents showed the *Hogan* had been equipped with a shelter deck, presumably to hide light guns, and with *Bolinder* engines, capable of high speed. Then its ownership was traced to German interests in Mexico and the order for seizure followed. The *Hogan* was built at Marshfield, Ore., in 1904.

ALMOST STUCK IN THE MUD OF FLANDERS.—The first photograph shows that small branches have been laid down in the mud to give the horses a slightly better footing. The water cart is a heavy one and one of the animals so employed has given up the struggle and collapsed. The right-hand picture is a scene behind the lines showing a pair of pack horses taking their loads of shells up to the guns, and the nature of the ground over which they have to go. Both horses and the soldier in charge have considerable difficulty in extricating themselves from the mud.

ARGENTINA OPPOSED TO BREAK WITH HUNS

is Not Prepared to Follow the Action of Uruguay in This Direction.

Buenos Aires, Oct. 17.—The Argentine Government is not prepared to follow the action of Uruguay in severing diplomatic relations with Germany, according to Foreign Minister Pueyrredon. Argentina has not pledged her neutrality, the Foreign Minister added, but is attempting to safeguard her own interests. Relations with Germany will be broken if sufficient cause arises, but as long as Germany recognizes the Argentine flag and respects the nation and the people there probably will be no break.

Much surprise has been occasioned in political circles here by the following statement, said to have been made by the Foreign Minister of Uruguay in urging the Uruguayan Congress to break off relations with Germany:

"Uruguay, as a small nation between two great ones, must seek a balance of force to resist the possible hegemony of Argentina, with which nation we still have questions which are not settled definitely. This balance consists in bringing closer together Brazil and the States of our connection with the great States of the present conflict so that it will make impossible an attack on Uruguayan sovereignty without an immediate reverberation throughout the American continent."

WESTHOLME THEATRE

Presented in novel and attractive settings, the story to be presented at the Westholme tonight is one of romance, daring and desperate adventure. The scenes of the play are laid along the coast of Maine, and the central plot revolves around the life of the daughter of a fisherman, the role played by Miss Taliaferro. Besides a novel love theme, and many beautiful and artistic touches, the production teems with thrilling and startling situations, including the burning of a lighthouse, and a dramatic scene in a smugglers' cave. Revenue officers also figure in the plot. Smugglers and revenue officers! The theme has been a favorite one since the time of *Direct Hatterick*. A splendid comedy will be shown as well.

ECUADOR WON'T RECEIVE THE GERMAN MINISTRY

Quito, Ecuador, Oct. 17.—The Ecuadorian Secretary of Foreign Affairs today sent a cablegram to the Ecuadorian Legation at Lima announcing that Dr. Perl, the German Minister to Peru and Ecuador, resident at Lima, will not be officially received by the Ecuadorian Government in case he attempts to come to Ecuador.

The action of the Ecuadorian Foreign Secretary is understood to have been taken to demonstrate Ecuador's close affiliation with the union of the American Republics.

Dr. Perl, the German Minister to Peru, was handed his passports by the Peruvian Government on Saturday. It was reported from Lima that he would go to Ecuador.

ITALIANS FORESTALL ENEMY NAVAL ATTACK

Washington, Oct. 17.—Giant Caproni airplanes rained bombs last week upon the great Austrian naval base at Cattaro, starting fires among the buildings in the navy yard and causing damage to Austrian ships in the harbor. The Austrians met the attack with the greatest vigor, but were unable to drive off the airplanes until nearly daylight, when the Italians withdrew, without loss, to their own base.

Advices received here from Rome indicate that the Italian attack was planned to forestall an Austrian naval demonstration being organized at Cattaro and Pola. The squadron started from its base 230 kilometres across the Adriatic Sea. Gabriele D'Annunzio, the Italian poet, who has attained distinction as one of the most daring aviators in the war, was in command of one of the airplanes.

The squadron arrived at midnight over Cattaro, flying at 12,000 feet. The planes descended until they were only a few hundred feet over the harbor and began to drop bombs on the Austrian destroyers and submarines in the bay, many of which were seen to be hit, as fires were observed to break out immediately.

Meanwhile the Italian planes were bombing the naval depots and storehouses ashore, and several fires were observed. Several of the Italian planes were riddled in their wings with shrapnel and machine gun bullets, but were not seriously damaged.

MUST EXTERMINATE GERMAN WAR BARONS

London, Oct. 17.—Discussing the possibility of permanent peace after the war, Lord Robert Cecil, minister of blockade, told an Associated Press representative that Great Britain, the United States and France must find some way of exterminating the German war baron class which finds war a profitable business and spends its peace time energy in inciting to war.

"The Central Powers have been kept in the war so long," said Lord Robert, "not merely by the German military caste, but by the classes who get rich out of war—the vultures of commerce and industry. The military caste of Germany we shall convince by force of arms, but the commercial vultures we must attack in their pockets and teach them that war is not a profitable business. That is not the business of the blockade, but a blockade by itself will not do Britain. We must go farther and cut off the overseas branches of the war barons in the Far East, South America and elsewhere. The American Trading with the Enemy Act is admirably conceived for the purpose of cramping this business, but more must still be done. These vultures can not carry on without relations outside of Germany. The great source of their power has been their financial connections with neutral countries. Without financial connections they lose credit and without credit they are done."

BRITISH GOVT. TO RETAIN CONTROL OF SHIPPING

London, Oct. 17.—According to the Central News Agency the government intends to retain control of shipping, shipbuilding and kindred industries for one or two years after the war, instead of months. It is understood, says the news agency, that one of the reasons for this is to prevent Germany from obtaining ships from their shipyards through neutral orders until the requirements of Great Britain and her allies are fully met.

Already the shipbuilding yards are loaded with orders for after-the-war delivery. During the present week alone orders for 100 ships were received by northeast coast and Clyde shipbuilders.

Discussing the possibility for permanent peace after the war, Lord Robert Cecil, minister of blockade, said that the United States, Great Britain and France must find some way of exterminating the German war baron class, which finds war a profitable business and spends its peace time energy in inciting war.

SWEDEN DECLARES FOR NEUTRALITY

Regardless of Consequences, That is to be the Policy of New Government.

Stockholm, October 17.—In response to the King's appeal for unity, the leaders of all parties, Conservatives, Liberals and Socialists, have sent replies that all agree to the absolute necessity of the new Government observing strict neutrality in the war, regardless of consequences.

The Conservatives emphasize the importance of maintaining commercial relations with both groups of belligerents. The Liberals and Conservatives are favorable to a coalition Ministry, but the Socialists consider this solution impossible on the ground that the fundamental democratic conditions for a coalition are lacking.

FRENCH WOMEN AND GIRLS TAKEN INTO GERMANY

German Soldiers Escort French Women and Girls to Trains Leaving for Somewhere in Germany.

New York, October 18.—Reports received here from Amsterdam state that the German authorities are continuing to remove all the French women without children, and young girls from Lille, Roubaix, Tourcoing, Croix and the surrounding district and towns. They are being escorted to trains by German soldiery, and they have no choice but to go. Their destination is not told them, nor do the inhabitants know whether the trains are bound, as the destination of the trains is unadvertised.

SPAIN AND GERMANY MAY BREAK RELATIONS

Washington, Oct. 17.—A serious international incident is involved in the escape of an interned German submarine from the Spanish port of Cadiz. The Government of Spain is placed in an unenviable position through this occurrence and its possible consequences. Spain's attitude in the war may be determined by the violation of international law at the departure of the U-boat from a Spanish port.

Unless the German Government returns the escaped submarine to Spain for internment for the remainder of the war, Spain will be placed in the position of having been insulted. In the opinion of those best qualified to judge of the matter, Spanish pride will be bound to assert itself unless the German Government makes amends for this gross disregard of international law and usage.

The possibilities of the situation must give grave cause for alarm at Madrid, it is believed here. Spain, it is held, will not tolerate this German contempt for Spanish rights. Should the escaped U-boat sink any national or merchant vessel the Spanish Government would be obliged to hold Germany to a strict accountability. As the matter stands, the chances of involving Spain in the world war are very great.

So far as the Entente nations, Japan and the United States are concerned, offensive action by the escaped submarine would probably force a grave international crisis. It is not doubted here, however, that the Spanish Government will leave no stone unturned to cause the German Government to make amends for this gross departure from the rules laid down by responsible nations, and observed to the letter by all those which have a regard for international decency.

UNION GOVERNMENT

Judging from their comments many of our contemporaries appear to regard the organization of a Union Government as the end of Canada's troubles and the final readjustment of the country's chaotic political conditions. The consummation of the project undoubtedly will simplify matters in many respects in regard to the election, but time alone will tell whether it will justify the high hopes held out for it in other ways. The first Union Government in the United Kingdom, exceedingly strong in personnel, collapsed after a series of grave war blunders. France has had half a dozen Union Governments since the war began. The true test will be the policies and performances of the Ministry in their relation to war problems. It is imperative that Canada's resources be fully mobilized for war, that the conscription of men be accompanied by those other activities of which the conscription of men is only one complement. An end must be put to profiteering, and those who are making most out of the war must contribute most of its cost. There must be real food control—in production and distribution—and the Food Barons must be squelched. Economy and thrift must be practised by the Government as well as by the people. More generous provision must be made for soldiers' dependents and the pension scale must be revised. An organized plan for repatriation and demobilization must be put in operation without delay. These are the chief features of a programme on which the public will expect the Union Government to take effective action. We believe that there are men in the new Administration who will press for this, and we know them well enough to be certain that if through the opposition of special privilege or the Big Interests their representations are ignored they will leave the Cabinet and take their cause before the country.

In certain quarters in both parties there is strong opposition to the Union Government idea. One Liberal paper vigorously assails those Liberals who have entered the Cabinet and charges them with swallowing their Liberal principles. It prefers a straight party line fight. On the other hand Sir Robert Borden is attacked in his own party for the same reason. In war time political leaders have to do a great many things they would not do in

time of peace. War conditions cannot be met on peace standards. Liberals in England—who stand for pure, unadulterated Liberalism, a Liberalism in comparison with which our own has been a pale variety—made wry faces when they sat down at the table with Lords Milner and Curzon and Sir Edward Carson and others whom they regarded as reactionaries, but the situation left them no other choice. Whatever may be thought of the policies of these men in time of peace undoubtedly they were useful for war. A democracy cannot make war without abandoning many of its most cherished principles simply because war, especially this war, primarily arises from autocracy and is therefore the absolute negation of democracy.

Canada was the last country of all the active belligerents, saving the United States, to have a Union Government and in the United States there are no party lines as far as the actual direction of the country's efforts in the war is concerned. The great advisory boards which constitute the real directorate are composed of the big men of all parties. Party lines went by the board in Congress immediately war was declared. A Union Government in Canada was inevitable. Whether it was this particular Union Government or not time will tell, for if it is not, the real one will evolve out of it; it will be forced by conditions throughout the country.—Victoria Times.

It is hoped that not a man, woman or child in Prince Rupert will fail of their duty on October 20th.

ALL MAILS LEAVING U. S. WILL BE CENSORED

Washington, Oct. 17.—A censorship of mails leaving this country is being planned today. Under the President's proclamation, putting the enemy trading law into operation, George Greel is considering measures for stopping military information leaking through letters.

Issuance of licenses to foreign language newspapers also is under way. At the first signs of disloyalty these organs will be curbed.

The President has under advisement appointment of a custodian of alien property, another feature of the new law. This official may transfer to himself any money, property or lien owned by an enemy. Many Germans are expected in self protection to place their property under the custodian's powers.

The enemy trading law further tightens the strings around Germany. By presidential proclamation the exports council becomes the war trade board with Vance McCormick still chairman. A special committee will censor outgoing mail and radio and cable messages.

The law shuts down on trade with Germany or her allies; gives power to stop trading with countries openly aiding Germany, and guards war patents.

Bathe Internally

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestines for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied, drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's Drug Store, or 3rd Avenue and 6th Street, Prince Rupert or ask there for "Why Man of Today is Only 50 Per Cent. Efficient," a booklet of great interest, which is given free on request. If you prefer, write for booklet to Dr. Chas. A. Tyrrell, 163 College Street, Toronto.

THE FUEL CONTROLLER'S DRASTIC REGULATIONS

Ottawa, Oct. 17.—Regulations are being framed by C. A. Magrath, fuel controller, for the fixing of profits on the sale of coal by brokers, wholesalers and retailers throughout Canada. It is understood that retail profits will be limited to fifty cents a ton and wholesale dealers and brokers' profits will be on a still lower scale. It is also likely that provision will be made to restrict undue accumulation of coal in the hands of consumers. Complete machinery will be provided for the prosecution of any infractions of the regulations, which are said to be very drastic in scope.

More money must be forthcoming to enable the British Red Cross Society to continue its beneficent work of mercy among the sick and wounded. Besides the satisfaction of having contributed to a most worthy cause, you can feel in your heart that you have practically helped towards victory in the war. October 20th a collection will be made. Get ready.

"How Many of our Men are Liable to be Drafted?"

The Canadian business man is asking this question often, now that the Military Service Act is the law of Canada. A simple means of answering it at once is being provided.

Medical Boards are in process of formation throughout the country for the free physical examination of all men who apply. The first class liable to call includes all single men and widowers without children between the ages of 20 and 34 inclusive, all men married after July 6, 1917, being classed as single for the purposes of the Act. In a very short time, the average employer may learn how many of his staff are liable for selection. Those adjudged physically unfit will be given a certificate which will secure them exemption from any Exemption Tribunal. Those found physically fit may still apply for exemption on any ground. The employer will be given a chance to decide if he should seek exemption for any employee whose physical condition renders him liable for selection.

This early medical examination, which quickly decides if a man is liable for selection or not, is a feature of the operation of the Military Service Act calculated to appeal strongly to the business community. It assists in definite planning for the future, enabling an employer of labor to learn at once what men will be left at their work and those who may be removed for military service. Haphazard withdrawals, the nightmare of business men of method and precision, are insured against by this timely arrangement.

Every employer of labor will find it to his advantage to note carefully the formation of Medical Boards in his locality and to be sure that his employees secure as early as possible this very important information as to their status under the Military Service Act.

Issued by
The Military Service Council.

MINERAL ACT

NOTICE TO DELINQUENT PARTNER

To C. W. Calhoun:
Take notice, whereas I have done and caused to be done assessment work on the Midnight Fraction mineral claim, situated on the Illance river, about fourteen miles from the head of Alice Arm, in the Skeena mining division of Skeena district, assessment work for 1914, 1915, and 1916, and have paid for said work and recording same the sum of \$307.50. Unless you pay me the sum of \$102.50, for your share of the said assessment work, together with the cost of this advertisement, I shall, at the expiration of ninety (90) days from the date hereof apply to the mining recorder at Prince Rupert, B. C., to have your interests in the Midnight Fraction mineral claim vested in me, in pursuance of the provisions of the mineral act.
Dated at Prince Rupert, B. C., this 30th day of September, 1917. D21.
H. C. PHILLIPS.

Delivery boy wanted—McRae Bros. 241.

Tag Day October 20th for "Our Day" at Seal Cove and in Prince Rupert.

Pathe Pathephones and records—sold on easy monthly payments—Wallace's. tf.

Mr. J. R. Beatty left this morning for his logging camp near Port Edward.

The sale of home cooking in the Red Cross tent tomorrow will be under the charge of Mrs. George Kerr and Mrs. Pringle.

The Seal Cove Branch of the Red Cross Society will be out on Saturday, "Our Day," and hope to tag everybody at the Seal Cove end of the city.

Mr. and Mrs. W. F. Byer, of Smithers, are in the city on a visit. Mr. Boyer is a lumberman and is interested in the sawmill at Skeena City.

The fire chief, Mr. D. H. McDonald, is making satisfactory progress towards recovery from his recent accident. He was out yesterday afternoon.

The crop of potatoes grown by Mr. Van Gastel on the Government block on Third Avenue is a fine one. Those that he dug this morning looked splendid. Muskeg can certainly produce fine spuds.

Mr. W. McNeish of the Workman's Compensation Board, is in the city for a few days on departmental business. Mr. McNeish is auditor for the board and is a former mayor of North Vancouver.

Mr. A. E. Mallett, of Messrs. R. G. Dunn & Co., Victoria, has been in the city for the last few days and intends leaving for the south tonight. He has been taking stock of the trade conditions in Prince Rupert which he finds to be good.

Reginald Skideen, the Gitlakdamiks Indian charged with the theft of specie, on the Naas river, came up before Judge Young this morning at the county court for sentence. In consideration of the age of the accused, who is only fifteen, he will be allowed out on suspended sentence, upon receipt of bonds from his father and another for the sum of \$500.

Ask yourself this question: "Do I want the war continued to a victorious end?" Then ask yourself another question: "How am I able to assist towards that object?" The answer to the first question is of course, "YES." The answer to the second question is: "I must make up my mind to give a practical demonstration of my sentiments in the matter by making a generous contribution to the fund for 'Our Day,' October 20." Get Ready.

VON TIRPITZ IS VERY HOPEFUL FOR FUTURE

Amsterdam, Oct. 17.—Admiral von Tirpitz, former minister of the German Imperial navy, interviewed by the Brunswick Landes Zeitung, is quoted as saying:

"We can continue to confidently expect a final triumph over England as long as we continue to sink vessels faster than she constructs them. A submarine war success cannot be expected immediately, however, but if we pursue our aim firmly, we shall find after some months that our position for negotiations with England will be quite different.

"No definite time can be fixed for our success. Economically and as regards raw materials, our position today is stronger than that of France or Italy. How far England will be able to make her supplies last cannot be predicted. "We are now at the fateful hour of our existence. Germany cannot maintain her position as a world power against England unless her position is founded on might."

On Friday afternoon at three o'clock the pupils of the public schools will hold a demonstration on the corner of Sixth Street and Third Avenue in support of the collection for "Our Day" for the British Red Cross which will be taken on Saturday.

The Ladies Auxiliary of the Prince Rupert General Hospital will hold their annual ball in the St. Andrew's Hall on October 19. Dancing will commence at 9:30 p. m. The Westholme Orchestra will be in attendance. Admission \$1.00. 237-8-9-3-4
