## RUSSIAN GOVERNMENT MOVES TO MOSCOW

### REVAL BEING EVACUATED — FRENCH "NIBBLING" TACTICS PROVE SUCCESSFUL

#### MOSCOW AGAIN IS CAPITAL OF HOLY RUSSIA

Government is Removed From Petrograd—Evacuation of Reval Has Been Commenced.

London, Oct. 20.—Despatches received from Petrograd state that the Russian Government has decided to remove to Moscow. Moscow is the ancient capital of the Russian Empire. Situated in the heart of Russia in Europe, it is still regarded by the Russians as the most important city. The city of Reval, in Estonia, is to be evacuated, in view of the advance of the German advance from Riga. While there is no immediate danger, this measure is being taken as a precautionary move. Reval is an important city, situated on the Gulf of Finland, and in pre-dreadnought days, the Gulf, was regarded as the outermost defence of St. Petersburg. Meantime, the Russian fleet is in good fighting trim, and it is the intention of the Government to protect Petrograd.

**French Front.**  
Paris, Oct. 20.—The French troops have successfully destroyed the German defences and have taken 100 prisoners in detail operations on the Aisne front. Successful local attacks have been made on the enemy's positions, and enemy raids have been everywhere repulsed. A strong attack was made by the Germans on the right bank of the Meuse, which was broken up by our artillery. The enemy failed to reach the front line trenches. In the bank line, German airmen dropped bombs, without causing any casualties.

**Air Raids.**  
In Flanders, the British air force carried out daring attacks upon the enemy aerodromes, causing great conflagrations. The British airmen are constantly harassing the enemy, and give him no peace behind his own lines.

**Torpedo Boats Sunk.**  
Petrograd, Oct. 20.—Two German torpedo boats have been sunk by mines in Moon Sound during the enemy operations in the Gulf of Riga.

#### THE OPERATION OF THE IDLE DRYDOCK

The Building of Car Ferries at Hays Creek May Take Place in the Near Future.

Since arising out of the visit of the official party of the G. T. P. officials recently to Prince Rupert, there have been rumors that the plant at the drydock is to be started up in the near future. While nothing of a very definite nature can be learned regarding the matter, there seems to be good reason for believing that such is the case. The traffic arising on the coast for the G. T. P. is increasing week by week. Last week, for instance, there were four extra freight trains despatched for the east with Pacific coast produce, in addition to the regular freight trains.

Swanson Bay and Anyox are expected to be the points from which to Prince Rupert the car ferries will be operated. Cars loaded right at these points will be put on the rail here, thus doing away with the necessity for transshipping and rehandling at this point, which is costly.

The recent purchase of a powerful tug by the G. T. P., together with several barges points to their usefulness being put into operation somewhere.

When building operations commence at the drydock plant of these car ferries, quite a number of men will be employed in their construction, and it is to be hoped that once operations are started, after such a delay since the completion of the plant, that they will be kept going permanently.

#### SERG. GEORGE LEAK RETURNS TO THE CITY

A hearty welcome was accorded to Sergeant George Leak on his arrival back in town by the Princess May last evening. At the wharf, the Cadet Corps, which he used to command here before the outbreak of the war, were lined up to greet their old instructor.

and a hearty speech of welcome was made by Mr. Brady, principal of the High School.

Sergeant Leak made his way across to Britain and there he joined the Royal Artillery and was with the big guns on the Arras front. He was invalided about a year ago and has since that time been in hospital in Le Tremont in France and later in the military hospital at Leicester in England. His many friends are glad to see him back again, after having done his bit.

#### THE PROVINCIAL GOVT. AND CITY WATERFRONT

Proposal on Foot to Let the City Have 465 Feet of Waterfront at Mouth of Cow Bay.

Yesterday afternoon, Mr. G. R. Naden, deputy minister of lands, had a meeting with the city council, when the question of waterfront and need of the city in this respect was brought up. In the event of the filling up of Cow Bay which was proposed and discussed this year already, it is proposed that the Provincial Government give to the city of Prince Rupert a deed to the new waterfront which will thus be created. Including lot 6 of the present holding of the Provincial Government, the proposed city waterfront will extend across the present mouth of Cow Bay, covering what is now occupied by Davis Float and reaching nearly to the site of the proposed new cold-storage plant.

That the city requires to have some outlet upon the waterfront cannot be denied. There is an urgent necessity for the provision of suitable landing places for the numerous gas boats which ply from Prince Rupert to the surrounding points. Several of the present landing places are very difficult of access at present, and the requirements of Prince Rupert's water borne traffic in the smaller boats hitherto have not received that attention which it warrants. In possession of this waterfrontage, the city will be in a position to go ahead with the proposed coal wharf, if such is found necessary. There will be enough on this stretch of waterfront to enable both these projects to be put into operation, and from the situation of this property access will be easy to the city.

#### ST. ANDREW'S SOCIETY LOSES TWO MEMBERS

Sergeant Frank McVittie and Corporal Neil MacKay Both Give up Their Lives.

Confirmation of the sad news of the death of Sergeant Frank McVittie has been received in town by the last mail. During the month of August, his name appeared in the casualty list, but the War Records Office contradicted this immediately. However, since that time, the first report has been confirmed.

Frank McVittie was one of the worthy members of the St. Andrew's Society here, and he came from Hawick originally in the Border country. He left here with the 62nd Battalion, and his loss will be regretted by all who knew him.

The latest casualty list also carries the name of Corporal Neil MacKay. He was one of Prince Rupert's old timers and well known throughout the city and district. He leaves a wife and several children who are at present living in the south. Mrs. MacKay and her fatherless children will receive the sympathy of all who knew them.

#### LECTURE ON SUNDAY

A continuation of the subject of the lecture given last evening by Pastor E. J. Baker in the Empress Theatre will be made on Sunday afternoon. Pastor Baker intends to review the present social conditions from the standpoint of Bible Prophecy. A very interested audience listened last evening to Pastor Baker, who proved himself to be master of his subject, and his lecture tomorrow afternoon is already a matter of deep interest to those acquainted with Old Testament prophecy.

#### IMPORTANT NOTICE!

Mrs. H. P. Plumtree, Honorary Corresponding Secretary of the Central Council, Canadian Red Cross Society, Toronto, will speak to members of the local Canadian Red Cross Society and all others interested in Red Cross work at the Council Chamber, City Hall, Tuesday, October 23rd at 8 o'clock p.m.

Mrs. Plumtree is an able and accomplished speaker and it is urged that as many as possible be present.

#### TURKEY IS ON THE POINT OF COLLAPSING

The Continued Hostilities Are Proving Too Much—Kaiser is Much Alarmed at Developments.

London, October 20.—Reports reaching Great Britain and France from authentic sources indicate that the position of Turkey is now precarious. Her military strength is on the point of collapse, owing to the continued hostilities, which she was not prepared for, notwithstanding all the assistance she has received from the Central Empires. The Kaiser has been greatly perturbed over the recent developments in Constantinople. This is alleged to be the reason for his visit to his ally. The presence of the All Highest in the Turkish capital is expected to put some stiffening into the wavering courage of the Turks.

Internal conditions in Turkey have been steadily growing from bad to worse during the past year, and the continuous defeats inflicted upon their forces in Asia, in Palestine and in Mesopotamia have caused the Turkish rulers serious consideration.

#### AN OLD PROBLEM FOR THE NEW GOVERNMENT

Winnipeg, Oct. 18.—A resolution asking for the immediate removal of customs duties from all agricultural implements and machinery and automobiles retailing at less than \$1000 "as the most efficient way to encourage farmers to produce, and at the same time lower the cost of production," was forwarded to Food Controller Hanna from a meeting of the Manitoba Food Control Advisory Committee held last evening.

Two resolutions sent in by the Local Council of Women, the one asking for government control of cold-storage plants, the other advocating the adoption of the "cash and carry" system by grocers and butchers were dealt with and forwarded to the food controller.

#### THE 102ND BATTALION LOSES ITS EXISTENCE

Victoria, Oct. 20.—The 102nd (North British Columbians) Battalion has lost existence as a separate unit on being posted to the 2nd Central Ontario Regiment. This battalion was largely recruited by its old commander, Lieut.-Col. John Warden, D.S.O., who spent several months in this work while on sick leave in British Columbia, following the wounds he received at the second battle of Ypres.

"We are being shot round like orphans without a home, and feel keenly not having been left as a British Columbia battalion, knowing that the province has sent so many men," says the colonel in writing home to friends. The "breaking-up" of the 102nd now leaves only four active service battalions which, in composition, are strictly British Columbians—the 7th Battalion (1st B. C. Regiment), 16th, 29th, and 47th. The North British Columbians have a record of which they may well be proud.

#### SWEDISH STEAMERS ARE REQUISITIONED

London, Oct. 18.—The British Government has requisitioned the Swedish steamers Sphynx, 1,572 tons; Belgrove, 1,284 tons; Cremona, 1,225 tons, and Phyllis, 1,484 tons. These steamers, which are now in British ports, although flying the Swedish flag, are mainly British owned.

This action has been taken in order to protect the British capital invested in the ships, as the German Prize Court has decided that notwithstanding a neutral flag they will treat such vessels as British. The steamers henceforth will fly the British flag and be armed for defence. Their owners will be compensated by the British Government.

## A THING OF THE PAST

There is no longer a Borden Government as we have known it for the past six years. The Borden Government has ceased to exist. The long looked for Union Government now is. The Liberal members who have joined some of the members of the late Borden Government in forming this present Union Government are not assuming the responsibilities for the acts of the last one. They cannot be expected to. The new Ministry as a whole will want to escape from the burden of the blame for the many blunders and sins of the old Borden Government. They may escape the blame but the consequences will require to be faced. For instance, the blame for the three years' idleness of Prince Rupert's drydock may belong to the late Borden Government. The continuance of that idleness is a consequence which will be up to the newer administration. The idea of the Chairman of the Munitions Board and apparently of the late Government has been that the Prince Rupert drydock plant could not be utilized in any way in the winning of the war. That view has not been shared by the people of Prince Rupert, nor by many of the responsible men in British Columbia. Let us hope that such a view is a thing of the past. To keep so much capital locked up, rusting, is not good business. Prince Rupert's drydock plant is one of the resources of the nation, which in certain other of the belligerent countries, would be greatly appreciated.

The new government is said to be a War Cabinet. As a war measure, the cutting of the red tape which has tied up the wheels at Hays Creek would be a very popular one.

HON. FRANK B. CARVELL  
Newly appointed Minister of Public Works.

in the public life of Newfoundland accounted for his appointment and Mr. Carvell delivered a speech in the House in which he showed why this selection should not have been made. The result of that speech was Morine's resignation. It left Sir Robert with no other choice.

Mr. Carvell's genius for uncovering corruption was revealed in the investigations by the Public Accounts Committee into the purchase of supplies for the first Canadian Expeditionary Force. The result of the attacks led by him following those exposures was the retirement from the House, at the Prime Minister's request, of Messrs. Garland and Foster. Then came the indictment of the Shell Committee, the activities of one John Wesley Allison and his association with Sir Sam Hughes. The Shell Committee ultimately went out of business; so did Allison. Then Carvell found that in his own province the Fleming Government was engaged in some very dubious operations. After looking into the situation he buckled on his armor and leaped into the fray with the result that Fleming had to resign and the Government shortly afterwards was overthrown. Thus Mr. Carvell is a critic with a "knockout punch in each hand." If he should prove as forceful and aggressive as a Minister and come into conflict with the Big Interests there will be a battle royal in which, we predict, Carvell will not be the loser. Neither he nor those who accompanied him from his party into the new Ministry will compromise with the profiteers. — Victoria Times.

## HON. FRANK B. CARVELL

Hon. Frank B. Carvell, who has been sworn in as Minister of Public Works, has a large and varied collection of hides gained on his different hunting trips in the jungle of political corruption and maladministration. A patient, tireless investigator, a relentless hater of graft in all its infinite variety, impatient of incapacity, and a strong, effective speaker who never minces his words, he has been one of the most striking figures in the party to which he belongs. Not long after Sir Robert Borden assumed office he made the mistake of appointing A. B. Morine to the head of a Public Inquiries Commission. Mr. Morine's record

## "For the Red Cross"

Ye that have gentle hearts and fain  
To succour men in need,  
There is no voice could ask in vain  
With such a cause to plead—  
The cause of those that in your care  
Who know the debt to honour due,  
Confide the wounds they proudly bear,  
The wounds they took for you.

Out of the shock of shattering spears,  
Of screaming shell and shard,  
Snatched from the smoke that blinds and sears  
They come with bodies scarred,  
And count the hours that idly toll  
Restless until their hurts be healed—  
And they may fare, made strong and whole,  
To face another field.

And yonder where the battle waves  
Broke yesterday o'erhead,  
Where now the swift and shallow graves  
Cover the Empire's dead:  
Think how your sisters play their part  
To serve as in a holy shrine,  
Tender of hand and brave of heart,  
Under the Red Cross sign.

Ah, by that symbol, worshipped still,  
Of life blood sacrificed,  
That lonely Cross on Calvary's Hill,  
Red with the blood of Christ;  
By that free gift to none denied  
Let pity serve you like a sword,  
And Love go out to open wide  
The gate of life restored.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 31 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

LATEST PHOTO OF LORD AND LADY READING

Lord Reading, who is the Lord Chief Justice of England, is in America on a special mission for Great Britain, in connection with the financing of the war. Regarded as possessing one of the greatest financial minds in the British Empire, he has made several trips to the United States and Canada during the war to arrange for the financing of the Allies.

### BRITAIN RECOGNIZES AN OLD FRENCH CLAIM

Washington, October 18.—The claim of the French Government to the town and port of Sheikh Said, situated on the Cape of Bab-el-Mandeb, opposite the Island of Perim, has been recognized by the British Government. This claim was bought about 1850 by a Frenchman from an Arab Sultan who ruled that district, and as a result of that sale the French Government has claimed the place for many years.

Sheikh Said is strategically located. It commands the Island of Perim; and the strait of Bab-el-Mandeb. For this reason the British Government never before recognized the claim, but Britain and France are now allies in a great war, and the present time was considered an ideal one for making this concession to the amour propre of the great French nation.

This port will be of great commercial and political value to the French as an entrepot to the potentially rich and valuable Turkish Yemen. During the war the place has been important as an alleged base for smuggling arms and ammunition by German and Turkish interests in the Yemen to the Mohammedan tribes in French Somaliland, and thence into Abyssinia for the purpose of causing political disturbances. In the early part of the war British naval forces took part of Sheikh Said, but later abandoned it.

### Internal Bathing's Rapid Growth

It is but natural to expect that a relief from constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an internal bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes: "Dear Doctor, Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and to-day she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail at Cyril H. Orme's Drug Store, cor. 3rd Avenue and 6th St., Prince Rupert.

### SHIPS CAMOUFLAGED CROSSING THE OCEAN

An Atlantic Port, October 18.—Pleasant A. Stovall, United States Minister to Switzerland, arrived here on an American steamship to consult Government officials regarding shipments to Switzerland and to discuss other war phases.

Mr. Stovall described Switzerland as "a nation of whispers." "There is no news and everybody is discreet, to the point of extreme taciturnity," he said. "The Swiss play their part of neutrality well. There could be no criticism of them on that score."

The vessel on which Mr. Stovall arrived was so completely camouflaged, hull, deck, cabins and masts, in colors of pink, pale green, horizon blue and gray as to cause mariners here to comment. The camouflage was declared to be the most efficacious that has served for concealment purposes on any ship which has arrived here.

## LUX

To give sweater coats a new lease of life

Now that sweater coats are getting more expensive, it is more than ever desirable that you wash yours with LUX. Of all things a sweater coat, which is seen so much, must be kept soft, fluffy, fleecy and "new" in appearance. You can keep yours that way and wash it again and again if you do this:

Pour boiling water over LUX flakes—pure essence of soap—allowing 3 or 4 tablespoonfuls for every gallon of water you use. Whip into a creamy lather—a few seconds is needed. Then put in the garment and stir it about. Let it soak until cool enough for your hands to squeeze the water out of the coat—the dirt just runs away. Rinse in two or three relays of tepid water, and hang to dry.

Very simple. Anyone can do it—just a few minutes' work and you get a result that the most expert French cleaner might well envy.

LUX won't shrink woollens. Won't hurt any fabric or color that pure water can safely touch.

## Medical Boards are Ready !

Medical Boards are now ready to examine all men who apply as to their physical fitness for military service. These boards are established throughout this district.

Upon examination, the medical board will classify each applicant according to his fitness; into Category A if he is fit for service in overseas fighting units; Category B if fit for service overseas in Army Medical Corps, Forestry Battalions, etc; Category C if fit for service in Canada only, etc.

Only men whose medical examination places them in Category A will be included amongst those required to join the colours in the first instance; the men placed in any other category will remain at home until men in the category to which he has been assigned are called to the colours. The men placed in Category A may still apply for exemption on any ground.

Men between the ages of 20 to 34 inclusive, who were unmarried or widowers without children on July 6th, 1917, are strongly advised to reappear before a Medical Board at once. This is the quickest and surest way for them to find out their status under the Act.

Parents and employers are also urged to have those in whose cases they are specially interested visit a Medical Board and undergo examination. The methods of examination are simple and will result in no discomfort or inconvenience.

Now is the time for employers to obtain facts of the greatest value to them in making their calculations. The Medical Boards will determine how many of their employees will be left at home for physical reasons and how many will be selected for service unless an application for exemption be made with success.

Issued by The Military Service Council.

Yesterday, the Booth Fisheries, Ltd., shipped a halibut through to Chicago which will doubtless be regarded there with some curiosity. It was a big one and weighed about 235 lbs. This is one of the largest that has been landed here and it excited some interest on the waterfront yesterday.

Yesterday afternoon Prince Rupert's school children made a preliminary demonstration for Tag Day for the Red Cross. The gathering was held at the corner of Third and Sixth. The open-air singing of the scholars was one of the features. A short address was made by Judge Young.

The Ladies Auxiliary of the Prince Rupert General Hospital are to be congratulated upon the success of their annual ball which was held last evening in the St. Andrew's Hall. There were many dancers present, the music was splendid, and otherwise the function was everything that could be desired. Every one there admits having one of the best times ever.

**NOTICE**

To The Ladies of Prince Rupert.

For the first time a vote on Civic matters is given to ladies who pay their Road Tax. Any lady wishing to exercise this right must pay the Road Tax, \$2.00, and make a declaration before me this month. Ladies should take as deep an interest in Civic affairs as men; therefore, exercise your franchise.

O. 20,27 FRED PETERS, City Clerk.

**VOTERS, ATTENTION!**

Persons, either male or female, entitled to vote either as householders, that is on Road Tax Certificates, or as holders of licenses, must make and file with me a declaration during OCTOBER.

Failure to comply will prevent registration as Voter. 246-52

FRED PETERS, City Clerk.
