ON RUSSIAN FRONT, GERMANS RETREAT AND PREPARE TO RETREAT IN FRANCE

ANOTHER STRATEGIC RETREAT EXPECTED ON WESTERN FRONT

FRENCH AVIATORS DISCOVER SIGNS OF GERMAN PREPARATIONS TO EVACUATE REGION OF LATEST FRENCH VICTORY—FRENCH ADVANCE BEING CONTINUED—MANY AEROPLANES BROUGHT DOWN

(Special to The Daily News.)
Paris, Oct. 26.—Further progress was made last night on the Aisne front by the French troops, chiefly between Chavignon and Mont des Singes. The farm of Hohay was captured by the French and many prisoners taken. The French advance reached the Oise and Aisne Canal, capturing the village of Pargny, Filain and the village of Filain also fell into our hands. French patrols occupied several farm buildings close up to the German lines, driving the German defenders out. A large quantity of important war material was abandoned by the Germans, including many big guns, which they did not have an opportunity to remove.

A Strategic Retreat.
The Paris press asserts that the French aviators flying over the Aisne Sector have reported evidences of the German plan of raising the villages and any trees left standing, to the ground in the same manner in which they proceeded prior to their famous strategic retreat on the Arras-Cambrai line last spring. The position of the German forces has become precarious on account of the dominating positions now held by the French troops as the result of their latest advance, and it is extremely probable that the Germans are preparing to make another retreat "for strategic reasons."

BRITISH REPRISALS FEARED BY GERMANS

Zurich, Oct. 24.—That Great Britain's decision to bomb German cities and towns in reprisal for air raids on London and other English cities and towns is having a sobering effect in Southern Germany is indicated by "The Muenchener Post," which says that air attacks on open towns have proved, quite apart from moral estimates, that this mode of warfare will be the means of stiffening, rather than breaking the determination of the people. The newspaper says this applies to all the belligerents, and that it would be a matter of rejoicing if all of them would agree "no longer to make this fearful world catastrophe still more horrible through the slaughter of defenceless persons."

SIR WILFRID LAURIER'S MANIFESTO NEXT WEEK

(Special to The Daily News.)
Ottawa, Oct. 26.—So far as can be learned here, Sir Wilfrid Laurier will issue his manifesto next week. It is expected in some quarters that it will be based chiefly upon the tariff and the high cost of living. Sir Wilfrid will pledge himself to eliminate the profiteers. The Liberal chief will not make a western tour on account of his age, but will send able lieutenants.

MR. W. WARNER DRIFTS 25 MILES IN OPEN BOAT

**Blown Out of Refuge Bay at Night
Small Boat Nearly Swamped—
Drifts to Lucy Island.**

Mr. W. Warner, one of the crew of the Lillooet, who has been missing from the vessel since Sunday night, is in town this morning, after a rather distressing experience. He put in fifteen long hours in an open boat, half full of water, drifting before the wind, which was blowing half a gale. His experience is hardly one to be envied.

On Sunday, the Lillooet was at anchor in Refuge Bay on Porcher Island. Mr. Warner has a ranch there, and obtained leave to go ashore to visit his place. He left the vessel about five p.m. and transacted what business he had ashore. He left the postmaster, Mr. Miller, about half past nine to go back to his ship. It was then dark with a good breeze blowing. In the darkness, Mr. Warner pulled past the bow of the ship and intended pulling up under her stern, but found the breeze too strong. He was literally blown out of Refuge Bay.

Once out in the open, a big comber broke over the little boat, half filling it. Mr. Warner hastily reached for the baler, when the wave carried away one of his oars. He drifted thus all night, and when morning broke, found his boat heading for Dundas Island. Steering as best he could with the remaining oar, however, he managed to make Lucy Island, where he arrived half dead with cold, and exhaustion after 1 p.m. Once there, however, he was in the kindly hands of Mr. Oullette, the light keeper, who gave him every attention, and restored his ebbing vitality.

Mr. Warner arrived in town last night.

A PUBLIC RECEPTION TO BISHOP BUNOZ

A public reception will be tendered to the Right Reverend Bishop Bunoz in St. Andrew's Hall on Saturday evening. The committee in charge will make the occasion as informal as possible, so that his many friends may have an opportunity to greet him. No special invitations will be issued. Everybody will be welcome at St. Andrew's Hall, October 27 at 8:30 p.m. 250-2.

BODY OF MR. WM. ANGLE FOUND AT SHAWATLANS

**Search Party Successful This
Morning in Locating Remains
of Missing Man.**

Early this morning a telephone message was received in town from the power house at Shawatlans stating that the body of Mr. William Angle had been found. Yesterday afternoon the party out searching was augmented by a large number of citizens, and arrangements were made for a systematic search of the ground. A little before eight o'clock this morning, according to information received, Mr. Jim Hampton came upon the body of Mr. Angle lying in a little ravine only about half a mile from his cabin. The details received so far are vague, but so far as can be made out at the moment, it seems that Mr. Angle had been successful in getting a deer, and was on his way down the mountain with the carcass. This he had left along with his rifle some little distance back on the hill and he was apparently making his way along the creek to his cabin. Whether he had received any injury, and if so, whether before or after he left the deer is as yet unknown. The full details will not be received until the arrival of the searchers which is expected early this afternoon.

B. C. WHALERS HAVE A RECORD SEASON

Victoria, Oct. 24.—Although the season is practically over an unusual number of whales have been spotted off Kynquut with the result that during the past day or two the total catch at the West Coast station has been considerably augmented. At this time last year all the steam whalers had left the stations for winter headquarters, but, according to information received by C. S. Ruck, manager of the Victoria Whaling Company, from the Kynquut station, the prospects are so good for future hauls that arrangements have been completed for the operation of additional vessels from that station.

Mr. Ruck stated this morning that the fleet will remain at sea while the weather permits. The weather conditions off the West Coast are fairly good at the present time, and it is likely that the season will be extended several weeks.

The Kynquut station grabbed ten mammals in one lot and this success had the immediate effect of inducing the company to order the steam whalers which have been plying out of Sechart to Kynquut. Consequently five whalers, the St. Lawrence, Black, Brown, Green and White, are now waging war on the monsters of the deep off this station. The whalers, William Grant, Orion and Blue, are still keeping busy off the Rose Harbor station.

The approximate catch to date for the three whaling stations is 400 whales—humpbacks, sulphurbottoms, Finns, Sei whales and some sperms. The catch this season will be in excess of last year.

HON. MINISTER OF LABOR HAS A HIGH HEART

St. Thomas, October 24.—The Times carries the following from Ottawa in an interview with Hon. T. W. Crothers, Minister of Labor: "There has been no intention, and there is no intention, that I shall quit the Labor Department. With the assent of the electors of West Elgin, I expect to be Minister of Labor after the general elections as before."

GERMANS RETREAT ON THE RUSSIAN FRONT

**—Lord Northcliffe says War
is Just Beginning.**

(Special to The Daily News.)
Petrograd, October 26.—A big German retreat is now under way in the region of the Gulf of Riga. The enemy operations are being constantly harassed by our pressing them closely. The main forces of the Germans are nearly back to Dwinsk, and its fortified line.

POLISH LEGION AT CAMP NIAGARA

**Expeditionary Force of Poles are
Preparing to go Overseas "to
Berlin to Free Poland"**

Niagara-on-the-Lake, Oct. 24.—A big Polish flag (a dark maroon color with a silver grey eagle in one corner) hangs in a conspicuous place near Camp Headquarters at Niagara-on-the-Lake, and under it is a big sign bearing the words: "To Berlin to Free Poland."

The troops now training at Camp Niagara will probably form part of the Polish Expeditionary Force which is being organized in France at the present time, and which will be conducted along the same lines as the Canadian, American and Australian armies. This force, it is said, is to be entirely independent of any other army, all its officers and men will be of Polish birth or descent. Polish citizens, who have wandered abroad in search of the freedom they did not enjoy at home, are welcomed to its ranks. The nucleus of the new army is composed of Poles who have served in the French army since the war began. All grades of society are represented among its volunteers. Nobles will fight beside artisans, professional men beside laborers, and boys of eighteen beside greybearded men of sixty. Proof of this may be found in the troops at camp here.

ALLEGES SINN FEINERS ON VERGE OF REBELLION

(Special to The Daily News.)
London, Oct. 26.—The seriousness of the situation in Ireland is being insisted upon by the correspondent of the London Daily Mail, who has been following up the doings of the Sinn Feiners for the past several weeks. He says that the whole of the West of Ireland is on the verge of another armed rebellion.

ITALIANS HAVE HARD TIME ON ISONZO FRONT

**Austro-German Bombardment of
Italian Positions is Very
Severe—Germans Break
Through Lines.**

(Special to The Daily News.)

Rome, Oct. 26.—The violent bombardment of the Italian positions on the Isonzo front is being continued without interruption. That portion of our line between the southern slopes of Monte Rambino and the northern edge of the Bainsizza plateau is receiving the chief attention of the enemy fire. The northern part of the Italian line resisted the attacks of the enemy but further to the south, the German attackers were successful in breaking through our advanced lines. On the left bank of the Isonzo to the west of Volnik on the western slope of Monte Santo Gabrielle, our advanced line was overwhelmed, but the enemy has been checked at our main positions.

Per Berlin Wireless.

Berlin, Oct. 26.—In the drive which the Austro-German forces are making on the Isonzo front, we have already captured ten thousand Italian prisoners, among which are the brigade and divisional staff of the Italian army. Much war material was also taken.

LORD RHONDDA'S APPEAL

"I now am able to limit the profits derived by those engaged in the food industries of the United Kingdom. We examine the books, and apply a system of cost and expense. I expect to hear that Mr. Hoover and Mr. Hanna have taken similar steps, so that we will be able to assure the people that the existing high prices of imported food do not represent profiteering."

"In this connection I am anxiously watching the price and the available supply across the water of food-stuffs for cattle, upon which depends largely the price of meat and bacon. Unless the existing high levels are reduced, the poorer classes in the United Kingdom, France and Italy are faced with many privations."

—Lord Rhondda, British Food Controller.

Lord Rhondda's conception of the duties of a Food Controller apparently differs from that of Mr. Hanna, who holds that office in Canada, and those who are giving the official explanation of his status. The Victoria Times points out. Rhondda limits profits in order that food might be kept within the reach of the consumer with due regard to the conservation of the supply. But he realizes that no matter what he may do to keep prices down he is seriously handicapped in respect of commodities imported from Canada and the United States if profiteering continues unchecked in these two countries. Hence, he asks the Food Controller in Canada to take action similar to that taken by him in controlling the profits of those engaged in the food industry. He asks for their co-operation in a programme calculated to maintain prices on a plane which would allay anxiety on the part of the people besides conserving the economic strength of the nations involved.

A Food Controller was appointed in Canada in response to a nation-wide agitation for

the suppression of profiteering, for the control of prices, the conservation of the country's food supply, in short, for the very measures Lord Rhondda asks Mr. Hanna to take. Nobody demanded a Board of Food Control of over a hundred employees, some of them very highly paid, merely to issue warnings against waste and extravagance and appeals for more production. The newspapers of Canada had been doing all that ever since the war began. Committees and public bodies were promoting economy and production long before a Food Control Board was appointed.

Mr. Hanna and his apologists appear to think that the functions of a Food Control Board in Canada are limited by the business standards of peace time; that those conditions are so complex that if strong measures were taken some fearful economic calamity would follow. Curiously enough, however, they do not extend that theory to the limitation of profits to peace percentages. The William Davies Company got along comfortably on 7½ per cent in time of peace but last year earned ninety per cent on its investment and actually paid a fifty per cent dividend in cash and stock. It is an insult to the intelligence of the people to tell them that the Canadian Food Controller could not stop such gross extortion as that without causing national demoralization. There has been no economic disaster in Great Britain in consequence of Lord Rhondda's measures. The nation still manages to raise her \$40,000,000 per day to meet the cost of the war.

One very specious argument raised in Mr. Hanna's behalf is that unless the food industry is permitted to take full advantage of the law of supply and demand there will be less food production and the public will suffer. The absurdity of that argument is shown by Canada's experience with bacon. The great demand for this commodity trebled its production but the unfortunate consumer had to pay much more

A Pound of Whole Wheat contains 1700 calories, says the chemist—but it doesn't contain any calories for you unless you can digest it. It is what you digest, not what you eat, that supplies nourishment for the day's work. It is a time to cut out expensive foods that generally contain little nutriment. **Shredded Wheat Biscuit** is 100 per cent whole wheat—nothing wasted, nothing thrown away. It is real man-power food. Two or three of these little loaves of baked whole wheat with milk and fresh fruits make a nourishing, strengthening meal at a cost of only a few cents.

Made in Canada.

for it than when the supply was only a fraction as large. In other words the greater the supply the higher the cost to the consumer.

NOTES AND COMMENTS

With the prospect of margarine being manufactured and sold in Canada nowadays, the old discussion regarding the pronunciation of the name may trouble the Canadian purists. The popular "margerine" is heard oftener than the correct "margarine" in countries where it is used.

Germany loses eight thousand men in giving up two miles more of France. At the same rate of attrition, losing four thousand men per mile, there won't be many Germans left to make the crossing of the Rhine.

The scarcity of labor on the coast as elsewhere will be increased as the Military Service Act becomes operative. Wages for work which women cannot do may be expected to go still higher. The Canadian soldier will get whole \$1.10 per day—at the same time alien enemy subjects are pulling down from \$6.00 upwards per day in the mines. In Germany enemy subjects are interned and often starved. In the British Empire, they are not interned but are paid high wages. Some difference!

To escape the odium attaching to the political cognomen "Conservative" that machine party has changed its name to "Borden Unionist." But the machine remains the same. Verb sap.

Apologising for Sir Robert Borden's sins of omission during the last six years the Financial Post blames "the lot of incompetents not only in his cabinet but in the public service," with which he was surrounded. "Both Messrs. Ballantyne and Crerar," it continues, "two very excellent business men, had not been in office more than a few days before they each confided to their intimate friends that the atmosphere at Ottawa was most depressing, most restraining on any one who desired to do things and get things done." Ottawa must be like a graveyard—full of dead ones. Its time for a shake-up.

FISHERY LAWS NOW GOVERN THE INDIANS

Ottawa, Oct. 23.—New fishery regulations with regard to the Indians of British Columbia have been instituted under an order-in-council passed recently. The Indians of the Western provinces have in the past had the right to catch fish at any time as long as it was to be used for their own sustenance, but they are not allowed to catch fish in the closed season and sell them. It has been found that a certain amount of this illegal fishing has been going on, the Indians by virtue of their permit, fishing in the close season and selling to white dealers who were willing to buy.

The new regulations provide that all Indians must secure a permit before they can fish and that the permit shall contain a time limit beyond which it ceases to be in force. Any Indian fishing at a time outside the limit will be guilty of a violation of the regulations, and any person buying fish caught in such a way is also a lawbreaker. Indians must not spear, trap or pen fish in their spawning grounds in any place set apart for their propagation.

TAKE NOTICE that Dolly Varden Mines Company whose address is Alice Arm, B. C., will apply for a license to take and use ten cubic feet of water per second out of Trout Creek, a tributary of Kit-foot River flowing into Alice Arm, Cassiar District. The water will be diverted at the head of the Falls on the Silver Horse Mineral claim, Lot 3804, and will be used for power purposes on the Wolf and Dolly Varden Groups of Mineral Claims being Lots 3794 to 3797 inclusive, and Lots 3192 to 3197 inclusive and Lot 2854, Cassiar District.

Application will be made also for the right to store 350 acre feet in First Trout Lake and 2,200 acre feet in Second, Third and Fourth Trout Lakes. The water will be stored in First Trout Lake by the construction of a dam at its outlet and in Second, Third and Fourth Trout Lakes by the construction of a dam at the outlet of Second Trout Lake. The estimated area of land to be flooded at First Trout Lake is 17 acres and at Second, Third and Fourth Trout Lakes is twenty acres.

This notice was posted on the ground on the 18th day of October, 1917.

A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Prince Rupert, B. C. The date of the first appearance of this notice in the local newspaper was the 23rd day of October, 1917, and objections may be filed with the controller or Water Recorder within thirty days after the said date.

Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effective and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes:

Dear Doctor,—"Your Cascade" made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and to-day she has better health than ever before. Since the use of the "Cascade" she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past, can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."

The "F. E. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail at Cyril H. Orme's Drug Store, cor. 3rd Avenue and 5th St., Prince Rupert.

CANADA

Will Class One Provide The One Hundred Thousand Men?

It will be greatly to the advantage of Canada if the entire quota of 100,000 men to be raised under the Military Service Act can be secured from the first class; that is, from the men between the ages of 20 and 34 who were unmarried or widowers without children on July 6th, 1917.

This is almost self-evident for the following reasons:

it is admitted that, between the ages of 20 and 34, the average man is at the height of his physical strength and is most adaptable to the change of conditions from civilian life; the military Service of unmarried men and widowers without children would occasion less distress than that of most others, since they are largely without dependents. Also, it would entail less financial burden for Canada, through separation allowances, etc.

Authorities estimate that, after all proper examinations have been allowed, Canada should be able to produce from the first class 100,000 men fit for service, so the drain upon the man power of the country will not be severe.

Members of Class One will be well advised to present themselves for examination immediately to the Medical Board in their district. Upon examination as to their physical fitness, they will be placed in one of the following categories:

- Category A—if fit for service in overseas fighting units.
- Category B—if fit for service overseas in Army Medical Corps, Forestry Battalion, etc.
- Category C—if fit for service in Canada only.
- Category E—if unfit for military service of any nature.

If not placed in category A, the applicant will know that he is not liable for immediate service, but will go to the Post Office and send in a claim for exemption with his Medical Certificate attached, when he will receive in due course a certificate of exemption until those in his medical category are summoned for service.

Where a man, who is placed in category A, feels that exemption should be allowed, an application form can be secured from the postmaster. This form, when filled in, will be forwarded by the postmaster to the registrar of the district, and the applicant will be informed by mail as to the time and place for the consideration of his application by the Exemption Board.

Issued By
The Military Service Council.

JAP STEAMER WATCHES DESTROYER SINK U-BOAT

A Pacific Port, Oct. 24.—Officers of a Japanese steamer that arrived here today from a European port said they saw a British destroyer sink a German submarine in the Atlantic August 16th. The submarine had just made an attack on another Japanese freighter, which arrived here last week with the story of its escape.

The mate of the vessel arriving today said the two vessels were near together when the U-boat opened fire. His ship put on full speed and got out of the way, while the other stood the brunt of the attack. When the other vessel escaped the submarine turned to attack the remaining Japanese, which made ready to use its stern gun. Just then, according to the mate's story, there was a sheet of water thrown up from the British destroyer as a shell struck the submarine. A cloud of smoke followed. The submarine, the mate said, apparently had failed to observe the approach of the destroyer and was unable to submerge in time to escape its shells.

MINERAL ACT

NOTICE TO DELINQUENT PARTNER

To C. W. Calhoun:
Take notice, whereas I have done and caused to be done assessment work on the Midnight Fraction mineral claim, situated on the Hiline river, about fourteen miles from the head of Alice Arm, in the Skeena mining division of Skeena district, assessment work for 1914, 1915, and 1916, and have paid for said work and recording same the sum of \$307.50. Unless you pay me the sum of \$102.50, for your share of the said assessment work, together with the cost of this advertisement, I shall, at the expiration of ninety (90) days from the date hereof apply to the mining recorder at Prince Rupert, B. C., to have your interests in the Midnight Fraction mineral claim vested in me, in pursuance of the provisions of the mineral act.

Mr. and Mrs. D. McLeod came into town last night from Hazelton. Mr. McLeod is of the firm of Foley, Welch and Stewart and has many friends in Prince Rupert since the early construction days.

The G. T. P. despatched a special train to the east today consisting of fifteen cars loaded with blister copper from Ansox. This was brought into Prince Rupert by the Steamer Amur. The train load consisted of about 530 tons of copper valued at about \$300,000.

THE PROFITEER AGAINST PEOPLE

Toronto, Oct. 25.—Mr. Hartley Dewar, K. C., member of the Legislature for Southwest Toronto, addressed a meeting of Ward One Liberals in Armstrong's Hall, Pape avenue, last evening. He explained the new franchise act, and pointed out its inequalities. He said the Liberal party was a party that trusted all the people, and the Liberal party was responsible for the enfranchisement of women in Ontario.

The issue in the forthcoming Dominion election, he said, was the profiteer against the people. The Liberals did not propose to have their fighting-ground chosen by any Union Government. Conscription was now the law of the land, and must be and would be accepted by everybody. The supreme question today was whether they were going to stand for a Government which allowed the profiteer.

ORDER FOR TORPEDO BOATS RECEIVED BY BETH. STEEL

New York, Oct. 24.—Bethlehem Steel Corporation has received orders from the Government for over 150 torpedo boats, to cost \$1,500,000 each. This would make the total value of the order approximately \$225,000,000, and no doubt is the largest contract, from the amount of money involved, awarded by the Government since war was declared. A profit of 10 per cent. would mean \$22,500,000 for Bethlehem Steel, but it is believed the contract will net the corporation a profit closer to 7 per cent. Bethlehem Steel has on its books orders amounting to \$500,000,000. This total is from \$150,000,000 to \$200,000,000 in excess of the high record reached before the United States entered the war.

NOTICE TO AGREEMENT HOLDERS

In order to avoid misunderstanding, let me point out that agreement holders can now register on the Municipal Voters' List whether their taxes have been paid or not. This is quite different from former years and makes it much easier to register.
