CITY OF PRINCE RUPERT

TELEPHONE DIRECTORY

FAKED CABLE TO AID UNIONISTS

The Peck committee published as paid advertising what purported to be a cable from our boys overseas, asking support for the Tory Unionist government candidate. The fact is that one of the brave lads, who was supposed to have signed the message, was killed six months ago, or thereby. Another has never been in khaki and is still in Canada. A letter from still another sends quite the opposite message. Some of the others are on the firing line while some are in England.

Need more be said as to the alleged message? Is it not manifest that it was forged? The facts speak for themselves. The Unionists realize that the great wave of opinion from the common people will no longer stand for Borden and his financial group, who have been profiteering in the blood of the soldiers. Hence the faked messages as to the soldiers' vote. A safe bet is that the vote overseas will go about sixty-forty or almost so in favor of Canada's Grand Old Man, whose life has been consecrated to Britain and a United Canada.

THE ELECTION

The tremendous and enthusiastic receptions which are being accorded to Sir Wilfrid Laurier in his progress across the continent speak eloquently of the manner in which he is regarded particularly in the western provinces. Winnipeg. Regina and Calgary have risen en masse to do him honor, which will be further continued on Monday at the polls. Some time ago, the Ontario Torics sent an S. O. S. message to the west that Ontario depended upon them to return the Borden candidates to give the Tories a majority, as things looked then and still look very poor for the Borden government in Ontario. The West replies by giving the Liberal leader such a reception on his arrival that must give the Tories furiously to think. The people of Western Canada know full well just what they have to thank Sir Wilfrid for, and they are also painfully aware that to Borden they owe no thanks at all.

The people in Prince Rupert are in the same position. The very existence of Prince Rupert is the result of his far-sighted policy, which the Borden government have done their best to nullify. What can the Borden government turn round to and show to the Prince Rupert people that is their handiwork, other than the sinking of thousands of dollars in a hole in the ground, alleged to be for a post office site. There is nothing!

The supporters of the Borden government have not one argument to put forward for their return to power, except their tremendous desire to rush reinforcements to the front, when there is not a vessel available to take them there. Every allied transport available is engaged in shipping the millions of already trained troops from the United States. The great cry that comes from Great Britain is for ships, ships and more ships. The new tonnage they are able to turn out over there is only now within appreciable distance of the tonnage losses.

The local Tories now come

PACIFIC

out with the argument that Prince Rupert cannot build ships and that all efforts to get the drydock going were foiled by the failure to get steel. They advertised yesterday in our columns a letter from Mr. E. J. Chamberlin, late president of the G. T. P. to this effect. In this connection it is worth while to notice that Mr. Chamberlin is no longer an official of the G. T. P. This argument of course applies with equal force to the building of wooden ships, as is being done in the southern cities. Because Steel cannot be got, the Prince ELECTION POINTERS Rupert plant cannot be utilized to build wooden ships. That's some argument.

They put forward Mr. Chamberlin's naive statement that the government have no more jurisdiction over the drydock plant which belongs to the G. T. P. Development Co., than rier! they have over any other manufacturing plant upon the B. C coast. If the Borden government have no jurisdiction over the resources of the Dominion. particularly in war time, then all that can be said is that it is high time that a government were in Ottawa that would take some jurisdiction.

The Borden government took the power unto themselves to possesses? Fred Stork. pay away to their own friends who held the "worthless" stock of the C. N. R. anything up to \$10,000,000. That was not for the development of the resources of Canada, nor to help in winning the war. That was just a plain steal of the people's money-some more graft for their friends. Of course, this was legalized by act of parliament, by the suppression

of all discussion. It is law. If the Borden government could steal \$10,000,000 for their friends, they could spend less than that legitimately for the operation of the resources of Prince Rupert-if they liked. If they had no jurisdiction over the idle drydock, in parliament is the place to get it. But no. They know that Prince Rupert is a Laurier town, and the furtherence of any project of Laurier's is the last thing the Borden government would do.

Just remember the drydock.

COLONEL TELLS WHY

Borden Purposely Killed

Windsor, Ont., Dec. 10.-Lieut .-Col. T. B. Welch, who recruited the 99th battalion and took it overseas, took the platform here in the interests of W. C. Kennedy, the Laurier Liberal candidate. Lieut.-Col. Welch declared that he had resigned his command at the Windsor mobilization centre in order to be in a position to protest against the cry of the Union government supporters that Canadians who voted for Liberals would be disloyal,

The appearance of Lieut .- Col. Welch in the political arena was most unexpected, and especially by the followers of Lieut .- Col. Wigle, the Unionist candidate. "I think it my duty to tell you what | Lieut .- Col. Welch in his speech, "Fruit-a-tives" has done for me. | charged that the Borden govern-Three years ago, I began to feel run- ment had purposely killed volundown and tired, and suffered very much | tary enlistment by withdrawing | from Liver and Kidney Trouble. | the machinery with which to ob-

SEATS RESERVED FOR LADIES

To give sweater coats a new lease of life

Now that sweater coats are getting more expensive, it is more than ever desirable that you wash yours with LUX. Of all things a sweater coat, which is seen so much, must be kept soft, fluffy, fleecy and "new" in appearance. You can keep yours that way and wash it again and again if you do this:

Pour boiling water over LUX flakes pure essence of soap-allowing 3 or 4 tablespoonfuls for every gallon of water you use. Whip into a creamy lather a few seconds is needed. Then put in the garment and stir it about. Let it soak until cool enough for your hands to squeeze the water out of the coat-the dirt just runs away. Rinse in two or three relays of tepid water, and hang to dry.

Very simple. Anyone can do it-just a few minutes work and you get a result that the most expert French cleaner might well envy. LUX won't shrink woollens. Won't hurt any

fabric or color that pure water can safely touch. At all grocers . . British made Lever Brothers Limited
