REPRESENTATION

As a specimen of Toryism, pure and undefiled by any democratic strain, the recent utterance of Sir Herbert Ames regarding the people of Quebec is worthy of attention. This reactionary stated in his best Prussian style:

"You cannot mix oil and water, and what the future of the province will be it is impossible for any of us to tell at present, but I hope and believe that in time they will do their share in winning the war. Meanwhile it cannot be expected, nor is it desirable, that they should take part in the government of the country."

Yet Sir Herbert is a Unionist. He wants a Union government which seems to make his statement somewhat paradoxical. A statement of this kind would evidence that Sir Herbert and those with him do not want any Union government. They want no government that is not totheir liking, or that has any differences of opinion with the bold knight.

It is pointed out that "in his hope that French - speaking Canada will do its share in the winning of the war Sir Herbert Ames will be joined by his English-speaking countrymen in all the provinces. But, it is to be hoped that in stating that, meanwhile, it is not desirable that this element shall have resent faithfully the attitude of French - Canadian units in for peace terms, not give them. Payments due on January the 2nd may be made at any time to and including January the 11th. Scrip Certificates will be delivered in exchange for paymonts then due. Payments due January the 2nd must be made at the Bank branch mentioned in the application.

The extension of time to January the 11th is given for the convenience of subscribers and Banks so that subscribers will not be unduly detained waiting their turn at a Receiving Teller's wicket, as would most likely be the case if all payments had to be made on one day only. Subscribers should not wait until January the 11th, or a day or so before and thus create the situation sought to be avoided. In every case, interest at the rate of five and one half per cent per annum from January the 2nd must be paid if payment is not made on or before the 11th.

For the convenience of subscribers, by arrangement of the Canadian Bankers' Association, Banks will remain open on the evenings of Thursday and Friday, January 3rd and 4th, and on the afternoon of Saturday, January the 5th. Evening hours 7.30 to 9.30. Saturday afternoon from 2 until 6 o'clock.

It has been brought to the attention of the Finance Department that a considerable number of subscribers, who have deposits with Banks, are under the impression that their Banks will take care of their January payments by automatically debiting their accounts with the necessary payments. This is incorrect. Each and every subscriber must personally arrange for these payments.
