## NOTICE TO THE PUBLIC

Harry Hanson says that after n eight-months' trip devoted to the promoting of his patented coil, and to the study of ranges and stoves, both in the country and city, with a view to improvements, he finds that stoves are not yet perfect. Too much fuel is being consumed for the amount of heat attained. The Hudson's Bay Company of Vancouver now has a stove that consumes just one half the fuel that an ordinary stove does, in accomplishing the same results, the Fireco.

He has come back with orders for twenty-five coils to be installed in Vanvouver and vicinity on or about March 15th, 1918. One reason why many stoves do not bake satisfactorily is that the seven-inch pipe at the stove is reduced to six inches. This creates soot and affects the baking qualities of the oven, besides I necessitating more cleaning.

Another thing he finds since he left is a lot of imitations and infringements on his patent coil in Prince Rupert. He has the "Sole & Agency" for the said coil in this district.

Don't forget that. HARRY HANSON, The Reliable Plumber.

(Diversion and Use.)

# H. C. PHILLIPS.

TAKE NOTICE that John Grace, whose address is 1728 Yew Street, Vancouver, A special meeting of the Trades B. C., will apply for a license to take and Thursday night, for the discussion Narrows about two miles south of Hartley Bay. The water will be diverted from the stream at a point about 1320 feet in wester., direction from the mouth of sale stream and will be used for power purposes upon the land described as unoccupied Crown land. This notice was posted on the ground on the 3rd day of November, 1917. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, section 36 of the "Land Registry Act" with vent will reopen on Monday, Jan. Parliament Buildings, Victoria, B. C., within amendments, and to the following extract 7th. Little boys and girls from 30 days after the first appearance of this four to six years will receive care- notice in a local newspaper. The date of the first publication of this notice is November 19, 1917.

JOHN GRACE, Applicant.

# ASSAYEN HAZELTON - B. C.

The oldest established Assay

Office in the North.

Payments due on January the 2nd may be made at any time to and including January the 11th. Scrip Certificates will be delivered in exchange for payments then due. Payments due January the 2nd must be made at the Bank branch mentioned in the application.

The extension of time to January the 11th is given for the convenience of subscribers and Banks so that subscribers will not be unduly detained waiting their turn at a Receiving Teller's wicket, as would most likely be the case if all payments had to be made on one day only. Subscribers should not wait until January the 11th, or a day or so before, and thus create the situation sought to be avoided. In every case, interest at the rate of five and one half per cent per annum from January the 2nd must be paid if payment is not made on or before the 11th.

For the convenience of subscribers, by arrangement of the Canadian Bankers' Association, Banks will remain open on the evenings of Thursday and Friday, January 3rd and 4th. and on the afternoon of Saturday, January the 5th. Evening hours 7.30 to 9.30. Saturday afternoon from 2 until 6 o'clock.

It has been brought to the attention of the Finance Department that a considerable number of subscribers, who have deposits with Banks, are under the impression that their Banks will take care of their January payments by automatically debiting their accounts with the necessary payments. This is incorrect. Each and every subscriber must personally arrange for these payments.
