UNREST PREVAILS THROUGHOUT AUSTRIA

RUSSIAN PROPAGANDA SPREADS ON EAST FRONT--RUSSIA REPUDIATES LOANS

AUSTRIAN SOLDIERS TO BE SHOT BY WHOLE COMPANIES

DRASTIC ACTION TAKEN BY AUSTRIAN HIGH COMMAND TO PREVENT SPREADING OF RUSSIAN PROPAGANDA--DISAFFECTION GROWING AMONG GERMANS--LABOR TROUBLES IN AUSTRIA

(Special to The Daily News.)

Petrograd, Jan. 19.—Orders for the shooting of whole companies of Austrian soldiers imposed by courts martial have been confirmed by the Austrian High Command and have been sent to the regimental commanders for action. The soldiers were charged with active sympathy for the Russian Socialists, and with aiding the spread of their propaganda, according to reliable information received here today. The news shows that the disaffection is spreading among the German troops facing the Russian lines. The German government is making strenuous efforts to stop the spread of the Russian propaganda and sympathy with Russian beliefs.

Agitation in Germany.

London, Jan. 19.—The political situation in Germany and the relations with Russia continue to be agitated in the German press, although there appears to have been no fresh developments of any significance.

Strikes in Austria.

London, January 19.—Serious strikes accompanied by rioting have taken place in Vienna and other cities throughout Austria, according to the News Agency telegrams to Zurich and other points in Switzerland. The trouble is due to the prolongation of the peace negotiations at Brest-Litovsk, the continuation of the reduced bread rations, which are now only one half of the former allotment, together with the severe measures against the peace meetings of the workers.

AUSTRALIA SELLS FIFTY MILLION POUNDS OF JAM

Ottawa, Jan. 17.—Advices have been received here that the minister of trade and customs for Australia has completed a contract for the sale of 50,000,000 pounds of surplus Australian jam to the Imperial Government. Of this amount, 12,000,000 pounds will be shipped to Great Britain and 38,000,000 pounds to the United States. This huge contract, which will practically absorb the whole of the Australian surplus of the coming season's soft fruits, involves approximately \$5,500,000. The transaction is being financed by the British government.

MR. ASQUITH PREPARES FOR RECONSTRUCTION

(Special to The Daily News.)

London, Jan. 19.—Former Premier Asquith is preparing by speech and pamphlet for the reconstruction of the Liberal party after the war with a progressive programme based upon the experience gained in the present world convulsion, but holding to the main planks of free speech, free thought and free trade. He continues to follow the policy he had outlined for himself since the accession of Lloyd George and his government, of doing nothing to embarrass those at the head of affairs.

WANT CANADA ON PROPER WAR BASIS

Brandon, Jan. 17.—Three of the most important resolutions ever brought before any convention here, covering unification of railways, the placing of farm implements and machinery on the free list as a war measure, and the mobilization of all male labor as a means of overcoming in some measure the shortage of farm help and lessening the widespread difference between the wages paid to men at home and men in the trenches, were passed with only one dissentient voice by a crowded meeting of ratepayers, live stock men and citizens generally, held under the auspices of the Manitoba Grain Growers' Association and the Live Stock Association, last night.

In the belief that the time has come for the complete mobilization of the man power of the Dominion, a resolution was adopted recommending the closing of all non-essential businesses, and the drafting of men for farm work who are not engaged in essential occupations; the immediate registration of all available men with a view to placing them in positions where they may render the most effective service to the nation; the forcing of a maximum wage for competent men and a minimum wage for boys and inexperienced men; the immediate registration of all those engaged in the production of foodstuffs, with a view to bringing together employer and employee; and that for the protection of both employer and employee their relations should be under the supervision of some competent authority appointed by the Government.

CALIFORNIA WILL TAKE MEXICANS BUT NO CHINESE

San Francisco, Jan. 16.—Hopes entertained by California farmers and fruit growers that they might be allowed to import Chinese labor temporarily to aid in harvesting the 1918 crops were blighted late yesterday when Dean Thomas Hunt of the College of Agriculture of the University of California stated definitely that he had been informed the Government would not permit such a practice. The assertion was made at a conference of growers and farmers with Federal and state agencies under the auspices of the State Council of Defence. A resolution proposing a substitute plan of having the \$500 head tax imposed upon immigrant Mexicans reduced was adopted.

HUNS BLOODILY REPULSED ON LOWER PIAVE

Austro-Germans Fail to Shake the Italian Hold of Strategic Positions—Very Heavy Losses.

(Special to The Daily News.)

Rome, Jan. 19.—Desperate and prolonged attempts of the Austro-German forces to throw back the Italian armies from their dearly-bought positions on Monday on the lower Piave have failed utterly. The enemy was repulsed with very heavy losses. The fighting was of a particularly bloody nature, and the battle ground was strewn with corpses as the enemy withdrew. They were unable to carry out their usual practice of removing their dead upon their retreat, to conceal their losses. Five hundred rifles, several machine guns, and a large quantity of other war material was left on the battlefield. One hundred and fifty prisoners were also taken. This repulse has broken the pressure upon the lower Piave sector nearest to Venice.

PETROGRAD IS NOW UNDER MARTIAL LAW

(Special to The Daily News.)

Petrograd, Jan. 19.—Petrograd was declared to be under martial law today by the Bolshevik Safety Commission. All attempts at a revolt are to be vigorously suppressed, their decree declared. Under martial law, three persons together constitute a crowd, and as such can be dispersed.

A NEW REASON FOR GOVERNMENT CONTROL

(Special to The Daily News.)

Washington, Jan. 19.—A delegation from the workers in the meat packing plants of Chicago has called upon President Wilson and urged the government to take over the meat packing industry, because of the large number of aliens among their fellow employees.

DRASTIC TREATMENT OF LOOTERS IN HALIFAX

An Exchange telegram despatched from New York to London appeared in the British newspapers last month, which read as follows: "New York, Dec. 13.—At Halifax, a looter was shot, and his body was strapped up on a post, placarded, 'This was a looter.' It is rumored that others have been treated similarly."

THE POLICE COURT

The case which was adjourned on Wednesday at the police court by Magistrate Carss was again brought up this morning, but as one of the accused failed to appear, it was again adjourned until Monday. This was the case of the boys who were charged with breaking into the Hub Pool Room, and into Spurr's Market. A warrant was issued for the arrest of the missing boy.

UKRANIA HOPES FOR ITS ANCIENT FREEDOM

(By a Ukrainian.)

As a direct outcome of the revolution in Russia, one of the oldest democracies in Europe, that of the Ukraina, has once more regained its ancient freedom. From the earliest days of which there is any record, the Ukrainians, that people inhabiting the southern provinces of what was till lately the Russian Empire and Galicia, in Austria, were a self-governing community, with a free electoral system of government. Their Hetman was appointed from year to year by the majority vote of the people, and already, of all Russia, the Ukrainian "Rada" constitutes the strongest of the many governments taking the place of the rule of the late Czar.

Since Christianity was introduced about the year 1,000 this democracy has had a very checkered career. Assailed from the south by the Turks, from the east by the Tartars, and on the west by the Poles, their country at different periods was overrun. And their final enemy was found in the Muscovites from the north. Notwithstanding all their enemies, their prowess on the field of battle was sufficient to make them respected, and in the periods of peace high attainments in the arts of civilization were gained.

The country was a rich one, and the skill of its people and their learning in these middle ages was notable. In 1654, a treaty was made with the Muscovites to the north, for the unity of the two peoples, but Ukraina was to retain her autonomy, but bit by bit, since that time, it has been flched away. This treaty was an offensive one. The gradual restriction of their liberties made the Ukrainians revolt against the usurpation of all authority by Peter the Great. Their last Hetman at this time was Mazeppa, made famous by Byron's poem, Sweden was to come to the aid of the Ukrainians, but before their assistance arrived, the battle of Poltava had been fought and lost, and from thenceforth, this free people became the slaves of the Muscovites.

For these last two hundred and fifty years, the Ukrainians have been in bondage. Their scholars and men of letters have consistently been banished to Siberia, or to the other fortress prisons for which Russia was famous. Even as far back as twelve years ago, there was not a single school nor one solitary newspaper published in the language of the country. The policy of their bureaucratic governors was to keep the people ignorant, so that they would be the more submissive.

The spirit of freedom broke out in revolt from time to time, but was as promptly crushed, until the great days of the revolution, when the power of the Czar was once and for all thrown off. The great University of Lemberg is a standing monument to the qualities of this people who have been oppressed for so long.

Today they number about forty millions, speak the same language and have the same national aspirations as had their fathers for self government. As the outcome of the war, this people, who really represent the brains and the wealth of what was Russia, will be in the van of the European democracies.

CARD OF THANKS

LLOYD GEORGE HEARTENS LABOR DELEGATES

No Democracy Will Survive Unless People are Prepared to Die For It—Plain Talk By Premier.

(Special to The Daily News.)

London, January 19.—Premier Lloyd George addressing the Labor delegates today said that no man standing on the watchtower could deny the urgency of the need for raising more men. The Premier said that no democracy has ever long survived the failure of its adherents to be ready to die for it. He affirmed that both he and President Wilson, without previous consultation, had laid down substantially the same programme in their demands for the termination of the war.

"Our channel ports are not far from the fighting line," continued the Premier, "and unless we are prepared to stand up to the people who are dominating Germany, Great Britain and the British Democracy, French Democracy, and the democracy of Europe will be at the mercy of the most cruel military autocracy the world has ever seen."

HUNS MAXIMUM OUTPUT OF SUBMARINES IS REACHED

London, January 17.—Reuter's Agency learns in well-informed quarters with respect to the German submarine warfare that we know with certainty the enemy's minimum losses, and are at the same time aware of his maximum output. It is believed that the latter has been reached, and since the monthly losses of German submarines are by now approaching their monthly outputs it would seem that with the increasing means at the disposal of the allies for beating these pests any German programme of operations cannot exceed what has already been in force. While the situation calls for the exercise of the greatest economy of food on our part, it is justifiable to express the belief that the menace has reached its worst stage—taking it as a whole, and not judging by the returns of any one week—as an effective force. There is every reason to believe that the operations of the German submarines should in the near future not only be held but gradually repressed.

LEGISLATION

Over and over again, we have been told by those in authority of the need for food for the allies, and they have been impressing us here to "eat less" in order to have the more to despatch overseas.

At the same time, the farmers are being hampered by the lack of proper help, as the best of it is being conscripted. The farmer is also hampered in the purchase of the proper machinery, or rather, with its high price. Owing to the shortage of labor, the one-man tractor will be a tremendous factor in the economic production of wheat.

The western provinces have gone on record for the abolition of this iniquitous tax upon their industry, and if the most is to be made of their willingness, this handicap upon production will have to be removed.

The present tariff would be in keeping with the other radical legislation of the present government, even if it does cause its reconstruction.

NOTES AND COMMENTS

The coal famine in the east is causing some concern, and rigid economy is advocated among those who are happy enough to have any at all. The chief action apparently taken by the government is the appointment of an assistant fuel controller at a salary of \$25,000 per annum.

A resolution was passed at a meeting of the Brandon citizens the other day recommending the closing up of all non-essential businesses, and the mobilization of all male labor for the production of food stuffs and war material.

The submarine crews at the Kiel naval base have mutinied. No doubt an example will have been made of every third one by the All-Highest. The failure of their comrades to return and the doubt as to their fate is said to be the cause of the trouble.

Once more there are rumors of the escape of the citizen Nicholas Romanoff and Mrs. Romanoff, and all the little Romanoffs from the prison in Tobolsk. If they escape much oftener, it won't be believed when they do escape.

The lengthening of the days was quite perceptible yesterday. Spring is coming.

Canada has become a little bigger by the discovery of several large islands in the arctic Ocean north of the Yukon. If their mineral resources are as great as some of the other islands within the circle, they will be worth while having.

"I FEEL LIKE A NEW BEING"

"FRUIT-A-TIVES" Brought The Joy Of Health After Two Years' Suffering

MADAM LAPLANTE
 25 St. Rose St., Montreal. April 4th.
 "For over two years I was sick and miserable. I suffered from constant headaches, and had palpitation of the heart so badly that I feared I would die. There seemed to be a lamp in my stomach and the constipation was dreadful. I suffered from Pain in the Back and Kidney Disease.
 I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no headaches, no palpitation, no heart trouble, no constipation, no pain or kidney trouble and I feel like a new being—and it was "Fruit-a-tives" that gave me back my health."

FRANCE MAKES LOAN TO THE UKRAINIANS

London, Jan. 17.—France has loaned the Ukraine 2,000,000 roubles in gold, according to a dispatch from the Odessa correspondent of the Times dated Friday. The French mint also has printed a large quantity of Ukrainian paper money.

General Vinnichenko, president of the Ukraine secretariat, it is added, in the course of a long report to the rada, declared that Great Britain, France, the United States, Belgium and Roumania, were interested greatly in the organization of the Ukraine republic. He added:

"As circumspect people they hesitate to recognize the republic completely, but when they find it expedient they will extend us their hands which we will accept if we think it necessary."

General Vinnichenko described the Ukraine as an oasis of order and constitutional policy, saying: "One constantly hears that the regeneration of the Muscovite monarchy is impossible and, therefore, perhaps the Ukraine will appear also as an oasis of a revolutionary conquest."

The correspondent of the Times says that the feeling of the Roumanians toward the Russians is embittered greatly. The Roumanians feel that they have been thrice betrayed by Russia, first by the Czar's government; next by the provisional government, and now, worst of all, by the Bolshevik government.

CLEANSE THE LARGE INTESTINE

Present War Cry of Advanced Physicians.

Some of the leading surgeons of the world have gone so far recently as to remove part of the Large Intestine in cases so serious as that of Tuberculosis and restored the patient to perfect health by so doing.

The New York American has recently said: "During Constipation the poisons in the Large Intestine often become so great as to form a serious menace to health and even to life. Through the walls of the Intestine they enter the blood and consume the healthy blood cells, impoverishing the blood, and if this process is continued long enough an acute poisoning is produced."

It is impossible under our present-day mode of living for the Intestine to rid itself of all waste, and it is easily proven that there is an accumulation, no matter how regular we are.

Drugs, if taken regularly, form a habit, but Internal Bathing by means of the "J. B. L. Cascade" cleanses the Lower Intestine its entire length with pure warm water and makes it clean, sweet and healthy.

At the same time it regulates the system and makes one feel that every function is working smoothly and naturally—and, indeed, this is so.

This letter will convey a message of good cheer to many.

Welland, Ontario.
 Dr. Chas. A. Tyrrell,
 163 College Street, Toronto, Ont.:

"Dear Sir,—We heartily endorse the J. B. L. Cascade, as we find in our work that a loaded colon means a poisoned system, which, in turn, means ligitenous contraction of the spinal muscles, against which our work is directed.
 Anything helping us in gaining relaxation we consider a boon, both to ourselves and our patients.

Most sincerely,
 Drs. Hoxley and Gardard.

Over five hundred thousand are now enthusiastic users of the "J. B. L. Cascade," which is now being shown and explained at Cyril H. Orme's Drug Store, cor. 3rd Avenue and 6th St., Prince Rupert.

A WAR INDUSTRY

New York, Jan. 17.—Manufacture of baby carriages was trundled into the ranks of essential war industries here when a man who makes go-carts, and who was called for service in the National army, asked the District Board for deferred classification on the ground that his calling was indispensable to the needs of the country. He set up the claim that when called in the 1st draft, exemption had been recommended by Presidential order. A statement by the Chairman of his local board that the claim should be granted "in deference to the President," drew a protest from a member of the District Board and the case was continued, pending investigation.

NEW CANADIAN LANDS

Fairbanks, Alaska, Jan. 17.—Several new large Arctic islands were discovered northwest of Banks Land in the spring of 1916 by V. Stefansson, the Arctic explorer, according to Captain A. Lane, who arrived here last night from the Arctic ocean, bringing direct news from the explorer, who, he says, is spending the 1917-18 winter in the northern seas of Bartel Island. The explorer claimed the new lands for Canada.

LUX

Won't discolor silks or fade colors.

If you don't use LUX you naturally dread the ordeal of wash day for your silk blouses. Silk fibres are peculiarly sensitive to common soaps and to ordinary wash-time rubbing and twisting. The LUX way is away better—you make a thick, creamy lather, you stir the garment gently about, you rinse thoroughly, you press out the water gently and hang out to dry.

The result is a fabric as fresh as when new. This refers to anything that pure water itself will not harm.

Keep up the Food Supply and Help Make Victory Sure

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

*This is National Service—
 Not to the Farmer only—
 But to YOU—to everybody—
 This appeal is directed*

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.

Be patriotic in act as well as in thought.

Use every means available—Overlook nothing.

Anyone Can Have Whipped Cream

PACIFIC MILK is so rich in cream that it whips as easily as most of the fresh cream sold around the Province.

Mrs. McCary of New Westminster wrote in to say that she whips PACIFIC MILK regularly for a treat for the youngsters for breakfast.

All she does is to set aside the amount she wants, in a cool place, for a time and then beats it with a sieve egg-beater. She puts this on toast and gives it to the children for breakfast.

You'll find it is good on cakes and

A great number of the buildings date from the time of the Russian occupation, and their architecture is in the Russian style.

"THE CRYSTAL GAZER"

Miss Fanny Ward is the star to be filmed at the Westholme this evening. She is one of the favorites in Prince Rupert. The story of this photodrama is a great one, and gives the star an opportunity for the great powers. In this play the case of an actress sacrificing herself for her art is exemplified. There is a terrific fight scene in this photodrama and in the course of the filming Miss Ward's shoulder was accidentally dislocated. With the exception of a sharp scream, which is plainly shown on the screen, Miss Ward gave no indication of her injury until the scene was completed, when she collapsed. All work on this picture had to be suspended for three weeks, until the patient recovered. There are two fine comedies also on tonight's programme, which from their quality, should be well received.

RUSSIA TO ANNUL ALL FOREIGN LOANS

(Special to The Daily News).
Petrograd, Jan. 19.—The executive of the Workmen's and Soldiers' Delegates have determined to put before the Constituent Assembly a decree passed by their council of commissioners, providing for the annulment of all state loans, the annulment of all guarantees given by the government by paying over loans advanced by institutions, and companies, and the annulment, without exception, of all foreign loans.

PEACE NEGOTIATIONS LEAVES BERLIN COLD

Amsterdam.—Public feeling in Berlin is not at all elated over the Russian peace negotiations. According to the Berliner Tageblatt, most of the Berliners remain sceptical, and do not believe in the lasting qualities of the Maximalist Government. They imagine, to use the words of Schiller, that "it will be very difficult to find a hut on the lava which the mountain has cast up during the earthquake." No feverish optimism has taken hold of the nation as has been occasioned twenty times since war broke out by spurious peace rumors; and this time in particular, when there is some slight ground for hope, no one has been shaken out of their every-day stolidity.

Thieves in Clover.

"One calamity is very noticeable in Germany just now," says the Frankfurter Zeitung, "namely, that the art of stealing is flourishing, and more than one long-fingered gentleman is making his fortune by seizing possessions other than his own. The watchfulness of the police has necessarily been slackened, and property cannot be so strictly guarded as before. It is a well known fact that the thief who before the war slunk about in terror with his stolen jewels, and found some difficulty in getting rid of them, now finds no such embarrassment. The thief of today lives like a lord, and makes huge profits off stolen foodstuffs, for most people buy without bothering to ask whence the sausage roll or the butter or the flour has originated. Most of the foodstuffs stolen from private houses have been unlawfully hoarded, and the owners are thus afraid to prosecute the thieves.

Sliding Forbidden.

Snow has lost all its charm for the German children this year, because all sliding has been officially forbidden. The authorities give two reasons for this order, namely—that sliding is very wearing for the boots and shoes, which will require to be carefully saved this winter, if they are to last till spring, and that since the street lighting has had to be stopped such slides on the pavements are a great danger to foot passengers, and slides on the main road are equally dangerous for horses.
