TRANSPORT WITH 2,000 MEN IS TORPEDOED

GERMAN SUB. GETS FIRST ONE CARRYING TROOPS -- WESTERN FRONT IS QUIET

TRANSPORT CARRYING UNITED STATES SOLDIERS TORPEDOED

ARMED LINER TUSCANIA WITH OVER TWO THOUSAND SOLDIERS OF UNITED STATES ARMY IS SUNK OFF COAST OF IRELAND—OVER NINETEEN HUNDRED MEN ARE LANDED SAFELY

(Special to The Daily News.)
Washington, February 7.—The armed liner Tuscania, carrying United States soldiers has been sunk off the north coast of Ireland. There were twenty-one hundred and seventy-nine soldiers on board on their way to England, consisting chiefly of detachments of Michigan and Wisconsin National Guard. Nineteen hundred and twelve men were saved and landed safely in Ireland.

The Tuscania is the first transport to be torpedoed on the voyage from the United States to France, although several have been torpedoed on their return voyage, after the troops had been debarked.

Patrol vessels were quickly on the spot, to assist the torpedoed liner, and the transfer of the majority of the men was successfully accomplished.

FRED STORK ADDRESSES WOMEN'S LIBERAL ASSN.

There was a goodly gathering of members and associates of the Prince Rupert Women's Liberal Association last evening in the committee rooms on Second Ave. to hear the address of Mr. Fred Stork. The subject chosen was "Why I am a Liberal," and Mr. Stork gave lucid and convincing reasons for his attitude. He showed that there had always been two parties throughout the history of the world, the one for progress and the other inclined to reaction. So long as there was room for improvement in this world, there would always be liberalism, which may be summed up in the phrase, "equal rights for all, and special privilege for none."

Mr. Stork gave some of the instances prevailing in Canada at the present day which call for treatment by a liberal-minded government, whereby equality of opportunity would be afforded to the people of the country.

Mr. Stork's address was much enjoyed by the ladies present, and a hearty vote of thanks was accorded him. Mrs. G. L. Monroe, vice-president of the association, presided.

LOGGER KILLED ON THE QUEEN CHARLOTTE ISLANDS

The body of Carl Oscar Lindquist was brought to town today by John Hermanson from Shuttle Island, one of the smaller of the Queen Charlotte Islands, having been killed by a windfall. The deceased was engaged in logging, and with others, was clearing a site for a camp, when the accident happened. There was quite a gale blowing when a tree close by snapped off and fell right upon him, killing him instantly. The tree broke off near the top, and a little warning of its fall was received.

Mr. T. A. Kelley, of the Kelley Logging Co., arrived in the city yesterday from Vancouver. Mr. Kelley is conducting logging operations on a large scale on the Queen Charlotte Islands, with headquarters at All Inlet.

POLO PASHA IS TRIED FOR HIGH TREASON

(Special to The Daily News.)
Paris, Feb. 7.—Bolo Pasha, who is on trial before the high court charged with high treason to France, lost something of his customary nerve at the close of yesterday's session, when the first witness for the government, an expert accountant, M. Doyen, after solemnly turning to the prisoner, said, "All of Bolo's statements are lies. He never received the commission he alleges, as the basis of his fortune."

The accountant then handed to the Court receipts, cheques and other documents, showing that Bolo had received half a million dollars each from the Guaranty Trust Co., of New York, who were agents for the Deutsche Bank before the war, and the Royal Bank of Canada.

HERRING WORTH \$15 PER BARREL, SALTED

"I see no reason why Prince Rupert should not be a Western Gloucester," said Mr. Axel Johanson, of Chicago, last evening, "judging from what I have seen, and if all I hear is correct. There is big money in herring right now, and it seems to me that now is the time to get after these other varieties of fish which heretofore have not found a market. The demand exists at the present moment, and if this trade is captured now, it will stay."

Mr. Johanson has been in the city for the past few days looking over the possibilities of Prince Rupert as a fish buying centre. He represents a large Chicago house of fish curers and importers, and is on his way to Alaska to buy herring for this coming season. There is a scarcity of herring in the United States just now. Heretofore, supplies have been got from the Atlantic coast, from Norway, from Scotland, England and Holland, but with the scarcity of shipping, the imports from Europe have fallen off, and arrivals are very indefinite. Last year there was a large quantity of salt herring shipped through this port for the United States, from Alaska, and it is with the intention of buying further and larger quantities that Mr. Johanson is making this trip.

"If I could buy herring here, I would," continued Mr. Johanson. "I have been speaking to some of the local fishermen, and they assure me that there are all kinds of herring here, practically all the year round, only they have not been gone after commercially. I may say that the average price of herring which we would pay at present is about \$15 per barrel of 200 lbs. While this is the average price, some grades would be worth more, and some less. And for good herring, there would be a market all the year round."

"Black cod put up in the same manner, salted and barrelled, would bring the same price, \$15 per barrel, and as I understand that large quantities of this fish have been thrown away in years past, I believe that it is only a matter of time until you have here large industries interested in these two varieties of fish alone, just as some other firms are interested in halibut chiefly. The time seems to be ripe for additional attention being paid to other varieties of fish, and I for one, will be very pleased to see Prince Rupert herring on the market permanently."

PEACE NEGOTIATIONS AGAIN BROKEN OFF

(Special to The Daily News.)
London, Feb. 7.—The negotiations at Brest-Litovsk between the Germans and the Russians in order to find a basis for the establishment of a separate peace, have been again broken off, this time finally, according to information received by the Petrograd correspondent of the Exchange Telegraph Co. He also adds that there has been another attempt on the life of Lenin.

The G. T. P. "Prince George" is now out of the water in the dry-dock in the course of her overhaul.

SPRUCE PRODUCTION IS PARAMOUNT IN B. C.

Hon. T. D. Pattullo Makes Many Departmental Changes to meet Conditions Developing in The Province.

Victoria, Feb. 5.—British Columbia will spare no effort in supplying the allies' vital need for aeroplane spruce. Following up the recent Order-in-Council which placed the entire spruce timber resources of the province, whether vacant crown timber or held by private owners, at the immediate disposal of the Imperial authorities on the basis of national service, the Hon. T. D. Pattullo has effected changes in the organization of the provincial forest service so that every possible delay may be eliminated from official procedure during this national emergency. The prompt handling of all spruce problems has been made the first duty of the department, officials in charge of various branches of timber work being specially assigned to this important work; while the staffs of the three coast forest districts (Vancouver, Prince Rupert and Vancouver Island) are to be pooled to meet the changing demands of rush business in different localities, just as reserves behind an army front are kept available for despatch to any point where pressure may suddenly occur. The shifting of large numbers of logging engines, camps and woods' crews from the scene of present operations to the heaviest and most quickly accessible stands of spruce timber will necessitate many corresponding changes in the disposition of the forest service personnel during the next few months.

The stand taken by the Minister is being strongly supported by the various branches of the logging and lumbering industries. The sawmills cutting fir timber are concentrating a strong effort upon obtaining the maximum possible quantity of aeroplane fir from all logs sawn by them, one mill vying with another in the patriotic work. That the daily output of lumber from each mill (the keeping up of which to maximum capacity is normally a matter of pride and test of efficiency among mill managers) will thereby be lowered to some extent is a matter that each foreman and superintendent has been specially told to disregard and all are vigorously co-operating to secure the two things needed—airplane fir and shipbuilding timbers.

The Loggers Association of British Columbia has responded handsomely to the demand for sacrifice of personal and business convenience in the interests of speedy production of aeroplane material to support the Allies' extended programme of aerial warfare. Mr. Pendleton, a director, and Mr. Armstrong, the organizing secretary of the association, have already taken up important work with the Imperial Munitions Board and announcement of a number of other co-operative measures is expected shortly. As a further evidence of their co-operation in the big spruce getting movement the loggers have waived all claim to the services of Mr. A. L. Bryant, for long the supervisor of scalers for the province and during recent months the chief field advisor of the Loggers Association. Appreciation of the disinterested action of the Association in this last matter is expressed by the Department.

Scaling and grading of timber is at all times a very responsible duty of the forest reserve and which has as arbiter of measurement to maintain a fair and equitable balance between the interests of sawmills and loggers, ven-

QUIET PREVAILS ON THE WESTERN FRONT

(Special to The Daily News.)
Canadian Headquarters, France, February 7.—With the slow approach of spring, there is a slight activity all along the Canadian front, but the past ten days have provided no feature of any importance outside the usual routine of trench warfare. Raids, scouting and patrol work and the matter of keeping warm forms the job from day to day, and all ranks will welcome any let up in the weather which will permit of further progress being made.

GERMAN SOLDIERS GET NO MORE BEER

Zurich, Feb. 6.—The Allgemeine Zeitung fuer Brauerien (General Gazette for Breweries) says that the supply of barley for German breweries will be stopped, thus bringing the whole brewing industry to a standstill. Not even beer for the army will be produced, the periodical declares.

The measure is said by the publication to be due to the exceedingly bad harvest of oats, necessitating the use of barley for fodder for the army's horses.

dors and purchasers of logs as well as protecting the government revenue involved in all transactions in logs. To these duties will now be added that of safeguarding the interests of stumpage owners whose timber holdings will be gone through in the search for aeroplane material, both by parties of men splitting high-grade logs to obtain the choice straight-grained beams for aeroplane wings and by loggers who will cut and remove only the better grades of spruce logs. Far higher prices than are customary in normal times must be paid when merely the cream of a timber berth is thus being taken instead of a clean cut of all merchantable material being made, and consequently the sums at issue both for stumpage and logging will be very considerable and will add to the serious responsibilities of the Lands Department in this matter, since upon the efficiency of the work done by the officials and upon the good judgment shown in measuring and classifying timber cut will depend the amounts receivable by stumpage owners, loggers and millmen.

In view of the pressure that will thus bear with particular force upon the scaling staff and the need for having as many fully qualified men as possible engaged in the work it has been arranged for Mr. Bryant to return to his former position as supervisor of scalers. Mr. J. M. Hillis, who since last spring has been filling the position of acting supervisor with conspicuous ability, will support Mr. Bryant as assistant supervisor and the scaling staff will also receive considerable additions so as to enable it to meet the new and increased demands which the spruce situation has created for it. The officials mentioned have the full confidence of all the interests involved and the present strengthening of the staff and increased activity of the department thus made possible will receive the cordial support of all sections of the timber industries.

AEROPLANES ARE ACTIVE ON WESTERN FRONT

Five Tons of Bombs Dropped Yesterday—Five German Machines Brought Down Uncontrollable.

(Special to The Daily News.)

London, Feb. 7.—The British airmen have been exceptionally busy for the past few days. The weather conditions have been more favorable for aeroplane work, which has been fully taken advantage of. Yesterday the British fliers dropped five tons of bombs on hostile targets, and did very great damage to the enemy establishments behind their lines. Ammunition dumps exploded one after the other, railroads were blown up, and the enemy hangars were destroyed in several places.

There were several spectacular fights in the air between the airmen of the opposing armies, which resulted in five of the German machines being brought down uncontrollable. From one of the expeditions over the enemy country, four of the British machines failed to return.

MR. D. G. STEWART MADE CHAIRMAN OF FOOD RESOURCES COMMITTEE

The National Food Resources Committee, which has been formed with the view of conserving the food supplies of the Dominion by the elimination of all waste, and the substitution of other foods than those which are so scarce at the present moment, wherever possible, has found in Mr. D. G. Stewart, of the firm of Stewart & Mobley, Ltd., its chairman of the co-operative publicity section in Prince Rupert.

It is considered that there is room for the spread of propaganda among the people of Canada of an educative nature in the matter of food saving and substitution, also in the stimulation of home garden production.

When it is considered that up till the present the people of Western Canada have not been asked to do without any one single article of food which they have heretofore been accustomed to, and taking into consideration the higher prices prevailing here before the war than in the east, and the increase in prices since that time comparatively less, the pinch of scarcity has not been felt here to the same extent as elsewhere.

It is considered that there is quite a lot which may yet be done in order to relieve the pressure on certain foods, whereby larger quantities may be released for export to Europe to assist in the winning of the war. To this end a committee of merchants of every business represented in the city will be called shortly to consider ways and means.

LAND SETTLEMENT

There is the prospect this year that a sum of about a million dollars will be expended by the government in its efforts to concentrate the effort of new settlers on British Columbian lands. This is being done under the aegis of the Land Settlement Board.

Individual members of the Board have made personal surveys of a number of the suitable areas. These areas will be obtained in the different parts of the province, so that the widest choice of soil and climate may be offered to the intending settler.

From the arrangements that the government have made, it will be seen, therefore, that there will be little difficulty for anyone who really wishes to go farming, but has not the means to do this.

After all, this system is the only logical and sensible one to be adopted in opening up the great tracts of agricultural lands available in any new country.

And production is what is wanted most of all, and will be for the next decade.

The whole question resolves itself down to a matter of organization, and the government is the only power in the country which can organize such a movement successfully.

By making the life on the farm attractive, and equal in its social opportunities, together with a greater approximation of the standard of convenience attached to city life, the trend of movement from the country to the cities will be altered.

There are many people condemned to live in the city who would, could they but see their way clear, for preference be living on a farm, and engaged in farm work.

There is no reason why adverse conditions should be attached to the basic industry of Canada. Through the assistance proffered by the Land Settlement Board, and provided the situation is handled properly, there should be a very considerable increase in the number of real producers in this province.

Nothing Like Internal Bathing for Constipation

If people only knew what Internal Bathing is doing for thousands of others there would be fewer Pills and Laxatives swallowed and very much less suffering from Constipation and the accompanying Stomach and Nervous troubles resulting from it.

Mrs. Cave, 841 Ellery St., Victoria, B. C., writes: "Before using the 'J. B. L. Cascade' I suffered constantly from Constipation, had frequent bilious attacks and sick headaches. Since beginning your system of Internal Bathing with the 'J. B. L. Cascade' four months ago, I have not had one attack and feel stronger and better in every way."

NOTICE

"Sea Gull," "Brown Bear," "Little Tom's Fraction," "Sunlight Fraction," "Sea Lion Fraction," "Sheet Anchor Fraction," "Sky-Line," "Camp Bird Fraction" and "Observatory" Miners' Claims, situate in the Skeena Mining Division of Coast District.

TAKE NOTICE that I, Fred M. Wells, Free Miner's Certificate No. 15016 C, the duly authorized agent of Millard F. Warren, Free Miner's Certificate No. 15014 C, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of each of the above claims.

AND FURTHER TAKE NOTICE that action, under section 85, must be commenced before the issue of such Certificate of Improvements.

LAND ACT

SKEENA LAND DISTRICT—DISTRICT OF COAST, RANGE 4.

TAKE NOTICE that John Grace, of Vancouver, B. C., occupation fisherman, intends to apply for permission to lease the following described lands:— Commencing at a post planted on the foreshore on the west side of Stewart Narrows, about two miles south of Hartley Bay; thence west 20 chains, thence north 20 chains, thence east 20 chains, thence south 20 chains to the point of commencement and containing 48 acres more or less.

TAKE NOTICE that I, Joseph Sexton, of Prince Rupert, B. C., Prospector, intend to apply for a license to prospect for coal and petroleum over the following described lands on the West Coast of Moresby Island.

Commencing at a post planted about 1/2 mile easterly from a post located on the shore of the east side of Canoe Pass at a point about 5 miles northerly along the shore from Buck Point; thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 80 chains to point of commencement.

TAKE NOTICE that I, Charles E. Burgess, of Prince Rupert, B. C., miner, intend to apply for a license to prospect for coal and petroleum over the following described lands on the West Coast of Moresby Island.

Commencing at a post planted about 1/2 mile easterly from a post located on the shore of a small Bay opening out of Canoe Pass between Moresby and Chaatl Islands, about 3 miles northerly along the Moresby Island side of Canoe Pass from Buck Point; thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains to point of commencement.

TAKE NOTICE that I, Hans K. Christensen, of Prince Rupert, B. C., prospector, intend to apply for a license to prospect for coal and petroleum over the following described lands on the West Coast of Moresby Island.

Commencing at a post planted about 1/2 mile easterly from a post located on the shore of a small Bay opening out of Canoe Pass between Moresby and Chaatl Islands, about 3 miles northerly along the Moresby Island side of Canoe Pass from Buck Point; thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains to point of commencement.

TAKE NOTICE that I, Hans K. Christensen, of Prince Rupert, B. C., prospector, intend to apply for a license to prospect for coal and petroleum over the following described lands on the West Coast of Moresby Island.

Commencing at a post planted about 1/2 mile easterly from a post located on the shore of the east side of Canoe Pass at a point about 5 miles northerly along the shore from Buck Point; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to point of commencement.

TAKE NOTICE that I, Daniel L. Sutherland, of Prince Rupert, B. C., clerk, intends to apply for a license to prospect for coal and petroleum over the following described lands on the West Coast of Moresby Island.

Commencing at a post planted about 1/2 mile easterly from a post located on the shore of the east side of Canoe Pass at a point about 5 miles northerly along the shore from Buck Point; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to point of commencement.

WOODEN UNDERWEAR WORN IN GERMANY

Washington, Feb. 5.—Women in Germany are wearing underwear made out of wood pulp, but these substitutes will stand washing not more than five or six times.

Advices received by the United States Bureau of Foreign and Domestic Commerce, it was announced today, bring word that wood pulp is now being used for the purpose stated.

The fabric is utilized for clothing of almost every description, but especially for underwear. The use of garments made from this stuff is quite extensive in Germany, according to the information of the bureau, but it is not allowed to be exported. Complete costumes for women are made of it.

Wood pulp is spun into thread, and this thread then woven into a fabric, the warp of which is linen thread. It is reported to be reasonably durable, sometimes quite attractive in appearance. Warm water, but not boiling water, may be used in washing. After being washed five or six times the fabric goes to pieces and must be thrown away.

Firms in Breslau, Germany, have been showing very extensive exhibits of all kinds of garments made from this fabric.

Furniture wanted. Any quantity. Good prices paid for complete household furnishings and all kinds of tools, men's suits, coats, etc. Phone Red 243 or call on F. M. Crosby, 715 Third Ave.

COAL NOTICES

SKEENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE ISLANDS

TAKE NOTICE that I, James P. Reid, of Prince Rupert, B. C., Prospector, intend to apply for a license to prospect for coal and petroleum over the following described lands on the West Coast of Moresby Island.

BRING MILLION PEOPLE TO B. C. IN TEN YEARS

Vancouver, Feb. 6.—The creation of a new provincial department of colonization under a special minister of the government and the establishment of a policy by which the province would provide for community settlements, would sell land to settlers on terms running from twenty-eight to forty years, and would put up dollar for dollar by way of development loans, are features of proposed legislation which J. W. Weart, former speaker, will bring before the government during the forthcoming session.

In his bill Mr. Weart provides for special assistance to returned soldiers and by way of an extra inducement to colonists from the Old Country proposes to provide loans for them up to two dollars for one. That is, the government would lend an old country settler two dollars for every dollar he himself could put into farm buildings, machinery or stock. In addition to the long term payments provided for in the land purchases the South Vancouver member proposes that each settler be required to improve his property by cultivation to the extent of ten per cent. per year.

The member declares that he would take the actual handling of the land and community settlement situation out of the hands of the land settlements board, placing it within the control of the proposed new Minister of Colonization. The board would remain in existence, however, in an advisory capacity. Mr. Weart believes that his policy would add 1,000,000 population to the province within a decade.

SKEENA LAND DISTRICT—DISTRICT OF COAST, RANGE 5.

Take notice that the Western Salmon Packing Co., Ltd., of Vancouver, B. C., occupation Manager, intends to apply for permission to lease the following described lands:—

Commencing at a post planted at high water mark, Steamer Passage, (on a small bight on the said passage about one mile north of Quinman's Bay) ten (10) chains due west of said bight; thence twenty (20) chains due north, thence twenty (20) chains due east, thence twenty (20) chains south, thence back to point of commencement, and containing forty (40) acres more or less.

THE WESTERN SALMON PACKING COMPANY, LIMITED; C. C. Robertson, Agt. DATED December 31st, 1917.

HAIR SEAL SKINS

MINERAL ACT

CERTIFICATE OF IMPROVEMENTS

NOTICE

"Molybdenum" and "Success" Mineral Claims, situate in the Skeena Mining Division of Cassiar District.

Where located:—About 4 miles Westerly from the head of Alice Arm, and about one mile from the Beach.

TAKE NOTICE that Lewis W. Patmore, Free Miner's certificate No. 14232-C, as agent of the Molybdenum Mining and Reduction Company, Limited, (Non Personal Liability) Free Miner's Certificate No. 10322-C, intends sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of each of the above claims.

AND FURTHER TAKE NOTICE that action under Section 85 must be commenced before the issue of such Certificate of Improvements.

DATED this 26th day of November A. D. 1917. F12

WATER NOTICE

TAKE NOTICE that Dolly Varden Mines Company whose address is Alice Arm, B. C., will apply for a license to take and use ten cubic feet of water per second out of Trout Creek, a tributary of Kit-sault River flowing into Alice Arm, Cassiar District. The water will be diverted at the head of the Falls on the Silver Herd Mineral claim, Lot 3804, and will be used for power purposes on the Wolf and Dolly Varden Groups of Mineral claims being Lots 3794 to 3797 inclusive, and Lots 3192 to 3197 inclusive and Lot 3854, Cassiar District.

Application will be made also for the right to store 350 acre feet in First Trout Lake and 250 acre feet in Second, Third and Fourth Trout Lakes. The water will be stored in First Trout Lake by the construction of a dam at its outlet and in Second, Third and Fourth Trout Lakes by the construction of a dam at the outlet of Second Trout Lake. The estimated area of land to be flooded at First Trout Lake is 17 acres and at Second, Third and Fourth Trout Lakes is twenty acres.

This notice was posted on the ground on the 18th day of October, 1917. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Prince Rupert, B. C. The date of the first appearance of this notice in the local newspaper was the 23rd day of October, 1917, and objections may be filed with the comptroller or Water Recorder within thirty days after the said date.

Anyone Can Have Whipped Cream

PACIFIC MILK is so rich in cream that it whips as easily as most of the fresh cream sold around the Province.

Mrs. McCary of New Westminster wrote in to say that she whips PACIFIC MILK regularly for a treat for the youngsters for breakfast.

All she does is to set aside the amount she wants, in a cool place, for a time and then beats it with a sieve egg-beater. She puts this on toast and gives it to the children for breakfast.

You'll find it is good on cakes and

PACIFIC MILK CO., LTD.

Keep Chickens

This is National Service

They will help Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A started packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.

Write for Poultry Bulletins to

Local News Notes

The Hub, on Second Avenue, invites you to play bowls.

The Princess Royal left this morning at 9 o'clock for Vancouver.

Mr. Reid of the post office staff, went into the hospital yesterday for an operation.

The Hub Bowling Alles is now open, with pin setters and attendants waiting your pleasure.

Mr. and Mrs. J. B. Fee, of Vancouver, arrived in Prince Rupert yesterday, and will make their home here.

Mr. W. Ross Flumerfelt, of Vancouver, arrived in the city yesterday and will remain here for some time.

Mr. and Mrs. L. M. Fuller and family sailed this morning by the Princess Royal for Vancouver on their way to Toronto.

Bowling, the great American game, is now in full swing at the Hub Bowling Alley. Take your friend in for a game.

Mr. and Mrs. W. A. McLennan, of Montreal, who have been visiting in the city for the last few days, left this morning for Vancouver.

Mr. and Mrs. Nadeau, of Port Clements, were among the passengers leaving for the south on board the Princess Royal this morning.

Mr. W. F. Coons, of the International Chemical Co., is paying a visit to the city. His company is operating the plant at Paoofi for the reduction of kelp. Fish oils and fertilizer are also produced.

Mr. D. H. Macdonald of Vancouver, was among the arrivals in the city yesterday from Vancouver. Mr. Macdonald has been here several times during the past year in connection with fishing matters.

Chief Vickers, who returned to the city yesterday after a trip to Vancouver, says that down there they are all talking of Prince Rupert and district. They are expecting great things in the way of development this year.

Say! Come on down to the Hub for a game of bowls.

"THE SUNBEAM"

As a living sunbeam, shedding warmth and happiness amid the chills and shadows of poverty, Mabel Taliaferro is seen at her best in the play to be screened at the Westholme Theatre this evening. No production could bring out the wonderful artistic ability of Miss Taliaferro than does this play, "The Sunbeam." As a pure, sweet, generous-hearted working girl of the tenements of New York City, the part taken by Miss Taliaferro calls for emotional acting of a delicate and subdued type at one time, and extreme vivaciousness at the next. These varying degrees of her art Miss Taliaferro brings out with tremendous effect. The star is supported by a cast of prominent players, and a splendid play is the result. Special music will be played for this play and the overture, "Morning noon and night," will be played during the interregnum. There will be two fine comedies shown as well.

For Prince Rupert and district, we have secured the services of Mr. Martin Kroeger, F. R. H. S. Prince Rupert, B. C., phone Red 399. Consult him about your garden problems. British Columbia Nurseries, Ltd., Vancouver, B. C.

Join the Hub Bowling Club. You will enjoy the game.
