LOYD GEORGE CHALLENGES HIS CRITICS IN COMMONS

TAKES BOLD COURSE AND TELLS HOUSE OF COMMONS THAT IF DISSATISFIED WITH HIS GOVERNMENT'S CONDUCT OF THE WAR TO PUT ANOTHER GOVERNMENT IN ITS PLACE AT ONCE

(Special to The Daily News.)
London, Feb. 14.—The British Parliament reassembled yesterday on the tip-toe of expectancy. Great curiosity was evinced on all sides as to how the Premier would meet President Wilson's latest declaration and the dissatisfaction which has been manifested by a section of the press and the

public over the Versailles Council. Declaring absolutely that he would not yield on the matter of revealing more about the doings of the Supreme War Council of the Allies which met at Versailles the other week, the Premier challenged the House, if it were dissatisfied with the Government's conduct of the war, to put another government in its place.

BEEFLESS DAYS ARE NOW TO BE ALTERED

(Special to The Daily News.)
Ottawa, Feb. 14.—The food controller's regulations in respect to serving beef and bacon in public eating places in Canada have been amended. Wednesday and Friday of each week are now to be Canada's beefless and porkless days, instead of Tuesday and Friday, as heretofore.

This change is effective on and after yesterday, Ash Wednesday, the beginning of Lent. Under the amended regulations, beef must not be served at more than one meal on any day, while its use on Wednesdays and Fridays is absolutely prohibited. This same rule applies to pork.

GERMAN OFFENSIVE COMING IN MARCH

(Special to The Daily News.)
British Headquarters, France, Feb. 14.—Some time in March has been set by the Germans for at least one offensive on the British front, according to the German prisoners who have just been captured. These captives did not know whether it was a general offensive operation that was intended at that time.

The statements of the prisoners are causing no surprise in view of the extensive preparations that are being made by the enemy all along the front, and the remarkably fine drying weather that has now continued for several days.

COL. REPINGTON WILL NOW BE PROSECUTED

Bonar Law, Leader of the Commons, Announced Yesterday Action Would be Taken Under D. O. R. A.

(Special to The Daily News.)
London, Feb. 14.—Mr. Andrew Bonar Law, leader of the House of Commons, and Chancellor of the Exchequer, announced on the floor of the House today that action would be taken under the "Defence of the Realm Act," against Colonel Repington, the military correspondent of the Morning Post, for an article appearing in The Post on Monday. Information against Colonel Repington and the editor of the Morning Post were later on lodged with the police officials. Mr. Law said that the charge lay against Col. Repington on account of his revelations of the conclusions reached at the Supreme War Council at Versailles lately. Colonel Repington, it will be remembered, severed his connection with the London Times and Lord Northcliffe only recently, when he criticized the attitude of Lord Northcliffe towards the government very severely, but he did not leave the government alone either. After breaking with Northcliffe, he immediately started writing for the Morning Post.

ROUMANIA IGNORES GERMAN ULTIMATUM

(Special to The Daily News.)
Washington, Feb. 14.—Roumania has ignored Germany's twenty-four hour ultimatum to "conclude an immediate peace," and has declared her intention to survive or perish with the allies.

GERMANS MASSING TROOPS AGAINST THE SWISS BORDER

GERMANS OPENLY BOAST THAT SWISS FORCES WOULD GIVE GERMAN ARMY LITTLE TROUBLE—SWISS WONDERING WHETHER TREATY FOR SWISS NEUTRALITY IS ANOTHER "SCRAP OF PAPER"

(Special to The Daily News.)
Zurich, Feb. 13.—After Belgium, is it Switzerland's turn next? The people of Switzerland have reason apparently to ask themselves this question on account of the manner in which Hindenburg is massing troops against the French right flank, with vast stores of ammunition and guns. The people here are asking themselves whether the treaty guaranteeing the neutrality of Switzerland is to be regarded by the Germans as just another "scrap of paper."

Germans in Zurich are openly boasting that Ludendorff can smash the Swiss army in a few hours. The Prussians, while gorging themselves on the little republic, brag that they could occupy this city the first day they set foot inside the Swiss border. They declare that Switzerland's fifteen hundred machine guns, sixteen six-inch guns, eighty batteries of three-inch field guns, and the small stock of ammunition which they possess is insufficient to cause them much trouble.

The Swiss army is very highly trained and every Swiss is a trained marksman from the time he can handle a rifle. The standard of marksmanship attained by

GOVERNMENT MAY TAKE OVER G. T. P. RAILWAY

Likely to be Operated Along With C. N. R. and Other Government Owned Lines—C. P. R. to be as at Present.

(Special to The Daily News.)
Ottawa, Feb. 14.—The belief is growing at the capital that the government will take over the G. T. P. and operate it in conjunction with the Canadian Northern, the Intercolonial, and other publicly owned railways, through the railway war board. The C. P. R., if it is considered, will be left as a privately owned line, competing with the government lines, but under more control than at present. In certain quarters it is not considered that the people of the Dominion are getting a square deal in this railway proposition, insofar as the government apparently intends to saddle the people with the non-paying lines, and leave the C. P. R. which does pay a dividend, and whose stock is always at a premium, to continue to do so. The railway situation in Canada, it is held, ought to be dealt with as a whole, and if the government take over the G. T. P. it should also take over the C. P. R. upon the same basis.

AUSTRIA MAY MAKE A SEPARATE PEACE

London, Feb. 14.—According to a correspondent of the Daily News facts are known which bring the possibility of a separate peace between Austria-Hungary and the allies much nearer. Great reluctance, he says, is manifested in Austria towards the prospect of fighting the British and American troops on the western front.

DELEGATION TO GO TO OTTAWA TO PROTEST RE REGULATIONS

INDIGNATION MEETING IN EMPRESS THEATRE LAST NIGHT DECIDES THAT DEPUTATION SHOULD GO EAST REGARDING FISHERY REGULATIONS FOR THE SKEENA—SPEAKERS UNANIMOUS

The indignation meeting which had been called for last evening in the Empress Theatre was attended by a goodly proportion of the fishermen in town interested in the regulations, but the general public, who are also very much interested in these fishery regulations, only they don't know it, was conspicuous by its absence.

Mayor McClymont called the meeting to order and invited those who were prepared to voice their ideas to come on the platform. Mr. Robert Hannah was the first speaker, and from his wide and long experience on this coast, he showed convincingly why it was that the Skeena fishermen wanted to use gas boats. Conditions on the Skeena are altogether different from those on the Naas, or at Rivers Inlet. At Rivers Inlet, where the fishermen had no use for gas boats, there was no current. It was an inlet twelve miles long with eight canneries, and fishing there could be done just as well with a skiff as with a gas boat. But on the Skeena, where there was such a strong tide, once the fishermen had drifted down, it was impossible for them to buck the current with a sail boat. They had to wait until the tide turned, so that they could only make one drift per tide. Whereas, with a gas boat, they could make two.

There were numerous fishermen who came north to the Skeena who had gas boats on the Fraser. The Skeena season being earlier, they could fish it, and get back south in time to get the run on the Fraser. These men were compelled to take Cannery boats when they came north, as they could not fish with their own gas boats.

"Bob" was very much against sending any old delegation to Ottawa, who might be paying more attention to their own personal interests than the fishery regulations. He thought that the best thing to do was to send Mayor McClymont, who had the confidence of the people.

The second speaker was Mr. T. L. MacLennan, who thought the canneries were having it all their own way at present, as they have had it in the past. He was against all traps and purse seines which he considered were detrimental to the fish. At the present time, by being compelled to use sail boats, the fishermen were denied an open market, which they would otherwise get had they gas boats which could take them round. This state of affairs, of course, was just what the canneries wanted.

Mr. Geo. W. Nickerson followed, who said that while about 90 per cent. of the fishermen of the city were probably on the water, he expected that some of the thousands residing in this town, living off the fishermen, and dependent upon their business, would have taken enough interest in their affairs to at least attend this meeting. Mr. Nickerson showed how that practically the whole coast of British Columbia had been tied up to some twenty-nine different firms in the shape of special privileges for fishing. These different fishing areas which were closed to the ordinary fishermen probably comprised some two thousand miles of coast line. Captain Rorvik of this city was denied a licence, and Captain Gillat of Queen Charlotte Islands had had an application in for three years and he had not received any

licence yet. Still the New England Fish Co. could get practically the whole of the West Coast of Graham Island restricted for their own special benefit, whenever they asked for it. That was sufficient to show the condition the Department of Fisheries was in. Mr. Nickerson considered that the city council did not need to call this meeting. The matter has been thrashed out so after that the people of the city are practically of one mind in the matter, and their knowledge of the facts already was probably the cause of the small attendance. He thought that the council had sufficient leverage on which to act without calling this meeting at all. The people in the east are crying out for cheaper food. The fish are here waiting to be got, if we can only get at it, despite the efforts of the cannery monopoly. The canners did not depend upon sending telegrams to Ottawa when they wanted anything. They went right there, and stayed there until they got what they wanted. Prince Rupert's last delegation had hardly left Ottawa, until the canners had their representatives there finding out what had been done and doing their best to counteract it, which, you see, they have done.

Captain Rorvik followed. He also considered that the City Council should have been able to decide for themselves whether to send a delegation to Ottawa or not. A delegation should be sent, he thought, and should stay right there until they got what they wanted. There were many who were fishing halibut at present, who would engage in the salmon fishing, but not in an open, leaky sail boat, with no protection from the weather. He considered that the halibut was going to be much scarcer in the near future, but there was no cannery association to jack up the government to restrict the number of halibut fishermen.

Mr. Fred Stork was called upon. He did not like the idea of restriction of the number of fishermen, nor yet the number of canneries as was proposed, for the next five years. He compared the manner of doing things in B. C. with the way the same things were conducted in Alaska, where the fishing industry was increasing by leaps and bounds. He stood for equal rights for all, fishermen as well as others, and special privileges in fishing, as in other things, for none. Mr. Stork was not very much impressed with the Royal Commission which the government had appointed to come to this coast and take evidence. Nor was he any the more impressed with the recommendations which were said to be contained in their report. He thought that the matter—

LA BELLE FRANCE
One of the most notable things which the allied soldier takes heed of on arrival in France is the manner in which the population of the country districts cling to the poor remnants of their homes, such as have been left surviving from the tide of German invasion.

now are thousands of fruit trees to take the places of those destroyed. New fruit stock has already been budded upon the stumps of the trees cut down by the vandals, and even last summer fresh growth was to be seen upon the trees which the foe had hoped to make useless forever.

As close behind the fighting line as it is possible to get, the sturdy peasant is once more tilling the fruitful soil and restoring that orderliness which is characteristic of the country districts of France. Their faith in the ultimate success of the allied arms is unshakable.

It will take years and years of steady work to restore the ruined portions of France to their pristine state. The work is of immense proportions, and will hardly be completed by this generation. The outward evidence of the gradual progress of the last hundreds of years in this part of France has been obliterated by the modern high explosives, and the French people, with the assistance of their friends, are having a tremendous opportunity for landscape and town-planning on such a scale as otherwise would never have been offered.

The work of reconstruction is greater in a material sense in France than in the other. What the Huns could not take away with them, they destroyed, rendering the whole countryside as inhospitable as possible for first, the allied armies, and secondly for the French people, whose resilient spirit they would break, if they could. Houses, factories, fruit and shade trees were wantonly destroyed. They could not be taken for the enrichment of Germany.

The new France will arise the more glorious, reborn like the phoenix, and purged with fire.

NOTES AND COMMENTS

The Kaiser says that a victorious Germany must first be recognized before peace can come. Hot air, Wilhelm.

Germany is still at war with Russia, but the Russians won't fight. What will they do about it?

Sir Robert Borden sprung his conscription policy upon an astonished Canada after his return from the last Imperial War Cabinet conference. What will he spring when he returns from the next one?

There have been all kinds of -less days. The one the most welcome would be the profitless day.

If Hindenburg intends really to be in Paris by April, he will have to get a move on. The roads will be in worse condition for Germans now than in August, 1914.

As a party of dusky bearded men from Scinde came off the steamer yesterday on their way to

Insomnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health.

Mr. F. C. Voigt, Rapid City, Man., writes:—"For several years I suffered from indigestion, nervous debility, insomnia and constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a 'J. B. L. Cascade' and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the 'J. B. L. Cascade' as a Godsend to me."

The "J. B. L. Cascade" is a perfected appliance for internal bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St., who will be pleased to give you an interesting book called "The What, The Why, The Way of Internal Bathing" on request. Ask for it.

the Queen Charlotte Islands, each grasped firmly along with their kit, an umbrella. The handles were of various sizes and styles, but all were mounted with precious metal. What would happen to a turban in the rain, anyway?

FISHING BOAT HAD HARD LUCK LAST TRIP

Vancouver, February 11.—The schooner Knickerbocker is in port from the north with no fish, but she brought a sheaf of bills which the New England Fish Company will have to pay. The schooner left here three months ago on a fishing venture but had engine trouble soon after reaching the banks and she sailed into Yakutat. The schooner Prospector was sent north to tow the Knickerbocker to Ketchikan where temporary repairs were carried out and the schooner came here under her own power. Extensive repairs will be carried out here. Result of the trip: Fish, none; expenses, \$8,000.

Furniture wanted. Any quantity. Good prices paid for complete household furnishings and all kinds of tools, men's suits, coats, etc. Phone Red 243 or call n F. M. Crosby, 715 Third Ave.

CONSTANT PAIN AFTER EATING

The Tortures of Dyspepsia Corrected by "Fruit-a-lives"

Dr. MARTIN'S, N.B.

"For two years, I suffered tortures from *Severe Dyspepsia*. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth.

I tried doctors, but they did not help me. But as soon as I started taking 'Fruit-a-lives', I began to improve and this medicine, made of fruit juices, relieved me when everything else failed."

MRS. HUDSON MARSHBANK.

THE FREEDOM OF THE SEAS FOR FISHING

"The sea should be free to all men of the country to exploit within the three mile limit," was advocated by Capt. James Stewart of Vancouver, in an interview published in *The Province* in a recent issue. "Let every man who is prepared to equip himself with the necessary gear go fishing when and where he chooses. The only government restrictions necessary are those to prevent the depletion of the spawning grounds and catching fish out of season. These laws should be administered by a Fisheries Board composed of practical men of British Columbia."

Captain Stewart thinks that Ottawa is incapable of handling the Pacific fisheries at such a distance. In this, he is not alone in his opinion. The headquarters of the Fisheries Board are too far away, and they are out of touch with conditions as they exist here. They are dependent for their point of view upon the members of the Advisory Board, who may be fishermen, but more often are not, and upon their local officials, who are not necessarily fishermen either.

"Do away with concessions or licences," continued Capt. Stewart, "and we shall soon have a development of the industry. Concessions are an absolute bar to development. I really fail to see why this government should claim any right to exact money out of the men of this country for either fishing concessions or licences to fish."

WATER NOTICE (Diversion and Use.)

TAKE NOTICE that The British Canadian Lumber Corporation, Ltd., whose address is 509 York Street, Vancouver, will apply for a licence to take and use one cubic foot per second of water out of an unnamed creek, which flows southerly and drains into Masset Inlet, about 400 yards northwesterly from the southwest corner of Lot 1428.

The water will be diverted from the stream at a point about a quarter of a mile from its mouth and will be used for steam purposes upon the land described as Lot 1428, Graham Island.

This notice was posted on the ground on the 2nd day of January, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is January 8th, 1918.

MINERAL ACT

CERTIFICATE OF IMPROVEMENTS

NOTICE
"Molybdenum" and "Success" Mineral claims, situate in the Skeena Mining Division of Cassiar District.

Where located:—About 4 miles Westerly from the head of Alice Arm, and about one mile from the Beach.

TAKE NOTICE that Lewis W. Patmore, Free Miner's certificate No. 14222-C, as agent of the Molybdenum Mining and Refraction Company, Limited, (Non Personal Liability) Free Miner's Certificate No. 10322-C, intends sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of each of the above claims.

AND FURTHER TAKE NOTICE that action under section 85 must be commenced before the issue of such Certificate of Improvements.

DATED this 26th day of November A. D. 1917. F12

WATER NOTICE

TAKE NOTICE that Dolly Varden Mines Company whose address is Alice Arm, B. C., will apply for a license to take and use ten cubic feet of water per second out of Trout Creek, a tributary of Kit-sault River flowing into Alice Arm, Cassiar District. The water will be diverted as the head of the Falls on the former Horde Mineral claim, Lot 3804, and will be used for power purposes on the Wolf and Dolly Varden Groups of Mineral claims being Lots 3794 to 3797 inclusive, and Lots 3192 to 3197 inclusive and Lot 3854, Cassiar District.

Application will be made also for the right to store 350 acre feet in First Trout Lake and 2,200 acre feet in Second, Third and Fourth Trout Lakes. The water will be stored in First Trout Lake by the construction of a dam at its outlet and in Second, Third and Fourth Trout Lakes by the construction of a dam at the outlet of Second Trout Lake. The estimated area of land to be flooded at First Trout Lake is 17 acres and at Second, Third and Fourth Trout Lakes is twenty acres.

This notice was posted on the ground on the 18th day of October, 1917.

A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Prince Rupert, B. C.

The date of the first appearance of this notice in the local newspaper was the 23rd day of October, 1917, and objections may be filed with the comptroller or Water Recorder within thirty days after the said date.

Anyone Can Have Whipped Cream

PACIFIC MILK is so rich in cream that it whips as easily as most of the fresh cream sold around the Province.

Mrs. McCary of New Westminster wrote in to say that she whips PACIFIC MILK regularly for a treat for the youngsters for breakfast. All she does is to set aside the amount she wants, in a cool place, for a time and then beats it with a sieve egg-beater. She puts this on toast and gives it to the children for breakfast. You'll find it is good on cakes and

Keep Chickens

This is National Service

They will help Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A slatted packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.

Write for Poultry Bulletins to

Local News Notes

Mr. J. Mason Adams, of Smithers, was among the arrivals in town yesterday, returning from the south, whither he had been on a visit.

Mr. L. W. Reilly was among the passengers arriving from the south on yesterday's steamer. He has been making a tour of the lower coast cities.

Mrs. C. N. Tubman of the Queen Charlotte Islands, arrived in town yesterday from Vancouver, where she had been visiting. She left later by the Prince John for home.

The fishing boat Alliance has arrived with 6,000 lbs. halibut, and 2,000 lbs. black cod. The price realized was 16 1/2 cents for the halibut and 5c for the black cod.

Yesterday's steamer brought about ninety passengers returning to their homes on the prairie. She had a big passenger list, there being over two hundred and thirty on board.

Mr. Monte Craig came back to the city yesterday after a tour among the southern cities. He hoped to get rid of rheumatism when below, but unfortunately he brought it back with him.

Mrs. E. F. Doby arrived in the city yesterday afternoon by the Prince Rupert. Mr. and Mrs. Doby will make their home here, having rented the house of Mr. and Mrs. Frank Mobley on Fourth Avenue.

Mr. and Mrs. F. L. Buckley of Vancouver, arrived in the city last evening on their way across to Masset. Mr. Buckley is of the Masset Inlet Lumber Co., who have extensive holdings of timber limits there.

The traffic between way ports on this coast is increasing rapidly. The delay in the arrival of the Prince Rupert yesterday was accounted for by the large quantity of freight for and from Ocean Falls and Swanson Bay.

The Prince John had another capacity load of passengers for the Queen Charlotte Islands last evening, there being over a hundred on board when she pulled out. She will be back on Monday from the north end and will leave again for a trip to the southern portion of the islands.

Mr. M. M. Wells, late of the firm of Stalker & Wells, came off the steamer yesterday. Mr. Wells has been invalided and discharged from the army, having been through the fight at Vimy Ridge. He received a hearty welcome from many of his old friends who were on the wharf to meet him.

AT THE WESTHOLME

Tonight at the Westholme Theatre, Charlie Chaplin will again appear. Last evening the house was filled with a delighted audience, who revelled in the ridiculous antics of this famous comedian. There is a subtle something about Charlie Chaplin which appeals to the great majority, ridiculous and all as he is. Everyone is sorry when the end of the reel comes. Last evening the house rocked with laughter from the first scene until the last, and the same thing is bound to happen this evening. Tonight, however, there will be a new five-reel feature entitled "Life's Shadows," in which the stars are William Nigh and Irene Howley. This is one of the Metro productions, which are already famous. The attractiveness of this evening's programme is fully up to the standard.

TUSCANIA VICTIMS NOW NUMBER 159

A Scottish Seaport, Feb. 14.—The American dead as the result of the sinking of the Tuscania apparently now number at least 159. Thus far 145 bodies have been recovered and are buried along the Scottish coast, and fourteen additional bodies were buried today.

NOTICE TO DOG OWNERS

Dog licences are now due for 1918, and same can be obtained at Police Station. All owners of dogs that have not taken out the necessary licence by the 1st day of March, 1918, will be prosecuted.
WILLIAM ADAMS,
Police Constable, Authorized Pound Keeper.

DELEGATION TO GO TO OTTAWA TO PROTEST

Continued From Page One.

ter should be tested out in the courts, in a manner which would wake up this Union Government that the people of this northern country would not stand for this restrictive action.

Alderman Casey, in order to find out the feeling of the meeting was in favor of sending someone opposed to the recommendations of the Royal Commission, and moved accordingly. His motion was seconded by Mr. D. G. Stewart. Mr. J. C. Gavigan moved an amendment that the merchants of the city should meet the expense of this delegation by at least fifty per cent., as they were the ones who would benefit directly from the increased trade, which the opening up of the fishing would mean. He personally was prepared to give \$25 if the delegation was successful, and \$50 if they were not, in order to fight the matter out in the courts. This amendment was seconded by Ald. Kirkpatrick. This amendment, however, on being put, was lost, and the motion was carried.

Mr. Fred Stork suggested that one of the things which would help this matter would be the action of a press committee, to give publicity to the state of affairs as it really exists, so that every newspaper in Canada would be in the possession of the facts. This was agreed, and Messrs. Stork, Nickerson and Doyle were appointed accordingly.

The meeting then adjourned.

An anniversary concert will be held in the Methodist Church on Monday evening, March 4th.

SKENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE.

TAKE NOTICE that I, Charles Joe Benson, of Lockport, B. C., miner, intend to apply for permission to purchase the following described lands.

Commencing at a post planted at north-east corner of the Longfellow Mineral Claim, W. P. Northeast corner No. 1050; thence west 20 chains; thence north 20 chains; thence east 20 chains; thence south 20 chains more or less along shore line to point of commencement, containing 40 acres, more or less.

Akerberg, Thomson & Co., Ltd.

AGENTS FOR Palmer, Fisherman, Anderson, Yale, and Union Engines

Fishermen Notice!

The Cold Storage Fertilizer and Oil Plant at Pacofi is now in operation and will operate all the year round. The company will buy all marketable fish and will also buy Dog Fish at fifteen dollars per ton (equivalent to about five cts. per fish). Bait will be provided free and all supplies can be purchased at the Company's store at reasonable prices.

Special facilities are provided for gas boats and fishermen bringing their gas boats will be allowed \$25 for expenses of trip to Pacofi. The plant is located in the heart of the fishing grounds and dog fish can be caught in great numbers all the year round. Come to Pacofi if you wish to make money every day fishing.
