## RUSSIAN SOVIETS ACCEPT GERMAN PEACE

### GERMANY'S CHANCE--RAIDS AND ARTILLERY DUELS CONTINUE ON WEST FRONT

#### THE ALL RUSSIAN CONGRESS OF SOVIETS HELD AT MOSCOW RATIFIES GERMAN PEACE

THE OBJECT PEACE TERMS ACCEPTED AT BREST-LITOVSK BY LENINE AND TROTSKY ARE ACCEPTED, AND HUGE TERRITORIES OF RUSSIA ARE ABANDONED TO CENTRAL POWERS.

(Special to The Daily News)  
Petrograd, March 16.—The All Russian Congress of Soviets meeting at Moscow yesterday, by a vote of 453 to 30, have decided to ratify the peace treaty made with the central powers at Brest-Litovsk.  
**What it Means.**  
London, March 16.—The action of the All Russian Congress of Soviets in accepting the German peace terms clears the way for an announcement of the intentions of the allies, as regards the intervention of Japan in Siberia. This action by the Soviets in council gives to Germany last opportunities for the political and economic penetration of the former Russian Empire.  
According to the terms of peace which were arranged, Russia must give up Poland, Courland, Lithuania, Estonia, and the Ukraine. In Asia Minor, the Russians are compelled to retire from Armenia,

#### ALLIES TAKING DUTCH SHIPS MAKES GERMANS VERY ANGRY

(Special to The Daily News)  
London, March 16.—The notice served upon Holland by Great Britain and the United States regarding the taking over of the Dutch ships laid up in the allied ports, has thrown the German press into a towering rage. All the newspapers, evidently inspired, judging by the similarity of their arguments, demand that Germany take the most drastic counter measures, if Holland gives way to the allies.  
There are over a million tons of Dutch shipping laid up in the various ports of Great Britain and the United States. Notwithstanding the huge freight rates, the careful Hollander prefers not to risk his neutral ships to the submarine menace, knowing that even after the war, they will be worth more than they cost to build. If the Dutch government does not agree to utilize these vessels for the allies, the allied governments will take them anyway. Germany would hope to make this a cause for Holland entering the war on her side, which would give her control of the little country, with its long coast line, which would be the most suitable for submarine bases.

#### ARTILLERY CONTINUES TO BE ACTIVE ON WEST FRONT U.S. TROOPS TAKE HUN POSTS

GERMAN RAIDING PARTIES REPULSED.—BRITISH CAPTURE PRISONERS IN ENEMY LINES—CITY OF COBLENTZ DEVASTATED BY BRITISH AVIATORS—MUNITION FACTORIES BURNED.

(Special to The Daily News)  
London, March 16.—Hostile raiders were repulsed in the neighbourhood of Paschendale and Poelcapelle last night. West of Villers Gustin, British raiding parties entered the German trenches and took a few prisoners. There was mutual artillery fire throughout the night in the neighbourhood of Armentieres, and south and west of Cambrai, and in the Messines and the Menin road sectors.  
**Trenches Captured.**  
United States troops in the Lunenburg sector have occupied and are holding the enemy trenches to the north east of Badenvillers which they forced the enemy to abandon through the recent raids and concentrated artillery fire.  
**Aerial Activity.**  
There was severe aerial fighting on the Western front during this week. Large groups of British and German fighting machines took part. The British aviators accounted for twenty-four of the enemy's aeroplanes.  
**French Front.**  
Paris, March 16.—There was continuous shelling all along the

front yesterday, according to the War office statement. Three German raids, made by strong forces, failed.  
**Coblentz Devastated.**  
London, March 16.—Monday's air raid made upon the city of Coblentz, on the Rhine, has caused very heavy damage in that city, according to German reports. Two munition factories were reported to be burning. Vast quantities of explosives were continually going off, rendering the efforts of the firemen to extinguish the flames unavailable. The exploding munitions caused great damage to the surrounding buildings, and the fire spread with great rapidity, devastating a large section of the city. In addition to this, the destruction caused by the bombs dropped by the allied airmen on other parts of the town, was immense.

#### GRAVE WARNING UTTERED BY MINISTER

Auckland Goddess, Minister of National Service, Gives British People Food for Thought.  
(Special to The Daily News)  
Bristol, March 16.—Sir Auckland Goddess, Minister of National Service, declared in a speech here yesterday, that the disposition of German armies on the British front was the most remarkable. The German lines have been piled up upon mass, and apparently great effort will be made to break through the British lines. He said that Germany's object was to strike at England, not only the forces of France, but at the very heart of England.  
The minister declared that men of enormous numbers are wanted, including men of fifty years of age, for the duty of home defence.

#### PEACE REPUDIATED BY CAUCASUS GOVT.

Petrograd, March 16.—The Russian Caucasus government refused to endorse the Brest-Litovsk peace treaty. It has declared that it will not hand over three provinces of Kars, Batoum and Erivan to the tender mercies of the Turks. The government is organizing the local forces available, and is making every preparation possible to resist any invasion of their country by the Turkish forces.

#### RAILROAD MEN'S GREAT GALLANTRY BEHIND THE LINES

Among the instances of the gallantry displayed by the Canadian railroad battalions in France, and told in an article by Mr. Roland Hill, the war correspondent, which he has sent to the Militia Department in Ottawa, the following appears:  
"The Canadian railway troops in their spare time have been assisting the hard worked salvage corps. After Paschendale they collected thousands of pounds' worth of British and German shells and hauled them back to the rear on their now famous light railways. Late one afternoon one large dump caught fire, through some spontaneous combustion or perhaps a defective shell, and in the first explosion half a score of men were wounded. A young Canadian Engineer, a sergeant, who in the peaceful days use to drive the Canadian Pacific Imperial Limited from Moose Jaw to the West, in spite of the bursting ammunition backed his little engine into the middle of the dump where the fire was blazing most fiercely. He connected up a hose with his main steam pipe, and for half an hour pumped steam into the burning mass, finally getting the fire under control. His little engine was pitted with shrapnel holes, and his own escape was nothing short of miraculous. Several of the flying fragments tore his clothes. His example rallied the other men and the fire was subdued before very much damage was done.  
"There was \$200,000 worth of British shells in that dump. We could not stand by and see that go up," he explained afterwards.

George Clifford was charged before Magistrate McMullin this morning with theft. The accused was brought down from Usk. His case was adjourned until Monday.

#### PRINCE RUPERT FAIR TO BE HELD THIS YEAR

Last night a meeting was held of the Northern British Columbia Agricultural and Industrial Association, when the officers for the ensuing year were elected. The president is Mr. A. W. Edge, vice-president, Rev. W. A. Collison; secretary-treasurer, Mr. D. C. Stuart; while the directors are Messrs. E. H. Mortimer, T. McMeekin, H. Rochester, Ben Self, J. Venables and Geo. W. Morrow.  
The matter of holding the Fair as usual was discussed at some length and it was finally decided that the Fair be held as usual. The chairman will appoint committees and another meeting of the directors will be held next week.

#### GREAT BRITAIN FAST BECOMING TEETOTAL

(Special to The Daily News)  
London, March 16.—That the consumption of intoxicating liquor in Great Britain is now only one third of what it was four years ago, is what Premier Lloyd George declared in an address to the Free Churchmen at the City Temple yesterday, when he was challenged about the drink traffic. No spirits were being manufactured at all, he said, and anyone who, four years ago, should have predicted such a thing would not have been believed.

#### HOW TO BE IN THE CABINET WITHOUT BEING ELECTED

WITHOUT BEING ELECTED TO PARLIAMENT, BEING DEFEATED IN TWO CONSTITUENCIES, HON. P. E. BLONDIN MAY REMAIN AS CABINET MINISTER AS POSTMASTER GENERAL—SETS PRECEDENT

The following disquisition by the Ottawa correspondent of the Toronto Globe, in its last issue to reach here is doubtless preparatory to action along the lines indicated by the government. It is of interest, insofar as it shows how, for their own purposes, the whole idea of the electoral system of parliamentary representation may be done away with.  
**Article reads:**  
While it is certain that the resignation of Hon. Albert Severyn as Minister of Inland Revenue will be accepted by the Prime Minister, it is understood that there is some question as to whether or not Col. the Hon. P. E. Blondin, the Postmaster-General, will at once retire from the Cabinet. Although Col. Blondin was defeated in both constituencies in which he ran in Quebec, and would therefore naturally not be expected to remain in the Cabinet without a seat in Parliament, the Prime Minister is confronted with the other anomaly of leaving the French-Canadian population without a representative in the Cabinet or control of a single department of State.  
Under the circumstances the suggestion has been made that one temporary though not altogether satisfactory expedient might be to transfer Col. Blondin to the Senate as soon as a vacancy from Quebec occurs, and leave him still as Postmaster-General. He would probably remain over-seas during the session of Parliament, and Hon. C. J. Doherty would then continue acting Postmaster-General, thus keeping this big department of state still administered by a Minister from Quebec. While this scheme might be considered as more or less of a camouflage for French-Canadian representation in the Government, it is possible the only compromise that could be affected for the present, since there seems to be little chance of electing a French-Canadian Unionist from Quebec until the present antagonism toward the Government and the Military Service Act has died down.

#### JAPANESE ARE MURDERED BY BOLSHEVIKI

One Hundred and Fifty Japanese at Blagovieschtchensk Reported Killed by Maximilists.

(Special to The Daily News.)  
London, March 16.—In anticipation of the invasion of Siberia by Japanese military forces, it is reported that the Maximilists there have murdered one hundred and fifty Japanese residents in the town of Blagovieschtchensk. This town is situated on the Amur railway, close to the border of Manchuria, and is the capital of the Siberian province of Amur. It is an important trading and gold mining centre, as well as a military post. There are many Japanese settlers along the line of this railway, and since the proposal of Japan to come to the assistance of the Russians against the Germans, the Maximilists have been arming and doing everything possible to resist the invasion of the Japanese.

#### A NEW WAY TO MAKE COKE FROM SAWDUST

Victoria, March 15.—In addition to the reported discovery of hematite iron ore at Ladysmith, an extremely interesting side light on the matter of iron production is reported in the discovery by Walter Thomas, a Nanaimo gas engineer, of a method of producing a highly desirable coke from mill waste, sawdust and such material. This coke runs as high as 94.04 fixed carbon, and as low as 2.70 ash. This discovery, it is claimed, may prove to be one of the most valuable metallurgical discoveries of modern times, and will be invested by the Provincial Government.

#### FRANK MCKINNON OF HAZELTON, DIES IN VICTORIA HOSPITAL

Word has been received in the city of the death of Mr. Frank McKinnon of Hazelton, one of the real old timers of this northern country. One of the best known of the mining men of the north, Mr. McKinnon had a wide circle of acquaintances, who will heartily regret to hear of his passing. About a month or so ago, Mr. McKinnon passed through the city on his way south from the Omineca country, but while in the south, he took unwell, and finally had to go into the hospital there. An operation was performed, from which he did not recover. Confirmation of his death was received in Hazelton on Wednesday from Victoria.

**THEFT.**

Peace has been declared between the governments of Germany and Russia, but in keeping with his already proven disrespect for his written word, the signing of the peace treaty does not restrain the German from continuing in his warlike acts against the troubled country of Russia. Not content with taking large provinces from the Russians, at a time when they were helpless to prevent them, the Germans have penetrated far inland in Russia, and as they make progress are denuding the countryside of anything which is of value to them. If they capture the immense stocks of grain, which are stored in Russia, the problem which famine threatened to cause to the German and Austrian populations will be largely solved, provided that German ingenuity can overcome the difficulties of transport, which in Russia, are huge. In peace times, it would be an easy proposition, when materials were cheap and plentiful, but now, even Germany finds it difficult to lay another mile of railway.

The declaration of peace existing between the two countries, apparently means little to the German commanders. It is only since the time that peace has been signed that they have dared to penetrate into the interior of Russia. Their advance guards are reported to be in Odessa, with its huge grain warehouses bursting and overflowing with the past season's crops. Action of this kind is quite in keeping with the Prussian character. This is not the first occasion upon which as a state, they have stolen from their neighbors. Already the spirit of the Russian peasant is becoming aroused against the invaders. Long suffering as they have been, the Russian peasant, who form the great bulk of the population of the country, may yet have something to say to the German which he will not relish, even although they have already been betrayed by the

Bolshevik government, headed by Lenin and Trotsky.

Germany apparently hopes to bolster up her position in the sight of her people, by this advance through Russia. In their eyes, it will be justified, so long as it brings enough to eat. Already the people of Germany are in revolt against any further continuance of the sacrifice they are being compelled to make for—what? They are asking themselves that now, and when they discover the proper answer to that question, things will begin to happen, and with startling suddenness.

**SPRING CHICKEN.**

Four and a half tons of chicken have already been destroyed in Winnipeg, as being unfit for human consumption. These were inspected in the storage plant of the Davies Coy., and forthwith condemned, while another six tons is undergoing inspection. This is not the first occasion on which this matter of food in cold storage having gone wrong, has been brought to the attention of the people of Canada. It becomes all the more reprehensible at this time when the government is exhorting upon the individual to save food stuffs in every way possible. The four and a half tons of chicken would more than make up for four and a half tons of beef, which is so urgently needed for overseas. The very allowing of food stuffs to be wasted in this season should be made a criminal offence, as indeed it is a criminal act against the remainder of the people by the perpetrators, morally if not legally.

According to the Food Controller, an order-in-council awaits the signature of the Governor General giving the Food Board power to punish in such cases, and apparently such power is needed.

It would be interesting, however, to see the Food Controller prosecuting Sir Joseph Flavelle, as head of this company, for wasting food. In Great Britain, it was common at first, for there to be many police Court cases for waste of bread, and a few examples brought

home to the people just what they were doing. Canada, however, has not felt the pinch yet, although it will assuredly come, and the sooner the Food Controller gets down to really controlling, the sooner will there be a closer approximation between the quantities of food raised and the quantities consumed. When absolute waste and excessive profits are cut out there should be a greater quantity of food available, and a cessation in the ever upward trend of prices.

**RUSSIAN PEASANTS START GUERRILLA WAR AGAINST GERMANS**

Petrograd, March 15.—The peasants in the district of Polotsk are up in arms, and are conducting a guerilla warfare against the German forces now occupying that region. Many of the bands of peasants consist of the soldiers who have been disbanded, they having retained their rifles, and apparently have good stores of ammunition. Heavy losses have been inflicted upon the German detachments, and notwithstanding the severe measures which the German commanders know so well how to take, the numbers of the armed bands are increasing.

ALLIES HAVE PERFECT CONFIDENCE IN JAPAN

London, March 15.—Mr. Arthur Balfour, speaking in the House of Commons upon the situation in the East, expressed his perfect confidence in the absolute loyalty of Japan in the carrying out of any decision which might be reached. He declared that no distinction can be drawn between Japan and other of the allies.

ONE SAMMY BEATS OFF FORTY GERMANS

With the United States Army in France, March 15.—A lone American sentry this morning attacked an enemy patrol of about forty men, some of whom had stealthily entered the advanced American trench. He drove them off, killing the leader and wounding others. The sentry saw the patrol advancing and looked on as the Germans began to drop cautiously. They were not quick enough, however, for the sentry's bullets caught some of them. A small enemy patrol of four men then joined in the fray, and assisted to speed the parting guests, with hand grenades.

About twenty of her young friends made up the party and accompanying them was Harvey's orchestra. A very pleasant time was spent. ### AT THE WESTHOLME

The programme offered tonight at the Westholme theatre is a very full one, and is sure to please all the audience. There is a five reel film drama, combining all the thrills and sensation of a melodrama, yet it is not one of the impossible kind. It deals with the everyday affairs of this life, affairs, some of which have happened to most people at some time or other. "The almighty dollar" is a play that will be appreciated by all who see it. The stars in this drama are of the front rank, and June Elvidge has very many admirers here. Then there is a Triangle comedy, which is one of the best. It is full of fun, pure and simple, with a dash of mystery to lend a spice to the expectation; while to complete the programme, there is a war Gazette. This is showing some of the latest scenes in connection with the great armies which the allies are piling up for the final defeat of the Germans. It is well worth seeing.

## Insomnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health.

Mr. F. C. Voigt, Rapid City, Man., writes:—"For several years I suffered from indigestion, Nervous Debility, Insomnia and Constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a "J. B. L. Cascade" and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the "J. B. L. Cascade" as a Godsend to me."

The "J. B. L. Cascade" is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Cyril H. Grime, Druggist, cor. 3rd Ave. and 6th St., who will be pleased to give you an interesting book called "The What, The Why, The Way of Internal Bathing" on request. Ask for it.
