FIGHTING ACTIVITY HAS NOW SLACKENED

BOTH SIDES NOW TAKING A BREATHING SPELL BEFORE BATTLE BREAKS AGAIN

MILITARY OPERATIONS IN FRANCE AT A STANDSTILL. CALM BEFORE THE STORM

GERMANS, WORN OUT BY THEIR TWO WEEKS' FIGHTING, ARE A LITTLE BETTER OFF, FOR ALL THEIR PROGRESS—PREPARING FOR ANOTHER BLOW—SITUATION STILL REMAINS WITHOUT CHANGE

(Special to The Daily News)
London, April 4.—Military operations are almost at a standstill on the sixty mile front from Arras to Chauny, but it is an ominous calm. At any hour the storm of battle, which has been quiet for the last two days, may again beat madly over the plains of Picardy.
Their great attack stemmed, and their countless efforts to find a weak place in the allied line resulted with heavy losses in every case, the German leaders are probably preparing for another surge towards Amiens. Where the next stroke will be delivered is uncertain at the moment, but the Albert-Monfidiere section of the battle line is almost certain to be included.

No Change.
London, April 4.—An official statement issued by the War Office last evening stated: "Regarding the operations in France, there is no change in the situation. A high tribute to the air-arms from the United States is also paid by the War Office statement on aerial operations."

French Airmen Busy.
Paris, April 4.—The War Office reports that more than thirteen tons of projectiles have been dropped on the German railways and cantonments at Ham, Chauny and Noyon, and also in the region of Boys on the Arras front. These reports are all within the territory occupied by the enemy as a result of his latest advance.

Artillery Active.
London, April 4.—In the vicinity of Lens, artillery duels of great intensity have been revived on some sectors, and in Belgium at various points, reciprocal shelling continues.

Blame Bad Weather.
Amsterdam, April 4.—German troops yesterday captured the heights southwest of Moreuil on the Somme front, according to an announcement made yesterday by the German General Staff. A new assault by the British troops against Ailette was repulsed by a counter attack.

Italian Front.
London, April 4.—In the Italian theatre there is no indication of when the expected big battle between the Italians and the Teutonic troops will burst, but daily there has been an increasing activity all along the front.

FEDERATED LABOR PARTY ORGANIZE

On Tuesday evening in the Carpenters' Hall, another meeting of the Federated Labor Party was held in order to complete their organization for the Prince Rupert district. Mr. J. J. Gillies presided. A publicity committee was elected, the members of which consist of Messrs. F. Shaw, W. H. Derry, O. A. Rogers, MacDonnell, S. V. Cox, W. S. Hammond, and G. A. McNeil, together with R. J. T. Rose, the financial secretary.
Messrs. McDonnell, W. E. Thompson, Casey, Fred Shaw and R. J. T. Rose were also appointed to attend the meetings of the local unions, and to ask them to become affiliated with the Federated Labor party. The membership of the new organization is steadily increasing, and that it could be still further increased was pointed out by Mr. Fred Shaw who was in favor of a personal canvass being undertaken by each member individually for new members, which he was sure would be efficacious.

An educational committee was also appointed, composed of Messrs McDonnell, Morse and Gillies, while the social committee is made up of Messrs. S. V. Cox, W. H. Derry, A. Ellis, and R. J. T. Rose. A spirited valetour address was also given by Mr. Walsh, the cigar maker, who is compelled to leave the city.
Another meeting will be called by the executive in the near future.

EMMY WEHLEN AT THE WESTHOLME

One of the brightest stars in the theatrical firmament is billed to appear at the Westholme this evening, in the great photoplay called "Vanity." Emmy Wehlen has already taken London by storm in "The Dollar Princess" and "The Merry Widow," and little more than two years ago she appeared on this continent in "Tonight's the Night," and she is equally good on the screen as she is on the stage. The play in which she appears here is one that suits her wonderfully, and she makes the most of it. As the modiste's model, she is wonderful, and no less so when she appears as the mistress of a handsome apartment, and beautifully gowned. How she is able to foil the deductions of a crooked detective, and put one over him in the interests of justice as against mere law is something worth seeing.

Then there is Billie Burke as well. She appears in the seventh chapter of the serial now running "Gloria's Romance." Billie Burke is an attraction in herself, and the interest she has created in the doings of Gloria is not little. Tonight's programme is certainly a good one.

A NEW MOVEMENT FOR FOOD CONSERVATION

Yesterday afternoon at four o'clock a meeting of the retail merchants of all the different classes of business, which had been called by Mr. D. G. Stewart, the local chairman, met in the City Hall for organization purposes. This new organization has been planned by the Canada Food Board, and it is intended to have a direct effect upon consumers of every class in the direction of food conservation, the elimination of waste, etc. Mr. D. G. Stewart presided over the gathering, and briefly outlined the work of conservation which it is intended that this organization will undertake.

Committees covering the different branches of business will be formed by the members thereof, and the following were appointed chairmen of the various committees:

Grocery—Mr. G. H. Munro; drygoods—Mr. D. Jabour; boots and shoes—Mr. Lando; gents furnishings—Mr. Bryant; hardware—Mr. Thompson; butchers—Mr. H. Atkins; stationers—Mr. Wrathall; druggists—Mr. McCutcheon; tobacconists—Mr. Gilhuly; restaurants—Mr. Ben Self; fruit and candy stores—Mr. Killias; furniture stores—Mr. Geo. Tite; second hand stores—Mr. F. M. Crosby; fresh fish handlers—Mr. Thompson; jewelers—Mr. Bulger; photographers—Mr. Benson; bakers—Mr. Currie; grain and feed—Mr. Trotter; milkmen—Mr. McKay; transfer men—Mr. S. E. Parker; ship chandlers—Mr. H. Lipsett.

Mr. J. C. Gavigan was appointed secretary pro tem. A propaganda of an educative nature will be carried out, tending for the conservation of the most necessary and the scarcest of food stuffs, partly by the cutting out of all waste, and partly by the substitution of other varieties of foodstuffs which are available here, which will thus relieve the more essential articles for consumption overseas.

WILL SPEND \$20,000 ON SKIDEGATE PROSPECT

It is learned that considerable development work has been and is still being done on the South Easter property at Skidegate, on the southern portion of the Queen Charlotte Islands. Considerable sums of money have already been expended proving the property, and many thousands more are available for development. The Cobalt Concentrators, Ltd., one of the strongest companies in Ontario, are the owners, and they are going right ahead with the work. It is a gold proposition, and it is thought that the lead runs right on to the Indian reserve at Skidegate. A small mill has already been installed, and work of development is being continued uninterruptedly. A gang of men have been working steadily for some time now, and as opportunity affords the number of men employed will be increased.

The success of the operations so far is causing great satisfaction to all concerned, and this property promises to be one of the big producers of the coast before very long.

The Rev. Dr. Grant will address the St. Andrews Society on Friday evening, taking for his subject "Some leaves of Scottish History." 79

MUCH OFFICIALDOM IS BAD FOR PROGRESS

Yesterday morning before Magistrate Carss in the police court here, Captain A. C. Gillen, of the "Molly C." was fined in the sum of \$100, being the minimum penalty for the offence he had committed as far back as last September. Mr. W. E. Fisher prosecuted, while the accused was defended by Mr. W. E. Williams.

The charge was laid by Mr. A. Farrow, steamboat inspector, and was to the effect that the "Molly C." not being licenced to carry passengers, did do so, between the points of Prince Rupert and Cape Fife, on the Queen Charlotte Islands.

The facts of the case as brought out were that last September the Molly C. was taking over to Cape Fife a quantity of mining machinery and equipment for the development of certain mineral prospects there. These were situated at a point where no large steamers go, nor could go, on account of the conditions. As machinery and equipment are no use without men to use such, a small number of men, belonging to the party of Dr. Telford of Vancouver, boarded the vessel before she left Prince Rupert. The captain demurred at first, seeing he had no licence to carry passengers, but as neither had any other small boat capable of taking the party from here, he was prevailed upon to accommodate the men.

This happened as far back as last September, although the charge is only being laid now. Mr. W. E. Williams, counsel for the defense made some vigorous statements on this case, which he considered savored of "too much officialdom." Agreeing that laws and regulations were for the protection of the public, they should not be used for the hindrance of legitimate enterprise. The lack of discretion in applying the law, he considered, when no harm was being done, would not be conducive to the development of this district, nor yet to the upbuilding of Prince Rupert as a city. He contended for a much more sympathetic interpretation of the regulations on the part of the government officials.

The charge being laid, and admitted, the minimum penalty of \$100 was imposed.

THEY CANNOT DO IT-- THEY HAVE NOT GOT IT

(Special to The Daily News)
London, April 4.—The Austro-Hungarian foreign minister, Count Czernin, in an address to the Vienna Municipal Council, has declared that Austro-Hungary did not intend to go abegging for peace, but would enforce it by "our moral right and physical strength."

QUEBEC IS ORDERLY

(Special to The Daily News.)
Quebec, April 4.—The city of Quebec was again orderly last night, under military control. Several arrests were made during the day by the military authorities.

Constable Evans at Bella Bella charged a Japanese named Hoshi with a contravention of the Prohibition Act. The accused was fined \$50 by Dr. Darby, J. P., at Bella Bella. Eleven bottles of fine old rye were confiscated. Judging from its appearance, it looks to be good stuff. Before Stipendiary Magistrate Dr. Quinlan at Ocean Falls, Joseph Ingram was also charged with the same offence, and was fined \$50.

GERMAN THREAT AGAINST AMIENS IS NOT SERIOUS

(Special to The Daily News)
Paris, April 4.—The threat of the German advance against the city of Amiens is not considered to be very serious here. While it is agreed that the capture of the city is the immediate objective of the German forces and although they are only eleven miles away, as the crow flies, confidence is expressed here that this is as far as the enemy can get. The lines of the allies are strongly held, and that Hindenburg can smash his way through the defenses is considered improbable, notwithstanding all the force which he can employ on the narrow front.

It is recognized that this point may be true, but not in the sense which the Germans expect.

MASSET INLET IS NOW A VERY BUSY PLACE

According to information brought over by Mr. Tom Deasy, Indian agent at Masset, conditions on Masset Inlet speak well for the development on a very large scale of the lumber industry. Logging operations are going ahead full swing, and more and more men will be employed as soon as the full amount of equipment can be got in.

There are at present about five hundred men employed around the inlet at the different camps, and the construction of the new mills is proceeding apace. Good wages are being paid, and there is a lot of construction work to be done to take care of the ever increasing population.

There are several new launches engaged in towing and other business arising on the Islands, and with development going on all over, this summer promises to be one of the busiest ever in the history of the Islands.

BIG AMOUNTS OF AMERICAN CAPITAL COME TO PRAIRIES

Winnipeg, April 3.—American capital, attracted by the high price of farm produce, is seeking investment in farm lands in Western Canada as never before.

A cash consideration of \$325,000 has been advanced by a Chicago syndicate for a "going" farm of 5,400 acres near Tomkins, Sask.

A syndicate of Southern Minnesota and Iowa farmers has bought 7,000 acres near Invermay, Sask., the cash consideration being over \$600,000. The land is for the American farmers' sons and they will come west with their families and livestock within the next two weeks. They will break land this spring for flax and oats and prepare for a big crop next year.

SHIPPING LOSSES

(Special to The Daily News.)
London, April 4.—Only six British merchant ships of 1600 tons or over, and seven under that tonnage, were sunk in the week ending March 30.

Mr. Hicks of Port Clements, is in the city on a business visit. Mr. Hicks is retooling his pool room and news stand is the social centre.

Ladysmith Wellington Coal reduces your fuel bill and gives satisfaction. Phone 15. P. R. Coal Co.

must be protected at all costs, because it is the link between Paris and the Channel ports. If the Germans break through here it would separate the British and French armies, and would afford to Hindenburg that which he has been doing his best to achieve, and give him an opportunity to attempt to defeat each of the armies in detail. The danger grows less as time passes. Germany has staked her all on the result of the battle, which one German newspaper said the other day would decide her future position in the world. Possibly this

Mr. Tom Deasy of Masset, is spending a day or two in the city and is leaving tonight for Vancouver.

GAME WARDENS ARE NOW ALL DISMISSED

Victoria, April 3.—A clean sweep of the game wardens of the Province has been made by the Provincial Government preparatory to the passing of the act now before the Legislature whereunder a reorganization of that branch of the Attorney-General's Department will be made and hereafter the administration of the game regulation will be turned over to the Provincial Police Department.

Under the change Mr. A. Bryan Williams, chief game warden for a number of years, is deposed, notice of the revocation of his appointment being contained in the current week's issue of the Provincial Gazette. With him go forty odd game wardens in various parts of the Province, all of whom received short notice that their services were dispensed with and will be out of office at the present month's end.

Under the new act to be considered by the House it is proposed to establish a Game Conservation Board, consisting of the curator of the Provincial Museum and a new official to be appointed, and known as the chief game inspector, as ex-officio members, and three other members to be appointed by the Government, the board to meet four times a year and receive and consider suggestions for the conservation of game.
The superintendent of Provincial police will be ex-officio, the Provincial game warden and every Provincial police officer and constable will be ex-officio game wardens.

DEMOCRACY

There are many words nowadays, which are used loosely, and in many cases without a very definite meaning. One of these words is "democracy." The war is at present being fought between democracy and autocracy. The fight is for the survival of the one of two forms of government. Everyone can understand that, so far. Again, writers on industrial reconstruction are unanimous in advocating a system under which workpeople will have greater and more immediate and direct interest in their work, but they part company when they attempt to define the term "interest." Some who take a rather mechanical view of industrial society think of "interest" as stimulus to work, and look to a system of payment by results to produce the desired effect, or to some more ambitious scheme, wherein, for example, in the interests of national efficiency, labor and capital should be guaranteed "values," the surplus values of each industry being placed in the hands of a national co-ordinating body for distribution in such a way as will benefit the nation as a whole. A considerable step in this direction has already been taken during the course of the war.

To very many people, workmen seem to require a wider interest than that secured by a financial stimulus to work. National councils and workshop committees have been suggested, and in Great Britain, in some industries, already established, for the purpose of enabling the employees to voice their other needs, and to play a greater part in determining the objective conditions of work.

But even this fails to satisfy those extremists who aim at complete "democratic control of industry." What exactly industrial Bolshevism aims at—if, beyond a vague idea of revolt against any authority other than its own, it has any constructive aim—it is by no means easy to say, for its ad-

vocates never disclose just what they mean by democracy.

Democracy, many people have pointed out, means different things to different people. Some use the term simply as meaning one man—or woman—one vote, and a vote for everybody. Others judge democracy by results. And of these one section will say that another finds the real test in the degree of correspondence between the government and the "general will" of the community, regarding that as the "divine average" or something else.

Similarly with "equality," which is so often accepted as an ideal to be aimed at. Equality of opportunity implies the "right to rise," which itself assumes final inequality. And equality of opportunity is also contrary to the ideal of industrial democracy, as exemplified in the craft unions, which owe their success largely to their policy of restricting numbers, and placing obstacles in the way of those who wish to enter by some other gate than that of approved apprenticeship. Thus, before proper judgment can be given on the merits of the claim to "democratic control of industry" much more information is required on its philosophic basis.

A recent writer, who is regarded as an authority in his own particular sphere, aims at establishing the thesis that "pure democracy is the natural system of government for small communities, but that its possibility vanishes as states increase in size, and industry becomes complicated. Then it must connect itself with oligarchy, and complete its activity in direct communion with that form of government." In industry, as elsewhere, genius must be allowed to govern if progress is to be made. "If a thousand men of average vision are to derive any benefit whatever from the presence amongst them of one man of exceptional vision, one man must issue orders to a thousand, and the thousand must obey one man; and if this is not oligarchy as definitely distinct from democ-

racy there is not, and never has been, such a thing as oligarchy in the world." Which makes one wonder.

GERMANY CALLS UP YOUTHS OF SEVENTEEN

Paris, April 3—The German consul-general at Zurich has inserted advertisements in the newspapers, inviting all German subjects of the age of 17 years to communicate with the consulate with a view to their being called to the colors, according to the Zurich correspondent of The Petit Journal.

Drafting of the class of 1921 began in several parts of Germany in the first days of March, according to information from trustworthy sources, and a large number of youths have been sent directly into the war zone in civilian clothes without having received preliminary military training.

Insomnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health.

Mr. F. C. Voigt, Rapid City, Man., writes—"For several years I suffered from indigestion, Nervous Debility, Insomnia and Constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a "J. B. L. Cascade" and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the "J. B. L. Cascade" as a Godsend to me."

The "J. B. L. Cascade" is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St., who will be pleased to give you an interesting book called "The What, The Why, The Way of Internal Bathing" on request. Ask for it.

SKEENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE.

TAKE NOTICE that I, E. H. Simpson, of Prince Rupert, B.C., mariner, intend to apply for permission to purchase the following described lands—

LAND REGISTRY ACT
(Sections 36 and 134.)

Re Application Nos. 9831-1, 9832-1, 9833-1, 9834-1.

TAKE NOTICE that application has been made to register Frank W. Hart, of Prince Rupert, B. C., as owner in fee under four Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 28th day of November, 1917, and one Tax Sale Deed dated 22nd day of September, 1916, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the City of Prince Rupert, more particularly known and described as Lots seven (7) and fifteen (15), Block twelve (12), Lot twelve (12), Block forty-eight (48), and Lots thirty-three (33) and thirty-four (34), Block fifty-one (51), all in Section Eight (8), Map 923. You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication in the Prince Rupert Daily News), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom—

"and in default of a caveat or certificate of its pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Frank W. Hart,

AND WHEREAS on investigating the title it appears that prior to the 12th day of October, 1916 (the date on which the said lands were sold for overdue taxes), you were the registered and assessed owners as stated below.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Frank W. Hart unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Prince Rupert, B. C., this 15th day of February, A. D. 1918.

H. F. MACLEOD,
District Registrar of Titles.

To F. W. Clayton, Prince Rupert, B. C., assessed owner of Lots 33 and 34, Block 51; Charles Planitz, Edmonton, Alta., registered and assessed owner of Lot 12, Block 48, and sold for taxes on 14th day of September, 1915; V. Straube, 657 Powell St., Vancouver, B. C., assessed owner of Lots 7 and 15, Block 12.

Fishermen Notice!

The Cold Storage Fertilizer and Oil Plant at Pacofi is now in operation and will operate all the year round. The company will buy all marketable fish and will also buy Dog Fish at fifteen dollars per ton (equivalent to about five cts. per fish). Bait will be provided free and all supplies can be purchased at the Company's store at reasonable prices.

Special facilities are provided for gas boats and fishermen bringing their gas boats will be allowed \$25 for expenses of trip to Pacofi. The plant is located in the heart of the fishing grounds and dog fish can be caught in great numbers all the year round. Come to Pacofi if you wish to make money every day fishing.

International Chemical Co., Ltd.
Pacofi, Queen Charlotte Islands.

STEWART NOTES

Among the arrivals during the past week were Mrs. P. S. Jack, wife of the mining recorder, and her three children who have been spending the winter in Vancouver; also Mr. O. B. Bush, of the Bush mine, who is visiting the property.

The Portland Canal Prospectors Association has been formed. The object of the association being mutual assistance and the attraction of the attention of those interested in mining on the Portland Canal district. An office building has been secured on 5th street, where a mineral museum will be established.

L. Legge is engaged in renovating the Martin building on 5th street in which he purposes shortly to open a cigar and news stand.

A number of Indians arrived from Hazelton with the results of their trapping of furs.

The mission boat "Northern Cross" arrived with the Rev. P. F. Rushbrook, who held services which were well attended.

Local News Notes

The Unity is in with 2,000 lbs halibut.

Mr. Wm. Morrison, of Atlin, is paying a visit to Prince Rupert.

Your piano tuned right. Harry Evans does it. Leave orders with Mr. Teetzel, Second Avenue.

Violin Lessons. Wm. Balagno. Terms moderate. Phone Green 167. 78

Mr. Fred McDonald was among the arrivals back in town yesterday, after a trip to the Eastern provinces.

Mrs. A. Allett went out in yesterday's train for the Peace river country, where she will visit relatives at Busby.

It is expected that the Rev. A. E. Price of Masset, will shortly leave there to take up new duties at Metlakatla.

Among the passengers returning to the city yesterday was Mrs. Brown, wife of Dr. J. S. Brown, after a visit to Vancouver.

Captain Davies, of Prince Rupert, late skipper of the Prince John, was among the passengers sailing for Vancouver yesterday.

Acting upon a warrant four years old, the police at Bella Coola arrested the man concerned a few weeks ago. The provincial police of British Columbia have long memories.

British ships in Seattle drydocks! And Prince Rupert's new two-million-dollar drydock hanging with cobwebs!! What a sight for our ultra-loyal, win-the-war, act-of-God patriots!!!

How would it do to invite the Vancouver orators, who were employed in advising the voters in Prince Rupert to vote for Borden, to deliver a series of addresses on the drydock labor conditions of Seattle and Prince Rupert? Some Subject!

The fourth of the quartette in khaki who arrived in the city yesterday morning from Vancouver was Pte. Breen, a brother of Mrs. R. J. D. Smith. Pte. Breen has been invalided home, having contracted blood poisoning after the fight for Vimy Ridge.

Suffering from a fractured leg, Mr. Fred Collins was brought over from Port Clements by the Prince John and admitted to the General Hospital here. He was working for J. R. Morgan, Ltd., when the accident happened. The patient is progressing favorably.

Mrs. Kergin, Senr., has left the city for Balfour, B. C., in the Kettle Valley, where Major J. C. Halsey, her son-in-law, is at present in a sanatorium. Major Halsey has been ill for some time past, and has been gradually getting worse since his return from Europe.

Mr. Fred Ives of Port Clements, left the city yesterday for Hazelton, where he will visit relatives before reporting for military duty. Mr. Ives was operator at Port Clements. His brother, Mr. Sam Ives, who is engineer in one of the government launches, is also leaving soon on the same mission.

There was a wise Spear-woman lived in a shoe
For her many children she knew what to do:
She made them most happy with Wrigley's for all—
It kept them in trim at a cost very small!

Quality First

QUALITY has always been the big outstanding feature of "ROYAL STANDARD FLOUR." This quality has its genesis—its origin in the selection of the golden-ripe Canadian Hard Wheat from which "ROYAL STANDARD" is milled.

ROYAL STANDARD FLOUR

the choice of so many discriminating housewives today.
"ROYAL STANDARD" as milled under the Government Regulations is so much superior to other Flours as it was in the past. It is still the Flour de luxe—strong, full-bodied, first in nutriment and body building energy.

ROYAL STANDARD RYE FLOUR.
FOR the housewife who wishes to practice still closer conservation in her bread making the addition of 25 per cent of "Royal Standard Rye Flour" will produce a delightfully wholesome loaf and correspondingly reduce the amount of other Flour used.

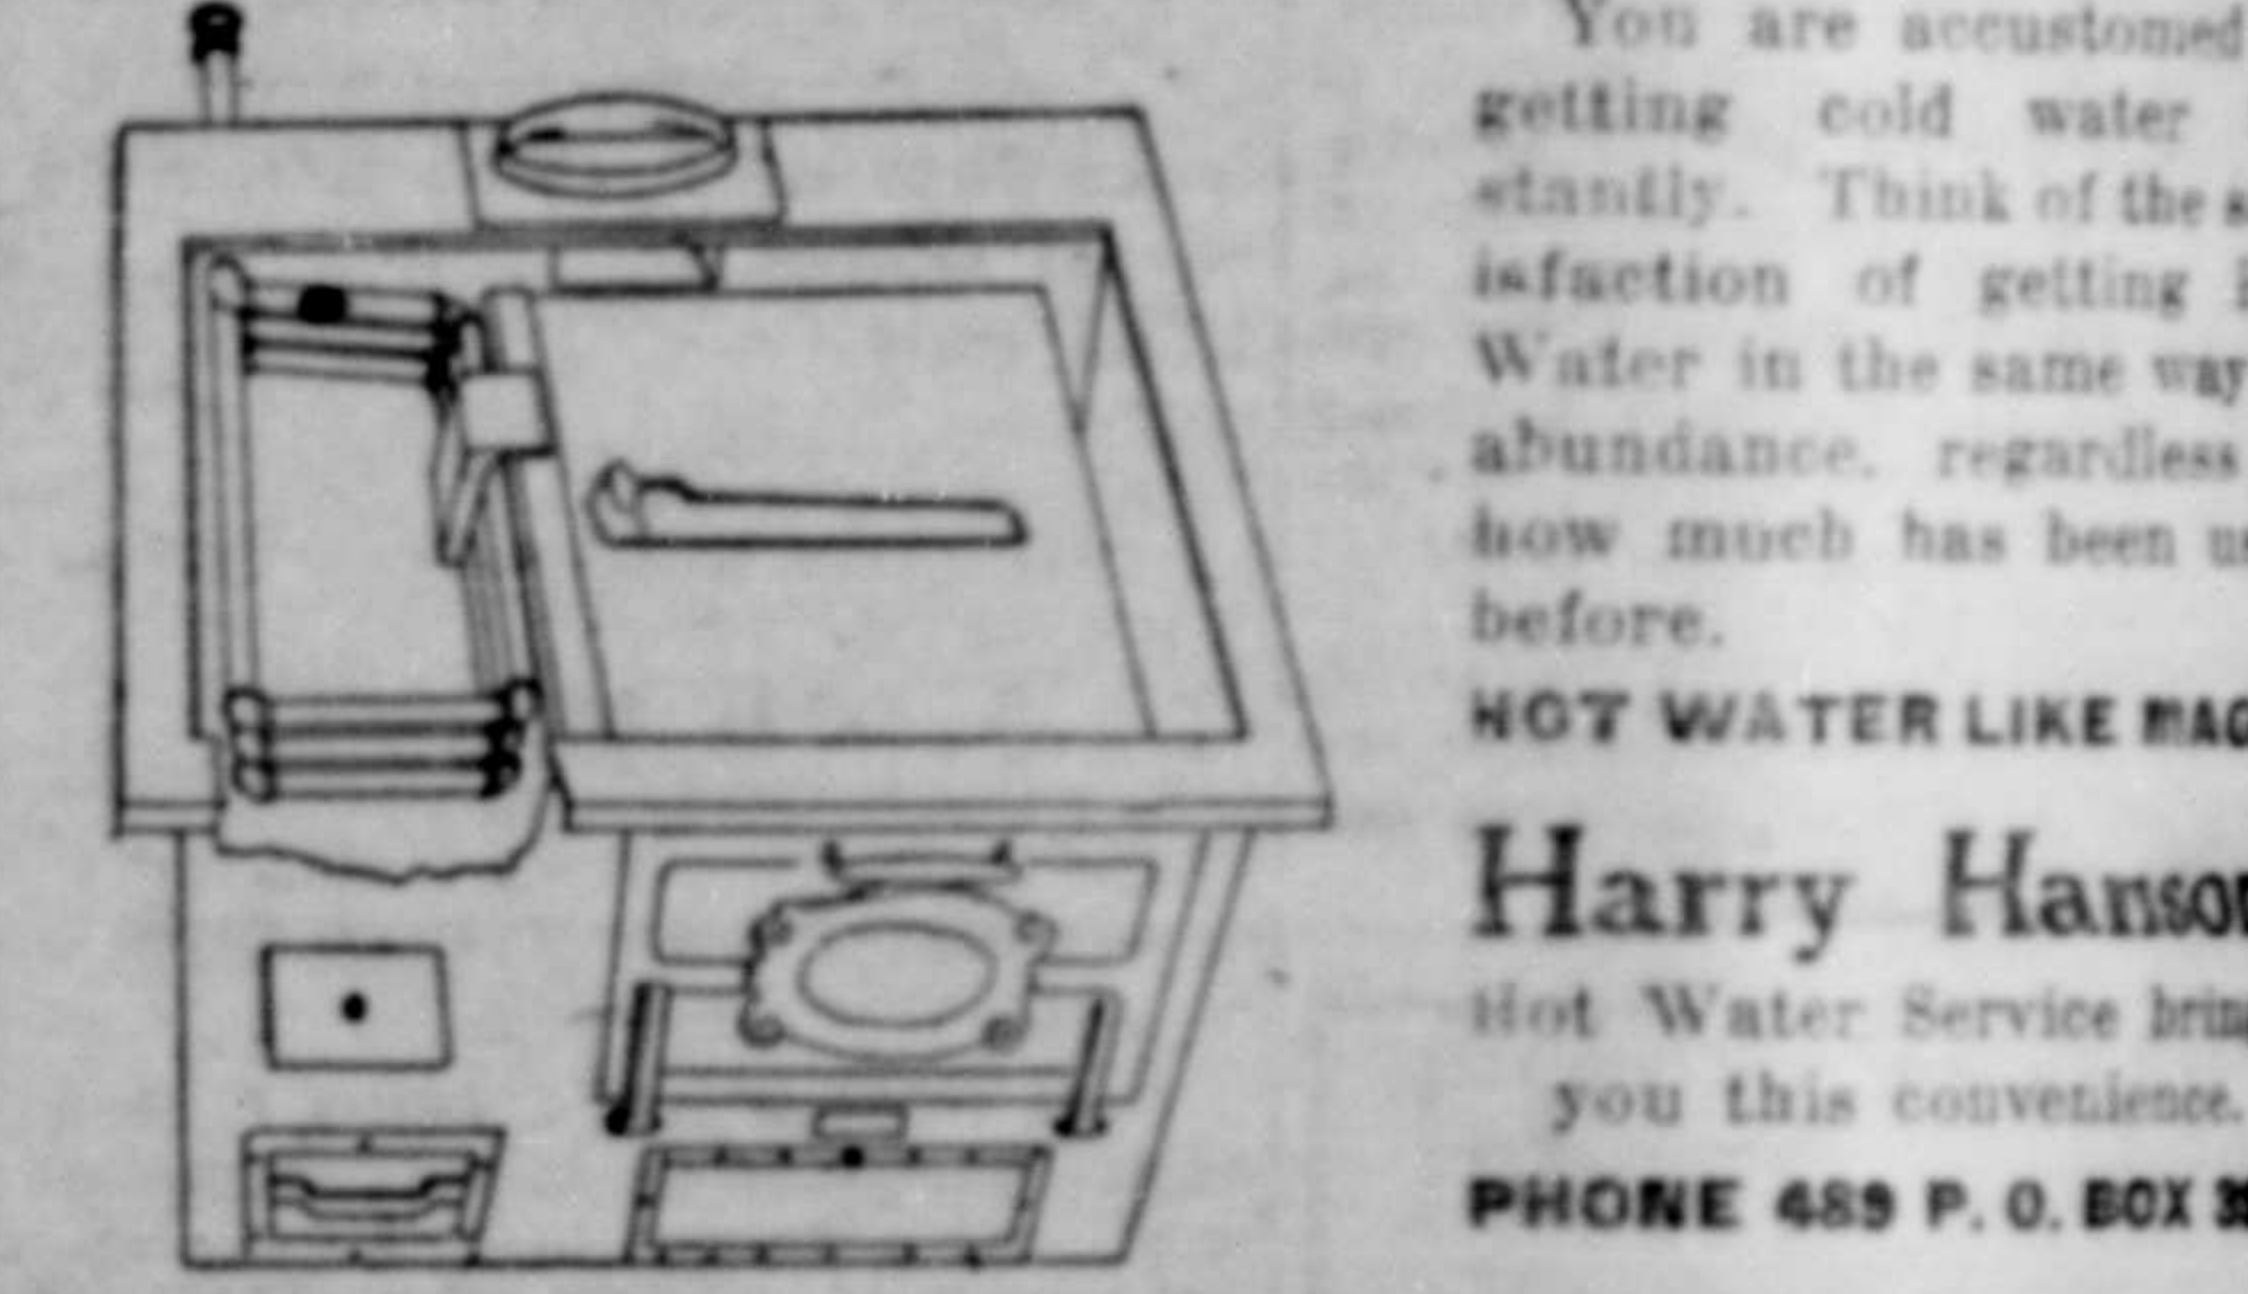

Ask for "Royal Standard" today.
Look for the "Circle V" on every Sack.

The Paper that gets Quick Results

Keep Chickens

This is National Service

They will help Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A slatted packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.

Write for Poultry Bulletins to
