TERRIFIC FIGHTING IN PROGRESS TO PREVENT THE GERMAN MASSES FROM BREAKING THROUGH—HUGE ENEMY CONCENTRATION OF MEN AND GUNS TO BE OVERCOME

(Special to The Daily News)
London, April 12.—Hindenburg using his heaviest guns by numerous batteries and with a tremendous concentration of men, is powerfully attacking the British lines along the entire front between Arras and Ypres. His first attacks have developed into one of the strongest thrusts yet delivered in the course of the war but even his best efforts to break through the line held by the British in this region have been vain. The line has swayed for miles at different places and in most cases swung back again as the Allied troops came on to the counter attack. As one result of the terrific fighting, the momentum of the attackers carried them full six miles inside the original British positions at one point, before they were counter attacked.

Violent fighting continues all along the front from Labassee Canal to the Ypres-Comines Canal. "We have withdrawn from Armentieres, which is full of gas," says the report. "The battle is continuing on the whole front from the Labassee Canal to the Ypres-Comines Canal. There is severe fighting in the neighborhood of the Lys and Lawe rivers from about Lestrem to Armentieres. North of Armentieres there is little change."

Last night's official report told that the British had been forced back to the line of Wyttschaete, Messines Ridge and Ploegstreet.

PRUSSIAN INVENT PANICS IN PARIS

Paris, April 10.—Extracts from German newspapers giving circumstantial narratives of a panic in Paris and riot after the receipt of official statements from the front reached here today at the moment when the confidence of the French was never so high, and were greeted with characteristic rallery.

At no time since the victory of the Marne have the French people looked forward to the issue of the conflict with greater faith and sincerity. Three reasons are given for the prevailing high spirit. First, Premier Clemenceau, with his contagious courage and confidence; second, the fact that the Germans are going to death by the thousands without nearing the issue of battle; third, the arrival of the moment so long looked forward to in France when American troops will be fighting side by side with the poilus.

ARMENTIERES FULL OF GAS

London, April 12.—The British have withdrawn from Armentieres.

HOLY SEE REFUSES TO ACT FOR GERMANS

Paris, April 10.—The Germans have made overtures through the Holy See for the return by France of inhabitants of Alsace-Lorraine who have escaped from those regions, offering in exchange an equal number of civilians from the invaded districts of France. Cardinal Gasparri, Papal Secretary of State, transmitted the offer to Baron Denys Cochin, a prominent Catholic leader, and recently a member of the Cabinet. He refused to act as intermediary in the negotiations, on the ground that to do so would be to recognize Alsations as German subjects. The Baron wrote a sharp letter, which brought forth an equally spirited rejoinder from Cardinal Gasparri.

The annual meeting of the Prince Rupert Lawn Tennis Club will be held in the offices of Messrs. Patmore & Fulton on Friday at 5 p. m., when arrangements will be made for the annual ball, about May 8th. Everyone interested is invited to attend.

WAR VETERANS HOOT AND YELL AT PREMIER OLIVER

(Special to The Daily News)
Victoria, April 12.—Angry war veterans, fully a thousand of them, hooted and yelled at Premier Oliver and other members of the Government at an open air meeting in front of the Legislative Building last night.

The soldiers, accompanied by a military band and with scores of women belonging to affiliated associations, marched to the buildings where they formally presented the cabinet with the re-

NAVY LEAGUE BRANCH IS FORMED LOCALLY

At the meeting of the citizens interested which had been called by his worship the mayor for last evening to be held in the Council Chamber of the City Hall, the objects and ambitions of the Navy League of Canada were ably set forth by Mrs. Neroutsos, who has been sent up here from Victoria by the League there to arrange for the organization of a branch of the League here. In this Mrs. Neroutsos was successful.

The mayor briefly outlined the proposals, and after an eloquent address by Mrs. Neroutsos, Mr. J. H. McMullin was elected to be president, Mr. E. H. Mortimer, secretary-treasurer, and the following executive: Mrs. T. A. Parkin, the regents of the three chapters of the I. O. D. E., Messrs. McCoskrie, Beaumont, De Gex, Ed. Johnson, Mathieson and the mayor.

Judge Young moved that the branch of the Navy League be formed, and said that there could be no doubt as to the necessity for this, and his motion was seconded by Mr. E. H. Mortimer. Upon the motion of Mr. Fred Peters, seconded by Mr. de Gex, the name of the new branch will be the Prince Rupert and Northern British Columbia Branch of the Navy League. The sum of \$30,000 is available as the proceeds of a Tag Day recently held throughout the Dominion, for the furtherance of the work of the League throughout Canada, and of this amount, some \$3,000 has been earmarked for Prince Rupert. It is likely that a Sailors' Institute will be the immediate object of the activities of the League for this port, where all sailors will be welcomed. Membership in the League is open to everyone.

DAYLIGHT SAVING

(Special to The Daily News.)
Ottawa, April 12.—Senator Robertson semi-officially intimated that Canada's daylight saving bill would probably set 2 a. m. on Sunday morning next as the time to change the clocks to one hour earlier.

GERMAN URGENT REGARDING FINLAND

Petrograd, April 11.—In reply to a protest of the Smolny Institute against the landing of German troops in Finland, Germany has sent a wireless ultimatum demanding, in accordance with article five of the Brest-Litovsk treaty, the removal and disarmament of all Russian warships in Finnish waters by noon, April 12. The Smolny Institute has ordered the commander of the fleet to accede to this demand.

quest for support to the resolution calling upon Ottawa to take prompt steps to deal with the alien situation. The Premier gave a qualified support. Then the war veterans gave him a surprise by demanding that he put last year's civil service act into effect. The Premier grew indignant at the demand, which he said constituted an insult to the memory of the late premier. He virtually defied the soliders, and his reply was greeted with a storm of loud objections.

BRITISH LINE HOLDING

(Flash—3 p. m.)
London, April 12.—The British troops, despite terrific attacks, are maintaining a firm grip of Wyttschaete, Messines Ridge, Ploegstreet and Hollebeke. Counter attacks regained ground north of Festubert, and terrific attacks by the Germans were repulsed between the Lawe and Liave rivers. The Germans captured Meriville last night.

SINN FEIN PARTY CALM IN FACE OF CONSCRIPTION

(Special to The Daily News.)
Dublin, April 12.—Absolute calm seems to prevail among the Sinn Fein party, but it is understood orders had been given to all sections of the Irish volunteers regarding action to be taken in the event Irish conscription is agreed upon.

GERMAN ARMY IS MOVING IN FINLAND

(Special to The Daily News.)
Stockholm, April 12.—German troops, numbering fifteen thousand, are now operating along the southern coast of Finland, where they already have had several small battles with the Finnish rebels, according to information received by the Swedish government.

COMPLETE CHANGE OF PROGRAM AT WESTHOLME

The large eight-reel program which has been arranged by the management of the Westholme Theatre for this evening necessitates the show starting at 7 p. m. sharp. "The Book Agent" starring George Walsh is the five act feature, and it is a full play of rollicking drama. Smiling George Walsh is jollier than ever throughout the five acts, and he shows that selling books pays, sometimes. His skill at this job wins him a pretty bride, and, incidentally, several millions. The play is a lively one throughout, and will be much enjoyed. Then there is the two-reel comedy, another Fox feature, and one of the series which have proved so popular heretofore, and a War Gazette of official war views. The program is a lengthy one and excellent throughout, and it will pay not to miss it.

FISH ARRIVALS

The arrivals of fishing boats yesterday were heavier than usual and the better weather prevailing on the banks was reflected by the catches. The Pioneer brought in 55,000 lbs. halibut; Alaska, 55,000; Kodiak, 40,000; Director, 8,000; Bringold, 15,000; Stranger, 6,000; Active, 10,000; Anna J., 10,000; Nidarose, 9,000; Eagle (Nome), 8,000; Atlantic, 30,000; Treo, 5,000; Alliance, 1,500, and N. and S., 4,000 lbs.

ALL AVAILABLE MAN-POWER IN CANADA TO BE REGISTERED

Ottawa, April 11.—The National Registration board has completed its plan for registering the manhood of Canada and Hon. Gedoan Robertson, chairman of the board, has laid the proposals before the cabinet for its approval. The board has decided to have one day upon which every man and woman of Canada between certain ages will be required to register. It will be conducted somewhat similar to a national election. The country will be divided into districts, seventeen in all, with a registrar who will have charge of the work. There will also be county registrars responsible for electoral districts. There will be registration books in nearly every poll, although the exact electoral polls will not be followed, and it is proposed as far as possible, where permission can be secured, to use the schools. The district and

county registrars will have to be had, but it is expected that volunteers can be secured to take charge of the local registration. The assistance and co-operation of fraternal associations, women's organizations, labor unions, etc., has been promised. This will greatly reduce the expense. When the registration is completed the cards will have to be assorted and arranged. This will be a stupendous task. It is not expected that the work can be of much assistance for this year, but it will pave the way for a mobilization of the country's man-power later. It is also thought that the work will greatly facilitate the military authorities in the enforcement of the Military Service Act. All cards of men of military age will be available for them. The exact date has not yet been fixed but it will be early in June.

UNITED STATES HAVE A NEW NAVAL BASE

(Special to The Daily News)
Washington, April 12.—For the protection of the Atlantic trade routes to southern Europe, the United States, with the consent of the Allies, have established a naval base on the Azores.

SIBERIA IS THE SCENE OF GREAT DISORDER

Harbin, Manchuria, April 9.—Disorder is increasing in Siberia, and the Bolsheviki are using every effort to overthrow General Pleshkoff, whom Lieut.-General Horvath, military commander at Harbin, recently appointed chief of the Russian forces in Siberia and Manchuria. In Harbin there has been wholesale looting in the business district. The Chinese police, however, have succeeded in suppressing the looters. Many Bolsheviki agents are arriving here. Houses and business buildings are under heavy guard.

Yesterday 240 Belgian soldiers arrived from Russia, where they fought for two years, on their way to the French front. Although the Bolsheviki premier, Nikolai Lenine, had given them written authority to make the trip, they were held up by Bolsheviki at Omsk and were not permitted to proceed until they signed a pledge not to fight. They were detained at other points, but eventually arrived, with their arms and equipment.

AID IS EXPECTED FOR DUNVEGAN ROAD

Ottawa, April 10.—It is expected that the supplementary estimates will contain an item of about two million dollars to provide a subsidy for the Edmonton, Dunvegan and B. C. Railway being constructed by J. D. MacArthur, of Winnipeg.

This is one of the chief colonization roads in the Dominion, tapping as it does the last great west, but to date it has received no government grant. It is probable that the double subsidy of \$6,400 per mile will be granted in consideration of the expense of construction, and of the fact the government is now looking toward that country for soldier settlements.

LARGE SHIP SUNK

(Special to The Daily News)
New York, April 12.—The British steamer Minnetonka, 13,500 tons gross, was sunk by a German submarine in the Mediterranean during February, the marine register reports today.

U. S. SOLDIERS LANDED AT VLADIVOSTOK

(Special to The Daily News.)
Harbin, Manchuria, April 12.—Detachments of United States Marines have been landed at Vladivostok and are controlling the docks. British and Japanese troops are guarding the railway and munition depots.

FEWER SHIPS LOST DURING LAST WEEK

(Special to The Daily News.)
London, April 12.—The number of British merchantmen sunk during the week ending April 8 was the smallest since November, 1917. Four ships of more than 1600 tons, two of less, and two fishing vessels were destroyed by submarines or mines.

AT THE POLICE COURT

At the police court here this morning before Magistrate Carrs, Leo St. Onge, and Filippo Vagliono were charged as being deserters from the army, under the Military Service Act, and were ordered to be handed over to the military authorities.

Reddy McKay, an Indian from Agassiz, was fined \$10 for infringement of the Prohibition Act. He was found with a bottle of invalid port wine in his possession. John Smith, who was also fined \$15 for being drunk, was also charged with supplying, which latter charge was withdrawn later. He originally possessed the bottle of port wine, and threw it away, because he didn't like the taste of it. Wherever he threw it, Reddy got it.

The Foellmen case of an infraction of the Shipping Act was adjourned further.

AGAINST THE WHOLE WORLD

Though all hope of a Russian recovery has practically vanished, Germany certainly seems to be risking something by her present display of cynical arrogance with regard to that country. The world's ultimate safety against strong bullies lies very largely in their fatal tendency to make a premature jettison of conciliatory pretences—to grasp at the prey before it is thoroughly entangled in the net. The contemptuous ignoring of the Russian acceptance of peace conditions was, to say the least of it, bad policy on Germany's part. It has given the Leninist rulers the occasion for issuing proclamations which, though pathetically false in tone, may have the effect of rousing Petrograd to a resistance which the Germans may find more than troublesome. The highly technical nature of modern warfare does not give much scope for an improvising genius; nevertheless, if a Carnot or a Napoleon were to emerge in Petrograd he might at least be able to make Germany reconsider the wisdom of persisting in carrying out against a potentially powerful nation a policy of open brigandage which it is hazardous to attempt even against those "little peoples" whom the Prussian so heartily despises. Whatever may be Germany's intention in flouting Russian susceptibilities by pushing her troops beyond the limits of the "conceded" territories, it is not for us to quarrel with her policy. Every mile she marches towards the Russian capital weakens by so much her power of an effective offensive on the main front, the front which stretches from the Piave to the Yser. She herself is under no delusions as to the scene in which the last and fiercest act of Europe's tragedy must be enacted. Her offensive in the west shows that this is so, but much has happened since Cambrai. The Allies have profited by their mistakes. The establishment of the Versailles Council has been the coping-stone of the hard constructive

and unifying work that has been going on in the Allied armies since the autumn. France is stronger and better prepared than at any time since 1914. Recent actions show that Italy, inspired and heartened by British comradeship, has more than recovered both her moral tone and her "will to victory." Britain is still "unloading" a reserve man-power which is infinitely greater than Germany's both in quantity and calibre. It is doubtful if in sheer numbers the German troops set free from the East counterbalance the American divisions now on the Lorraine front—and any comparison as to quality between the ill-fed and disheartened reservists of Germany and the fresh, ardent, lithe young soldiers of America is out of the question. When one reviews all the circumstances, it is difficult to understand how pessimism can flourish on British soil.

Baffled on the West, the pessimist seeks refuge in the southeast. He shakes his head over the capture of Jericho and the advance up the Euphrates to Hit, and prophesies evil for forces whose eastern flank has been "left in the air" by the withdrawal of the Russians to the Caucasus. There is no use pretending that the Russian withdrawal has not made a serious difference to our position on the southeastern front. But the difference has been discounted and anticipated, and every day sees an increase in the British strength behind the lines on the Jordan and the Tigris. The pessimist forgets, also, that while our strength is steadily increasing, that of Turkey is all but exhausted, and Austria-Hungary is frankly "fed up" with the war and longing to be out of it at all costs. Germany's arm has lengthened in the north-east. The issues are narrowing, as it was foretold they would. It is no longer the world against the Quadruple Alliance. It is the world against Germany.

**GREAT BRAVERY OF
RED CROSS GIRLS**

Paris, April 10.—Girls attached to one front line unit of the Red Cross made a fine record in the recent German offensive. At Roye they took over the direction of military traffic. One girl in grey uniform standing at the four corners directing columns of guns, cavalry, supply wagons and troops, thus preventing a traffic jam.

The unit had been located at Greycourt, a few miles back of the lines, doing reconstruction and relief work when the offensive began. They were the last women to leave several towns before the Germans entered, and were on duty in half a dozen villages, widely separated, when the word came of the German advance. They aided hundreds of refugees to the railheads, and established a temporary kitchen in one town, feeding 250 British soldiers who had not eaten for hours.

**Appendicitis Operations
Not Always
Necessary**

Internal Bathing Relieves the Cause
Your physician will tell you that Appendicitis is an inflamed condition of the little sack called the Appendix at the lower right-hand corner of the Colon or large intestine. By cleansing this Colon with purified warm water by the "J. B. L. Cascade" this sack is cleansed and the inflammation subsides. Hundreds of operations have been avoided by using the warm water cure for Appendicitis. Mr. Jas. McLaughlin, 91 Evanston street, Winnipeg, writes:—
"I had spent over fifty dollars with doctors trying to cure Appendicitis. Finally the doctor said I must go to the hospital at once for an operation. Your advertisement interested me. I bought a "J. B. L. Cascade," which relieved me at once, and am now completely cured. Never felt better in my life; all pain and soreness gone, and I eat and sleep like a boy. I am grateful to Dr. Tyrrell for this wonderful health-giving invention."
95 per cent. of all human ills are caused by accumulated waste in the Colon. Internal Bathing with the "J. B. L. Cascade" keeps this large intestine as free from all waste and as clean as nature demands it should be for perfect health. Ask Cyril H. Orme, Druggist, corner 3rd Ave. and 6th st., for booklet called "Why Man of Today is Only 50 Per Cent. Efficient." It is free. He will also be pleased to show and explain the "J. B. L. Cascade" to you.

SECRET OF LONG-RANGE GERMAN GUN REVEALED BY U. S. CORRESPONDENT

London, April 10.—Percival Phillips, war correspondent at the front, says in the Daily Express: "I have heard, although not officially, interesting details of the German long-range gun which has been bombarding Paris. The existence of this gun had not been a secret long before the big battle began, and it is rumored the Germans made successful experiments of a new high velocity weapon firing a freak shell, capable of creating a new record distance."

"It seems the gun that has been bombarding Paris is about 79 feet long, with a shell of about 8 or 9 inches, fitted with a false cap and a kind of elongated nose, giving it an extreme length, just under 5 feet."

"The secret of the gun appears to be in the distribution of the weight in the shell, which gives steadiness and enables it to travel a long distance."

ALLIED LOSSES WERE AMAZINGLY SMALL

London, April 10.—It is reckoned that the Germans had 192 divisions on the west front in all, and that of them he sent 100 into the attack. Of these, between forty and fifty were so badly mauled that they were withdrawn to refit. As the Germans generally relieve a division after it has suffered 5,000 casualties, it is held that the total German losses may be estimated conservatively at from 250,000 to 300,000.

It is admitted that in the first onslaught, when the men in the first line of outposts were holding the enemy masses up and sacrificing themselves deliberately, many allied units suffered heavily but since then the action has been fought in such a way as to minimize the casualties greatly. An exact count has been kept, and your correspondent is informed from a competent source that the allied losses are quite amazingly low "when all things are considered."

Military Service Act

Important Announcement to All EXEMPTED MEN and to the Public Generally

IN dealing with the very large number of claims for exemption brought forward for consideration in connection with Class 1 under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

Exemptions Granted on False Grounds

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

Exempted Men Who Have Changed Address

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulations it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty must be treated as equivalent to failure to return the questionnaire after receipt.

Citizens Urged to Assist

In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements. Further co-operation of this character is invited. The Government regard it as the Duty of all loyal citizens, not only to the Country, but to the men at the front, to assist in this way in securing reinforcements on a just and legal basis. Correspondence of this character will be treated as strictly confidential and will receive the fullest investigation.

CHARLES J. DOHERTY,
Minister of Justice.

Correspondence should be directed to Robt. S. Lennie, K.C., Registrar under the Military Service Act, Vancouver, B.C.
