GERMANS COMPELLED TO STOP FIGHTING OVER WEEKEND

NO SIGNS OF DRIVE BEING RENEWED--ALL BELGIUM FILLED WITH GERMAN WOUNDED FROM THE GREAT BATTLE--ITALIAN STORMING PARTIES ACTIVE--KORNILOFF OUT AGAIN

(Special to The Daily News.)
London, April 22.—Apparently exhausted by the terrific fighting which has been in progress for the past week in Flanders, the German forces have apparently lost their driving power, for they have given no sign of renewing their drive against the British lines during Saturday and Sunday. Both days passed very quietly, there being nothing in progress except certain minor operations, in which the British recovered certain portions of lost ground which were necessary for the safety of their line. The ease with which these operations were conducted is considered good evidence that the enemy is no longer in a position to be able to stand up to the British troops upon an equality.

French Front.
Paris, April 22.—The French north of Seicheprey, where the Germans started a heavy attack against the French and U. S. troops yesterday, have been completely re-established.

Berlin Claims.
Berlin, April 22.—The capture of one hundred and eighty-five prisoners, and twenty-five machine guns by the Germans is claimed in an official report today.

Italian Front.
Rome, April 22.—West of Marsora, storming parties attacked hostile outposts in the Sano area and after a violent struggle, destroyed two of them, while the occupants of a third were put to flight.

Allies Confident.
London, April 22.—Reports from France indicate that all ranks remain confident that when the time comes, the Allies will be able to send Fritz back to where he came from. The losses the enemy has sustained in his late offensive are daily becoming more apparent. In addition to the reports of the numerous dead which show the battlefields, advice coming through Holland, are to the effect that hospitals, monasteries, convents and schools in Belgium are filled to overflowing with wounded. The severe punishment which the German battalions received during the past week at the hands of the British have rendered large numbers of

them unfit for further service until their depleted ranks have been renewed.

Paris Bombed Again.
Paris, April 22.—The long-range bombardment of Paris was resumed today. An analysis of the German long-range gun bombardment of Paris shows that shells have fallen on seventeen days since March 23, and that with the figures for two days missing, one hundred and eighty persons were killed and two hundred and fifty were injured.

Korniloff Again.
Petrograd, April 22.—Hostilities have been renewed between the troops of General Korniloff and those of the Soviets. The Port of Ondon is reported to be in the hands of the anarchists. At Kherson, after the Germans left, officers were massacred by soldiers.

GISCOMBE LUMBER CO. TO BE WOUND UP

Vancouver, April 20.—Application has been filed with the Supreme Court for the winding-up of the Giscombe Lumber Company, Ltd.

The company was incorporated with a nominal capital of \$1,000,000 and a subscribed capital of \$323,500. In addition to the liability to its shareholders, the petition states, the company is indebted in the sum of \$275,214, and the insolvency is acknowledged under the seal of the company by Louis J. Larsen, vice-president; Henry T. Berbbinger, treasurer, and W. W. Hampe, assistant secretary.

Of the indebtedness \$53,635 is set out as overdue on promissory notes, \$71,661 in bills payable; wages, \$5,883; cheques outstanding and unpaid by banks, \$14,391.

STANDARD CLOTHES ARE COMING NEXT

Washington, April 20.—America may soon wear a "Liberty Shoe," and "War Suits"—to be manufactured at low cost on a large scale and with very few shadings.

Models and specifications for the shoes and suits are being considered by the War Industries Board. While board officials said neither is imminent, ultimately the country must prepare for this standardization. If the example of England is followed, the tan shoe will go. The standard war suits will be made in a few designs of standardized materials and with a retail price fixed. Rapidly rising prices on necessities resulting from the tremendous war output which are usurping the output of clothing and shoe factories make necessary firm action by the government to protect civilian consumers.

Officials indicate that only standardized clothing controlled by a sweeping price-fixing policy covering every stage of manufacture from raw material to the finished product will save the country from economic difficulties if the war continues.

GERMANS SLAUGHTERED BY BRITISH GUNS IN SECTOR OF ZILLEBEKE

London, April 19.—Among the numerous enemy attacks on the British northern front in Flanders, says the Reuter correspondent with the British army in France and Belgium, one in great force in the Zillebeke sector was disastrous for the Germans, whose massed waves were shot down at short range. They apparently were ordered to retire and then the British gunners got on their flank, the correspondent says, and the slaughter was appalling.

SEVERE EARTHQUAKE IN SOUTHERN CALIFORNIA

(Special to The Daily News.)
Los Angeles, April 22.—A severe earthquake of twenty seconds duration shook the entire section of southern California at 3:30 on Saturday afternoon. Several women were injured in panics of the theatres in Los Angeles.

GERMAN NAVAL SHIPS FLEE TO MINEFIELDS

Light Naval Forces Meet in North Sea, When German Vessels Take Refuge Behind Their Minefields.

(Special to The Daily News.)
London, April 22.—The Admiralty have issued a statement telling of a clash occurring on Saturday in the waters east of Heligoland. The ships engaged were the light forces of the British and German fleets. On sighting the enemy, the British vessels immediately gave chase, but after firing a few shots at long range, the German ships considered discretion to be the better part, and immediately showed their heels, and took refuge behind their minefields, whither it was too dangerous for the British ships to pursue them further. The British vessels scouted around, tempting the enemy's stronger squadrons to come out, but had at last to depart unsatisfied.

CANNOT DOWN PRINCE RUPERT FLAT FISH, SAYS OFFICIAL

After a visit to Prince Rupert last week, Mr. J. P. Babcock, assistant commissioner of fisheries at Victoria, on his return there has been communicating some of his enthusiasm regarding the operations of the Prince Rupert trawler to the newspapermen there.

"If the public wants first-class fish and cheap prices," said Mr. Babcock, "their every want can be supplied." He contends that there is no limit to the amount of soles, flounder, brill and cod that may be taken by beam trawling in the waters off the northern coast of British Columbia. Once the public will give these fish a fair trial, says Mr. Babcock, the demand will follow without a doubt. The process of trawling, he says, is identical with that practised in the North Sea, while the product is every bit as choice.

Attempt to Discredit.
Because at present there is but one company in the province fully equipped to conduct deep-sea trawling, and that company operating out of Prince Rupert, there as developed, especially in Vancouver, he declared, "an effort to discredit these fish. The public has been told that the fish are not fresh, that they have been carried in slush ice and dirty water in fishing vessels for ten to sixteen days, and when offered to the public are not fit to eat. I was told of one case where a judge's wife was shown a sole that was only partly dressed, the head still on, the flesh soft and flabby. She was informed that that was a specimen of the kind of fish the Food Board was trying to force on the market. Fishermen satisfied. The public had also been told

that the price set by the Food Board was unfair to the fishermen, that they could not make a living at the price and that the amount of fish caught was less than before the order. None of these statements are true, said Mr. Babcock. The trawl-caught fish were as fresh as any fish. They were seldom carried for more than three days and during that time were packed in crushed ice. "Halibut are commonly carried from fourteen to twenty days aboard fishing vessels," he continued.

"The trawl-caught fish are cleaned the same as the halibut and are handled as carefully. The price paid the fishermen is satisfactory to them. It is the price the Deep Sea Fishermen's Union set for 1918. They told me they had 'no kick coming.' They are making as much as other unions."

Mr. Babcock says that a steam trawler operating out of Prince Rupert can land in a week more and better fish than all the hand line and little trawlers can land in two months. The catch had not been decreased, it had been increased and the business had just begun. The attempt to discredit these fish is, he says, "inspired by men who are not prepared to engage in trawling and who do not relish the Food Board's having 'put a crimp' in their profits, and by men who prefer to handle a small amount of fish at large profit rather than to handle a large amount at a small profit." However, they cannot down these fish, he says. They had come to stay. Within a reasonable time few other fish would be offered because none could excel them and few equal them at anything like the price.

U. S. MAJOR TARRED AND FEATHERED BY CONVICTS IN JAIL

Sante Fe, N. M., April 20.—Four hundred convicts in the state penitentiary here tarred and feathered and led around with a rope about his neck Major John M. Birkner, of Camp Cody, Deming, N. M., held in the penitentiary as a federal prisoner in default of \$5,000 bail. He is charged with violation of the espionage act.

Major Birkner, who was born in Nuremberg, Germany, but who had been in the American military forces for more than thirty years, was arrested last Friday at Camp Cody, where he was an officer in the 127th Field Artillery. His home is in Lincoln, Nebraska.

THE POLICE COURT

The police court was crowded this morning with interested on-lookers. Three hotel keepers were charged with the manufacture, or causing to be manufactured, within the Dominion of intoxicating liquor. Their cases were adjourned until tomorrow. Fifteen men were also charged with being found in a common gaming house and D. Zarrelli was charged with being the keeper of the house. This was the sequel to a raid made by the police last evening. An adjournment was also made in these cases.

Ernest Wallace was charged with being a defaulter, not having reported for military duty, and was handed over to the military authorities.

The case of Joe Rangea, alias L. T. W. Williams, was brought up again, when the charge against him altered to be with intent to commit an indictable offence; to wit, by means of marked cards to cheat at gaming. This case was also adjourned.

AGAINST HOARDING AND WASTE OF FOOD

Ottawa, April 20.—The Canada Food Board is inaugurating an anti-hoarding drive in order to prevent waste of flour and other food products, and also to make available the largest possible amount of food for shipment to the Allies.

In a statement today the Board appeals to all classes who have in their possession large quantities of flour or other foodstuffs that are not required for current needs, to return these through ordinary channels of trade.

Merchants are asked as a patriotic duty to accept such returns at the purchase price in all cases where there has been no deterioration.

Warning is given that persons who fail to dispose of excess holdings of flour, vegetables, or any other food commodity in time to prevent loss by spoiling, are liable to heavy fine or imprisonment under the anti-waste and anti-hoarding order.

POWER TO CONSCRIPT ALL VACANT LOTS

Victoria, April 19.—The government's bill providing virtually for the conscription of vacant lots to ensure greater food production, was reported complete with amendments to the legislature. Two long clauses in the original draft which provided specific protection for lot owners were eliminated when the bill was before committee. Instead of leaving this protection for lot owners, the legislature reported the bill containing authority vested in the municipal councils to see that proper owners' rights are protected.

ALLIED TROOPS IN RUSSIA HELP THE BOLSHEVIKI

British and French Soldiers Co-operate Against Finnish Rebels to Protect Munitions.

(Special to The Daily News.)

London, April 22.—As a set-off to the invasion of Finland by German armies, British and French troops have landed on the Kola peninsula, which projects into the Arctic ocean between Finland and the White Sea. They are co-operating with the Bolshevik troops to protect the Murman coast against the Finns. During the past campaign, the town of Archangel was the only port by which the Allies could send the much needed help with munitions to the armies of the Grand Duke. Archangel, however, was frozen in by winter, so a completely new port with docks, wharves and warehouses was constructed on the Kola peninsula which was open all the year-round, being free from ice. A connecting railroad was also built to join up with the Russian system. It is presumably with a view to protecting the stores of munitions at this port from falling into the hands of the Finns or the invading Germans that this operation is undertaken, while at the same time the port of Archangel will also be safeguarded.

BLACK SEA FLEET HARRASSES GERMANS

London, April 20.—Dr. Richard von Kuehlmann, the German foreign minister, has telegraphed to M. Tchitcherin, the Bolshevik foreign minister, to the effect that the Russian Black Sea fleet has separated into sections of unknown nationality and, in violation of the peace treaty providing for the disarmament of Russian warships, is attacking allies of Germany.

Dr. von Kuehlmann gives notice that all Black Sea warships continuing to attack in violation of the Brest-Litovsk treaty will after April 20 be treated as hostile ships.

THE YUKON ELECTION

Ottawa, April 19.—Whether the soldier vote in the Yukon shall be counted or thrown out because the vote was obtained prior to nomination day, in the territory, is a point which will be settled on Tuesday next.

When the civil vote was counted E. T. Congdon, Liberal, had a fair lead. This was wiped out and the Unionist candidate, Dr. Thompson, given a majority of 151 when the soldier vote came through.

In Parliament yesterday Hon. Mr. Lemieux moved that consideration of the matter be delayed until Mr. Congdon's arrival, but Mr. Tweedie of Calgary, moved an amendment that Mr. Congdon be communicated with by telegraph. The amendment carried.

WAR WEARINESS AND PEACE

"It is a remark of Mr. Hume's that all the wars which England has ever waged have been persisted in by her long after the period of their legitimate termination, and it is proper at least to put us on our guard against the hazard of a similar miscalculation in the present circumstances of the world. The honor of the country, indeed, must not be yielded for any consideration, but it stands too high to be brought into question by its Government yielding to the just and natural wishes of the people and consenting to meet a powerful adversary half-way in his attempt to give peace to the world. We are known to be invincible, we have even been victorious, but we are mortal, and cannot destroy our antagonist. Then what shame is there in terminating a contest in which we can no more conquer him than he can subdue us? But he is not sincere in his offers? We may at least try him. . . . The only intelligible motive for our wishing to persist in hostilities is a regard to our ultimate security. The question is no doubt full of anxiety; yet we do not think that if the particular and accidental causes which actually produced the war had not existed it would ever have occurred to anyone that the mere greatness of our neighbor (for ambition is inseparable from power) would have been a good cause for declaring war against her."

The sentences we have just quoted might have come from a pacifist pamphlet of today. In point of fact, they are taken from an article in the "Edinburgh Review" for July, 1812, and they are interesting and instructive because they illustrate the temptations to which our forefathers were subjected and to which some of them yielded. The author of the "Edinburgh" article was war-weary, and he was frank enough to confess it, and to base his argument simply upon the joys of peace. He wrote of the cessation of slaughter and of the safety of our seamen. He enlarged upon the wealth

which would accrue from uninterrupted commerce with the Continent, upon the comfort which would result from a fall in prices, upon the wastage of the national capital upon unproductive expenditure in munitions of war, and upon the desirability of relief from the crushing burdens of taxation. And he concluded that "blessings of such a kind ought not to be withheld from the people of this country, if it be possible to bestow them." His words commanded much assent, for the "Edinburgh Review" of a hundred years ago was one of the outstanding periodicals, and it did carry some weight. But there remained in 1812, as there remains in 1918, the question of its possibility.

The reviewer of that generation answered the question as a few men are answering it today, by saying that victory is impossible, and that nothing could be gained by denying the fact. Historical facts show the fallacy of the argument at that time and for ninety-nine years from the date of the battle of Waterloo, Great Britain was free from the horror of a great European war, (the Crimean expedition hardly coming under this description).

If the Edinburgh plea for peace had been accepted in 1812 how many years would have elapsed before the struggle was renewed? No man can tell from what a conflict, or series of conflicts, the perseverance of the nation in 1812 saved themselves and their descendants. The reviewer was a bad prophet, and his error is worth remembering, if we are tempted to believe that the Prussian war machine of today is invincible, and that a war which has brought us so many disappointments can end only in compromise. The aphorism which he quoted from Joseph Hume is not based upon any profound knowledge of history; this Empire has not continued to fight after its ends were attained, but even if the quotation had been true it was used to imply the fallacy that the "legitimate termination" of the Napoleonic war had come in

1812. The legitimate termination of the great war of today has certainly not come, and no recapitulation of the blessings of peace will bring it any nearer. War-weariness today is no stronger argument for a compromise than it was a century ago, and we know how bad a reason it was then.—G. H.

SOME "ORIGINALS" MAY STAY AT HOME

Toronto, April 20.—The following reply to a question of Mayor Church regarding the proclamation to the original firsts on furlough to remain in Canada has been received from Col. H. S. Osborne, Military Secretary, Department of Militia.

"With reference to your note addressed to the Minister, signed by soldiers, I am directed to inform you that correspondence has already taken place with the overseas authorities, and authority has been received to retain in Canada such members of First Contingent whose medical category is below "B," whose services are not really needed overseas."

Insomnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result. The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health. Mr. F. C. Voigt, Rapid City, Man., writes:—"For several years I suffered from Indigestion, Nervous Debility, Insomnia and Constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a "J. B. L. Cascade" and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the "J. B. L. Cascade" as a Godsend to me." The "J. B. L. Cascade" is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St., who will be pleased to give you an interesting book called "The Why, The How, The Way of Internal Bathing" on request. Crossing the bridge

HISTORIC OMEN OF ITS FUTURE UTILITY

Quebec is generally known to be the principal hospital discharge depot for our returned wounded soldier lads. Landing at Halifax and St. John, thousands have been conveyed in the specially equipped hospital train: to the Ancient Capital, and with the completion of the Quebec Bridge, it is now possible to avoid transfer by ferry at Levis. As a matter of fact, the first passenger train to cross the Bridge was one of these hospital specials, an honorable distinction for a structure of which it has authoritatively been said that "in the annals of engineering the construction of the Quebec Bridge, for immensity, uniqueness of design, excellence of detail, and boldness of organization, has rarely been equalled, and never excelled."

The Government Railways were the first in America to construct and adopt the Red Cross Car, equipped with the regulation hospital beds for cot cases, and specially constructed exits and entrances for the same, and which with their complement of doctors, nurses, and qualified attendants, have been the means of alleviating an untold amount of suffering. Nor are the Government Railways' services in this direction without recognition, for letters and personal words of appreciation are frequently received from those who have had occasion to use them.

Again, it was only the other day that an enquiry was received from the Military authorities of the United States asking for full particulars as to construction and operation of these hospital cars—a request it is hardly necessary to state that met with prompt response.

DAINTY DAUGHTERS DELIGHTFUL DOINGS

Daintiness is one of woman's chief charms, and daintiness is characteristic of the performance to be put on tomorrow evening at the Westholme Theatre by the Hill 60 Chapter of the Daughters of the Empire. And this is but one of the attributes of the Hill 60 Daughters, among the many which they will display to advantage. Dainty damsels, daintily dizened will delight the audience, tomorrow evening to distraction, showing that, both individually and collectively in the performers Prince Rupert will again find something to be proud of, for more reasons than one.

The programme is a varied one and, judging by the dress rehearsals, will be a brilliant success. The court scene of the "Divorce Case" depicts with fidelity to detail, the feminine invasions of what has hitherto been man's sphere. The jury is some jury. "Coats and Petticoats" is a delightful farcical comedy full of local allusions. And in it is found a solution for the problem which has puzzled Prince Rupert people for nearly four years; which is how to get the drydock working. For grace and dignity, the minuet danced by the "old maids" might shame many a modern ball room dance. Then the part songs! The new musical association need have no fear for ladies' voices. A light-footed nymph with a tambourine might give another Bizet an inspiration and the programme is further diversified by a master hand with the violin. All things included, the Hill 60 concert is one of those things which should on no account be missed.

SKEENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE.

TAKE NOTICE that I, E. H. Simpson, of Prince Rupert, B. C., mariner, intend to apply for permission to purchase the following described lands:—

Dated April 4th, 1918.

Mr. T. H. Penn, and Mr. E. W. Hawkins, of Surf Inlet, have arrived in Prince Rupert on a visit.

The death occurred at the Prince Rupert General Hospital last evening of Ely Enich, a Serbian, who came down from Anyox a week ago. He was suffering from bronchial pneumonia. He was 46 years of age. His brother, Mike Enich, is in town. The funeral arrangements are in the hands of Haynor Bros.

New white shoes and pumps.—Wallace's. 94

A gruesome find has been reported to the provincial police office here from Terrace. In an old shack some two miles east of Terrace, which would be on the other side of the Little Canyon, a human skeleton was found yesterday. No details have yet been received, and the matter will be investigated further.

New delivery of boys' wash suits.—Wallace's. 94

On account of slides, which are to be expected at this time of the year, the railroad track has become blocked somewhere around Kitwanga, and possibly at other places. The train due last evening is stalled, and also the one which left on Saturday. It is hoped to get them free this evening. The officials of the G. T. P. are making every effort to have the line cleared as soon as possible.

Boys' and girls' outing, running shoes.—Wallace's. 94

Paying a visit to one of the bars the other day, where he had not been since prohibition came into effect, one of our local citizens idly glanced over the gaily colored liquids on tap. "Gimme a glass of that stuff," he said, pointing to one glass jar. The color had evidently taken his fancy. The bartender did so, and gave him what he asked. The next time this citizen will enquire the names of things, for what he got was liquid soap, and it had no kick.

Splendid selection High Grade Shoes.—Wallace's. 94

A subscriber, who evidently considers that he has a stake in the drydock plant, sends in the following ad: For Sale—Magnificent drydock, with all necessary plant and staff for the handling of ships up to 20,000 tons. Absolutely unused except for exhibition purposes. Will be sold as a going concern, or by the ton—Worth \$3,000,000 to anyone who knows how it works, but will accept \$50 in full settlement, \$25 cash and \$1 per month. If paid cash down, will throw in framed photos of Sir Robert Borden and Sir Geo. E. Foster, both of whom have shown great interest in dock, situate "under a curse," but the dock is probably all right. Hurry, for we need the money, and anyway the government may suddenly decide to operate it. Apply Daily News Office. Mark envelope "drydock."

STIRRING DRAMA AT WESTHOLME THEATRE

A tale of the West, of the bandit of the wide open spaces, who robs with impunity whom he will, and at the same time, a story of the now silent and gone forever "Barbary Coast" of San Francisco, true to detail; a story of love, of cross purposes, of a beautiful wild pony; of a fight which for sheer spectacular features has no parallel in screen battles, are these not all to be seen on the screen at the Westholme Theatre this evening? This play has been asked for by many who have either seen "The Narrow Trail" or heard of it. And Wm. S. Hart makes a fine bandit. He literally storms his way into the appreciation of his audience. He will not be denied. He fills the bill.

This drama is a large one, depicting big chances and broad spaces and is one which will grip the attention from the very first scene. There will be a fine comedy as well.

One, two—it's good to chew.
 Three, four—they all want more.
 Five, six—it comes in sticks,
 Seven, eight—the flavor's great.
 Nine, ten—come again
 —with Wrigley's!

ROYAL STANDARD FLOUR
 STILL THE FLOUR DE LUXE—DELIGHTFULLY PALATABLE, FULL-BODIED, FIRST IN NUTRIMENT AND BODY-BUILDING ENERGY.

"ROYAL STANDARD" is the choice of discriminating housewives today for the reason that there has been no lowering of its superb quality as milled under the present food regulations.

The marked pre-eminence of "ROYAL STANDARD" as a Baking Flour is not a matter of mere chance. Milled in a model plant, the various processes that make it the dependable flour it is today, are the result of years of exacting study.

WHAT IS TRUE of "Royal Standard Flour" holds equally true as to "Royal Standard Rye Flour." Its use by so many women nowadays as a substitute Flour in conjunction with "Royal Standard Wheat Flour" means not only true economy for the home, but a patriotic saving of wheat that looms large in practical results.

Grow Your Own Vegetables

CITY people this year must help to grow their own food. Every pound of vegetables that can be produced in home gardens or vacant lots will be a positive addition to the supply of food. Moreover the cultivation of land in city, town and village will leave market gardeners and farmers free to grow wheat and other supplies for export.

It may be that the only contribution which you can make towards relieving the dire food needs of our Allies will be a vegetable garden. If 200,000 families in Canada would cultivate a garden of this kind it would mean a very important aggregate addition to our food supply.

In Montreal vegetables to the value of \$100,000 were grown on vacant lots last year. Calgary had over 1,100 lots under cultivation, covering an area of 200 acres. Splendid results were achieved in other cities.

There is even greater necessity for war gardens this year. Tremendous interest in the movement is reported from all parts of the Dominion. Are you a member of a vacant lot organization? If none exists in your community help to organize one.

Home garden and vacant lot cultivation is really needed and may truly be considered a patriotic service.

Organized Efforts Will Bring Best Results

Decide here and now to have a war garden. Persuade your neighbours to do the same. All the tools necessary are a spade, rake and hoe. The cost of seeds is a trifle. Grow only standard vegetables such as potatoes, beans, peas, beets, carrots, parsnips, onions and lettuce.

By growing your own vegetables you can not only perform a patriotic duty, you can also help to control the high cost of living.

Write to your Provincial Department of Agriculture for pamphlets on gardening and any additional information.
