TURKS ARE FLEEING FROM MESOPOTAMIA

NO OPPOSITION TO BRITISH ADVANCE--BIG GUN DUELS AND RAIDS IN FLANDERS

A SEPARATE PEACE MAY BE FORCED ON TURKISH EMPIRE

BRITISH ARMIES FIND LITTLE OPPOSITION IN MESOPOTAMIAN ADVANCE, WHICH PROCEEDS RAPIDLY--VERY EXTENSIVE OPERATIONS WHICH WILL CUT TURKEY OFF IN ASIA

(Special to The Daily News.)

New York, May 4.—A separate peace, with the reluctant consent of Germany, may be forced upon Turkey with the renewal of the highly important operations to the north and northwest of Baghdad by the British expeditionary force in Mesopotamia.

Communications issued in London during the last two days disclose a remarkable extension of the British offensive in Mesopotamia. Both Mosul and the city of Aleppo are indicated as the objectives of this vast forward movement, the object of which is to cut Turkey off from all her southern possessions in Asia.

The advance in the direction of Mosul has been a rapid one and has met with very little opposition. The British forces have left the valley of the Tigris river, sending their main force north-east of the river and close to the Persian border.

The extreme eastern possessions of Turkey in Asia will therefore be cleared of enemy forces, who are everywhere fleeing to Mosul. Strong forces are also operating in the valley of the Euphrates, which are already threatening the caravan routes leading to Mosul from the west. With the opening of the communications, and thus interfering with the route for reinforcements or supplies, it is hardly considered that there will be any serious difficulty in bringing this important city of Central Asia under British control.

In Palestine.

London, May 4.—A resumption of the offensive against the Turkish forces still in Palestine resulted in the capture of the village of Essalt along with some two hundred and sixty prisoners. Strong forces also advanced along the line of the railroad, and have occupied the village of Mezreh. The clearing out of the Turks from the high lands on the other side of the Jordan valley is proceeding apace.

GERMANS ARE USING NEW INVISIBLE GAS

Amsterdam, May 2.—Speaking before the Main Committee of the Reichstag, Lieut.-Gen. von Stein, Prussian Minister of War and State, said that gas fighting is not a development of this war, but had been used earlier in position warfare.

"Our new powder develops carbonic oxide gas," he said. "We organized the employment of this gas, and the enemy soon followed. Thanks to our excellent gas masks the success of extensive enemy gas attacks in the Somme battle amounted to but little.

"After the development of the gas attack gas shells made their appearance. We now are manufacturing an invisible gas. The enemy has not caught up to us. Our losses through the effects of gas have been slight. The statements relative to the terrors of gas fighting have been greatly exaggerated. The majority of gas poisoning cases in the hospital are doing well, and there will be no permanent injury to the men's health to fear. Our experts have made masks which give absolutely certain protection.

"No country will agree to renounce the use of gas. It is, therefore, necessary for the experts to labor continuously to keep us ahead."

ZEEBRUGGE HARBOR WILL SILT UP WITH SAND SINCE RAID

London, May 3.—A statement made by a high official of the Admiralty is to the effect that the destruction of the mole at Zeebrugge alone is sufficient to inconvenience the Germans greatly.

Sand is a special hindrance to navigation on the Belgian coast and the Zeebrugge harbor has been kept open only by the steady work of two dredges. Now there is a gap in the Mole 120 feet long; one dredge at any rate is sunk, and the hulks of the sunken cruisers are forming admirable obstacles against which the sand can drift up. If only the wind will drive the tide in force through the gap in the Mole, Admiralty officials are confident that the harbor will quickly silt up, and it will be very difficult for the German dredges—if there are any left—to make much headway against the sand, especially as British seaplanes are not forgetting them.

Longer Inland Trip.

As for the Bruges Canal, it may perhaps be cleared in three or four weeks, but, as its banks are so weak, the Germans can use only light charges in blowing up the two concrete cruisers. This means the submarines will have, for a time, to use Ostend as a base for operations against the Channel and consequently they will have to take a longer inland trip to reach blue water and will then have to come out of a port much more easily looked after by the Dover patrols.

Independently of that, Admiralty officials say, the campaign against the submarines proceeds satisfactorily. They believe that the Anglo-American forces are holding them down, and they doubt if the rate of construction is quite as fast as it was. The demand for steel for tanks may have hindered the U-boat builders.

MAILED FIST TOO STRONG FOR DUTCH

Toronto, May 2.—A special Mail and Empire cable says:—Holland has surrendered to the German mailed fist after a period of twenty-four hours in which her position was suddenly reported to be serious. Every one was invited to believe that negotiations had reached a deadlock and that the question of peace or war was in the balance. As a matter of fact this period of depression and scare was actually coincident with the moment when her agreement was reached and there are not a few who entertain the suspicion that most of the alarming reports current at The Hague and Amsterdam were due mainly to the deliberate creation of a feeling of fear by German agents and partially traceable to the necessity of preparing home and the Entente public for an about-face by the government so far as the attitude adopted in the verbal note of February 8 is concerned.

Paris, May 2.—Germany demands from Holland, says the Vossische Zeitung of Berlin, the right to send war material over the Limbourg railway to Antwerp, the right to send foodstuffs for shipment from Antwerp and the

CHINA SENDING TROOPS TO FRANCE TO AID IN FIGHT

An Atlantic Port, May 1.—Captain Ting Chia Chen, military counsellor to the President of China, and also to the Chinese minister of war, arrived here yesterday on a French steamship. He said that China now is sending troops to France to fight for the Allies.

Captain Ting, who is a graduate of West Point, for some time has been in Europe as a military observer in the war theatre for his government.

"China is preparing to do her part in making the world safe for democracy," he said tonight. "It is true that China has troops now on the way to the battle front, and it is the calculation of the Pekin government to have no fewer than 40,000 fighting men with the French by early summer. I have just left France, and there remained behind me ten other Chinese officers whose duty it will be to select training camps in France for Chinese troops."

The Captain added that there

is a spirit among the Chinese people that Prussia must be suppressed for the good of mankind and the advance of civilization.

CRUISER RAMS A BRITISH LINER

(Special to The Daily News.)

An Atlantic Port, May 3.—The coast liner City of Athens was rammed by a French cruiser off the Jersey coast early yesterday morning. The liner was en route to Savannah, Georgia. A thick fog shut out all sight when the warship crashed into the City of Athens. Survivors declare that the ship sank in seven minutes.

The Princess May from Vancouver is expected in this afternoon about 2:30. The Princess Sophia is also expected in from the north.

HUNS OCCUPY FORTRESS OF SABASTOPOL

Strong Russian Base in German Possession—Troubles in Ukraina—Officials Imprisoned.

(Special to The Daily News.)

London, May 3.—A report sent out by the Berlin Wireless says that the great Russian fortress of Sebastopol in the Crimea in the Black Sea has been occupied by the Germans. This has been expected here since the capture of Simferopol by the enemy last week.

Conspiring.

London, May 3.—The Ukraina peasant deputies are reported to have overthrown the government of that republic. This report follows a dispatch saying that many Ukrainian officials have been imprisoned by the Germans for conspiring against the military authorities of the Central Powers.

No Hope.

London, May 3.—Commenting upon the food situation in Germany, the newspapers there intimate that the hope entertained for a speedy relief from food scarcity by the conquest of southern Russia, have been dispelled. The farm lands there are untilled and the supposedly overflowing granaries are empty. So acute is the scarcity of clothing now in Germany that men and women are being attacked in the public streets by ruffians in Berlin and stripped of their garments. The German newspapers received here have many such stories.

FINE ENTERTAINMENTS ARE GIVEN AT ANYOX

Last Wednesday and Monday, two very successful entertainments were given to the people of Anyox, the first by the pupils of the Anyox school, and the second by the Anyox Glee Club. The school pupils presented a play, entitled "Robin Hood" and in this ever-new old story of Merrie England, the pupils acquitted themselves well. Miss Fotheringham, the school principal, and her assistants deserve great credit for the well controlled and smooth manner of the production. Robin Hood, Friar Tuck, Little John and Alin-a-dale, Prince John, and Maid Marian were well played, while the songs and choruses were exceptionally well done. A feature of the period of the play is the Morris dances, and the dancers most gracefully performed this old English dance. There was a very large turnout to see the pupils, and the hall was filled to its capacity. The Anyox Orchestra supplied the music, while the proceeds were for the benefit of war orphans.

The Glee Club.

Then on Monday of this week, the Anyox Glee Club gave their last concert for the season, and it was possibly the best yet. At previous concerts the glees were sung by male voices only, but this time the ladies took part in the concerted pieces, which proved very acceptable. The programme consisted of songs, duets, quartettes, octettes, recitations and glees, a sketch, called "Sold," or "Hubby Gets His." This proved to be a very humorous affair, and was well acted by all who took part in it. The scenery, the make-up, and the character costumes were very good. There was a full house for this last function of the season, and the proceeds are in aid of the Union Church.

ARTILLERY IS VERY ACTIVE IN FLANDERS

No Important Infantry Action in Progress—Enemy Raid Repulsed—Offensive Is Coming on Somme.

(Special to The Daily News.)

London, May 3.—Field Marshal Haig's report last night says:—"A raid which the enemy attempted this morning in the neighborhood of Hebuterne was repulsed." The Germans are displaying increased activity on the Somme, from Montdidier salient to Noyon. All the indications are that the enemy will renew his offensive in this sector.

Berlin's Report.

Berlin, May 3.—The artillery duel has increased in intensity in the Mount Kemmel sector, and has been repeatedly revived between the Somme and Lucebrook, near Montdidier and Lassigny and Noyon. The French artillery has been very lively during the afternoon hours on the Lorraine front, where minor enemy thrusts have been repulsed.

Huns Hungry.

With the French Armies in the Field, May 3.—Hundreds of horses which were killed by the French artillery, have been eaten by the German soldiers, in the absence of their own kitchens and rations. The broken and heavy nature of the ground, which is the result of the tremendous artillery fire, has made supplying the front line a matter of extreme difficulty for the enemy, besides which the terrific and incessant bombardment does not permit of other food being brought up. According to letters found upon prisoners, the German soldiers have been hungry for days on end.

JUNE CAPRICE AT THE WESTHOLME THEATRE

"A Small Town Girl" is the big attraction at the Westholme this evening, when June Caprice, one of the most famous young actresses on the screen, will appear as the star. She has the role of a little girl from a small country town, who has always wished to get to the big city. Eventually she does so, but when she gets there, she finds it to be anything but what she expected. An old sweetheart, stolen diamonds, crooks, police and so forth all feature in this story which is one of great interest. Little four-year-old Jane Lee, one of the youngest of film actresses, also appears with June Caprice, and helps largely with the tale. There is also to be one of the two-reel Fox comedies, a series of which have been running weekly for some time now. These have already made a reputation, and this is well upheld this evening. Hank Mann will certainly make you laugh.

THE COMING REGISTRATION

The compulsory registration of all Canadians, male and female, between the ages of sixteen and sixty, which will be effected in June, is a scheme that should have been adopted much earlier. If it had been foreseen that the war would be so prolonged and would make such demands on the moral and material strength of the country many things might have been differently planned. Military conscription was not practical until the United States resorted to the same policy, but there should have been long ago a more resolute assertion of the authority of the State in organizing the economic life of the country for war purposes. An Administration in the bonds of the patronage system, and studying the effect of every move upon the fortunes of one political party, could not give courageous and efficient leadership. The abortive National Service project, a timid concession to the demand for stronger measures, failed for these reasons.

The approaching registration will be the first complete inventory of the man-power and woman-power of the country, and the war is nearly four years old. Penalties for non-compliance will be prescribed and enforced. The co-operation of organized labor has been pledged on the understanding that the enrolment is not to be used for industrial conscription. This pledge will be respected, but it will not be violated if the Government, as some of its members hint, resolves to curtail non-essential industries so as to divert more labor and energy into the production of necessities. The National Registration will afford a definite idea of the distribution of labor resources, and it will enable the Government to act intelligently, and with a minimum of disturbance and hardship, if the national interests require a shifting of man-power and woman-power from the luxury trades to those indispensable to the efficient prosecution of the war or

which contribute to the strength of the country.—Globe

NOT ALL THE FAULT OF WAR

It is not the war alone that has brought Canada's finance to the impossible pass where the Government has to demand a billion dollars in taxes and loans from the public in a single year. The war cost has been heavy beyond all precedent or forecast, but the flood of war money brought into the country by war contracts and war prices has been in proportion. By no conceivable scheme of finance could the in-pouring stream of war money have been commandeered and made to pay the war bills. But a good deal could have been done in that direction. Fiscal legislation was possible that would have taken the element of piracy out of the exploitation of war contracts. The rapacity of the food profiteers, who have made war conditions an opportunity to plunder their countrymen, could have been curbed and the national treasury enriched by taxation heavy enough to make such operations unprofitable. And the expenditure of our war funds could have been regulated on the principle that wasting public money is cutting the sinews of war. The purchase of spavined horses and inferior boots and the carnival of plunder in which these were incidents, played a part in bringing about the financial condition of today, as did the maintenance of an army of safety first officers in England for the past three years. What has been done has to be paid for, and cannot be undone by regrets or recriminations. But it is due to common honesty to note that the billion dollar budget is not the unavoidable result of the war, but in part the outcome of extravagance and of the failure to take the spoils from the spoilsmen.—Edmonton Bulletin.

SOME EXCITEMENT LAST WEEK IN TELKWA

With the reopening of the railroad traffic, the up-country newspapers have a tale to tell about the floods in the Bulkley valley. The Telkwa correspondent of the Omineca Miner says:

On Monday night W. Gale came to town on a speeder to spread the alarm that the Hubert bridge had been carried out and that much ice was moving in the river. There was great excitement in Telkwa and everybody living in the lower end of the town spent the night at the hotel. On Wednesday morning the expected flood took place. For hours the people had been watching the great spectacle on the river with its great masses of ice in an unbroken procession. Then at 3 p. m. Wednesday the jam occurred and the town was soon under water. At the lower end there were several feet of water and about one foot on the sidewalks in Main street. Explosives were used on the ice to clear the channel and the situation was relieved. When the word came down that the Hubert bridge was coming down the river, a gang of men went out to dismantle it, so that it would not carry away other bridges. They succeeded in taking off the upper works and the platform passed through the channel at Telkwa, much to the relief of the townspeople.

LAND REGISTRY ACT
(Sections 36 and 134.)

Re Application Nos. 9831-1, 9832-1, 9833-1.
TAKE NOTICE that application has been made to register Frank W. Hart, of Prince Rupert, B. C., as owner in fee under four Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 28th day of November, 1917, and one Tax Sale Deed dated 22nd day of September, 1916, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the City of Prince Rupert, more particularly known and described as Lots seven (7) and fifteen (15), Block twelve (12), Lot twelve (12), Block forty-eight (48), and Lots thirty-three (33) and thirty-four (34), Block fifty-one (51), all in Section Eight (8), Map 923. You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication in the Prince Rupert Daily News), and your attention is called to section 36 of the 'Land Registry Act' with amendments, and to the following extract therefrom:— "and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Frank W. Hart,
AND WHEREAS on investigating the title it appears that prior to the 12th day of October, 1916 (the date on which the said lands were sold for overdue taxes), you were the registered and assessed owners as stated below.
FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Frank W. Hart unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.
Dated at the Land Registry Office, Prince Rupert, B. C., this 15th day of February, A. D. 1918.

City and Town Labor Must Save The Food Situation

THE heart of the food production problem is labor, and the heart of the labor problem is the city dweller. City people must produce food if Canada is to do her full duty in support of our soldiers and Allies.

Men who are needed on farms must come from the cities and towns—there is no other source. The Provincial Departments of Agriculture co-operating with the Canada Food Board, can place thousands of men on good farms in this Province. They are needed at once.

Those who remain at home must also Grow Food

A War Garden will not excuse the man whose rightful place this year is on a farm. But War Garden service is needed from those who can do no more.

and Vacant Lot cultivation will leave the farmers free to grow more food for export.

Every pound of home-grown vegetables, produced on city land by city labor, will be a positive addition to the food supply. Home Garden

The vegetable garden offers an opportunity for service to men whose circumstances make it impossible for them to work on a farm, to women, to boys and girls—to city people generally.

Be a Food Producer This Year

If there is a garden or vacant lot movement in your community, associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign.

Write to your Provincial Department of Agriculture for pamphlets on gardening and additional information.

THE DEVELOPMENT OF TELKWA COAL FIELD

The Telkwa Collieries Limited was organized in Prince Rupert last week with the object of developing the Ashman coal properties near Telkwa. The syndicate is composed of some of Prince Rupert's most successful business men and in a week or two, or as soon as the snow goes off, the property sufficiently to allow of exploration work, the engineer and some of the officers of the company will visit the property and map out a line of action for its development.

It will be the aim of the company to get out coal for the local market by early fall.

Mr. Ashman was in town this week after his trip to Prince Rupert and reports coast people well satisfied with the coal recently sent from this property to their market and gratified over the prospect of a local supply. This product has also been used in Smithers and Telkwa with entirely satisfactory results.

The property is situated about seven miles from Telkwa, on Goat creek, and of easy accessibility by wagon road from that town. Two tunnels have been driven on the property, one for 150 feet and the other of a little shorter length and it was from the latter work that the recent test shipments were made.

A test of this coal was made by the Granby Company, which places the product exceptionally high as a coking coal, registering 89 per cent. This in itself is of great interest at present through the agitation now raging on the coast for the establishment of a steel works and smelter, the successful operation of which depends upon a good supply of coke.

The analysis shows a high percentage of fixed carbon with a comparatively low ash content, as follows:

Fixed carbon	61.50
Combustible matter	28.00
Percentage of moisture	1.00
Percentage of ash	9.00
Sulphur percentage50

How the Y.M.C.A. Contributes to Victory

"Earn and Give" Campaign for Boys

Serve your Country by your labor and make a gift to the Red Triangle Fund from your earnings! What a fine chance to do a double service! Six thousand boys are asked to give \$10 each. Of the total, \$50,000 goes to help the soldiers, the balance for boys' work. Gifts must be at least \$10, the standard unit. A boy may subscribe more than \$10 in \$10 units but not less. A beautifully engraved certificate will be given to each subscriber. Ask your local Y. M. C. A. representative for pledge card and full information.

Y. M. C. A. man serving coffee 100 yards from German Trenches

YPRES, Langemarck, Festubert, Vimy Ridge, Paschendaele—how the very names thrill! They stand for deeds of the bravest of the brave—our own Canadian lads! They fight and win, not always by strength of numbers, but by unbeatable fighting spirit, or "morale."

Said a British Staff officer: "I have known morale to be found in a cup of hot coffee. I have seen it sustained by a man's merely writing a letter home. If you want an easy and short definition of 'morale' you will find a good one in the four letters Y.M.C.A."

Y.M.C.A. Red Triangle Fund \$2,250,000, May 7, 8, 9 Canada-Wide Appeal

The staff officer pointed to the men trooping into the big Y.M.C.A. hut and continued: "Those men are going to the front line to-morrow. In the Y.M.C.A. some of them will be playing games, others attending divine service, but each in his own way will find a strengthening of his 'morale' in the comradeship of his fellows under the Red Triangle. All this is a thing which is going to turn the balance in our favor."

Through the hell of battle after battle, our brave soldiers fight. Through fire, water, mud, filth and deadly danger follows the ever faithful Y.M.C.A. man, even if he can bring but a bucket of invigorating coffee to fagged fighters. Will you help us to supply the coffee—and to render the thousand and one similar services to soldiers everywhere? The Y.M.C.A. needs at least \$2,250,000 to meet the tremendous demands. Be generous!

Bits from Soldiers' Letters

"The Hut is very well termed 'next to home.'"

"I went home for the first time in 18 years and I had not written for 13 years. I have given up my old habits of drinking and gambling and thank God for it. Thanks to a little word caught at one of your good-night services."

"From one end of the train to the other I heard nothing but good of the 'Y.' Your representative did his best to supply our needs, purchasing stuff at rock bottom prices and letting the boys have it the same way."

"They send guides out with parties of soldiers on sight-seeing tours all over London."

A German prisoner said: "The reason you fellows show such fight is easily understood. Your officers' captains, Y. M. C. A.'s and padres are backing you up."

"Who pays? I don't know. But whoever they are, God bless them. They are the fathers of thousands of boys."

Tributes

Lord Northcliffe: "I do not think the war can be fought without the Y.M.C.A."

Maj.-General Burstall: "The benefit to the troops is beyond calculation."

Lt. Colonel Mayes: "Games have a tendency to increase fighting spirit. Any efforts on your part to expedite delivery of athletic equipment will be of national service."

Harry Lauder: "We took the responsibility of sending these boys to defend us, and we must not fail them. The Y. M. C. A. huts are the soldiers' 'Home from Home.'"

Brig. Gen. Odlum: "I want to let you know how much I was impressed with the work done by the Y.M.C.A. It was simply magnificent. All ranks are enthusiastic. I have recommended one of your officers for the Military Cross. The Y.M.C.A. has endeared itself to the soldier in France as no other institution has."

Constipation Cured in His 78th Year without Drugs

Did you ever know any person who was permanently cured of Constipation by taking drugs of any kind? Drugs seem to assist Nature at the time, but as time goes on larger doses are necessary until the trouble becomes chronic.

Internal Bathing is the only real cure for Constipation. It keeps the Colon or Lower Intestine free from all accumulation. Soon the system performs its regular functions unaided, and there is no further trouble.

Mr. A. McLean, of Conger Lumber Co., Parry Sound, writes:—"I have been troubled with Constipation for the last 35 or 40 years, and could not pass one day without taking medicine. I have used the 'J. B. L. Cascade' since getting it 21 days ago, with wonderful results. Will recommend any person to use it."

Dr. Chas. A. Tyrrell of New York, invented and perfected the "J. B. L. Cascade" for Internal Bathing, which is today the only efficient means of accomplishing the desired results. Dr. Tyrrell has published an interesting book on Internal Bathing, called "Why Man of Today is Only 50 Per Cent. Efficient," which can be had free for the asking of Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St. He will also be pleased to show and explain the "J. B. L. Cascade" to you.

The fire chief has had a letter from Jimmie Parks, late of the fire department here. He is "going strong" in France. He saw Jack Cargill and Norman Short recently, who used to be in the fire department here also, and they are both keeping well and fit. He says that Prince Rupert has got nothing on France for rain.

We have everything for boys.—Wallace's.

They are Fighting-Dying-for YOU! What are You Doing for THEM?

If only you could be in France, close to your boy, think of the comforts you could send him into the lines, how you could hearten him for the supreme ordeal of battle, shield him by your advice, from temptation, comfort him in pain, help him turn his eyes, not always downward into the chaos of war, but upward to the Right we fight for, and to the higher things he learned on your knee

But no—thousands of miles separate you! Not for you are his furloughs, no visits to camps for you, no privilege of visiting your boy in hospital, if need be. Few and far between are the comforts you can send across the wide seas!

Would that you had a friend over there to perform these offices for you! Thank God, you have that friend. The Y.M.C.A. is ever at your boy's side, from the day he enlists to the day he doffs his uniform—in camps, trains, boats, in the streets of the big city, in hospital, behind the firing lines—and often right into the trenches—everywhere.

"Right on the heels of the dashing Canadian soldiers at Vimy Ridge the Y.M.C.A. men were serving out biscuits and chocolate to the tired men," said the dispatches. The General was enthusiastic and recommended one of the Y.M.C.A. men for the Military Cross!

Said Lord Northcliffe, "I do not think the War could be fought without the Y.M.C.A.!" A general declared, "The benefit to the troops is beyond all calculation." In the words of Ralph Connor, "The Y.M.C.A. is nearer to the boys than anything else."

Think of the tremendous cost of building and maintaining hundreds of huts with all the thousand and one comforts that must be provided. What will you give to show that you care for your boy's welfare? At least \$2,250,000 is needed for 1918. For the sake of your precious boys, be Generous!

War-Work Summary

LOHENGRIN

All lovers of good music will spend a very pleasant evening on May 8th, when the Wednesday Music Club will entertain their guests by putting on "The Romance of the Swan Knight," from Richard Wagner's beautiful masterpiece Lohengrin. This opera will be handled along the same lines as was Peer Gynt, given about a year ago. The concert will be given in the Presbyterian Church hall, and it will be well to bear in mind that the seating capacity and tickets will be limited to 150. Tickets 50c each may be obtained from any member of the Club, or from Orme's Drug Store. Proceeds for patriotic purposes.

There was a merry gathering of whist players and their ladies last evening in the K. P. Hall, when the inter-society whist league met to present the trophies. The Cup went to the Lodge "Valhalla," while Mr. W. Reith won the prize for the highest average individual score. The evening passed very pleasantly. A little programme had been prepared, few speeches, refreshments and dancing laid made the time pass quickly.

Mr. R. M. Thompson, who is associated with Captain Betts in the Fish Oil Products Co., who are getting their plant here rapidly into shape, sailed last night for Vancouver.

The regular train from the east arrived in last night a few hours late, but in time to connect with the steamer for the south.

Wallpaper—New designs. Lowest prices.—Wallace's.

Engineer McIntyre, who broke his leg when his locomotive hit the mud slide last week, is making good progress in the general hospital here.
