FRENCH TROOPS STORM HILL IN FLANDERS

REGAIN POSITION NORTH OF KEMMEL -- DR. BELAND EXCHANGED FOR BEULOW

HARD FIGHTING IN FLANDERS--  
FRENCH STORM ENEMY POSITIONS

HILL 44, NORTH OF KEMMEL, STORMED AND CAPTURED FROM THE GERMANS--ARTILLERY ON BOTH SIDES ACTIVE IN PICARDY--ENEMY AEROPLANES ATTEMPT TO RAID PARIS BUT FAIL

With the British Armies in France, May 16.—Hard fighting continued yesterday on the Flanders front at various places. At Hill 44, which lies north of Kemmel, the enemy positions were stormed by the French troops in a gallant charge, and the German forces ejected, or taken prisoner. The French suffered severe losses in this engagement, which however was successful, and they were able to inflict further heavy losses upon the retreating Germans. The position was quickly turned about from which a strong fire was immediately poured into the enemy lines to the rear, which are overlooked from Hill 44. The enemy losses were not negligible.

French Front.  
Paris, May 16.—Great activity has been displayed by the artillery batteries of both the French and the German armies in the region of the Aisne river. Near Juvencourt the Germans unsuccessfully attempted to raid the French positions. Their attack however was prevented from reaching the French front line trenches, being mowed down by machine gun and rifle fire.

Raid on Paris.  
Paris, May 16.—Squadrons of enemy aeroplanes appeared over the outskirts of Paris yesterday, where they dropped several bombs. Details of the damage done are still coming in, which, however, appears to be slight. No casualties have yet been reported. The enemy machines were unable to make their way over the city proper. The anti-aircraft batteries opened fire on the invaders and the aeroplanes attached to the defence organization drove off the invaders early. The enemy machines did not wait to become engaged by the French machines, but turned tail upon their appearance, and ineffectually fled.

In Picardy.  
London, May 16.—Yesterday the Germans attacked the British lines along a front of one mile near Morlancoeur. Their initial rush enabled them to penetrate the British line temporarily at one point, but everywhere else they were repulsed. Heavy losses were inflicted upon the German forces who fought desperately, until they were overwhelmed. At the one point where they did penetrate the British line, the Australian troops in a brilliant counter attack drove them out, and regained the lost position.

bombardments are reported from the Grivesnes sector. In the neighborhood of Mont-didier, and on the road between Noyon and Guiscard the French batteries of 75's dispersed the enemy concentrations in overwhelming showers of fire, which took the Germans completely by surprise. Allied aviators report that the enemy formations were scattered in inextricable confusion by the furious bombardment, which was timed exactly. Many of the enemy convoys of food and ammunition and other war material have been dispersed and broken up by the French guns, preventing them from reaching their destination. In the Champagne country, an enemy surprise attack failed completely, the attacking forces being unable to attain to the French lines.

DR. BELAND EXCHANGED  
FOR PRINCE VON BUELOW

Ottawa, May 15.—Just as soon as the information was received here that Dr. Beland had reached the sanctuary of the neutral country of Holland, Premier Borden released for publication here the announcement that the German government agreed to exchange Dr. Beland for Prince von Buelow, who has been interned in England since the early days of the war.

Dr. Beland was taking the cure at one of the German spas when war broke out, and was in no fit condition physically to be removed from the enemy country in time to escape, being interned by the German government. Dr. Beland is an old man and an ex-cabinet minister of Canada, and the knowledge that he has at last been freed from the rigors of German supervision will be thankfully received throughout Canada.

U. S. FOOD CONTROLLER  
SEIZES SURPLUS WHEAT

Washington, May 15.—Actual seizing of wheat hoarded by farmers has begun.

State food administrators, given broad powers by Hoover, are requisitioning grain in several states. The government is paying the regular market price with the expense of seizure deducted.

Food Administrator Hoover has again warned state officials that every bushel of wheat—even that held for seed—must be offered to keep the Allies from starving. Less than 50,000,000 bushels of wheat were on the farms May 1, officials believe—most of this held for seed purposes. Seizing of wheat began in Kansas, Indiana and other states May 4. Other state administrators are using every effort to induce farmers still holding wheat to release it voluntarily.

More than 90 per cent. of the farmers there have sold their wheat, officials state.

Food officials here say the nation is now living on 35 to 40 per cent. of its normal food requirements without complaint.

ATTEMPT TO TIE UP  
OCEAN FALLS PLANT

A report from the provincial constable at Ocean Falls was received in the city yesterday giving details of an attempt to interfere with the power wires connected with the Ocean Falls plant. A man named Mike Errico has been arrested, and after the preliminary hearing at Ocean Falls, has been taken to Vancouver. The deed was committed at 2:15 a.m. and the accused had cut a large cable carrying 2,200 volts of electricity, and had it connected up to another cable carrying only 400 volts. He had a rope tied to the switch, hanging out of the window of the finishing room, where he had all his preparations made. After having everything connected up finely, he, it is supposed, would pull the rope, throwing the switch in to turn on the current.

While the full details have not yet come out, it is possible that a man who knew enough to do so much would be able to have everything arranged to make the damage as complete as possible. While fuses are always installed just to take care of any such contingency as a greater load, had these been interfered with, the result would probably be that the motors would be burnt out, and the whole power system thrown out of commission, which would tie up the work at this plant for some considerable time. The consequential loss would therefore have been much greater than the direct loss of the motors, which would be heavy enough these days.

WITHDRAWING TANKERS  
FROM PACIFIC OCEAN

Seattle, May 15.—Pacific Northwest Oil consumers who cannot change to coal must submit to Mr. R. M. Folsom, San Francisco, Pacific Coast Federal oil director, by June 10, a statement giving the nature of their business and their reasons for not changing, according to a telegram received today from Mr. Folsom at the offices of the Washington State Fuel Administration here.

"We are advised that a large number of tankers are to be withdrawn from the Pacific Ocean for Atlantic service within six months," the telegram said in part. "This will necessitate the changing of Northwestern industries to coal wherever possible regardless of cost."

FRENCH BONDS WILL PAY  
INTEREST EVERY MONTH

Paris, May 15.—"One month bonds" for the national defense have been created by the ministry of finance. A person investing in them may collect interest on the first of each month at the rate of 3.60 per cent. a year. The bonds, however, may be carried two or three months, in which event the investor would receive interest at the rate of 4 per cent. for the period of three months.

Bonds calling for 100, 500 and 1,000 francs will be placed at the disposal of the public May 31.

TWO MILLION DOLLAR FIRE  
IN VANCOUVER SHIPYARD

Coughlan's Yard on False Creek is Reported Utterly Destroyed—Two Million Dollar Loss.

A private message was received in town last evening to the effect that the large shipyard belonging to Messrs. Coughlan, which is situated between the Granville Street and Main Street bridges on False Creek in Vancouver, was destroyed by fire, which broke out yesterday afternoon. The information is that this plant has been completely wiped out, and that the loss is estimated at \$2,000,000.

On account of the telegraph wires being down today, no press dispatches have been received today, and further confirmation of this information cannot be got in the meantime. This news, therefore, must be accepted with all reserve in the meantime.

HUNS WANT COMPLETE  
CONTROL OF RUSSIA

Washington, May 16.—Details of Germany's latest demands upon Russia show that the Germans have asked her to make the final concessions in giving up Moscow and other large cities which are centres throughout the country. These will be garrisoned by strong German forces. The Russians have also to cease from arming their troops, and are to dissolve all their recently formed military units.

This of course means the complete subjugation of the whole empire of Russia by the Germans, who will govern the country for their own uses. It is not expected that Russia, even with Lenin and Trotsky at the head of her government, will stand for any such course of action. Strict discipline is being maintained in the new Soviet regiments, and their recent parade in Moscow, which the German ambassador attended, shows that the Russian military organization is by no means disorganized.

The handing over of Russia's Holy City to the Germans will hardly be accomplished without fighting. The Russians themselves set the city alight to prevent it from falling into the hands of Napoleon more than a hundred years ago, and there is sufficient spirit in the Russian of today to follow this historic example. The whole Russian situation is being watched closely.

JUNKERS KEEP LID  
TIGHTLY CLAMPED

Amsterdam, May 15.—Three meetings which had been arranged for the Independent Socialists to be held in Berlin on Wednesday evening to discuss the question of Prussian electoral reform were forbidden by the police.

This action probably was the outcome of an attack at a recent session of the House of Deputies by the Independent Socialist Heinrich Stroebe on Junkerdom, when he said:

"Attempts are being made to build up a modern political system of mediaeval lines under which the Junkers and capitalists can join hands to deprive the working classes of their rights and keep them in permanent subjugation."

DUBLIN'S LORD MAYOR  
WILL CROSS ATLANTIC

Dublin, May 16.—The Lord Mayor of Dublin has received his passport for his projected visit to the United States, and is arranging for his immediate departure.

MUNICIPAL OWNERSHIP  
WILL SOLVE FUEL PROBLEM

Only a few days ago, the Canadian Fuel Controller, informed the communities in the eastern portion of the Dominion that it was up to the civic authorities there to lay in a stock of coal now, in view of the possible and probable scarcity which will again happen this coming winter. The experience which many of the eastern towns and villages suffered this last winter was none too pleasant, through the cutting off of the imports of Pennsylvania coal into Canada.

The state of affairs obtaining last winter threaten to become more marked this winter, through the embargo upon the export of fuel oil from the United States on the Pacific coast. This will naturally create a greater demand for coal. And one of the facts which Prince Rupert and other cities will have to consider is how to keep up the supply. Even now, the coal mines on Vancouver Island, whence we draw our supplies, are working to capacity. And even with all the fuel oil coming to British Columbia, owing to combinations of circumstances, once or twice last season there threatened to be a scarcity right here in town. We got by, however, without it becoming too noticeable. It is possible that if the United States do not permit the export of fuel oil into Canada for her own preservation Canada will have to prohibit the export of coal to the United States. This, however, will not go very far in meeting the large extra consumption of coal which will ensue in this province. New sources of supplies of coal will, therefore, have to be looked for and developed.

Last summer, before coal reached its present high price, there was considerable discussion in this city regarding the establishing of the civic coal depot. The advantages of this development of the idea of municipal ownership of utilities was admirable—so far as it went. But the trouble was it did not go far enough. When administered properly, it might work all right provided the coal could be got. But this year, the advocates of municipal ownership will have another problem to face, which is the provision of the coal itself. The situation which threatens to develop this fall is one which is a direct challenge to the idea of municipal ownership and all that it means. The logical sequence of the action of the city of Prince Rupert in former years in acquiring and operating for the common good its own public utilities is that the city adds another one to the list. It is up to the city now to mine its own coal as well as sell it.

This may seem to be radical action for a municipality, but in practice and in reality it is not any more so than the city generating its own power and light. Proven coal fields lie within easy distance of Prince Rupert. The coal has already been tested, and is of such high quality that the city could sell its surplus to His Majesty's fleet for bunkers.

Competent mining engineers who have been on the ground are confident that in the space of three months, sufficient development work could be done on the Telkwa coal fields to permit of sufficient coal being produced there daily to take care of the present demand all over northern British Columbia. The coal is there, and it is simply a matter of getting it to Prince Rupert. There seems to be little doubt that there will be a serious situation prevailing along this coast next winter, unless new sources of supply are tapped, and in view of the many warnings which have been given by government officials and others of the impending scarcity, there will be no excuse for our civic authorities should they permit any shortage to take place here. Their natural course would be to secure a lease at the earliest possible moment of some suitable coal property. The Provincial Government has provided a Mining Engineer, with headquarters right in Prince Rupert who will give ripe judgment upon their choice.

Action of this kind taken by the city of Prince Rupert, besides making for the security of the coal supply of the city, will also go a long way towards opening up the interior country, and will be one of the best advertisements which it has ever received. With the city possessing its own waterfront, and its own wharf, and producing more coal from its own mine than is required for local consumption, the possibilities for the future are immense. There is little reason to doubt the success of such an undertaking, provided Prince Rupert has sufficient breadth of vision of the future, and sufficient faith—in themselves.

Train of Settlers for Nechaco Valley  
The increased attraction possessed by Northern British Columbia agricultural lands for prairie farmers was forcibly demonstrated last week, when a train of eleven cars, loaded with settlers and settlers' effects, arrived at Engen last week, to take up land previously secured in the Nechaco Valley. There were thirty-eight in the colony, the majority being accompanied by their wives and families. The new colonists are from a point in Manitoba, and from accounts received they are described as a very prosperous people, capable of financing their own venture. Included among their effects was the first tractor to be brought into that section. Engen is located on the G. T. P. about mid-way between Fraser Lake and Vanderhoof. The thirty-two quarter sections they occupy contains some of the finest mixed farming land in the Nechaco, and were selected after a thorough investigation of the land all along the G. T. P. railway, the colonization department of this railway being alone responsible for securing the settlers and bringing them to this district.—Interior News.

### ROMANCE OF MUNITIONS WORK

An English correspondent has just given an account of a visit to a war establishment in the Midlands, which, in deference to the censor, must be described as "H. M.F." It is the first and one of the largest of his Majesty's factories for the production of high explosives, and up to the present it has manufactured more than 68,000,000 pounds of T.N.T. Its two sections cover an area of over thirty acres, which in the opening months of 1915 was very largely pasture land. By a combination of money and plans provided by the Government, and organization and skill supplied by a company who knew all about acids but nothing about T. N. T., a plant was erected, and T. N. T. was being made before the year was half gone.

Since then "H. M. F." has poured out a continuous stream of an article whose very name is almost unpronounceable. It is said that there was a time not very long ago when appliances were of the crudest kind for making it, and it is possible to shudder at the thought that in those days "men with watering cans poured molten T.N.T. into coffee cans, from which it was afterwards taken out and broken up with a wooden mallet to be packed and sent away." The methods and apparatus are no longer primitive, and by an elaborate fire-fighting equipment it is possible to flood every floor in a few moments. The calmness and quietness with which the girls weigh and pack the deadly product is astonishing. About 1,700 women and girls are now employed in the factory. It started with male labor only, but now more than one-half its workpeople are women, and before long three-fourths of the workers will be women. This is all the more surprising because the awful possibilities of T. N. T. might well strike terror into the heart of even the bravest man.

Only an expert chemist, we are assured, could grasp and describe the purpose and working of the huge stills, the miles of main and pipes, the tall and broad towers and the rest of the plant. The nitric acid, first distilled and mixed with sulphuric acid, is pumped to the explosive section, three-

quarters of a mile away, at the rate of several thousand tons a week, and only those with technical knowledge can realize the significance of what is being done in what is called "continuous process nitration." It must suffice for ordinary people to realize a little of the enterprise and courage to be told that the output is now three times that of a previous plant, with one-half the space and one-third the cost. It shows something of its wonderful result to know that within a few months of its erection about \$1,000,000 worth of the original plant was scrapped as obsolete.

Efficiency and progress are the watchwords of the staff, and it has among its experts some of the leading chemists and other scientific and research workers who were formerly engaged either as consultants or with research work in the universities. The officials are nothing if not thorough. In one department some men, hearing that fire had broken out in the acid section, went to the spot and took particulars of the growing damage, while the fire was spreading, in order that no time would be lost in the rebuilding. It was a ludicrous sequel which followed, for these men were mistaken for enemy aliens, and they were warned off by the military guards for taking notes.

The greatest care is taken of the workers, because the toil is monotonous and very limited in outlook. But the factory is so planned as to minimize the unhealthy effects of industrial drudgery. It was the first large works to abandon Sunday labor as a regular practise.

It is eminently satisfactory to learn that there has been less labor trouble in this district during the war than probably in any other. As one of the leading employers remarked: "We watch closely the mental attitude of our men, and touch the right spot when needed. No real grievance is allowed to continue."

Another fact is that the employers are giving great concern to the industrial problems of the future, and when the time comes for re-conversion of their works to peace production they will be ready to readjust not only their plant, but their relations with

those whom they employ. Meanwhile nothing is allowed to divert them from the main purpose of the hour, and, notwithstanding difficulties, and even annoyances, the manufacturers of the English Midlands and their workmen are performing a splendid service on behalf of the Allied cause.—Globe.

### GERMAN SPIES CAUGHT WITHIN U. S. ARMY LINES

With the American Army in France, May 15.—The first German-American to be caught spying on the Americans is safely in custody.

Behind the characterization of traitor to his country, contained in the report of his arrest, is the story that he aided a German prisoner to escape. Both men donned American officers' uniforms and entered the line from the rear in the late afternoon. They said they were studying the ground between the lines with a view to using tanks, and asked to be allowed to cross the lines. The officer to whom they made the request soon discovered the ruse and ordered them escorted to the rear. There it was found that one of the men was a German and that the German-American was his accomplice.

### Appendicitis Operations Not Always Necessary

**Internal Bathing Relieves the Cause.**  
Your physician will tell you that Appendicitis is an inflamed condition of the little sack called the Appendix at the lower right-hand corner of the Colon or large intestine. By cleansing this Colon with purified warm water by the "J. B. L. Cascade" this sack is cleansed and the inflammation subsides. Hundreds of operations have been avoided by using the warm water cure for Appendicitis. Mr. Jas. McLaughlin, 91 Evanston street, Winnipeg, writes:—

"I had spent over fifty dollars with doctors trying to cure Appendicitis. Finally the doctor said I must go to the hospital at once for an operation. Your advertisement interested me. I bought a 'J. B. L. Cascade,' which relieved me at once, and am now completely cured. Never felt better in my life; all pain and soreness gone, and I eat and sleep like a boy. I am grateful to Dr. Tyrrell for this wonderful health-giving invention."

95 per cent. of all human ills are caused by accumulated waste in the Colon. Internal Bathing with the "J. B. L. Cascade" keeps this large intestine as free from all waste and as clean as nature demands it should be for perfect health. Ask Cyril H. Orme, Druggist, corner 3rd Ave. and 6th st., for booklet called "Why Man of Today is Only 50 Per Cent. Efficient." It is free. He will also be pleased to show and explain the "J. B. L. Cascade" to you.

KEENA LAND DISTRICT—DISTRICT OF COAST, RANGE 5.

TAKE NOTICE that the Grand Trunk Pacific Railway Company of Winnipeg, Manitoba, intends to apply for permission to lease the following described lands:—Commencing at a post planted at the most northerly point of Lot 507 at or about high-water mark, thence northerly, easterly, southerly, and westerly, following the sinuosities of the shore line to a point of commencement, including all that foreshore between high-water and low-water. Dated April 4th, 1918.

THE GRAND TRUNK PACIFIC RAILWAY COMPANY, H. H. Hansard, solicitor.

KEENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE ISLANDS

TAKE NOTICE that I, James P. Reid, of Prince Rupert, B. C., Prospector, intend to apply for a licence to prospect for coal and petroleum over the following described lands on the West Coast of Moresby Island. Commencing at a post planted about 1/4 of a mile southeasterly from a post located on the shore of a small Bay opening out of Canoe Pass between Morsby and Chastell Islands, about 3 miles northerly along the Morsby Island side of Canoe Pass from Duck Point; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

JAMES P. REID, applicant. Located November 9th, 1917.

# WRIGLEY'S

A Soldier's offering to his sweetheart is naturally the sweetmeat that gave him most refreshment and greatest enjoyment when on duty.

## The Flavour Lasts

Advertise In The Daily News

"The food crisis is grave and urgent, beyond possibility of exaggeration."—Sir Robert Borden

## City and Town Labor Must Save The Food Situation

THE heart of the food production problem is labor, and the heart of the labor problem is the city dweller. City people must produce food if Canada is to do her full duty in support of our soldiers and Allies.

Men who are needed on farms must come from the cities and towns—there is no other source. The Provincial Departments of Agriculture co-operating with the Canada Food Board, can place thousands of men on good farms in this Province. They are needed at once.

### Those who remain at home must also Grow Food

A War Garden will not excuse the man whose rightful place this year is on a farm. But War Garden service is needed from those who can do no more.

Every pound of home-grown vegetables, produced on city land by city labor, will be a positive addition to the food supply. Home Garden

and Vacant Lot cultivation will leave the farmers free to grow more food for export.

The vegetable garden offers an opportunity for service to men whose circumstances make it impossible for them to work on a farm, to women, to boys and girls—to city people generally.

### Be a Food Producer This Year

If there is a garden or vacant lot movement in your community, associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign. Write to your Provincial Department of Agriculture for pamphlets on gardening and additional information.

## LAND REGISTRY ACT

(Sections 26 and 134.)

Re Application Nos. 9831-I, 9832-I, 9834-I.  
TAKE NOTICE that application has been made to register Frank W. Hart, of Prince Rupert, B. C., as owner in fee under four Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 24th day of November, 1917, and one Tax Sale Deed dated 22nd day of September, 1916, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the City of Prince Rupert, more particularly known and described as Lots seven (7) and fifteen (15), Block twelve (12), Lot twelve (12), Block forty-eight (48), and Lots thirty-three (33) and thirty-four (34), Block fifty-one (51), all in Section Eight (8), Map 923, you are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication in the Prince Rupert Daily News), and your attention is called to section 26 of the "Land Registry Act" with amendments, and in the following extract therefrom:—  
"And in default of a caveat or certificate of pending being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, . . . and all persons claiming any interest in the land and in respect of whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim so or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."  
AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Frank W. Hart,  
AND WHEREAS on investigating the title it appears that prior to the 15th day of October, 1916 (the date on which the said lands were sold for overdue taxes), you were the registered and assessed owner as stated below,  
FURTHER TAKE NOTICE that at the time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Frank W. Hart unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.  
Dated at the Land Registry Office, Prince Rupert, B. C., this 15th day of February, 1918.

H. F. MACLEOD,  
District Registrar of Titles.  
To F. W. Clayton, Prince Rupert, B. C., assessed owner of Lots 33 and 34, Block 12, Charles Plantz, Edmonton, Alta., registered and assessed owner of Lot 15, Block 48, and sold for taxes on 14th day of September, 1915; V. Straube, 657 Powell St., Vancouver, B. C., assessed owner of Lots 7 and 15, Block 12.

## BOMBARDMENT OF PARIS CEASES—BIG GUNS ARE PUT OUT OF ACTION

Paris, May 14.—Another long-range gun, with which the Germans from the region of Crepy-en-Ainzy have been bombarding Paris, has been put out of action. Charles Leboucq, Controller of the Army Committee, states he was at the front watching the French artillerymen bombarding a long-range emplacement, when the aeroplanes assisting the operation signalled the magic words "bullseye." This was a 5,000 to 1 chance, and the first bullseye in six weeks. Then the Germans started bombarding Paris they had a battery of three of these giants on the shoulder of Mont de Jole. The first was put out of action six weeks ago. That is the gun which was seen returning home in a state of dilapidation through Belgium. Another was damaged ten days ago, though not put out of action entirely, and its crew killed. That left one. This is now destroyed, though doubtless the Germans will replace the losses.

## GERMANS COMPLAIN OF AUSTRIA BEING HUNGRY

Amsterdam, May 14.—The Rhenische Westfaelische Zeitung of Essen, a copy of which has been received here, prints the following concerning the signing of the peace treaty with the Ukraine. "We have concluded a bread peace. Bread is on the way—to Austria. With Roumania we have concluded a peace, which, besides bread, is to bring us petroleum. . . . It is a long way from Roumania to Berlin. Between them lies Austria, to whose famishing border population in German Bohemia and Tyrol we have had to supply food to save them from death by starvation. The German people know all that. Is it any wonder they have become skeptical?"

## Local News Notes

Dance in Harvey's Hall tonight.

Grand concert. At Methodist Church, May 28. Keep this date open.

Special this week. Diamond ring, 1 carat for \$190—Bulger & Denike.

Turkish Baths by appointment. Lady attendant. Phone Red 241.—Empire Baths.

Bishop Du Vernet went out on yesterday's train. He will visit Vanderhoof and way points.

The Juvenile Choir of the First Baptist Church will welcome the Senior Choir to rehearse Festival music at 7 p.m. Friday.

The Eastern Star will hold the Red Cross sale in the Great War Veterans' rooms tomorrow. Country Store, Rummage Sale, etc.

The fire department got a call about noon today from 1236 Second Avenue. It was a chimney fire, however, and there was no damage to speak of.

Mr. and Mrs. R. M. Thompson, of Tacoma, arrived in the city yesterday. Mr. Thompson is interested in the new Fish Oil and Products Company here.

The G. T. P. "Prince Albert" is bringing up from Victoria the boilers for the new cannery at Port Edward. She is expected here by the end of the week.

Mr. R. McKay, of the Prince Rupert Dairy, is leaving for Vancouver and the south this evening. Mr. McKay hopes to bring back with him some ten or fifteen more cattle for his dairy herd here.

"Doc" Evans is leaving for Vancouver tonight. Mrs. Evans is residing there meantime. Mrs. Self, who is a sister of Mrs. Evans will accompany "Doc" and will visit in Vancouver and Seattle for a week or two.

The Chimera is in today with 9,000 lbs. halibut; Vesta with 3,000, and the Seymour with 5,000. The first two catches were purchased by the Cold Storage Company, while the catch of the Seymour was bought by and will be delivered to Ketchikan.

The ladies of the Eastern Star will have charge of the sale of home-cooking in aid of the Red Cross Society tomorrow afternoon. There will be some special features at this sale, which it is expected will be held in the rooms of the Great War Veterans on Third Avenue.

## "THE MASKED RIDER" AT THE WESTHOLME TONIGHT

Excitement, romance, mystery, thrills are the chief features of the five act photoplay called "The Masked Rider," which is to be screened at the Westholme this evening. The story is a stirring one, and concerns a revenue officer's adventures in the wild haunts of a gang of moonshiners, such as may be expected to be discovered in some out of the way places up the Skeena or some of the other inlets along this coast, some of these days. The tale also concerns a beautiful mountain girl, who found a parson not all he seemed, and of the romance thereby befall. The two supreme screen stars, Harold Lockwood and May Allison, appear in this play, which will surely satisfy the most exacting taste. It's a Metro. Then there is Billie Burke. She will be seen in further chapters of "Gloria's Romance," and those patrons of the Westholme Theatre who have followed this serial play will not want to miss these two reels.

## AIR MAIL SERVICE FOR BRITAIN AND NORWAY

London, May 15.—Despatches to the Exchange Telegraph Company Christiania say the aerial service between Aberdeen and Stavanger is expected to open soon for carrying mail. It is pointed out that economic interests between Great Britain and Norway are so great that improved postal and passenger service is a necessity.

One, two—it's good to chew. Three, four—they all want more. Five, six—it comes in sticks. Seven, eight—the flavor's great. Nine, ten—come again  
—with Wrigley's!

## SHERIFF'S SALE OF MINING PROPERTY

IN THE SUPREME COURT OF BRITISH COLUMBIA.

By authority of three warrants of execution issued in the above Court, and directed to me at the instance of Louis Schulz, J. A. Quick and Albert Burger, Judgment Creditors, against North Columbia Gold Mining Company, Columbia Mines Company, O'Donnell Placers Company, and Pine Creek Power Company, Ltd., Judgment Debtors, I have seized all the interests of the defendant companies, situate on Pine and O'Donnell Creeks in the Atlin Mining District, consisting of mining leases, and mining equipment, hydraulic piping, monitors, tools, flumes, and goods.

All or sufficient to satisfy the claims and costs in the actions, I will offer for sale by public auction for cash at 2:30 in the afternoon on Thursday, the 30th day of May, 1918 at my office in the Court House, Prince Rupert, B. C. JOHN SHIRLEY,

Sheriff of the County of Atlin. Dated at Prince Rupert, B. C., May 9th, 1918. 127

PRINCE RUPERT LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE ISLANDS.

TAKE NOTICE that we, The Aeroplane Spruce Lumber Co., Ltd., of Port Clements, occupation lumbermen, intend to apply for permission to lease the following described lands.

Commencing at a post planted at the northeast corner of Lot 8, Block 45, part of subdivision of District lot 746, thence north 8 chains, thence west 30 degrees south to the approach to the Government Wharf, Port Clements, thence southerly along said approach to the northwest corner of Lot 1, said block 45, thence easterly along the waterfront of lots 1, 2, 3, 4, 5, 6, 7, and 8, said block 45 to point of commencement, and containing seven and one-half acres more or less, AEROPLANE SPRUCE LUMBER CO., LTD. S. T. Lewis, President. April 2nd, 1918. 118

## WATER NOTICE

Diversion and Use.

TAKE NOTICE that the FISH OIL AND PRODUCTS LIMITED, whose address is 310 Pacific Building, Vancouver, B. C., will apply for a license to take and use forty inches of water out of Creek, also known as Flowing into head of Scissors Bay, Tucker Inlet, about 4 1/2 miles northerly from Prince Rupert, B. C.

The water will be diverted from the stream at a point about 2000 ft. from Still Water and will be used for domestic and manufacturing purposes upon the ground and wharf described as Fish Oil and Products Limited Plant.

This notice was posted on the ground on the 19th day of April, 1918.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914" will be filed with the said Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is May 11, 1918.

FISH OIL AND PRODUCTS LIMITED, By C. R. Betts Agent.

Commencing at a post planted at northeast corner of the Longfield Mineral Claim, W. P. Northeast corner No. 1050, thence west 20 chains; thence north 20 chains; thence east 20 chains; thence south 20 chains more or less along shore line to point of commencement, containing 40 acres, more or less.

DATED 27th January, 1918. E. H. SIMPSON, By Chas. J. Benson, Agent.

# \$200.00 REWARD!

THIS PICTURE HAS NO TITLE

For the Best Title for This Picture we are Offering the Following Prizes:

First Prize, \$100.00

Second Prize, \$50.00

Third Prize, \$30.00

Fourth Prize, \$15.00

Fifth Prize, \$5.00

## CONDITIONS

1—Write your answer on a plain sheet of paper with your name and address at the bottom of the page.—write nothing else or your answer will be disqualified.

2—Your answer must contain not more than twelve words, but may contain less than twelve words.

3—IMPORTANT. Go to your grocery and buy a ten-cent package of Cowan's Supreme Chocolate, cut out neatly the colored Maple Leaf from the package and pin it to your answer. If you fail to pin the Maple Leaf to your answer your title for the picture will be disqualified.

4—Only one answer is allowed for every Maple Leaf enclosed. In other words, if you enclose three Maple Leaves from three packages you are entitled to three answers for the best title to the picture, or as many answers as you have Maple Leaves enclosed.

5—Mail your answer to Mr. L. L. Berry, care of Kirkland & Rose, Water Street, Vancouver, B.C., who are the Cowan Company's Agents in this city. Do not send any letter to Toronto, as this competition is exclusively for British Columbia.

6—Your answer must be in before June 14th, as this competition closes on June 15th.

7—Your answer need not contain the words, "Cowan's Supreme Chocolate," unless you wish to use it.

8—The Cowan Company Limited reserves the right to be the sole judges in this competition, and their decision as to the winners will be final.

9—The winning titles will be published in all papers throughout British Columbia during the first two weeks in July of this year.

## IN CONCLUSION READ THIS

Do not forget this fact, that if you do not win a prize you have the Cooking Chocolate. Well now, what are you going to do with it? Here is what to do: Wait for a few days and every person who sends in an answer to this competition, enclosing a Maple Leaf from the package of Supreme Chocolate, will receive free a beautifully illustrated Recipe Book, just off the press, containing one hundred recipes for Supreme Chocolate and Perfection Cocoa. When you get this book you will know what to make and how to use this special unsweetened Cooking Chocolate. Remember the name.

This Competition is Exclusively for British Columbia.
