## ALLIES RESISTING ALL ATTACKS OF ENEMY

### REPORTS FROM WAR AREA VERY BRIGHT—EXPECT SETTLEMENT OF STRIKE SOON

#### GERMAN ADVANCE IN WEST SLACKENS VERY APPRECIABLY

ENEMY PROGRESS BEING RESISTED TENACIOUSLY—FRENCH RESERVES CONTINUE TO ARRIVE AT THE FRONT—ENEMY LOSSES PUT AT OVER HALF A MILLION MEN

(Special to The Daily News.)  
Paris, May 31.—Increasing violence marks the progress of the fighting to the south of the river Aisne, and while the momentum of the enemy machine has not yet quite spent itself, there has been a notable slackening in its advance during the past day. The Germans are fighting against time and are throwing every ounce of their weight of manpower into the struggle. Their chief efforts now seem to be developing into the widening of the gap which they have torn in the positions of the Allies between Pinon and Brimont, but this work seems to be progressing slowly. On the centre the enemy have again pushed forward, and have made a little further progress, but his efforts to broaden his advancing front has met with little success. On the wings, the allies have been obliged to give some ground. This action was carried out slowly, and a full price has been exacted from the enemy. At certain points, the allied reserves are massing without confusion.

**Enemy Malted in West.**  
Paris, May 31.—We have halted the enemy in the western part of the front near Soissons, and to the southwest on the left bank of the Crise river. The Germans are multiplying their efforts in the direction of Villers Tardenois. On our right, and to the northwest of Rheims, we are holding our positions.

**Enemy Attempts Held.**  
The allies are holding the Germans at all points on the Aisne front. The battle along the firing front continued all night with the French maintaining the western outskirts of Soissons. Northwest of Rheims, the Franco-British forces broke all the German assaults and maintained their defensive positions.

French reserves continue to arrive at the front, and the German advance is being resisted tenaciously. The Germans by employing tremendous forces, have made repeated efforts to break through on the Soissons front, but each time their attacks have been held up by the determined French resistance. Attack after attack was broken to pieces by the murderous concentrated French machine and rifle gunfire, assisted by the batteries of 75s in the rear. The survivors of each attack mingled with each oncoming wave of the enemy, which were each shattered in turn. The battle is still in progress.

**British Success.**  
At the British Headquarters in France, May 31.—British troops at Neuville Vitasse penetrated some six hundred yards into the German defences, after a preliminary bombardment. Dugouts were bombed and many prisoners taken. The British found the

German trenches littered with German dead and wounded from the artillery fire.

**The Battle Continues.**  
Paris, May 31.—An official statement issued by the war office here says that French troops have retarded the enemy progress on the western outskirts of Soissons, and solidly held the left bank of the Crise river. The battle is being continued with undiminished violence. The French soldiers are holding their positions northwest of Rheims.

**Yet Another 10,000.**  
Berlin, May 31.—The forts on the northwestern front of Rheims have fallen. Three suburbs of Soissons have also been captured, and the number of prisoners taken from the enemy increased to 35,000.

#### CANADIAN BANKS HAVE 10,000 MEN IN KHAKI

While every branch of Canadian business has a noble record in supplying men for service overseas, few people realize the response that the men on the staffs of the banks have made to the call to the colors. These figures have just come to hand, and every patriotic Canadian will be proud of the record of our banks, at the same time realizing that this drain on the staffs makes it imperative that the public should co-operate with those left behind, in the handling of Canada's growing banking business.

At the beginning of the war, there were 17,674 men and 4,609 women employed in Canadian banks. By January 15th, 1918, the number of men on the bank staffs was only 14,220—a reduction of over 3,000, and the number of women had increased to 6,769. The total enlistments from the staffs of banks up to January 15, were 7,741—almost half of the number of men on the bank staffs at the beginning of the war. Considering the number of married men and men over age in the banks this is a record to which they can point with pride. Since that date 300 additional young banking men have volunteered, 830 were called under the decision of Mr. Justice Duff in March, and 1,200 men have been called under recent amendments to the Military Service Act. Thus the total contribution of men by the banks has reached the inspiring figure of over 10,000—not far short of ten battalions.

Women clerks have been employed and have done splendidly, say local bank managers, but they have not the experience of the men they replace, and it would be out of the question to expect them to work as rapidly, or with the same knowledge of banking as officers of many years' training.

For these reasons the Canadian Bankers Association is issuing an appeal to the public to co-operate with the banks as fully as possible in the handling of Canada's growing business under these exceptional conditions. A change of banking hours is announced from 9:30 to 2:30 in place of the usual 10 o'clock to three for the purpose of giving the staffs more time to complete the large amount of work which cannot be taken up until the offices are closed to the public. Requests are also made to bank early and avoid drawing unnecessary cheques.

#### EXPECTS SETTLEMENT OF SHIPYARD STRIKE

(Special to The Daily News.)  
Ottawa, May 31.—In a telegram received at the Labor Department from Senator Robertson, it is suggested that a satisfactory settlement of the Pacific coast shipyards strike may be reached this evening. Senator Robertson states that a satisfactory agreement has been signed between the employees of the Coughlan yards and the owners, which it is hoped will exert a good influence on the situation. Only one point appears to be in dispute in the general situation, and Senator Robertson seems confident that an agreement upon it will be made today.

#### STORY OF PLOT IN IRELAND IMPUDENT FAKE SAYS DEVROY

New York, May 30.—John Devroy, named in the British press bureau's official exposure of the alleged German-Sinn Fein Irish uprising plot as an intermediary in America between Germany and the Irish leaders, issued a statement here last night branding the London announcement as "an impudent fake." Devroy is the editor of the Gaelic-American, an anti-British weekly newspaper published in this city.

Declaring that there was no conspiracy justifying the arrest last week of five hundred Sinn Feiners, Devroy also asserted that he "never had any dealings, direct or indirectly, with any agent or emissary, official or unofficial, of the German government since the United States entered the war."

"The sole object of the charges made officially in London," Devroy said, "is to create antipathy to Ireland in America."

#### GERMANY MUST HOLD BELGIUM, SAYS TIRPITZ

Amsterdam, May 29.—We must retain Belgium economically, politically and militarily," said Admiral von Tirpitz, former German minister of marine, in an address at Dusseldorf on Sunday, as quoted in the Nachrichten of that city.

The admiral's address was delivered before the Dusseldorf branch of the reactionary fatherland party, of which he is one of the leading spirits. Speaking of Germany's requirements after the war, he said:

"Neither central Europe, the Orient, nor Northern Europe can supply us with the raw materials requisite to our industries. We need to have the sea free from Anglo-Saxon tyranny for that purpose."

Apparently the Admiral did not mention the submarine warfare, which was discussed at the same meeting in a highly optimistic manner by Herr Bachmeister, a deputy in the Landtag.

The fourth of the series of games arranged between the drydock and entrance will take place tonight at 7.30 on the grounds at Market Place. Considerable enthusiasm has been created by this series and it is expected a large gathering will witness the contest this evening. Clapp and Currie will perform again, while Crosby and Mitchel expect to demonstrate the results of recent hard practice.

#### THE CRADLE

Born to Mr. and Mrs. Attilio Dominato of 554 9th Avenue, W., on May 30th, at the Prince Rupert General Hospital, a son.

Tomorrow, June 1, is the day when the purchasers of Victory Bonds receive their first half year's interest.

#### MARRIED MEN WOULD HAVE BEEN CALLED UP

Proposal was Put up by Government, But Rejected By Caucus.

Edmonton, May 30.—That it has been the intention of the government to call up Class 2, which would have meant married men, was the information given to the board of trade by H. A. Mackie, member for East Edmonton. The idea, however, received such opposition when discussed in caucus by the government members, that it was abandoned, and the government created another special class by calling up men between the ages of 19 and 22.

The contention raised was that the married men should not be called out until all the single men from all the provinces had been exhausted.

Mr. Mackie eulogized the manner in which the government was being supported in its way of dealing with conscription. All the protests came from Quebec and Ontario, he asserted. But in spite of a protest from 2,500 farmers in one province alone, the members supported the government.

#### BUY IN YOUR OWN COMMUNITY

(Registered in accordance with the Copyright Act.)

The integral part of the nation is the individual community. A nation is made up of communities.

Communities hold the nation together—furnish the adhesives that make it a concrete substance. The stronger these individual communities become the greater the nation becomes.

National patriotism has its rise in the community, and just how powerful national patriotism becomes depends upon the extent of the local patriotism evidenced in the communities.

Some communities are more progressive and more prosperous than others because they are more patriotic to their home interests.

"Buy in your own community" is the most patriotic and in the long run by far the most profitable watchword the people of any community can set before themselves. Unthinking, heedless people, if present in sufficient numbers, can wreck any community in a short space of time by practicing a system of false economy.

**What a Live Community Means.**  
A live, growing, aggressive community is one that takes patriotic pride in its own local enterprises, and patronizes them to the fullest possible extent.

Here the local merchants, with cheerful confidence, stock up with an abundance of every requisite for use in the community—because they can depend upon the people of that community to do their buying from the home merchants. This makes for mutually helpful, congenial relations, moderate prices and healthy trading conditions.

In such a community you will find active interest in all public affairs. There are good schools and churches, social advantages, sport and entertainment for the young and old.

Advancement is the order of the day; progress is the watchword, and achievement is the realization that carries the spirit of the people to greater and grander goals.

Such is the community that is harkened to with attention and respect when it has something to lay before the legislative bodies or the directors of commercial corporations.

It is a "live-wire" community in the real sense of that off-

#### PRINCESS MAY AND THE PRINCESS SOPHIA SAIL SIDE BY SIDE

Both vessels leaving Vancouver at 9 p. m. Wednesday evening, the Princess May and the Princess Sophia ran a close race for part of the way on the voyage north. The "May" already has the reputation for making the fastest time among the C. P. R. boats on this run, but on this occasion the Princess Sophia ran alongside of her all the way to Alert Bay. The two vessels sailed side by side practically from Vancouver, and a biscuit could have been tossed from the one ship to the other. If the two vessels had been geared together, they could hardly have kept closer together, and it was only on approaching the wharf at Alert Bay that the May was allowed the precedence, she having a lot of freight for that point, while the Sophia had none. After leaving Alert Bay, however, the Sophia lost sight of the May, and will possibly be cleared from Prince Rupert before the May arrives.

#### THOUSAND JEWISH REFUGEES DROWNED WHEN SHIP SINKS

New York, May 30.—one thousand persons, all Jewish refugees from Batoum, were drowned when the steamship Oriole, carrying a passenger list of 1,500, was recently sunk in the Caspian Sea, according to a cablegram received and printed here by the Jewish Day, from its correspondent at Harbin.

The cablegram stated that the ship was on her way to Astrakhan. No details of the sinking were given in the cablegram.

#### "BETRAYED"

The spirit and romance of old Mexico, and hazardous adventures which overtake an American army officer in search of a bold, bad bandit form the story of the play "Betrayed" to be screened at the Westholme Theatre this evening.

Miriam Cooper, as the star actress, displays a senorita's dream of love. She begins by promising to marry one man. Before the picture is ended, she has promised to marry three. Carmelita—that is her name—throws aside Pepo when she meets Leopoldo, a bandit. Then when she discovers William Jerome, an American officer who has come to Mexico as a spy in search of the ruffian, she forsakes Leopoldo. Plot and counter plot succeed each other in swift succession, and the finish is one of the battle scenes for which the Fox pictures are already famous. Everything concludes to the satisfaction of everyone with the exception of the bold, bad bandit. Then there is Tom Mix as well in a two-reel Fox comedy, which will be sure to please everyone who sees it.

There were three cases at the police court this morning. Amelia Gill was charged with vagrancy, and further hearing was adjourned until Tuesday. C. Calderoni was fined \$2.50 for permitting his chickens to trespass, while H. Heskin was charged with being a defaulter under the Military Service Act, and was ordered to be handed over to the military authorities.

(Special to The Daily News)

Paris, May 31.—The American forces, who captured the village of Cantigny in Picardy have beaten off attack after attack by the Germans. Large forces of the enemy have been detailed to retake the village, and they have launched savage assaults on the Americans. The latter, with rifle and machine gunfire, simply mowed down the advancing Teutons, and inflicted tremendous losses. They successfully maintained their positions, which are of considerable importance to the Germans' plans. The recapture of this ruined village by the American forces was a splendid piece of work, and in maintaining themselves in the face of repeated and determined enemy attacks, the American troops have proved to be fighters of some quality.

#### Claim Much Booty.

Berlin, May 31.—The impetuous advance of our troops in attacking the enemy prevented them from carrying back immense quantities of rich provisions heaped up in the territory which we have captured. Large depots fell into our hands at Soissons, Braisne and Fismes. Large stores of food-stuffs, extensive munitions depots, railway trains and establishments with a large quantity of medical equipment fell into our possession.

#### Heavy Losses.

With the French Armies in the field, May 31.—The Germans, since the offensive began, have lost 520,000 men, according to compilations made today which are mathematically certain. This includes the losses in the present phase of the offensive on the Aisne front. It is believed that the losses there are fully as heavy as they have been on the Picardy and Flanders front.

#### Air Raids.

London, May 31.—An official statement today reads: "A successful aerial operation was carried out by the French troops east of Dikesbusch Lake last night. Beyond the usual military activity on both sides, there is nothing new to report from the remainder of the British front."

#### MEN NINETEEN YEARS OLD MUST REGISTER BEFORE TOMORROW

Men who are nineteen years of age have only got until tomorrow, June 1, to register with the Registrar of Military Service at Vancouver. The process of registration for men of nineteen will consist simply of the writing of a letter to the registrar on or before June 1, giving full name, address and date of birth. **BEING HELD**

By the throwing of overwhelming masses of troops against the thinly-held Allied lines, the Germans have been enabled, by paying a big enough price in casualties, in making little better than an advance of ten miles right in the centre of a front of some thirty-five miles. Along this front at places the Allies have given ground before the weight and momentum of the German blow but taking their toll as they retired. This new battle front lies immediately south of the line from which the Germans advanced on their way towards Amiens. Their success on this occasion, which so far has been denied them, would place them on the road to Paris via the valleys of the Oureq and Marne rivers.

The weight of the enemy attack has resulted in the capture of some fifteen thousand prisoners. Berlin has since then augmented this number by another ten thousand, which has not yet been confirmed. This number of men, in itself, would seem to be a loss of some importance to the Allies, but in the thinly-held front lines, this loss is possibly one of the unavoidable things connected with modern warfare. The enemy losses are already reported as heavy, and it may be assumed that for the fifteen thousand prisoners the Allies have lost, a very much greater proportionate loss has been suffered by the advancing Germans. The policy of attrition adopted by the Allies is being followed logically. And one thing to be remembered is that Germany is in a worse position to bear great losses in manpower than are the Allies.

In the opinion of competent military authorities, the German offensive will be definitely stopped by this evening, by the reserves being brought up to stiffen the Allies' lines. The enemy is close enough to Paris and in Flanders close enough to the Channel ports already, and the time is at hand when there is no possibility of allowing him any more latitude in his advance. The initiative will

then be up to General Foch. When the irresistible mass of the German armies meets with the immovable lines of the Allies, it is possible that there will be fighting on a scale hitherto unprecedented in the four years of warfare, even as these four years have been unprecedented in the world's history. This will be the beginning of the end for the Central Empires, for then the tide of the Allies' armies may be expected to surge onwards toward the Rhine—and Germany.

**ECONOMY**

The discussion which took place this week among the local butchers and grocers regarding the questions of credit and delivery cannot be said to be premature. Both systems, as practiced at the present day can hardly be said to be the most economical methods which might be adopted in these days of stress. That the free delivery system is open to abuse, not one merchant will deny, and that the abuse is practiced in certain quarters it may be that they will admit, too.

The instance given at Wednesday night's meeting where three grocers' cars called at one house at the same time in the morning with different orders totalling the sum of \$1.75 altogether is a sample. When it is remembered that the initial cost of a delivery car, the cost of upkeep, and wages of a driver have eventually to be added to the cost of the goods, it will be seen that the public have a little something to do themselves with the increasing costs of foodstuffs. At the present time, however, the customers who carry the goods home themselves are mulcted in the delivery costs.

In dealing with this matter, as with the other equally important matter of credit, the merchants will require to be united in whatever decision they come to. In credit accounts again, further costs are piled up against the goods. No merchant can give credit without making some allowances for bad debts, no matter how

careful he is. Besides which there is interest, and the value of the time taken for book-keeping, which costs money, too. This cost is another which the cash customer has to bear his share, although obtaining no advantage therefrom, and which might easily be eliminated.

In times like these, the merchants have the situation in their own hands. A majority vote for new regulations governing these matters, which would show a saving, would doubtless receive the sanction of the Canada Food Board, and would be made compulsory. The public, though slow to learn, would adjust themselves to the new circumstances when they had to.

**Internal Bathing Relieves the Cause**

"If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health.

Mr. F. C. Voigt, Rapid City, Man., writes:—"For several years I suffered from Indigestion, Nervous Debility, insomnia and Constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a 'J. B. L. Cascade' and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the 'J. B. L. Cascade' as a Godsend to me."

The 'J. B. L. Cascade' is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St., who will be pleased to give you an interesting book called "The Why, The Why, The Way of Internal Bathing" on request. # CONSTANT PAIN AFTER EATING

The Tortures of Dyspepsia  
Corrected by "Fruit-a-lives"

ST. MARTIN'S, N.B.  
"For two years, I suffered tortures from Severe Dyspepsia. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth.  
I tried doctors, but they did not help me. But as soon as I started taking 'Fruit-a-lives', I began to improve and this medicine, made of fruit juices, relieved me when everything else failed."

**BUY IN YOUR OWN COMMUNITY**

(Continued From Page One.)

abused term, and it turns out boys and girls reared in an environment whose atmosphere breathed inspiration and whose precepts spelled success.  
That is what it means to have a community with character.

**Keep the Home Dollars Earning.**  
The community lacking this spirit, this character, will dwindle and die of stagnation.

Every dollar sent away to enrich some great metropolitan centre at the expense of local enterprises assists just that much in the work of devastation.

Community buying is the running mate of development.  
It precedes and is synonymous with the blossoming out of every successful commercial centre in America. It means more wealth to a country than the discovery of gold; its rays are warmer than radium; it outshines the diamond and flows smoother than oil.

Every dollar spent at home—and kept within the community as long as possible—enriches the country twofold. In the first place your home-spent dollar performs an essential, patriotic duty to the primitive source of its birth—production—and the community reaps its just measure of benefit. In the second place, when your home-spent dollar is finally called upon, in the exigencies of greater commerce, to roam elsewhere, its mission is one of necessity and it performs its second duty—the duty of wise economy toward the nation, and it sends home interest on its investment abroad.

While the interest of the community and the nation are mutual your first duty is to your own community. The more the community is enriched, the more the nation is enriched; because, as has been pointed out, the nation is an unknown quantity without the community.

# The Canadian Bankers' Association

## Invites the Co-Operation of the Public on Behalf of the Banks

### Staffs Heavily Reduced by War

MORE than half the men in the banks of Canada are now on military service, and the number which remains is being steadily reduced.

Women clerks have been employed in thousands and have done splendidly, but they have not the experience of the men they replace. It would be out of the question to expect them to work as rapidly or with the same knowledge of banking as officers of many years training in the profession.

The drain upon the number of experienced officers has now reached a point where it is necessary to ask the public to take into consideration this decrease in efficiency, and to lighten, as far as they can, the burden thus thrown upon those left to run the business. Canada was never so busy as now and the volume of banking business is greater than ever before.

### How the Public Can Help

Transact your banking business in the morning as far as possible, and as early as possible. Try to avoid a rush at closing time.

Do not draw any more cheques than are absolutely necessary. Instead of paying small accounts by cheque, draw the money in one amount and pay in cash.

### Change in Banking Hours June 1st.

On and after June 1st banking hours will be: 9.30 to 2.30; Saturdays 9.30 to 12.00.

This arrangement will give the staff more time to complete the large amount of work which cannot be taken up until after the office is closed to the public.

### Special Services Discontinued July 1st.

Certain services must of necessity be discontinued, for a time at least.

On July 1st banks will discontinue receiving payments for tax bills and the bills of gas, electric and other public service corporations.

*The banks desire to render all essential services including many special ones arising out of the war. In order to do this they make this appeal for co-operation in the manner suggested above*
