FIERCEST BATTLE OF WAR IN PROGRESS

SOME PRISONERS FALL INTO THE HANDS OF THE ALLIES—FEARFUL TOLL OF LIFE

TREMENDOUS BATTLE IN PROGRESS NEAR NOYON

ONE OF THE FIERCEST BATTLES YET WAGED IS NOW IN PROGRESS—GERMANS TO MAKE ANY SACRIFICE TO WIN—EXPECTED SOON TO EQUAL THEM IN NUMBERS IF SLAUGHTER IS MAINTAINED

(Special to The Daily News)

With the British Armies in the Field, June 12.—The new German drive between Mont Didier and Noyon is rapidly becoming the fiercest battle of the war. The Germans, evidently determined to make a supreme effort to gain their objective, engaged approximately twenty to thirty divisions. The heroic French resistance changed the German tactics from those which largely insured success in former drives. Prisoners taken by the French in their counter attacks unanimously declare the German losses to be frightful. French troops in counter attacks also find heaps of dead Boches. In spite of the enormous masses of German reserves they have only gained about three miles. French airmen are constantly harassing the German gun positions. Following the raid the railway station of Roye was perceived to be in flames.

War critics think that if the British and French can hold out for two months longer the present rate of advance of the American troops and Italians will give them equal numbers to carry on with.

Big Struggle in Metz Valley.

Paris, June 12.—The Germans are still making the greatest assault in the Metz valley for the purpose of reaching the Oise river above Compeigne, thus forcing the evacuation of the entire Noyon salient.

Prisoners captured say that the Germans are suffering a severe crisis in effectiveness. Many companies go into action with only eighty to a hundred men. The wounded are forced to go back to the front as soon as cured.

South of Faverolles after bombardment by the French, 670 unburied dead were counted lying in four or five successive rows.

GOVERNOR-GENERAL REVIEWS U. S. TROOPS AT WINDSOR, ONTARIO

Windsor, June 11.—Seven hundred sturdy sons of Uncle Sam were reviewed by the Governor-General here yesterday afternoon. Following the inspection the Duke complimented the commander in a few words, wishing him the best of luck and praising the physique of the men, many of whom stood well over six feet.

Special arrangements were made with the United States Government to have them detain here.

Ted Rorvik returned from the south this morning. Ted has been ill in Seattle with pneumonia and is not in the best of shape yet although much improved.

GERMAN PEOPLE MUST LEARN OF THIS SACRIFICE

Terrible Carnage is the Price Paid for Any Advance by the Enemy.

(Special to The Daily News)

Paris, June 12.—In a summary made by the newspapers they refer to the small gains made by the Germans at tremendous cost in men. They also add that such slaughter of men cannot last long and that the Germans would be fools to keep it up.

The German forces last night penetrated to within one mile of the Oise river at Ribecourt. The enemy also reached the Aronde river, within four miles of Compeigne, representing the maximum of more than seven miles at this point, but were hurled back with heavy losses.

With the French Armies in the Field, June 12.—Undiminished severity marks the fighting around Noyon. The situation is satisfactory to the Allies.

The resistance offered by the Allies caused great consternation in the German lines. Every time the French countered they found the ground covered with heaps of German dead.

Several small villages held by the British have changed hands a number of times during the last few days and are now in the hands of the Allies.

STEFANSSON TO REACH VICTORIA THIS MONTH

Ottawa, June 10.—Word has been received by the Naval Department from Vilhjalmur Stefansson, the Arctic explorer, to the effect that he expects to reach Victoria early this month. Stefansson reported from Fort Yukon where he had gone from Herschel Island, on recovering from an attack of typhoid. He and his party were ordered to return to civilization with their scientific collections, and detailed reports of new discoveries made during their four years in the Arctic. Stefansson intimates that he will probably give a short lecture tour on his return.

BRITAIN PROTESTS TO POPE

London, June 8.—The British Government has called the attention of the Vatican, Chancellor Bonar Law told the House of Commons today, to the fact that although France and Great Britain agreed, at the request made by Germany through the Vatican, not to bombard Cologne on Corpus Christi Day, the Germans shelled Paris on that day.

"The action of the Germans," the Chancellor added, "will not be forgotten in the event that any similar appeal is made in the future."

Mrs. Capt. Hill and daughter arrived back in town today.

The boat from the south did not arrive until after one today, the train was held for the passengers for the east.

Mr. G. A. McNicholl arrived from the south this morning where he was in attendance at the sittings of the Railway Commission.

BIG PROGRAMME IS PLANNED FOR JULY 1ST

A very large and representative gathering was held last evening in the Sons of Canada rooms to discuss plans in connection with a fitting celebration of the first of July. Various organizations were represented and judging from the enthusiasm and the interest there will be an appropriate celebration for Canada's birthday.

Definite announcement as to the coming of a baseball team from New Metlakatla cannot be made at the present time, but it is planned to have at least one band for the day and there will be no need that any should depart from the city to thoroughly enjoy the holiday.

The following committees were nominated and speaks for the widespread interest manifested: General Committee: W. D. Vance, chairman; J. V. Macdonald, secretary; S. D. Macdonald, John Dybhavn, D. C. McRae, Joe Hutchinson, George Abbott, and all members of other committees.

LAVERGNE FIGHTING ORDER ANNULLING ARMY EXEMPTIONS

Quebec, June 11.—Armand Lavergne took a writ of habeas corpus today on behalf of Antoine Bacon, and he stated he would fight in court the validity of the order-in-council which annulled all exemptions under the Military Service Act.

He claims an order-in-council cannot break and annul laws enacted by Parliament.

SOLDIERS HUNGRY FOR NEWS

Washington, June 10.—The American soldier in France has a voracious appetite for news from home, declares Eliot Wadsworth of the Red Cross War Council, who has returned to the capital after three months abroad.

"How did Mayor Thompson make out in Chicago?" and "Who's Police Commissioner of New York?" are questions which Mr. Wadsworth says occasionally supplemented the constant queries about baseball.

"So long as you've come from America within a month, you're a welcome object for attack by any member of Pershing's forces," says Mr. Wadsworth. "A crowd of news-hungry boys will light on you and compel you to ransack your mind for news items concerning every part of the country."

"And, if it happens that a doughboy from Terre Haute or Kankakee discovers in the course of the conversation that you know some one from those towns—well, his joy simply can't be described."

The Sons of Canada will hold a box social and informal dance in St. Andrew's Hall on Friday, June 14. This notice applies to members only.

AUSTRALIANS, CANADIANS, FRENCH AND AMERICANS GATHER IN PRISONERS

(Special to The Daily News)

London, June 12.—The Australian troops in the Amiens sector have struck the Germans a nasty blow. They succeeded in advancing half a mile over a mile and a half front and took nearly two thousand prisoners and 21 machine guns.

Paris, June 12.—The French in an advance on a seven mile front took over one thousand prisoners and some quantity of

war material and a few guns.

The Americans have made a small advance and captured three hundred prisoners. They entered a small wood and took possession of the same, which they held against all counter attacks.

The Canadians are again in action in the principal theatre of the war and have made a slight advance. They brilliantly carried the wood of Belleau and gathered in over three hundred prisoners for their trouble.

20,000 MORE CASES TO CENTRAL JUDGE FROM THE QUEBEC DISTRICT

Ottawa, June 11.—Within the last ten days approximately 20,000 further cases in which exemption was granted by local tribunals have been transferred from the Quebec Military District alone to the Central Appeal Judge for review.

U. S. LABOR SOLIDLY AGAINST AUTOCRACY

St. Paul, Minn., June 11.—The war must go on until Kaiserism is crushed, President Samuel Gompers declared today, addressing the annual convention of the American Federation of Labor. "Otherwise," said Gompers, "the light of civilization will go out forever." The declaration was received with cheers by the delegates.

"Kaiserism and the influence it represents," Gompers continued, "have managed to divide union labor in every country in the world except the United States. But labor in America is organized to fight German autocracy. We will win this war, no matter how long the contest may last, but God grant that the end will come quickly. We will give everything we have to the cause of freedom of the world, but we will not give one cent for private profit out of the war."

WESTHOLME THEATRE

A striking feature of the Goldwyn production of "Fighting Odds," which is presented at the Westholme Theatre tonight, is the number of wonderful gowns worn by Maxine Elliott, the noted beauty and star, who is making her first appearance on the screen.

The fitting, the time and the patience required in getting these gowns was an ordeal Miss Elliott encountered at the very outset of her motion picture career. On her first visit to the Goldwyn studios she was informed by Allan Dwan, director of the production, that she would have to have thirty-one gowns and that she had just twenty-seven days in which to get them.

Accordingly Miss Elliott took an apartment in a downtown hotel to be near her costumers, and for days and sometimes nights she was kept busy fitting gowns. During this period she was also making visits to the studio, so that by the time she had fitted and seen completed the last of the gowns she was tired out.

Some of the most beautiful creations of the modiste's art are seen in the many changes required by her role as the wife of a millionaire manufacturer.

In addition to the splendid feature, there is also shown a very comprehensive gazette.

SEVERE PENALTY FOR OFFENDERS

Mr. R. S. Lennie, registrar for British Columbia, under the Military Service Act, announced this week that stern penalties would be exacted of men who furnished false certificates regarding their age. Several cases had come to notice where evaders had taken this means of getting away from service. Any misleading information on the part of the registrant in the matter of his age is punishable by a fine of \$500, it is stated.

The latest figures show that up to date 1,505 boys of the age of 19 have registered. Registration letters are coming in at the rate of nearly 200 a day. A great many boys of 16, 17 and 18 are registering, and the Registrar has pointed out that this is causing a great deal of extra and unnecessary work, as the names of these youths are not required at the present time. In due course these boys keen to get into khaki will have their opportunity.

TEAMS ARE READY TO GATHER MOSS

A meeting of the moss committee, presided over by Judge Young, was held in the court house last evening, when the appointment of captains was made.

GOOD NEWS FOR MINERS

The bounty of two cents per pound on zinc lately ordered by the Dominion government, should make a marked impression upon the mining activity around Hazelton, where there are so many silver-lead mines and among them some few producers. The bounty is expected to add to the profits of mine operators in British Columbia over half a million dollars a year, and this addition to the before-time profits should easily induce capital to take a flyer in several of the silver-lead properties around Hazelton already well opened up and only awaiting funds to at once become shippers.

The Consolidated Mining & Smelting Company of Trail, B. C., under this new bounty is expected to receive 14 cents per pound for its first-class metal, and this fact should produce the needed "morale"—to quote a word from the front—if any is needed, for the promoters of the customs mill that is projected in connection with the Standard mine, as there is now no doubt of its paying big.

The trail smelter is the main producer of zinc in this province, and its chief patron for this metal is the government.

FOCH'S CLEVER STRATEGY

The few grapes still growing on the devastated banks of the Marne must be exceedingly sour to the foxes Huns, for twice they have been in sight of the promised Paris—promised by Moses Hindenburg—and twice they have had to slump back into the willows and weep bitter tears of disappointment. Both times they were so sure of being able to march victoriously under the Arc de Triomphe on the Champs d'Elysees as did their forebears in 1870, but—a little thing prevented them. They were simply outgeneralled. Their plans were skilfully laid, and they had a preponderance of men and guns and all the paraphernalia of successful warfare. But the great French commander-in-chief was too much for them, and again the

last of the robber kings, His Supreme Sacerdotal Majesty the Kaiser, had to bow his throbbing brow into the crook of his withered arm.

On March 22nd Hindenburg had the Allied forces practically at his mercy, and no doubt chuckled accordingly. On the afternoon of that day it became quite apparent to the Allied generals that unless something most extraordinary happened to delay the advancing Germans, the French army could not arrive in time to check their progress. The moment was the most crucial one that had yet arrived. Failure to stop the Germans immediately meant almost an open march straight into Paris. The situation was hurriedly reported to the commander-in-chief that evening, that the enemy was concentrated in immense force at Ham for the continuance of his advance on Paris. Without an instant of hesitation and with a similar flash of genius to that with which he saved Verdun, General Foch turned to his chief and ordered every airplane squadron within striking distance on the French front, whether a fighting or a bombing squadron, to proceed immediately to Ham and bombard and machine-gun the German concentrations there. Then the telephones buzzed and in a few moments hundreds of flying machines were headed for Ham. They arrived from all parts in a continuous stream and throughout nearly the whole of the night continuously rained down bombs and poured in a constant hail of machine gun bullets into the German army then waiting the final order for the grand rush on Paris. The deluge from the sky was without precedent in history, and its results only learned later from prisoners. Enormous losses were inflicted on the German troops, the entire army thrown into dismay and confusion, and two divisions especially were practically put out of action. Thus the advance was delayed, the exhausted English were relieved and the French begun the battle before Noyon that resulted

in completely Russianizing German plans for the Russianization of the Allies on the western front. Hurrah for Foch and the air-men!

SCHOOLS OF WARFARE

General Foch is the representative of one school of warfare, the theory of the German generals represent another. In both there is a grave risk. But as warfare itself entails a great risk, because there are so many subsidiary details which may affect the ultimate issue, risk must be regarded as a necessary part of the business. The German idea is to push through at all costs and break up the opposing forces by constant attacks. The French idea is to give ground slowly, inflict the maximum losses possible, and wait until the enemy's offensive has exhausted itself.

Under such circumstances the German aim is to force General Foch to throw in his reserves to stop the offensive and crush it, and the French aim is to force the Germans to throw in their reserves to maintain the offensive. That is the objective of both sides stated in its simplest form.

FOOD SITUATION BAD IN TURKEY

London, June 8.—Reports concerning the food situation in Turkey show that conditions continue bad and that there is a great deal of suffering among the people, some of the poorest among the people being forced to depend to a large extent on chestnuts and pumpkin seeds owing to food shortage and high prices.

In certain districts those on the middle Euphrates, for example, harvest prospects in the beginning of this year were bad and starvation was anticipated unless the government helped. A certain amount of seed was at the government's disposal, but local Turkish authorities were obstructing and dishonest and would not issue the full amount, while the newly appointed seed commissioners found difficulties placed in their way. Under these conditions the success of the harvest is highly problematical.

In other districts harvest prospects have been spoiled by the actions of the troops. In the areas east of the Jordan the Turks turned their animals loose in the crops when they were practically ripe, causing wholesale destruction.

The Turkish soldiers themselves have suffered from the food shortage. The bread ration should be 900 grammes daily, but the men rarely receive more than 480 grammes. The meat ration is 250 grammes three times a week, but on the few occasions when meat has been available the ration has not approached 250 grammes.

Registration a Stupendous Task

One Day - SATURDAY - June 22nd

The task undertaken by Canada to register every male and female, British or alien, of 16 years and over, residing in the Dominion, is of stupendous proportions. The machinery that has been created is most comprehensive in its scope, and the information procured through this registration will be in such form as to make it possible for Canada to mobilize every available unit of human energy, either in the "First line of defence" or at home in support of her Allies.

Five million people will have to be registered in one day. It is estimated that one hundred and fifty thousand workers will be required to take this registration, or an army five times the size of the first Canadian contingent.

It will require at least six minutes to register one person. A Deputy working continuously can take only ten registrations per hour, or eighty for an eight hour day. On Registration Day the booths will be open fifteen hours; the Deputies therefore will have to work in two, possibly three shifts.

In order to make registration convenient and easy, 25,000 places of registration will be established throughout Canada, with from one to twelve booths at each place. The location of these booths will be advertised by Proclamation and through the local press.

Canada will be divided into 230 districts, each in charge of a Registrar, who is instructed to surround himself with a competent staff of deputies and assistant deputies in whatever numbers the work may require.

Volunteer Workers Urgently Needed

To carry out this vast programme efficiently and completely, intelligent voluntary helpers are essential. Individuals, women's societies, clubs, fraternal societies, church organizations and municipal organizations are asked to help.

The Board appeals with confidence to the patriotism of every Canadian man and woman and to the pride which every locality must take in doing its own work well, to furnish the necessary number of volunteer deputies and assistants.

Interpreters of all languages will be required. Those qualified should apply to the Registrar of their district at once.

Issued by authority of
Canada Registration Board

Superintendent of Registrars---C. E. Mahon, 45 13th Avenue W., Vancouver, B.C.
Registrar for Skeena District---O. H. Nelson, Prince Rupert, B.C.
