NEWS SEEMS VERY RE-ASSURING ALTHOUGH PRESENT BATTLE VERY IMPORTANT

THE FRENCH IN BRILLIANT COUNTER-ATTACK GAIN SOME IMPORTANT POINTS

ENEMY HALTED IN THEIR EFFORTS TO GAIN COMPIEGNE SUDDENLY, AS WAS THEIR INTENTION—BELLOY NOW BACK IN THE HANDS OF FRENCH AND LINES IMPROVED AT CERTAIN POINTS

(Special to The Daily News)
Paris, June 13.—A brilliant counter-attack delivered by the French left has undone most of the advantages gained by the Germans in the first two days of battle, threatening as it does the flank of the enemy column marching on Compiègne, from which they are now only six miles distant.

The point thrust forward by the Germans in the centre is extremely precarious, unless the enemy succeeds in widening his salient by gaining possession of the heights on either side.

On Monday the Germans captured Mery Plateau on their right and Thiescourt Wood on their left. Last night they lost the former and their efforts to improve the situation on the left have been baffled by the French who held firmly. If anything, the German centre is in greater danger than before, inasmuch as it has advanced further. After three days of fighting in which the Germans suffered severe losses, the general situation remains unchanged. The enemy force on the east bank of the Oise is not sufficient to place in jeopardy the allied positions on the other bank between the Oise and Aisne. At the other end of the battle line, Montdidier plateau, the situation has not been changed.

French Spirit Unconquerable.
The ground over which the French advanced in their counter-attack on Tuesday was literally piled with German dead. In retaking Belloy and reaching the southern outskirts of St. Maur, the French surprised the Germans. The Germans retired in disorder. The ardent and valiant counter attack proved that the French have not lost their hitting power. The Germans in striking along the entire Oise front yesterday evening were blocked at every point by the desperate French resistance. The battle is still raging.

Premier Issues Statement.
Paris, June 13.—A reassuring impression has been given by the statement of Premier Clemenceau in the senate, regarding the situation on the western front. He said that decisive results had been obtained at certain points with minimum forces and minimum losses, while the enemy losses have been enormous. He laid stress on the resources of the French army which at certain times had crushed the enemy offensive. Details of the admiral American effort to despatch new forces were given.

U. S. Air Programme Good.
London, June 13.—There will be some surprise on the western front when the American air programme is in full working order.

CHARGE OF ARCHBISHOP DU VERNET TO SYNOD

Archbishop Du Vernet's Charge Delivered Yesterday to the Synod of the Diocese of Caledonia.

The closing of one great epoch and the opening of another is always a most critical time. There is so much to be done in the way of readjustment. At the present moment we are in a transition state. One age is passing away, another age is just beginning to dawn. It is inevitable that in such a transition period all weighty things should be thrown into the melting pot not to be destroyed for the genuine metal still remains, but to be recast. Among these weighty things we must include all things connected with our religion and our church.

The first thing which should be thrown into the melting pot is our "unhappy divisions." The great war has forced us to see that while the Church of Christ is divided we can never win the world for Christ. Our branch of the Church of Christ, while making its contribution to the whole body of some vital elements, such as the historic episcopate, the Church Year, the beautiful liturgical service, should be willing to be itself enriched by receiving other vital elements from other branches of the Church of Christ, such as the Presbyterian Church, and the Methodist Church. The now separate parts of the Church Catholic must get together if we are to fulfill our mission in establishing upon earth the kingdom of righteousness and brotherly love. While at present there seems but little prospect of the Roman Catholic Church relaxing from its rigid exclusive policy, there is the brightest hope that, taught by the war, the leading Protestant Churches will very soon close up their ranks and stand shoulder to shoulder in the great fight for freedom and truth.

The next thing which should be thrown into the melting pot is our Church services. Why is it that such a small fraction of the population of any place attend church? Some would blame the clergyman; others the people. No doubt a portion of the blame should go to each, but if it were possible in some way or other to make our church services, including the prayers, the singing, and the preaching, better adapted to meet the needs of the age there would undoubtedly be a better attendance at church. We have a rich and noble heritage in our order of public worship and in the prayers of our prayer-book, many of them hallowed by centuries of use, but while keeping strictly to the order of our prayer book, which is based upon a psychological principle, we need more liberty in adapting the length and character of our service to the special occasion. As this is a missionary Diocese and nearly all our clergymen are engaged in pioneer work our experience is almost identical with that of our chaplains at the front. We have had to shorten services and use extempore prayer in many cases, gradually training the people to appreciate the fuller and richer service. The war has led us in all our churches to offer up special prayers in closest touch with our present needs, and we must never go back from this custom. While we shall encourage the singing of some parts of our church service we should say in a simple, natural manner other portions. There should be nothing artificial about our tone when we humbly confess our sins to Almighty God. The note of sim-

SERIOUS REVOLT AMONG AUSTRIANS

London, June 11.—A serious revolt has broken out among the Austrian troops concentrated on the east front, according to an undated despatch from Kieff, received through Moscow today.

placity and sincerity should ring through all our church services. Another thing which should be thrown into the melting pot is our church starchiness. We have sadly failed as a church to exhibit the genuine spirit of Christ, which is the spirit of fellowship and good comradeship. Class distinction should have no place in the church. As we kneel side by side in public worship we are all children of the one Heavenly Father. We all partake of the one loaf. "We being many are one body in Christ." Having learnt this lesson in the church we must carry it out into our daily business, and endeavor to spread abroad in every department of life the spirit of mutual service—each for all and all for each. This is what the world is waiting for—the witness of the universal church to the universal brotherhood. The strife between Capital and Labor can only be brought to an end by the spirit of mutual consideration based upon the recognition of the highest welfare of the whole body. The tyranny of the Czar will only give place to the tyranny of the Bolshevik unless the principle of true democracy, which includes the whole people, is made supreme.

With our church machinery overhauled and in good working order and with the motive power, the spirit of Christ, strong within our hearts we should endeavor as a church to bring our religion to bear upon the practical concerns of social and business life. Both in this province and also throughout the Dominion much has lately been accomplished in the line of helpful legislation. I refer to the prohibition of the sale of intoxicating liquor, the provision for juvenile courts and the care of neglected, delinquent and defective children, the enfranchising of women who will now have more influence in great moral questions, and the safeguarding of some of the rights of labor. Such helpful legislation needs to be followed up with voluntary work, for example, our church people should lead the way in providing some social substitute for the bar-room, and in securing Christian women for juvenile court judges, social service workers, etc.

Some of the laws passed by the Dominion Government as a war time measure should be retained after the war as they make for a better order of things. Excessive business profits should always be taxed within reasonable bounds for the benefit of the whole community. This is one of the sanest ways of guarding against an excessive inequality in the distribution of wealth. The Ilders Act is enabling the police to deal with a parasite class of men who are a disgrace to any community, and is helping these very men to become useful citizens. It should never be repealed, but enforced with discretion.

Some of the laws on economy and against waste should also be continued in the interests of the nation. It is well that together with the spreading abroad of a true spirit of service, which is the duty of the church, there should go hand in hand a reasonable amount of pressure brought about by a compulsory law.

Many social and industrial reforms have been hastened by the great war but if these are to be

GREAT SPIRIT OF FRANCE IS SHOWN TODAY

Clemenceau Gives Good Impression—American Filers very Important Now.

(Special to The Daily News.)

Paris, June 13.—French troops made a further advance around Belloy and St. Maur and have captured four hundred additional prisoners, some cannon and machine guns, and also reoccupied Montecourt, and part of Brussiar to the north of the Marne.

While most of the German attacks were repulsed the enemy succeeded in getting a foothold on the southern bank of Matz river and occupied the village of Mellicocq and the adjoining heights. Today's fighting will probably decide which side will have the victory in this present battle, says Henry Bidou, the military critic, reviewing the situation. He says that the fighting is taking a classical turn in which each side has won on one wing, making the scales now even.

By their counter-attack the French stopped the enemy from carrying out his plan and at the same time assured themselves of a better line of defense.

American Strength Increasing.
Boston, June 13.—Lieut-General Thomas Bridges, who is now in the United States, declared last evening among other things that the flow of American troops to Europe now was in excess of a quarter of a million a month.

ITALIANS SINK TWO AUSTRIAN DREADNOUGHTS

Bold Attack on Enemy Base by Italy's Sailors Results in Big Game.

(Special to The Daily News.)

Rome, June 13.—Two small Italian torpedo boats, defying the entire Austrian battle fleet, sank two of the largest dreadnoughts in the Austrian navy on Monday morning and returned safely to their bases, it was officially announced today.

The daring exploit occurred off the Dalmation Islands on the Austrian side of the Adriatic. In the pursuit which followed an Austrian destroyer was badly damaged. Two torpedoes were fired at the first ship in the line and one torpedoed at the ship immediately following. The Austrian dreadnoughts were sunk on June 10th, and was one of the most daring episodes in naval warfare of the present time.

The torpedo boats passed boldly through the line of enemy destroyers and attacked the two leading ships of the battle squadron, which steamed forth in fleet formation.

NOTES FROM THE ANGLICAN SYNOD

The Synod of the Diocese of Caledonia convened in St. Andrew's Church yesterday at 10:30 a.m. The following members of the Synod were present. Rev. Canon Rix, Rev. W. F. Rushbrook, Rev. A. T. Price, Rev. W. Sweetnam, Rev. J. Gillett, Rev. W. Leversedge, Rev. W. S. A. Larter, Rev. W. Crarey, Rev. T. J. Marsh, Rev. W. A. Gray, and Messrs. L. M. de Gex, H. B. Cross, G. A. Taylor, W. E. Fisher, J. Jones, J. A. Godding, C. W. Homer, A. E. Bazzett-Jones, W. C. Orchard, W. E. Burritt, N. McNeil, E. McCroskie, J. Shirley, Alfred Adams, and Miss E. J. Soal. The Bishop announced the appointment of W. F. Rushbrook as Rural Dean of the newly constituted deanery of Prince Rupert. The Synod expressed its regret at the resignation of Rev. J. Field, and also registered its sorrow on learning of the death of Rev. A. J. Hall.

The evening session was of a public character and was opened by the Bishop, who referred to the fact that the Church of England was the first to commence work upon this coast—so far back as 1868 at Port Simpson.

The discussion which was joined in by the clergy and laity, followed along the lines of Christian giving, social service, and Sunday School work.

The Synod was adjourned and opened again this morning with a quiet hour preparatory to the discussions and considerations of the closing sessions.

WAR CONFERENCE

All the representatives from the various British dominions have now arrived in London for the Imperial conference, which is likely to begin its sessions today or tomorrow. The conference about to meet will be more representative than any former meeting of the kind, representing more political parties and therefore a greater variety of political opinion. The Imperial delegates are both Liberal and Conservative. Two Conservatives and two Liberal Unionists are present to represent Canada. Australia has sent her premier, who was head of the Labor government before the coalition, and with him the man who was formerly Liberal leader. New Zealand contributes a member of each party to her coalition. Native representatives of India will appear with the head of the India office, which will be a new and startling feature of such gatherings.

War problems of great urgency will occupy the conference and these include the more economic use of the Empire's shipping, the speeding up of shipbuilding, which daily becomes increasingly the key of the Allied position, and the more effective distribution of the Empire's food and metal resources. Another matter will be the more direct participation by the overseas dominions in the administration of the service.

Among other war problems for consideration, two dominate all others. First is the question of the German colonies overlooking Australia, New Zealand and South Africa. Ministers from the southern dominions, notably Premier Hughes and Premier Botha, have declared in every recent utterance that Germany has proven herself so poisonous a neighbor that the outskirts of the Empire must be finally freed of her presence. War, with its terrible sacrifices, would lose half of its meaning for them, they say, unless this is assured. They hope the Canadian ministers are of the same mind and that the British Government and the Allies

generally will realize that no other course is admissible.

In this connection several difficult questions arise. Is the Empire now going to negotiate on the American principle of concession for concession? Are Canada and Australia to negotiate separately as Canada did the Franco-Canadian convention, thus imperilling a new measure of inter-Imperial economic co-operation, or jointly as partner states in the Empire, each possessing plenipotentiary powers from the sovereign? Finally, are negotiations to be left primarily in the hands of the foreign office which in 1911 negotiated the non-terminable anti-British preferential treaty with Japan or shall the negotiations be directly controlled by the Imperial War Cabinet?

The second predominant question concerns the new treaty relations of the Empire nations and the forty-four world powers whose most-favored-nation treaties with Britain are now being renounced to clear the way for a new Empire and inter-Allied measure.

In any event the Imperial War Cabinet with the dominion premiers as permanent members, each responsible to his own parliament, is destined to take a permanent place in the fabric of the commonwealth empire of nations which is now being quietly evolved.

CHARGE OF ARCHBISHOP DU VERNET TO SYNOD

(Continued From Page One.)

come truly effective in our midst we need more than ever the shedding abroad in our hearts of the spirit of Christ, which is the spirit of sacrifice for the good of others.

In this vast Diocese, consisting of the northern half of British Columbia, we are hampered at present in our church work by a shortage of both men and money, caused largely by the war, though we have also to record the retirement through ill health of one of

our veteran missionaries, the Rev. John Field, who for 32 years has been in charge of our Hazelton Mission. By spreading the work of our available clergymen over as large a territory as possible and linking up missions we are endeavoring to "carry on." Our church people in this Diocese must learn to do much more in the way of self-support. We must make more use of our earnest laymen in conducting religious services, remembering the priesthood of the laity. Under the present stress and strain it may become necessary for our clergymen to follow St. Paul's example and labor with our hands to minister in part to their own necessities, but while this might allow them to conduct Sunday services it would not allow them time for pastoral visiting, and in a pioneer country like this where large congregations can never be expected it is the man to man and heart to heart work which tells most for God and humanity.

The outlook for religion is exceedingly bright, but it must not be the selfish religion with which in the past we have been too much accustomed, it must be the religion of Christ, the religion of social service, the religion of fellowship; fellowship with God through His Son, fellowship with one another through the spirit of His Son, the spirit of brotherly love, the spirit of ministering membership, the spirit of Him who said: "The Son of Man came not to be ministered unto, but to minister and to give His life a ransom for many."

WOULD CHECK EXODUS TO BRITISH COLUMBIA

Regina, June 12.—The necessity of municipal authorities taking some steps to stem the tide of exodus of retired Saskatchewan farmers and business men to British Columbia was emphasized by Lieut.-Governor Lake in his address of welcome last week to the delegates of the thirteenth convention of the Union of Saskatchewan municipalities.

His Honor advocated the devising of some scheme to furnish more utility facilities and to encourage the development of beautiful surroundings in the towns and villages. Some seventy-five delegates representing the cities, towns and villages of the province are registered at the convention.

"A Dollar In Time, Saves Nine"

A VISIT to The Bank of British North America for the purpose of depositing part of your earnings, becomes a pleasant and profitable habit, when once you have acquired it.

The dollar you use to open an account in the Savings Department in turn saves others, as the habit of saving grows.

Constipation Cured in His 78th Year without Drugs

Did you ever know any person who was permanently cured of Constipation by taking drugs of any kind? Drugs seem to assist Nature at the time, but as time goes on larger doses are necessary until the trouble becomes chronic.

Internal Bathing is the only real cure for Constipation. It keeps the Colon or Lower Intestine free from all accumulation. Soon the system performs its regular functions unaided, and there is no further trouble.

Mr. A. McLean, of Conger Lumber Co., Parry Sound, writes:—"I have been troubled with Constipation for the last 35 or 40 years, and could not pass one day without taking medicine. I have used the "J. B. L. Cascade" since getting it 21 days ago, with wonderful results. Will recommend any person to use it."

Dr. Chas. A. Tyrrell of New York, invented and perfected the "J. B. L. Cascade" for Internal Bathing, which is today the only efficient means of accomplishing the desired results. Dr. Tyrrell has published an interesting book on Internal Bathing, called "Why Man of Today is Only 50 Per Cent. Efficient," which can be had free for the asking of Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St. He will also be pleased to show and explain the "J. B. L. Cascade" to you.

Registration a Stupendous Task

One Day - SATURDAY - June 22nd

The task undertaken by Canada to register every male and female, British or alien, of 16 years and over, residing in the Dominion, is of stupendous proportions. The machinery that has been created is most comprehensive in its scope, and the information procured through this registration will be in such form as to make it possible for Canada to mobilize every available unit of human energy, either in the "First line of defence" or at home in support of her Allies.

Five million people will have to be registered in one day. It is estimated that one hundred and fifty thousand workers will be required to take this registration, or an army five times the size of the first Canadian contingent.

It will require at least six minutes to register one person. A Deputy working continuously can take only ten registrations per hour, or eighty for an eight hour day. On Registration Day the booths will be open fifteen hours; the Deputies therefore will have to work in two, possibly three shifts.

In order to make registration convenient and easy, 25,000 places of registration will be established throughout Canada, with from one to twelve booths at each place. The location of these booths will be advertised by Proclamation and through the local press.

Canada will be divided into 230 districts, each in charge of a Registrar, who is instructed to surround himself with a competent staff of deputies and assistant deputies in whatever numbers the work may require.

Volunteer Workers Urgently Needed

To carry out this vast programme efficiently and completely, intelligent voluntary helpers are essential. Individuals, women's societies, clubs, fraternal societies, church organizations and municipal organizations are asked to help.

The Board appeals with confidence to the patriotism of every Canadian man and

woman and to the pride which every locality must take in doing its own work well, to furnish the necessary number of volunteer deputies and assistants.

Interpreters of all languages will be required. Those qualified should apply to the Registrar of their district at once.

Issued by authority of
Canada Registration Board

Superintendent of Registrars--C. E. Mahon, 45 13th Avenue W., Vancouver, B.C.
Registrar for Skeena District--O. H. Nelson, Prince Rupert, B.C.

And just to think that we have not come to our longest day yet! Can anyone tell when it is time to go to bed these days? Or does the sun ever go down at all?

Mrs. Donald McClellan received the word that her husband is at present engaged behind the lines assisting in the defensive work of the Allies. He is identified with the Engineers.

Yesterday afternoon quite a large number took advantage of the opportunity of going over to the salt lakes, as the Alice B. is in commission again. The water was fine and good accommodation would make this spot very attractive.

Mr. G. E. Gulick, formerly Swift's representative in this city, is now in training in Texas. He reports that the weather is very hot and that he would enjoy a bit of the freshness off of the hills around Rupert. His wife is with her mother in Michigan.

The songs which the children sing at the Baptist church on Sunday are songs which have been used at a children's anniversary in the old land where so much is made of children's day. In some places it is quite a common thing for schools to celebrate their sixtieth or seventieth anniversary, and quite recently the children of one school celebrated the one hundred and eighteenth anniversary. You will enjoy the children in these songs.

What a disappointment! To be ready for something with colored glasses, and to laboriously smoke glass in order to view the eclipse, and then—ah then, to wait and wait, and eventually to give it up. Well that is just what happened at Vancouver. For was it not cloudy there in that fair city of the south? And did not the multitude suffer just this, that they had to get their reports of the eclipse from Prince Rupert and other cities where the sky was fair? It is said that the next eclipse is in 1945, so prepare now to welcome a delegation from the south to witness the spectacle of the heavens.

Since work was started on getting airplane lumber from British Columbia spruce the Queen Charlotte Islands have rapidly come to the front, according to A. E. Munn, who is associated with two companies cutting airplane spruce at Cumshewa Inlet. Although these camps have been opened but two months, twenty donkey engines are working with a force of 250 men and logs which will scale four million feet of airplane spruce have been put into the water. Mr. Munn says if some of the white pine sawyers of the east who are used to getting all the clear and straight lumber from the logs, were brought here they would be valuable in the spruce mills.
