## GERMANS MAKE HUGE COUNTER ATTACK

### POURING MANY DIVISIONS INTO SALIENT TO RESCUE THOSE NOW BOTTLED UP

#### VIOLENT COUNTER-ATTACK BY ENEMY ON A WIDE FRONT TO STEM ALLIES' ADVANCE

**"AT ALL COSTS" ALLIES' PROGRESS HAS TO BE STAYED  
--ENTENTE REINFORCEMENTS PRESSING  
FORWARD STEADILY**

(Special to The Daily News.)  
Paris, July 26.—The Germans have started a counter-attack of great violence along a semi-circular front extending from the Ourcq river to the region immediately southwest of Rheims. They are said to have orders to stem the allies' advance at all costs.

**Allies Reinforced.**  
Paris, July 26.—The British, French and Italian troops, themselves well reinforced to meet the new turn in affairs, are steadily pressing forward at nearly all points of the battle line west of Rheims, while east of the cathedral city, the Polish contingent are declared to have carried out successfully their enterprise against the enemy, in which more than two hundred Germans were captured.

**Oulchy Surrounded.**  
The important point of Oulchy Le Chateau is slowly but surely being surrounded. If the Germans lose their hold on this important position, it will be impossible for them to hang on to Ferre-en-Tardenois. Military observers here are convinced that Ludendorff will shortly launch a great counter offensive. His objects are clear, from between Soissons and Rheims, and his counter offensive on a large scale would lessen the demoralizing effect of the projected retreat upon the people, while at the same time he would hope to regain the initiative.

**American Progress.**  
Washington, July 26.—Further progress by the American troops in their attacks between the Ourcq and the Marne is reported by General Pershing yesterday. North of Jaulgonne, the Americans have penetrated the enemy's positions to a depth of from one to two miles.

**A Third of the German Army.**  
London, July 26.—On the western front of the Soissons-Rheims salient, the allied forces have advanced to a depth on the average of three miles on a twelve-mile front during the last two days. Reports show that the German High Command thus far, have had engaged sixty-four divisions in battle, representing groups of the German armies from Flanders to Alsace. Sixty-four divisions represent nearly a third of the whole German army.

#### POLICE COMMISSION MEETING YESTERDAY

At three o'clock yesterday afternoon the police commission held their regular meeting in the city hall, his worship Mayor McClymont presiding.

After the routine business, the questions of cider and fines took up most of the time. It was brought out that what was usually sold as cider throughout the province was not cider at all, but a by-product of the manufacture of vinegar. This will make the alleged cider taste differently the next time. The city clerk said that there were not enough apples in the province to make anything like the quantity of cider which was being sold. Correspondence was read which showed that the factory was putting a pasteurising machine, which would prevent the percentage of alcohol from increasing as the cider aged. It was felt, however, that the proper place to prevent such intoxicating liquor being sold was at the factory. Men who had been fined here had no idea their cider was over the limit, yet the onus was upon them for selling it. In the matter of fines for selling intoxicating liquor, it had been intimated that the severest penalty would be asked for; in future, which was imprisonment. Fines delinquents \$50 each time might be good for revenue purposes, but it was no good for controlling the sale. Six months' imprisonment the commissioners considered would be a better deterrent.

The city clerk had taken the matter of the disposal of seized liquor up with the department at Victoria, and had received a legal opinion on some points which he characterized as "utter rot." He considered that the question of this manufacture of alleged "cider" was a big one. "When a man gets a glass of good whisky he knows what he is getting, but when he gets this stuff, he does not know what it is." Possibly the city clerk should have used the past tense regarding the whisky.

The barrels which contained the "mother's wine," which was recently seized, had been asked to be returned to where they were seized from. They, however, were confiscated along with their contents, and will be disposed of. The hundreds of bottles had been sold after their contents were emptied out.

#### PRINCE RUPERT BRINGS NO MAIL TODAY OWING TO VANCOUVER STRIKE

The postoffice today is a quiet place, just like a Thursday, when there are no boats in or out. The postal employees in Vancouver have gone on strike, and late on Wednesday night, when the boat left there, no mail was ready. Vancouver is quite tied up, and the postoffice there is piled up mountain high with mail bags arriving from various places.

Only the postmaster and two young ladies at the wickets were to be seen in the big Vancouver office on Wednesday. Mail carriers, sorters, clerks, collectors and dispatchers were all on strike, although it was expected that they would be back on the job yesterday. Business throughout the city was paralysed, and the business men were everyone of them sending telegrams to Ottawa urging that the differences which have arisen be settled at once.

Even if the settlement were to come yesterday, it will take a long time to overtake the accumulation of mail, and delays may be expected for the next week or two.

A dispatch received this morning intimates that the employees of the Edmonton postoffice have resumed work, their differences there apparently having been settled, but it is added that the staffs of the postoffices further west are holding out for the appointment of a conciliation board to adjust their differences. As this is what the Minister of Labor recently advocated, threatening to prosecute workers who struck, or employers who locked their men out, without first having their differences placed before a conciliation board, there ought to be little difficulty in having one appointed.

#### AUTOMOBILE DRIVERS MUST BE OF FULL AGE

Among the other things which were mentioned at the meeting of the police commission yesterday afternoon was the matter of youngsters driving automobiles. It was alleged that there were several very young persons, between the ages of twelve and seventeen driving merchant automobiles. No one under seventeen was permitted by law to drive a car. This matter was brought up in connection with the speeding of automobiles to the danger of the lieges in certain sections. One firm in town had been told that their driver was too young, while other firms as well kept their youngsters on.

It had been said that there were no men for the jobs, said Commissioner Macdonald. "Well, I know of a returned soldier applying for one of them, and when he went, he was told there was no job. Neither there was, when a boy under age had got it, at less money." One youthful driver had got up a party of other boys and girls and had gone joy riding in Section two at night. The decision of the commission was that "if the law says no one under 17 shall drive a car, no one under 17 shall do so."

Commissioner Hill enquired whether it was the car or the driver who was licensed. It is the driver, of course, but he had seen several different men driving the same car at different times, and they did not all have licences, either. Which makes another job for the police.

#### SETTLEMENT BEEN REACHED IN LABOR TROUBLE AT ANYOX

(Special to The Daily News.)  
Anyox, July 26.—The strike which has been on here since last week has now been called off, and all the troubles have been successfully adjusted. The men are returning to work today, and have accepted the company's scale of wages.

#### JUSTICIA WAS SUNK DESPITE ESCORT OF MANY DESTROYERS

(Special to The Daily News.)  
London, July 26.—The White Star liner Justicia which was sunk off the north coast of Ireland, was attacked by submarines, which singled her out from the other ships accompanying her. She was being escorted by destroyers, too, according to an announcement made by the Admiralty last night. Land had just been lost sight of when the first torpedo struck the big vessel. The damage from this first missile, however, was not great enough to sink the ship, and she would have been able to be towed to port. While the tug was in attendance, two more torpedoes were loosed at the Justicia from a submarine which was never seen, and it was not until sixteen hours after the first attack that the final torpedoes hit the ship, causing her to sink. There was plenty of time to transfer the crew of the vessel to rescuing ships.

#### THE IDLERS ACT DOES NOT APPLY TO STRIKERS

"I shall not advise any prosecution, and I am sure that none will be made under the Idlers Act, of any person or persons on strike," said City Clerk Peters yesterday afternoon at the meeting of the police commission in response to an enquiry by Commissioner Macdonald. The matter was brought up by the case of a man who quit the Seal Cove sawmill on Saturday in sympathy with the engineers on strike. It is alleged that when he was being paid, someone phoned to the police office to grab him as an "idler." Not knowing how he stood under the act, this man went back to work on Monday, when he found out.

Commissioner Macdonald protested against the police being made use of in any such manner, and sought the legal opinion of the city clerk on the subject. The intimidation of workers was no part of the duties of the police.

#### BRITAIN HAS ENOUGH WHEAT IN RESERVE

London, July 25.—Wheat reserves in Great Britain are now absolutely safe, even if the war lasts a considerable time, said John R. Clines, the food administrator, in a speech last night at Manchester. This situation will enable the government to release a greater quantity from reserves and also to improve the quality of flour soon.

Mr. Clines also announced an impending improvement in the meat supply. He said that instead of the present 70 per cent. imported and 30 per cent. domestic, the proportions would be reverted but that the amount of meat imported would be nearer 20 than 30 per cent.

#### MUNITION WORKERS IN ENGLAND MAY GO OUT ON STRIKE, TOO

London, July 26.—Some perturbation is being caused in England through strikes in several cities among munition workers. Unless their demands are met, it is threatened that the strike will extend to many other branches of munitions work.

#### AUSTRIAN PAPERS MAKE COMIC READING REGARDING DEEFAT

Milan, July 24.—The latest Austrian and German newspapers received here afford truly delicious reading about the Austrian defeat. The Dayerische Kurrier brands Field Marshal Conrad von Ebelendorf as a rash, stuck-up ignoramus, who has never shown any mark of military ability, and expresses the hope that Emperor Charles will have the good sense to place him on the shelf forthwith. Even Generalissimo Boroevic failed to give any proof of unusual capacity, says the German organ, and after the miserably poor showing made by other Austrian commanders the Kaiser has no option but to force Austria to accept a German general staff, lest the whole Teutonic alliance become involved in military disaster.

The Leipzig Tageblatt defines the worst fault of the Austrian marshals as their having failed to obtain even the initial success of a general surprise. On the other hand the Dresdner Neueste Nachrichten seeks to console the German disappointment at the "slight want of success of the Austrian arms" by the assurance that Austrian reinforcements are already on the march to give terrific battle elsewhere, and that much sooner than might be expected Italy will learn how inferior she is and how untenable are her positions.

The most comic side of the picture is found in the fact that the supreme commander, Archduke Eugene, anticipating an overwhelming Austrian victory, had struck a special medal bearing his own effigy on one side and the Austrian eagle with wings outspread over the Dolomites to the sea on the reverse, with inscription "Indivisibiliter ac inseparabiliter." In view of the impossibility of distributing it among the routed armies this pretty medal has been put on the market at the price of 7 kronen.

#### FISHING ARRIVALS

The Mark Well is in port today with 7,000 lbs. halibut; Deep C., No. 1, with 13,000, and the Cellarhead with 2,000. No sales had been made up till noon. Yesterday the Alten was in with 45,000 lbs.; Tartooosh, 28,000; Dolphin, 18,000; Nellie, 6,000; Alten 10,000; Ringleader, 7,000; Venus, 8,000; Tillicam, 8,000; Gjoa, 8,000; Alliance, 10,000; Unity, 3,000, and the Clara N., with 7,000 lbs. The price realized yesterday was around 13 1/2 cents.

(Special to The Daily News.)  
With the French Armies in the Field, July 26.—The Allies continue their relentless pressure against the pocket into which the German Crown Prince's inglorious "Friedensturm" has led hundreds of thousands of hopeful German soldiers. One point after another is giving away before this great pressure. The measure of resistance which the Germans are able to offer, which is the measure of the danger of their situation, is shown by the fact that about forty-three of their divisions are now within the salient. Inside the pocket, the seriousness of the German predicament has been increasing daily for the past five days. Fere-en-Tardenois, which is the centre of all railways and highway traffic from the south, is being heavily bombarded by the allied artillery and airmen, but notwithstanding the inroads of the allied troops at this point, there is no sign of the impending retreat on the part of the Germans.

**Extraction Impossible.**  
London, July 26.—The Pall Mall Gazette says that rumors are current that the British troops have made a great advance in the direction of Fismes, midway between Rheims and Soissons. It is also reported that the French forces have advanced on another part of the Aisne-Marne salient and that the armies of the Crown Prince have been placed in such a position, out of which extraction seems impossible.

**More German Reserves.**  
Paris, July 26.—More reserves are being thrown into the battle by the Germans. These were unable to prevent the allies from making appreciable headway yesterday. The important point of Oulchy Le Chateau has been surrounded. Along the Ourcq river, on both sides of the stream, the French and Americans are now knocking at the gates of Fere-en-Tardenois, which is an important railway junction and storehouse for German war supplies. Further south, in keeping with the results in the north, on the Marne, the results are also satisfactory.

## THE GRANBY STRIKE

The question of closed towns, which was one of the planks in the pre-election platform of the present government at Victoria, is again brought into the forefront in connection with the strike which is now on at Anyox among the late employees of the Granby Company. It has long been the argument of the company that they would be saved from much labor trouble were they permitted to retain their township "closed."

The fact remains, however, that that is, with the sole power of authority over everything that goes on there in the hands of the company's officials. They could say who would be permitted to land on the company's wharf, and who should stay in their town. If they did not wish any particular person or persons to converse with their employees, well, they could not. As a result, the miners had no union at Anyox, the company dealing with the men individually, instead of collectively. However, notwithstanding this argument for a "closed" town, the individuals this time have apparently acted with collective unanimity, union or no union. And the fact of Anyox being closed is one of the things which the alleged strikers are taking up. The great majority of the workers at Anyox have declared against the policy of closed towns. They are working there and they know the disadvantages.

The fact of this strike, which has tied up operations completely, has exploded once and for all the idea that the fact of a town being closed will automatically dispose of labor troubles, or troubleshooters. More than that, there is not one single democratic argument left to bolster up any argument in support of the principle of closed towns.

The party of officials who passed through here on Sunday made the most of their talk about disloyal I. W. W. agitators getting into Anyox and causing disaffection amongst the men. They were quoted to some length in the Vancouver press when they got there, but they could not point to the apprehension of any of the I. W. W.'s. In a closed town, where the company can exercise such a close supervision over its workers, this ought to have proven a

very easy job, but so far as we can learn, it has not been done yet.

The real fact seems to be that the one sided argument at Anyox, whereby the company owns everything, and no one else anything except the wages which he works for, had so affected public opinion there that a break was bound to come. There may be other contributory reasons, too, as well, on both sides.

The fact remains, however, that the people of Northern British Columbia at the last election declared against the principle of closed towns, and made their declaration at the polls. The government has been dealing with the matter, but found difficulties in the way. The government has already proved themselves adept in surmounting difficulties. That's what they were elected for, and in many things they have proved their worth in so doing. This is one difficulty which so far they apparently have not managed to overcome. But now, its up to them to get busy again, particularly on the closed town proposition. Besides, the Allies need the copper.

## A THRILLING STORY OF THE GREAT NORTH

"North of 53" to be screened at the Westholme Theatre this evening is one of the great photoplays produced by William Fox. With Dustin Farnum as the star, the success of the play is assured, and tales of the great and cold Northland are always much appreciated. There is a distinct charm around most of the tales of the north, and in this one it is definite enough. There will also be a two-reel Fox comedy featuring Hank Mann. There comedies have always been popular here, and there is reason to believe that tonight's comedy will sustain the reputation of the series.

There was a wise Spear-woman lived in a shoe. For her many children she knew what to do: She made them most happy with Wrigley's for all— It kept them in trim at a cost very small!

### WATER NOTICE (Use and Storage).

TAKE NOTICE that George H. Boulton, whose address is Port Clements, B. C., will apply for a licence to take and use 5,000 gallons and to store 50,000 gallons of water out of an unnamed creek which flows northerly and drains into Stewart Bay, Masset Inlet.

The storage dam will be located at a point about 300 yards from the mouth. The capacity of the reservoir to be created is about 50,000 gallons and it will flood about 0.05 acres of land. The water will be diverted from the stream at a point near the dam and will be used for steam purposes upon the land described as Block 35, Lot 746.

This notice was posted on the ground on the 29th day of May, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed at the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder, or with the Commissioner of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is June 1, 1918.

G. H. BOULTON, Applicant.

## SOFT TREATMENT OF INTERNED GERMANS IS OBJECTED TO

The manner in which the alien enemy is taken care of at the internment camp at Vernon is enough to turn the blood in the veins of the citizens of this country to a boiling stage, remarks the Kamloops Standard-Sentinel, which is quite warm about it. Passing their camp a week ago we saw men inside of the barbed wire enclosure strolling about amidst flowers and lawns, jauntily swinging their canes, attired in tennis shoes, white trousers and the latest style of negligee shirts, with Panama hats, appearing as if they were the honored guests of the nation, instead of being a bunch of contemptible dogs who are placed in confinement for fear of work that they might do against the safety and interests of Canada during this war. One burly chap with a stomach like a beer keg and cheeks like a Berkshire pig, was reclining in a luxurious camp chair, attired in flannels of the latest design, and to protect him from the slight warmth of a mild day in June a handsomely decorated canopy covered both his florid brow, the curvature of his rotund stomach and his large Teutonic feet. Ye gods, think of the picture, and then imagine the husbands and sons of Canada fighting against the Hun bullets in France and Flanders, suffering the severest hardships of the war, and day after day in large numbers paying the supreme sacrifice for their patriotism and loyalty to the British Empire. Would that we might have the power for twenty-four hours to say what should be done with these indolent and luxurious guests of the nation. If that could be, every one of them who is fit for doing his bit for the increased production of Canada would be performing an honest day's work in the garden or in the field. Such treatment to the alien enemy in our own country while our boys are being butchered by the Huns, or working in their mines and fields under the supervision of Simon Legrees, who strike with the club or the butt of the gun and give the order afterward, is a policy that is arousing throughout Canada a feeling of extreme condemnation.

My Master's gone to get her some,

### SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.  
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.  
Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 50 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.  
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

### TOWNSHIP PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to

Re Application No. 9822-1

TAKE NOTICE that application has been  
made to register John E. Berg of Ketchikan,  
Alaska, as owner in fee under a Tax Sale  
Deed from the Collector of the City of  
Prince Rupert, bearing date the 28th day  
of November, 1917, of ALL AND SINGU-  
LAR that certain parcel or tract of land  
and premises situate, lying and being in  
the Municipality of the City of Prince Rup-  
ert, B. C., more particularly known and  
described as Lots thirty-eight (38), and  
thirty-nine (39), Block thirty (30), Sec-  
tion eight (8), Map 923. You are re-  
quired to contest the claim of the tax  
purchaser within 35 days from the date  
of the service of this notice (which may  
be effected by publication in the Daily  
News, and your attention is called to sec-  
tion 36 of the "Land Registry Act" with  
amendments, and to the following extract  
therefrom:—

"and in default of a caveat or certificate  
of his pendency being filed before the reg-  
istration as owner of the person entitled un-  
der such tax sale, all persons so served  
with notice, . . . and those claiming  
through or under them, and all persons  
claiming any interest in the land by virtue  
of any unregistered instrument, and all  
persons claiming any interest in the land  
by descent whose title is not registered  
under the provisions of this Act, shall be  
for ever estopped and debarred from set-  
ting up any claim to or in respect of the  
land so sold for taxes, and the Registrar  
shall register the person entitled under  
such tax sale as owner of the land so  
sold for taxes."

AND WHEREAS application has been  
made for a Certificate of Indefeasible Title  
to the above-mentioned lands, in the name  
of John E. Berg.

AND WHEREAS on investigating the title  
it appears that prior to the 13th day of  
October, 1916 (the date on which the said  
lands were sold for overdue taxes), you  
were the assessed owner thereof.

FURTHER TAKE NOTICE that it is  
the same time I shall effect registration in  
pursuance of such application and issue a  
Certificate of Indefeasible Title to the  
said lands in the name of John E. Berg,  
unless you take and prosecute the proper  
proceedings to establish your claim, if  
any, to the said lands, or to prevent such  
proposed action on my part.

**HUNGER REAL CAUSE  
OF GERMAN ILLNESS**

Amsterdam, July 25.—The ill-  
ness from which thousands of  
persons in German industrial  
districts are suffering, and which  
has been described as Spanish in-  
fluenza, is really an illness due to  
hunger and consequent exhaus-  
tion, The Telegraaf says it has  
learned.

In various industrial towns in  
Westphalia and the Rhine prov-  
inces, the newspaper reports,  
many deaths are occurring daily,  
and the hospitals are full of pa-  
tients suffering with this malady.  
The German potato ration, the  
newspaper adds, has been reduced  
to between one and one-half and  
two kilograms weekly per person,  
and the new potato crop has not  
yet been distributed.

As the result of the situation  
brought about by under-nourish-  
ment and sickness, it is stated,  
various branches of German in-  
dustry are being considerably  
hampered in the work.

**METAL FOR MUNITIONS  
IS NOW SCARCER WITH  
GERMANS THAN EVER**

Amsterdam, July 25.—After ex-  
propriating door handles, window  
latches, pots and pans and copper  
and brass utensils for munition  
purposes, the German military  
authorities have turned their at-  
tention to public buildings with  
copper roofs. Among the scores  
of places being stripped are the  
famous Brandenburg gate, Prince  
Albrecht's palace, a dozen  
churches and synagogues and  
several museums. Some of the  
best-known hotels, restaurants,  
department stores and private  
mansions are being forced to give  
up their copper roofs.

**AUSTRIAN NOBLEMEN  
SELL THEIR ESTATES**

Italian Army Headquarters, July  
25.—Austrian prisoners confirm  
the reports that a large number  
of noblemen are selling off their  
estates in Bohemia and Moravia  
because they fear a revolution. It  
is said that Count Czernin, former  
Austro-Hungarian foreign minis-  
ter, has sold for 3,600,000 crowns  
all his lands in Bohemia, and that  
the purchaser was a bank with  
agricultural interests. It is also  
stated that Count Henry Clam-  
Martinic, former Premier, ex-  
pressed the opinion in Vienna that  
a revolution was probable in  
Moravia, and he therefore was  
selling his lands there.

The police commission yester-  
day agreed to call for tenders for  
new uniforms for the police staff.  
Commissioner Macdonald was  
against the policy of sending out  
of town for supplies, provided  
there was no suspicion of the  
merchants holding up the au-  
thorities.
