DEFENSE STIFFENING AT SEVERAL POINTS ON LINE

ENEMY STRINGING BARBED WIRE NORTH OF FISMES — BERLIN REPORTS LIVELY FIGHTING — LINE OF RESISTANCE BEING ORGANIZED TO PROTECT WITHDRAWAL

With the French Army in France, August 12.—The German defence was stiffening this morning in the region southwest of Noyon. There are indications that General von Hutier is organizing a line of resistance on the general front of Roye-Lassigny and Noyon to protect the withdrawal of the great masses of munitions and supplies.

With the American Armies on the Vesle, August 12.—Allied aviators report that the Germans are digging in opposite the Franco-American line along the Vesle river. The enemy is stringing barbed wire along the hills northwest of Fismes.

Position Stabilized.

London, August 12.—Today the situation south of the Somme was becoming more stabilized. There has been no important Allied advance in the last twelve hours, and at some places a slight retirement has been necessary. The fighting has been desperate and of a ding dong character, and for the moment any big advance on this front is not expected.

Berlin Report.

Berlin, August 12.—There has been lively fighting at many points on the whole front from the Yser to the Ancre river. Enemy thrusts and partial attacks have been repulsed. Yesterday the British and French after bringing strong reserves into action, continued their attacks from the Ancre to the Avre astride the Somme. East and southeast of Montdidier we repulsed strong French partial attacks.

OFFICERS MISLED

Washington, August 12.—The startling rapidity of the British and French advance in Picardy, coupled with new successes in Flanders and on the Vesle river, produced the impression among some army officers that the decisive moment, perhaps the final battle, was approaching.

LUMBER ADVANCES

Another advance in the price of lumber to correspond with the freight rate increases has been announced by British Columbia millmen equal to ten per cent over the present list price.

German Prohibited.

Sioux Falls, August 12.—The State Council of Defence has issued an order prohibiting the speaking of the German language over the telephones in South Dakota.

NOW PRISONER IN GERMAN CAMP

Lieut. C. V. Evitt, Late of This City, Now Prisoner of War in West-Prussia.

PREVIOUSLY MISSING AND REPORTED KILLED

Word has been received in the city that C. V. Evitt, who lived here as early as 1908, and who left to fight for the cause of liberty and justice, has been taken prisoner by the Germans, and is now interned at Graudenz in West Prussia, some forty miles from the border of Poland. His commanding officer, writing, says that Lieut. Evitt was last seen when entering an enemy trench at 1:30 on the morning of May 15, his patrol accompanying him. Nothing was seen of him again, and he was reported missing and presumed killed. Now word has been received by Mrs. Evitt that he is a prisoner of war.

His C. O. writes that Lieut. Evitt led his men in the raid with great gallantry, and his fate is deeply regretted.

Yesterday morning in St. Andrew's Church, where Lieut. Evitt was formerly a prominent worker, suitable reference was made to him as a former member.

Although down twice by the Medical Board here, he was so keen to fight that he and Mrs. Evitt went to England, where his health improved, and where he was able to join the Imperial forces. Mrs. Evitt came to Prince Rupert as a bride, and the greatest sympathy will be felt for her in her husband's exile in the hands of the enemy.

FISH ARRIVALS

The Venus was in yesterday with 26,000 lbs. halibut; Jennie, 7,000; Advance, 20,000; Ranier, 7,000; Reliance, 16,000; Lincoln, 10,000; Gjoa, 8,000; Doreen, 15,000; Unity, 4,000; Joe Baker, 10,000; Ringleader, 7,000. Today the Cape Spencer had 6,000; Bravo 6,000, and Spencer 6,000 lbs.

The ice situation has been somewhat relieved today by the arrival of three car loads of ice brought into town by the G. T. P. The Cold Storage Co. also was able to send out three independent boats yesterday, and four others today.

The C. P. R. Steamer Tees arrived in port yesterday having a hulk in tow. It is some considerable time since this old flagship of the C. P. R. fleet was here. She brought some 200 tons of cement for Albert & McCaffery, Ltd., and left for Alice Arm with some more heavy freight. The Tees will likely be in here again tomorrow.

Mr. and Mrs. V. Casley, of the Empress Hotel, sailed this morning for Vancouver.

TWO MINISTERS TO BE HERE FRIDAY

Attorney-General Farris Expected To Come With Hon. T. D. Pattullo; Meeting May Be Arranged.

VISITORS WILL GO AS FAR AS TERRACE

Word has been received to the effect that Attorney-General Farris will not arrive here until Friday of this week and that Hon. T. D. Pattullo will come with him. It is expected that arrangements will be made for a public meeting here at which Mr. Farris will be the chief speaker.

The party will in all probability proceed from here to Terrace on Saturday morning and Mr. Farris will address a meeting at that place Saturday evening.

Mr. Farris is one of the best orators in the Government and if a meeting is arranged at which he is to speak, doubtless there will be a good attendance.

Hon. Dr. King will not stop off here on Wednesday but will go through to Skagway, returning here on Monday next.

W. Goldbloom was among the passengers leaving town for Vancouver this morning.

REPRESENTATIVE OF FOOD BOARD HERE

Edward Parnell of Winnipeg is Rounding Up the Bakers With a View to Better Supervision.

Among the visitors to the city this morning en route to Skagway was Edward Parnell of Winnipeg, a representative of the Canada Food Board. Mr. Parnell owns a number of bakeries in different parts of the country and he, in conjunction with Messrs. Strachan of Montreal, and Bredin of Toronto, have been appointed to supervise the regulation of the bakeries. They work without salary.

Speaking of the work, Mr. Parnell said that there was a supervisor for the province and another for each town. The local bakers are to be regulated by the local supervisor working under the provincial supervisor. It is expected that there will be no difficulty in securing the carrying out of the regulations without any prosecutions, as the bakers are anxious to co-operate with the Government in the work of conservation. The small places as well as the big ones are steadily lining up.

Mr. Parnell will be back from Skagway in a few days.

BRIDGES OF THE SOMME RIVER WERE DESTROYED BY THE ALLIED AIRMEN

London, August 12.—The Allied airmen have been very busy within the last few days. An official communication issued by the Air Ministry last evening announces that an air raid has been made on Karlsruhe, and that there was an explosion in the station there.

Paris, August 12.—All the bridges across the Somme, between Peronne and Ham, a stretch of about fifteen miles, have been destroyed by Allied aviators.

MARGARET WESTMAN IS LEADING LADY

Margaret Allen Comes Second in Contest for Queen of the Coming Carnival.

Three candidates for Queen of the Prince Rupert Carnival have entered the field and it is not yet too late for others to start. You are urged to nominate your favorite candidate in order to take advantage of an early start.

The standing of the different candidates is as follows:—

Margaret Westman 2585 votes
Margaret Allen . . . 1295 "
Flora Jones (Anyox) 100 "

The committee in charge is sparing no effort to make this a success and appeals to the citizens of this town and district to aid in every way possible, as success to this venture spells success to merchants and others, so let each one make it his personal duty to help along the good work.

BIG BANQUET TO F. W. DOHERTY ON HIS LEAVING

About One Hundred Representative Local Businessmen to Give Send-off to Band Manager.

There will be a big banquet at the Prince Rupert Hotel on Thursday evening when about one hundred representative businessmen of the city will gather to say good-bye to F. W. Doherty who has recently received promotion and will leave the city.

Mr. Doherty is deservedly popular and everyone regrets that he has found it necessary to leave, but he will not go without a proper good-bye.

CANADIAN-AUSTRALIAN FORCES TAKE CHAULNES

IS KEY TO SOUTHERN LINE OF GERMAN SALIENT — FURTHER PROGRESS ON PICARDY BATTLEFRONT — FRENCH PUSH FORWARD AND THE BRITISH MAKE PROGRESS

London, August 12.—Chaulnes, the important railroad town in the heart of the Somme battlefield and the key to the southern line of the German salient, has been captured by Australian and Canadian troops.

Further progress was made last night by the British on their left flank on the Picardy battlefield north of the Somme. On the right flank of the Allied front the French have pushed forward on the south bank of the Avre and have reached the outskirts of Lechelle Staurain seven miles northeast of Montdidier.

TOTAL PRISONERS NUMBER 16,000

London, Aug. 12.—The number of prisoners taken so far in the Allied offensive in Picardy is now estimated at 16,000, including more than 1,000 officers. More than 500 guns have been captured, according to latest advices.

VENTURE BROUGHT NEWS OF FISHING

Interesting Passengers Aboard Including "Pat," the Captain's Airedale Who is Privileged Character.

Bringing word of the big catches of salmon at Alert Bay, Namu and Skeena points the steamer Venture, Captain Noel, arrived Saturday night. The canneries are all working at their full capacity and the only difficulty is that some of them have run short of cans. So far however they have been able to handle all the fish offering.

Most of the canneries are too busy to ship fish yet, but the Venture is calling for 3,000 cases at one point on the southbound trip.

Among the passengers on the Venture were Captain W. A. Bissett of the Vancouver Dredging & Salvaging Co., who boarded the steamer at Lowe Inlet and is on his way to Vancouver. His firm is salvaging the machinery from the Ravalli, the steamer that was burned to the water's edge on June 14 last. Already a good deal of the iron and steel work has been removed to the wharf at Lowe Inlet.

J. D. Anderson, a mining man of Spokane, who joined the boat at Hartley Bay, has been investigating the Drum Lummon mines. He reports that he finds everything in good shape.

W. T. Tankin, formerly a haggagamen on the G. T. P., was on his way from Surf Inlet to Vancouver. With him was W. G. Thomas. Mrs. A. H. Vanderkley and Mrs. W. Tickle, who have been visiting at Claxton, are returning to Vancouver.

"Pat" the Captain's Airedale terrier, made his third trip to Prince Rupert at the weekend. He is the first passenger ashore at every point and directly he hears the whistle he is aboard again, ready for the next leg of the journey. As the vessel stops at a good many points Pat has plenty of variety in life. He is under the Captain's care, while Mrs. Noel is visiting in Victoria.

The Venture was late in leaving Vancouver because she had to be hauled out to have her propeller repaired when in that city.

BIG SHIPMENT OF AEROPLANE SPRUCE LUMBER

Salmon and Herring From Alaska Sent East Over the G. T. P. Labelling Done Here.

Yesterday, although it was Sunday, was a busy day in Prince Rupert. Scows brought in 395,000 feet of aeroplane spruce to load not less than twenty cars. As long as fighting goes on in France on Sundays the aeroplane material must go forward too.

This evening a shipment of eight cars of mild cured herring from Port Walters is being sent through to New York. This herring goes by way of the G. T. P. to Buffalo and then by the New York Central. Already to date there has been thirty-five cars of herring shipped through this port.

S. S. Dispatch of the Seattle Transportation Company is expected with a load of salmon from Ketchikan and the Tillamook will bring a cargo of the same commodity tomorrow, all to be shipped east by the railway.

A lot of the salmon is labelled here and there is a big force of men here working on it, getting the shipment ready for the market.

Scars of Townsite Beginning to Heal.

The scars that the pioneers made on the Prince Rupert townsite are beginning to heal. Whenever man goes into the forest with the axe he spoils the plan of nature and an unsightly gap is the result. The use of powder and pick and shovel also has an effect which is most jarring to the artistic sense. Nature is always busy however and soon covers up the work of the vandal and beautifies the place once more. That is what is happening in Prince Rupert.

Take a stroll out into Section Two at the West end. There the young trees and bushes are growing up and are almost hiding the stumps. The alder bushes are covered with dark red berries, vying with the partridge berries for showiness. The red huckleberries show brightly among the green and everywhere there is something interesting. The rocks are already beginning to assume more natural colors, somewhat in keeping with the general beauty of the scene. There is a great opportunity for someone to write a natural history of Kaien Island which would be as interesting as White's Selborne.

Co-operation in Selling Lumber Output.

The value of co-operation in all lines of business is set out particularly in regard to the lumber business, in the most recent number of the Pacific Coast Lumberman. In discussing the question of export trade after the war he suggests that so far as the selling end is concerned the mills would do well to pool their interests.

It is well known that in the past individual effort in selling lumber has been a dismal failure. Bottoms have been secured only in San Francisco and the American interests have always secured these when they were needed and when Canadian firms were needing them badly and had been waiting long. Apparently there was a pooling of interests down there.

Discussing the question the Lumberman says:

"A combination of the largest mercantile houses of New York has been formed in accordance with the principle that co-operation is the panacea for many trade ills. What is good for New York should be good enough for British Columbia, and we, therefore, look with confidence to the taking of measures in the immediate future that will give effect to a suggestion of this kind, believing that when the members of the trade in B.C. come to study the tremendous possibilities that lie before them under such a scheme as the formation of what might be known as an exploitation company or trading company—call it whatever you will—they will accord it that support which such a scheme merits and which its importance demands.

"It is patent to everyone who gives the matter serious consideration that if the mercantile companies in New York can pool their interests, so to speak, with a view to developing and extending their sphere of operations, the lumber firms of British Columbia can do the same thing. Furthermore, it is useless to argue that what was good enough a decade ago is suitable for present-day requirements or that it cannot be improved upon. Other nations have already seen to that. Immediately south of the boundary line a combination such as has been referred to has been in operation for some time with marked success. British Columbia alone stands aloof though why there should be this conservative attitude taken by men who have the most magnificent asset of the province in their control is more than we can comprehend.

"An exploitation company would be nothing more or less than a selling agency for every lumber firm in B.C. It would be in a position to quote offhand, knowing beforehand the various mills' capacity for any order that came from either the old country, India, South Africa, Australia or New Zealand. Its officials would have all the data at their fingertips, and the organization would represent, not merely a section of the trade, but every mill in the province. There could thus be, it will be seen, no suggestion of any favoritism shown to one firm or any preferential treatment given to another. All would stand on an equal footing.

The duties of such an organization would be to keep in close touch with the movements of vessels along the Atlantic and Pacific seaboard, to note the trend of freight rates and market prices, to be in a position to give a firm quotation no matter from what part of the globe the inquiry emanated, and to see to it that the British Columbia forest product ranked as high as the product of any other country in every market in the world. Each mill would be assigned its share of the order which it could properly and efficiently handle. No more and no less. In brief, those would be the functions to be discharged by the company. The bringing into existence of such a body is for the lumbermen to decide, but it cannot be too strongly urged upon them that every day's delay means a greater handicap when the real trial of commercial strength takes place. And that may be sooner than many of us suspect."

Curious Custom of Japanese People.

When a Japanese leader fails he usually commits suicide. That is the custom of the country. When a Britisher fails he grinds his teeth and vows to make good yet. That is if he is made of the right stuff. Self obliteration is no part of the Anglo-Saxon makeup. Recently a Japanese merchant steamer went ashore off Cape Flattery. The captain committed suicide because he felt himself disgraced.

This Japanese custom is not caused by fear, for the Japanese are not by any means a cowardly race. Failure is the one thing they fear, and they do not often fail. They are making good as a nation, rising steadily to a place of mastery. Already they dominate the Pacific Ocean and their influence is steadily growing. They are a virile people and when they come to the point where they refuse to give up because of a failure they will have attained one more point in the stage of development.

IDAHO MINERS ARE OUT ON STRIKE

Boise, Idaho, August 10.—A request for troops in the Coeur d'Alene mining district was made in a telegram to Governor Alexander from six of the biggest lead and zinc producing mines in the northern part of the state.

All the miners at the Morning and Gold Hunter mines have quit work and the strike threatens to spread to the other producing properties which furnish nearly 40 per cent. of the lead output of the United States.

A majority of the strikers were earning from \$7.65 to \$11.65 a day on contract work. They struck for an eight-hour day and other concessions.

"The food crisis is grave and urgent, beyond possibility of exaggeration."—Sir Robert Borden

City and Town Labor Must Save The Food Situation

THE heart of the food production problem is labor, and the heart of the labor problem is the city dweller. City people must produce food if Canada is to do her full duty in support of our soldiers and Allies.

Men who are needed on farms must come from the cities and towns—there is no other source. The Provincial Departments of Agriculture co-operating with the Canada Food Board, can place thousands of men on good farms in this Province. They are needed at once.

Those who remain at home must also Grow Food

A War Garden will not excuse the man whose rightful place this year is on a farm. But War Garden service is needed from those who can do no more.

and Vacant Lot cultivation will leave the farmers free to grow more food for export.

Every pound of home-grown vegetables, produced on city land by city labor, will be a positive addition to the food supply. Home Garden

The vegetable garden offers an opportunity for service to men whose circumstances make it impossible for them to work on a farm, to women, to boys and girls—to city people generally.

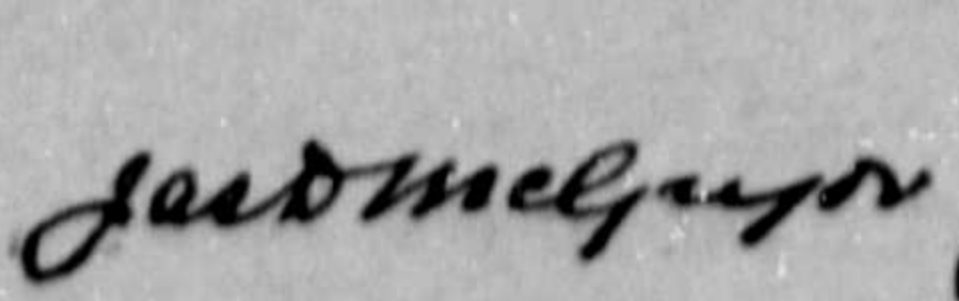

Be a Food Producer This Year

If there is a garden or vacant lot movement in your community, associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign. Write to your Provincial Department of Agriculture for pamphlets on gardening and additional information.

SOCKEYE RUN BEING STUDIED BY AN EXPERT

Dr. Gilbert of Stanford University Sheds Light on Life History of Interesting Food Fish.

BELIEVES THEY DO NOT GO FAR INTO THE PACIFIC

Speaking of the poor run of sockeye on the Fraser River this year, Dr. Gilbert of Stanford University, in an interview told how serious the situation was, and how some stern measures would have to be adopted if the salmon industry is to survive. The recent international fish conference that sat here some time ago decided to mark fish in order to determine how long they took to journey to the Fraser. One thousand salmon have been marked and turned loose at each of certain stations along the route. The method of marking is to punch a hole in the tail of the fish, and then snap in a button made after the fashion of a snap glove fastener.

Where They School.

It has been decided that the sockeye school off the Swiftsure Banks, near Cape Flattery. Although it has not yet been determined, Dr. Gilbert believes they do not go very far into the Pacific, but separate at the banks for the different feeding grounds. After they have come together again off Flattery they head up the Straits, following the coast of the island exclusively, and not going to the American side on this stage of their journey. Arriving off Trial Island, they head across for the American side and follow up the coast to the Fraser, penetrating this river many hundreds of miles.

The Fraser and the Skagit river are the only streams up which the sockeye go, so that fishermen concentrate on these places and, naturally, more of the run are caught there. Other species are not so particular, so that their spreading out to all the smaller streams insures that many shall escape the nets. The sockeye will only enter a stream that has a lake.

To Prevent Annihilation.

One fish that was marked and let loose off Sooke was caught again off the Fraser four days after. The recent commission has not yet made its report as to what should be done to prevent the annihilation of the sockeye, but Dr. Gilbert suggests several methods. When the time of the salmon's journey is determined, the close season, which exists for a certain time each week, could be so arranged at each of the different fishing stations that all salmon passing Sooke, for example, during the closed hours would pass the other stations in turn during closed hours and thus have a guaranteed passage to the river. Another method would be to divide the season in half, fishing half the season and closing for the other half. It has also been suggested that fishing be stopped for a period of four or five years so that the fish may increase their numbers. In the past there has been a good season every four years, but things have now reached the stage where this good season cannot be expected.

Like Killing Cohoes.

Dr. Gilbert is against the catching of "salmon trout" off Cape Flattery, and at other points. He says that it is equivalent to killing calves extensively and thus stopping the supply of beef.

Fish caught on the Swiftsure banks have stomachs full of food, but when they reach Sooke they have ceased to feed, and eat nothing from the time they leave Flattery until they reach the spawning grounds. Fish that are hatched in a certain river always return there to spawn, so that each river has its own race of salmon. As these fish do not feed when on their journey they carry oil to sustain them, and the amount of oil in a salmon varies according to the length of river which it will swim up, so that it is possible to determine a fish's spawning grounds by the amount of oil in its flesh.

When asked about the chances of a sardine industry, Dr. Gilbert said that it was not at all desirable, as the fish caught would not be sardines, but young fish, thus depleting seriously the food supply.

Dr. Gilbert is an authority on the habits of fish and he has been

PROCLAMATION

GEORGE the FIFTH, by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India.

To all to whom these presents shall come or whom the same may in any wise concern,—GREETING :

A Proclamation of conditional amnesty respecting men belonging to Class 1 under the Military Service Act, 1917, who have disobeyed our Proclamation of 13th October, 1917, or their orders to report for duty, or are deserters or absent without leave from the Canadian Expeditionary Force.

E. L. NEWCOMBE, Deputy Minister of Justice, Canada. WHEREAS considerable numbers of men belonging to Class I under our Military Service Act, 1917, called out on active service in our Canadian Expeditionary Force for the defence of Canada under Our Proclamation of 13th October, 1917, although they have thus become by law soldiers enlisted in the Military Service of Canada,

AND WE DO HEREBY STRICTLY WARN AND SOLEMNLY IMPRESS UPON ALL SUCH MEN, and as well those who employ, harbour, conceal or assist them in their disobedience, that, if they persist in their failure to report, absence or desertion until the expiry of the last mentioned day, they will be pursued and punished with all the rigour and severity of the law. SUBJECT TO THE JUDGMENT OF OUR COURTS MARTIAL WHICH WILL BE CONVENED TO TRY SUCH CASES or other competent tribunals: and also that those who employ, harbour, conceal or assist such men will be held strictly accountable as offenders and subject to the pains, penalties and forfeitures in that behalf by law provided for their said offence.

Have failed to report for duty as lawfully required of them under the said Military Service Act and the regulations thereunder, including the Order in Council duly passed on April 20 last,

Or have deserted, Or absented themselves without leave from our Canadian Expeditionary Force,

And it is represented that the very serious and unfortunate situation in which these men find themselves is due in many cases to the fact that, notwithstanding the information and warning contained in Our Proclamation aforesaid, they have misunderstood their duty or obligation, or have been misled by the advice of ill-disposed, disloyal or seditious persons.

AND WHEREAS we desire, if possible, to avoid the infliction of the heavy penalties which the law imposes for the offences of which these soldiers have thus been guilty, and to afford them an opportunity within a limited time to report and make their services available in Our Canadian Expeditionary Force as is by law their bounden duty, and as is necessary for the defence of Our Dominion of Canada.

Provided however that nothing contained in this Our Proclamation is intended to release the men aforesaid from their obligation to report for duty as soon as possible or to grant them immunity from arrest or detention in the meantime for the purpose of compelling them to perform their military duty; Our intention being merely to forego or remit the penalties heretofore incurred for failure to report, absence without leave or desertion incurred by those men of the description aforesaid who shall be in the proper discharge of their military duties on or before the said twenty-fourth day of August, 1918.

Of all of which Our loving subjects and all others whom these presents may concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. Witness: Our Right Trusty and Right Entirely Beloved Cousin and Counsellor, Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Keighley, Knight of Our Most Noble Order of the Garter, One of Our Most Honourable Privy Council; Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of Our Royal Victorian Order, Governor General and Commander-in-Chief of Our Dominion of Canada.

At Our Government House, in Our City of OTTAWA, this FIRST day of AUGUST, in the year of Our Lord one thousand nine hundred and eighteen, and in the ninth year of Our Reign

By Command,

Thomas Mulvey

Under-Secretary of State

NOW KNOW YE that we in the exercise of Our powers, and of Our good will and pleasure in that behalf, do hereby proclaim and declare and cause to be published and made known THAT THE PENALTIES OF THE LAW WILL NOT BE IMPOSED OR EXACTED as against the men who belong to Class 1 under Our Military Service Act, 1917, and who have disobeyed Our Proclamation aforesaid; or who have received notice from any of Our registrars or deputy registrars to report for duty on a day now past and have failed so to report; or who, having reported and obtained leave of absence, have failed to report at the expiry of their leave, or have become deserters from Our Expeditionary Force, PROVIDED THEY REPORT FOR DUTY ON OR BEFORE THE TWENTY FOURTH DAY OF AUGUST 1918.

JUST CAMOUFLAGE

They talk of introducing goats into Prince George. Well, well, what is the matter with Prince Rupert that this town cannot get any?

Many of the notices of meetings still ask for a "full attendance," yet these are prohibition days.

Blocks of ice are cut in Lake Kalthyn during the winter and they help to preserve Prince Rupert fish in summer time. Now the Omineca Herald announces that a block of land on the lake is to be cut up. What use will chunks of that stuff be to Prince Rupert fishermen?

A cow was killed by a train at New Hazelton and the beef was sold at ten cents a pound. Now the people of that prosperous community are praying for another cow to be bumped or perhaps a fat steer for a change.

Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy "SPECIAL" if tires which somewhat resemble it in appearance resembled it in efficiency?

FROSTS INJURE PRAIRIE CROPS IN THE NORTH

Both Wheat and Oats Will Be Light, But Late Rains Improve Grass.

EXTENT OF DAMAGE NOT YET FULLY KNOWN

Conditions in the West have improved in so far as supplies of grass and hay feed are concerned, but evidence continues to pour in as to the damage done by the frosts, says a recent crop report. It is still impossible to state the extent of the damage, but in a number of sections in Northern Alberta the crop is already being plowed up, the farmers figuring that it is no use leaving it, as it is too late in the season for it to come back, even for feed. While the hay situation has been improved by the rain, the oat situation has been materially impaired by the frosts so the feed supply of coarse grains may be short.

While all the reports have not been made public, the Deputy Minister of Agriculture of Saskatchewan, Hedley Auld, made a public statement that the damage to crops in the northern sections is very grave indeed, and these are the very areas where the crops promised the best. Much of the wheat has been caught in the blossom stages. There has been no frost of a similar character since 1888 and even in that year the frost came ten days later.

That year no statistics of crop were kept by the Provincial Government of Manitoba because there was not bread and seed in the province. This year Manitoba has suffered the least so far, and there are sections in all the provinces where the crops are still excellent and untouched and it is felt that there is no question of there being bread and seed, but there is some question as to the amount for export to the Allies. While no one wants to preach blue ruin, it is felt by public officials generally that the truth should be known in order that citizens may govern their use of wheat accordingly.

SPACE GRABBERS

Among ministers are to be found a few who strive for newspaper notices, "space-grabbers," who attack anything and everything with destructive, not constructive criticism, obtaining notoriety as long as they can continue to be spectacular. Some of the veterans want the soldiers' publications to pursue just the same course, blind to the fact that the end is bound to be speedy oblivion, whereas sane constructive criticism wins a paper the respect necessary if it is to wield telling influence. The preacher or paper that degenerates into a chronic knocker soon forgets that there is good as well as evil in the world, and neither of them are then fitted to fill their purpose as leaders of public thought.—B. C. Veterans' Weekly.

FRIENDS THOUGHT HE WOULD DIE

"FRUIT-A-TIVES" Conquered Dyspepsia and Restored His Health.

MR. ROBERT NEWTON.

Little Bras d'Or, C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches, and did not sleep well at night. I lost so much weight—going from 185 pounds to 146 pounds—that I became alarmed and saw several doctors who, however, did me no good. Finally, a friend told me to try 'Fruit-a-tives'.

In a week, there was improvement. The constipation was corrected; and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT NEWTON.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements or respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 2 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$200 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 2 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he resides in it in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 40 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, or formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of the whole parcel of the land, if divisible, the payments already made will be in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional on payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to G. R. NADEN, Deputy Minister of Lands, Victoria, B. C.

TRAIL SMELTER ORE SHIPMENTS

In point of tonnage for ore received at the Trail smelter the year, 1917 and 1918 are running neck and neck—each year for the seven expired months showing a few tons over 200,000. The actual figures are 200,237 tons received in seven months for 1917 and 200,145 received for the same period in 1918. Last year was supposed to be one of the most prosperous years in Trail, while at present business is just running along normally, as indicated by the ore tonnage receipts, the barometer which really counts in Trail.

July for this year shows an increase in ore and concentrates received here of nearly 3,000 tons over June, and ore from a number of mines has been coming in quite steadily all this month. With general conditions more settled, it would appear that this gradual increase should continue from this on. Of course, the totals would have been much larger had the Rossland gold-copper mines continued shipping this year as usual.

Appended are figures, by months, for each month of 1917 and 1918, being of interest for comparative purposes:

	1917	1918
January	36,570	27,404
February	40,967	33,989
March	42,949	41,725
April	25,909	37,029
May	15,969	21,162
June	17,129	17,958
July	20,744	20,874
Totals	200,237	200,145

SIR SAM HUGHES IS SUBJECT OF CHARGES

A copyright story printed in the Vancouver Daily Province gives an account of charges which have been made in London by the Daily Chronicle against Sir Sam Hughes, Major-General Garnet Hughes and Grant Morden of the Prudential Trust Co. The charge is of manipulating funds in connection with the British Cellulose Co. The Chronicle alleges that the Company obtained unfair assistance and concessions from the War Office and from the Ministry of Munitions. The Government has promised to inquire into the whole question.

CHARLIE CHAPLIN HERE IN "A DOG'S LIFE"

The Divine Charlie is here again. Today he is to be seen in "A Dog's Life," positively the finest bit of funny stuff he has done yet. Charlie is always funny but this time he has fairly outdone himself. In Vancouver and Victoria recently this film had a big run, crowds going to see it at every performance. It is a three-reel run and is a side-splitter throughout the time.

Along with Chaplin is a film that has attracted a great deal of attention. It is Sir Gilbert Parker's "The World for Sale." It is a story that breathes the very

essence of the out-of-doors and the charm of gypsy lore, together with a love story of unusual interest. The scenes are laid in Canada and deal with the feud between two small townships, one a French-Canadian, the other strongly English, as well as with the adventures of Max Ingolby, who is one of the three men in love with charming Freda Druse, the heroine. How he wins out although handicapped by the temporary loss of his eyesite and the deep hatred of his two rivals, makes a thrilling photoplay which will linger in the memory as a fragrant wholesome breeze from Romany itself.

NEW PULP MILL

The first pulp mill is to be erected in Alaska at Funter Bay. The mill will have a capacity of twenty tons of pulp daily, while the sawmill will be installed in four units of 25,000 capacity each. Thomas Latimer is to have charge of the installation. Part of the work of the new mill will be to provide aeroplane spruce for war work. It is expected to have it in operation this fall.

Local News Notes

Good assortment of pipes at Gil's.

G. A. McNicholl left this morning on a trip up river.

O. Hanson returned to the city last evening from his tie camp at Sheraton.

Mrs. J. T. Allen, of Third Ave., returned to town last evening after spending a holiday at Kitwanga.

Fred MacDonald returned to the city this morning by the Princess Alice, after a trip to Vancouver.

Father Cocola was among the passengers on the Princess Alice here this morning. He will visit Wrangell.

Mr. Young, the Methodist minister at Kitselas, who has been visiting in the city, returned home this morning.

T. H. Arneill, manager of Kelly Douglas & Company's branch here, left this morning for Edmonton on a holiday trip.

Launch Alice B. for the Salt Lakes leaves Prince Rupert Boat-house every hour commencing 10 o'clock on Sundays. Round trip 50 cents.

Mrs. P. I. Palmer and family were among the passengers on this morning's train for up river. They will spend several weeks at Terrace while the berries are still in season.

J. A. Thompson, of the Canadian Fish and Cold Storage Co., returned to the city last evening from Terrace where Mrs. Thompson and family are spending the holidays.

W. T. Muse is again in town after putting in several weeks' work driving piles for the Munitions Board at Captain's Cove on Banks Island. Captain's Cove is the distributing point for the rafts of spruce which are towed across from the islands.

The relatives of Frank McNeill, the prospector who died so suddenly on Saturday, has been communicated with. They are all in New Brunswick, and their wishes as to the interment will be carried out. No word has yet been received from them.

Mr. and Mrs. D. J. Anderson and family arrived in town last evening from Inverness. Mr. Anderson was school teacher there, but this season there will not be sufficient children at the cannery to maintain a school. Mr. and Mrs. Anderson will make their home in Victoria.

The engagement between Miss Muriel Patmore and R. M. Walker is announced. Mr. Walker is with the Prince Rupert Lumber Company and during his stay in town has become deservedly popular. Miss Patmore left this morning for Prince George and Calgary and will be away visiting for the next month or two.

Among the visitors arriving in town from the east last evening were Mr. and Mrs. Mowatt, of Toronto. Mr. Mowatt, who is a K.C., is a nephew of the late Sir Oliver Mowatt, who was premier of Ontario for so many years. He was looking up some of his old college acquaintances here, whom he had not seen for thirty years.

At the police court this morning, Tom Peake was fined \$10 for being intoxicated. Four alien enemies were also charged with travelling without permission. The case against them was dismissed, however, as they were connected with a work train on the G. T. P., and their foreman keeps track of them, while out of reach of the police office.

TAGGED SALMON

New Westminster, August 9.—Salmon with tags are now being taken frequently. At the Dominion Fisheries office some thirty-four tags have been turned in by the fishermen collecting twenty-five cents for each tag. These tags operate on the same principle as a bachelor's button, and are fastened through the tail of the fish. They are put on at a number of points, including the traps at Sooke, on the west coast of Vancouver Island, at Lummi Island, and at Point Roberts.

FUNERAL SERVICE FOR MISS M. REID WAS ATTENDED BY MANY

Presbyterian Church Crowded with Friends and Acquaintances of the Family.

Yesterday afternoon at 2:30 the funeral service for the late Miss Margaret Reid, who died in such sad circumstances on Thursday night, was held in the Presbyterian Church. Rev. Dr. H. R. Grant conducted the service, assisted by Rev. W. S. A. Crux. The Presbyterian Church was crowded with friends and acquaintances of the deceased and her family, come to pay their last tribute of respect to her memory. Both Mr. and Mrs. Reid have been active in St. Andrew's Society circles, and the members were all out to the service. The cortege left the church for the cemetery shortly after four o'clock and many cars followed the hearse. The remains of Miss Reid were there laid to rest in the St. Andrew's plot, in proximity to her own country people. The pall bearers were S. D. Macdonald, T. McMeekin, W. Kerr, J. Irvine, W. Marjain and R. Davie.

Floral offerings to the memory of the deceased were very numerous, among them being the cards of S. D. Macdonald, Ladies Auxiliary St. Andrew's Society, Mrs. Chas. F. Kemp, Prince Rupert Loyal Orange Lodge, Miss Grace Shockey, Employees G. T. P. Locomotive department, Mrs. George Eckerman, Mr. and Mrs. W. B. Cornish, Mrs. Christina Kerr, Miss M. M. Ryan, Miss R. Casey, John Bulger, Officers and Members St. Andrew's Society, Eddie and Miss Amy Shaw, Mr. and Mrs. J. Hampton, Jean and Liddie Currie, Miss Gertrude Hills, Miss Annie Hewerdine, Mrs. J. E. A WESTERN TOWN THAT FOSTERED THE TRUE SPIRIT

Some few years ago a certain growing Western town, in the course of a campaign advertising the town and district as offering superior attractions for new settlers, laid great stress upon the fact that no business enterprise had ever gone bankrupt there. "Not a single business failure has ever been recorded here," was the proud boast of the publicity matter.

Today that game town is one of the most prosperous young cities of the country, while the farmers of the district enjoy many splendid modern advantages, and the wage earners are happy and contented. Town property and farm lands have gone to attractive figures, with a lively demand always in evidence.

The secret of the success of this town and district is entirely due to the splendid spirit of community loyalty which started with the pioneers and which was encouraged and fostered by the great majority of the newcomers. These were readily imbued with the very atmosphere of home patriotism that abounded on all sides and was so enthusiastically practiced.
