### ALLIES ADVANCE ON 20 MILE FRONT CLOSE ON HEELS OF ENEMY

PRESSED BY BRITISH**

The Allies are advancing on a front of twenty miles in Macedonia close on the heels of the first and second Bulgarian armies, which are retreating in disorder. #### AMERICAN OUTPOSTS DEFEAT BOLSHEVIKI

**First Engagement for the United States Troops in Northern Russia Results in Victory.**

Archangel, Sept. 25.—In an attack against the American outposts south of Archangel yesterday the Bolsheviki sustained a considerable loss. Most of the Bolsheviki dead were Letts. The Bolsheviki raid against the American outposts cost the Americans their first battle casualties on this sector of the front.

#### PTE. GILLINGHAM IS IN HOSPITAL WITH BROKEN ARM

**Brother of Local Nurse Wounded  
Second Time—Ed. Gillingham in France.**

Word comes from Victoria that Pte. Hiram Earl Gillingham, a brother of Nurse Gillingham of Dr. Kergin's office, has been admitted to Cambridge Hospital, Aldershot, England, with a fractured left arm caused by wounds. He has been overseas since March 27, 1916, with the Canadian Army Medical Corps, and had previously been wounded in September, 1916. He was some time in England after his first wound and returned to the firing line in December of last year. Before going overseas he was employed in the Health Department at the Parliament Buildings, where he had been for about six years, and was a member of the Y. M. C. A. in Victoria.

Pte. Gillingham is one of three sons serving, the eldest brother, Sergt. Ed. C. Gillingham, who lived here and is well known, is in France with the United States air force, and a younger brother, Pte. Theodore Gillingham, who is only nineteen years of age, left Vancouver with the 231st Seaforth Highlanders and expects to go to France with the artillery soon.

#### LIEUT. RITCHIE IS FLYING IN FRANCE

Friends of Lieut. Bob Ritchie will be pleased to learn that he is now in France and has been flying there since August 19. He is a son of J. Fred and Mrs. Ritchie of this city and is well known to everyone. His parents have just received word from him to the effect that he is now strafing the Huns from the clouds. He left here last March.

#### RAID ON ALIENS BY MILITARY POLICE AND LOCAL FORCE

**Gambling Joint Discovered in the Course of Rounds and Outfit and Money Seized.**

The city, provincial and military police were out last evening, making a series of visits round town, which resulted in a number of men making a call at the police station, which otherwise they would not have done. Steve John, of the Liberty Rooms, was fined \$25, charged with being an alien enemy. Born in the Island of Rhodes, while it was under the Turkish flag, the accused claimed to be a Greek, there being some 30,000 Greek population there. He had not reported, however, and not having any papers, he pleaded guilty. Wm. Spiro was fined \$15 for having no certificate of nationality. David Rutten, a Hollander, had no marriage licence or other papers, and was fined \$10. Many other cases were adjourned.

In the course of the evening a call was made on premises occupied by Chinese on Third Avenue, when a little game was found to be in progress. Fourteen Chinamen, two Japanese, and one negro were all taken, together with the whole gambling outfit. There was a lot of money on the table. The two Japs, K. Tanaka and M. Fugimor, were today fined \$10 for being inmates of a common gambling house, while the case against the Chinamen was adjourned until Friday.

#### MINING MAN VISITS INTERIOR DISTRICT

**Suggests That Prospectors Should Give More Attention to Interior Contact; Impressed With Outlook.**

Creston Locke, representing the Guggenheim interests, was in the city yesterday after visiting a number of mining properties in the Smithers district. He was much impressed with the Babine Bananza and expressed the opinion that there should be a number of rich mines developed in the interior in the near future. He suggested that prospectors should pay more attention to prospecting the interior contact since the coast had been already pretty well covered.

With Mr. Locke during his trip was Bert F. Smith, a mining engineer from Suokane, who is associated with Mr. Locke. He is now examining some properties in the Portland Canal district.

Mr. Locke went south last night on the Chelohsin.

#### MILES OF DEFENCES OBSTRUCT THE PATH OF ALLIES ON WESTERN FRONT YET THE GERMANS REMAIN NERVOUS

(Special to The News via G. T. P. Telegraphs.)  
With the British Army Afield, Sept. 25.—The British front seems about to become the scene of trench warfare again. If the British succeed in a general advance it will reflect greater credit than any of their remarkable successes of the past several weeks. They are now fairly up against the Hindenburg line from St. Quentin to beyond Cambrai and while the line itself is pierced on the front before Cambrai, there is yet such a wilderness of defences barring their path as only the methodical, patient, machine-like Huns are capable of constructing. These mazes are from a mile to two miles deep. Part of the way there is a canal 70 feet wide and probably 50 feet deep, with deep-spread trenches before and behind it. Despite their enormous advantages the Germans regard the situation nervously. In the region west of St. Quentin the British troops carried out a successful operation over a front of four miles from the Omignon river south and have taken about 800 prisoners, according to Field Marshal Haig's latest communication.

#### ENTERTAINERS DELIGHT LOCAL THEATRE GOERS

**Chautauqua Festival Opens Auspiciously Last Night; Audience Thoroughly Enjoys First-Rate Programme.**

The people of Prince Rupert who attend the meetings of the Chautauqua Festival this week at the Westholme Theatre ought to feel very much indebted to the six local citizens who have made this visit of the Chautauqua party possible. It is safe to say that no one who was present at last night's performance will want to miss any of the succeeding four. Prince Rupert can stand a Chautauqua Festival frequently, and it is to be hoped that this Northern Pacific Coast circuit will be covered once again during this winter season.

The whole programme put on last evening attained a high standard of excellence. Music lovers heard something worth while, which in other districts, people have travelled many miles to hear. The anthem "O, Canada" sung by John E. Davey, opened the programme last evening, after which a short introduction, explanatory of the Chautauqua movement was given by Mayor McClymont.

H. Ruthven MacDonald was the first of the visiting artists. Accompanied by Mrs. MacDonald on the pianoforte, he won his place with his first number. The word "homely" has one meaning in North America, and another in Great Britain. In the British sense, meaning that freedom from restraint, usually found within the home circle, Mr. MacDonald was at home on the platform last night. He was not a mere performer. He was one of ourselves. And his laugh was whole-souled and contagious. There was not enough of Mr. MacDonald. In both song and story, he was inimitable, and when he comes back to Prince Rupert he will have to sing "Bibbity Bobb" several times a day, whether he likes it or not.

**The Concert Party.**  
The Fillion Concert Party followed Mr. MacDonald, and vociferous cheering brought the artists back time and again. Their part of the programme was all delightful. Ferdinand Fillion, with his 16th century violin, played gloriously, and the numbers given

by Fern Goltra were splendid. Their accompanist on the pianoforte, Miss Edna McEachern, played faultlessly. But there was not enough of the Fillion Concert Party either.

"Uncle Sam and John Bull"  
Dr. William Rader gave a lecture on "Uncle Sam and John Bull" or "American and Canadian Ideals." The lecture was typically American, using the word in the restricted sense, as distinct from British. He personified the traits of the two countries, and pointed out their common characteristics. For all their outer crust of materialism, he found that the people of both countries were incurably religious. The language common to both countries, of Shakespeare, and of the Bible, was a greater bond than a transatlantic cable.

**Racy and Epigramatic.**  
Dr. Rader was racy to a degree and his speech abounded with epigrams. The home of the people is the thermometer of the country. The morality of the fire-side governs the nation. Democracy, the Monroe doctrine, the Panama Canal, and peace were other points touched upon. The temper of the meeting with regard to peace by negotiation was clearly indicated when the lecturer asked for peace by dictation by the Allies' dictation. The attention of the audience was held until the very end of Dr. Rader's lecture, although it was nearly eleven o'clock and everyone present was more than satisfied with the first night's Chautauqua.

#### MUCH INTEREST TAKEN IN FAIR FOR NEXT YEAR

**Postponed Meeting Elects Directors and Makes Suggestions for Possible Improvement in Exhibits.**

A postponed meeting of the Cultural and Industrial Association resulted in a board of directors being elected for the coming year, reports read and the general policy of the Association for the future discussed. There was a certain amount of house-keeping done and the News critic came up for mention. A vote was taken in choosing the committee and the following was chosen: A. W. Edge, R. J. D. ... C. C. Perry, Ben Self, ... Thomson, J. D. McAuley, ... Kerr, A. Brooksbank and D. ... Hunter; R. H. Shockley, ... W. was taken in them they would send their stuff over to the fair. He agreed with The News that the time to commence was in March, and that a representative of the society should visit the outlying points and get the exhibits. He hoped to see a great improvement next year.

Ben Self showed the benefits which had arisen from the carnival, and he also showed how visiting Telkwa last year had been a failure in so far as securing exhibits was concerned. They had not got even a potato from that district. He welcomed the interest that was being taken in the fair and hoped it would continue. The discussion was continued by Mr. Kirkpatrick, Rev. W. E. Collison, and a number of others.

**Secretary's View.**  
D. C. Stung said he wanted the directors to understand that it was impossible to get help. They had offered to pay five dollars a day for men but could not secure them. It was useless to try to get anyone to look after the securing of exhibits unless they were ready to pay him. Next year they may be better able to do that. He thought the farmers themselves should take an interest in the fair and send in their exhibits. The question of providing accommodation for visitors was discussed and at the close a vote of thanks to the visitors was passed.

#### THE POWER OF THE DOLLAR

Never were extravagance and useless buying regarded as so serious an evil as today. A greater evil still is the spending of one's money on silly pleasures. Canadians carry too serious a determination to ride through to Victory and to vindicate the stalwartness and endurance of the men at the front to tolerate any such laxity in their expenditures.

Our people generally are sizing up the power of the dollar as never before, and are investing their surpluses against a possible landslide after the war. This is real patriotism! It is carrying common-sense into national business. It is proving that the strength of a nation lies in her saving citizens.

**Great Problem of After the War.**

A great question—the greatest of the war—depends for its solution upon the folks at home. They, more than soldiers or military authorities, have to do with the successful working out of that wonderful thing of which every one talks and about which so very few seem to have even one definite idea—Reconstruction. Is it not true that every one firmly believes that with the coming of peace there will also arrive that other great blessing, reconstruction? It is not also true that with this placid assurance there exists the other assurance that some one else is managing that problem? No one feels personally responsible, but each one feels sure that some one else is working hard on this stupendous puzzle.

**Homes Must Also Be Reconstructed.**

There are many reasons why every individual interested in this war should take a personal interest in reconstruction, and never allow that interest to lag until he has found the fountain-head of reconstruction activity—either found it or created it. To begin with, individual homes must be thoroughly and consciously reconstructed. Habits must be reformed or abolished according to whether they are required for the model home. The men returning from overseas are bringing back thoughts and feelings to which they were utter strangers before enlisting. Most of them have grown, mentally and spiritually, by leaps and bounds. Have their women folks and their children kept pace? Will they understand what the men have gained? Will they appreciate its value? Will they agree or sneeringly criticise the attitude of the men towards life? Will they have such a broad outlook themselves that they can be both patient and tolerant with what seems a mistaken view and finally either persuade back to the best way or forsake their own narrow views?

**Health and Education Belong to Women.**

The establishment of a national Board of Health belongs to the good times coming in the Reconstruction Period, and the responsibility for its establishment rests naturally on the mothers of the land. The same is true of the entire educational system. Laws relating to food are women's work. These are what might be called house-cleaning work without which any reconstruction work would be hopeless and they should be wisely planned and started at once. In both France and England many of these reforms are already under way, made necessary and possible by the violent overturning of old methods found inadequate in war. Those countries have waged war and begun reconstruction simultaneously. Their women are cognizant of all these problems, and working on them honestly. Is there not a too general feeling that the absolutely necessary reconstruction will drop from the sky or come as the result of earnest wishing? The answer to any such attitude is the question: "How did the things reconstruction is to replace come into being—by wishing or, worse yet, by indifference?"

"The food crisis is grave and urgent, beyond possibility of exaggeration."—Sir Robert Borden

**City and Town Labor Must Save The Food Situation**

THE heart of the food production problem is labor, and the heart of the labor problem is the city dweller. City people must produce food if Canada is to do her full duty in support of our soldiers and Allies.

Men who are needed on farms must come from the cities and towns—there is no other source. The Provincial Departments of Agriculture co-operating with the Canada Food Board, can place thousands of men on good farms in this Province. They are needed at once.

**Those who remain at home must also Grow Food**

A War Garden will not excuse the man whose rightful place this year is on a farm. But War Garden service is needed from those who can do no more.

and Vacant Lot cultivation will leave the farmers free to grow more food for export.

Every pound of home-grown vegetables, produced on city land by city labor, will be a positive addition to the food supply. Home Garden

The vegetable garden offers an opportunity for service to men whose circumstances make it impossible for them to work on a farm, to women, to boys and girls—to city people generally.

**Be a Food Producer This Year**

If there is a garden or vacant lot movement in your community, associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign. Write to your Provincial Department of Agriculture for pamphlets on gardening and additional information.

### WHAT I SAW ALONG THE PIPE LINE

Number of Birds Were Out Sunning Themselves, While Just One Attempted a Song; Bluejay Was Curious, But When He Spoke the Rambler Moved on. — by Fritz.

It was Sunday and I was out for a ramble. Seeing a plank walk branching off Eleventh Avenue I followed it and, as soon as I arrived on the hill, I noticed a number of birds in the treetops. They resembled robins but were perhaps a little larger and different. I came to the conclusion that they were varied thrushes and were out there feeding on the berries. Later they will go south and find berries at other places where it is rather warmer and not so much danger of snow.

The Blue Jay.

Along the creek at the bottom a blue jay came out to look at me. He was a fine looking chap with his gaudy blue feather coat and

the plume on his head. He came almost within reach of my walking stick but I would not have struck him for the world, he looked so beautiful. Then after he had watched me awhile he opened his bill and I moved on. He reminded me of some of the girls at the cabarets that under their paint and powder look almost beautiful, but the moment they begin to sing it is a notice to move on. The voice of the jay is raucous and unpleasant. This fellow followed me almost all the way to the end of the walk, but happily he did not talk much. He just fluttered around, and near the end of the walk was joined by a companion.

Jays are very curious. They always "want to know, don't you know." They run great risks in order to satisfy this curiosity, but as they are innocent creatures, not many people take advantage of them. Now and then a boy with more energy than brains throws a stone at one, but the jay soon detects danger of that sort.

Sparrows and Thrushes.

They were a number of other birds, some of which came out to look at me and others of which slunk away into the bushes. For instance, the fox sparrow was rather curious and hopped out on to the side of the walk and investigated before again seeking refuge in the bushes. The little thrushes, perhaps hermit thrushes or else russet-backed, did not stop to look but were away before there was a chance to get acquainted.

The juncos with their nobby black heads were seen a good many times and they were very friendly, but the chickadees and some other birds that were too far away to identify kept pretty well to the tree tops. Once a little western winter wren hopped out on to the edge of the bushes and pretended not to notice me, yet at the same time taking a sly peep in my direction as he pecked at some buds. That is a little habit the wren has. He hardly ever lets you know that he sees you, but all the time he is watching you carefully.

Bird Song and Beauty.

On the way home a short bird song in the bushes by Hays Creek the first I had heard for some time in Prince Rupert, was that of a Sooty Song Sparrow that had forgotten it was not spring. As I watched and listened a kingfisher came leaping along under the bridge and alighted on a bough some little way up the stream and watched for an opportunity to pounce on a fish beneath. Suddenly he dived and up came a shiny little trout in his bill. Perhaps it was not a trout, but "trout" sounds well. I am afraid

I hardly know a trout from a mackerel.

There are numbers of other birds to be seen around the town-site but these were just a few that I happened to notice on this three hour stroll.

# Keep up the Food Supply and Help Make Victory Sure

"I AM assured that my people will respond to every call necessary to the success of our cause—with the same indomitable ardour and devotion that have filled me with pride and gratitude since the war began."

HIS MAJESTY KING GEORGE

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

This is National Service—  
Not to the Farmer only—  
But to YOU—to everybody—  
This appeal is directed

WE must unite as a Nation to SERVE —to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.

# Red Cross Notes

The Queen's cushion which was so thoughtfully donated to the Red Cross by the Carnival committee was raffled by Miss Rorvik and her associates, Mrs. Atkins, Miss F. Hardy and Miss Grace Carroll and a sum of \$51.60 was realized. The cushion was won by Mr. Stiles.

The sale in the hut this week will be in charge of Mrs. R. S. Wright and Mrs. Gammon.

Two boxes of socks and one box of hospital supplies were shipped last month and last week two boxes of socks and one box of pyjamas were sent forward. The following socks have been received from outside points and are thankfully acknowledged:—Port Essington, 120 pairs; Smithers, 18 pairs; Queen Charlotte City, 26 pairs; Port Simpson, 30 pairs; Alice Arm, 13 pairs; Seal Cove, 12 pairs; Queen Mary Chapter, I. O. D. E., 63 pairs; Queen Mary Knitting Club, 30 pairs.

O. J. Butler has kindly sent to the society through the Union Bank of Canada a sum of \$12.25 which is gratefully acknowledged.

It is most gratifying to the society to note that in the midst of carnival week the wounded men were not forgotten which is evidenced by the result of the sale last week when a sum of \$170.00 was realized. The roller-top desk which was donated by Mr. Halliday (through Mrs. Orchard) realized about \$100. The society is under obligation to the ladies in charge, Mrs. Orchard and Mrs. Watson and the two little girls, Margaret Graham and Mary McRae.

The citizens are kindly asked to remember the grand concert to be given next month in the Westholme Theatre, the proceeds of which are to be devoted to the men who have been so unfortunate as to lose their sight in the war. Particulars of this concert which is for a most worthy object will be announced later.

The following were the donors and winners at the sale in the Red Cross hut last week:—H. F. MacLeod, picture, won by Mrs. T. H. Johnston; W. O. Fulton, \$5 gold, won by A. H. Allison (redonated); Thompson Hardware, hatchet, won by H. F. Pullen; Mrs. Orchard, Japanese vase, won by Gladys Orchard; Mrs. Woodland, roses, won by A. Bailey; M. R. McLeod, box of cigars, won by W. H. Sherman; Lieut. Halliday, roll-top desk, won by F. Sorensen; G. A. Woodland, oil heater, won by Sam McNeil; Miss Myers, oat flour, won by C. H. Orme; Miss Myers, 49-lbs. flour, won by A. Haines; Mrs. Orme, scarf, won by Roy Hobart; Provincial Government, vegetables, won by Mrs. Hunt; F. W. Moersch, Swift's Ham, won by W. Goldbloom; Miss Mitchell, hand-knit socks, won by W. Goldbloom.

The library under the management of the Red Cross will be opened in the hut on Friday next. The books are numerous and on various topics and it is hoped to add to the funds of the Society by the establishment of this lending library. Donations of books will be thankfully received.

## Sunlight dispels the shadow that once hung over wash day

IN fact many women do not say "wash day" any more. They say "Sunlight Day". It's a genuine pleasure to use Sunlight Soap because it means an economical wash, it means a quick wash. Why? Because, Sunlight is absolutely pure—you need only half the quantity as compared with ordinary soaps, nor will Sunlight harm any delicate fabrics, or hurt your hands. And it really takes the labour out of the washing in surprisingly little time as you will see by following the directions.

## SYNOPSIS OF

### LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.  
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.  
Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.  
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.  
Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.  
Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same on Crown grant, to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.  
Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.  
Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.  
For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.  
PRE-EMPTORS' FREE GRANTS ACT.  
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.  
TOWNSITE PROPERTY ALLOTMENT ACT.  
Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.  
For information apply to any Provincial Government Agent or to  
G. R. NADEN,  
Deputy Minister of Lands,  
Victoria, B. C.

Acknowledgments to Luke Filder

TO every home there comes a time when every thought, every hope, every prayer for the future centres on the recovery of one loved one. In that hour of anguish, every means to recovery is sought—the highest medical skill, trained nurses, costly treatment. Does the price matter?

\* \* \* \* \*

It may be so great as to stagger the imagination—a sum beyond the possible.

But does anyone ask, "Can we do it?" Money or no money, they do it. And somehow they pay.

It may mean doing without things they think they need. It may mean privations, sacrifices, hardships. They make unbelievable savings, they achieve the impossible, but they get the money to pay.

\* \* \* \* \*

To-day in this critical period of our nationhood, there is imperative need for MONEY—vast sums of money. Only one way now remains to obtain it.

The nation must save, every community, every family, every individual Canadian must save.

**SUPERIORITY OF CANADIAN FLYERS**

Statistics Indicate Fewer Casualties Among Those Learning to Fly in Canada Than in Great Britain.

Canadian air force cadets are particularly high in ability as athletes and in alertness and brain power. This is shown by the comparative statistics compiled for purposes of comparison by the Royal Air Force. The following is the official record:

"For the purpose of preparing statistics, the total number of flights and casualties throughout the entire R. A. F. during a certain period was obtained. For the purpose of comparison, similar statistics were obtained from the training squadrons operating in England. In the R. A. F. Canada, there were 36,253 flights, with 13,566 hours flying, during which there were 59 crashes, 36 of which were admission to the hospital. The English statistics give 9,000 flights, with 4,000 hours flying during which there were 58 (practically the same number) of crashes, 16 of which were admissions to hospital.

"From the above figures it will be seen that for four times as many flights, with three times as many hours in the air, the number of Canadian casualties are practically the same as the number of English casualties.

"The above flights in Canada cover approximately 813,960 miles or 34 times around the globe, thus there is one fatality for 116,280 miles, or for five times around the globe. The conclusions to be drawn from the above figures are so evident that no further explanation is required."

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy **"SPECIAL"** if tires which somewhat resemble it in appearance resembled it in efficiency?
