### ALLENBY'S FORCES OPERATING IN PALESTINE MAY CUT OFF OTHERS

#### ALLIED FORCES FOLLOW UP GREAT SUCCESSES BOTH IN PALESTINE AND MACEDONIA

**Total Number of Prisoners in Palestine Now Number Over 40,000; Bulgars are Driven Across Vardar River by Serbians.**

(Special to The News via G. T. P. Telegraphs.)

London, September 26.—More than 40,000 prisoners and 285 guns have been taken by the British in their successful offensive in Palestine. British forces operating east of the Jordan apparently are in a favorable position to cut off the Turks retreating north along the Hedjaz railway. The British are now approaching Amman, on that railway.

Arab forces are pressing the retreating enemy northward from Amman. Maan is on the Hedjaz railway southeast of the Dead Sea. Maan is 120 miles to the north.

London, September 26.—Developments on the Macedonian front point to further disasters for the Bulgarian armies fleeing before the allied troops. The Serbians, according to latest news reaching London, have crossed the Vardar river northwest of Gradska and have established a third bridgehead south of Enisha. They are also advancing along the Bregalnitsa river, which flows into the Vardar about four miles northwest of Gradska and have cut the main road to Ishtib. The Bulgarian army now has been cut into a number of groups.

London, September 26.—The village of Selency, two miles west of St. Quentin, has been taken by the British. Renewed attacks around Fayet, northwest of St. Quentin and east of Spey have been repulsed by the British. The Germans suffered heavy casualties.

#### WOODEN SHIPS MAY BE BUILT AT THIS PORT

Representative of Seattle Concern  
Visit Prince Rupert to Look  
Over Ground.

A. McNicholl returned yesterday afternoon on the Prince George from Vancouver. While in the south he visited Seattle and took up the matter of wooden shipbuilding with the British American Shipbuilding Co. and the Company promised to send a representative here to look over the ground. The representative did not arrive on the Prince George, but it is expected that he will be here soon, possibly on the next boat.

Mr. McNicholl returned yesterday with Mr. McNicholl. The greatest programme ever given by Chautauqua in Canada, United States or Alaska at Westholme tonight.

#### CANADIAN LOSSES NUMBER 115,806

(Special via G. T. P. Telegraphs.)

Ottawa, Sept. 26.—To August 4, 1918, the net losses in the overseas military forces of Canada in England and in France was 115,805 officers, non-commissioned officers and men. This includes those killed in action or died of wounds, died, missing, prisoners of war, discharged as medically unfit, discharged to take up other lines of war work, and those N. C. O.s and men given commissions in the Imperial army. It does not take into account officers and their ranks wounded in action, who have rejoined their units or are still fit for services overseas.

#### CHANCELLOR VON HERTLING ADMITS THAT DISCONTENT IS NOW RIFE IN GERMANY

Washington, September 26.—There was just one thing in Chancellor von Hertling's speech which interested American officials. It was his frank, open admission of the seriousness of the internal situation in Germany. The inclination of the Government to regard the speech as the latest movement in the German peace offensive and as insincere and unworthy of consideration is based upon the feeling that in scarcely a single point does the Premier make an unqualified declaration of adherence to the fourteen principles laid down by President Wilson. Everywhere in his speech, officials said, there were limitations and qualifications.

Count von Hertling, German Imperial Chancellor, addressing the main committee of the Reichstag declared that public discontent in Germany was not justified by the military situation on the western front.

#### WILL NOT TOLERATE BOLSHEVIKI HERE

(Special via G. T. P. Telegraphs.)

Ottawa, Sept. 26.—Measures will be taken by the Government to put a stop, summarily, to the operations of organizations of pronounced anarchistic or Bolshevik tendencies which seek to discourage activities arising out of Canada's participation in the war, of the I. W. W. and kindred classes.

In the Westholme Theatre on Sunday afternoon Corporal Nelson will tell the thrilling story of his escape from a German prison camp. He is a good speaker and his story is one of the most interesting war narratives that has come from the battle front.

In addition to the lecture it is announced that there will be a musical programme which will round out a most attractive event.

#### SHIPPING LOSSES SLIGHTLY INCREASED

(Special via G. T. P. Telegraphs.)

London, Sept. 26.—Although the British shipping losses were lower there was a slight increase in the total allied and neutral shipping losses due to enemy action and marine risk in August over July according to a statement by the Admiralty. The total figures are 327,615 gross tons, an increase of 3,904, divided as follows: Allied and neutral losses, 151,274, an increase of 10,027; British losses, 176,404, a decrease of 6,123.

#### PRINCE RUPERT WORKERS ARE WINNING WAR AGAINST HUN BY SUPPLYING SPRUCE

**MATERIAL STILL BADLY NEEDED, SAYS MAJOR TAYLOR; ALL SHOULD BEND ENERGIES TO GREAT WORK OF KEEPING UP THE SUPPLY**

"It is by the efforts of you people in this district that we are able to make such a good record in the production of aeroplane spruce. The material is badly needed and only through your splendid work are we able to begin to supply that need." These were the words of Major Taylor who has charge of the spruce production work of the Imperial Munitions Board in the Province of British Columbia.

Discussing the work further Major Taylor spoke of the growing importance of the air service in the present war and enthused on the part that Northern British Columbia was playing in the big fight. Every thousand feet of spruce lumber produced, he said, meant one step further in the winning of the war. He urged that there should be no let up, but that all should bend their energies to the great work.

The spruce, he said, was sent through to England just as fast as it could be put there. The regular process had to be gone through, of course, for the lumber is green when it leaves here, but no time is lost and the aeroplanes are made from it in the shortest possible time.

Major Taylor arrived on the Prince George yesterday afternoon and proceeded to Masset Inlet at midnight. He was accompanied by Major G. W. C. Kaye and Lieut. Cowper Young of the Air Service Board of London, England; Col. W. E. Edwards of Ottawa and Roland D. Craig of the inspection bureau at Vancouver. While here the party visited the Prince Rupert mill and discussed the matter of spruce production with Mr. Duby. They will make a thorough inspection of the work on the islands and the prospects for winter production and return here next week.

H. R. McMillan who has charge of the work in the north, will conduct the party.

#### CANADIAN SAVINGS PASS BILLION MARK

(Special via G. T. P. Telegraphs.)

Ottawa, Sept. 26.—Savings deposits in Canadian banks have made a new record. For the first time as shown in returns made available at the Finance Department they pass the billion mark. At the end of August they stood at \$1,041,741,865, an increase of more than \$22,000,000 over the previous month and an increase of more than \$62,000,000 over August, 1917. Call loans both inside and outside Canada show an increase for the month. Current loans also show an increase.

DAILY EDITION.

Thursday, Sept. 26, 1918.

World Must be  
A Better Place.

Sacrifices have been made by our kindred that shall call for the suppression of everything that tends to hinder the advancement of mankind. We cannot delve into the secret recesses of the individual heart, or bank account; but all public actions bring forth the calibre of a man or woman, and we are "sized up" for what we are worth. The lessons of the past four years should be the criterion for our future action. Communities are made up of individuals, and as we act, so will the future be moulded, for those who come after us. It is the service we render that glorifies us in the eyes of God and of man. Millions of our brethren are sacrificing themselves on the field of honor, working for our salvation from worse than death. Tens of thousands of them laid down their lives on the altar of democracy, struggling to uplift humanity to a plane that will mean peace for all time to come. We owe it to them; we owe it to ourselves, to make this world a better place in which to live. By our fruits we shall be known, and the time to show our appreciation of the efforts of our gallant soldiers is "right now."

Perhaps Prince Rupert  
Will Win the War.

Major Taylor, through the medium of The News, says that it is by the efforts of the people of this district that the supply of aeroplane spruce is kept up. That is something to ponder about and to act on. It means that the district is one of the big cogs in the military wheel which is grinding the Huns and bringing them to their senses. To see that the cog works well and are kept in alignment with others is something which everyone can do. We have felt for some time that the work was important and that the people here were a large factor in the war. When an authority like Major Taylor, who has charge of the aeroplane spruce for British Columbia, comes out and publicly makes acknowledgement of the fact it brings it home with more force. It will perhaps be the means of adding a little urge to the arms of those who are felling the trees and who are sawing the boards or loading the scows when they realize that it is perhaps on that tree or that scow load of spruce planks that the Allies depend for the winning of the war. Victory and defeat are often influenced by very small things, and it may in the future be said: "Prince Rupert won the war for the Allies."

Living in  
Abnormal Times. (Contributed.)

With the conclusion of the great world struggle, there will come a great "slump" in everything pertaining to war work, throwing out of employment, not only the army of men now at the front, but thousands upon thousands of other war workers. What is to become of them?

We are living in a time of abnormal prices for commodities and labor. Everything is, to use a phrase, "in the air." We are all engaged in the one occupation and all minds are centred on winning the war. Great Britain has been noted among the Powers as a colonizer. Our flag flies over many parts of the world, while the beat of the drum is heard in every direction. Canada has room for millions of men and women. We have broad acres, with forests and fields, and the greatest fishing grounds, that produce food and employment. We are boasting of our democracy, and with good reason; but conditions have changed.

Titles and wealth will never again be in the ascendancy over the millions of men and women who think and act for themselves. We will become more and more democratic, until all well meaning men and women will find the places to which they are fitted. The "almighty dollar" will not have the influence it wielded in past generations. When men from the forest and farm; from the highways and by-ways; from the counting house and the deep-down mines, cast aside their occupations, to enter the struggle for the existence of the race, they also placed in the fiery cauldron of war many of their prejudices, many of their ideas and ideals. Those who once thought this world was made for their "puny selves," found that the federation of mankind was necessary to hold together all they held dear.

There was a wise Spear-woman lived in a shoe

"The food crisis is grave and urgent beyond the possibility of exaggeration."—Sir Robert Borden

## Help To Feed Yourself

Are you only a "destroyer of rations" when you might be a food producer?

Every pound of food that can be grown in Canada and made available for export, will be desperately needed by those who are bearing the brunt of the fighting and the suffering.

The amount of food produced this year will be absolutely limited by the extent to which people in cities and towns become food producers—there is no other labor reserve.

## WHERE DO YOU BELONG?

## On the Farm?

Thousands of men are urgently needed on farms in this province to make possible increased production of food. Those who could go and yet hold back, should not forget that, unless production is greatly increased, hundreds of thousands of people will die of starvation.

## In the War Garden?

By growing vegetables in home gardens or on vacant lots, and thus helping to feed themselves, city and town people can leave the farmers free to grow more food for export. All that is produced in this way is gain and a net addition to the national food supply.

War Garden service is not sufficient for the man whose rightful place is on the farm. But the War Garden does offer an opportunity for tens of thousands of people, whose circumstances oblige them to remain in the city, to have at least a small part as food producers. Interest the boys and girls in the War Garden, for they too can help to grow food. If there is a garden or vacant lot movement in your community associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign.

Write to your Provincial Department of Agriculture for additional information.

## MANY FINE BABIES ENTERED IN SHOW

Chief Vickers and Alderman Kirkpatrick Have no Easy Job in Deciding Winners.

At the baby show yesterday afternoon there were a number of fine specimens of young manhood and womanhood shown. Chief Vickers and Alderman Kirkpatrick were the judges and it was no easy job. According to the latest report however they are still alive. Some of the babies were judged by weight and others by appearance. It was easy to determine the weight but when it came to appearance naturally there were people around who were prejudiced. The following were the results:—

Babies under 2 years (weight) 1st Baby Baur; 2nd, Baby Gay.

Under 1 year (weight)—1st, Baby Montgomery; 2nd, Baby Shockley.

Best looking baby under 2 years—1st, Baby Dunn; 2nd, Baby Grimble.

Best looking baby under 1 year—1st, Baby Meuse; 2nd, Baby Astoria.

## QUEEN CHARLOTTE ISLANDS

Port Clements and Buckley Bay are revelling in the attraction of a moving picture show, introduced by the Y. M. C. A.

Dr. J. A. Smith, of Thurston Harbor, is busily engaged in outfitting his up-to-date hospital, which has been turned over to the logging camps in the neighborhood.

Indian summer weather prevails on the Queen Charlotte Islands. The "oldest settler" asserts that the "weather clerk" has been furnishing more sunshine than usual, which has been appreciated by the numerous residents.

Buildings are going up in all directions at Port Clements and Buckley Bay. Carpenters are in demand at the highest rate of wages. There is room for laborers and mechanics on Masset Inlet. The south end of the islands is also calling for men to work at the various industries.

Rev. J. Gillett interred the remains of Edgar Nastow, who died recently at Masset. The deceased was a native son of the Queen Charlotte Islands, and was aged 70 years. His death is attributed to pneumonia, which carried him off in the short space of a few hours, after he was attacked with the disease. The deceased leaves a large number of relatives and friends.

The Ocean Falls Pulp and Paper Company installed a camp at Dinin Bay, upper Masset Inlet. The logging outfit was towed across Heate Straits and formed quite a procession of scows. It is the intention to cut timber all the year round and ship in the spring to the principal plant of the company. The absence of deep snow during the winter months will allow the loggers to work on the have men out in the woods fur islands when it is impossible to ther south. It is expected that hundreds of men will be employed at Dinin Bay.

## USE LESS SUGAR

No public eating place (except soda fountain or ice cream parlors) shall use more than two pounds of sugar for every ninety meals served.

No proprietor of a soda fountain or ice cream parlor shall after September 30, 1918, use more than 25 per cent. of the average monthly amount of sugar used during the year 1917.

No person shall use in the manufacture of biscuits, or fruit, pound, layer, wine, sponge cake or any like product more than 40 pounds of sugar to 100 pounds of flour.

## OPPOSITION LEADER VISITING THE CITY

W. J. Bowser is Here for a Few Days in Order to Keep in Touch with Political Situation.

W. J. Bowser, of Victoria, member of the Legislature for Vancouver and leader of the opposition, arrived in the city yesterday and is remaining a couple of days before leaving for Terrace, Hazelton, Smithers, Vanderhoof and Prince George.

In conversation with a News representative Mr. Bowser said that he would not hold any meetings, as to do so might arouse political animosity, and today all were interested in winning the war more than in politics. He was just visiting the district to keep in touch with the developments that were going on in the north. He had intended going to the Queen Charlotte Islands, but found that it was difficult to know exactly when he would be able to get back, so he had decided not to go there nor to Anyox. He expected to leave, possibly on Friday, for Terrace.

Mr. Bowser is looking well. He was met at the dock by O. H. Nelson of this city and canvassed the local situation with him.

Tom, Tom, the Spearman's son, stole a Wrigley box and away he run!

Each stick he chewed his health renewed

And helped his appetite for food! But his father said "The boy is wise,

let him do it to advertise! Since I quit my piping and bought this store

'm selling Wrigley's gum galore!

Queen Charlotte Islanders cannot do better than mail their printing needs to The News Print Shop and get the work done promptly and well.

## WAR CHILDREN CARED FOR BY FRENCH WOMEN

Over Hundred Thousand Waifs  
Looked After by Society  
Formed for Purpose  
in Paris.

The manner in which Belgian and French women have been able to "mother" the children who have become victims in one way and another of Hun cruelties and atrocities is nothing short of wonderful. With sorrows of their own sufficient to warrant their spending the remainder of their lifetime grieving, these noble women forgot everything except the pressing need of rescuing these children from starvation or slavery, dishonor, or an orphanage without guardians. The war of 1871 started French women in the work of caring for the child victims of that time. From infancy, through school age, those boys and girls were guarded and guided so that they might become worthy citizens of France. That society, known as the "Oeuvre de la Chaussee du Maine" has broadened into an inestimable factor in national life. Dating back to pre-war times, also, are the "maternal canteens" and the "Goutte de

Lait" which have greatly increased their activities during the war. Homed 15,000.

But quite apart from the societies named, and springing into existence solely because of the unprecedented brutality of Hunnish warfare, is an organization of French women known as "L'Accueil Francais" whose sole object is the care of children belonging to the invaded districts. Madame Manger, the secretary, has managed to find homes for 15,000 such children. If one but pauses to recall the population of well known towns and villages it becomes possible to realize in a faint degree the task French women have taken upon themselves, remembering also that the number of deserted children in this district runs into the hundred thousand. Madame Michel, wife of the Governor of Paris, became president of "L'Assistance a la Mere et l'Enfant," which was formed during the first year of the war by uniting several societies all for immediate work in 1914. In this way overlapping was avoided.

English Co-operation.

Two English ladies long resident in Paris have rendered valuable service in the care of orphans of the army by co-operating with French women. These women visited America in 1916 and collected enough money to care for 50,000 children. The plan pursued leaves the children in France with their nearest kin. So zealously has this work been carried on it is practically impossible now to find a war orphan unprovided with a home. Do what they will no one in France, or the whole world for that matter, can ever dispell the dark cloud that hangs over France—the tragedy of thousands who can never return, those who have died by the wayside when forced to flee from home before the oncoming hordes of Germans, or who could not survive in that long and shameful pilgrimage into slavery worse than death. Thousands have disappeared because separated from their families, and years will be needed to trace their whereabouts.

Appealed to Pope.

The Women's Societies in France have taken over this task, which is far too heavy for the Government at present. The National Council of Frenchwomen have 650 people working at the head office in Paris, co-ordinating with the Prefets of the Provinces and the feminist societies in every district in France. So far they have made over 400,000 investigations, and have traced over 50,000 cases. This same society succeeded at last, by appealing to the Pope and to the King of Spain to interfere, in getting 300 young girls who had been deported to Germany sent back to their homes. This number is "a mere drop in the bucket" but it is nevertheless encouraging to the workers.

## Pile up the Surplus

To win this war every ounce of the strength of each of the allied nations must be put forth to meet the organized, trained and disciplined efficiency of the Central Powers—that gigantic, ruthless force which is the result of fifty years of planning and preparation.

And every ounce of every allied nation's strength is in the hands and brains and hearts of the individuals of each nation, because they are free peoples.

Now the individuals of each nation must live as well as fight, therefore a proportion of the effort and material of each nation must be diverted from war purposes to living necessities,

So the less each individual takes for himself or herself for personal use the more effort will there be left for fighting and winning the war.

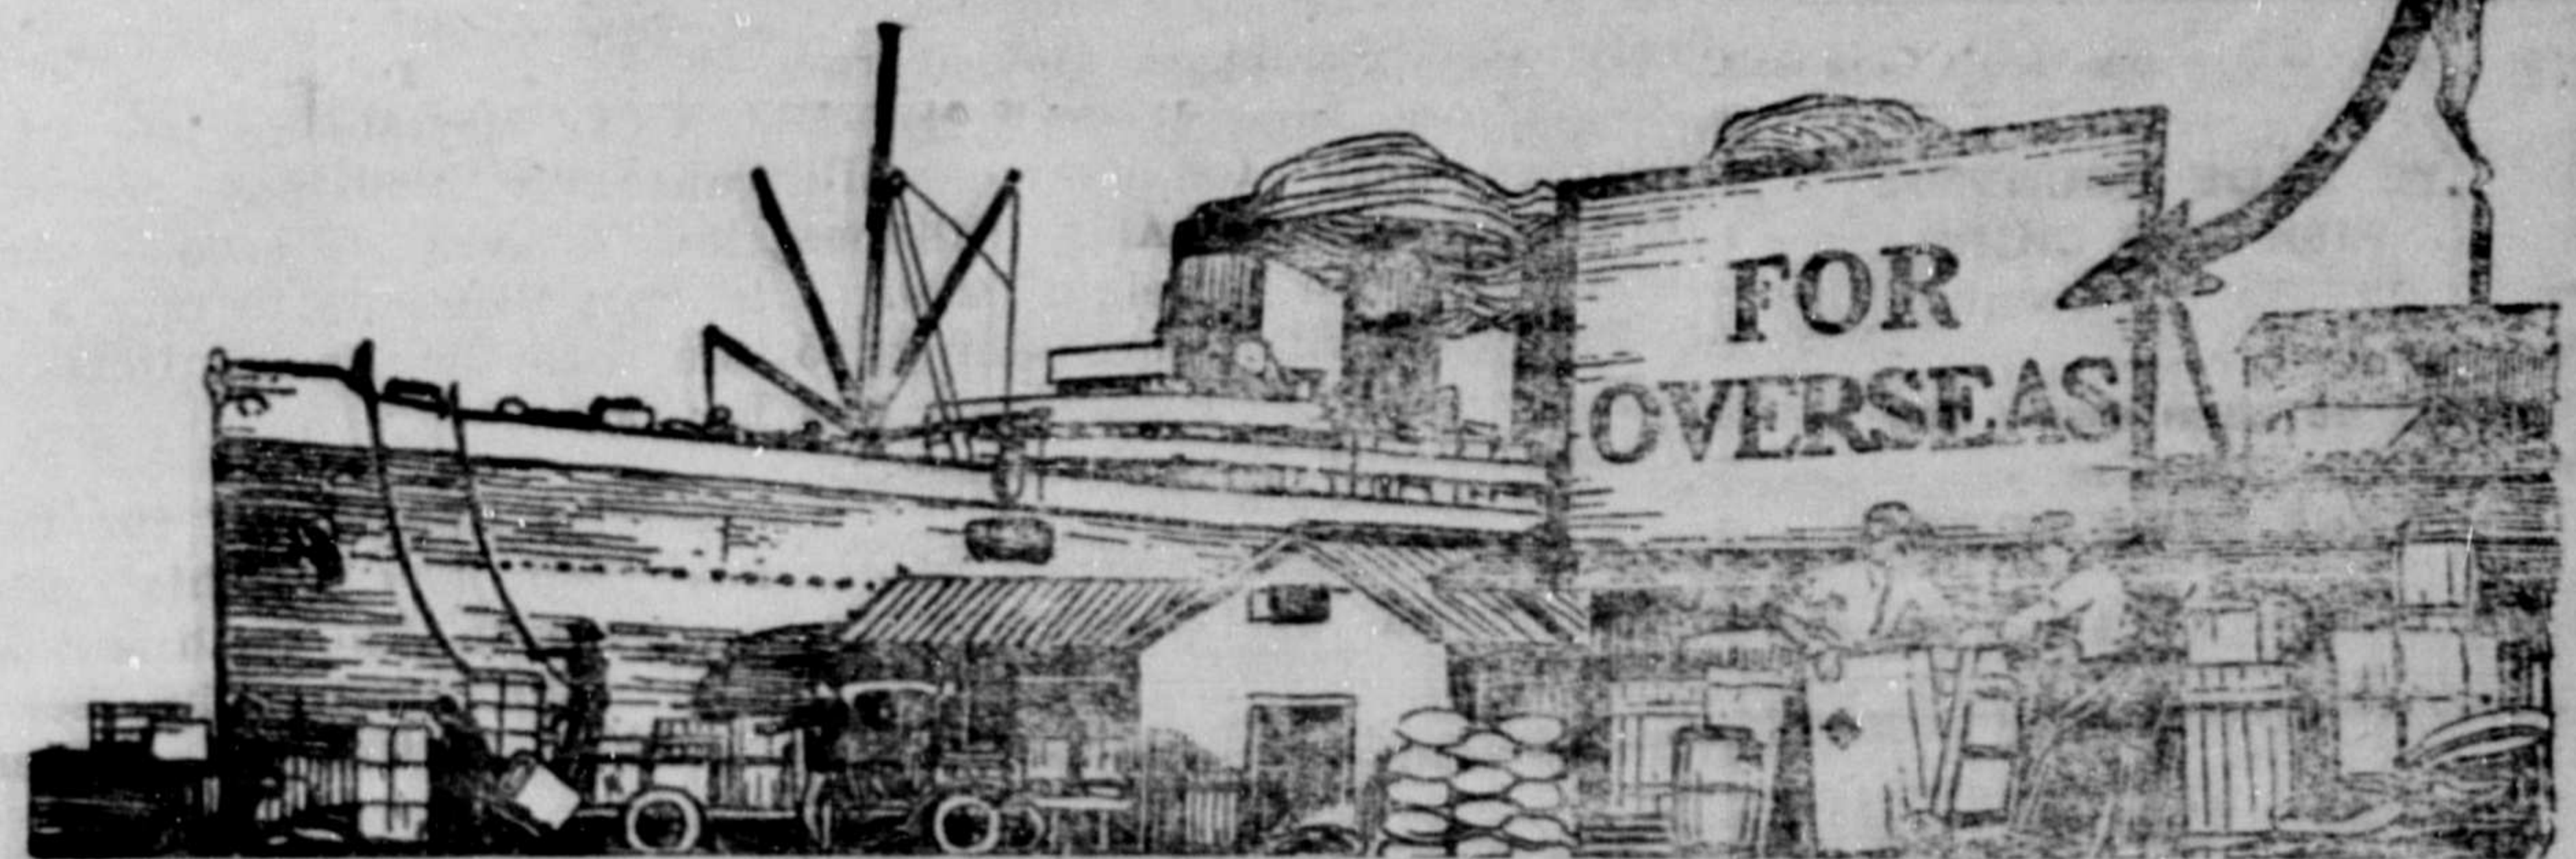

Every cent you spend represents that much effort because somebody must do something for you in order to earn that cent—somebody's effort must be given to you instead of to the war.

Therefore the less you spend—the less of somebody's effort you take for your individual use—the more will you leave in the national surplus for war effort.

The war can be won only by the surplus strength of the allied nations. The money each individual saves represents that surplus strength.

So the truly loyal Canadian will use less, spend less, and save more, to help to win the war.

The Minister of Finance

## SAM BOB GABRIAL DROWNED AT OCEAN FALLS RECENTLY

Death Officially Reported This Morning; Must Have Struck Something when He Fell.

The death by drowning of Sam Bob Gabriel, of Ocean Falls is officially reported this morning. The deceased was an Indian, and he was employed on the boom. He had been repeatedly warned not to walk on the logs in the water without first having corks in his shoes. This he omitted to do, however. There was no one beside him when he fell into the water, although some other men working some distance away, saw the accident. By the time they reached the spot, however, no trace could be found of the man.

The accident happened at 10.30 in the morning, and it was not until 1.30 in the afternoon that the body was recovered, some twelve feet from the spot where he fell. It is thought that he must have struck something when he fell, rendering him incapable of saving himself.

Sam Bob Gabriel belongs to Lillooet, where his parents live. He was a young man of 23, was married and lived with his wife at Ocean Falls.

## BALL TEAM MAY GO TO PLAY GRANBY

An Effort Being Made to Take Local Pill Tossers to Smelter Town for Return Match.

An effort is being made to take the Prince Rupert baseball team to Anyox in order to play a return game with the ball artists of that thriving mining town. It is possible that the Prince Rupert will carry them north on Saturday and return, leaving about four or five o'clock.

There has been a general desire to see a game of baseball between the purely home teams of Anyox and Prince Rupert. When playing here it is understood that there were imported men on both sides. This would give an opportunity for a great many Prince Rupert people to see the wonderful developments which have been going on at the smelter town. There would be time to see the new coke plant, the smelter and the mine, to witness a good ball game and to have a pleasant steamer ride home during the evening, arriving in time to go to bed with respectable people.

If the ball team goes it is understood that there will be a big bunch of fans go north with them.
