## BULGARIA IS OUT

### ACCEPTS TERMS OF ALLIES AND QUILTS

#### BALKAN STATES IN TURMOIL AND AUSTRIA IS BECOMING EXCITED

##### BULGARIA ACCEPTS TERMS OF ALLIES FOR ARMISTICE AND WILL DROP OUT OF THE WAR

Germany Reported to be Withdrawing from Roumania; Peace Demonstrations at Sofia; Excitement at Budapest; Austrian Crown Council Summoned to Consider Situation.

London, September 30.—Bulgaria has accepted the Allies' terms for an armistice and will drop out of the war.

Paris, September 30.—Anti-German and peace demonstrations in Sofia have assumed a serious character, disturbances having taken place even opposite the Royal Palace, according to information reaching Zurich. Communications between Vienna and Sofia are reported to have been interrupted, while excitement in Budapest is running high. The Austrian Crown Council has been summoned and the principal Hungarian political leaders have arrived in Vienna, it is stated.

Paris, September 30.—The German forces of occupation in Roumania began to retire from that country on Friday, according to information received in Swiss political circles. There are persistent rumors in Switzerland that the Roumanian population is revolted. German civil authorities are said to be removing their archives hastily.

##### PRISONERS IN PALESTINE NOW NUMBER 50,000

to Friday Night 325 Guns Had Also Been Counted—Cavalry Still Driving Enemy.

(Special via G. T. P. Telegraphs.)

London, Sept. 30.—Prisoners to number of 50,000 and 325 guns had been counted by the British in Palestine up to Friday night. In spite of the Turkish resistance in the region of Tiberias, the British have forced further passages of the Jordan. To the south, British cavalry drove the enemy northward through Mezirab and have joined forces with the forces of the King of the Hedjaz.

##### MINNESOTA STRUCK MINE

(Special via G. T. P. Telegraphs.)

Washington, Sept. 30.—The American battleship Minnesota struck a mine early yesterday off the Delaware breakwater. There were no casualties and the ship proceeded to port under her own power.

##### SECOND PEACE NOTE IS EXPECTED SOON

Paris, Sept. 30.—Rumors are persistent in Vienna political circles to the effect that Baron Burian, Foreign Minister, soon will send to the belligerents a second peace note. This note is reported to be along the same lines as the first, but will contain more precise statements, which he is said to believe will modify the terms of the Entente.

##### CLYDE STRIKERS ARE ORDERED BACK TO WORK

(Special via G. T. P. Telegraphs.)

London, Sept. 30.—Although strikers in Clyde shipyards had voted by a small majority against returning to work, their executives have ordered them to resume operations.

##### "THE THINGS WE LOVE" AT THE WESTHOLME

Wallace Reid and Kathlyn Williams are the two artists featured in the play at the Westholme this evening. "The Things We Love" being a Lasky production, is one of the best, and it should delight all who see it. There will also be a fine two-reel L-KO comedy.

##### FISH ARRIVALS

The following boats have arrived with their catches: H. & R., 4,000; Niagara, 12,000; Lincoln, 8,000; Eastern Point, 3,000; Director, 3,000; Vesta, 8,000; and Sadie, 3,000 lbs.

##### CAMBRAI IS LIKELY TO FALL VERY SOON

London, Sept. 30.—The 63rd Naval Division has reached the southern outskirts of Cambrai. The Canadians are on the outskirts to the northeast. This probably means that Cambrai will fall very soon.

V. O. O. Coons, of the International Chemical Co., who were operating in the kelp industry on the Queen Charlottes, arrived in the city on Saturday.

##### AN IMMENSE NUMBER OF PRISONERS TAKEN BY THE ALLIES RECENTLY

(Special to The News via G. T. P. Telegraphs.)

Paris, September 30.—French, British, American and Belgian forces in the last three days have captured 40,000 prisoners and 300 guns. Since July 18 the Allies have captured 200,000 prisoners, 3,000 guns, 20,000 machine guns and enormous quantities of material. This does not take into account operations in Macedonia and Palestine.

##### BELGIAN TROOPS ADVANCE AND TAKE MANY PRISONERS AND CAPTURE POSITIONS

(Special to The News via G. T. P. Telegraphs.)

London, September 30.—Dixmude has been captured by the Belgian troops. Belgians also have taken Zarren, Stadenberg, Passchendaele, Moorslede and part of Westroesebeke. This means an advance of several miles. After breaking up the violent enemy counter attack, the Belgians captured Terreest Height and advanced to within less than two miles of Roulers. The number of prisoners taken since yesterday exceed 5,500. More than 100 guns and numerous machine guns and bomb throwers and much war material has been captured in this sector.

##### SOVIET TROOPS ARE RETIRING

Bolsheviki Admit Being Worst in Northern Russia; Japanese Are Moving in Siberia.

(Special via G. T. P. Telegraphs.)

Amsterdam, Sept. 30.—A Russian wireless report received from Moscow describing the operations of September 25 admits that the fighting on the northern front is going unfavorably for the Soviet troops, who are retiring at various points, including Kotlas. On the eastern front strong forces of Czechoslovaks are advancing from two points against Altayevsk north of Ekaterinburg.

London, Sept. 30.—In eastern Siberia Japanese mounted troops marched eastward from Chita and northwest from Blagovestchensk and have effected a junction at Rululov, 306 miles northwest of Blagovestchensk, according to a Japanese official statement.

##### CIRCE SUNK

(Special via G. T. P. Telegraphs.)

Paris, Sept. 30.—The French submarine Circe was sunk by an Austrian undersea boat on Sept. 30. The second officer was the only survivor.

##### ARMIES OF ALLIES MAKE DISTINCT PROGRESS ON ALL SECTORS OF WEST FRONT

IN ADVANCE NEAR YPRES 6,000 PRISONERS ARE TAKEN; MANY IMPORTANT TOWNS TAKEN AND ST. QUENTIN IS EXPECTED TO FALL SOON

(Special to The News via G. T. P. Telegraphs.)

London, September 30.—Latest despatches from the western front say that everything is going well and that the Allies have made distinct progress on all sectors under attack. Between Dixmude and Ypres, 6,000 prisoners have been captured, and the Germans have been pressed back from four to five miles. The fall of Cambrai is considered only a matter of time, and the Allies have gained an important footing on the eastern side of the underground canal in the neighborhood of Bellicourt and there is every likelihood that St. Quentin soon will share a similar fate.

##### VICTORY LOAN PRELIMINARY MEETING HELD

Mayor McClymont Has Been Appointed Chairman of Executive for Campaign Which Opens October 28.

At a preliminary meeting to organize for the Victory Loan campaign which commences October 28 and closes November 15, Mayor McClymont was appointed chairman of the executive committee and a small select committee was formed for the purpose of choosing a permanent executive of eight members to conduct the campaign.

Mr. McDiarmid of Vancouver, who has charge of the organization of this section of the northern part of the province was present and explained the method to be adopted.

It was decided that Prince Rupert district would extend as far as Telkwa and that everything beyond that easterly would be in Prince George. Graham and Moresby Islands are separate districts, while Granby is to look after Alice Arm and Stewart. Port Simpson will be canvassed from here and so will Porcher Island.

Last year this district raised \$200,000. This year the objective is \$300,000. A secretary will be appointed at once, whose duty it will be, among other things, to report to the head office in Vancouver every day. No big salaries will be paid, purely a nominal sum going to the secretary. The organizers are giving their services free and everything will be run on as economical a basis as possible.

##### The Need.

The need of money is just as great today as it ever was and in order that the balance of exchange may remain stable it is necessary that Canada raise a large loan. This will be used to purchase food and clothing for the men that are sent from here to the front. It provides the sinews of war.

It is understood that every man will be canvassed and that all will be expected to purchase bonds to the full extent of their ability.

Paris, Sept. 30.—On the western end of the Chemin des Dames the French have reached the river Ailette at two points. In Champagne after repulsing strong attacks, the French have taken the Heights of Bellevue to the northeast of Gratreuil.

In Champagne and north of the Aisne the armies of Generals Gouraud and Mangin resumed the attack Saturday. The Germans are resisting desperately in Champagne.

North of the Aisne the Germans are retiring on the Ailette. French troops have captured Filain, Chavignion, Ostel and Saint Berthe. The French have occupied the Forest of Pinon and reached the Ailette south and also east of Chavignion. On the sector between Ostel and Chavignion, just north of the Aisne, the enemy made strong resistance. On the Champagne front violent attacks were launched by the Germans yesterday but they were broken up. The French resumed their progress, especially northeast of Gratreuil, where they captured the Heights of Bellevue.

This is the one time in the history of the war when there must be no holding back. The allied armies are winning and there is everything to encourage.

**Bulgaria is Out of War.**

The news that Bulgaria is out of the war is the biggest news that has come from Europe since war was declared. It is the beginning of the breaking up of the Central Powers, and the moral effect on the other countries must be immense. Austria will be in a turmoil directly and if the trouble does not spread to Germany it will only be because of the manner in which the people are held down by the military caste.

The news from other parts of the front today is also good and while there will be temporary setbacks perhaps, the forward move should be steady until the final end.

Bulgaria was the only formidable trouble in the Balkan States. It was that country that kept Turkey in the war, because it was sure that if Turkey deserted Bulgaria would get a big slice of her territory.

The terms of the settlement with Bulgaria have not, at the time of writing, been sent through, but it is certain that they are perfectly satisfactory to the Allies.

Turkey will now want to make peace too, for she will find herself in an awkward position. Her armies are being driven out of Palestine and the German control of the Holy Land is gone forever. Taken together with the forward drive of the Allies in France, the present position of the Huns is anything but hopeful. The long period of waiting is at an end and now like Pitt in the days of the Georges we ask every morning "What new victory is there today?"

**German Rulers Must Settle With People.**

Dispatches this morning state that since July 18 the Allies have captured 200,000 prisoners. That is an enormous number, many more than would seem from the detailed news that comes from day to day. It has nothing to do with the losses in killed and wounded which doubtless are still larger. It is an indication of how the war is going.

The Germans must now be aware that they are losing and that they have nothing to hope from holding on. Just what they will do does not become apparent. They will have to act quickly if they expect to save anything. That they will do so is hardly likely for they have been deceiving their own people as to the actual condition of affairs and now it will be difficult to persuade them that they have lost. The worst foe that the rulers of the Fatherland will have to settle with, when the collapse comes, will be the people of their own country. They will have a settlement of accounts and by that time there will not be a Hohenzollern left there.

**Substitutes For Aeroplane Spruce.**

The wheat that is grown furthest north is of the best quality. It has more sustaining properties in it. So it is with the spruce. The timber is of a better quality than that grown further south and for that reason is in greater demand. It is tougher and more durable and well suited to aeroplane construction. The difficulty is that the timber is somewhat limited in amount. Just now the timber near the shore is being logged and soon it will be necessary to go farther inland for the supply. After that what? is the question that the members of the Munitions Board are asking. To answer that question they have been here investigating the possibilities of other timber replacing the spruce. Naturally they are not telling too much in regard to the business but what they have told is interesting, especially to those who are in the lumber business.

**LAND REGISTRY ACT**  
(Section 36 and 134.)

Re Application No. 10118-L. File 5960.  
TAKE NOTICE that application has been made to register Brenton G. Moore and Roy L. Moore of Prince Rupert, B.C. as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 28th day of November, 1917, of ALL AND SINGULAR that certain parcel or tract of land and premises situated, lying and being in the Municipality of the City of Prince Rupert, more particularly known and described as Lot eighteen (18), Block eighteen (18), Section six (6), City of Prince Rupert, Map 923. You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—  
"And in default of a caveat or certificate of its pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and barred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title of the above-mentioned lands, in the name of Brenton G. Moore and Roy L. Moore.  
AND WHEREAS on investigating the title it appears that prior to the 12th day of October, 1916 (the date on which the said lands were sold for overdue taxes), you were the assessed owners thereof.  
FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of the aforesaid parties unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

## WONDERFUL IS WOMEN'S WORK IN GT. BRITAIN

Earle's Daughters Work in Munition Factories While Kitchen Maids Become Skilled Artisans.

### OTHERS RUN CRANES AND BIG MACHINERY

A wonderful panorama can be built up "in the mind's eye" by any one gifted with the least bit of imagination. The setting is the world and the front of the stage is those portions of the world known as Great Britain and "Flanders Fields." The marshaling of men from all quarters of the globe all bound for the field of honor would make a sight to thrill the most impassive but far beyond this picture is the other—the troops of women hastening to the same spot and serving wherever the need is greatest. From office and shop, from farm and city, from domestic service and from high schools and colleges; from homes of leisure and from the little attic work shop of the small dress-maker and milliner; from the far-off corners of civilization, from New Zealand and Australia, South Africa and Canada comes this endless procession of women all eager to serve and (what is better than all else) all capable of serving.

#### Side by Side.

At the very beginning it was no uncommon sight in English munition factories to see such a collection as this: side by side an earl's daughter and the maid who had tied this titled lady's shoes in the days of peace, a shop-keeper's widow, a Girton graduate, a cook and a girl from a South African farm. Some of those who before the war found life rather tiresome have achieved distinction in the advanced processes of munitions making. Lady Scott, wife of the Antarctic explorer, took up this sort of work at the first call; Lady Gertrude Crawford, who is at present head of Women's Flying Corps, began her public service as supervisor of women's work in shipyards.

#### Martial Service.

Women, who previous to the war were kitchen maids, dress-makers, governesses or children's maids, have accomplished remarkable things in the engineering and chemical trades, in electrical works, at shipbuilding tasks and draughting. More than once young girls have been unable to resist the call of the blood. Descended from soldiers and sailors and finding that for the first time in generations their family had no man to send to the colors these girls have seized the first opportunity to do martial service.

#### Building Ships.

Some of the things that women are doing today, besides making munitions, are almost past belief. In tool and gauge making women who previously thought "a miss is as good as a mile" have mastered the advanced processes and are finishing to measurements that literally correspond to the fraction of a hair's breadth. Quite different from this but equally amazing is the very common sight of women perched on cranes moving among the rafters of the factory roof riding back and forth quite unafraid and guiding the movement of great molten ingots far below. Engineering seems to be woman's work and one competent to judge both sides of the question says that with a year or more of additional training he would not hesitate to build an ocean-going ship entirely by women's work. The Ministry of Munitions is taking action continuously to reduce hours of overtime, abolish Sunday labor and to protect the workers and much of this is made necessary, doubtless, by the fact that the zeal of the women workers allowed neither holidays nor Sunday rest periods.

At the lecture in the Westholme yesterday afternoon Corporal Nelson told how the town of Hazelton was honored by him while he was in Germany. When asked by the Germans where he was born he immediately answered, "Hazelton, B. C." knowing that if he had said Iceland he would have been badly treated by the Huns who always illtreat any native of a neutral nation who is captured.

## LECTURER IS COMING HERE ON THURSDAY

Frank B. Riley to Speak Under Auspices of I. O. D. E. —Wonderful Set of Pictures.

An interesting announcement is made today of a lecture to be given in the Empress Theatre on Thursday evening next. This will be profusely illustrated with fine colored pictures which have been chosen as the beauty spots of the whole Pacific Northwest, and they include the states of Oregon and Washington as well as British Columbia. Frank J. Riley, who is lecturing on behalf of the Pacific Northwest Tourist Association, has the reputation of being a fine speaker. He has given a series of lectures and addresses in all the big cities, has been the guest of honor of the Rotary Clubs, and various patriotic organizations. From here he goes to Vancouver, Victoria and the big cities of the Pacific coast further south.

A letter from Mayor Todd of Victoria, who is president of the Association under whose auspices he comes, especially recommends the lecture. It may also be mentioned that all the proceeds will go to the Daughters of the Empire as the expenses of the tour are paid by the organization that sends him out.

The Minister of Lands has arranged for the purchase of a number of vacant lots in South Vancouver to be given to returned men who wish homesites on which to build. The cost is in the neighborhood of \$125 each.

"The food crisis is grave and urgent beyond the possibility of exaggeration."—Sir Robert Borden

## Help To Feed Yourself

Are you only a "destroyer of rations"  
when you might be a food producer?

Every pound of food that can be grown in Canada and made available for export, will be desperately needed by those who are bearing the brunt of the fighting and the suffering.

The amount of food produced this year will be absolutely limited by the extent to which people in cities and towns become food producers—there is no other labor reserve.

### WHERE DO YOU BELONG?

#### On the Farm?

Thousands of men are urgently needed on farms in this province to make possible increased production of food. Those who could go and yet hold back, should not forget that, unless production is greatly increased, hundreds of thousands of people will die of starvation.

#### In the War Garden?

By growing vegetables in home gardens or on vacant lots, and thus helping to feed themselves, city and town people can leave the farmers free to grow more food for export. All that is produced in this way is gain and a net addition to the national food supply.

War Garden service is not sufficient for the man whose rightful place is on the farm. But the War Garden does offer an opportunity for tens of thousands of people, whose circumstances oblige them to remain in the city, to have at least a small part as food producers. Interest the boys and girls in the War Garden, for they too can help to grow food. If there is a garden or vacant lot movement in your community associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign.

NAVIGABLE WATERS PROTECTION ACT

R. S. C. Cap. 115.

The Georgetown Saw Mill Company,  
Limited, hereby gives notice that it has  
under section 7 of the said Act deposited  
with the Minister of Public Works at Ot-  
tawa and in the office of the District Reg-  
istrar of the Prince Rupert Land Registry  
District a description of the site and a  
plan of wharf proposed to be built on Lot  
5 of Block "F" Prince Rupert Townsite,  
as shown on Plan 923 filed in the Land  
Registry Office.And take notice that after the expiration  
of one month from the date of the first  
publication of this notice The Georgetown  
Saw Mill Company, Limited, will under  
section 7 of the said Act apply to the  
Minister of Public Works, at his office in  
the city of Ottawa, for approval of the  
said site and plan and for leave to con-  
struct the said wharf.Dated at Prince Rupert this 19th day of  
September, 1918.THE GEORGETOWN SAW MILL COM-  
PANY, LIMITED. 019**SYNOPSIS OF  
LAND ACT AMENDMENT**Pre-emption now confined to surveyed  
lands only.Records will be granted covering only  
land suitable for agricultural purposes  
and which is non-timber land.Partnership pre-emption abolished,  
but parties of not more than four may  
arrange for adjacent pre-emption, with  
joint residence, but each making neces-  
sary improvements on respective claims.Pre-emption must occupy claim for  
five years and make improvements to  
value of \$10 per acre, including clearing  
and cultivation of at least 5 acres, be-  
fore receiving Crown Grant.Where pre-emptor in occupation not  
less than 5 years, and has made propor-  
tionate improvements, he may, because  
of ill-health or other cause, be granted  
intermediate certificate of improvement  
and transfer his claim.Records without permanent residence  
may be issued provided applicant makes  
improvements to extent of \$300 per an-  
num and records same each year. Failure  
to make improvements or record  
same will operate as forfeiture. Title  
cannot be obtained on these claims in  
less than 5 years, with improvements of  
\$10 per acre, including 5 acres cleared  
and cultivated, and residence of at  
least 2 years.Pre-emptor holding Crown Grant may  
record another pre-emption, if he re-  
quires land in conjunction with his  
farm, without actual occupation, pro-  
vided statutory improvements made and  
residence maintained on Crown granted  
land.Unsurveyed areas, not exceeding 20  
acres, may be leased as homesteads;  
title to be obtained after fulfilling resi-  
dential and improvement conditions.For grazing and industrial purposes,  
areas exceeding 540 acres may be leased  
by one person or company.**PRE-EMPTORS' FREE GRANTS ACT.**The scope of this Act is enlarged to  
include all persons joining and serving  
with His Majesty's Forces. The time  
within which the heirs or devisees of a  
deceased pre-emptor may apply for  
title under this Act is extended from  
one year from the death of such person,  
as formerly, until one year after the  
conclusion of the present war. This  
privilege is also made retroactive.**TOWNSITE PROPERTY ALLOTMENT****ACT.**Provision is made for the grant to  
persons holding uncompleted Agree-  
ments to Purchase from the Crown of  
such proportion of the land, if divisible,  
as the payments already made will  
cover in proportion to the sale price of  
the whole parcel. Two or more persons  
holding such Agreements may group  
their interests and apply for a propor-  
tionate allotment jointly. If it is not  
considered advisable to divide the land  
covered by an application for a propor-  
tionate allotment, an allotment of land  
of equal value selected from available  
Crown lands in the locality may be  
made. These allotments are conditional  
upon payment of all taxes due the  
Crown or to any municipality. The  
rights of persons to whom the pur-  
chaser from the Crown has agreed to  
sell are also protected. The decision of  
the Minister of Lands in respect to the  
adjustment of a proportionate allotment  
is final. The time for making applica-  
tion for these allotments is limited to  
the 1st day of May, 1919. Any applica-  
tion made after this date will not be  
considered. These allotments apply to  
town lots and lands of the Crown sold  
at public auction.For information apply to any Provin-  
cial Government Agent or toC. R. NADEN,

STORY OF ESCAPES  
FROM HUN PRISONS**Large Audience in Westholme  
Theatre Yesterday Thrilled  
by Speaker for Red  
Cross Fund.It was a great human interest  
story that was told by Corporal  
Neilson to a large audience at the  
Westholme theatre yesterday  
afternoon. It was replete with  
humor and pathos. There was no  
flourish of oratory nor were there  
measured periods. It was just a  
plain story, but the flashes of  
humor were an indication of the  
spirit which carried him and his  
companions through so many  
tight places and helped him to  
get out again.The story of his last escape  
when he was pursued by blood-  
hounds which were baffled by the  
water of the swamps was one of  
the most touching parts of the  
narrative. It was possible to feel  
the loneliness of the horrible  
quagmire country, to see the two  
companions being carried away  
by the stream and then to join  
with the speaker in the relief  
which came to them when they  
found that they were no longer in  
Germany. The audience pictured  
the disappearance of the feed of  
ham and eggs, the first for over  
a year, and joined in spirit in the  
good time they had in London.The News has already given an  
outline of the escapades of the  
Corporal but to hear of them in  
detail was another thing alto-  
gether. He pictured the brutal  
attitude of the German men and  
women toward the Canadian sol-  
dier, gave interesting pictures of  
life behind the trenches, and with  
characteristic nonchalance made  
light of the dangers of No Man's  
Land.When he and the Irishman were  
in the bad bit of trench and he  
turning to his companion said:  
"Guess we can stick it, Pat," the  
reply, "You're damn right, we can  
stick it," tells the story of the  
war. Here were an Icelander and  
an Irishman, fighting side by side  
and enduring the horrors of war  
for the sake of an ideal. And yet  
some people sometimes say that  
ideals do not mean anything.How he was captured when  
scouting in no man's land, his re-  
fusal to work for the Germans  
and the troubles which came of it,  
the two attempts to escape which  
were failures and the third rush  
for liberty and its final success.  
All the story was intensely inter-  
esting, and the colloquial lan-  
guage used and the intensity of the  
speaker added to the charm.Fred Peters, K. C., presided, Dr.  
Grant moved the vote of thanks,  
and Mrs. McIntosh thanked the  
speaker on behalf of the Red  
Cross.A collection was taken on be-  
half of the Prisoners of War fund  
which resulted in the tidy sum of  
\$76.10 being secured. The West-  
holme Theatre management gave  
the use of the theatre free.**ONE QUARTER GRAIN  
CROP UNPRODUCTIVE**Ottawa, Sept. 27.—In conse-  
quence of drought and the severe  
frosts of July, the areas in the  
three prairie provinces and in  
British Columbia that will fail to  
produce grain crops are excep-  
tionally large. The returns show  
that for all four provinces 13 per  
cent. of the areas sown to wheat  
will be a total loss, whilst 13 per  
cent. will be cut green, the area  
not producing grain being there-  
fore 26 per cent. For oats the  
percentages are 8 total loss, 15  
per cent. cut green, 23 per cent.  
not producing grain; for barley  
6 per cent. total loss, 7 per cent.  
cut green, 13 per cent. no grain;  
for rye 10 per cent. total loss, 7  
per cent. cut green, 17 per cent.  
no grain; for flax 14 per cent.  
total loss.**WATER NOTICE**TAKE NOTICE that R. E. Neill, whose  
address is Stewart, B. C., will apply for a  
licence to take and use seven cubic feet  
of water per second out of the North Fork  
of Cascade Creek, which flows southerly  
and drains into Salmon River. The water  
will be diverted from the stream at a point  
about 15,000 feet from Cascade Creek.  
This notice was posted on the ground on

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.  
"For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit. Finally, I decided to try 'Fruit-a-tives'. Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and light chores about the place".

## HENRY FORD ON THRIFT

"By thrift we do not mean the hoarding of money, but the intelligent saving and investing of it. This saving and wise investing—this thrift—must not be confined to mere money and other material wealth, but must be applied to the elements of mind and body—for in thrift to make for growth there must be a surplus of human power, and in such proportion will the income work for your health and your habits, and also lay up a portion of it to have, and to hold, and to use, when some of the unlooked-for contingencies of life arrive."

"The great street car systems of their country get their power from central stations, direct from generators, but they are also ever storing in batteries a sufficient quantity of current so that when the producing machinery shall be incapacitated for a season there will be something to draw on so that the wire may at all times be kept alive and the cars moving."

"Get a battery for yourself, in the shape of a bank account, and see that day by day something is stored up for the time when either your producing mechanism may be incapacitated or be worn beyond repair."

## MINING ACTIVITY IN HAZELTON DISTRICT

The recent suspension of work on the Rocher de Boule mine marks the end of the first stage of its development.

While the Montana Continental Development Company has made official announcement of its plans for the future, it seems to be taken for granted by men who have long been in its employ and who should be able to make a pretty good guess, that the company's next move will be to install a milling plant to treat the immense tonnage of low grade ore which has been developed during the past four or five years in which the mine has almost continuously been producing ore of a shipping grade.

The New Hazelton Gold Cobalt Mines, Limited, are shipping another carload of ore from their Hazelton View property, and George Beirnes' pack train of thirty animals has returned to Hazelton after delivering the goods to Trumville siding.

Joseph Hicks and James Latham bring good reports from the head of Boulder Creek, where they have been doing assessment work on some ground which they located last July. This ground lies in a basin where there is considerable wash and but few exposures of rock formation, but the boys have opened at intervals for two or three hundred feet what appears to be a remarkably wide and strong vein.

At one point they have made a surface cross-cut which shows about forty feet of highly mineralized vein matter with ten feet of ore lying next to what looks like a hanging wall of granite. The ore is an intermixture of yellow and grey copper, a representative sample of which assayed: Copper 13.8 per cent, silver, 2 ounces, gold, 21 ounces, or a total value of \$167.

This important if not sensational find is but ten or twelve miles from Seaton station on the Grand Trunk Pacific railway and can be made easily accessible by cutting a horse trail through the timber for about ten miles.

## Keeping up with the Joneses

One great bar to the practice of thrift to-day is the tendency to let others set for us our standards of living.

MRS. Jones appears on the street in a new gown and at once her neighbour vows she'll have one like it. Or if a new motor car is delivered to a certain home, a nearby family, not to be handicapped in the social race, plan to discard their old car for a new one. And so it goes from one thing to another—a ceaseless, senseless competition which often ends in debts, distress and disaster.

Such silly rivalry is bad enough indeed in normal periods. It is positively unpatriotic in times like these when the country needs all available labor and material

and every available dollar with which to carry on the war.

It is perhaps difficult for us to appreciate that the purchase of things we do not really need may be the direct cause of loss of life on the firing lines.

But you can't escape the fact, no matter how unpleasant the thought, that millions of individual selfish demands at home may prolong the war by causing a shortage of the very things essential to our success at the front. For the money we spend in satisfying these desires represents equipment, clothing, shot and shell that are so urgently needed for our boys in France.

Remember that when you are tempted to spend foolishly in an effort to "keep up with the Joneses."

## MINERAL ACT.

### CERTIFICATE OF IMPROVEMENTS.

NOTICE  
Cariboo Fraction Mineral Claim, situate in the Skeena Mining Division of Cassiar District. Where located:—At the head of Alice Arm in the Skeena Mining Division.

TAKE NOTICE that I, J. E. Stark, owner of the above claim, Free Miner's Certificate No. 14174, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.  
DATED this 5th day of July, A.D. 1918.

## Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy "SPECIAL" if tires which somewhat resemble it in appearance resembled it in efficiency?

**Prince Rupert, B. C.****PRINCE RUPERT WAS  
BEATEN BY ANYOX  
AT BALL YESTERDAY**

Loose Play on Part of Locals Lost  
Them Match With Smelter  
Town Team.

The baseball game at Anyox  
was not altogether a success. The  
Prince Rupert team was beaten,  
but that would not have mattered  
if they had put up a good fight  
and lost like men. As it was no  
one was satisfied with the result.  
Play was loose throughout and  
the game was given away. The  
score of 13 to 3 was but an inci-  
dent.

Green pitched well for the  
visitors and Shakespear for the  
home team handled the ball well.  
Ruffner, Morrish and Maloney  
scored for Prince Rupert.

The local lineup was as follows:  
Fox, left field.  
McLean, catcher.  
Morrish, right field.  
Hardy Third.  
Maloney, first.  
Ruffner, short stop.  
Summers, centre field  
White, Second.  
Green, pitcher.

The Anyox men were all down  
to meet the visitors and treated  
them in fine style. They display-  
ed good spirit of sportsmanship  
and everything possible was done  
to make them welcome. This  
was much appreciated. Accom-  
panying the team from here were  
over seventy fans. They were  
shown over the smelter, the mine  
and the new coke ovens and they  
thoroughly enjoyed the outing.

**TENNIS GAMES ALL  
WON BY PRINCE RUPERT**

Visitors to Anyox Took Every Set  
Both in Singles and  
Doubles.

The local tennis players made  
mince meat of the efforts of the  
Granby club representatives in  
the games yesterday. Before a  
good crowd of spectators, one af-  
ter another of the Prince Rupert  
men won from their opponents,  
not one game going to the home  
side. Considering that the courts  
were strange, this was a wonder-  
ful feat. The following were the  
scores:

Doubles.		
Fulton & Mahood, vs.	6	6
Grant & Parsons	4	3
Singles.		
Mahood vs.	7	10
Grant	5	8
Fulton, vs.	6	2
Parsons	4	6

Still another accident happened  
yesterday which perchance might  
have had very serious results,  
when little Marguerite Beaumont  
fell over the sidewalk on Borden  
Street, just across the street from  
her own home. The little one  
was unconscious for some time,  
but luckily no bones were broken  
and this morning is able to be  
around. The fence on the street  
had been broken and permitted to  
remain broken for some time.  
The number of accidents of this  
nature lately has been increasing.

**SAVE  
MAKE CANADA  
SECURE****SUPERINTENDENT OF  
SOLDIER SETTLEMENT  
HAS BEEN APPOINTED**

Major Clark Gets Important Post  
Under Minister of Lands in  
Provincial Government  
Service.

Victoria, Sept. 30.—With the  
title of Superintendent of British  
Columbia Soldier Settlement, and  
in pursuance of the policy of the  
Provincial Government to initiate  
an aggressive programme for the  
placing of returned soldiers on  
the land of the province, the Hon.  
T. D. Pattullo, Minister of Lands,  
announces the appointment of  
Major John W. Clark.

Under the jurisdiction of the  
Minister it will be the duty of the  
new official to administer the sol-  
diers' Land Act, passed at the  
1918 session of the Legislature,  
and to superintend generally mat-  
ters affecting soldier settle-  
ment coming within the purview  
of the Department of Lands, and  
within the immediate concern of  
Mr. Pattullo.

**Co-Operative Plans.**

It will be understood that with  
the grants of land already set  
aside by the Provincial Govern-  
ment at Sechart, Agamemnon Bay,  
and Stewart Lake, the season's  
survey of which will be brought  
to a conclusion at the end of the  
present month, there will be a  
vast amount of detail work inci-  
dental to actual settlement. With  
this in mind and with the desire  
that the returned men shall be  
brought into close touch with the  
machinery of the Department now  
to be set in motion, the Minister  
has no hesitation in recommend-  
ing the most effective medium to  
achieve this end.

**Attached to Third Army.**

Major Clark is especially quali-  
fied to undertake the duties now  
allotted to him by reason of the  
fact that he has been in close  
touch with agriculture for the  
past twelve years in Canada, while  
his younger days on his father's  
farm in the Old Country gave him  
his first insight into rural in-  
dustry.

During the period extending  
from the summer of last year and  
following a spell in the trenches  
with the 47th Battalion, Major  
Clark was seconded from the  
Canadian Expeditionary Force and  
appointed Agricultural Officer for  
the Third British Army under  
General Radnor, Director of Agri-  
culture for the British Armies in  
France.

This post was held by the Major  
with commendable success until  
March of the present year when a  
serious accident, caused when a  
troop train back of the lines dash-  
ed into his automobile and mir-  
aculously left him with his life,  
necessitated two and a half  
months in hospital, and finally his  
return to Canada.

**The Work Behind.**

As Agricultural Officer behind  
the lines upon Major Clark's  
shoulders rested the responsibility  
for the organization and adminis-  
tration of all agricultural work  
associated with the assistance of  
the French farmers, and the pro-  
vision of foodstuffs required by  
the Third Army. On the plan  
initiated by the Major, and with  
the ready adaptability of the sol-  
dier, farmers on the spot, mag-  
nificent results were obtained and  
enormous quantities of the much-  
needed vegetables were provided  
for both civilian and fighter.

The officials of the Imperial  
Munitions Board who have been  
visiting this part of the country  
investigating the possibilities of  
getting substitutes for spruce,  
have gone south. They were much  
pleased with their trip.

**THE POWER OF THE DOLLAR**

Never were extravagance and useless buying re-  
garded as so serious an evil as today. A greater evil  
still is the spending of one's money on silly pleasures.  
Canadians carry too serious a determination to ride  
through to Victory and to vindicate the stalwartness  
and endurance of the men at the front to tolerate any  
such laxity in their expenditures.

Our people generally are sizing up the power of  
the dollar as never before, and are investing their  
surpluses against a possible landslide after the war.  
This is real patriotism. It is carrying common-sense  
into national business. It is proving that the strength  
of a nation lies in her saving citizens.
