It seems likely that this year will see a bumper crop in Canada. With the stocks of merchants reduced and individuals needing repleaished elothing, there is bound to be greater activity to supply the demand. If a railway extension policy is adopted providing for the building of a line connecting westward with the Peace River country following an Empire arrangement providing better markets for Canadian produce, there is no doubt that Canada will be one of the first countries to return to a better financial condition and British Columbia will feel the impetus immediately.
