PRESIDENT OF PRUSSIAN DIET ASKS UNITED FRONT AGAINST ENEMY

RAW TROOPS BEING USED BY ENEMY ON EASTERN FRONT; SITUATION IS DESPERATE

(Special to The News via G. T. P. Telegraphs.)

With the British Army in France and Flanders, October 26.—The heavy losses which the Germans have sustained since the allied offensive began have forced the enemy to use raw troops brought from the eastern front. The enemy has now 195 divisions on the western front of which 183 are German infantry divisions, excluding 31 divisions withdrawn after they had suffered severe casualties during the past two weeks and six Austro-Hungarian divisions.

There are only 12 enemy divisions available in reserve on this front and none of these are fresh. The desperate situation which the enemy is now facing appears to be fully appreciated by many of the German people, according to letters captured along the front.

FLARE OF ACTIVITY SHOWN ON THE ITALIAN FRONT AND 3,000 PRISONERS ARE TAKEN

(Special to The News via G. T. P. Telegraphs.)

Washington, October 26.—There has been a sudden flare of activity on the Italian front after months of almost complete quiet. This has attracted quick attention today among military officials here. It is noted however that the first official report from Rome carefully refrained from describing the actions as a drive.

Nearly 3,000 prisoners were taken yesterday and this fact shows the surprise nature of the attacks and also it may indicate the waning morale of the Austrian army.

ALL PATIENTS ARE RECEIVING ATTENTION

Few Bad Cases of Influenza in
Town and General Improve-
ment Reported.

A thorough canvas of sections one and two in the city has been made by the newly appointed sanitary inspector, W. R. Martin, and in these districts there are no influenza patients who are not receiving attention. It was possible that in some places people might have been stricken down with the disease, and with no one knowing of their cases particularly, they might be lying without attention. So far, however, there are no very bad cases in sections one and two, which are not receiving attention, and the whole of the city will be canvassed in the same way to ensure that no patient is overlooked.

He also reports that there is a general improvement of the conditions in the sections visited.

ALICE WILL TAKE SOPHIA'S PASSENGERS

Will Be on Run During Time the
Other Boat is Laid Up; Tees
On Salvage Bent.

Late Flash; Victoria, B. C.—Word has been received from Juneau just as the paper is going to press that only the top mast of the Princess Sophia is above water.

Proceeding north at full speed, the Princess Alice which left Victoria at 11 o'clock on Thursday night, passed Dixon Entrance this morning on her way to Juneau to transfer the passengers from the stranded Princess Sophia. The Tees which was previously one of the G. P. R. Fleet and which is now fitted up by the B. C. Salvage Co., is also on her way north to stand by the Sophia. She is taking the place of the "Salvor" which is now engaged on trans-Pacific work.

The Alice on transferring the passengers from the Sophia will then take up the run southward which the Sophia would have taken and may be expected to arrive here on her way south Monday. So far there has been little information received locally regarding the condition of the Sophia, other than that she has apparently suffered no damage and is still watertight.

NO RELATIVES HERE

The death occurred at the General Hospital last evening of Daniel McKay, a single man living on First Ave., and an employee of the Grand Trunk Pacific Railway Co. at their car shops.

Mr. McKay was born in Scotland 37 years ago and so far as is known has no relatives here.

PRUSSIAN DIET URGED TO KEEP UNITED FRONT

Count Schwerin Said Never Before
Such a Grave Hour, With
Enemy Threatening.

(Special via G. T. P. Telegraphs.)

Berlin, October 26.—When the lower house of the Prussian Diet resumed its session in Berlin on Thursday Count Schwerin, the president, called upon the deputies to make a united front against the enemies of the country. He said that never before had the chamber assembled at such a grave hour with the enemy threatening to strike down the doors of the country.

PRINCE ALBERT FROM SOUTHERN ISLANDS AFTER STORMY TRIP

Took Settlers and Effects to Skide-
gate From Vancouver Island;
Passengers Returning.

The steamer Prince Albert arrived this morning early from Vancouver and the southern Queen Charlotte Islands completing a very rough trip, one of the roughest the boat has had. There was a big southeasterly gale blowing and the passengers were mostly sick. The Albert is a good boat, however, and a gale more or less with experienced officers in charge makes no difference to her.

At Lockport the cannery is closing next week and Mrs. Simpson, wife of Capt. Simpson of that place, returned to Prince Rupert on the boat.

Another passenger from Lockport was Mrs. Jordan who, with her little girl, has been visiting Mrs. Rennie. She has had a most enjoyable visit and will go south on the Prince Rupert, homeward bound.

The Prince Albert brought north to the Sandspit district four settlers and their effects. They have moved up from Vancouver Island as they think there is more scope for their activities on Queen Charlotte Island.

Among the passengers from the Islands was Bishop Bunoz who took some of the sisters over last week to help nurse the influenza cases. The sisters are still at Thurston Harbor, where the epidemic is still bad. The place is quarantined and the hospital full and several of the cases are very serious.

The steamer brought word that the cannery at Alliford Bay is closed for the season.

The Albert was loaded to the hatches with general cargo. After she has discharged and taken on cargo for Masset she will sail for the latter place tonight or in the morning.

HARD STRUGGLE OF AMERICANS TO HOLD POSITIONS NORTH OF VERDUN

(Special to The News via G. T. P. Telegraphs.)

With the American Army Northwest of Verdun, October 26.—There has been comparatively little alteration in the positions in the centre of the front, but the American footing in the Bellau Wood east of the Meuse was more securely fixed, notwithstanding the determined efforts of the Germans to force the Americans back.

At daylight the Germans counter-attacked four times, all being unsuccessful.

LATE ALDERMAN'S FUNERAL HERE TODAY

All Arrangements in Hands of
Masons, Whose Grand Mas-
ter is Officiating at
Grave.

The funeral of the late Alderman R. J. D. Smith is taking place this afternoon from the residence where a short service was held, Rev. W. E. A. Crux officiating.

At the grave the service is in the hands of the Tsimpsean Lodge A. F. and A. M., and the officers of Tyes Lodge are also in attendance. Worshipful Master Rev. W. E. Collison is conducting a short Masonic service and the arrangements are all in the hands of Masons, of whom the late alderman was a valued member.

The pallbearers are A. W. Edge, J. H. Thompson, Geo. Woodland, T. C. Duncan, J. Mitchell and A. W. McLean.

A large number of wreaths were received, these and the general expressions of the citizens indicating the esteem in which the late alderman was held.

The mayor and council are represented officially.

DRUG STORE STAFF HAS BEEN DEPLETED

Among the unfortunate results of the influenza epidemic has been its effect upon Orme's drug store staff. Early last week Mr. Ripley, the chief assistant, took sick and died last Sunday. Mr. Stevens was also ordered home, and has since been confined to the house, while last Sunday "Doc" Orme himself contracted the sickness, and has since been at home. Thanks, however, to the volunteers' experienced in the business, the store has been kept open, which was very necessary at this time when so many people were requiring drugs to fight the influenza.

G. L. Thompson, of the Rocher de Boule Company, was one who stepped into the breach, and being a chemist by profession, his assistance was available. D. R. Kennedy and Mr. Parker, senior, also lent their assistance, and their previous experience in pharmacy has stood the community in good stead. Stanley E. Parker and G. W. Nickerson also lent their aid from time to time in the emergency.

Yesterday however Mr. Thompson and Mr. Nickerson were themselves victims of the epidemic, and have since been confined to their homes. With the whole community practically suffering, and the demand for drugs and antidotes for influenza at its highest point this week, the volunteer druggists have had a very busy time, and have risen to the occasion nobly.

Mr. Orme himself is now on the mend and will shortly be back to take charge himself.

NINE THOUSAND GERMANS ARE TAKEN PRISONERS TO SOUTH OF VALENCIENNES

RAILWAY TO LEQUESNOY HAS BEEN CAPTURED BY BRITISH
FORCES AND THE MAIN ROAD SOUTHWARD
TAKEN — FRENCH ALSO
SUCCESSFUL

(Special to The News via G. T. P. Telegraphs.)

London, October 26.—Nine thousand Germans made prisoners and 150 guns captured by the British is the official report of the fighting to the south of Valenciennes. The British have reached the entire railway line on the front between Lequesnoy and Maing.

Lequesnoy is an important centre and apparently the British are executing a flanking movement in order to avoid storming Valenciennes. They now have the Lecateau main road and this and the railway gives them a decided advantage. The advance made is considerable and important and the prisoners taken seem to indicate that the German troops are ready to surrender whenever they have the opportunity.

Paris, October 26.—The French have advanced at all points despite the most stubborn resistance, taking more than 2,000 prisoners with canon and machine guns.

GERMANS AWAIT ARMISTICE TERMS OF THE ALLIES

Basel, Oct. 26.—The German War Cabinet yesterday considered President Wilson's reply and decided not to answer it at present but to wait until it is learned what the Entente armistice conditions may be.

LIEUT. DAN WRIGHT

One of Trail-Blazers of Prince
George District Riddled with
German Bullets.

News has just reached here of the death in France on August 8 of Lieut. Dan Wright, one of the early trail-blazers of this district, says the Prince George citizen.

Particulars of his death are meagre, but it is learned from the official report that he gave his life in an attempt to save some of his comrades who had been caught in a burning tank. He had got safely away from danger, but went back to try and save his comrades. His body was found riddled with German machine gun bullets.

One of his comrades writes: "In all his career as a soldier Dan Wright had absolutely no regard for himself and went serenely about his business no matter how thick the shells flew. . . . Men like Dan Wright seldom come back from France."

The late Lieut. Wright was known throughout the northern interior as a land surveyor. He first came to Cariboo in 1906 as a member of Leask's party on G. T. P. locations. He returned here in the spring of 1910 with Gore & McGregor's surveying firm and remained here until his enlistment with the Western Scouts. He received his commission on the field in August, 1917. When the Western Scouts were disbanded he went to the 95th Battalion.

Every old timer in the district will mourn the death of "Smiling Dan" Wright, but are assured of the fact that he died as he had lived—manly and courageous.

RUSSIAN MAIDS ARE PROPERTY OF THE STATE

Compelled by Bolsheviks to Register at Bureau of Free Love on
Reaching Age of
Eighteen.

(Special via G. T. P. Telegraphs.)

London, October 26.—Russian maidens under the jurisdiction of certain provincial Bolsheviks become "property of the State." When they reach the age of 18 years they are compelled to register at the government "Bureau of Free Love." The consent of the man chosen is not necessary, the man having no right to make a protest. The woman registered "has the right to choose among the men of 19 to 50 a cohabitant husband."

Bishop Bunoz who arrived home this morning after visiting all the camps on the southern islands reports that conditions are much improved and there are very few cases there now. The sisters who went with him were able to help a good deal and the outlook now is that the malady will be cleared up very soon.

Christmas Advertising Should Begin Now.

Christmas advertising should begin next week. Merchants undoubtedly would like the people to shop early. They expect to do a big business this year and the way to do it is to start advertising at once. The public mind has to be prepared for Christmas buying just as it has to be prepared for any business venture. It is the cumulative effect of advertising that is valuable.

Suppose a store sells a pair of shoes to one person as the result of an advertisement. The probability is that that customer, if he is well served, will return again and again to the same store and probably bring friends with him. That is the cumulative effect.

Stores Are Judged By Their Advertising.

People judge stores very largely by the advertising they do. Petty advertisements give the idea of pettiness, whereas plenty of display space gives the idea of magnitude both of stock and business. In the larger cities the moving picture theatres purchase a lot of space and when they get something unusually attractive they increase the newspaper advertising space in order to indicate that this is an unusual film. The fact that it is done almost everywhere by the very best business managers is an indication that it is effective.

In Prince Rupert this paper tries to give the news of the district, but there is one kind of news in which it has not yet a very satisfactory service. That is store news. Prince Rupert readers read the advertisements, there is no doubt of that. They read the display advertisements as much, if not more, than the paid readers. You can't fool the average reader with the idea that he has to read something because it is wedged in between the locals.

Likes to Read The Store News.

The average woman likes to read the store news, whether it be that of the grocery store or the drygoods store or of any other store where they sell things which she wishes to buy. She does this just as faithfully as she reads the local news or the war news. It is common to hear one woman in the household remark to another: "Lend me the paper a minute while I see what Wallace is advertising." Now the Wallace Co. advertise every second day on the same page with a good-sized display and they change it often. It is news and the women watch for it. Ask the women and they will soon tell you. The only fault in the Wallace advertising is that it does not run every day.

Then take groceries. Most people like to read the grocery news. We know that because they take an interest in the weekly price list that we run. Last week several people inquired where to get the cheap eggs. Now the rise in the price of eggs had passed unnoticed and the price was marked too low. That was our fault, but the fact that they inquired showed that they were interested. These are a few instances. The News will not be a live newspaper until it carries the advertising of all the progressive merchants. The business of the dead ones is not wanted.

Nearly All Successful Men Are Advertisers.

How many successful business people can you point to who have not advertised. It is the only way to do business successfully. Shop windows are good advertisements, but the shop windows do not appeal to everyone because for weeks at a time some people do not pass that way, and if they pass they do not perhaps look in. Everyone reads the paper, however.

We have been told that the fishermen do not read the papers. That is a libel on the fishermen. The boys who sell this paper have good customers among the fishermen. They nearly all buy it or subscribe to it and have it delivered at the homes regularly. They like it, so they say. Sometimes they come in to tell us so or to scold because they did not get it delivered last night.

Like to Know Paper Appreciated.

Nothing pleases us so well as to have our customers ring us up and tell us that the boys forgot to leave the paper. Sometimes some other boy has picked it up by mistake. The fact that the customers want the paper and miss it when it fails to come is what we are working for. We are trying to make it interesting and valuable to them, and we like to know they appreciate it.

On Thursday one of our boys got rather ambitious and sold one hundred copies of The News on the streets. Yesterday he thought he could do better and so he sold one hundred and forty. That is probably the record sale for one boy. Seventy-five and eighty has been common but it is not often that a boy sells over one hundred. These sales indicate that the people here are interested in the paper.

Team Work Needed for Few Days

While the people of Prince Rupert, in common with the people in almost every part of the world, are being sorely tried just now it must not be forgotten that the men at the front have been in much more difficult situations than confront us and they have come through with colors flying.

With courage we must all face the issue and keep cheerful. By helping our neighbors we can best help ourselves. Team work and community work is the order of the day.

It must not be forgotten that in spite of our difficulties here it will be necessary for us to continue our preparations for providing money for the men at the front. Victory bonds will be on sale commencing October 28 and we shall all have to do our best when the sale opens, even though we have needs of our own to supply.

Without Music You Cannot Live a Full Life

Music is now recognized as a necessity in the home. Music feeds the soul, as food feeds the body and literature feeds the brain. Next to religion, it is humanity's greatest comforter.

The New Edison opens the doors to the world of music. It brings the supreme art of the greatest singers, instrumentalists and musical organizations to you with such unerring fidelity that the artists themselves could give you no more.

The NEW EDISON

"The Phonograph with a Soul"

does not merely imitate; it actually re-creates.

Before audiences totalling more than two millions, thirty great artists have conducted tone tests which proved that no shade of difference could be detected between the artist and the instrument. They have sung in direct comparison with the New Edison, then suddenly ceased, permitting the instrument to continue alone. The only way the listeners could tell when the artist stopped was by watching his lips. And with the lights lowered, they were unable to say when it was the living voice they heard and when the New Edison.

Could a more convincing test than this be devised? Doesn't it prove the truth of our assertion that ownership of this instrument is equivalent to having all the great artists of the world literally at one's command?

Come in and hear the New Edison here, or allow us to send one to your home, where you can hear it at your leisure.

MINISTER OF AGRICULTURE TALKS OF LAND

Hon. E. D. Barrow Corrects Distorted Impressions Abroad Regarding Work of the Settlement Board.

Partly in reply to A. E. Howse, of Nicola, who indulged in a good deal of criticism of the Government of British Columbia during the course of his address before the Boards of Trade Convention in Vancouver and partly to correct an extraordinary impression which appears to be gaining ground in relation to land settlement operations and soldier settlement in particular, the Hon. E. D. Barrow says:

"There are those who apparently possess the idea of discrediting the operations of the Land Settlement Board, either intentionally or unintentionally, or through ignorance of the facts. That is to say, by the circulation of misleading statements as to climatic and soil conditions as well as transportation facilities, there has got abroad a very distorted impression of the true facts of the case."

Mr. Barrow went on to explain that the Bulkley and Nechaco valley land settlement areas are located along the line of the Grand Trunk Pacific Railway and are already sparsely settled by a very fine progressive class of farmers. They are prosperous, in spite of the lack of proper marketing facilities owing to the want of sufficient combined production to allow of the economical handling of their produce.

And to the general cry that returned soldiers are being allocated to lands at "the back of beyond" Mr. Barrow points out that the disadvantages now experienced by the prosperous farmers of the localities named will be aided by the settlement of returned soldiers among them, who will very naturally share in the general community plans that will then be possible.

The Real Cause.

Mr. Barrow emphasizes further that just because the story of the non-resident owner and his non-producing lands is an old one it loses none of its truth, and that the reason these very lands had not been settled earlier was not on account of natural disadvantages, but merely owing to the fact that all the land within the boundaries of these unsettled areas were held by the class of owners mentioned. "The settlement of these 50,000 acres," continued the Minister, "is the commencement of a land settlement policy which eventually will bring into production hundreds of thousands of acres in the interior where conditions generally favor mixed farming. Large areas in other parts of the province which require irrigation and still others where it is necessary to dyke and drain will be dealt with. There are also logged off lands which will be made available for settlement."

Fine Opportunities.

Mr. Barrow considers that opportunities for settlers in British Columbia are second to none in any other province of the Dominion. "Some returned soldiers and other prospective farmers seem to think that unless they can get in on these first areas," he proceeded, "they will probably have to accept something inferior. I want to assure them that there will be an abundance of land available for several years to come. The areas still to be handled will offer equal opportunities to those desiring to go into mixed farming, live stock raising, or fruit growing."

Intelligent Allocation.

In determining the size of the holdings sufficient consideration has been given to ensure the settler the necessary scope as an incentive to his energy and ambition and the certainty that the returns from his endeavor will enable him to conform to a standard of living that will be conducive to good citizenship.

The result aimed at, he says, is not altogether with a view to the production of any particular food commodity, at the lowest possible cost, but that a given area of land should support the greatest number of workmen under the most favorable conditions of living.

AUTUMN LEAVES

Donald A. Fraser, author of the book of poems "Pebbles and Shells," has a poem in the October number of Contemporary Verse, his subject being "Autumn Leaves." Mr. Fraser is a British Columbia school teacher. Many of his verses are published in the big periodicals and his name is becoming widely known. He is also editor of The Public School Magazine of Victoria. The poem follows:

Summer danced in golden garments;
Winter spied her at her play;
Forward sprang and tried to catch her;
Like the light she flashed away.
Winter cried to Autumn, "Clutch her;
Hold her in your iron clasp;"
Autumn fingers fast were numbing,
But her vesture he did grasp.
Summer wrenched herself to freedom
Spite of Autumn's stern commands,
But she left her fairy garments
Golden tatters in his hands.

past was all wrong. The scheme whereby a man was allowed to settle where he pleased was neither in the interest of the individual or of the community. It resulted, says Mr. Barrow, in conclusion, in many instances, in imposing inhuman hardships on women and in denying children their right to a proper education.

SKENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE ISLANDS.

TAKE NOTICE that I, John McLarty Macmillan, of Vancouver, B. C., occupation canneryman, intend to apply for permission to lease the following described lands: Commencing at a post planted on the south shore of Lagoon Bay, Moresby Island, about one mile from its mouth, thence south 20 chains, thence west 20 chains, thence north 20 chains, thence easterly along the shore line to point of commencement, containing 40 acres more or less.

JOHN McLARTY MACMILLAN.
Dated June 20th, 1918.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.
Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.
Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.
Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.
Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes, areas exceeding 40 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.
For information apply to any Provincial Government Agent or to

LUMBER MILLS ARE CURTAILING OUTPUT

At a conference in Vancouver recently the mill owners of this section of British Columbia decided to curtail their output by 20 per cent. The lumbermen have adopted this course owing to a general falling off in the business. At the present time there is practically no market on the prairies for coast lumber and the embargo to the United States has also had its effect with the result that local mills are finding themselves with large stocks on hand. This decision has already gone into effect at some of the mills, while it is expected that fifty per cent. or more of the mills on the lower mainland and Vancouver Island will be affected by it. The length of time during which this curtailment will be effective is not definitely known, depending upon the general conditions of the lumber market. A revival in this market is, however, looked for in the early part of next year or the spring.

"TRUTH WILL OUT —"

Fearful lest the people should guess the full extent of the "strategic retreats" on the western front, Berlin has now stopped the sale of all Allied newspapers throughout Germany. To avoid awkward enquiries, they are again booming the "Continental Times" which is busy exposing the British Empire.

Oh say! The News Print Shop does its work about as cheap as most shops and quite as well, gives you the work on time whenever possible and hands it out with a pleasant "Thank you." What do you say to giving them a trial on your next job?

True war-time economy—use
Sunlight Soap

It is impossible to buy a purer soap than Sunlight. Therefore it is really the cheapest soap you can buy. The purer and better the soap—the less you need for the wash and the better the work done.

Truly—it is real war-time economy to use Sunlight Soap for the wash and about the house.

ROBERT STEAD'S NEW NOVEL

Robert J. C. Stead, in his new novel "The Cow Puncher," (Toronto, the Musson Book Co., Ltd., cloth, \$1.50), has written a notable book with a Western Canada setting. David Elden, the cow puncher of the story, grows to young manhood on a ranch in the foothills, outside the influence of church or school. At eighteen he is accidentally thrown into the company of a young Eastern girl, who enkindles in him the ambition to be somebody in the world.

With this purpose in view, young Elden leaves the ranch and goes to make his fortune in a young Western city. The first night he is swindled out of all his ready cash by a gang of card-sharpers, and he takes a job next morning as a coal heaver. For a time it looks as though Dave's course would be downward instead of up, but he fortunately comes under influences which revive his ambition for self-betterment.

About this time the big western real estate boom breaks out, and Dave's course is meteoric. His wealth comes quickly and goes as quickly. Following the collapse of the boom a tragedy in his love affairs sends him as an enlisted man to France. In the closing chapters is found one of the highest patriotic notes struck by any author during the war.

"The Cow Puncher" is decidedly worth while. It is interesting and refreshing, and at times inspiring, written with all Mr. Stead's intimate knowledge of the West and skill of delineation. Through the book runs a happy vein of humor and philosophy which is not the least of its charms. It is illustrated by Arthur Heming, ex-lumber man and North West Mounted policeman, and is announced by the publishers as an all-Canadian book—written by a Canadian, illustrated by a Canadian, and printed and bound in Canada. It should receive a warm welcome from the Canadian reading public. The United States edition is issued by Harpers.

You Never
Know What
A Man
Will Do

Mrs. Williams has been using Pacific Milk for cooking a long long time. Her husband got to using it in his morning coffee so they never buy fresh milk any more.

The other evening Mrs. W. bought some fresh cream to give him a treat (as she thought) with his porridge and to use with his coffee.

However, Mr. Williams didn't see it that way and when he discovered it was a different cream in the pitcher, he asked for the same as he'd been getting every morning — couldn't drink his coffee with the other "stuff."

BEST GOVT. SECURITY OFFERED IN THE WORLD

It is generally conceded by financial authorities that within the circle known as the investing public there is a substantial proportion whose sums of money are available for investment run from \$5,000 to \$25,000.

To that class of investors the fifteen-year Victory bond provided in the next issue should prove particularly attractive. Not only is it so by reason of its gilt-edged character, but plus this is the 4 per cent. rate of interest that \$25,000 gives the holder the little sum of \$1,375 annually and free from taxation at that.

The United States Liberty Loan, on the other hand, would on a like investment yield but \$1,062, or \$313 a year less.

From the combined standpoint of stability and yield, the fifteen-year Victory bond will rank as the best Government security in the world. The fact that trust companies have their eye upon it as a preferential investment is one of the strong proofs of its attractiveness. And then another fact is that both actually and relatively the issue will steadily appreciate in market value as time passes.

Call to Well-to-do Men.

But, aside altogether from the intrinsic value of the second Victory Loan and particularly the fifteen-year maturity, as an investment, there is a definite and direct call to the men who can command five to twenty-five thousand dollars to subscribe to it.

As a matter of fact, it is the opinion among the highest financial authorities in the Dominion who have given particular attention to the study of the subject, that if the Minister of Finance is to secure the much-needed and much-needed half a billion dollars, a great deal will depend upon the response of investors in this five to twenty-five thousand dollar group of investors. There is no sacrifice about it. The fact that the security is gilt-edged and the yield generous, precludes such an interpretation. Men are not sacrificing when they are buying bonds, whether they be merchant or bonds.

But whether there is an element of sacrifice or not, there is undoubtedly an element of patriotism. Whether the war ceases this year or next, Canada needs every dollar of the half billion which the Minister of Finance seeks, if this country is to fulfill its part in the struggle, and perform its duty towards the Canadian lads who are sacrificing their lives at the front. And the desideratum can be secured, if the men with \$5,000 to \$25,000 to invest do their part.

"Children," said the Sunday school superintendent, "this picture illustrates today's lesson: a man was warned to take his wife and daughters and flee out of Sodom. Here are Lot and his daughters, with his wife just behind them; and there is Sodom in the background. Now, has any girl or boy a question before we take up the study of the lesson? Well, Susie?" "Pleathe, thir," replied the latest graduate from the infant class, "where ith the fleas?"

Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back:—

—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;

—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;

—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;

—for these purposes Canada must borrow hundreds of millions of dollars—

And, this money must be borrowed from the people of Canada:—

Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

+ + +

Canadians will loan the money by again buying Victory Bonds.

The national safety, the national honor and the national well-being require that each and every Canadian shall do his duty by lending to the nation every cent he can spare for this purpose.

Be ready when the call comes to see your country through in its great war work.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

SPANISH INFLUENZA RAGES IN CANADA

Thousands of Cases Reported With Many Deaths.

THOSE WHO ARE MOST SUSCEPTIBLE TO IT

"FRUIT-A-TIVES"—The Wonderful Fruit Medicine—Gives the Power To Resist This Disease.

The epidemic of Spanish Influenza which played such havoc in Europe, has reached this continent. Thousands of cases of the strange malady have appeared and many deaths are already reported; Surgeon-General Blue of the United States Public Health Service having stated that "Spanish Influenza will probably spread all over the country in six weeks."

Practically every ship which touches our shores from abroad, brings those infected with the disease.

Surgeon-General Blue urges that "the individual take all the precautions he can against contracting the disease by care and personal hygiene." Plenty of exercise should be taken; the diet should be regulated, etc.

Spanish Influenza affects most severely elderly persons and others whose powers of resistance are weakened by illness, work or worry, especially those who are "run-down" or "not feeling up to the mark."

The really great danger from the disease is not so much in the disease itself, as that it often develops into pneumonia.

What everyone needs now is a general tonic like "Fruit-a-tives". This wonderful fruit medicine is not a germ-killer. It is a body-builder; a strength-maker; a blood-purifier; a power in protecting against the ravages of disease.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and purifies and enriches the blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, insuring food being properly digested and assimilated.

Everyone can take ordinary precautions, avoid crowded places, and use "Fruit-a-tives" regularly to insure sound digestion, to keep the bowels and kidneys regular and the whole system in the best possible condition. Then we are safe from disease.

"Fruit-a-tives" is sold by dealers everywhere at 50c a box, 6 for \$2.50, trial size 25c or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

NASMYTH TALKS OF LUMBER PRODUCTION

The Nasmyth Lumber Company's sawmill which was formerly operating at Burquitlam, is now re-erected at Thurston Harbor and will shortly commence to cut spruce for the Imperial Munitions Board airplane department.

Mr. Nasmyth, who when in Vancouver, stated that the spruce industry among the islands of northern British Columbia is being carried out on an immense scale.

The Nasmyth mill would have been in operation before now except for the fact that Supt. Kurtz was taken ill with appendicitis and has been a patient of the Munitions Board hospital which is under the direction of Dr. J. A. Smith, of New Westminster, formerly assistant superintendent of the Vancouver General Hospital. Mr. Nasmyth and Mr. Kurtz both give great praise to the work of Dr. Smith and to foresight of the Munitions Board in erecting a hospital at Thurston Harbor.

H. H. Hill is recovering from his severe attack of influenza and is able to be out and around again.

Local News Notes

The White Lunch has been re-opened for business.

Geo. McAfee, of the Georgetown Spruce Co., arrived in town this morning.

Fred Gilhuly was a little better this morning. He was able to get some rest during the night.

This morning it was reported that eight to ten influenza patients has been discharged from the hospital to date, cured.

The funerals of Herman McKinnon, Mrs. Walters, Alderman Smith and George McCarty all took place this afternoon.

W. Vaughan Davis, of the Lynch Bros. & McMeekin store, has been removed to the General Hospital suffering from pneumonia.

Friends of James Hunter will be glad to know that this morning his condition had much improved. He is at the General Hospital.

The fishing boat Imbricaria which belongs to the Canadian Fish Company of Vancouver, put in here this morning with several members of her crew sick.

Thos. A. Kelley, of the Kelley Logging Co., who are operating at Atli Inlet, came over on the Prince Albert this morning from the Queen Charlotte Islands.

Two children died at Prince George recently from whooping cough. They were the infant son of Mr. and Mrs. Jos. Ross and the infant child of Mr. and Mrs. William Bird.

The funeral service for the late Alfred Kye will be held at 3 p.m. on Sunday, Rev. Dr. Grant officiating, at the chapel of the B. C. Undertakers. On Monday the body will be sent to Ottawa where it will be interred.

A number of people who farm in northern British Columbia or who are interested in mining or fishing have moved into Prince Rupert to spend the winter. The result is that while a few have gone south for the winter the population here is greater than it has been for a long time.

There was one death at the Borden Street Emergency Hospital since yesterday at noon. Tom Oleson, a fisherman who had been in hospital for several days, succumbed to pneumonia. The other patients in Borden Street Hospital passed a good night, and there are full hopes of their recovery.

It having come to the knowledge of the city health department that many people have been ill and unable to call in friends or neighbors it is requested that anyone knowing of such cases will at once notify the police or the City Hall authorities so that investigation may be made. Even rumors will be investigated.

PRINCE RUPERT GETS PUBLICITY

Article by Fred Peters, Quoted in Westminster Columbian, Gives Interesting Data Regarding City.

Some of the publicity that Prince Rupert is getting through the activity of her officials is shown in a recent number of the New Westminster Columbian which under a big display head had the following:

Not only is Prince Rupert, B. C., fast becoming the greatest fish port on the Pacific Coast, but it also possesses the largest cold storage plant in Canada. It is the centre and point of shipment of an enormous lumber trade, especially in spruce. A large and completely up-to-date sawmill has been established. The wholesale dealers supply a large surrounding country with every description of goods, and the city is the centre of a mining district. The shipping of ore through Prince Rupert is in itself quite a business. Fishing is the principal industry and will, no doubt, remain so, because the city is close to the fishing grounds. The lumber resources are also extensive, and business from this source will, for many years, be an asset to the city of Prince Rupert.

Regarding the municipal works, the city clerk, Mr. Fred Peters, makes the following statement to The Monetary Times:

"We have a most excellent water system, giving the citizens and all industries ample supply of the purest water, which we now supply at a cheaper rate than any place in British Columbia, or, I believe, Canada. For example, large customers get water at 3 to 2½ cents per 100 cubic feet. This system is not developed ahead of industries. In fact, during last year we had to make extensions costing \$10,000, and we will, no doubt, make more. The best feature is that the system can be developed to accommodate 100,000 people.

"Our telephone system, which enables us to supply privileges as cheaply as anyone in British Columbia, is not ahead of requirements, and we are now contemplating considerable extensions to meet actual requirements. Our electric light and power plant is now working almost to capacity, and we are now contemplating the installation of a very much greater power if our utilities pay. They cost nothing in taxes except a small special rate in water.

"The whole transactions of the city for 1917 were carried on without borrowing one cent from the bank against current revenue or for any other purpose. The assessed valuation for 1917 levy was \$41,596,295, a reduction of \$5,890,190 since 1914, and our tax rate 19 mills gross."

A Man Must Get Comfort In His Shoes

NO MATTER if he is extremely critical with his suit or hat or neckwear—a man insists on foot comfort when it comes to a new pair of shoes.

We guarantee a man foot comfort if he buys his shoes here and takes the advice of our fitter whose business it is to study the requirements of your feet. Our new fall stock is here and we have everything in footwear for men.

Many Lady Customers Satisfied

With our "QUEEN QUALITY" and other leading makes of the best in Women's Footwear. New fall models are fast arriving and we can suit the most fastidious who desire fashionable shoes as well as those who want "solid comfort." Let our Shoeman demonstrate this to you.

We have just put into stock a full line of Boudoir Slippers—wool-lined, rubber heels, smart in appearance and very "comfy." Priced at \$2.45.
