ADVANCE IN FLANDERS BY THE ALLIED FORCES

(Special via G. T. P. Telegraphs.)
London, Nov. 2.—Yesterday's attack in Flanders was rewarded by an advance of more than five miles on a ten-mile front. It brought the Allies to the Scheldt from Serchem to Gavere. This advance will probably enable the Belgians to push the enemy over Dervent Canal to the Teurneuse Canal.

VALENCIENNES BOTTLED UP BY BRITISH ARMY IN RAID ENGINEERED BY CANADIANS

ONLY IMMEDIATE RETIREMENT OR MIRACLE CAN SAVE
GERMAN TROOPS IN CITY — ONE OF HEAVIEST
BOMBARDMENTS OF WAR COVERS
INFANTRY CHARGE

(Special to The News via G. T. P. Telegraphs.)
With the British Army in France, November 2.—Valenciennes is today bottled up as a result of a lightning blow delivered by the British on both sides of the city. Only immediate retirement from the place or something in the nature of a miracle can save the German troops. The heavy enemy resistance encountered on this sector yesterday died out during the night. The main attack on Valenciennes was to the south of the city just above Famars. The Canadians who engineered the drive were supported by one of the heaviest bombardments of the war. The gunfire was terrific and made the going easy for the infantry.

Send the Kaiser to Oblivion!

C. H. Wellington, the creator of "That Son-in-Law of Pa's" has hit a happy idea in the above cartoon specially drawn by him for use in the 1918 Dominion Victory Loan campaign. For once both Pa and Cedric are in accord in appealing for the Kaiser's destruction.

"G. E. FOSTER" RETURNS TO PORT AFTER USELESS SEARCH FOR THE PATROL STEAMER "GALIANO"

NO TRACE OF MISSING VESSEL; BODY OF ONE MEMBER OF
CREW IDENTIFIED AS W. A. EBBS, OF VAN-
COUVER; HAD ON LIFEBELT.

Confirming the news published in the Daily News yesterday, the steam trawler Foster, belonging to the Canadian Fish and Cold Storage Co., returned to port today after her search around Cape St. James in search of the missing naval steamer Galiano, and bearing with her the body of one member of the crew of the ill-fated vessel, and the cabin skylight which they picked up floating on the water. Captain Walters of the Foster reported his arrival to T. H. Johnson of the Cold Storage Co., this afternoon and later reported the picking up of the dead body to Coroner McMullin.

All Thursday and Friday the come off one of the ship's boats. "Foster," in company with the whalers Green, Brown and Orjon, and the tugboat Tatoosh, swept the Hecate Straits for miles. They travelled north and south, and then cut across from east to west, covering the waste of waters very completely. The only success which attended their efforts was the picking up of the dead body of one of the crew, identified as Wilfred A. Ebbs, and the skylight of one of the cabins. The Foster also passed an oar which could not be picked up, which may have

ABOUT \$50,000 VICTORY BONDS ARE NOW SOLD

FISHERMEN TAKE \$4,500 AS STARTER

The Victory Loan drive is going splendidly. Considering the time given to it, only two hours a day by one group of canvassers, the results are excellent. Something like \$50,000 worth of bonds have already been sold, according to a rough estimate prepared this morning. There are no official figures out but that is about the correct amount.

Yesterday Albert & McCaffery announced that as a starter they would take \$5,000 and this morning Dr. Kergin telephoned in an order for \$2,000. These are the encouraging things in the campaign.

John H. Meagher, secretary of the Deep Sea Fishermen's Union, reports that up to date the fishermen have bought \$4,500. This is a splendid beginning and means that the fishermen are recognizing both their duty to the country and the value of the bonds as an investment.

A member of the committee this morning said that they had been very well received among the businessmen. They had been turned down by only one man. He considered that next week when they got into their stride bonds would be selling so fast that it would be difficult to make out the papers fast enough to keep them going.

A committee meeting is to be held tonight in the rooms when canvassers will be appointed for the residential districts and sections allotted. Considering all the circumstances the campaign has made an excellent start and the quota of \$300,000 should be exceeded.

AUSTRIA GETS ALLIES' TERMS THROUGH ITALY

General Diaz, the Italian Commander, Delivers Armistice Proposals to Austrian Commander.

London, Nov. 2.—General Diaz, the Italian Commander-in-Chief, handed the terms of armistice offered by the Allied forces to the Austrian Commander today. The terms offered have not yet been made public but it is thought that they will not differ materially from those accepted by Turkey, except in matters of detail. Surrender of ships, and supplies, demobilization of the army, and a complete break with Germany being the main features.

STEVE RYAN REFUSES TO GET INFLUENZA. CELEBRATES RESCUE

Steve Ryan, a Metlakatla Indian, was celebrating yesterday. One year ago he was wrecked on a bare rock in the middle of the ocean, where he stayed for sixteen days without anything to eat or drink, except rain water. On that little rock, half submerged at high tide, without a blade of grass growing, Steve managed to survive until, by a happy chance, he was rescued more dead than alive.

He is now at Tuck's Inlet Cannery, and, as he refused to die a year ago when by rights he ought, now he refuses to be affected by influenza.

DAILY EDITION.

Saturday, Nov. 2, 1918.

Harvest of the Seas Is Almost Continuous.

Did you ever think that here in Prince Rupert the harvest lasts for about ten months in the year instead of one as it does on the prairies. During ten months of the year there is a steady income, more regular than that of a poultry farm. The crop is there waiting all the time. All that is necessary is to go out and harvest it.

In some of the coast towns it is often said: "The place to do business is in the prairie towns among the farmers where there is a steady production and the harvest comes regularly every year. There the business is sure because the farmers are prosperous. If that can be said of the farmers on the prairies, how much more is it true in a place like Prince Rupert where the product of the workmen's toil is being marketed every day, where the demand is steady and the supply sure. No hail storm comes along here and in a few minutes blots out the work of the year. Week after week the fisherman brings in his catch and gets paid for it, and then is in a position to spend what he has earned.

The Only Fly In the Ointment.

There is but one fault to find, and that is that Prince Rupert does not get anything like as much of the fishing business as she might. She is doing well but she might do much better. Too many of the fishermen go to the American cities to market their catch because Prince Rupert has not the facilities. There is no proper accommodation for boats and not sufficient attention paid to the needs of the fishermen. In every other respect Prince Rupert has the advantage. She is doing business in spite of herself. She is doing little if anything to induce the fishermen to come here, yet they come, for the city happens to be at the terminus of a transcontinental railway.

In the prairie cities the businessmen build elevators, they induce capitalists to come in and build other elevators, for they know that there must be many buyers else the farmers will not come. The more buyers there are, the more business goes to that town. So it is with fish. The product of the seas is taken to the port where the marketing facilities are the very best. The more fish buyers, the better the fishermen like it and the more business comes this way. The better the facilities are for the men's boats, and the better the entertainment for the men, the more come here.

Resident Fishermen Better than Transient.

What the town needs is more resident fishermen, men who will live here with their families and who will fish when the weather is good and build more boats for themselves when the weather is bad. That is the ideal. The lumber mill is here now and it should be an economical thing for a fisherman to tie up for a month or two during the bad weather and build himself a new hull in order to enlarge his facilities during the coming season. If a fisherman builds a new boat each winter he will soon have a fleet that will make him a pile of money. He will increase the business of the port, and he will be adding to the health, wealth and happiness of the nation. The opportunity is here. The brains and skill and energy are all that are needed to bring about the desired results—brains and skill and energy, both on the part of the men who fish and the men who make money from the fishermen. There might be much more of a community of interest than there seems to be at present.

Team Work Needed for Few Days

While the people of Prince Rupert, in common with the people in almost every part of the world, are being sorely tried just now it must not be forgotten that the men at the front have been in much more difficult situations than confront us and they have come through with colors flying.

With courage we must all face the issue and keep cheerful. By helping our neighbors we can best help ourselves. Team work and community work is the order of the day.

It must not be forgotten that in spite of our difficulties here it will be necessary for us to continue our preparations for providing money for the men at the front. Victory bonds will be on sale commencing October 28 and we shall all have to do our best when the sale opens, even though we have needs of our own to supply.

A Song for Every Mood

Music gives expression to every human emotion. All that is happy and beautiful in life, has been expressed in music.

When things seem bright and cheerful because a ray of happiness has come into your life, you need an outlet to give vent to your feelings.

When sorrow or depression comes, the need of consolation is even greater.

It is at such times that you derive the greatest comfort from

The NEW EDISON

"The Phonograph with a Soul"

Then one sweet note of the voice of Anna Case, or one ripple of melody from the bow of Albert Spalding, puts your soul in harmony with the world. Music—real music—is one of life's greatest boons. Edison music is real music because the New Edison does not merely imitate, it re-creates. One never tires of the New Edison, the novelty never wears off, because there is no novelty to wear off. It is not just another "talking machine". It is decidedly different. To appreciate the difference you must hear it.

We will gladly submit the New Edison to your musical judgment either here or in your own home.

OBSERVATORY IN B.C. IS OPERATING WELL

New Mirror Has Already Been Used to Take Important Stellar Groups.

The Dominion Astrophysical Observatory at Victoria, B. C., completed early in May by the installation of the great mirror, regular observing with the spectrograph began just one week after the mirror arrived in Victoria, a record-breaking performance, indicating how carefully all the details of the design of mounting had been worked out and constructed and how thorough had been the preliminary preparations for the installation of the mirror.

The performance of the mirror, the accuracy and convenience of the mechanical parts, and the quality of the atmospheric conditions on Observatory Hill exceed all expectations and there is no question but that the telescope will fulfill all promises, be a great engine of research, and bring Canada into greater prominence in the scientific world.

600 Examined.

Already upwards of 600 star spectra of excellent quality have been photographed and the measurement of these plates is proceeding as rapidly as is possible with the present staff. A program of upwards of 800 stars for observation at Victoria has just been prepared in co-operation with the Mt. Wilson Solar Observatory.

By this arrangement all of the stars, within reach of the two observatories, in Boss's Catalogue, an important list of stars whose radial motions are urgently required, are divided in such a way that each observatory will complete its list about the same time. It is estimated that it will take at least three years to photograph the spectra, 4 or 5 being required for each star, and to measure and reduce the plates at Victoria. By the co-operation of the two observatories, the three largest telescopes in the world, the Victoria 72 inch and the Mt. Wilson 60 inch and 100 inch (as soon as the latter is completed) will be used in conjunction in this important work and thus enable the results to be available for general use in a much shorter time than would otherwise be the case.

Direct Photographs.

The telescope has also been used in making direct photographs and has proved very efficient in this respect. The director has agreed to obtain with the telescope, at the request of Prof. E. C. Pickering, Director of Harvard College Observatory, a number of photographs of the Harvard Standard Regions for cataloguing the magnitudes of the faintest stars and for extending the well known Harvard Work on stellar magnitudes. These plates will be measured and reduced at Harvard and as one hour's work with the telescope will require several days' labor in the measurement and discussion, it is evident, in the present understaffed conditions of our observatory, that no better work can be done for the advancement of astronomy than this form of co-operation.

ALL SPANISH INFLUENZA CASES HAVE RECOVERED

The press reports several hundred thousand cases of Spanish influenza in the Argentine, South America, and not a single death.

Cinchona Tree Bark, a powerful tonic from which Quinine is extracted, macerated in wine, is their Great Remedy for Influenza.

If the people only knew that the principal ingredient in KENNEDY'S TONIC PORT was this same Cinchona Tree Bark macerated in pure wine, thereby assimilating all the various quinine alkaloids, there would be very little, if any, of the Spanish Influenza in Canada today as the quinine alkaloids in KENNEDY'S TONIC PORT are three to five times more effective than ordinary capsule quinine.

Owing to its powerful reconstituent and blood-making properties, it gives to weakened, run-down people the very support and strength needed. It is the most efficient general tonic and builder of body tissues you can possibly use.

Drug Stores Sell It.

"Yours not to reason why,
"Yours but to go and buy—
"Victory Bonds."

Just Camouflage

The man who buys bonds is the same man who sends tobacco and other Christmas stuff to the boys overseas. The man who does neither is to be pitied. He loses two of the pleasures of life.

Some men are too mean to invest their money to their own advantage.

If the Victory Bond canvasser fails to call on you, go to his house, haul him out of bed and make him put on his jeans and sign you up before it is too late. This will be the last Victory bond issue and cannot be missed.

The Kaiser says: "I will not abandon my sorely-trying people, but if necessary, I am ready to become something like hereditary president of a German republic, like the Kings of England, Belgium and France." But the dear king Kaiser may find it good for his health to abandon his people. It certainly will be good for their health.

"Every mickle makes a muckle," whatever that may mean, but it takes ten good honest Canadian dollars to give a man a lien on a hundred dollar Victory Bond.

He who fights or runs away
May buy a Victory Bond today.
And make up for the opportunity he lost in not going to Europe to take a shot at the Huns.

Hit the trail at once to the nearest vendor of V.B.'s.

The best way to cure the influenza is to buy a Victory Bond, pay cash for it and slip it in the hip pocket. Then whenever you feel low-spirited slap yourself on the bond to remind yourself that you have done your duty. It is a sure cure. The alternative is to get someone to use his boot on the spot where the bond ought to be. It is not so efficacious but it is what you deserve if you forget to order as many bonds as you can pay for.

NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT TO Depot Battalions and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 20 to 22 Class who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 20th April last, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities, MUST, NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified to the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.

AMERICAN WOUNDED IGNORED AIR RAIDERS

Refused to Leave Bombed Hospital
Until Nurses Compelled Them
To Go Into Dugouts.

With the American Army North-west of Verdun, Nov. 1.—American wounded soldiers who were in the American hospital near which German bombing planes dropped explosives in the neighborhood of Rarecourt were so little concerned that they refused to leave the building and enter dugouts until compelled to do so by the nurses.

Margery Sawyer of Buffalo, N. Y., and Mabel Butler of New Haven, Conn., Red Cross nurses, said they found these men calm, although the hospital had been damaged and the wards were filled with smoke.

The first thoughts of the nurses were regarding the wounded,

You Never Know What A Man Will Do

Mrs. Williams has been using Pacific Milk for cooking a long long time. Her husband got to using it in his morning coffee so they never buy fresh milk any more.

The other evening Mrs. W. bought some fresh cream to give him a treat (as she thought) with his porridge and to use with his coffee.

However, Mr. Williams didn't see it that way and when he discovered it was a different cream in the pitcher, he asked for the same as he'd been getting every morning—couldn't drink his coffee with the other "stuff."

whom they had expected to find panic-stricken.

"I was aroused by the alarm of an air raid," Miss Sawyer said, "but some one suggested that the Germans were merely passing by. Then there was a terrific explosion, followed by an upheaval of my cot, and I was tossed across the room, glass falling all around me, and rocks and dirt, too. I have cared for many gas patients, and have heard their stories. The room was filled with smoke, and I thought of gas, and that scared me more than anything else. Then Miss Butler came, and we went to assist the patients."

Miss Butler said she was attending a soldier when the first bomb struck.

"We simply had to drive the doughboys into the dugouts," Miss Sawyer said. "One whom I aroused said bombs meant nothing to him, and insisted in turning over and going to sleep."

Ye Town Crier

I know a man!
Between ourselves,
He's a bit of an ass.
He asked me whether
He'd take a nest egg
His aunt left him
And invest it
In a company
To grow mushrooms
In Baffin's Land—
Or some such wildcat;
Or whether
He'd buy Victory Bonds.
I said, "My friend,
I fear you're unfit
To be at large.
The Lord has hardened
Your head!
Not to say your heart.
Every man of sense,
And heart and patriotism,
Who loves Canada,
And believes in her
And wants to see her great
Will take every dollar
He has or can raise,
To buy Victory Bonds.
As a Duty
And for profit too."
"Thank you," said he,
"I guess you're right,
Victory Bonds for mine."
—H. C.

The other men have done the fighting. What about the paying? To buy five and a half per cent. Victory Bonds free from income tax is an easy way to pay a big debt.

SYNOPSIS OF

LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emption, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where an applicant in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$100 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value noticed from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the allotment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent for Lands.

G. R. NADEN,
Deputy Minister of Lands,
Victoria, B. C.

NOTICE is hereby given that the Sale of Lands to be held on the twenty-fourth day of October next upon which delinquent taxes are due has been postponed so far as the lands in the Prince Rupert Assessment District are concerned and that on the 25th day of November following a sale will be held of all such lands in the said Assessment District.

EGGS IS EGGS DURING THE HENS' HOLIDAY

Price Will Be Dollar a Dozen
Within Few Days; Tomatoes
Becoming Scarce.

CHRISTMAS GROCERIES ARE NOT YET ARRIVING

There is no word yet of the Christmas goods for the grocery and provision stores. Specialties are difficult to get and even the orders for staples are not being filled.

Eggs are stiffening in price although some firms are still offering the fresh variety at 90c. The general price, however, is 95c, and it is prophesied that it will be a dollar within a day or two. Eggs are always scarce in November, being the holiday period for the hens. However, by Christmas time there should be some improvement.

Tomatoes and peppers are getting scarce and will be off the market very soon. The quality of the tomatoes is not as good as it was and the demand is falling off as the weather gets colder.

Tomatoes are a hot weather fruit. A shipment of Acadia salt cod arrived a week ago and is being offered in neat boxes, at 2 lbs. for 10c. It seems like bringing coals to Newcastle to bring fish to Prince Rupert, but the neat packages are a temptation to purchasers.

Preserving pears are pretty well off the market but so many local housewives were busy with influenza patients while the preserving time was on that they have missed the opportunity to get their bottles all filled.

The following prices are obtaining:

Fish.	
Fresh salmon	25c
Cod, salt, Alaska	15c

War Efficiency and National Prosperity

More than a billion and a half dollars distributed in Canada for exported agricultural produce and the products of labor in the fiscal year ending March 31, 1918, has kept Canada busy and prosperous in spite of the war.

CANADA'S production in such enormous quantities was made possible only by the money received through Canada's War Loans. Canada thus was enabled to assist the Allies in their purchases here by establishing financial credits for their use in this country.

CANADA'S war loans not only have sustained Canada's war effort, but they have kept the wheels of production turning as they never turned before.

This is the flood of cash which poured in to Canada's farms for their exports in the fiscal year 1918, for:—

Butter	\$ 2,000,000
Cheese	36,602,000
Eggs	2,271,000
Oats	37,644,000
Wheat	366,341,000
Flour	95,896,000
Meats	76,729,000
Vegetables	19,034,000

Over six hundred and thirty-six million dollars for exported farm products alone!

AND the workers of Canada also shared greatly in Canada's export trade.

For their products there was distributed in Canada, during the year:—

Munitions	\$450,000,000
Metals	92,083,000
Vehicles	22,776,000
Wood Pulp and Paper	59,599,000

These huge sums were spent in Canada by the Allies.

Canada's own war expenditure for the fiscal year 1918 was \$342,762,000.

And the bulk of all these expenditures, the foundation of Canada's prosperity and war effectiveness, was made possible only because the subscribers to Canada's war loans furnished the working capital.

CANADA must keep this great work going—must produce as never before; must work, fight, save and lend as she has never yet done to bring victory and a lasting peace to a war ridden world.

But Canada to-day (thanks to her great export trade), is in a better position now than ever, to carry on.

The Victory Loan 1918 will keep Canada busy, will enable her to maintain her great export business; and it will make Canada more efficient than ever, because her prosperity will not be diminished and her determination to work, fight and win will be stronger than it has ever been before.

SPANISH INFLUENZA RAGES IN CANADA

Thousands of Cases Reported
With Many Deaths.

THOSE WHO ARE MOST SUSCEPTIBLE TO IT

"FRUIT-A-TIVES"—The Wonderful
Fruit Medicine—Gives the Power
To Resist This Disease.

The epidemic of Spanish Influenza which played such havoc in Europe, has reached this continent. Thousands of cases of the strange malady have appeared and many deaths are already reported; Surgeon-General Blue of the United States Public Health Service having stated that "Spanish Influenza will probably spread all over the country in six weeks".

Practically every ship which touches our shores from abroad, brings those infected with the disease.

Surgeon-General Blue urges that "the individual take all the precautions he can against contracting the disease by care and personal hygiene". Plenty of exercise should be taken; the diet should be regulated, etc.

Spanish Influenza affects most severely elderly persons and others whose powers of resistance are weakened by illness, work or worry, especially those who are "run-down" or "not feeling up to the mark".

The really great danger from the disease is not so much in the disease itself, as that it often develops into pneumonia.

What everyone needs now is a general tonic like "Fruit-a-tives". This wonderful fruit medicine is not a germ-killer. It is a body-builder; a strength-maker; a blood-purifier; a power in protecting against the ravages of disease.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and purifies and enriches the blood. "Fruit-a-tives" tones up and strengthens the organs of digestion insuring food being properly digested and assimilated.

Everyone can take ordinary precautions, avoid crowded places, and use "Fruit-a-tives" regularly to insure sound digestion, to keep the bowels and kidneys regular and the whole system in the best possible condition. Then we are safe from disease.

"Fruit-a-tives" is sold by dealers everywhere at 50c a box, 6 for \$2.50, trial size 25c or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

ESCAPED SOPHIA TO DIE IN HOSPITAL

Steward of Fated Steamship Was
Last Left of Those who
Sailed From Vancouver.

Having been put off the Princess Sophia on her last fateful voyage north, during her call at this port, Joseph Woosnan, a steward of the vessel, was admitted to the General Hospital here suffering with influenza. Later when the sad news came of the loss of the ship with all hands, this man was congratulating himself upon his escape, and surely he had reason to rejoice. His attack of influenza, too, seemed to be passing off, and he seemed to be getting on well. A day or two ago, however, his condition got worse, and this morning he died. He was a young man of 21 years of age and leaves a widow in Vancouver where she resides at 354 Twenty-fourth Avenue, East. His parents and other relatives are also located there.

It seems as if the whole ship's complement of the Sophia was fated for destruction, as Mr. Woosnan was the last left of those who sailed on her from Vancouver.

Only Ten Patients Left in Salvation Army Citadel, All of Whom Are Women and Children.

Continuous progress is being made by the patients at the Salvation Army Citadel. Six more were discharged yesterday, being well enough to go home, leaving only ten now under the care of the nurses. These left are all women and children. There was only one very serious case, that of Lucy Simpson who was stricken down two days ago, very suddenly. She was housemaid for Mrs. McCaffery and her illness came on with startling rapidity. She died this morning.

At Tuck's Inlet cannery, where there were many cases of influenza, one death occurred yesterday, when Joe Wesley died. The epidemic has affected the Indians apparently in a different form at the various reserves in this neighborhood. At Port Essington, the mortality has been low, and the number of cases comparatively few, while further up the Skeena, at Kitwanga, it has been severe. There have been already 16 deaths in this town of totem poles, and the disease seems to be of a virulent nature. On the Naas river, again, reports from Aiyansh have it that it has affected the Indians there in a very mild form, while from the south, at Kitkatla, it is more severe, and has caused 11 deaths there to date, with very many cases of sickness.

Metlakatla reports have been comparatively good, owing to the stringent orders and their being strictly carried out, while the condition of Port Simpson remains favorable.

Dr. Large, of that place, who has been assisting here in Prince Rupert, is returning to his own town this morning to reassure the folks there, and it is probable that he will later proceed to Kitkatla to render assistance. The Rev. Mr. Rushbrook is there meantime doing all he can, as several of the helpers there are also stricken down. Mr. and Mrs. Johnson who were on their way there, are still here in Prince Rupert. Mr. Johnson was going to take up school teaching there, with Mrs. Johnson as matron of the hospital. On reaching Prince Rupert, however, Mr. Johnson was confined to bed with influenza and is not yet well.

Taking all in all, however, the condition of the Indians is comparatively good, and the further spread of the epidemic has apparently been checked.

ONE SERIOUS CASE

Yardmaster of G. T. P. at Borden St. Emergency Hospital; Two Patients Discharged.

Borden Street Hospital is rejoicing this morning that there have been no deaths there since yesterday. The condition of the patients continues to be good. Two were discharged yesterday, while this morning five more were recovered sufficiently to be able to go home, and during that same period only other four cases have been received. There is only one serious case, which is that of Eddie Funk, the yardmaster of the G. T. P., who has been seriously sick for the last day or two, and this morning his condition remains serious.

Everything possible, however, is being done for him, and he has a good chance for recovery.

Dr. Large returned to Port Simpson today after lending his assistance in Prince Rupert for the past few weeks fighting influenza.

COLD STORAGE TAKES \$20,000

Manager Johnson Announces That
His Firm is Making Large
Purchase of Bonds.

Manager T. H. Johnson of the Canadian Fish and Cold Storage Co. announced this morning that his firm was purchasing \$20,000 worth of Victory Loan Bonds. This is the largest amount yet taken by one firm in this district and should be an example to others who are considering taking large blocks.

The cold storage plant is one of the big factors in the commercial life of Prince Rupert and great satisfaction is expressed at their action in taking a big block of stock. It also is an indication of the views of financial people who doubtless look on the stock as a good investment.

"G. E. FOSTER" RETURNS

soon give way, causing her to roll the more and ship other seas.

The man we picked up had on a lifebelt, which had evidently been fastened in a hurry, as it was not done correctly, and his clothes bore the appearance of having been hurriedly put on, as if he had just tumbled out of his bunk, before rushing on deck. There is all probability that as the ship filled, the air in her cabins blew the skylight off, which we picked up.

The body was picked up about 22 miles N.N.-E. of Cape St. James and from the direction of the wind anything floating would be driven up the Straits in the direction of Bonita Island.

The Hecate Straits at this point are about seventy or eighty miles wide and at the supposed position of the Galiano when lost, there would be little traffic. The deceased sailor was named Wilfrid A. Ebbs. He was only a young fellow and came from Nelson. He joined the R.N.V.R. some months ago and his aunt is Mrs. Coombs of 1884 Fifth Avenue, West, Vancouver.

Ditty Bag.

Hanging on to the skylight of the ship was also the ditty bag belonging to another member of the crew named H. Musty, and containing a few articles of clothing.

If any of the ship's boats got away they would be rapidly driven north up the strait before the wind, but the fact that the five vessels have discovered no trace of any of them makes matters look like the total loss of the crew.

The whaling steamers discontinued the search yesterday when the Foster returned here, having little hope of any survivors.

ZEPPEL IS FEARFUL

The Hague, Nov. 1.—Before his departure from Bruges a few days ago the German Military Judge Zepfel, who presided at Fryatt's trial, declared:

"The British will want my head in payment of Fryatt's life, but it is Schroder alone who is responsible. I simply obeyed his orders which insisted absolutely on the death penalty."

CARD OF THANKS

Mrs. R. J. D. Smith desires to convey the thanks of herself and family to her many friends and acquaintances for their kind expressions of sympathy received during her recent bereavement.
