## Alsace - Lorraine Is Restored

### ALLIES MOVE FORWARD AS GERMANS EVACUATE LOST PROVINCES

Now all together everybody, the Victory Bond Campaign is nearly at an end.

#### ALLIES TAKE POSSESSION IN ALSACE AND LORRAINE

ARMIES MOVING FORWARD FOLLOWING UPON EVACUATION OF GERMAN ARMIES—FOCH WILL FORMALLY TAKE OVER CITIES OF METZ AND STRASSBURG

(Special to The News via G. T. P. Telegraphs.)

Paris, November 14.—The Allied armies on the Western Front, following upon the evacuation of the German forces, according to the terms of the armistice, are reported to have started forward this morning. They are taking over the war material which the Germans agreed to give up, and arrangements have been made for the administration of the provinces of Alsace and Lorraine, which have been in German possession since the war of 1870.

The cities of Metz, Strassburg, Colmar and Breisach are expected to be occupied by the Allied forces by Sunday. The United States troops are said to be marching on Metz and Strassburg. Marshal Foch, on behalf of the Allies, will take possession of these two cities formally, in the presence of President Poincaré, Premier Clemenceau, and many other French ministers. The scene will be a historic one, when the long-sundered provinces are reunited with France once again.

Without waiting for the departure of the remaining German armies, the inhabitants of the two provinces have made great rejoicings and public demonstrations have occurred everywhere, and without any reported interference from the former German masters now departing. Already a large part of the great Briey iron district has been evacuated, and the valuable mines and smelters are now once more in French possession. Production is being proceeded with uninterruptedly, but from now on, France will reap the benefits derived from this rich area.

#### TAYLOR STREET HAD BIG BLAZE TODAY

An alarming outbreak of fire took place this morning when the home of Mr. and Mrs. Sherman on Taylor Street was destroyed by fire. The alarm was rung into the brigade at 10:20 this morning and the department were soon on the scene. Where the burning house was situated, however, was some distance from the road and the hose had to be carried a considerable distance across the muskeg.

The fire spread very rapidly, and the whole house seemed to be enveloped in flames, right up to the roof. With the bringing up of another line of hose, however, it was quickly brought under subjection and finally extinguished, before the building, which is quite a large two-story one, was completely destroyed. Many of the valuables were removed while time permitted, and it is understood that the loss is covered by insurance.

#### GERMAN AND RUSSIAN WAS VESSELS MUST NOW BE DISARMED

Would Be Menace to Policing and Provisioning of Former Belligerent Countries By the Allies.

London, November 14.—Problems connected with the policing and provisioning of Russia and the Central Powers hinge primarily upon the immediate disarming of the German fleet, the Russian warships held by Germans, and those under the control of the Ukrainian government in the Black Sea. The warships held by the Bolsheviks in the Gulf of Finland must also be put out of commission, before it will be safe for the allies to assist the starving populations with any shipments of foodstuffs.

#### CONGRATULATIONS

A cablegram, reading as follows, has been despatched by Mayor McClymont to Lieut.-Col. Cy Peck, D. S. O., upon the occasion of the cessation of fighting in France:

"To Lieutenant-Colonel Cy Peck, D. S. O.,

"Rupert's congratulations on the glorious part you and your men took in the whirlwind finish."

"T. McClymont, Mayor."

#### NOTICE

Owing to the abatement of the influenza epidemic, the schools will be permitted to reopen on Monday first, and the churches in the city on Sunday, the 24th of November. The public holiday for the local celebration will take place on Wednesday, the 27th, instead of the 20th as at first arranged.

T. McClymont, Mayor.

#### LITTLE WILLIE IS INTERNED

The Kaiserin, her Daughters, and Granddaughters Remain Safe in their Palace at Potsdam.

Washington, November 14.—The German Crown Prince has arrived in Holland and has been interned, the State Department learned officially this afternoon. He will be treated in the same manner as any other combatant officer is dealt with in a neutral country during war time.

#### Kaiserin Safe.

Copenhagen, November 13.—An armed guard of Workmen and Soldiers is protecting the Kaiserin, her daughters, and her grand-daughters in the Palace at Potsdam, in case of any irresponsible outbreak, according to a dispatch received here today from Berlin. The Kaiserin has expressed her thanks for the courteous treatment she has received at the hands of the revolutionaries, who are now in control of the situation throughout Germany.

#### SPECIAL REQUESTS FOR SOLDIERS' RETURN

(Special via G. T. P. Telegraphs.)

Ottawa, Nov. 15.—The Department of Militia and Defence is being flooded with special requests to have the Canadian soldiers sent home at once. The statement is issued pointing out the impossibility of this course of action in the meantime. However, the Department will take cognizance in all cases where compassion enters in.

#### SOLDIERS GO HOME.

Amsterdam, November 14.—Loaded trains, crowded with German soldiers, who left the front of their own free will, have arrived in Hanover, and in the cities in the West of Germany, according to a dispatch to "Handelsblau" here.

Auditing, J. F. Maguire, box 973.

#### HUN OFFICERS ARE DISARMED

German Soldiers in Brussels Take Weapons From Their Own Officers. Red Flag on Headquarters.

HELP THE BRUSSELLOISE TO FREE THEMSELVES

(Special via G. T. P. Telegraphs.)

Ghent, November 15.—The City of Brussels has at last shaken off the German yoke, which has galloped to cruelly during the past four years. The German soldiers are themselves removing the shackles of the long suffering population.

The Red Flag of the Revolution now floats over the headquarters of the German Commandant, and none of the former German officers are permitted to carry arms.

General von Falkenbain, the German Governor-General of Belgium has resigned his position, as his authority is entirely gone. The German soldiers are doing as they will, and are leaving the city of their own free will as transportation accommodation offers. All semblance of military discipline is gone, and the various units are free to go where they list. Considering the circumstances, however, very few excesses are being reported.

#### DEC. 1 IS NATIONAL DAY OF THANKSGIVING

(Special via G. T. P. Telegraphs.)

Ottawa, Nov. 15.—Owing to the ravages of the influenza epidemic throughout the Dominion, and thousands of the citizens being still sick and confined to bed, the day of national thanksgiving for the ending of the war has been deferred until December 1.

#### NEW GERMAN REGIME INSTITUTES REFORMS

Copenhagen, Nov. 14.—A dispatch from Berlin received here says that the Workmen and Soldiers' Council, in addition to abolishing the censorship, have raised the state of siege. They have also ordered religious liberty, and a political amnesty. Beginning with the New Year, there is to be an eight-hour working day in Berlin.

#### PEACE CONGRESS COMES AFTER BRITISH GENERAL ELECTIONS IN THE MIDDLE OF DECEMBER

(Special to The News via G. T. P. Telegraphs.)

Paris, November 15.—Probably the first meeting of the Peace Congress will be held immediately after the general election which is to be held in Great Britain on December 14. This will be at a time which will give the American and other delegates ample opportunity to arrive. Another meeting is to be held shortly of the Inter-Allied Conference which will determine finally the full details of the questions for the peace conference. Besides outlining the general programme of the Congress, the question of meeting the food situation in Germany and Austria will be considered.

#### New British Parliament.

London, November 15.—A proclamation is to be issued on November 25 summoning a new Parliament, Andrew Bonar Law, Chancellor of the Exchequer, and spokesman for the Government, announced in the House of Commons yesterday. Nominations will be made on December 4, and the polling will take place on December 14. The date for the counting of the ballots will depend upon the bill now before Parliament. If it passes without amendment, it can be postponed until December 28.

#### GRATITUDE TO VOLUNTEERS DURING THE FLU

The Situation Was Saved During Epidemic By the Volunteer Helpers at Borden St. Hospital.

Now that the Borden Street Hospital is closed, I believe it fitting that the citizens of Prince Rupert should be reminded of the debt of gratitude which they owe to those who so generously and unparingly devoted themselves to this work. Below will be found a list of the volunteer workers. (It may be that a few of the names have been overlooked as no day to day record was kept of the workers, and the list has been compiled from memory only.)

Special mention should be made of Mrs. Reilly, day matron, and Mrs. Murray, night matron. Also of Mrs. Vail who filled in as day matron while Mrs. Reilly was incapacitated on account of sickness, and who also assumed the work of Mrs. Murray when the latter had been called to Vancouver. Miss Rothwell and Mrs. Glennia should also be mentioned. They came early in the history of this hospital and stuck to it to the end.

Among the men Roy Christman proved himself a very capable orderly in our great need. Although just recovering from a very severe attack of the "flu," he worked consistently from the day the hospital opened until it closed. Men such as Roy are very scarce this side of the western front.

Billy Martin proved himself to be the old reliable. He took charge of the work of turning the school into a hospital in a day. He collected the beds, bedding and other equipment, and acted as purchasing agent and general man of affairs, and now that the hospital is closed a big job devolves upon him to fumigate the school and return the equipment. The last job will be the most difficult of all, and on his behalf I bespeak the good nature and co-operation of those who so generously loaned equipment to the hospital. Very little of this was marked when it came in and in the rush to get the beds up there was no time to mark it after it came in. Therefore, with some exceptions, confusion may arise in returning this equipment but please do not "take it out" on Billy.

The citizens who loaned beds, etc., for this temporary hospital must also be remembered. It would have been impossible to (Continued on Page Six.)

#### WEARING HALF MILLION MARK

With Total of Over \$406,000 Last Evening, Little Difficulty is Expected in Rounding Out Figure.

#### ENTRASM CONTINUES TO BE MAINTAINED

Considerably over \$55,000 was collected yesterday to the Prince Rupert district's total of subscriptions to the Victory Loan 1918, making the total up till last evening amount to well over \$406,000. With today and tomorrow still to go, there seems every good hope that the half million mark will be reached. And this large amount is not too much to expect either from a city like Prince Rupert.

Arrangements are being made for a little whirlwind campaign down town tomorrow evening, in which the ladies of the I. O. D. E. will take part. Booths at various parts of the city will be open and canvassers in attendance to catch the passers by, so that no one may say that they did not have every opportunity of investing his money, and helping his country at the same time.

The advice to "buy till you're broke" is good advice, and it is being acted upon largely. "Broke then some" is the motto which is responsible for the taking out of many another bond, and most of us can get by with \$100.

#### ANOTHER \$100,000,000 LOAN MADE TO ITALY

(Special via G. T. P. Telegraphs.)

Washington, Nov. 15.—A credit for \$100,000,000 for the Italian Government has been announced by the Treasury Department here. This huge sum will be largely used to pay for the foodstuffs and war supplies already ordered by Italy in the United States, and in process of manufacture for export. The aggregate of the loans made to Italy by the United States amounts to \$1,160,000,000 and those of all the allies to the stupendous total of \$7,912,976,000.

#### MILITARY SERVICE ACT IS SUSPENDED

**The Time Limit Expires Tomorrow.**

Just today and tomorrow! Then the subscription lists for the Victory Loan 1918 will close. The Victory part of it has been assured by the boys at the front, but it is up to each individual at home to make the Loan. And only tomorrow remains.

Tomorrow—"manana"—is and has been the curse of some nations. For tomorrow never comes. Today while it is called today is the time to get busy and buy Victory Bonds.

The wise man who already has bought what he has considered all he could afford, will revise his estimates for the coming few months. There are some things costing money which could be done without, and their proposed cost might well be put into another bond. It will pay in the long run.

Don't put off until tomorrow. Now is the acceptable time.

To those other wise people who have not yet done their part, the same advice applies. Do it now! You are not giving your money away, but lending it at a high rate of interest with the best security in the world. It is a straight business proposition, showing an untaxable profit to the individual.

But what's the use of extending such an argument. Everybody knows it. There is but one thing to do and that is to buy bonds till you're broke.

**No Retiring in Luxury For Ex-Kaiser Wilhelm.**

It is rumored that the ex-Kaiser is to retire to one of his castles. That may be a temporary arrangement until the final peace terms are considered but it will never satisfy the men whose friends have been the victims of the Kaiser's brutality. For the biggest criminal of them all to escape and to live the rest of his days in luxury would not be justice. Wilhelm will have to expiate his sins or there will be some millions of soldiers who will want to know the reason why.

**Stewart to Be Served By Larger Boat.**

Prince Rupert's highway is the sea. That is the way in which she keeps in touch with the outside world. While most places depend upon their good roads to develop intercourse with the neighbors, this city depends upon its steamship travel.

Just now Prince Rupert has a first class service. With seven and eight steamers running regularly to ports of call out of here the highway of the seas is being pretty well utilized. There is only one point that is not getting good service from here and that is Stewart. It is expected, however, that that place will be served in the near future.

The mines of Stewart are rich and one big one will be shipping this winter. The result will be that a good steamer will find ore cargo as well as passengers and ordinary freight to carry away from the camp.

**TREASURE SEEKERS ARE DISAPPOINTED IN THEIR SEARCH**

Papeete, Tahiti, Oct. 13.—(By Mail)—Seekers of treasures, after spending more than \$100,000 in chartering a steamer and equipping an expedition, have discovered that the object of their quest is worthless and the money expended lost.

An iron vessel was wrecked on the shore of the island of Takaroa. The same company which, some years ago raised the steamer Walkure in Papeete harbor dispatched a representative to report on the conditions of the wreck. On the strength of this report the steamer Raymond was chartered out and fitted.

When ready for the work of salvage to commence it was discovered that the plates on the vessel were rusted through and that they could not stand the strain of an ordinary squall. All attempt to salvage the ship had to be abandoned.

## CREW OF POLAR BEAR ARRIVE IN VICTORIA

Captain Hadley of Stefansson's Exploration Ship Arrives With Nine Men From Nome.

SHIP HAS BEEN BEACHED AWAITING MANY REPAIRS

The Polar Bear, Stefansson's exploration ship now at St. Michael, Alaska, will cost from \$5,000 to \$6,000 to repair, in order to remove the effects of damage sustained at Barter Island last June.

This is the statement of her captain, J. R. Hadley, who with nine men has arrived in Victoria to report to the naval authorities there.

Captain Hadley says it may be months before anything further is heard of Storker, Storkerson's party, which was reported in September to be pushing on moving ice into the unexplored section of the Beaufort Sea. He does not expect news until next spring, perhaps not until late in 1919. Lack of communication explains this expectation of delays, he says.

### An Experienced Man.

Captain Hadley, ice navigator since 1876, told some of his experiences in connection with the Canadian Arctic Expedition. Only three winters since he first made acquaintance with the frozen north has he spent outside, so that his experience of the latest expedition is nothing new.

The story of the winter of 1915-16 at Armstrong Point, Prince of Wales Strait, Victoria Land, of the same season of 1916-17 at Walker Bay, and of operating as a supply ship during the short open summer season is largely that of the Stefansson expedition already told.

### Food Shortage.

Captain Hadley explained an aspect which is often lost sight of in the record of these expeditions. "The supporting boat," he said, "has by no means an easy time so far as its occupants are concerned, for everything in the nature of food has to make way for the ice parties, so that the ship's crew is left with the changeless diet. There is the chance of getting fresh meat sometimes, but often that is impossible, and frequently fish is not easy to secure."

The bitter cold is very trying, the captain stated that at Walker Bay the thermometer registered sixty-five degrees below.

The captain described the circumstances under which they left the base at Cape Kelleit on August 8, 1917, after the season's effort to connect with the explorer, and the final meeting with the Challenger, having Stefansson on board late in the month of August at Baillie Island. Here owing to circumstances which led to the allegations of attempting to maroon him to which currency was given many months ago, Stefansson appointed Mr. Hadley, who was then second officer, to the command of the boat, after discharging the captain and mate.

### Off Barter Island.

Thus the captain became in charge of the Polar Bear, fourteen months ago, and worked his way along the northern coast to Barter Island. On September 14 and 15, 1917, a gale arose and the ship was badly strained. The anchors dragged, as the vessel drove on shore. The delay forced the party to winter, the vessel being not well suited to ice work. The captain says the Polar Bear is not heavy enough for ice work, as a result of which the ice caked on the sides of the vessel instead of breaking it, and a kedge anchor had to be dropped astern to hold her off.

The long dreary northern winter thus was again spent in the solitudes of the Arctic ice and wind, and thus it came about that damage occurred to the vessel last May, or in the early part of June, when about twenty feet of the keel was pulled out, the rudder stock broken, the rudder bent and the main masthead broken.

Temporary repairs were effected, and on August 6 Point Barrow was reached. There was so much ice, however, that it was necessary to lay there for eleven days, and three or four days later Nome was reached in the middle of September.

"We were advised," he said, "to

take the Polar Bear to St. Michael's, where she was beached, and is still there waiting the disposition of the Canadian Government.

The party came down on the steamer Victoria from Nome. As the captain acted for some time, after George H. Wilkins left, as the photographer of the party, it is understood he brings a number of pictures of the blond Eskimos on Victoria Land, for the authorities.

### INFLUENZA GERMS CAN BE SWALLOWED BY WHOLESALE

No Danger of Contracting Influenza.

So states a well known Vancouver doctor who offers to swallow a capsuleful every day for a week. The Doctor is right.

With plenty of fresh air, good nourishing food and a tablespoonful of KENNEDY'S TONIC PORT four times daily you can keep your body strong and thoroughly fortified against the ravages of influenza, asthma, bronchitis, colds or coughs.

BIG DOCTORS PRESCRIBE IT. DRUG STORES SELL IT.

Even if you have already bought a Victory bond, don't you think you could manage to pay for another?

NOTICE is hereby given that the Sale of Lands to be held on the twenty-fourth day of October next upon which delinquent taxes are due has been postponed so far as lands in the Prince Rupert Assessment District are concerned and that on the 25th day of November following a sale will be held of all such lands in the said Assessment District.

C. W. HOMER, Assessor and Collector DATED this 2nd day, of October, A. D. 1918

## The Spirit of Sunlight

All over the land the sun calls forth beauty, cleanliness, health and the renewing of youth. So with Sunlight Soap in the home. It redeems everything washable from the thralldom of dirt. Renews beauty and brings out old colors. It cleanses with a sure, gentleness that only the purest of soaps could accomplish.

## Sunlight Soap

Its mission—as thousands of homes know—is to wash clothes, from the finest to the coarsest, without rubbing or old-time labour and discomfort. Also to wash woodwork, linoleums, dishes, utensils, etc., spotlessly clean with only a little soap. All this because it is absolutely pure.

The spirit of Sunlight is purity and cleanliness.

No one can buy better Soap.

## NAVIGABLE WATERS PROTECTION ACT.

R. S. C. CHAPTER 115.

The Port Edward Fisheries Limited hereby gives notice that they have, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of the Land Registry, District of Prince Rupert, at Prince Rupert, B. C., a description of the site and the plans of a cannery and wharf proposed to be built situated on portion of Porpoise Harbor at Port Edward, B. C., in front of part of Lot 4476, Range 5, Coast District.

And take notice that after the expiration of one month from the date of the first publication of this notice, the Port Edward Fisheries Limited will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans and for leave to construct the said cannery and wharf.

Dated at Vancouver, B. C., this twenty-fourth day of October, 1918.

# STEEL SHIPS TO BE BUILT IN VICTORIA

Will Be Operated By Company in Co-Operation With Canada's National Railway System.

## FOUR EIGHT-THOUSAND-TON STEAMERS TO START

Bringing with them the signed contracts for four steel vessels of 8,100 tons each, to be built at Victoria, Mr. Chas. V. Spratt, head of the Victoria Machinery Depot, and Mr. R. R. Neild, manager for the firm, have arrived back in Victoria after completing negotiations with the Dominion Government for the construction of steel ships here. Besides the actual contracts for four vessels the company has assurances of enough construction to keep the new yard going for some years, just as long as the Government programme continues. The new steel plate works at Sydney, N. S., which are now being built, have contracts to supply ships' plates to the Government for five years from the time they start work about next July, so that would insure at least five years' work on Government ships here.

### A New Industry.

The success of the Victoria Machinery Depot in securing these contracts means the inauguration of a new industry which is bound to be more permanent than that of wooden shipbuilding. The V. M. D. will build the hulls of the vessels, the engines and some of the other equipment, although the officials of the company are not ready to say just how extensively they will commence. The plant will cost an enormous sum and the payroll will be a large one. Two ways will be used.

It is not yet known how fast the boats can be turned out, and there is no time limit set. But as ships will be started as fast as the ways are cleared, it will pay the company to work at high speed.

The steel for the new vessels will be got from Pittsburg at first but as soon as the new works at Sydney are ready the plates will come from there.

### Used With Railway.

Speaking of the new steel vessels which will be built for the Government, Hon. C. C. Ballantyne, Minister of Marine, after expressing the view that the rates of freight prevailing would continue for some time after the war, said it was the intention of the Government to operate its vessels in connection with the Canadian National Railway System on the Atlantic, the Pacific, and the Great Lakes. There will, he said, "unquestionably be a very great demand for tonnage to carry products of the field, the mine, the forest and the factory, as well as to bring back the Canadian soldiers who have splendidly participated in bringing about the victory which now seems so near."

The Minister further authorized the statement that, on his recommendation, the Government had decided that the vessels to be constructed will be operated by a steamship company organized to work in co-operation with the Canadian National Railway System, free in all respects from interference of any kind and under the management of Mr. D. H. Hanna and his board of directors. In the adoption of this policy, Mr. Ballantyne said: "The Government is following the system adopted and now in operation by the Canadian Pacific Railway."

### A Natural Inquiry.

"I should like a porterhouse steak with mushrooms," said the stranger, "and some delicately browned toast with plenty of butter."

"Scuse me, suh," interrupted the waiter. "Is you tryin' to give an order or is you jes' reminiscin' 'bout old times?"

Oh say! The News Print Shop does its work about as cheap as most shops and quite as well, gives you the work on time whenever possible and hands it out with a pleasant "Thank you." What do you say to giving them a trial on your next job?

Why delay further? Buy that Victory bond now and settle the matter.

# How Many Crowns for Your Honor Flag?

Of course every city, town and district will earn its Honor Flag.

But how about the crowns?

For every twenty-five per cent. in excess of its quota, each city, town and district will be entitled to add a crown to its flag.

Can you do fifty per cent. better than your quota—that means two crowns for your Honor Flag.

But double your quota and it means four crowns.

Hang a flag in your hall, that for years to come will show that your city, town or district did better than well—

That it was a real factor in the huge success of CANADA'S VICTORY LOAN 1918.

have started the hospital without their co-operation.  
I very much regret that so many of the good samaritans contracted the "flu" while devoting themselves to the nursing of the sick, but they have the consolation that their sacrifice of service so generously offered doubtless saved many lives and will be gratefully remembered by those who were ministered unto, and the citizens of Prince Rupert in general. When the disease was at its climax the work was difficult and very wearisome to many who were not inured to this sort of effort, and much courage and dogged stick-to-itiveness was in evidence.  
Prince Rupert may well be proud of these volunteer "flu" workers.

## MARKET PRICES STILL SHOW AN UPWARD TREND

But, Unlike Europe, Supplies in Canada Are Still Plentiful Although Food Costs More.

Judging by the store window displays as well as by other obvious things, there is no doubt that the winter season is upon us. Christmas and New Year are only a few weeks away, too, according to the calendar, for further proof. The fall soft fruits are now off the market and apples, in good variety, are the mainstay meantime. Another gauge of the season is the price of new laid eggs which today are being offered, and few, too, at that, at 81.10 per doz. Hens ought to be wearing an air of importance these days.

Among the new shipments this week are Australian currants, which are selling at 30c per lb. Hitherto Greece has had the monopoly of this little dried grape but with the scarcity of shipping recently imports from Europe have fallen off. And the Australian growers are seizing their opportunity.

Among the few staples which in price has remained comparatively stationary is coffee, and for the same reason. The South American plantations have been unable to get space for exports to Europe, but with the release of shipping now, and Europe being short, the demand will increase and the price naturally rise.

Malaga grapes are arriving and new comb honey looks good. Oranges are scarce at \$1 a dozen, but in a few weeks should be more plentiful and cheaper, when the navels arrive.

The following prices are obtaining:—
