DAILY EDITION. Tuesday, Nov. 26, 1918.

Social Evil Is Rampant in East.

People who live in the west know what the morality of the west is like, or at any rate some people do. A recent issue of the Canadian Municipal Journal has an editorial article in the current number which deals with the question as it affects Montreal. It says: "A committee of Montreal citizens, who have been investigating the vice conditions of Canada's commercial metropolis recently published their first report. This report, which of necessity was somewhat lurid in places, is a strong indictment of our economic and social systems, particularly as they affect young girls. In almost every community the young man would seem to have every protection—almost coddled—whereas for the young woman, who makes up the majority of our workers, there is little or no protection. With the average girl, because of our one-sided standard of social morality which says in effect, that man can do no wrong so far as the opposite sex is concerned, it is one continual struggle against temptation. With the working girl away from home it is one hell of an existence to keep from falling to the level of the prostitute. The miserable pay, the long hours, the gray life of the shop girl, the factory girl, the office girl, have proven great recruiting factors for the profession of prostitution. These and other causes are too often forgotten in the overwhelming shame of the woman. She becomes the outcast of society from whom we must 'protect' our young men. She pays the price of her share of the sin but the man goes free—no stigma attached to him."

Education of Public Necessary.

"There is no doubt about the situation in Montreal being bad, though the vice conditions as investigated by the citizens' committee are not peculiar to Canada's great seaport by any means. Every community has its own vice problem. Perhaps in a lesser degree than Montreal, but the problem is there nevertheless. The report urges the education of the public mind on the subject. This is quite right, for the public should know what a cancer of immorality it has on its body social, but when it suggests that an enlightened public opinion will help back the police to do their duty in eradicating the cancer, it is to condemn the present system of carrying out the law, which admittedly is weak. A house of prostitution is run for the profit of the keeper (usually a woman), the landlord, and the procurer—the girls are paid the least of all though they suffer all the diseases peculiar to the life. When a raid is made the keeper and the girls are usually fined, and the proceeds, in the case of Montreal, being divided between the city and the Province. Last year the fines collected amounted to \$41,604. This means that both the city and province have in practice become unconscious partners in commercialized vice; the fines simply amounting to a special tax. This is not the fault of the law which, in the Province of Quebec, is stringent to satisfy the most rabid of moral reformers; the fault lies in the fact that the law is not carried out."

"From reports of other investigations that have been made from time to time on this social disease, not only in Montreal, but in other communities, we have been forced to the conclusion that if a city, town or village has an efficient and honest police force no white slave traffic can prosper. The strict administration of the law, as it stands, by police and magistracy, will always inspire fear among the brothel keepers, and their parasites, the 'pimps,' or procurers. We believe that a little examination, of every 'pimp' caught will bring him in that category of worse than thieves who can only be appealed to by the lash, well applied."

"Montreal has a new police regime under the same man who made the fire department of the city famous for its efficiency. He has almost unlimited power delegated to him and there is absolutely no reason why he should not make Canada's commercial metropolis as clear of commercialized vice as other Canadian cities—without waiting for public opinion to back him up. He has a big job ahead of him, but we believe Director Tremblay is big enough for it."

Duty of Churches Regarding Matter.

"While the police have a very definite duty in the suppression of vice where and when it exists, it is well to remind the churches and other Christian agencies that the task of suppression of vice—particularly prostitution—is getting harder each year. And the reason we take it that the great Christian tenet of virtue has lost much of its potency during these last few years. Every boy and girl brought up in the Christian faith is supposed to know the deeper meaning and significance of honor and virtue—and yet every prostitute claims to belong to some church, or at least was brought up in one. Why this laxity?"

How to wash a silk garment

Use a tablespoonful of Lux to a gallon of water. Dissolve in boiling or very hot water and whisk into a thick, creamy lather. Add cold water until luke warm. Dip your garment through the Lux suds many times. Work it about, gently squeezing the suds through the soiled parts but do not rub! Rinse in three waters—clear and also luke warm. Press the water out—but do not wring. Dry in the shade and when nearly dry press on the wrong side with a warm iron—never a hot one. Press crepes from side to side and stretch a very little as you press. They will look just like new!

ICE AND BAIT SHOULD BE PROVIDED AT ONCE FOR THE FISHERMEN

Mayor and Aldermen Discuss Question at Close of Meeting Last Night.

At the conclusion of the general business of the City Council last night Mayor McClymont said he wished to make a statement in regard to the fisheries question. He told of what had been said on the platform to the effect that if private enterprise did not provide the fishermen with ice and bait the municipality should do it.

For the past two years people had been talking of a cold storage. They were able to get sites and power but the proposals always fell flat. A few months ago there was a meeting of citizens and a committee was formed to canvass the possibilities. This also seemed to have fallen down.

Personally the mayor said he was not in favor of going into the cold storage business, for financial reasons, but something might be done in the way of manufacturing ice and providing bait. He thought they should have a municipal wharf where anyone might buy or sell fish and where they could put up bait and ice. The city could finance it by selling bonds as they did for the Victory Loan.

Alderman Dybhavn said that the committee had not yet given up the other scheme but that a meeting would be held this week to finally decide.

Alderman Casey said that nothing had been done by the Council toward developing anything. The time now was ripe for action. If a private concern would undertake it he would be pleased, but even then there might still be something left for the City Council to do. He thought it would be a good thing to appoint a commission to go into the question with the fishermen and tabulate the definite requirements. If they rose to the occasion they might do something. With all the data to hand they would have the confidence of the public who would back them up if they carried it out.

TELEPHONE CHANGES TO BE RECONSIDERED

Council Will Again Discuss the Matter Before Rates Are Finally Set.

As a result of the efforts of Alderman Kirkpatrick and Alderman Casey the final consideration of the telephone rates bylaw has been set over for a few days in order to give an opportunity for those opposing it to bring forward a rival plan.

Alderman Kirkpatrick objected to the proposed scheme in that it meant an increase on residential telephones of about 62 cents a month, whereas the increase on business phones she claimed was only 12½ cents a month.

Alderman Casey suggested a general increase of 30 cents in order to meet the deficit.

After a good deal of discussion the resolution to delay was passed.

Then We Meet Some Like This

A lady told one of our girls last week that she liked Pacific Milk well enough for cooking but that fresh milk is what she uses mostly.

"But," she added, "my husband insists I have it in the house for his coffee and porridge."

We find a great many homes like this. Some frankly admit they are prejudiced against tinned milk and do not use it.

Others, like this lady, get it because the family prefers it for coffee, etc. But the bulk of our output is used for cooking—as we prove by house to house investigation.

Local News Notes

A report of a meeting of the Trades and Labor Council published yesterday seems to have created a wrong impression. A committee of the fishermen's union which waited on them was cordially received and there was no attempt made to stamper the discussion.

Arrangements have been made for a funeral service for the late H. S. Woods whose death took place some time ago from pneumonia following an attack of influenza. The service will be held on Saturday afternoon at 3 o'clock at the Presbyterian Church, Rev. H. R. Grant officiating. The body will then be sent east for burial.

At a meeting of the Police Commissioners held yesterday afternoon for the purpose of considering complaints laid against the police magistrate by Sub-Inspector Adams it was decided that as they were advised they had no power to investigate anything they would forward the complaint to Victoria and ask for a commission of investigation.

Miss Johnson, stewardess of the steamer Prince Rupert which was in port yesterday, is again busy with Red Cross work. She has a fine georgette crepe blouse which has been donated by Gold-bloom's, which is to be raffled for the local branch. A second prize of a white pair of socks donated by Mrs. Casley of Seattle, formerly of this city, makes an interesting lot of prizes. Anyone wishing to purchase chances on these can do so at the boat on its arrival next Saturday.

STRONG OPPOSITION BY BOLSHEVIKI FORCES

(Special via G. T. P. Telegrams.)

Archangel, Nov. 25.—American and Entente forces have encountered strong opposition both on the Vologda-Archangel Railway and on Dunia River. Owing to the swampy condition of the terrain it has been necessary to confine operations to the waterway and railway as the upper part of the river is deeper than at its mouth. Bolshevik craft equipped with large guns have been better able to manoeuvre than Entente ships and have prevented the occupation of Kotlas. The Entente officials fear a great massacre if the Allied troops should withdraw now.

THREE KILLED IN TORONTO COLLISION

(Special via G. T. P. Telegrams.)

Toronto, Nov. 25.—Three persons were instantly killed, one died from injury and two others are in the General Hospital here as a result of a collision between a Grand Trunk train and a motor car at the Queen Street crossing in Brampton, shortly before six o'clock Saturday night. The dead are Edith and James Sawdon, Pearl Belles and Miss Ethel G. Wilson; injured W. and Charles Sawdon.

WHERE HE LEARNT

An American soldier who was presented to General Berthelot for gallantry and initiation during night raiding operations on the Marne was asked whether he learnt his daring scoutcraft from the "redskins" in his regiment. "You're off the target, General," replied the doughboy, "the man who taught me to raid Fritz without disturbing anyone else was a Scotchman!"

LEAFLETS FROM THE GUARDS

Apropos Hindenburg's statement that 200,000 leaflets were dropped over Germany in July, it is learnt that the British propaganda raids over the Rhine area were not carried out by aeroplanes but by a new "crewless" balloon which drops its cargo automatically in batches at arranged points en route.

"I've proved Doubt Beyond"

that Zam-Buk's power is infinitely superior to that of any other ointment. That not only is Zam-Buk capable of curing where other remedies fail, but Zam-Buk cures are permanent.

When living in Vernon, I suffered acutely for over two years with a sore on my leg, which, despite all treatment, turned into an open ulcer. I tried all kinds of ointments, lotions, etc., but the ulcer only got worse, and finally became so bad that I decided to go into a hospital for treatment. Before doing so, however, a friend advised me to try Zam-Buk, which I did, and the first few applications gave me such relief, that I was encouraged to continue. By degrees all the soreness and inflammation were drawn out, and then healing began.

To cut a long story short, perseverance with this wonderful balm resulted in a complete cure. To me it seems nothing short of marvellous, that after suffering so intensely for so long, Zam-Buk should effect a cure in such a comparatively short time, after all other remedies had failed. It is

two years now since this cure was effected, and there has not been the slightest trace of the ulcer returning.

Since I have enlisted I have further proved the power of Zam-Buk. I have just returned from the front where the men say it is invaluable—so splendid for the many injuries and ailments incidental to the soldier's life. I have personally given Zam-Buk to many of my men for various ailments and injuries and in all cases the results have been eminently satisfactory.

I shall be glad if you will publish this letter, as I think everyone should know of this wonderful healing ointment—Zam-Buk."

ZAM-BUK

CURES ARE PERMANENT

HOW ZAM-BUK CURES

The secret of Zam-Buk's healing power lies in its herbal composition and its combined penetrating and germicidal properties. Being so refined, Zam-Buk is capable of reaching the underlying tissues, where skin troubles have their roots, and of destroying all germs. Thus the healing agencies acting upon the tissues promote new growth. New tissue gradually replaces the old, until the diseased patch becomes new, healthy skin.

Zam-Buk is best for eczema, ringworm, ulcers, abscesses, blood-poisoning, piles, boils, burns, scalds, cuts and all skin troubles and diseases. All druggists and stores sell it, or Zam-Buk Co., Toronto.

Coughs

Coughs are Nature's danger signal—Nature's way of telling you that in throat or breathing tubes there is something wrong—something needing attention. Perhaps the delicate membranes have been chilled and are inflamed and sore. Disease germs may have lodged there and may be setting up irritation, which if not checked will bring on acute bronchitis, asthma, or even worse evils! So never ignore a cough.

Peps kill coughs because they remove the causes. As soon as a Peps is dissolved in the mouth, powerful, but pleasant, medicinal vapors are liberated. These healing fumes bathe the lining membranes of the throat and breathing tubes, kill disease germs, allay irritation and soothe the inflamed parts.

Peps enable you to end coughs and colds in Nature's way, by breathing in the medicine the same way as the disease germs causing the trouble were breathed in! Isn't this wiser treatment than the swallowing of mixtures into your stomach—which is not ailing?

For coughs, colds, bronchitis, asthma, sore throat, night cough and all troubles of throat and chest, try Peps. Best for children because pleasant to take and free from opiates, etc. All dealers, 50c. a box.

QUEEN CHARLOTTES

The influenza cases are decreasing rapidly on the Queen Charlotte Islands. Since the commencement of October, twenty Indians have died.

Lillian Nelson, a young woman raised in the Port Simpson Home, died in the General Hospital, at Vancouver, from the effects of influenza. The deceased was twenty years of age and was an inmate of the Home for sixteen years.

Four deaths of whites at Port Clements, and one death at Buckley Bay comprises the list of fatalities from the influenza in the saw mill town and logging camps of the North end of Graham Island. Hospitals were opened at both places which will shortly be closed.

It is reported that the logging operations of the Ocean Falls Co. will be discontinued, so far as Queen Charlotte Islands are concerned, in a short time. The discontinuance of the spruce output opens up a number of limits further south on which the Ocean Falls company will obtain the necessary timber.

The mortal remains of Alex. Davis, a young man of Massett, who formerly lived in Alaska, with the body of his infant child, were interred at Massett last week. Moses Gould and Phillip Nelson, two natives of Massett, and the infant children of Joseph Adams and Phillip Bell were also victims of influenza.

News was received recently of the death of Louisa Brown, daughter of Mrs. Samuel Davis, who passed away in Alaska. The deceased was well known on the Queen Charlotte Islands.

Alfred Adams and Henry Edenshaw are recovering from a severe attack of influenza. The disease made great inroads on the families of the Indians of the Massett and Skidgate Bands. Isaac Wilson, Jacob Wesley, Hannah Smith, Mrs. Luke Watson, a child of Solomon Wilson, and Mrs. Hannah Smith died at Skidgate.

POOR DISCIPLINE ON BATTLESHIP KAISER

Brass and Copper Fittings Had Been Removed; Members of Committee in Charge.

(Special via G. T. P. Telegraphs.)

London, Nov. 25.—During the examination of German ships which surrendered on Thursday, a strange state of affairs was found to prevail on the battleship Kaiser. All brass and copper fittings had been removed. Only five German officers remained on board and discipline was at low ebb. Sailors, wearing the white armlet of the Soldiers and Sailors' Council, were exercising authority among the crew and the interior of the vessel was no longer kept in a state of strict cleanliness. It was odorous and stuffy. Portraits of the former Emperor in the captain's cabin and wardrobe remained unchanged.

Everything in Toyland for the children at Tite's.

Fire Insurance

Winter is approaching. This means that the fire risk to your property is increasing through the hotter fires in your stoves and in your neighbors' stoves. Buildings are getting older, many have settled more or less on their foundations. In some instances this has caused the chimneys to crack and become dangerous when winter fires are lit. Would it not be well to protect yourself now against loss by insuring your property?

In order that all employees of The Daily News may have an opportunity to join in the peace celebration there will be no paper tomorrow and the printing plant will also be closed for the day.

When the steamer Prince Albert was tied up at the wharf at Buckley Bay during her recent trip there was also at the same wharf a big scow loaded with lumber and a Davis daff. This gives an idea of the extent of this wharf.

All members of organizations in connection with the Trades and Labor Council, in addition to the regular delegates, are particularly requested to be present tonight to make final arrangements for the procession tomorrow. 1t

The float which will represent the Allies in the procession tomorrow will be a very gorgeous affair. It will be manned exclusively by the children of soldiers, some of whom are awaiting their daddy's return, and some whose daddys will never return.

FISHERMEN MET CITY COUNCIL

Committee appointed to Wait on Government Engineer to Discuss Uses to Which Floats Would Be Put.

WHOLE PROJECT WILL AGAIN BE DISCUSSED

Opinion Expressed That Aldermanic Board Should Evolve Plan of Improvement For Waterfront.

On a motion from Alderman Dybhavn, Mayor McClymont and Alderman Casey were appointed to act jointly with a committee of the fishermen to wait on the Provincial Government Engineer to discuss with him the uses to which the new docks at Cow Bay are to be put. This was the outcome of a long and at times rather discursive discussion which took place at a meeting of a committee of the whole City Council with a delegation of fishermen following the regular Council meeting last night.

It was also announced that the Council would again take up the whole Cow Bay question and see if it might not be possible to work out a plan which would be acceptable to the Provincial Government and of benefit to all concerned.

There was a good deal of ancient history raked up during the discussion and the attitude of The News came in for some criticism, it being shown that the only information the fishermen had was what was given them by the engineer, and it went to show that their worst fears were confirmed. The plans plainly showed that the new floats were to be used for private leases, for government launches and for private launches. While it may not have been the intention to use the floats for those purposes the plans indicated it and the engineer stood by his plans.

W. H. Montgomery, C. Edwards and Bob Hanna were the chief speakers for the fishermen. Mr. Edwards outlined the position in regard to the floats and Mr. Montgomery substantiated what he said. He also claimed that the Council had never yet shown any clear intention of doing anything with the waterfront land it was asking for, and, therefore, could not expect to get it. He claimed they had a right to make suggestions to the Government who were the custodians of public property. He also claimed that the City should not be allowed to hold up waterfront any more than the Government, but should come forward with a definite scheme in a business-like way and then ask the Government for approval.

In answer to questions from the Mayor and Aldermen the fishermen admitted that the proposed floats would be of great advantage to them, but that they would not accommodate the whole fleet. Many boats, it was pointed out, had gone to Vancouver and Seattle because there was no place to tie up here. If the docks were three times as large as those proposed they would still be filled. The only objection they took to the plans was the prospect of having the places filled by government boats or private leases and there being no place left for the fishermen.

After the passing of the resolution the meeting adjourned on the understanding that their committee would look after the matter.
